Notes to Annex 3

1. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.
2. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.
3. This Agreement shall not apply to contracts which the entities in Group A award for purposes of their daily profit-making activities which are exposed to competitive forces in markets. This note shall not be used in a manner which circumvents the provisions of this Agreement.

4. Notes to specific entities:

- (a) Procurement related to operational safety of transportation is not included.
- (b) Procurement which could lead to the disclosure of information incompatible with the purpose of the Treaty on the Non-Proliferation of Nuclear Weapons or with international agreements on intellectual property rights is not included. Procurement for safety-related activities aiming at utilization and management of radioactive materials and responding to emergencies of nuclear installation is not included.
- (c) Procurement related to geological and geophysical survey is not included.
- (d) Procurement of advertising services, construction services and real estate services is not included.
- (e) Procurement of ships to be jointly owned with private companies is not included.
- (f) Procurement of public electrical telecommunications equipment and of services related to operational safety of telecommunications is not included.
- (g) Procurement of the services specified in Annex 4, other than construction services, is not included.

WORLD TRADE ORGANIZATION

RESTRICTED

GPA/W/253

25 February 2003

(03-1152)

Committee on Government Procurement

Original: English

PROPOSED MODIFICATIONS TO APPENDIX I OF JAPAN

Notification from Japan under Article XXIV:6(a)¹ of the GPA

The following notification from the Permanent Mission of Japan was received on 22 February 2003 with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement (GPA), the Government of Japan wishes to notify the Committee on Government Procurement of the following rectifications of a purely formal nature with regard to Annex 3 of Appendix I of the Agreement (cf. WT/Let/425/Rev.1):

- to add "- Japan Mint" after "- National Agency for Vehicle Inspection" in Group B in the "List of Entities"; and
- to add "- Japan Mint" after "- National Agency for Vehicle Inspection" in Group B in the "List of Entities which procure the services, specified in Annex 4".

The above rectifications are the result of the following organizational changes relating to a central government entity listed in Annex 1. Such rectifications do not alter the level of the mutually agreed coverage provided in the Agreement:

- (1) Through Japan's central government reform process, a part of the undertakings, which have been carried out by the Mint Bureau, an attached organization to the Ministry of Finance in Annex 1, are to be conducted by the Japan Mint. In accordance with the Law Concerning the Japan Mint (Law No. 40 of 10 May 2002) and its relevant ordinances, this organizational change will be implemented as of 1 April 2003. The Japan Mint will be established as an Independent Administrative Institution, which

¹ Article XXIV:6(a) reads as follows: "Rectifications, transfers of an entity from one Annex to another or, in exceptional cases, other modifications relating to Appendices I through IV shall be notified to the Committee, along with information as to the likely consequences of the change for the mutually agreed coverage provided in this Agreement. If the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII."

shall be legally independent from the government, to perform transferred undertakings efficiently and effectively. (The outline of this entity is contained in Attachment A hereto.)

- (2) Since this new organization does not fall within the central government entities covered by the Accounts Law, and is not provided for in the National Government Organization Law, nor in the Law establishing the Cabinet Office, Japan has decided to add this entity to Annex 3 regarding both supplies and services (under Group B in the "List of Entities" and the "List of Entities which procure the services, specified in Annex 4"). In such a manner, the Agreement can be applied to the Japan Mint, with the same thresholds and conditions as stipulated in Annex 1 for central government entities.
- (3) This entity will have accounting rules as of 1 April 2003 to implement the relevant thresholds and procedures under the Agreement. Challenge procedures, as provided for in Article XX of the Agreement, will apply to procurement conducted by this entity, which will fall under the control of the Ministry of Finance.
- (4) The above-mentioned rectifications are consistent with the relevant notification from Japan (GPA/W/129, dated 19 March 2001), which became effective on 5 September 2001 (WT/Let/400).

Attachment B² provides a summary of the modifications proposed by Japan to Annex 3 of Appendix I. Attachment C² indicates how Annex 3 of Appendix I would appear after the proposed modifications have been made.

² Attachments B and C are in English only.

ATTACHMENT A
OUTLINE OF THE JAPAN MINT
(TO BE ESTABLISHED AS OF 1 APRIL 2003)

A. PURPOSE

- (1) To contribute to the stability of the nation's Currency System by manufacturing coins and implementing other measures.
- (2) To provide products and services, such as orders of merit, metallic art objects and hallmarks, for the purpose of public interest.

B. SCOPE OF THE WORK

- (1) Manufacturing and selling coins.
- (2) Producing orders of merit, medals of honour and metallic art objects.
- (3) Other services (e.g. hallmarking).

C. ORGANIZATION

Head Office: Osaka
Branch Offices: Tokyo, Hiroshima

D. RELATIONS WITH THE CENTRAL GOVERNMENT

The competent ministry for this organization is the Ministry of Finance.

ATTACHMENT B

JAPAN

(Authentic in the English language only)

Notes to Annex 3

1. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.
2. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.
3. This Agreement shall not apply to contracts which the entities in Group A award for purposes of their daily profit-making activities which are exposed to competitive forces in markets. This note shall not be used in a manner which circumvents the provisions of this Agreement.

4. Notes to specific entities:

- (a) Procurement related to operational safety of transportation is not included.
- (b) Procurement which could lead to the disclosure of information incompatible with the purpose of the Treaty on the Non-Proliferation of Nuclear Weapons or with international agreements on intellectual property rights is not included. Procurement for safety-related activities aiming at utilization and management of radioactive materials and responding to emergencies of nuclear installation is not included.
- (c) Procurement related to geological and geophysical survey is not included.
- (d) Procurement of advertising services, construction services and real estate services is not included.
- (e) Procurement of ships to be jointly owned with private companies is not included.
- (f) Procurement of public electrical telecommunications equipment and of services related to operational safety of telecommunications is not included.
- (g) Procurement of the services specified in Annex 4, other than construction services, is not included.

Committee on Government Procurement

Original: English

PROPOSED MODIFICATIONS TO APPENDIX I OF JAPAN

Notification from Japan under Article XXIV:6(a)¹ of the GPA

The following notification from the Permanent Mission of Japan was received on 22 February 2003 with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement (GPA), the Government of Japan wishes to notify the Committee on Government Procurement of the following rectifications of a purely formal nature with regard to Annex 3 of Appendix I of the Agreement (cf. WT/Let/425/Rev.1):

- to add "- National Printing Bureau" after "- National Agency for Vehicle Inspection" in Group B in the "List of Entities"; and
- to add "- National Printing Bureau" after "- National Agency for Vehicle Inspection" in Group B in the "List of Entities which procure the services, specified in Annex 4".

The above rectifications are the result of the following organizational changes relating to a central government entity listed in Annex 1. Such rectifications do not alter the level of the mutually agreed coverage provided in the Agreement:

- (1) Through Japan's central government reform process, a part of the undertakings, which have been carried out by the Printing Bureau, an attached organization to the Ministry of Finance in Annex 1, are to be conducted by the National Printing Bureau. In accordance with the Law Concerning the National Printing Bureau (Law No. 41 of 10 May 2002) and its relevant ordinances, this organizational change will be implemented as of 1 April 2003. The National Printing Bureau will be established as

¹ Article XXIV:6(a) reads as follows: "Rectifications, transfers of an entity from one Annex to another or, in exceptional cases, other modifications relating to Appendices I through IV shall be notified to the Committee, along with information as to the likely consequences of the change for the mutually agreed coverage provided in this Agreement. If the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII."

an Independent Administrative Institution, which shall be legally independent from the government, to perform transferred undertakings efficiently and effectively. (The outline of this entity is contained in Attachment A hereto.)

- (2) Since this new organization does not fall within the central government entities covered by the Accounts Law, and is not provided for in the National Government Organization Law, nor in the Law establishing the Cabinet Office, Japan has decided to add this entity to Annex 3 regarding both supplies and services (under Group B in the "List of Entities" and the "List of Entities which procure the services, specified in Annex 4"). In such a manner, the Agreement can be applied to the National Printing Bureau, with the same thresholds and conditions as stipulated in Annex 1 for central government entities.
- (3) This entity will have accounting rules as of 1 April 2003 to implement the relevant thresholds and procedures under the Agreement. Challenge procedures, as provided for in Article XX of the Agreement, will apply to procurement conducted by this entity, which will fall under the control of the Ministry of Finance.
- (4) The above-mentioned rectifications are consistent with the relevant notification from Japan (GPA/W/129, dated 19 March 2001), which became effective on 5 September 2001 (WT/Let/400).

Attachment B² provides a summary of the modifications proposed by Japan to Annex 3 of Appendix I. Attachment C² indicates how Annex 3 of Appendix I would appear after the proposed modifications have been made.

² Attachments B and C are in English only.

ATTACHMENT A

**OUTLINE OF THE NATIONAL PRINTING BUREAU
(TO BE ESTABLISHED AS OF 1 APRIL 2003)**

A. PURPOSE

- (1) To contribute to the stability of the nation's Currency System by printing Bank of Japan notes and by implementing other measures.
- (2) To provide information beneficial to the public (Official Gazette, etc.).
- (3) To print government bonds and other printed material destined to the public (e.g. revenue stamps, postal stamps).

B. SCOPE OF THE WORK

- (1) Printing of Bank of Japan notes, government bonds, revenue stamps, postal stamps, etc.
- (2) Editing, printing and distributing the Official Gazette and other publications.

C. ORGANIZATION

Head Office: Tokyo
Branch Offices: 10 nationwide

D. RELATIONS WITH THE CENTRAL GOVERNMENT

The competent ministry for this organization is the Ministry of Finance.

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 2003-2004**

REPUBLIC OF KOREA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2003-2004.

The information notified by the Republic of Korea is reproduced below. Other submissions will be compiled in addenda to this document.

1. Calculation of threshold figures in national currency

Classification		Threshold Value (SDR)	Threshold Value in National Currency (Won)
Annex 1 Entities	Supplies and services	130,000	210,000,000
	Construction services	5,000,000	8,100,000,000
Annex 2 Entities	Supplies and services	200,000	320,000,000
	Construction services	15,000,000	24,400,000,000
Annex 3 Entities	Supplies	450,000	730,000,000
	Construction services	15,000,000	24,400,000,000

2. Method of calculation

It is the average of monthly rate of the national currency in terms of the SDR over the two-year period from November 2000 to October 2002. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" was used for this calculation.

Committee on Government Procurement

Original: English

PROPOSED MODIFICATIONS TO APPENDIX I OF THE REPUBLIC OF KOREA

Notification from the Republic of Korea under Article XXIV:6¹ of the GPA

The following notification from the Permanent Mission of the Republic of Korea was received on 12 February 2003 with the request that it be circulated to the Parties to the Agreement on Government Procurement.

I. INTRODUCTION

Pursuant to Article XXIV:6 of the Agreement on Government Procurement (GPA), the Republic of Korea wishes to notify the Committee on Government Procurement of the following modifications relating to Annex 3 of Appendix I of the GPA.

These proposed modifications reflect the ongoing economic restructuring and privatization efforts of the Korean Government.

II. PROPOSED MODIFICATIONS

Modifications are proposed to the Annex 3 list of "All Other Entities which Procure in Accordance With the Provisions of this Agreement":

¹ Article XXIV:6(a) reads as follows: "Rectifications, transfers of an entity from one Annex to another or, in exceptional cases, other modifications relating to Appendices I through IV shall be notified to the Committee, along with information as to the likely consequences of the change for the mutually agreed coverage provided in this Agreement. If the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII."

Article XXIV:6(b) reads as follows: "Where a Party wishes, in exercise of its rights, to withdraw an entity from Appendix I on the grounds that government control or influence over it has been effectively eliminated, that Party shall notify the Committee. Such modification shall become effective the day after the end of the following meeting of the Committee, provided that the meeting is no sooner than 30 days from the date of notification and no objection has been made. In the event of an objection, the matter may be pursued in accordance with the procedures on consultations and dispute settlement contained in Article XXII. In considering the proposed modification to Appendix I and any consequential compensatory adjustment, allowance shall be made for the market-opening effects of the removal of government control or influence."

- (1) Delete "Housing & Commercial Bank" (H&CB):
 - (a) Pursuant to Article XXIV:6(a) of the GPA, the Republic of Korea wishes to notify the Committee on Government Procurement of the modification relating to Annex 3 of Appendix I of the GPA.
 - (b) This modification is based on the fact that H&CB merged with the Kookmin Bank, 1 November 2001, which is already listed in Annex 3 of Appendix I of the GPA.
 - (c) Accordingly, the Government of Korea considers this change to be inconsequential with regard to the mutually agreed coverage provided in the GPA.
 - (d) Attachment C² provides a summary of modifications proposed by Korea to Annex 3 of Appendix I. Attachment D² indicates how Annex 3 of Appendix I would appear after the proposed modifications have been made.

- (2) Withdraw "Korea Tobacco & Ginseng Corporation" (KT&G):
 - (a) Pursuant to Article XXIV:6(b) of the GPA, the Republic of Korea wishes to notify the Committee on Government Procurement of the modification relating to Annex 3 of Appendix I of the GPA.
 - (b) This modification is based on the fact that the Korea Tobacco & Ginseng Corporation (KT&G, henceforth) has been privatized, the Government having sold the last of its stocks in October 2002. KT&G announced the completion of the privatization process at a shareholders meeting held on 27 December 2002.
 - (c) It should be noted that KT&G is now a private company in accordance with the Korean Commercial Law. The Government of Korea has no legal means to influence procurement decisions of KT&G. Therefore, KT&G should be deleted from Annex 3 of Appendix I of the GPA.
 - (d) Attachment A provides further details concerning the privatization of KT&G. Attachment C provides a summary of modifications proposed by Korea to Annex 3 of Appendix I. Attachment D indicates how Annex 3 of Appendix I would appear after the proposed modifications have been made.

- (3) Withdraw "Daehan Printing and Publishing Co. Ltd":
 - (a) Pursuant to Article XXIV:6 of the GPA, the Government of Korea wishes to notify the Committee on Government Procurement of the modification relating to Annex 3 of Appendix I of the GPA.
 - (b) The National Textbook Ltd., which had been listed in Annex 3 of Appendix I in 1996, was purchased by the Daehan Printing and Publishing Co. Ltd. on 3 May 1999.
 - (c) The Daehan Printing and Publishing Co. Ltd. was established as a private company in 1948. It is completely free of government influence in its management decisions, including those on purchases.

² Attachments C and D are in English only.

- (d) Further details regarding the Daehan Printing and Publishing Co. Ltd. are provided in Attachment B. Attachment C provides a summary of modifications proposed by Korea to Annex 3 of Appendix I. Attachment D indicates how Annex 3 of Appendix I would appear after the proposed modifications have been made.

ATTACHMENT A

KOREA TOBACCO & GINSENG CORPORATION (KT&G)

1. Introduction

As part of its plan to privatize state enterprises, the Government of Korea sought to convert Korea Tobacco & Ginseng Corporation (KT&G, henceforth) from a government-invested enterprise to a private company. The Government of Korea began selling its shares in KT&G in September 1999, and completed the sale of its stock in the company in October 2002.

KT&G, as a government-invested enterprise, was subject to both the "Commercial Act" and the "Act on Corporate Governance Improvement and Privatization of State Enterprises" (Privatization Act, henceforth). With the sale of all remaining government owned shares, however, KT&G has been transformed into a fully private company free from the coverage of the Privatization Act, and subject only to the Commercial Act as is the case with other private entities.

As such, KT&G, a fully private company both from legal and practical viewpoint, conducts procurement solely on the basis of commercial considerations. It is, therefore, reasonable to delete KT&G from the WTO GPA concession list.

2. Current Shareholder Status

Table 1 shows the composition of KT&G shareholders as of 21 November 2002. As indicated, the Government of Korea does not have a stake in KT&G anymore.

Table 1
Breakdown of Current Shareholders

(%)	Gov't	Foreign Issued Exchangeable Bond (EB)	Domestic Shareholder	Foreign Shareholder	Treasury Stock etc.*	Total
Shares	0	19,510,480	51,166,784	48,808,030	61,957,203	181,442,497
%	0.0	10.7	28.2	26.9	34.2	100.0

* This includes EBs to be open to domestic (15.2%) as well as foreign buyers (8.4%).

3. Current Legal Status

Before privatization was completed, KT&G had been subject to the Privatization Act. Since KT&G completed its privatization process, it can be excluded from further coverage of the Privatization Act pursuant to the provisions set out in Article 21 of the said Act.

Thus, KT&G is no longer subject to laws or regulations that cover government-invested enterprise. The legal rights and obligations of KT&G are now identical to those of other private companies. KT&G is now only subject to the Commercial Act as is the case with other private firms.

Thus, the Government of Korea no longer has any control over the management decisions of KT&G, including those related with procurement.

4. Management and Legal Independence

According to the Privatization Act of October 1997, the Government of Korea insured independence of KT&G in every respect, including human resource management and financial affairs, despite the fact that it still owned a substantial portion of KT&G stock. The recent sale of the remaining government-owned KT&G shares, and the resulting exclusion of KT&G from the coverage of the Privatization Act, mean that the Government of Korea no longer has any means or legal grounds to intervene in KT&G's management decisions, in particular purchasing decisions.

Thus, KT&G is now an entirely private company from a legal and a practical viewpoint, and is therefore entitled to base its procurement practices on commercial considerations. Having taken all these considerations into account, Korea would like to delete KT&G from Annex 3 of Appendix I of the GPA.

ATTACHMENT B

DAEHAN PRINTING AND PUBLISHING CO. LTD.

1. Introduction

As part of its plan to privatize state enterprises, the Government of Korea sought to convert National Textbook Ltd. from a government-invested enterprise to a private company. The Government of Korea and Korea Development Bank began selling their shares, 40% and 46.5% respectively, from 10 December 1998 and 26 December 1998. When the sale of government shares was completed, however, National Textbook Ltd. was bought up by Daehan Printing and Publishing Co. Ltd. (Daehan, henceforth). Consequently, National Textbook Ltd. as a legal entity was extinguished.

Daehan was established as a private company in 1948. The Government of Korea has ensured the independence of Daehan in every respect, including human resource management and financial affairs. As such, Daehan is an entirely private company both from a legal and practical viewpoint, in that its procurement is based entirely on commercial considerations. Therefore, Korea wishes to delete Daehan from the WTO GPA concession list.

2. Current Shareholder Status

Table 1 shows the composition of Daehan shareholders as of December 2002. As indicated, the Korean Government or government-owned institutions no longer have a stake in Daehan. Daehan is owned completely by private shareholders.

Table 1
Breakdown of Current Shareholders (%)

Government and Public Agencies	Securities firms	Other Domestic Shareholders	Foreign Shares	Total
0.0	0.0	100.0	0.0	100.0

3. Current Legal Status

The status of Daehan as an entirely private company signifies it is not subject to any law or regulation that covers government-invested enterprise and state enterprises. The legal rights and obligations of Daehan are identical to those of other private companies in every respect. Daehan is only subject to the Commercial Act as is the case with other private firms. Thus, the Korean Government has no means of control over Daehan management decisions.

GPA/W/236
13 January 2003

(03-0151)

Committee on Government Procurement

Original: English

SWITZERLAND'S NOTIFICATION UNDER ARTICLE XXIV:6(a) (GPA/W/225)

Communication from Hong Kong, China

The following communication, dated 10 January 2003, has been received from the Hong Kong Economic and Trade Office with the request that it be circulated to the Committee on Government Procurement.

On 12 December 2002, Switzerland notified certain proposed modifications to its Appendix I to the Agreement on Government Procurement (GPA) in GPA/W/225. The proposed modifications include the addition of a new point 3 in Annex 2 to Appendix I and a new point under paragraph 1 of the General Notes in Appendix I.

Hong Kong, China is concerned that the proposed modifications are not of a purely formal or minor nature as referred to in Article XXIV:6(a) of the GPA.

Hong Kong, China has reservations on proposed modifications that have discriminatory effect having regard to Article XXIV:7(c) of the GPA. Hong Kong, China will respond positively to requests for consultations with any party concerned with a view to resolving this matter satisfactorily.

2. The lists of documents which have been previously derestricted are contained in documents GPA/24, GPA/26, GPA/31, GPA/45 and GPA/64.

COMMUNICATION FROM CANADA

Responses from Canada to Questions from Hong Kong, China (GPA/W/218)
Regarding Proposed Modifications to Canada's Annex 1
of Appendix I (GPA/W/203)

1. According to GPA/W/203, the proposed modifications arise from a restructuring of government operations, in which government organizations were renamed, combined, or their functions were moved to other organizations. We should be grateful if Canada could advise when the restructuring took place and whether it is a one-off reorganization exercise. We would also appreciate it if Canada could provide more details about such restructuring of government operations.

In 1993, an announcement was made by the government of the day of plans to restructure and reorganize many government organizations. Before the 1993 modifications had been fully realized, in 1996, the Federal Government announced a significant downsizing and restructuring. Government departments were streamlined and reduced in number. It took some years for all of the relevant legislation to be passed by Parliament and proclaimed. As a result of restructuring of government operations, government organizations were either renamed, renamed and combined, or their functions were moved to other government organizations. Some organizations were dissolved or ended (see question 2). Some subsequent minor changes that occurred in 1999 and 2000 are also included in Canada's submission. Although this reorganization was unusual in its scale and depth, it is the prerogative of the government to make such changes. Any further modifications, whether extensive or minor, will be notified as soon as possible after all the relevant internal measures have been completed.

2. We note that the following entities were either dissolved or ended:

Dissolved:

- (a) Science Council of Canada (item 21);
- (b) Canadian Sentencing Commission (item 53);
- (c) Economic Council of Canada (item 77); and
- (d) Agricultural Stabilization Board (item 89).

Ended:

- (a) Commission of Inquiry into the Air Ontario Crash at Dryden, Ontario (item 55);
- (b) Commission of Inquiry into the Use of Drugs and Banned Practices Intended to Increase Athletic Performance (item 56);
- (c) Royal Commission on Electoral Reform and Party Financing (item 83);
- (d) Royal Commission on National Passenger Transportation (item 84);
- (e) Royal Commission on New Reproductive Technologies (item 85); and
- (f) Royal Commission on the Future of the Toronto Waterfront (item 86).

We would like to know whether there is any difference between "dissolved" and "ended", and how the functions of the original entities are being carried out after they have been dissolved or ended. We should be grateful if Canada could provide a list of the relevant entities, if any, that have taken up the procurement activities of those dissolved or ended.

Entities which are "dissolved" no longer exist. The functions of the dissolved entities and enterprises listed in the side-by-side have ceased to be performed by, or on behalf of the Federal Government. Minor residual functions, if any, were absorbed by the Department reporting to the Minister to which these entities reported. Therefore, any procurement relating to any minor residual functions is covered as part of the procurement of those departments.

Commissions of inquiry and royal commissions have "ended" once they have completed their mandate. Royal commissions, or commissions or inquiry, are appointed by the Cabinet under the terms of the Inquiries Act in order to carry out full and impartial investigations of specific national problems. The terms of reference for the commission and the powers and the names of the commissioners are officially stated by an Order-in-Council. When the investigation is complete, the findings of the commission are reported to the Cabinet and the Prime Minister for appropriate action. Therefore, the commission's mandate and activities have ended, and their functions are no longer performed.

3. *We should also be grateful for Canada's clarification on whether the proposed modifications will alter the level of the mutually agreed coverage provided in the Agreement.*

The overall coverage remains in accordance with Canada's obligations under the WTO Agreement on Government Procurement. All previously covered functions remain covered in their new location as described in the side-by-side comparison.

4. *We have the following specific observations and questions on individual entities:*

(a) *The description of the Department of Fisheries and Oceans in Attachment 2 (item 15) is different from that in Attachment 1 (item 17). Specifically, the phrase "other than the functions of the Canadian Coast Guard" is missing from the description in Attachment 1. We should also be grateful if Canada could confirm which description is correct.*

The phrase "other than the functions of the Canadian Coast Guard" seems to have been inadvertently lost from Attachment 1, Item 17 of GPA/W/203 in the English version during the transcription from one word processing format to another. Attachment 1 is amended as shown below.

(b) *We note that the application of national security considerations to the Canadian Coast Guard is not mentioned in the original description of the Department of Fisheries and Ocean, whereas similar application is specified in the original and revised descriptions of the Department of Transport (item 43). We should be grateful for Canada's clarification.*

On 28 March 1995, an order (SI/95-46) under the *Public Service Rearrangement and Transfer of Duties Act* transferred from the Department of Transport to the Department of Fisheries and Oceans the control and supervision of the Canadian Coast Guard with the exception of the Harbours and Ports Directorate and the Regional Harbours and Ports Branches, the Marine Regulatory Directorate, and the Ship Inspection Directorate and the Regional Ship Inspection Branches. The latter remained with the Department of Transport. Therefore, national security considerations are equally applicable to functions of the Canadian Coast Guard retained by the Department of Transport and those adopted by the Department of Fisheries and Oceans.

- (c) *The names of the following entities in Attachment 1 are different from those in the existing Annex 1 of Appendix I of Canada:*
- *Item 6: "Canada Employment and Immigration Commission" appears as "Employment and Immigration Commission" in the existing Annex 1 of Appendix I;*
 - *Item 44: "Treasury Board Secretariat and the Office of the Comptroller General" appears as "Treasury Board Secretariat and the Office of the Controller General" in the existing Annex 1 of Appendix I;*
 - *Item 78: "Public Service Staff Relations Office" appears as "Public Service Staff Relations Board" in the existing Annex 1 of Appendix I; and*
 - *Item 91: "Canadian Centre for Occupational Health and Safety Board" appears as "Canadian Centre for Occupational Health and Safety" in the existing Annex 1 of Appendix I.*
- (d) *Item 64 in Attachment 1 ("Officers of the Information and Privacy Commissioners of Canada") is different from item 55 in Attachment 2 ("Offices of the Information and Privacy Commissioners of Canada").*

Canada would like to thank Hong Kong, China for its detailed review of these name changes. In each of the cases identified in (c), a minor error occurred in our transcription of Canada's current English list in Annex 1. In the case identified in (d), a typographical error occurs in the English of the second column of Attachment 1. For each item listed above, the English version of Attachment 1 is modified as indicated below, and, for Item 91, Attachment 2 (the new list) is modified in English only. In French, only the second column of Attachment 1, for Item 78 is modified. No change is needed to the French version of Attachment 2 (the new list).

The following is a list of modifications to be made to Canada's Attachments 1 and 2 to its submission *in the English version* and to Attachment 1 of *the French version*. Deletions are in ~~strikeout~~ and additions in ***bold italic***. Attached is a complete new version of Attachment 2, Canada's new list of Annex 1 Entities *in English only, as no change is needed in the French version*.

GPA/W/168/Add.7
19 December 2002

(02-7012)

Committee on Government Procurement

Original: English

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2002-2003

NORWAY

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2002-2003.

The information notified by Norway is reproduced below.

THRESHOLD CALCULATIONS – FOR 2002-2003

The calculation of the threshold values of the WTO Agreement in Nkr has been based on the average daily exchange rates of SDR to Nkr and EURO to Nkr over 24 months from September 1999 through August 2001.

Threshold values:

	Annex 1 Entities	Annex 2 Entities	Annex 3 Entities	Works all entities
Threshold in GPA in SDR	130,000	200,000	400,000	5,000,000
Threshold in GPA in Nkr	1,317,462	2,026,860	4,053,720	50,671,534
Threshold in EEA in EURO	200,000	200,000	400,000	5,000,000
Threshold in EEA in Nkr	1,623,560	1,623,560	3,247,120	40,589,000
Threshold in Norway in Nkr	1,300,000	1,600,000	3,200,000	40,500,000

MODIFICATIONS TO APPENDIX I OF SWITZERLAND

Notification from Switzerland under Article XXIV:6(a)¹ of the GPA

The following communication from the Permanent Mission of Switzerland was received on 6 December 2002, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

I am writing to you concerning the modifications to Appendix I of the Agreement on Government Procurement (GPA), which follow on from the agreement reached between Switzerland and the European Community, Iceland and Norway. Article XXIV of the GPA contains the provisions on its entry into force and it is in conformity with paragraph 6(a) of Article XXIV that I hereby inform you of modifications to the Swiss Annex 2 and General Notes in Appendix I of the GPA.

The proposed modifications are based on the Agreement between the European Community and the Swiss Confederation on certain aspects related to public procurement and the revision of the Convention of the European Free Trade Association which both entered in force on 1 June 2002.

In this context, Switzerland has agreed to liberalize procurement of public authorities and public bodies at the level of the cities and districts with the European Community, Norway, Iceland and Liechtenstein by adding in the GPA a new point 3 in Annex 2 of Appendix I under the list of entities. Switzerland has also added a new alinea under General Note 1 as the new point 3 in Annex 2 of Appendix I will not apply to other Members.

In turn, the European Community, Norway and Iceland have agreed to delete Switzerland from their General Note 2 in Appendix I to the GPA referring to the non-application of Article XX of the GPA to Swiss suppliers and service providers in contesting the award of contracts by entities listed under their Annex 2, paragraph 2 (bodies governed by public law).

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

In accordance with our understanding with the delegation of the European Community and the Governments of Iceland and Norway, a parallel communication will be submitted by the delegations of the European Community, Iceland and Norway.

Attachment A to this document contains the proposed modifications to Annex 2 and the General Notes in red-line/strikeout form and Attachment B contains the revised Annex 2 and the General Notes after acceptance of the proposed modifications.²

² Both attachments are in the original language only.

ANNEX

**MODIFICATIONS TO SWITZERLAND'S APPENDIX I TO THE
AGREEMENT ON GOVERNMENT PROCUREMENT**

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement, the Government of Switzerland submits to the Committee on Government Procurement the following modification to the Swiss Annex 2 and General Notes in Appendix I of the Agreement:

1. Insert in Annex 2, under the "liste des entités", the following point after point 2:

"3. Les autorités et organismes publics du niveau des districts et des communes."
2. Insert a new alinea after the first alinea in the Swiss General Note 1 with the following content:

"en ce qui concerne les marchés passés par les entités mentionnées au chiffre 3 de l'Annexe 2 aux fournisseurs de produits et de services des États-Unis d'Amérique; d'Israël; du Japon; de la Corée; de Hong Kong, Chine; de Singapour; et d'Aruba".

NOTES GENERALES ET DEROGATIONS AUX DISPOSITIONS
DE L'ARTICLE III

1. La Suisse n'étendra pas le bénéfice des dispositions du présent accord:
- en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 2 aux fournisseurs de produits et de services du Canada;
 - ~~en ce qui concerne les marchés passés par les entités mentionnées au chiffre 3 de l'Annexe 2 aux fournisseurs de produits et de services des Etats-Unis d'Amérique; d'Israël; du Japon; de la Corée; de Hong Kong, Chine; de Singapour; et d'Aruba;~~
 - en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 3 dans les secteurs suivants:
 - eau: aux fournisseurs de produits et de services du Canada, des Etats-Unis d'Amérique et du Singapour;
 - électricité: aux fournisseurs de produits et de services du Canada, du Japon et du Singapour;
 - aéroports: aux fournisseurs de produits et de services du Canada, de la Corée et des Etats-Unis d'Amérique;
 - ports: aux fournisseurs de produits et de services du Canada;
 - transports urbains: aux fournisseurs de produits et de services du Canada, d'Israël, du Japon, de la Corée et des Etats-Unis d'Amérique;
- tant qu'elle n'aura pas constaté que les Parties concernées assurent aux entreprises suisses un accès comparable et effectif aux marchés considérés;
- aux fournisseurs de services des Parties qui n'incluent pas, dans leurs propres listes, les marchés de services passés par les entités mentionnées aux Annexes 1 à 3 et concernant les catégories de services visées aux Annexes 4 et 5.
2. Les dispositions de l'Article XX ne sont pas applicables aux fournisseurs de produits et de services des pays suivants:
- Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication de marchés par les organismes mentionnés à l'Annexe 2, chiffre 2, tant que la Suisse n'a pas constaté que ces pays ont complété la liste des entités des gouvernements sous-centraux;
 - Japon, Corée et Etats-Unis d'Amérique en ce qui concerne les recours intentés contre l'adjudication de marchés à un fournisseur de produits ou de services d'autres Parties au présent accord, lorsque ledit fournisseur est une entreprise petite ou moyenne au sens

Deleted: 1 March 2000
(WT/Let/330)

du droit suisse, tant que la Suisse n'aura pas constaté que ces pays n'appliquent plus de mesures discriminatoires pour favoriser certaines petites entreprises nationales ou certaines entreprises nationales détenues par les minorités;

- Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication par des entités suisses de marchés dont la valeur est inférieure au seuil appliqué à la même catégorie de marchés par lesdites Parties.

3. Tant que la Suisse n'aura pas constaté que les Parties concernées assurent l'accès de leurs marchés aux fournisseurs suisses de produits et de services suisses, elle n'étendra pas le bénéfice des dispositions du présent accord aux fournisseurs de produits et de services des pays suivants:

- Canada, en ce qui concerne les marchés portant sur les produits relevant des n° 36, 70 et 74 de la FSC (machines industrielles spéciales; matériel d'informatique général, logiciel, fournitures et matériel auxiliaire (sauf 7010: Configurations d'équipement de traitement automatique des données); machines de bureau, matériel de bureautique et d'informatique de bureau;
- Canada, en ce qui concerne les marchés portant sur les produits relevant du n° 58 de la FSC (matériel de communications, matériel de détection des radiations et d'émission de rayonnement cohérent) et Etats-Unis d'Amérique en ce qui concerne les équipements de contrôle du trafic aérien;
- Corée et Israël en ce qui concerne les marchés passés par les entités énumérées à l'Annexe 3, chiffre 2 pour les produits relevant des n° 8504, 8535, 8537 et 8544 du SH (transformateurs électriques, prises de courant, interrupteurs et câbles isolés); Israël, en ce qui concerne les produits relevant des n° 8501, 8536 et 902830 du SH;
- Canada et Etats-Unis d'Amérique en ce qui concerne les marchés de fournitures et de services entrant dans le cadre de marchés qui, tout en étant passés par une entité relevant du champ d'application du présent accord, ne sont pas eux-mêmes soumis à ce dernier.

4. Le présent accord n'est pas applicable aux marchés passés en vertu:

- d'un accord international et portant sur la réalisation ou l'exploitation en commun d'un ouvrage par les Etats signataires;
- de la procédure spécifique d'une organisation internationale.

5. Le présent accord n'est pas applicable aux marchés de produits agricoles passés en application de programmes de soutien à l'agriculture ou de programmes d'aide alimentaire.

6. Les engagements pris par la Suisse dans le domaine des services au titre du présent accord sont limités aux engagements initiaux spécifiés dans l'offre finale suisse présentée dans le cadre de l'Accord général sur le commerce des services.

MODIFICATION TO APPENDIX I OF THE EUROPEAN COMMUNITY

Notification from the European Community under Article XXIV:6(a)¹ of the GPA

The following communication from the Permanent Delegation of the European Commission was received on 6 December 2002, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

Pursuant to Article XXIV.6(a) of the Agreement on Government Procurement (GPA), the European Community (EC) hereby notifies a modification to its General Notes in Appendix I to the GPA. This modification implements what was agreed in the Agreement between the EC and the Swiss Confederation on certain aspects of government procurement of 21 June 1999 and will mean that Swiss suppliers and service providers will now be entitled to challenge, pursuant to Article XX of the GPA, the award of contracts by EC entities listed in Annex 2, paragraph 2 of the GPA.

In accordance with our understanding with the Government of Switzerland, a parallel communication will be submitted to the Committee by the Swiss delegation to the WTO reflecting the fact that it has agreed to provide access for the EC to procurement of public authorities and public bodies at the level of the cities and districts.

Attachment A to this document contains the proposed modifications to the General Notes in red-line/strikeout form and Attachment B contains the revised General Notes after acceptance of the proposed modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² Both attachments are in the original language only.

ANNEX

**MODIFICATION TO THE EUROPEAN COMMUNITY'S APPENDIX I TO THE
AGREEMENT ON GOVERNMENT PROCUREMENT**

Pursuant to Article XXIV.6(a) of the Agreement on Government Procurement, the European Community submits to the Committee on Government Procurement the following modification of a minor nature to the European Community's General Notes in Appendix I to the Agreement:

In the first indent of General Note 2, delete the word "Switzerland".

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III OF
APPENDIX I OF THE EC

General Notes and Derogations from the Provisions of Article III

1. The EC will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (a) (water) to the suppliers and service providers of Canada and the USA,
 - (b) (electricity) to the suppliers and service providers of Canada, and Japan,
 - (c) (airports) to the suppliers and service providers of Canada, Korea and the USA,
 - (d) (ports) to the suppliers and service providers of Canada,
 - (e) (urban transport) to the suppliers and service providers of Canada, Japan, Korea and the USA; to the suppliers and service providers of Israel, as regards bus services,until such time as the EC has accepted that the Parties concerned give comparable and effective access for EC undertakings to the relevant markets;
 - to service providers of Parties which do not include service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan, ~~and Korea~~, in contesting the award of contracts by entities listed under Annex 2 paragraph 2, until such time as the EC accepts that they have completed coverage of sub-central entities; Deleted: ,
Deleted: and Switzerland
 - Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium sized enterprises under the relevant provisions of EC law, until such time as the EC accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses; Deleted: 1 March 2000 (WT/Let/330)

... 2003 (WT/Let/...)

MODIFICATION TO APPENDIX I OF ICELAND

Notification from Iceland under Article XXIV:6(a)¹ of the GPA

The following communication from the Permanent Mission of Iceland was received on 6 December 2002, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

Pursuant to Article XXIV.6(a) of the Agreement on Government Procurement (GPA), Iceland hereby notifies a modification to its General Notes in Appendix I to the GPA.

In accordance with our understanding with the Government of Switzerland, a parallel communication will be submitted by the Swiss delegation to the WTO.

Attachment A to this document contains the proposed modifications to the General Notes in red-line/strikeout form and Attachment B contains the revised General Notes after acceptance of the proposed modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² Both attachments are in the original language only.

ANNEX

**MODIFICATION TO ICELAND'S APPENDIX I TO THE AGREEMENT ON
GOVERNMENT PROCUREMENT**

Pursuant to Article XXIV.6(a) of the Agreement on Government Procurement, Iceland submits to the Committee on Government Procurement the following modification of a minor nature to Iceland's General Notes in Appendix I to the Agreement:

In the first indent of General Note 2, delete the word "Switzerland".

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. Iceland will not extend the benefits of this Agreement:

- as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
- as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
- as regards the award of contracts by entities listed in Annex 3 paragraph
 - (1) (electricity), to the suppliers and service providers of Canada, Singapore and Japan;
 - (2) (urban transport), to the suppliers and service providers of Canada, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Iceland has accepted that the Parties concerned give comparable and effective access for Icelandic undertakings to the relevant markets;

- to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.

2. The provisions of Article XX shall not apply to suppliers and service providers of:

- Japan ~~and Korea~~ in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Iceland accepts that they have completed coverage of sub-central entities;
- Japan and Korea in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Iceland, until such time as Iceland accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
- Israel, Japan and Korea in contesting the award of contracts by Icelandic entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

 - (2) (urban transport), to the suppliers and service providers of Canada, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Iceland has accepted that the Parties concerned give comparable and effective access for Icelandic undertakings to the relevant markets;

 - to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Japan and Korea in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Iceland accepts that they have completed coverage of sub-central entities;
 - Japan and Korea in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Iceland, until such time as Iceland accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
 - Israel, Japan and Korea in contesting the award of contracts by Icelandic entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

MODIFICATION TO APPENDIX I OF NORWAY

Notification from Norway under Article XXIV:6(a)¹ of the GPA

The following communication from the Permanent Mission of Norway was received on 6 December 2002, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

Pursuant to Article XXIV.6(a) of the Agreement on Government Procurement (GPA), Norway hereby notifies a modification of a minor nature to its General Notes in Appendix I to the GPA.

In the context of the revision of the Convention of the European Free Trade Association, which entered into force on 1 June 2002, Switzerland has agreed to liberalize procurement of public authorities and public bodies at the level of the cities and districts with Iceland, Liechtenstein and Norway. Consequently, the reservation in Norway's General Notes in Appendix I to the GPA as regards Switzerland should be deleted.

In accordance with our understanding with the Government of Switzerland, a parallel communication will be submitted by the Swiss delegation to the WTO.

Attachment A to this document contains the proposed modifications to the General Notes in red-line/strikeout form and Attachment B contains the revised General Notes after acceptance of the proposed modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² Both attachments are in the original language only.

ANNEX

**MODIFICATION TO NORWAY'S APPENDIX I TO THE AGREEMENT ON
GOVERNMENT PROCUREMENT**

Pursuant to Article XXIV.6(a) of the Agreement on Government Procurement, Norway submits to the Committee on Government Procurement the following modification of a minor nature to Norway's General Notes in Appendix I to the Agreement:

In the first indent of General Note 2, delete the word "Switzerland".

ATTACHMENT A

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. Norway will not extend the benefits of this Agreement:
- as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (1) (electricity), to the suppliers and service providers of Canada, Singapore and Japan;
 - (2) (urban transport), to the suppliers and service providers of Canada, Israel, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Norway has accepted that the Parties concerned give comparable and effective access for Norwegian undertakings to the relevant markets;

- to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:

- Israel, Japan, ~~and Korea~~, in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Norway accepts that they have completed coverage of sub-central entities;
- Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Norway, until such time as Norway accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
- Israel, Japan and Korea in contesting the award of contracts by Norwegian entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

IMPROVEMENT OF ACCESSION PROCEDURES

Communication from the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu

The following communication, dated 13 November 2002, has been received from the Permanent Mission of the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu with the request that it be circulated to the Committee on Government Procurement.

-
1. GPA Parties shall treat the offers provided by acceding countries fairly and reasonably. Where an acceding country prepares its offer as that of any GPA Party, the GPA Parties shall not take advantage of the consultation procedures to object the offer or block the accession procedures.
 2. A GPA Party shall not request any acceding countries to make offers which exceed those of most of the existing GPA Parties.
 3. There shall be a time-limit for interested GPA Parties to follow with respect to submission of their written requests to an offer provided by an acceding country. The written requests should clearly indicate which part of the offer is requested to be improved. After the time-limit, any Party not having done so shall be deemed as waiver of its rights. Moreover, it shall not be permitted by merely indicating in the request that more time is needed for study in case of a lapse of a reasonable period of time.
 4. There shall be a time-limit for interested GPA Parties to follow with respect to conclusion of bilateral consultations. After the time-limit, pending issues of bilateral consultations shall be taken over by plurilateral consultations. GPA Parties shall not take advantage of the plurilateral consultations to raise new issues.
 5. Any pending issues that cannot be resolved during bilateral and plurilateral consultations shall be set aside for further consultations, provided that the issues are related to a specific Party only. The acceding country's offer may be adopted by setting such pending issues aside.
 6. Review of procurement regime and negotiation of appendices may be proceeded simultaneously.
 7. Bilateral consultations may be held either in Geneva or capitals of requesting Parties and acceding countries.
-

COMMUNICATION FROM HONG KONG, CHINA

The following communication, dated 7 October 2002, has been received from the Hong Kong Economic and Trade Office with the request that it be circulated to the Committee on Government Procurement.

With reference to the proposed modifications to Annex 1 of Appendix I by Canada as circulated in GPA/W/203 on 12 September 2002, Hong Kong, China would like to seek the following clarification and information.

1. According to GPA/W/203, the proposed modifications arise from a restructuring of government operations, in which government organizations were renamed, combined, or their functions were moved to other organizations. We should be grateful if Canada could advise when the restructuring took place and whether it is a one-off reorganization exercise. We would also appreciate it if Canada could provide more details about such restructuring of government operations.
2. We note that the following entities were either dissolved or ended:

Dissolved:

- (a) Science Council of Canada (item 21);
- (b) Canadian Sentencing Commission (item 53);
- (c) Economic Council of Canada (item 77); and
- (d) Agricultural Stabilization Board (item 89).

Ended:

- (a) Commission of Inquiry into the Air Ontario Crash at Dryden, Ontario (item 55);
- (b) Commission of Inquiry into the Use of Drugs and Banned Practices Intended to Increase Athletic Performance (item 56);
- (c) Royal Commission on Electoral Reform and Party Financing (item 83);
- (d) Royal Commission on National Passenger Transportation (item 84);
- (e) Royal Commission on New Reproductive Technologies (item 85); and
- (f) Royal Commission on the Future of the Toronto Waterfront (item 86).

We would like to know whether there is any difference between "dissolved" and "ended", and how the functions of the original entities are being carried out after they have been dissolved or ended. We should be grateful if Canada could provide a list of the relevant entities, if any, that have taken up the procurement activities of those dissolved or ended.

3. We should also be grateful for Canada's clarification on whether the proposed modifications will alter the level of the mutually agreed coverage provided in the Agreement.

4. We have the following specific observations and questions on individual entities:

(a) The description of the Department of Fisheries and Oceans in Attachment 2 (item 15) is different from that in Attachment 1 (item 17). Specifically, the phrase "other than the functions of the Canadian Coast Guard" is missing from the description in Attachment 1. We should also be grateful if Canada could confirm which description is correct.

(b) We note that the application of national security considerations to the Canadian Coast Guard is not mentioned in the original description of the Department of Fisheries and Ocean, whereas similar application is specified in the original and revised descriptions of the Department of Transport (item 43). We should be grateful for Canada's clarification.

(c) The names of the following entities in Attachment 1 are different from those in the existing Annex 1 of Appendix I of Canada:

- Item 6: "Canada Employment and Immigration Commission" appears as "Employment and Immigration Commission" in the existing Annex 1 of Appendix I;
- Item 44: "Treasury Board Secretariat and the Office of the Comptroller General" appears as "Treasury Board Secretariat and the Office of the Controller General" in the existing Annex 1 of Appendix I;
- Item 78: "Public Service Staff Relations Office" appears as "Public Service Staff Relations Board" in the existing Annex 1 of Appendix I; and
- Item 91: "Canadian Centre for Occupational Health and Safety Board" appears as "Canadian Centre for Occupational Health and Safety" in the existing Annex 1 of Appendix I.

(d) Item 64 in Attachment 1 ("Officers of the Information and Privacy Commissioners of Canada") is different from item 55 in Attachment 2 ("Offices of the Information and Privacy Commissioners of Canada").

We should be most grateful if Canada could provide clarification and information as requested above to facilitate the consideration of the proposed modifications by other Parties.

ACCESSION OF ESTONIA TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

Replies from Estonia to Questions from the United States in GPA/W/202 Regarding Estonia's Replies to US Questions in GPA/W/190/Rev.1

1. *The United States appreciates that Estonia has listed the "public authorities under supervision and control of the ministries" in Section 9 of its Annex 1. Could Estonia provide a list that indicates which ministry listed in Section 8 of its Annex 1 has responsibility for each of the public authorities?*

Ministries and state offices:

- **Ministry of Education**
- The Language Inspectorate
- **Ministry of Justice**
- Prosecutor's Office
- **Ministry of Defence**
- The Information Board
- **Ministry of Environment**
- Land Board
- Environmental Inspectorate
- Centre of Forest Protection and Silviculture
- **Ministry of Culture**
- The Heritage Conservation Inspectorate
- **Ministry of Economic Affairs**
- Patent Office
- The Technical Inspectorate
- The Energy Market Inspectorate
- The Consumer Protection Board
- Public Procurement Office
- Estonian Patent Library
- **Ministry of Agriculture**
- The Plant Production Inspectorate
- Animal Breeding Inspectorate
- Agricultural Registers and Information Board
- The Veterinary and Food Board
- **Ministry of Finance**
- The Competition Board
- Tax Board
- Statistical Office
- Customs Board
- Insurance Supervisory Authority
- Securities Inspectorate

- Assay Office
- **Ministry of Internal Affairs**
- Citizenship and Migration Board
- The Border Guard Administration
- The Police Board
- Centre of Forensic Science and Criminalistic
- Central Criminal Police
- The Rescue Board
- The Data Protection Inspectorate
- **Ministry of Social Affairs**
- Agency of Medicines
- Social Insurance Board
- Labour Market Board
- Health Care Board
- Health Protection Inspectorate
- Labour Inspectorate
- **Ministry of Transport and Communications**
- Civil Aviation Administration
- Road Administration
- Communications Board
- Maritime Administration
- Estonian Railway Administration
- **Ministry of Foreign Affairs**

2. *In its response in GPA/W/190/Rev.1 to US Question 4 regarding modifications of coverage, Estonia states that "if the majority of shares of the entities mentioned are privatized or transferred to another entity, this entity will no longer be subject to GPA".*

- (a) *Please explain how Estonia's plans to remove entities from GPA coverage will be consistent with the standard in GPA Article XXIV:6(b) for withdrawal of entities "on the grounds that government control or influence over it has been effectively eliminated"?*

In case Estonia wishes to exercise its right to withdraw an entity from the Annexes on the grounds that government control or influence over it has been effectively eliminated, the procedure stipulated by Article XXIV:6(b) of the GPA will be followed.

- (b) *If a majority of shares of an entity are transferred to an entity that is covered by the GPA, will the transferred entity's procurement continue to be covered by the GPA?*

If the majority of shares of an entity are transferred to an entity that is covered by the GPA, the transferred entity's procurement continues to be covered by the GPA.

**ACCESSION OF ALBANIA TO THE AGREEMENT ON
GOVERNMENT PROCUREMENT**

Questions from the United States to Albania Regarding Albania's Responses
in GPA/W/170/Rev.1 to Earlier Questions from the United States

The United States appreciates the thorough nature of Albania's responses to questions from the United States regarding the Checklist of Issues (GPA/W/170/Rev.1). The United States also thanks Albania for providing copies of its public procurement laws and regulations (GPA/65 and GPA/65/Add.1). Having reviewed Albania's most recent submissions, the United States would like to raise several follow-up questions:

1. With regard to permanent lists of suppliers, Albania states in its response to Question 6 in GPA/W/170/Rev.1 that: "The permanent list that the procurement entities use for the procurement procedures contains the names of successful candidates in the procedures that the procurement entity had done. The procurement entity must accept offers from those candidates who want to participate in a procurement procedure, giving to all participants equal possibilities in the competition procedures." Does the reference to giving equal possibilities apply only to suppliers already on the permanent list, or to any supplier that wishes to participate in a procurement?
2. Please describe how Albania plans to implement GPA Article IX:9, which requires the annual publication of a notice with information on permanent lists?
3. Albania indicated in its response to Question 21 of the Checklist of Issues that its procurement regulations specify that the period for tendering in the case of "open tendering" is no less than 20 days. Please explain how Albania intends to comply with GPA Article XI:2(a), which requires that the period for receipt of tenders in open procedures must be no less than 40 days from the date of publication of the invitation to participate in an intended procurement?
4. Albania states in its response to Question 8 in GPA/W/170/Rev.1 that: "The supplier must send its complaint...within five days after the announcement of the final classification of the bidders." Please explain how Albania intends to comply with the requirement in GPA Article XX:5 that a period of not less than "10 days" must be provided for the filing of bid challenges.

**PROPOSED MODIFICATIONS TO ANNEX 2 OF APPENDIX I OF
THE AGREEMENT ON GOVERNMENT PROCUREMENT**

Notification from the United States under Article XXIV:6(a)¹ of the GPA

The following notification from the Permanent Mission of the United States was received on 9 September 2002, with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Pursuant to Article XXIV:6(a) of the Agreement on Government Procurement (GPA), the United States proposes the following modifications to Annex 2 of Appendix I of the GPA:

- Delete the General Services Commission as an entity listed under the State of Texas and insert in its place the Texas Building and Procurement Commission.

The reason for these modifications is that, on 26 February 2002, pursuant to Section 1.18 of S.B. 311 (77th Leg. Reg. Session) and Chapter 2152 of the Texas Government Code, the Texas Building and Procurement Commission was established and assumed all of the rights, duties and powers of the General Services Commission, which was abolished as of that date. As the Texas Building and Procurement Commission assumed the procurement responsibilities of the General Services Commission, U.S. coverage with respect to the State of Texas under Annex 2 will remain the same.

Attachment A to this document contains the proposed modifications to Annex 2 in red-line/strikeout form and Attachment B contains the revised Annex 2 after proposed modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

PROPUESTA DE ENMIENDAS DEL ANEXO 1 DEL APÉNDICE I DEL CANADÁ

Notificación del Canadá de conformidad con el apartado a) del párrafo 6 del artículo XXIV¹

El 8 de agosto de 2002 se recibió la siguiente notificación de la Misión Permanente del Canadá, con la petición de que se distribuyera a las Partes en el Acuerdo sobre Contratación Pública.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

L'article XXIV:6 a) dispose ce qui suit: "S'ils sont de pure forme ou mineurs, les rectifications, transferts ou autres modifications prendront effet à la condition qu'aucune objection n'y ait été faite dans un délai de 30 jours. Dans les autres cas, le Président du Comité convoquera le Comité dans les moindres délais. Le Comité examinera la proposition et toute demande d'ajustements compensatoires, afin de préserver l'équilibre des droits et des obligations et de maintenir le champ d'application mutuellement convenu du présent accord à un niveau comparable à son niveau antérieur à la notification. S'il n'est pas possible d'arriver à un accord, la question pourra être traitée ensuite selon les dispositions de l'article XXII."

El apartado a) del párrafo 6 del artículo XXIV dispone que: "Las rectificaciones, transferencias o enmiendas de otro tipo de carácter puramente formal o menores surtirán efecto a condición de que en un plazo de 30 días no se presente objeción a ellas. De no ser así, el Presidente del Comité convocará prontamente una reunión del Comité. El Comité examinará la propuesta y las posibles demandas de arreglos compensatorios, con el fin de mantener un equilibrio de derechos y obligaciones y un nivel comparable del alcance mutuamente convenido previsto en el presente Acuerdo antes de la notificación de que se trate. En caso de que no se llegue a un acuerdo, podrá llevarse adelante la cuestión con arreglo a las disposiciones del artículo XXII."

In accordance with Article XXIV:6 of the WTO Agreement on Government Procurement (GPA), Canada proposes the following modifications to Annex 1 of Appendix I of the GPA.

Attachment 1 (Provided in English and French for convenience) is a side-by-side comparison of the existing list and the new list of covered entities under Annex 1 of the GPA for Canada. Column 1 is the existing list. Column 2 is the new list and provides an explanation of the modifications corresponding to the organization listed in Column 1. Where functions have been moved, the second column lists all organizations to which the functions were moved.

As a result of restructuring of government operations, government organizations were either renamed, renamed and combined, or their functions were moved to another government organization. Attachment 1 also reflects organizations which have been dissolved or have completed their mandate and ended. All proposed modifications are in accordance with the provisions of the GPA.

Attachment 2 (Authentic in English and French) is the revised GPA Annex 1 for Canada, Federal Government Entities.²

Conformément à l'article XXIV:6 de l'Accord sur les marchés publics (AMP) de l'OMC, le Canada propose les modifications suivantes à l'annexe 1 de l'appendice 1 de l'AMP.

La pièce jointe 1 met en parallèle les noms figurant sur la liste actuelle et sur la nouvelle liste des entités canadiennes régies par l'annexe 1 de l'AMP. La colonne 1 donne les noms de la liste actuelle alors que la colonne 2 donne ceux de la nouvelle liste avec, au besoin, une explication des modifications des fonctions par rapport à celles de l'organisme correspondant de la colonne 1. Dans les cas où les fonctions d'un organisme de la colonne 1 ont été réparties entre plusieurs organismes, la colonne 2 donne les noms de toutes les organisations assumant dorénavant ces fonctions.

À la suite de la réorganisation des activités gouvernementales, les organismes ont parfois changé de nom, été scindés ou fusionnés et leurs fonctions ont parfois été transférées à d'autres organismes gouvernementaux. La pièce jointe 1 indique aussi les organismes dont les fonctions ont cessé d'être assumées par ou au nom du gouvernement fédéral, et qui de ce fait ont cessé d'exister. Toutes les modifications proposées sont conformes aux dispositions de l'AMP. Elles traduisent les modifications intervenues au gouvernement fédéral du Canada au 31 décembre 2000.

La pièce jointe 2 est la version révisée de l'annexe 1 de l'AMP, soit la liste des entités du gouvernement fédéral qui sont régies par cet accord.

De conformidad con el párrafo 6 del artículo XXIV del Acuerdo sobre Contratación Pública (ACP) de la OMC, el Canadá propone las siguientes enmiendas del Anexo 1 del Apéndice I de dicho Acuerdo.

En el apéndice 1 del presente documento (que se ha presentado para facilitar su consulta en francés y en inglés) figuran en paralelo la lista actual y la nueva lista de entidades canadienses comprendidas en el Anexo 1 del ACP. En la columna 1 figura la lista actual mientras que en la columna 2 figura la nueva lista, con una explicación de las modificaciones introducidas con respecto al organismo de la columna 1. En los casos en que las funciones de un organismo de la columna 1 se han repartido entre varios organismos, la columna 2 indica el nombre de todas las entidades que se encargan ahora de esas funciones.

A raíz de la reestructuración de las actividades gubernamentales, algunas entidades públicas han cambiado de nombre y/o se han combinado o en algunos casos sus funciones se han transferido a otros organismos gubernamentales. El apéndice 1 del presente documento indica también los organismos que se han disuelto o que han concluido su mandato y, por tanto, han dejado de existir. Todas las enmiendas propuestas son conformes a las disposiciones del ACP.

El apéndice 2 del presente documento (auténtico en francés y en inglés) es la versión revisada del Anexo 1 del ACP para el Canadá, a saber la lista de entidades del Gobierno Federal.²

² The attachments are in English and French only./Les pièces jointes sont en anglais et en français seulement./Los apéndices figuran en francés e inglés solamente.

ATTACHMENT 1*

Side-by-side Comparison of Existing and New List of
Canadian Entities in Annex 1 of Appendix I

Committee on Government Procurement

Original: English

QUESTIONS TO JAPAN RELATING TO JAPAN RAILWAY COMPANIES

Communication from the United States

Please find below an additional set of questions from the United States regarding Japan's proposed modifications to its Appendix I (GPA/W144, GPA/W/145, GPA/W/146) related to the East Japan Railway Company, the Central Japan Railway Company and the West Japan Railway Company.

1. In its response to an earlier U.S. question (GPA/W/180), Japan noted that private railway companies are not subject to the *Guidelines Regarding Matters that New Companies Should Consider for the Time Being in the Conduct of their Business (Guidelines)*, but rather to similar requirements in other laws. If private companies are subject to provisions similar to the *Guidelines*, please explain why the separate *Guidelines* are necessary for the Japan Railway Companies.
2. Since the completion of the Government of Japan's sale of its shares in JR East, is JR East still subject to the *Guidelines*? If so, please explain why it is not treated like other private railway companies that are not subject to the *Guidelines*. Does Japan have any plans to remove JR East from the authority of the *Guidelines*?
3. How does the Government's authority and oversight over JR East differ from its authority and oversight over JR West and JR Central, in which it continues to hold shares?
4. If JR East were removed from Appendix I, would it continue to coordinate common procurement for other Japan Railway Companies? If so, would such procurement be conducted in accordance with the Agreement on Government Procurement?

**ACCESSION OF THE KYRGYZ REPUBLIC TO THE AGREEMENT
ON GOVERNMENT PROCUREMENT**

Questions from the United States Regarding the Kyrgyz Republic's Responses to the
Checklist of Issues for Provision of Information Relating to Accession to the
Agreement on Government Procurement in Document GPA/W/197

The United States has reviewed the responses of the Kyrgyz Republic to the Checklist of Issues (GPA/W/197) and appreciates the Kyrgyz Republic's thorough responses. The United States would also appreciate the Kyrgyz Republic's responses to the following questions and requests for clarification:

1. Could the Kyrgyz Republic provide a copy of *The Law of the Kyrgyz Republic on Government Procurement of Goods, Construction and Services of May 13, 1997*, as well as other relevant measures, in particular the following items listed in its response to Question 2 of the Checklist of Issues: *Resolution No. 29, "Regulations on tender commission . . .;"* and *"Regulations on application of restrictions based on the nationality feature . . ."*?
2. The United States notes that the central government entities listed in the response to Question 5 in GPA/W/197 differs significantly from the ministries and institutions listed in the Kyrgyz Republic's accession offer of May 1999 (GPA/SPEC/4). If the entities listed in GPA/W/197 are the only central government entities procuring goods, services and construction services, please provide an explanation for the longer list contained in GPA/SPEC/4.
3. Could the Kyrgyz Republic provide a list of those entities and enterprises described in its response to Questions 6 and 7?
4. In its response to Question 12, the Kyrgyz Republic noted a number of restrictions on foreign suppliers' ability to participate in tendering proceedings? Does Article 3(5) of the Law override or provide for waivers from restrictions for procurement covered by the Agreement?
5. One of the restrictions that the Kyrgyz Republic noted in its response to Question 12 is where "there are enough bidders to deliver goods, or perform constructions or render services in the territory of the Kyrgyz Republic." How do entities determine whether there are "enough bidders"? Is that information made publicly available at the commencement of the procurement?
6. The Kyrgyz Republic has noted in its response to Question 16 that the Request for Quotations method is used when entities are procuring goods and services with "fixed quality standards." Could the Kyrgyz Republic provide an illustrative list of goods and services considered to have fixed quality standards that are procured with this procurement method?
7. With respect to the response to Question 31, does the Kyrgyz Republic provide information to unsuccessful tenders and to suppliers whose applications for qualification are rejected, as anticipated by Article XVIII:2 of the Agreement?

8. The response to Question 34(iv) provides that a procurement process can be suspended for up to 10 days. Are such suspensions imposed when the complaint is filed? Why is the suspension limited to 10 days?

**ACCESSION OF ESTONIA TO THE AGREEMENT ON
GOVERNMENT PROCUREMENT**

Questions from the United States Regarding Estonia's
Replies to U.S. Questions in GPA/W/190/Rev.1

The United States continues to appreciate the diligent efforts that Estonia is making to meet the requirements for accession to the Agreement. As Estonia completes its governmental organization, the United States looks forward to the finalization of the list of entities in Estonia's offer. In addition, the United States would appreciate responses to the following questions:

1. The United States appreciates that Estonia has listed the "public authorities under supervision and control of the ministries" in Section 9 of its Annex 1. Could Estonia provide a list that indicates which ministry listed in Section 8 of its Annex 1 has responsibility for each of the public authorities?
2. In its response in GPA/W/190/Rev.1 to U.S. Question 4 regarding modifications of coverage, Estonia states that "if the majority of shares of the entities mentioned are privatized or transferred to another entity, this entity will no longer be subject to GPA."
 - (a) Please explain how Estonia's plans to remove entities from GPA coverage will be consistent with the standard in GPA Article XXIV:6(b) for withdrawal of entities "on the grounds that government control or influence over it has been effectively eliminated"?
 - (b) If a majority of shares of an entity are transferred to an entity that is covered by the GPA, will the transferred entity's procurement continue to be covered by the GPA?

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2002-2003

UNITED STATES

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), the United States notifies the Government Procurement Committee of the U.S. national thresholds for the period 2002-2003. These thresholds are effective via a Federal Register notice published March 27, 2002.

Threshold calculations for the period 2002-2003 of the United States

ANNEX 1

	SDRs	US\$
1. Supplies and services	130,000	169,000
2. Construction	5,000,000	6,481,000

ANNEX 2

	SDRs	US\$
1. Supplies and services	355,000	460,000
2. Construction	5,000,000	6,481,000

ANNEX 3

	SDRs	US\$
1. Supplies and services (except entities identified in Annex 3 to which threshold of US\$250,000 applies)	400,000	518,000
2. Construction	5,000,000	6,481,000

**PROPOSED MODIFICATION TO APPENDICES I, II, III
AND IV OF SINGAPORE**

Notification from Singapore under Article XXIV:6(a)¹

The following communication from the Permanent Mission of Singapore was received on 5 June 2002 with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement (1994), the Government of Singapore wishes to notify the Committee on Government Procurement of the following rectifications of a purely minor nature to the Lists in Annexes 1 and 3 of Appendix I, and Appendices II to IV for Singapore of the Agreement on Government Procurement (1994).²

(a) List in Annex 1 of Appendix I

Delete "Ministry of Communications"

Replace with "Ministry of Transport"

Delete "Ministry of Community Development"

Replace with "Ministry of Community Development and Sports"

Delete "Ministry of Information and the Arts"

Replace with "Ministry of Information, Communications and the Arts "

(b) List in Annex 3 of Appendix I

Delete "National Computer Board" and "Telecommunication Authority of Singapore"

Replace with "Info-communications Development Authority of Singapore"

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² The Attachments are in English only.

The above changes reflect the amalgamation of the National Computer Board and Telecommunication Authority of Singapore into a single entity called the Info-communications Development Authority of Singapore.

Delete "National Science & Technology Board"

Replace with "Agency for Science, Technology and Research"

Delete "Singapore Productivity and Standards Board"

Replace with "Standards, Productivity and Innovation Board"

Delete "Trade Development Board"

Replace with "International Enterprise Singapore"

The above rectifications are necessary to reflect the renamed and re-structured entities. These rectifications are minor in nature and do not alter the coverage of the GPA with respect to Singapore.

(c) Appendix II - Publications Utilised by Parties for the Publication of Notices of Intended Procurements – Paragraph 1 of Article IX, and of Post-Award Notices – Paragraph 1 of Article XVIII

Delete "The Republic of Singapore Government Gazette or The Government Internet Tendering Information System (GITIS)"

Replace with "The Republic of Singapore Government Gazette or The Government Electronic Business (GeBIZ)"

(d) Appendix III - Publications Utilised by Parties for the Publication Annually of Information on Permanent Lists of Qualified Suppliers in the case of Selective Tendering Procedures – Paragraph 9 of Article IX

Delete "The Republic of Singapore Government Gazette or The Government Internet Tendering Information System (GITIS)"

Replace with "The Republic of Singapore Government Gazette or The Government Electronic Business (GeBIZ)"

(e) Appendix IV - Publications Utilised by Parties for the Publication of Laws, Regulations, Judicial Decisions, Administrative Rulings of General Application and any procedure regarding Government Procurement Covered by This Agreement – Paragraph 1 of Article XIX

Delete "The Republic of Singapore Government Gazette or The Government Internet Tendering Information System (GITIS)"

Replace with "The Republic of Singapore Government Gazette or The Government Electronic Business (GeBIZ)"

The above rectifications are necessary to reflect the renaming of the electronic publication from GITIS to GeBIZ.

Accordingly, Page 1/3 of Appendix I, Annex I, Page 1/1 of Appendix I, Annex 3; Page 4/4 of Appendix II (English, French and Spanish); Page 3 / 4 of Appendix III (English, French and Spanish); Page 4 / 5 of Appendix IV (English, French, Spanish) should be modified as in Attachment A to this document (redlined version). Attachment B shows the relevant pages of the loose-leaf system after certification by the WTO Secretariat.

ATTACHMENT A

APPENDIX I

SINGAPORE

ANNEX 1

Committee on Government Procurement

Original: English

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2002/03

EUROPEAN COMMUNITY

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2002 - 2003.

The information notified in response by the European Community is attached.

Threshold¹ calculations - for period 2002 - 2003

SDR	130,000	200,000	400,000	5,000,000
EUR	162,293	249,681	499,362	6,242,028
Dansk krone	1,209,390	1,860,600	3,721,201	46,515,012
Svensk krona	1,413,053	2,173,927	4,347,855	54,348,187
Pound sterling	100,410	154,477	308,955	3,861,932

¹The calculation of the thresholds of the WTO Agreement, expressed in EUR and in national currencies, has been based on the average monthly SDR to EUR exchange rate over 24 months from September 1999 through August 2001 (1 EUR = 0.708869 SDR).

The value of the thresholds in EUR and in national currencies has been expressed without the value-added tax (VAT) because the Community excludes VAT when calculating the value of contracts.

The value of thresholds in national currencies will not change during the reference period.

**CHECKLIST OF ISSUES FOR PROVISION OF INFORMATION RELATING TO
ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT**

Communication from the Kyrgyz Republic

I. LEGAL FRAMEWORK

1. Is there a single central law on procurement? If so, please, specify?

There is a single Law of the Kyrgyz Republic On government procurement of goods, construction and services of May 13, 1997 (as amended by the Law of November 28, 1998) (hereinafter referred to as the Law), which regulates relations emerging in the area of state procurement of goods, construction and services.

2. What are the other laws, regulations, decrees, administrative rulings, decisions, policy guidelines and other instruments governing government procurement? Please provide a summary of the subject areas dealt with by each of these instruments. Please also explain the main differences (if any) that exist between their application at the central and sub-central levels of government and at other types of entities.

The Law of the Kyrgyz Republic On government procurement of goods, construction and services of May 13, 1997 (as amended by the Law of November 28, 1998), regulations, decisions and other normative and legal documents shall be implemented in the same manner throughout the whole Kyrgyz Republic territory at both the central and the sub-central levels. The sub-central level includes decisions adopted at the level of heads of oblast and rayon administrations. Decisions adopted at the level of heads of oblast and rayon levels shall be implemented only on the territory of those oblasts and rayons. It shall not be in conflict with centrally adopted acts.

- The Decree No. 31 of the President of the Kyrgyz Republic On establishment of State Procurement Agency of the Government of the Kyrgyz Republic of January 29, 1997;
- Resolution No. 29 of the Government of the Kyrgyz Republic On additional measures on saving of state funds and increasing of effectiveness of government procurement activities of January 20, 1999. This Resolution is aimed at streamlining of government procurement proceedings taking into account various conditions; specification of norms and requirements and general optimization and ensuring consistency of the government procurement system. The approved forms for government procurement plans allow to determine not only essential needs of procuring entities in goods, construction and services but allow to conduct supervision over propriety of conducting procurement of goods, construction and services in a certain period of time;
- Resolution No. 327 of the Government of the Kyrgyz Republic On approval of threshold amounts for conducting government procurement of July 9, 2001. In accordance with the Resolution the minimum threshold amount directed for procurement of goods and services

shall be 50 000 Soms and for the procurement of services it is 100 000 Soms.¹ Threshold amounts can be changed depending on inflation and other economic processes;

- Resolution No. 398 of the Government of the Kyrgyz Republic On approval of the proceedings for procuring goods, construction and services related to national defence, national security, protection of state secret and liquidation of consequences of natural disasters of July 1, 1998 (as amended by the Resolution No. 529 of the Government of the Kyrgyz Republic of September 5, 2001);
- Regulations on State commission of the Government of the Kyrgyz Republic on government procurement and material reserves, approved by the Resolution No. 101 of the Government of the Kyrgyz Republic of March 15, 2001 sets forth authority of the State Commission within the government procurement system when conducting its activities;
- Regulations on maintenance of a database of unreliable (dishonest) suppliers and proceedings for its utilization, approved by Order No. 94 of the Director of the State Procurement Agency of the Government of the Kyrgyz Republic of December 11, 1998;
- Regulations on tender commission, defining procedure for forming, functions and rules for the tender commission of the procuring entity when conducting government procurement (of goods, construction and services), funded from state funds, approved by the Order No. 5 of the State Agency on Government Procurement of the Government of the Kyrgyz Republic of September 23, 1997;
- Regulations on application of restrictions based on the nationality feature provides for criteria and proceedings for application of restrictions based on the nationality feature, approved by the Order No. 5 of the State Agency on Government Procurement of the Government of the Kyrgyz Republic of September 23, 1997. In the event a decision on limitation of participation based on nationality is adopted, all obligations of the Kyrgyz Republic set forth in international treaties shall be followed;
- Regulations on approval of standard tender documents, approved by the Order No. 5 of the State Agency on Government Procurement of September 23, 1997;
- Regulations on the procedure of consideration of administrative infringements and imposition of administrative punishment for infringement of legislation on government procurement of goods, construction and services, approved by the Order No. 6 of the State Agency on Government Procurement of the Government of the Kyrgyz Republic of November 6, 1998;
- Articles 413 and 533 of the Code of the Kyrgyz Republic on Administrative Liability regulate relations emerging in the process of application of administrative liability for infringement of legislation concerning government procurement of goods, construction and services.

3. *To what extent will the provisions of the Agreement be applied directly or need to be transposed into the relevant law? In the event of direct application of the Agreement over conflicting provisions of domestic law, please indicate the relevant legal basis.*

The Law is based on the model of the UNCITRAL Model Law on Procurement of Goods, Construction and Services. Generally, the Law does not contain provisions that are in conflict with

¹ The national currency exchange rate is 1 USD = 49,7 Soms as of May 13, 2002

the Agreement on Government Procurement. Nevertheless, Article 52 of the Law provides for priority of international law over provisions of the domestic Law in case of conflict between them.

II. SCOPE AND COVERAGE

4. Please summarize the organization of the government in your country at each level.

Organization responsible for implementation of the governmental policy in the area of government procurement of goods, construction and services consists of the State Commission of the Government of the Kyrgyz Republic on Government Procurement and Material Reserves, its 7 regional departments in each oblast (Chui regional department, Naryn regional department, Issyk-Kul regional department, Jalal-Abad regional department, Osh regional department Talas regional department, Batken regional department) and one in the City of Bishkek.

5. Please list all central government entities (ministries, departments, agencies, etc.) procuring goods, services and construction services).

Ministry of Defence,
Ministry of Healthcare,
Ministry of Ecology and Emergency Situations,
Financial and Economic Department of the Ministry of Internal Affairs,
Chief Department on Execution of Punishments of the Ministry of Internal Affairs,
Academy of the Ministry of Internal Affairs,
Headquarters of Interior Forces,
National Guards.

6. *What entities at the sub-central level of government (states, provinces, municipalities, etc.) procure goods and services?*

Oblast divisions of ministries and agencies of the Kyrgyz Republic as well as local self-government bodies and local administrations conduct procurement of goods, construction and services at sub-central level.

7. *Which are the enterprises owned or controlled by the government that are subject to the rules on government procurement? Which are the other entities or categories of entities (Annex 3-type entities) owned and controlled by the government that engage in procurement? Specify.*

In accordance with the Law any governmental bodies of the Kyrgyz Republic, having a legal entity status, as well as organizations established with state funds and Joint-Stock Companies with state share of two thirds can be procuring entities.

8. *Do entities listed in response to questions 5, 6, and 7 apply in their procurement the main law (if one exists), other legislation provided by the federal or central level of government or are they autonomous from federal or central government in their procurement rules and practices? Where any of these entities are not subject to the main procurement law, please list the entities concerned and indicate which laws, regulations, etc., they are subject to. How will your government ensure the implementation of the Agreement by such entities below the central/federal government level?*

All the above-mentioned entities and organizations located on the territory of the Kyrgyz Republic apply the Law of the Kyrgyz Republic On government procurement of goods, construction and services of May 13, 1997 (as amended by the Law of November 28, 1998) when conducting government procurement of goods, construction and services. Exceptions concern procurement related to national defence or security.

9. *Are there any general exceptions from the scope of application of the national procurement rules, for instance for essential national defence or security reasons? Please provide details.*

The Law in accordance with paragraph 2 of the Article 2 does not provide for procurement related to national defence, national security, protection of state secret and liquidation of consequences of natural disasters. The Resolution No. 398 of the Government of the Kyrgyz Republic of July 1, 1998 (as amended by the Resolution of the Government of the Kyrgyz Republic of September 5, 2001) provides for principles of conducting procurement of goods, construction and services in the above-mentioned areas.

10. *Please provide available statistics on the procurement by government entities in your country in the last two years, including, to the extent available, a breakdown by entity and by categories of products and services.*

Please, see Annex 1.

III. NATIONAL TREATMENT AND NON-DISCRIMINATION

11. *Identify the specific provisions in the legislation which reflect the national treatment and non-discrimination commitments of Article III of the Agreement.*

The procuring organization cannot discriminate against or exclude various foreign suppliers of goods, construction and services on the nationality basis if foreign suppliers are included into the tender procedure. In accordance with the paragraph 6 of Article 3 of the Law, if foreign suppliers are allowed to take part in the tender procedure, their tender applications shall be considered with the same conditions as tender applications from domestic suppliers.

12. *Please provide details of any provisions in national legislation according domestic supplies and suppliers treatment more favorable than that accorded to foreign supplies or suppliers or according supplies or suppliers of any country more favorable treatment than those of any other country.*

Article 3(1) of the Law allows procuring entity to restrict participation of foreign suppliers in tender proceedings if there are enough bidders to deliver goods, or perform constructions or render services on the territory of the Kyrgyz Republic. Also if the subject of procurement is services or construction on the territory of the Kyrgyz Republic, the procuring entity may require that all of the services or construction be performed by domestic entities, and with domestic raw materials and products. Article 3(5) of the Law provides that in the event a decision on limitation of participants based on nationality is adopted, all obligations of the Kyrgyz Republic set forth in international treaties shall be followed.

13. *Please provide details of any provisions in national legislation allowing a locally established supplier to be treated less favorably than another locally established supplier on the basis of its degree of foreign affiliation or ownership or discriminating against locally established suppliers on the basis of country of production of the good or service being supplied.*

The legislation currently in force does not contain any provisions restricting status of locally established suppliers.

14. *Please specify to what extent, if at all, more favorable treatment is granted to any sectors of the economy, regions or specific categories of suppliers or supplies.*

National legislation does not provide for any favorable regime for economy sectors, regions or specific categories of suppliers of supplies.

15. *Please specify any provisions requiring or allowing the use of offsets or measures with similar effect, such as domestic content, licensing of technology, investment, counter-trade or similar requirements in the qualification or selection of suppliers, products or services or in the evaluation of tenders and award of contracts.*

Legislation currently in force does not provide for such requirements in the qualification or selection of suppliers.

IV. ELEMENTS SPECIFIC TO PROCUREMENT PROCEDURES

16. *Please provide a general description of your existing procurement methods and procedures, including the main procurement methods used and a brief description of each method, and the extent to which qualification of suppliers and open, selective and limited tendering for each level of government is used.*

Article 18 of the Law defines five government procurement methods:

- tender with unlimited participation;
- tender with limited participation;
- two-stage tender;
- request for quotations;
- procurement from single-source.

Tender with unlimited participation is the main method of government procurement. When conducting tender with unlimited participation, the suppliers who want to participate in the procurement proceeding have the right to submit tender applications without limitation.

Tender with limited participation is conducted if:

- the expenses required to review and evaluate a large quantity of tender applications are incommensurable with the value of goods, construction, or services to be procured. In such a case tender commission shall choose a sufficient number of suppliers to ensure competition but no less than two;
- the goods, construction or services with regard to the level of their technical complexity or specialized nature have only a limited circle of suppliers. The tender commission of the procuring entity shall solicit tender applications from all suppliers (contractors) which can supply the procured goods, construction or services.

Two-stage tender in accordance with Article 34 of the Law, shall be applied only if:

- the tender commission of the procuring entity cannot determine in advance the specific technical characteristics and quality features of the procured goods, construction or services;

- it is necessary to conduct negotiations with suppliers because of the special nature of the procured goods, construction or services;
- the subject matter of the procurement is a research, an experiment, preparation of a scientific opinion or performance of any other specialized services.

In the first stage of two-staged proceedings tender commission solicits tender applications without indication of price. In this stage the tender commission of the procuring entity solicits proposals relating to the technical, quality or other characteristics of the goods, construction or services, contract terms for their delivery, and when necessary, professional and technical competence and qualifications of the suppliers.

In the second stage the procuring entity shall invite suppliers whose tenders have not been rejected to submit final tenders with an indication of the price. In this stage the tender commission can exclude or change any initially set aspect of technical or qualitative features of procured goods, works or services as well as any primarily set criterion for evaluation and comparison of tender applications and defining the winning tender application and/or add new characteristics in accordance with the law currently in force.

Request for quotations is a procurement procedure in which the tender commission of the procuring entity solicits quotations for goods, construction or services from such a number of suppliers, that ensures competition and selection of the best offer, but no less than three.

The Law provides for an option when request can be forwarded to two suppliers provided there is approval from the State Procurement Commission. Request for quotations method is used when procuring goods and services with fixed quality standards. Each supplier has right to provide only one price quotation and cannot change it. There shall be no negotiations concerning the price quotation between the tender commission and the supplier. The procuring entity shall sign a procurement contract with a supplier, who submitted the lowest price quotation meeting the needs of the procuring entity.

Procurement from single source is a procurement procedure in which the procuring entity signs a procurement contract after negotiating with only one supplier. The procuring entity, with the consent of the State Procurement Commission, may adopt a decision on conducting single source procurement in the following circumstances:

- if it is conducting additional orders within 6 month since the conclusion of the contract, not exceeding 15% of the value of the previous procurement, and maintains the same norms, parameters and standards;
- signing of a contract for research, experiments or preparation of a scientific opinion;
- if the specific types of goods, construction or services are available only from a particular supplier or if some supplier possesses exceptional rights with respect to such goods, construction or services;
- if the procuring entity is conducting a state procurement for a creative work or for creative activity in the area of arts or culture;
- if the procurement can only be obtained from one supplier due to limitation based on nationality in compliance with legislation;

- if an immediate necessity arises to conduct procurement in connection with circumstances which the procuring entity could not foresee;
- if the tender commission received only one tender application as a result of tendering proceedings with mass media notification and repeated proceedings will not lead to conclusion of a procurement contract;
- if the cost of the procurement is less than the minimum threshold amount.

17. *Identify the provision in your country's legislation requiring non-discrimination as regards the qualification of suppliers in terms of Article VIII and selection of suppliers in terms of Article X. Indicate any exception to this requirement. What are the provisions ensuring non-discriminatory access of new suppliers to existing qualification lists?*

Article 8 (5) of the Law provides that the tender commission of the procuring entity shall not establish criteria, requirements or procedures which discriminate against suppliers on the basis of nationality, or which are not objectively justifiable, except for cases described in Article 3 of the Law (please see the response to question 11).

In accordance with Article 3(6) of the Law if foreign suppliers were admitted to the tendering proceedings, their tender applications shall be considered on the same conditions as those of domestic suppliers.

18. *In situations where qualification procedures and selective tendering may be used, to what extent do entities allow suppliers to become qualified during the procurement process? To what extent do entities maintain permanent list of suppliers?*

Tender commission of the procuring entity in accordance with Article 9(1) of the Law has right to conduct pre-qualification proceeding for suppliers before announcement on tendering proceedings or before inviting them to participate in government procurement proceedings. In this case the tender commission can conduct qualification selection of suppliers for further participation in the procurement proceedings only on the basis of conditions, determined in pre-qualification or tender documentation. Only those suppliers, who passed pre-qualification selection, are eligible to participate in further procurement proceedings.

The database of suppliers is formed in the state procurement body and is maintained by the Organizational department for procurement of goods, construction and services.

19. *What are the conditions and circumstances foreseen in your legislation allowing the use of the limited tendering method under Article XV of the Agreement? What measures exist in order to ensure that this method is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discriminating among foreign supplies/suppliers or in favour of domestic supplies/suppliers?*

Limited tendering, in accordance with Article 19(2) of the Law is conducted if:

- the expenses required to review and evaluate a large quantity of tender applications are incommensurable with the value of goods, construction, or services to be procured. In such a case tender commission shall choose a sufficient number of suppliers to ensure competition but no less than two;
- the goods, construction or services with regard to the level of their technical complexity or specialized nature have only a limited circle of suppliers (contractors). The tender

commission of the procuring entity shall solicit tender applications from all suppliers (contractors) which can supply the procured goods, construction or services.

Article 3(1) of the Law allows procuring entity to restrict participation of foreign suppliers in tender proceedings if there are enough bidders to deliver goods, or perform constructions or render services on the territory of the Kyrgyz Republic. Also if the subject of procurement is services or construction on the territory of the Kyrgyz Republic, the procuring entity may require that all of the services or construction be performed by domestic entities, and with domestic raw materials and products. Article 3(5) provides that in the event a decision on limitation of participants based on nationality is adopted, all obligations of the Kyrgyz Republic set forth in international treaties shall be followed.

20. *Article XIV of the Agreement allows for negotiation under certain conditions. Are entities allowed to proceed to negotiations? If so, which categories and what are the conditions imposed?*

In light of the Article XIV of the Agreement the Law provides for only one case when the tender commission of the procuring entity can conduct negotiations with a supplier. In the first stage of two-staged tender the tender commission of the procuring entity has a right to conduct negotiations with any supplier, provided if his tender application wasn't rejected. Still, the Law does not contain provisions clarifying procedure for conducting such negotiations.

21. *Article XI sets out minimum time-periods for tendering and delivery. What are the rules and practices regarding time-periods in your legislation? Does the legislation reflect the various minimum time-periods as set out in the Agreement? If not, give information on any different time-periods which have been established in your national legislation.*

In accordance with the Article 24 of the Law the tender commission shall define the exact deadline (date and time), taking into account the amount of procured goods, construction and services. Deadline for tender applications shall be:

- when conducting tender with unlimited participation – no less than 6 weeks from the announcement date;
- when conducting limited tender – no less than 4 weeks from the date of sending invitations for participation in tender.

Still these time-periods can be reduced if the participation is limited to domestic suppliers. Decision on reduce of the time-period shall be adopted by the tender commission of the procuring entity.

22. *Briefly describe the procedures for the submission, receipt and opening of tenders and awarding of contracts, in particular the procedures and conditions guaranteeing regularity of the openings and consistency with the non-discrimination provisions of the Agreement. How is the information on the proceedings related to the receipt, opening and evaluation of tenders maintained by entities?*

Tender application shall be submitted in written form and in a sealed envelope (Article 24 (3) of the Law). Still, the Law provides that the tender application can be submitted in any other form, determined in tender documentation. It is necessary that form clearly stated the name of the applicant. The tender applications shall be submitted in time-periods defined by the tender commission of the procuring entity. Tender application received after the deadline for submission of tender applications shall not be opened and shall be returned to the supplier who submitted it.

The procuring entity shall send tender documentation no later than one week from the moment of receipt of the request. When conducting limited tender, tender documentation, including specifications, shall be sent along with invitation.

After publication of the tender announcement or invitation to participate in tender, the secretary of tender commission shall register all candidates who obtained tender documentation in a specialized register. The same register shall contain suppliers, having submitted tender applications. Such a double registration is necessary for ensuring that participants to be could obtain tender documentation only from the tender commission in order to avoid its copying.

Supplier has the right to obtain clarification of tender documentation from the tender commission of the procuring entity. The tender commission of the procuring entity within 3 business days shall provide clarification for all suppliers, who obtained tender documentation without mentioning the source of request. In special cases the tender commission of the procuring entity can change tender documentation before the deadline for submission of tender applications. All those changes shall be made known to all suppliers and shall be obligatory for them.

In case if clarification meetings re tender documentation are conducted, minutes of the meeting containing requests for clarification, as well as responses without mentioning the source of requests shall be put together. Those minutes shall be immediately sent to all suppliers who received tender documentation.

Tender applications shall be opened in time and in a certain place, indicated in tender documentation (Article 27(1) of the Law). The time for opening tender application shall coincide with the deadline for submission of tender applications. Public opening of tender applications with participation of all interested candidates is a guarantee of conscientious and fair treatment of all participants.

Information concerning applicant whose application has been opened as well as the price of tender application shall be immediately announced to all those present and shall be put into the report on tendering proceedings. Those who were not present at the opening ceremony can obtain information concerning candidates and tender application prices upon their request.

23. *Please identify the provisions in your legislation setting the parameters for the prescription of technical specifications by entities as part of the evaluation criteria.*

Please, see the response to question 24.

24. *Identify the measures in national legislation ensuring that awards are made in accordance with the evaluation criteria and essential requirements specified in the tender documentation.*

Evaluation process starts from the moment of opening of the tender applications. Time for opening of tender applications shall coincide with the deadline for submission of tender applications. The tender commission of the procuring entity can ask for clarification of tender applications from suppliers during evaluation process. The Law currently in force does not allow any changes in essence of tender applications, including change of price. There shall be no negotiations between the tender commission of the procuring entity and candidate concerning the submitted tender application. Cut of winner's tender application price is possible upon his consent. The minutes shall contain note on cut of tender application price. The winner has the right to refuse to cut price and this shall not be considered as a basis for its rejection (Article 28 (3) of the Law).

Tender application can be rejected in two cases: 1) when it does not meet the requirements provided for in the Law on government procurement, other normative and legal acts regulating

government procurement and requirements, provided in tender documentation; 2) when candidate does not agree with correction of obvious mistakes in his tender application.

Winning tender application is considered to be an application meeting requirements of tender documentation and having the lowest price.

Written notice that its tender application has been selected as the winning application shall be sent to the supplier who submitted it within 3 days of the selection.

The contract between the procuring entity and the supplier shall be signed in time no more than 7 days from the day when he received the written notice. In the event that the selected supplier does not sign a contract or fails to provide required security of performance of the procurement contract, a new selection shall be made from the already submitted tender applications. Exception can be made if other tender applications were rejected or the time-period for amendment or withdrawal of tender applications expired and the right for repayment of security of performance was not lost.

B. V. INFORMATION

25. *Article XIX:1 of the Agreement foresees the publication of laws, regulations, judicial decisions, administrative rulings of general application and procedures regarding government procurement. Please give the name of the relevant publication(s) and indicate the media used for this purpose. Please also provide, where available, the address of an Internet website where the legislation referred to in questions 1 and 2 can be found.*

Article 12(2) of the Law foresees that normative legal acts shall be published in official media and Government procurement bulletin. In accordance with Article 2 of the Law No. 9 of the Kyrgyz Republic On procedure for publication of Laws of the Kyrgyz Republic of February 14, 1997 official publication is a publication of laws and other normative and legal acts in the Erkin-Too newspaper, Kyrgyz Republic Statute Book, Bulletin of Zhogorku Kenesh² of the Kyrgyz Republic and Collection of Laws and Acts of the President of the Kyrgyz Republic.

State Commission has no Internet site. Legislation mentioned in responses to questions 1 and 2 can be found on the Internet website of legal information system Toktom: www.toktom.kg.

26. *Article IX:1 of the Agreement foresees the publication invitations to participate for all cases of intended procurement by entities. Please give the name of the relevant publication(s) and indicate the media to be used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

Invitations to participate for all cases of intended procurement are published in the following newspapers only: Slovo Kyrgyzstana, Kyrgyz Tuusu and Erkin-Too. State Commission has no Internet site.

27. *Please specify the types of information that your legislation requires to be included in notices of invitation to tender or in tender documentation, and identify the relevant provisions of your legislation.*

Invitation to participate in a tender in accordance with Article 20 of the Law shall contain the following information:

² Parliament

- the name and legal address of the procuring entity;
- the nature, quantity, and place of delivery of goods to be procured;
- the nature and location of the construction to be done, or the nature and location of the services to be rendered;
- the desired or required time for delivery of the goods or for the completion of the construction, or the timetable for rendering services;
- conditions required of suppliers (contractors);
- a statement that suppliers may participate in the procurement proceeding regardless of nationality in accordance with the requirements established in Article 3 of the Law;
- the methods and location to receive the tender documentation and any payment for it to the procuring entity (if payment is required);
- the place and deadline for submission of tender applications;
- the place and deadline for opening tender applications.

The Director of the State Procurement Commission in regulations may determine a form for announcement on tenders.

An announcement on tender may contain additional requirements that can be determined by the Director of the State Procurement Commission.

28. *Article IX:1 of the Agreement foresees publication of permanent lists of qualified suppliers by entities maintaining such lists. Please give the name of the relevant publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where such lists are published.*

Database with the list of suppliers is not published in mass media. The list is kept by the State commission on government procurement of goods, construction and services of the Government of the Kyrgyz Republic.

State commission also keeps a list of unreliable (careless) suppliers with the purpose of removal from participation in tendering proceedings. Decision on input of a supplier into this database is to be adopted by the Head of the State Procurement Commission. This database shall be published only in the Government Procurement Bulletin on a regular basis.

29. *Article XVIII:1 of the Agreement foresees the publication of details of contract award notices by entities. Please give name of the relevant publication(s) and indicate the means to be used for this purpose. Please also provide, where available, the address of an Internet website where such notices are published.*

The tender commission of the procuring entity shall publish such announcements on contract awards in the same mass media or Bulletin of Government Procurement where the tender announcement was published earlier.

30. *Please specify the types of information that notices of contract awards should contain in your country and identify the relevant provisions in your legislation.*

Notice of contract awards shall contain the following information in accordance with Article 31(2) of the Law:

- name and address of the winning tenderer;
- price of the submitted tender application.

Article 31(4) of the Law foresees that the Director of the State Procurement Commission has right to determine additional information to be included into such notice.

31. *Please specify the relevant provisions in your legislation enabling, as foreseen in Article XVIII:2, the provision of information to other Parties and unsuccessful tenderers regarding the reasons why a tender was not selected.*

An announcement about concluding procurement contract with the name and address of the supplier with whom the contract was signed, and the price of the contract, shall be presented within 7 days of signing to all suppliers who took part in the procurement proceeding in accordance with Article 42(2) of the Law.

VI. BID CHALLENGE PROCEDURES

32. *Please provide information on existing challenge procedures.*

Disputes can be considered by Arbitration court, still appeal to court system is possible after application of all administrative measures. The following issues cannot be subject of appeal:

- selection of a procurement method;
- selection of proceedings for conducting procurement;
- limitation of the procurement proceedings on nationality basis;
- decision of the procuring entity to reject all applications, suggestions and quotations;
- refusal of the procuring entity to respond to the expression of interest in participation in proceedings of request for offers;
- absence of references to laws and regulations in tender documents.

33. *Are there specific provisions enabling access of foreign suppliers to challenge procedures?*

There are no such provisions foreseen.

34. *To the extent that this information does not fully respond to the following points, please provide the supplementary information necessary to do so:*

- (i) *The time-limit to launch a complaint contained in the Agreement is “not less than 10 days” from the time when the basis of the complaint is known or reasonably should have been known. What are the limits in your domestic legislation?*

Tenderers can appeal against any decision of the tender commission to the procuring entity within 10 days from the time when the supplier came to know or should have come to know about the

basis of the complaint. Upon expiration of such period, appeals submitted by suppliers to the procuring entity are not to be reviewed.

The decision of the procurement entity can be appealed against in the State Commission on Procurement of the Government of the Kyrgyz Republic within 15 days of the time when the basis of the complaint is known or reasonably should have been known or from the date of signing of the procurement contract. After this time-period has passed, complaint shall be launched within a judicial proceeding.

(ii) *What body is responsible for the challenge procedures? Is this a “court” or an “impartial and independent review body”?* *If the latter:*

- *How are its members selected?*
- *Are its decisions subject to judicial review?*
- *If not, how will the requirements of paragraph 6 of Article XX be taken into account?*

The following bodies are responsible for the appeal proceedings:

- procuring entity;
- State Commission on Procurement and Material Reserves of the Government of the Kyrgyz Republic;
- Arbitration Court.

If the supplier having submitted an appeal to the procuring entity is not satisfied with its results, he has right to appeal against this decision to the State Commission on Procurement.

All disputes between suppliers and the procuring entity emerging during the procurement proceedings as well as decisions of the procuring entity and State Commission can be subject to appeal to court.

Arbitration courts settle economic disputes arising in the economic sphere between business entities based on different forms of ownership (Article 84(2) of the Constitution of the Kyrgyz Republic). Arbitration judicial system consists of the Supreme Arbitration Court and arbitration courts of oblasts and the City of Bishkek. Judges of the Supreme Arbitration Court are elected by the upper chamber of the Parliament of the Kyrgyz Republic upon nomination by the President of the Kyrgyz Republic. The President of the Kyrgyz Republic appoints judges of oblast arbitration courts and that of the City of Bishkek. In accordance with Article 84(3) of the Kyrgyz Republic Constitution the Supreme Arbitration Court of the Kyrgyz Republic oversees judicial activities of arbitration courts in oblasts and in the City of Bishkek.

(iii) *What is the applicable law by reference to which the challenge body will examine complaints?*

The Law of the Kyrgyz Republic On government procurement of goods, construction and services of May 13, 1997 (Chapter 7 Protests and Appeals), Code of Administrative Liability and Arbitration Code make the main legislative basis for the process of consideration of an appeal.

- (iv) *Which rapid interim measures are provided to correct breaches of the Agreement and to preserve commercial opportunities?*
- *Do these measures include the possibility to suspend the procurement process? On what conditions?*

Government procurement law foresees that timely appeal in accordance with the provisions of the Law, can suspend the procurement process up to 10 days. An appeal shall be well-grounded and shall contain facts, confirming that the supplier will suffer damage in the absence of such a suspension, or it is probable that the complaint will succeed, provided that the suspension will not cause substantial damage to the procuring entity and to other suppliers.

If the contract has been already signed, submission of timely and well-grounded appeal meeting the requirements of the Law shall suspend implementation of such a contract up to 10 days.

- (v) *How do challenge procedures provide for correction of the Agreement? What types of compensation for loss or damages suffered can the challenge body order?*

State Commission on Procurement in the event if the appeal was not rejected has right to:

- forbid the tender commission from carrying out illegal actions, adopting illegal decisions, or using illegal procedures;
- fully or partially revoke an illegal decision of the tender commission of the procuring entity;
- revoke an illegal decision of a tender commission or a procuring entity which violates procurement procedures;
- make a decision to terminate a procurement proceeding.

State Commission on Procurement can obligate the procuring entity to refund expenditures taken by the supplier as a result of an illegal action or decision of a procuring entity or use of an illegal procedure, if the supplier filed a complaint with respect to the procurement proceedings. Still, there is no refund of loss and damages provided for.

- (vi) *Give any available information on the time-periods for the stages of the challenge process, including to obtain interim measures and a final decision.*

The procuring entity shall consider the filed complaint within 7 days from the time of its submission. In the event if the procuring entity didn't adopt any decision within that time-period, or the supplier is not satisfied with the adopted decision he has right to further appeal to the State Commission or the court.

The State Commission will not consider complaints filed after 15 days from the time when the basis of the complaint is known or reasonably should have been known to the supplier or after signing the procurement contract. In this case the complaint shall be submitted to court.

The State Commission shall adopt a well-grounded decision within 10 days.

- (vii) *What are the usual costs to conduct a challenge procedure? Are there possibilities foreseen to do so free of charge?*

The legislation currently in effect does not provide for fee for filing a complaint and procedure of its consideration. The procuring entity and the State Commission shall consider a complaint free of charge. Fee for submission of a complaint to the Arbitration court is 10 minimum monthly wages.³

VII. OTHER MATTERS

35. *To what extent is information technology being used in the process of government procurement? Are notices of invitations to tender and/or notices of contract awards published electronically? Please provide the address of such electronic publications.*

Though there is a certain technical provision, still there is no practice of publishing tender notices and/or notices of contract awards electronically.

36. *Is there a contact point in your country for responding to enquires from suppliers, other governments and the wider public relating to laws, regulations and procedures and practices regarding government procurement at the central and/or sub-central level? Please provide the address.*

There are no contact points for responding to enquires from suppliers in the Kyrgyz Republic.

³ one minimum monthly wage is 100 Soms

PROPOSED MODIFICATION TO APPENDIX II OF HONG KONG, CHINA

Notification from Hong Kong, China under Article XXIV:6(a)¹

The following communication from the Hong Kong Economic and Trade Office was received on 27 May 2002 with the request that it be circulated to the Parties to the Agreement on Government Procurement.

1. Pursuant to paragraph 6(a) of Article XXIV of the Agreement on Government Procurement (1994) (the "Agreement"), Hong Kong, China hereby notifies the Committee on Government Procurement of the following modification to the Appendix II of the Agreement:

In Annex 3, with regard to the publication listed opposite "Hospital Authority", adding "Any of the following" before "Daily Press" and "Home Page on the Internet" (order reversed) to become:

"Any of the following:

- Daily Press
- Home Page on the Internet (<http://www.ha.org.hk>)".

2. The above reflects the plan of the Hospital Authority to change its publication arrangements. Accordingly, page 2/4 of Appendix II should be modified as in Attachment A to this document (redlined version). Attachment B shows the relevant page of the loose-leaf system after certification by WTO Secretariat.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² The Attachments are in English only.

Committee on Government Procurement

Original: English

NOTIFICATIONS FROM JAPAN UNDER ARTICLE XXIV: 6(a)

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement of the following rectifications of a purely formal nature with regard to Annex 3 of Appendix I of the Agreement:

- add "- National Agency for Vehicle Inspection" after "- Labor Management Organization for USFJ Employees" in Group B in the "List of Entities"; and
- add "- National Agency for Vehicle Inspection " after "- Labor Management Organization for USFJ Employees " in Group B in the "List of Entities which procure the services, specified in Annex 4".

The above rectifications are the result of the following organizational change relating to a central government entity in Annex 1. They do not alter the level of the mutually agreed coverage provided in the Agreement.

- (1) In the process of Japan's central government reform (cf. GPA/W/129 and GPA/W/137), part of the undertakings, which have been carried out by local branch offices of the Ministry of Land, Infrastructure and Transport in Annex 1 are to be conducted by the National Agency for Vehicle Inspection. Under the Law Concerning the National Agency for Vehicle Inspection (Law No. 218 of 22 December 1999) and the relevant ordinances, this organizational change shall be implemented as of 1 July 2002. The National Agency for Vehicle Inspection shall be established as an Independent Administrative Institution (IAI), which will be legally independent from the government, and will perform transferred undertakings efficiently and effectively. (The outline of this entity is attached hereto.)
- (2) Since this new organization does not fall under the central government entities covered by the Accounts Law and is not provided for in the National Government Organization Law and the Law establishing the Cabinet Office, Japan has decided to add this entity to Annex 3 regarding both supplies and services (under Group B in the "List of Entities" and the "List of Entities which procure the services, specified in Annex 4" of Annex 3). In this way, the Agreement can be applied to it with the same thresholds and conditions as stipulated in Annex 1 for central government entities.
- (3) This entity will have accounting rules with which to implement the relevant thresholds and procedures under the Agreement. These accounting rules will apply as of 1 July 2002. Challenge procedures, as provided for in Article XX in the Agreement, will apply to the procurement conducted by this entity, which will fall under the control of the Ministry of Land, Infrastructure and Transport.

- (4) The above-mentioned rectifications are consistent with the relevant rectification notification from Japan (GPA/W/129, dated 19 March 2001), which became effective on 5 September 2001 (WT/Let/400)¹.

¹ Japan will notify the Committee of similar rectifications to Annex 3 concerning another IAI, which is to be established in April 2003.

Outline of the National Agency for Vehicle Inspection

(to be established as of 1 July 2002)

a. Purpose

To secure the safety of road vehicle and to prevent pollution caused by road vehicles.

b. Scope of the Work

Inspections to be carried out in order to determine whether or not road vehicles conform to the safety regulations designed for them.

c. Organization

Head Office: Tokyo
Branch Offices: 93 offices nationwide

d. Relations with the central government

The competent ministry for this organization is the Ministry of Land, Infrastructure and Transport.

**ACCESSION OF GEORGIA TO THE AGREEMENT ON
GOVERNMENT PROCUREMENT**

Questions from the United States Regarding Georgia's Replies to the
Checklist of Issues Contained in Document GPA/W/187

The following communication, dated 23 April 2002, has been received from the delegation of the United States with the request that it be circulated to the Committee on Government Procurement.

The United States has reviewed the replies of Georgia to the Committee's Checklist of Issues relating to accession to the Government Procurement Agreement (GPA/W/187). The United States submits the following questions and requests for clarification regarding Georgia's replies:

1. The United States notes that several of Georgia's responses refer to a preferential evaluation privilege that applies to tenders when a Georgian supplier is competing against a foreign supplier, and a requirement that 70% of engineer-technical personnel and workers participating in construction contracts must be citizens of Georgia. Will these requirements be waived for contracts covered by the GPA in order to comply with GPA Article III?
2. In response to Question No.7 of the Checklist, Georgia stated that "Public legal entities are obliged to carry out procurement according to this Law, despite the source of financing of procurement." Please clarify whether state-owned enterprises and entities in which the Georgian government owns shares are considered "public legal entities" that are subject to the Georgian Law "On State Procurement".
3. With respect to Georgia's response to question No. 15, please indicate how Georgia will ensure compliance with GPA Article XVI.
4. Please describe how Georgian procurement law and regulations will permit suppliers to become qualified to participate in a tender process that is already underway in cases where a register is used and also where a register is not used.
5. Is the United States correct in understanding from Georgia's reply to Question No. 19 that Georgia allows the use of limited tendering in only two cases: 1) where the procurement falls within the thresholds noted in Georgia's response and 2) where there are less than three tenders? With regard to the later condition, please indicate how it complies with GPA Article XV:1(a). Also, please describe any other cases in which limited tendering may be used.

6. At the end of its response to Question No. 16, Georgia indicates that in two-staged tenders, negotiations may be conducted. Please clarify whether such negotiations would comply with GPA Article XIV. Also, please indicate whether negotiations may be used in any other cases.
7. Please describe the type of information that suppliers are required to submit when they seek qualification to participate in a tendering process.
8. The United States notes that the maximum period for the delivery of tenders in Georgia is 30 days, as is indicated in the response to question #21. Please indicate how Georgia intends to implement GPA Article XI:2(a) that requires a minimum time period of 40 days between the publication of the notice of procurement and the deadline for the receipt of tenders in cases of open tendering.
9. The United States notes that, Georgia has stated in response to Question No. 22, that award of tenders in Georgia may take into account the following criteria: “compliance of the tender offers with the interests of the whole country and regional and immediately on the procuring organizations [impact on the state of tax balance and official currency reserves of the country; international agreements of the country; factor of use of home components (use of local labour resources, enterprise capacities and raw materials, etc.); prospects of economical development of the country; transfer of modern technologies, know-how; training of managerial, scientific and enterprise staff; interests of environment protection, defense and national security and other effects].”

Please indicate how the use of such criteria will comply with GPA Article XVI.

10. Please indicate to the extent possible when Georgia’s procurement laws and regulations will be available in English for review.
11. To follow up Georgia’s response to question No. 27, please indicate the types of information that must be included in notices of invitation to tender and in tender documentation.
12. GPA Article IX:6 sets forth the information that is required to be included in notices of proposed procurement covered by the Agreement. Please indicate which of the items listed in Article IX are currently included in tender notices by Georgian procuring entities. For those items listed in Article IX:6 that are not currently included in procurement notices, please indicate when, and in what manner, the inclusion of such information will be made mandatory.
13. In response to Question No. 30, Georgia states that “the information on conclusion of agreement on the state procurement shall be published” please indicate the specific information that must be published, and whether it includes all of the information specified in GPA Article XVIII:1. Please indicate whether Georgia provides the information set out in GPA Article XVIII:2.

Committee on Government Procurement

Original: English

REQUEST FOR OBSERVER STATUS

The following communication, dated 15 April 2002, has been received from the Secretariat of the United Nations Conference on Trade and Development (UNCTAD).

I have pleasure in reiterating that UNCTAD lends its full support to the work carried out within the Committee on Government Procurement (1994 Agreement) and in particular to the WTO Working Group on Transparency in Government Procurement, in which UNCTAD has had observer status practically from its inception.

As regards the Committee on Government Procurement, we have considered up to now that, in view of limited participation of the developing countries, an application by UNCTAD for observer status in that Committee was not necessary. This situation is now rapidly changing in view of the increasing number of new WTO Members (developing countries and economies in transition) that have requested observer status in the Committee and have shown interest in becoming Parties of the Agreement on Government Procurement.

UNCTAD's involvement in this area stems from the importance of government procurement in the trade of developing countries, as shown by the technical work undertaken by UNCTAD in the framework of the "positive agenda" during the preparation for the Third Ministerial Conference on the Least Developed Countries. UNCTAD's work in the area of government procurement aims at improving the capacity of developing countries and countries in transition to make the appropriate policy choices, and promoting understanding of the related and emerging issues.

In the light of the above considerations, I should be grateful if the Committee on Government Procurement could consider granting observer status to UNCTAD.

PROPOSED MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV: 6(a)

The following notification from the Permanent Mission of Japan was received on 4 March 2002, with the request that it be circulated to the Parties of the Agreement on Government Procurement.

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement of the following rectification of a purely formal nature with regard to Annex 3 of Appendix I of the Agreement:

- add "- Labor Management Organization for USFJ¹ Employees" after "- National Institute for Environmental Studies" in Group B in the "List of Entities"; and

- add "- Labor Management Organization for USFJ Employees " after "- National Institute for Environmental Studies" in Group B in the "List of Entities which procure the services, specified in Annex 4".

The above rectification is the result of the following organizational change relating to a central government entity in Annex 1. It does not alter the level of the mutually agreed coverage provided in the Agreement.

1. In the process of Japan's central government reform (cf. GPA/W/129 and GPA/W/137), part of the undertakings which have been operated by internal sub-divisions of the Defense Facilities Administrative Agency (an independent organization of the Defense Agency in Annex 1) are to be conducted by the Labor Management Organization for USFJ Employees. Under the Law Concerning the Labor Management Organization for USFJ Employees (Law No. 217 of 12 December 1999) and the relevant ordinances, this organizational change shall be implemented as of 1 April 2002. The Labor Management Organization for USFJ Employees shall be established as an Independent Administrative Institution (IAI), legally independent from the government, to perform transferred undertakings efficiently and effectively. (The outline of this entity is attached hereto.)

¹ US Forces, Japan

2. Since this new organization does not fall under the central government entities covered by the Accounts Law and is not provided for in the National Government Organization Law and the Law establishing the Cabinet Office, Japan has decided to add this entity to Annex 3 regarding both supplies and services (under Group B in the "List of Entities" and the "List of Entities which procure the services, specified in Annex 4" of Annex 3). In this way, the Agreement can apply to it with the same thresholds and conditions as stipulated in Annex 1 for central government entities. In light of the work assigned to it, this entity is unlikely to procure munitions. Hence, Japan has decided not to apply the same limitation as that provided in Note 4 to Annex 1.

3. This entity will have its accounting rules to implement the relevant thresholds and procedures under the Agreement. These accounting rules will apply as of 1 April 2002. The challenge procedures, as provided for in Article XX in the Agreement, will apply to the procurement conducted by this entity, which will fall under the control of the Cabinet Office.

4. The above-mentioned rectification is consistent with the relevant rectification notified by Japan (GPA/W/129, dated 19 March 2001), which became effective on 5 September 2001 (WT/Let/400).²

² Japan will notify the Committee of similar rectifications to Annex 3 concerning the other two IAIs, which are to be established in July 2002 and April 2003 respectively.

Attachment

**Outline of the Labor Management Organization for USFJ Employees
(to be established as of 1 April 2002)**

(a) Purpose

To secure the workforce necessary for USFJ (US Forces, Japan) by performing work relating to hiring, furnishing, labor management, wage and the welfare of USFJ employees.

(b) Scope of the Work

- (1) Work relating to the implementation of hiring, furnishing, etc.;
- (2) Work relating to the payment of wages;
- (3) Work relating to the welfare of employees; and
- (4) Works entrusted to this organization by the central government (medical examination, vocational training, etc.).

(c) Organization

Head Office: Tokyo

Branch Offices: Misawa, Yokota, Yokosuka, Zama, Fuji, Kure, Iwakuni, Sasebo, Naha and Koza

(d) Relations with the central government

The competent ministry for this organization is the Cabinet Office.

The organization carries out its work in coordination with the Defense Facilities Administrative Agency (an independent organization of the Defense Agency).

Notes to Annex 3

1. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.
2. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.
3. This Agreement shall not apply to contracts which the entities in Group A award for purposes of their daily profit-making activities which are exposed to competitive forces in markets. This note shall not be used in a manner which circumvents the provisions of this Agreement.

4. Notes to specific entities:

- (a) Procurement related to operational safety of transportation is not included.
- (b) Procurement which could lead to the disclosure of information incompatible with the purpose of the Treaty on the Non-Proliferation of Nuclear Weapons or with international agreements on intellectual property rights is not included. Procurement for safety-related activities aiming at utilization and management of radioactive materials and responding to emergencies of nuclear installation is not included.
- (c) Procurement related to geological and geophysical survey is not included.
- (d) Procurement of advertising services, construction services and real estate services is not included.
- (e) Procurement of ships to be jointly owned with private companies is not included.
- (f) Procurement of public electrical telecommunications equipment and of services related to operational safety of telecommunications is not included.
- (g) Procurement of the services specified in Annex 4, other than construction services, is not included.

RESPONSES TO QUESTIONS FROM CANADA REGARDING THE PROPOSED MODIFICATIONS TO APPENDIX I OF THE UNITED STATES IN DOCUMENT GPA/W/153

Communication from the United States

The following communication, dated 12 February 2002, has been received from the delegation of the United States with the request that it be circulated to the Committee on Government Procurement.

Question 1: *GPA/W/153 notes that the organization "came under private sector control on 23 July 1998, when it issued 100 million public shares on the New York Stock Exchange". It is not clear from this statement that all of the shares of the company were sold. Therefore, we would appreciate it if you could confirm that all the shares have been sold and the US Government does not retain any ownership in the new company.*

The US Government sold all of its shares and does not retain any ownership of the Uranium Enrichment Corporation.

Question 2: *We also noted from a reviews of relevant internet web sites that a governmental body called the "Enrichment Oversight Committee" was created. Is this a successor organization and should it be included in Annex I.*

The "Enrichment Oversight Committee" is not a successor organization. It is a committee of US Government officials established by Executive Order 13085 primarily to oversee the full implementation of the Agreement Between the Government of the United States of America and the Government of the Russian Federation Concerning the Disposition of Highly Enriched Uranium Extracted from Nuclear Weapons, dated 18 February 1993. *See* 42 USC. §2297h note. The President abolished the committee 1 March 2001 by National Security Presidential Directive Number 1 of 13 February 2001.

Question 3: *We understand that the Alaska Power Administration was divided into several parts and sold to Alaska state governments or municipalities or their agencies. We also understand that some or all of these agencies received United States Federal Government funding to carry out the former Alaska Power Administration functions. Therefore, would you please advise the basis on which the removal of the Alaska Power Administration from Annex 3 is consistent with Article XXIV:6 of the WTO Agreement on Government Procurement?*

In 1998, the Alaska Power Administration (APA) completed formal divestiture of all assets, which were sold to Alaska municipal and privately owned energy cooperatives, as required by the Alaska Power Administration Asset Sale and Termination Act (Public Law 104-58, 22 November 1995). APA was subsequently terminated as required by the Act. At this time, the Federal Government does not provide any funding to, or maintain any oversight responsibilities for, the former APA assets.

RESPONSES TO QUESTIONS FROM THE EUROPEAN COMMUNITY IN DOCUMENT GPA/W/163 REGARDING THE PROPOSED MODIFICATIONS TO APPENDIX I OF THE UNITED STATES WITH RESPECT TO THE URANIUM ENRICHMENT CORPORATION IN GPA/W/153

Communication from the United States

The following communication, dated 12 February 2002, has been received from the delegation of the United States with the request that it be circulated to the Committee on Government Procurement.

The United States provides the following response to the questions from the European Community regarding the proposed modification of Appendix I with respect to the Uranium Enrichment Corporation.

I. COMPANY STRUCTURE

Question 1: *Please explain who are the present shareholders of the "Uranium Enrichment Corporation", specifying if there are public entities among them.*

The "Uranium Enrichment Corporation" listed in Annex 1 of Appendix I refers to the "United States Enrichment Corporation" ("USEC"), which was created pursuant to the provisions of the Energy Policy Act of 1992, Pub. L. No. 102-486, 106 Stat. 2776 (codified at 42 USC. 2201 *et seq.*). USEC was a wholly owned US Government corporation until July 1998, when pursuant to the USEC Privatization Act, Pub. L. No. 104-134, §§3101-3117, 110 Stat. 1321, 1335-1350 (codified at 42 USC. §2297h *et seq.*), the US Government sold its entire interest in the company by means of a public offering of stock. Pursuant to this transaction, USEC was merged into a private corporation, also named United States Enrichment Corporation ("Enrichment Corporation"), and USEC ceased to exist.

Today, the Enrichment Corporation is a wholly owned subsidiary of USEC Inc., a publicly traded company whose shares are listed on the New York Stock Exchange. USEC Inc.'s stock is owned by approximately 29,000 beneficial holders as of 15 August 2001. The USEC Privatization Act explicitly states that the Enrichment Corporation is not "an agency, instrumentality, or establishment of the United States, a government corporation, or a government-controlled corporation". *See* 42 USC. §2297h-3(b)(1).

Question 2: *Is there any relationship between the "United States Government" and the "Uranium Enrichment Corporation" in terms of appointment and removal of managers, representation on the executive level and on other company bodies?*

No.

Question 3: *Does the United States Government exert any control or influence over the activities carried out by the "Enrichment Corporation"?*

The US Government does not exert any control or influence over the activities carried out by USEC, Inc. However, as with other publicly traded companies in the nuclear industry, various US Government agencies have regulatory functions or responsibilities related to activities of USEC, Inc. These agencies include the US Nuclear Regulatory Commission ("NRC"), the US Environmental Protection Agency, the US Department of Transportation, the US Securities and Exchange Commission, the US Occupational Safety and Health Administration and the US Department of Energy ("DOE").

II. ACTIVITIES OF THE COMPANY AND MARKET SHARE

Question 1: *Please clarify what the activities of the "Uranium Enrichment Corporation" are.*

USEC, Inc. supplies enriched uranium fuel for commercial nuclear power plants around the world. More specific information about USEC, Inc. can be found at its website, www.usec.com.

Question 2: *Does the "Uranium Enrichment Corporation" have any special or exclusive rights as regards any of these activities?*

USEC, Inc. serves as the executive agent for the US Government in implementing an Executive Agent agreement under which USEC, Inc. purchases low enriched uranium (LEU) derived from highly enriched uranium from the Russian Federation under the Agreement Between the Government of the United States of America and the Government of the Russian Federation Concerning the Disposition of Highly Enriched Uranium Extracted from Nuclear Weapons, dated 18 February 1993. USEC, Inc. can be replaced as the US Government's executive agent at any time.

Question 3: *Are there any other corporations/entities performing the same types of activity in the United States?*

USEC, Inc. is the only company in the United States that enriches uranium for commercial use.

BWX Technologies (BWXT), in Lynchburg, Virginia, produces LEU through downblending of US Government weapons material. Currently, BWXT is downblending material supplied by USEC, Inc. from an inventory transferred to USEC, Inc. under the USEC Privatization Act of 1996.

Several companies sell foreign-produced LEU in competition with USEC, Inc. in the United States. The two largest companies that sell LEU in the United States are Urenco Inc., the US subsidiary of Urenco, Ltd. of the United Kingdom and Cogema Inc., the US subsidiary of Compagnie Generale des Matieres Nucleares ("COGEMA"), of France.

Question 4: *Please describe the general state of competition in this sector, and specify the legal conditions which a company must meet before it starts up an activity similar to that of the "Uranium Enrichment Corporation". Please also clarify the basic rules which are given the sector relating to the treatment, use and trade of uranium.*

LEU Production: Only entities licensed by the NRC may produce LEU in the United States. Federal regulations that apply to obtaining such licenses are published in the US Government's Code of Federal Regulations, Title 10, Part 2.

LEU Resale: There is no specific US Government approval required to resell LEU. However, the transportation of LEU requires a licence as does the importation/exportation of LEU. All such licences are issued by the NRC or, in the case of domestic transportation of nuclear material, the US Department of Transportation.

State of Competition: As described in response to Question 3, there is significant competition in this sector.

**RESPONSE TO REQUEST FROM JAPAN IN DOCUMENT GPA/W/162
REGARDING THE PROPOSED MODIFICATIONS TO APPENDIX I
OF THE UNITED STATES IN DOCUMENT GPA/W/153**

Communication from the United States

The following communication, dated 12 February 2002, has been received from the delegation of the United States with the request that it be circulated to the Committee on Government Procurement.

Question 1: *Please clarify, for each of the proposed modifications to Annex 1 and Annex 3 of Appendix I, under which of Article XXIV:6(a) or Article XXIV:6(b) the notification has been made.*

Response 1.1: The following modifications to Annex 1 and Annex 3 of Appendix I are based on Article XXIV:6(a):

Annex 1

- Broadcasting Board of Governors
- The Corporation for National and Community Service
- United States Information Agency
- ACTION
- Arms Control and Disarmament Agency
- The Interstate Commerce Commission
- Administrative Conference of the United States
- Board for International Broadcasting
- Resolution Trust Corporation Oversight Board

Annex 3

- Rural Utilities Service Financing
- Rural Electrification Administration Financing

Response 1.2: The following modifications to Annex 1 and Annex 3 of Appendix I are based on Article XXIV:6(b):

Annex 1

- Panama Canal Commission
- Uranium Enrichment Corporation

Annex 3

- Alaska Power Administration

Question 2: *Regarding those modifications falling under Article XXIV:6(b) (e.g. the proposed deletion of the "Uranium Enrichment Corporation" from Annex 1, as this would seemingly be the case), please explain that government control or influence over the entities concerned has been effectively eliminated in light of the following items:*

the existence of a legal nexus between the entity and the government;

direct or indirect ownership by the government;

the overall composition and concentration of shareholders in the company;

the existence and degree of government support or subsidization for the entity, and whether such support represents a one-time public investment or continuous operating subsidies;

formal or informal government oversight or supervision of the entity's business decisions, beyond the normal regulatory oversight for all suppliers in a particular industry;

personal linkages between the entity and the government;

whether the entity is exclusively engaged in the provision of goods or services in commercial market subject to genuine competition, or whether it has mixed government and commercial functions;

whether the government has granted special or exclusive legal or economic rights or benefits which may alter the competitiveness of the entity's products in a commercial market or otherwise influence the entity's business decisions.

Panama Canal Commission

As indicated in GPA/W/153, the Panama Canal Commission no longer exists. All of its procurement functions have been assumed by the Panama Canal Authority, which is a governmental organization of the Republic of Panama.

Alaska Power Administration

In 1998, the Alaska Power Administration (APA) completed formal divestiture of all assets, which were sold to Alaska municipal and privately owned energy cooperatives, as required by the Alaska Power Administration Asset Sale and Termination Act [Public Law 104-58, 22 November 1995]. APA was subsequently terminated as required by the Act. At this time, the Federal government does not provide any funding to, or maintain any oversight responsibilities for, the former APA assets.

Uranium Enrichment Corporation

(1) Nexus with, or ownership by, the US Government/Composition of Shareholders

The "Uranium Enrichment Corporation" listed in Annex 1 of Appendix I refers to the "United States Enrichment Corporation" ("USEC"), which was created pursuant to the provisions of the Energy Policy Act of 1992, Pub. L. No. 102-486, 106 Stat. 2776 (codified at 42 U.S.C. 2201 *et seq.*). USEC was a wholly owned US Government corporation until July 1998, when pursuant to the USEC Privatization Act, Pub. L. No. 104-134, §§3101-3117, 110 Stat. 1321, 1335-1350 (codified at 42 U.S.C. §2297h *et seq.*), the US Government sold its entire interest in the company by means of a public offering of stock. Pursuant to this transaction, USEC was merged into a private corporation, also named United States Enrichment Corporation ("Enrichment Corporation"), and USEC ceased to exist.

Today, the Enrichment Corporation is a wholly owned subsidiary of USEC Inc., a publicly traded company whose shares are listed on the New York Stock Exchange. USEC Inc.'s stock is owned by approximately 29,000 beneficial holders as of 15 August 2001. The USEC Privatization Act explicitly states that the Enrichment Corporation is not "an agency, instrumentality, or establishment of the United States, a Government corporation, or a Government-controlled corporation". See 42 U.S.C. §2297h-3(b)(1).

(2) US Government Support/Subsidization of USEC

USEC does not receive any subsidies from the US Government.

(3) US Government Oversight or Supervision of USEC's Business Decisions (other than normal regulation)

The US Government does not exert any control or influence over the activities carried out by USEC, Inc. As with other publicly traded companies in the nuclear industry, various US Government agencies have regulatory functions or responsibilities related to activities of USEC, Inc. These agencies include the US Nuclear Regulatory Commission ("NRC"), the US Environmental Protection Agency, the US Department of Transportation, the US Securities and Exchange Commission, the US Occupational Safety and Health Administration and the US Department of Energy ("DOE").

(4) Personal Linkages Between the US Government and USEC

There are no personal or personnel linkages between USEC and the US Government.

(5) Commercial Nature of the Market

Market Description and Market Participants: USEC, Inc. is the only company in the United States that enriches uranium for commercial use.

BWX Technologies (BWXT), in Lynchburg, Virginia, produces low enriched uranium (LEU) through downblending of US Government weapons material. Currently, BWXT is downblending material supplied by USEC, Inc. from an inventory transferred to USEC, Inc. under the USEC Privatization Act of 1996.

Several companies sell foreign-produced LEU in competition with USEC, Inc. in the United States. The two largest companies that sell LEU in the United States are Urenco Inc., the US subsidiary of Urenco, Ltd. of the United Kingdom and Cogema Inc., the US subsidiary of Compagnie Générale des Matières Nucléaires ("COGEMA"), of France.

LEU Production: Only entities licensed by the NRC may produce LEU in the United States. Federal regulations that apply to obtaining such licences are published in the US Government's Code of Federal Regulations, Title 10, Part 2.

LEU Resale: There is no specific US Government approval required to resell LEU. However, the transportation of LEU requires a licence as does the importation/exportation of LEU. All such licences are issued by the NRC or, in the case of domestic transportation of nuclear material, the US Department of Transportation.

State of Competition: As described in the section on Market Description and Market Participants, there is significant competition in this sector.

(6) Special or Exclusive Rights Granted to USEC

USEC, Inc. serves as the executive agent for the US Government in implementing an Executive Agent agreement under which USEC, Inc. purchases LEU derived from highly enriched uranium from the Russian Federation under the Agreement Between the Government of the United States of America and the Government of the Russian Federation Concerning the Disposition of Highly Enriched Uranium Extracted from Nuclear Weapons, dated 18 February 1993. USEC, Inc. can be replaced as the US Government's executive agent at any time.

REQUEST FOR OBSERVER STATUS

Communication from China

The following communication, dated 12 December 2001, has been received from the Permanent Mission of the People's Republic of China with the request that it be circulated to the Committee on Government Procurement.

The Permanent Mission of the People's Republic of China to the United Nations Office at Geneva and other International Organizations in Switzerland presents its compliments to the Director-General of the World Trade Organization and has the honour to request for China's observer status in the Committee on Government Procurement.

**QUESTIONS RELATING TO THE NOTIFICATIONS BY JAPAN
(GPA/W/144, GPA/W/145 AND GPA/W/146)**

Communication from the United States

The following communication, dated 19 October 2001, has been received from the delegation of the United States with the request that it be circulated to the Committee on Government Procurement.

Following Japan's proposed modifications to its Appendix I (GPA/W/144, GPA/W/145, GPA/W/146) related to the Japan railway companies and the US objection thereto (GPA/W/151), as well as the helpful additional material that Japan provided on 20 September and 10 October 2001 (GPA/W/152 and Corr.1), the United States would appreciate Japan's responses to the questions set out below. Japan's responses will assist the United States in determining whether, pursuant to Article XXIV:6 of the Agreement on Government Procurement, the Japanese Government's "control or influence over [the three Honshu Companies] will be effectively eliminated" and whether "a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement" will be maintained, after the Amendment to the Law concerning Passenger Railway Companies and Japan Freight Railway Company (Amendment Law) enters into effect:

1. The Supplemental Provisions to the Amendment Law, set out in GPA/W/152, describe the Guidelines that the Minister of Land, Infrastructure and Transport (MLIT) is required to issue regarding matters that the three Honshu Companies (JR East, JR West and JR Central) are to consider "for the time being in the conduct of their business". Please provide an English translation of the Guidelines as soon as they are prepared.
2. With regard to each of the three categories of items that the Guidelines will address, please indicate whether private railway companies are subject to the same guidance or direction that will be set out in the Guidelines. If so, please specify the type of guidance or regulation and the legal authority for it.
3. Does the Government's regulation of the rates and fares of the three Honshu Companies differ from its regulation of the rates and fares of private railway companies? If so, please describe the differences, including the differences in legal authority.
4. Will the rates and fares of the three Honshu Companies be set at the same rates and fares as the other four JR companies?
5. What is the role of the Transport Council with regard to the issuance by MLIT of a recommendation or order, under Article 4 of the Amendment Law?

6. Are there any representative directors or statutory auditors of the three Honshu Companies who are NOT former employees of either a JR company or the central Government? Please provide a list of the current representative directors and statutory auditors of the three Honshu Companies and their prior employment affiliations.
 7. Does the Japanese Government have any plans to privatize the Japan Railway Construction Public Corporation, which owns shares of the three Honshu Companies?
 8. Other than the Japan Railway Construction Public Corporation, are there any other governmental entities, including public corporations, that own shares of the three Honshu Companies?
 9. Japan indicated in GPA/W/152 that the Public Corporation plans to sell its shares in three Honshu Companies "on a step-by-step basis", taking into account market conditions. If possible, please elaborate upon those plans.
 10. Will the JR companies, including the three Honshu Companies, conduct any common procurement?
 11. Will the JR companies, including the three Honshu Companies, be subject to common specifications in their procurement?
 12. What is the central Government's authority over procurement by the JR companies?
-

COMMUNICATION FROM THE UNITED STATES

The following communication, dated 19 October 2001, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

Pursuant to Article XXIV:6, and on the basis of information provided by Japan, the United States hereby withdraws its objection, communicated in GPA/W/95, to the modification to Appendix I of the Agreement on Government Procurement that had been proposed by Japan in GPA/W/91, dated 6 September 1999, relating to NTT Communications Corporation. The United States would like to thank the Government of Japan for its thorough responses to questions that the United States posed in GPA/W100 and GPA/W100/Add.1, as well as for engaging in extensive bilateral discussions on this issue.

The United States notes that withdrawal of this objection is based on a detailed evaluation of the particular circumstances relating to NTT Communications Corporation and is without prejudice to US views on any other proposal for potential modification of GPA coverage.

REQUEST FOR OBSERVER STATUS

Communication from Albania

The following communication, dated 28 September 2001, has been received from the Permanent Mission of the Republic of Albania with the request that it be circulated to the Committee on Government Procurement.

The Permanent Mission of the Republic of Albania to the United Nations and other International Organizations in Geneva presents its compliments to the Director-General of the World Trade Organization and has the honour to apply for observer status in the Committee on Government Procurement.

**CHECKLIST OF ISSUES FOR PROVISION OF INFORMATION RELATING TO
ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT**

Replies by Estonia

Addendum

The following communication, dated 28 September 2001, has been received from the Permanent Mission of Estonia with the request that it be circulated to Parties.

Estonia would hereby like to supplement the submission of 17 August 2001 (document GPA/W/127/Rev.1, dated 18 September 2001) with the following information.

The current answer to question 2 should be supplemented with a list of the following legal acts:

2. *What are the other laws, regulations, decrees, administrative rulings, decisions, policy guidelines and other instruments governing government procurement? Please provide a summary of the subject areas dealt with by each of these instruments. Please also explain the main differences (if any) that exist between their application at the central and sub-central levels of government and at other types of entities.*

- Regulation of the Minister of Economic Affairs "Requirements to the Web Application of the Web Site and the Order of Compliance Assessment Related to Such Requirements" (entered into force 22 July 2001, published in RT L 2001, 85, 1183);
- Regulation of the Minister of Economic Affairs "The Order of Work of the Committee Deciding the Entry into the *National Register of Undertakings Operating in Areas of Activity Subject to Special Requirements* of an Undertaking Wishing to Operate as a Administrator of a Web Site for Government Procurement" (entered into force 2 August 2001, published in RT L 2001, 92, 1271);
- Regulation of the Government "Amendments to the Government Regulation of 29 March 2001 No. 116 "Establishment of the National Government Procurement Register and the Statutes of the Register" (entered into force 19 April 2001, published in RT I 2001, 37, 214);
- Regulation of the Government "The Approved List of Objects of Government Procurement in the Case of Which Consolidated Government Procurement is Applied and the Bodies Organizing Tendering Procedures for Such Government Procurement" (entered into force 1 January 2002, published in RT I 2001, 68, 411);
- Regulation of the Minister of Economic Affairs "The Instructions for Organization of government Procurement for Construction and Projects of Buildings" (entered into force 10 April 2001, published in RT L 2001, 44, 629);

- Regulation of the Government "Establishment of the National Government Procurement Register and the Statutes of the Register" (entered into force 1 March 2001, published in RT I 2001, 20, 111).

The current answer to question 5 should be supplemented for further clarity with the following indicative list of government entities:

5. *Please list all central government entities (ministries, departments, agencies, etc.) procuring goods, services and construction services.*

1. The State Chancellery
2. The National Archives of Estonia
3. Ministry of Education
4. The Language Inspectorate
5. Ministry of Justice
6. Prosecutor's Office
7. Ministry of Defense
8. The Information Board
9. Ministry of Environment
10. Land Board

68. Government of Saare County
69. Government of Tartu County
70. Government of Valga County
71. Government of Viljandi County
72. Government of Võru County

The answer to question 18 should read as follows:

18. *In situations where qualification procedures and selective tendering may be used, to what extent do entities allow suppliers to become qualified during the procurement process? To what extent do entities maintain permanent lists of suppliers?*

The Public Procurement Act sets the qualification and the use of permanent lists of suppliers through the following provisions:

§30. Qualification of tenderers or applicants

/.../

(2) Upon verification of the qualifications of an applicant in the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the qualification requirements prescribed for tenderers shall be applied to the applicant.

(3) In the case of an open tendering procedure, the contracting authority shall verify the qualifications of the tenderers before reviewing the contents of the tenders.

(4) In the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall verify the qualifications of an applicant

before submission of the tender documents. A tenderer may be subsequently disqualified only if the contracting authority becomes aware of new circumstances.

(5) In the case of a negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall verify the qualifications of tenderers either before or after submission of tender documents upon purchasing of goods or contracting for services and before submission of tender documents upon contracting for construction work.

§37. System for qualifying tenderers

(1) Contracting authorities specified in clause 5 (1) 6) of this Act may use a qualifying system for tenderers both in the case of public procurements the estimated value of which is lower than an international threshold and public procurements the value of which equals or exceeds an international value threshold. Contracting authorities specified in clauses 5 (1) 1)–5) of this Act may use a qualifying system for tenderers in the case of a negotiated tendering procedure without prior publication of a tender notice and in the case of a public procurement the estimated value of which is lower than an international value threshold.

(2) A contracting authority may establish a system for qualifying tenderers, based on objective criteria and the provisions of this Act.

(3) Contracting authorities who establish a system for qualifying tenderers based on qualification criteria and rules shall ensure that it is possible, at all times, for interested persons to:

- 1) access the criteria and rules for qualifying tenderers, whereas interested persons shall be notified of amendments to such criteria or rules;
- 2) apply for qualification.

(4) A contracting authority may use lists of qualified tenderers compiled by other persons on the condition that the qualification systems used are in accordance with the requirements of the contracting authority and the provisions of this Act. In such case, the contracting authority shall notify interested persons of the names of the persons who compiled the lists of qualified tenderers.

(5) A contracting authority shall inform applicants of the decision concerning qualification. If the decision concerning qualification cannot be made within two months, the contracting authority shall inform applicants of the reasons for the delay and notify them of the date on which the decision is to be made within two weeks after submission of the applications.

(6) Applicants who are disqualified shall be informed of the corresponding decision and grounds for disqualification. The grounds for disqualification shall be based on the criteria for qualifying tenderers, specified in subsection (2) of this section.

(7) A contracting authority shall not require tenderers to submit documents which duplicate documents already submitted to such contracting authority by the corresponding tenderer.

(8) Written records shall be kept of qualified tenderers. The corresponding list may be subdivided into categories according to the object of public procurement to which the qualification applies.

(9) Contracting authorities may disqualify of a tenderer only on grounds arising from criteria for qualification specified in subsection (2) of this section. A tenderer shall be notified of disqualification and the reason thereof shall be indicated.

(10) A contracting authority shall submit a notice concerning the establishment of a system for qualifying tenderers to the register and the notice shall contain at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
- 2) the time of establishing the criteria and rules for qualifying tenderers;
- 3) the place and time for accessing the criteria and rules for qualifying tenderers.

The answer to question 28 should read as follows:

28. *Article IX:1 of the Agreement foresees publication of permanent lists of qualified suppliers by entities maintaining such lists. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

The lists of qualified suppliers are not published, but a contracting entity shall publish electronically a notice concerning the establishment of a system for qualifying tenderers. The Internet address for such electronic publications is: <http://www.rha.gov.ee>

§37. System for qualifying tenderers

(1) Contracting authorities specified in clause 5 (1) 6) of this Act may use a qualifying system for tenderers both in the case of public procurements the estimated value of which is lower than an international threshold and public procurements the value of which equals or exceeds an international value threshold. Contracting authorities specified in clauses 5 (1) 1)–5) of this Act may use a qualifying system for tenderers in the case of a negotiated tendering procedure without prior publication of a tender notice and in the case of a public procurement the estimated value of which is lower than an international value threshold.

(2) A contracting authority may establish a system for qualifying tenderers, based on objective criteria and the provisions of this Act.

(3) Contracting authorities who establish a system for qualifying tenderers based on qualification criteria and rules shall ensure that it is possible, at all times, for interested persons to:

- 1) access the criteria and rules for qualifying tenderers, whereas interested persons shall be notified of amendments to such criteria or rules;
- 2) apply for qualification.

(4) A contracting authority may use lists of qualified tenderers compiled by other persons on the condition that the qualification systems used are in accordance with the requirements of the contracting authority and the provisions of this Act. In such case, the contracting authority shall notify interested persons of the names of the persons who compiled the lists of qualified tenderers.

(5) A contracting authority shall inform applicants of the decision concerning qualification. If the decision concerning qualification cannot be made within two months, the contracting authority shall inform applicants of the reasons for the delay and notify them of the date on which the decision is to be made within two weeks after submission of the applications.

(6) Applicants who are disqualified shall be informed of the corresponding decision and grounds for disqualification. The grounds for disqualification shall be based on the criteria for qualifying tenderers, specified in subsection (2) of this section.

(7) A contracting authority shall not require tenderers to submit documents which duplicate documents already submitted to such contracting authority by the corresponding tenderer.

(8) Written records shall be kept of qualified tenderers. The corresponding list may be subdivided into categories according to the object of public procurement to which the qualification applies.

(9) Contracting authorities may disqualify of a tenderer only on grounds arising from criteria for qualification specified in subsection (2) of this section. A tenderer shall be notified of disqualification and the reason thereof shall be indicated.

(10) A contracting authority shall submit a notice concerning the establishment of a system for qualifying tenderers to the register and the notice shall contain at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
- 2) the time of establishing the criteria and rules for qualifying tenderers;
- 3) the place and time for accessing the criteria and rules for qualifying tenderers.

Committee on Government Procurement

Original: English

MODIFICATIONS TO PUBLICATIONS LISTED IN APPENDIX II AND APPENDIX III OF THE AGREEMENT ON GOVERNMENT PROCUREMENT

Communication from the United States

The following communication from the Permanent Mission of the United States was received on 19 September 2001, with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Pursuant to recent changes in US Federal regulations for publishing information relating to procurement by Federal agencies, the United States wishes to inform the Committee that the references to the "Commerce Business Daily" in Appendix II and Appendix III of the Agreement on Government Procurement (GPA) should be deleted and replaced with the new Federal "single point of entry" web site:

"Federal Business Opportunities (<http://www.fedbizopps.gov>)"

Effective 1 October 2001, Federal regulations require that all Federal agencies publish notices of intended procurements (Article IX:1 of the GPA), post-award notices (Article XVIII:1 of the GPA), and any notices relating to permanent lists of qualified suppliers (Article XI:9 of the GPA) in this publication. The regulations allow, but do not require Federal entities to continue to publish notices in the Commerce Business Daily and other electronic or paper publications.

This change in the publication of information on procurement by US Federal agencies does not affect the references in Appendix II and Appendix III to publications used by Annex 2 and Annex 3 entities.

**CHECKLIST OF ISSUES FOR PROVISION OF INFORMATION RELATING TO
ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT**

Replies by Estonia

Revision

The following communication, dated 17 August 2001, has been received from the Permanent Mission of Estonia with the request that it be circulated to Parties.

Due to the new legislation (Public Procurement Act which entered into force on 1 April 2001, and the regulations adopted on the basis of it), Estonia hereby submits revised replies to the checklist of issues.

I. LEGAL FRAMEWORK

1. *Is there a single central law on procurement? If so, please specify?*

The present Public Procurement Act serves as a single central law on procurement.

2. *What are the other laws, regulations, decrees, administrative rulings, decisions, policy guidelines and other instruments governing government procurement? Please provide a summary of the subject areas dealt with by each of these instruments. Please also explain the main differences (if any) that exist between their application at the central and sub-central levels of government and at other types of entities.*

Current legal acts on government procurement in the Republic of Estonia are as follows:

1. Public Procurement Act (entered into force on 1 April 2001, published in RT I 2001, 40, 224);
2. Regulation of the Government "Establishment of register and the statutes for the maintenance of the register" (entered into force on 19 April 2001, published in RT I 2001, 37, 214);
3. Regulation of the Ministry of Economic Affairs "The formal requirements for prior notices and the procedure for submission of prior notices" (entered into force on 8 April 2001, published in RT L 2001, 44, 623);
4. Regulation of the Ministry of Economic Affairs "The formal requirements for tender documents and the procedure for submission of tender documents" (entered into force on 8 April 2001, published in RT L 2001, 44, 625);

5. Regulation of the Ministry of Economic Affairs "The rules for organizing public procurement of construction work or construction design" (entered into force on 8 April 2001, published in RT L 2001, 44, 629);
6. Regulation of the Ministry of Economic Affairs "The formal requirements for notices concerning negotiated tendering procedures without prior publication of a tender notice and the procedure for submission" (entered into force on 8 April 2001, published in RT L 2001, 44, 622);
7. Regulation of the Ministry of Economic Affairs "The formal requirements for declarations and the procedure for submission" (entered into force on 8 April 2001, published in RT L 2001, 44, 618);
8. Regulation of the Ministry of Economic Affairs "The formal requirements for notices announcing a design contest and the procedure for submission" (entered into force on 8 April 2001, published in RT L 2001, 44, 624);
9. Regulation of the Ministry of Economic Affairs "The formal requirements for design contest declarations and the procedure for submission" (entered into force on 8 April 2001, published in RT L 2001, 44, 620);
10. Regulation of the Ministry of Economic Affairs "The formal requirements for public procurement reports and the procedure for submission" (entered into force on 8 April 2001, published in RT L 2001, 44, 619);
11. Regulation of the Ministry of Economic Affairs "The formal requirements for system for qualifying tenderers and the procedure for submission" (entered into force on 8 April 2001, published in RT L 2001, 44,621);
12. Regulation of the Ministry of Economic Affairs "The standard classification of objects of public procurements" (entered into force on 1 April 2001, published in RT L 2001, 42, 595);
13. Competition Act (entered into force on 1 October 1998, published in RT I 1998, 30, 410);
14. *Riigi Teataja* Act (entered into force on 1 March 2000, published in RT I 1999, 10, 155; 1999, 57, 594);
15. Code of Administrative Court Procedure (entered into force on 1 January 2000, published in RT I 1999, 31, 425; 1999, 96, 846).

3. *To what extent will the provisions of the Agreement be applied directly or need to be transposed into the relevant law? In the event of direct application of the Agreement over conflicting provisions of domestic law, please indicate the relevant legal basis.*

The Agreement on Government Procurement has to be ratified by the Parliament before it becomes a part of Estonia's law.

In the case of conflicting provisions of a domestic law and an international agreement ratified by Parliament, according to Article 123 of the Constitution of the Republic of Estonia, the provisions of the international agreement have supremacy over the domestic law provisions.

II. SCOPE AND COVERAGE

4. *Please summarize the organization of the government in your country at each level.*

The Government of Estonia represents a type of a government of a unitary state and it has the administrative authority all over the territory of the state in the framework of the existing law. There are also local municipalities, which have authority to organize local life in local issues on their respective territories according to the existing law. The right to conclude international agreements as well as the responsibility for their fulfilment rests solely with the Government of the Republic of Estonia.

5. *Please list all central government entities (ministries, departments, agencies, etc.) procuring goods, services and construction services.*

The Public Procurement Act defines the contracting authority as follows:

§5. Contracting authority

(1) For the purposes of this Act, a contracting authority is:

- 1) a state agency, city or local government, or a local government agency;
- 2) a legal person in public law or a body of a legal person in public law;
- 3) a legal person in private law which is not a company and all the founders or members of which are, jointly or separately, the state, a local government and/or a legal person in public law;
- 4) a legal person in private law which is not a company and which, to the extent of more than 50 per cent, is financed or more than one-half of the members of the supervisory board or management board of which are appointed jointly or separately by the state, a local government and/or a legal person in public law;
- 5) an undertaking if it has received a construction work concession from the state, a local government or a person specified in clauses 2)–4) of this subsection and enters into procurement contracts for construction work on the basis of such concession, or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately finance the actual or all of the activities of the undertaking to the extent of more than 50 per cent, or if the state and a local government jointly or separately hold a majority of the votes or more than 50 per cent of the shares in the undertaking either directly or through other persons;
- 6) an undertaking if the state or a local government has granted a special or exclusive right to the undertaking pursuant to the Competition Act (RT I 1998, 30, 410; 1999, 89, 813; 2000, 53, 343; RT III 21, 232) and if the purchasing of goods or contracting for services or construction work is necessary for the exercise of the special or exclusive right, or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately hold a majority of votes or more than 50 per cent of the shares in the undertaking directly or through other persons and if the area of activity of the undertaking is either the construction or operation of permanent networks with the intention to provide services relating to the production, transportation, transmission or distribution of water, gas, electricity or thermal energy

to the public, or the use of a geographic area in order to prospect for or extract fuels or enable air or water transport undertakings to use an airport, port or other terminal structure, or the operation of networks enabling the public to use services relating to railway, tramway, trolleybus or bus transport, automatic systems or cable distribution, or the construction or operation of public telecommunications networks for ensuring one or more telecommunications services.

(2) Production, transportation, transmission or distribution of water, gas, electricity or thermal energy by an undertaking to networks servicing the public is not deemed to be an activity specified in clause (1) 6) of this section if consumption of water or electricity is necessary for activities other than those specified in clause (1) 6) of this section, or if the supply of the public network depends solely on consumption by the undertaking and does not exceed 30 per cent of the average overall production of water or electricity by the undertaking during the last three years, or if production of gas or thermal energy by the undertaking results inevitably from activities other those specified in clause (1) 6) of this section, or if the public network is supplied with a surplus of gas or thermal energy for the purposes of the economic use thereof and such surplus does not exceed 20 per cent of the average turnover of the undertaking during the last three years.

The organization of the Government of the Republic of Estonia is regulated by the Government of the Republic Act.

There are 12 ministries in Estonia, the State Chancellery and 15 county governments, as well as executive agencies and inspectorates, and their regional offices with the authority to exercise executive power.

The Republic of Estonia has the following ministries:

- (1) Ministry of Education;
- (2) Ministry of Justice;
- (3) Ministry of Defence;
- (4) Ministry of the Environment;
- (5) Ministry of Culture;
- (6) Ministry of Economic Affairs;
- (7) Ministry of Agriculture;
- (8) Ministry of Finance;
- (9) Ministry of Internal Affairs;
- (10) Ministry of Social Affairs;
- (11) Ministry of Transport and Communications;
- (12) Ministry of Foreign Affairs.

6. *What entities at the sub-central level of government (states, provinces, municipalities, etc.) procure goods and services?*

At the sub-central level, the local municipalities procure goods and services.

7. *Which are the enterprises owned or controlled by the government that are subject to the rules on government procurement? Which are the other entities or categories of entities (Annex 3-type of entities) owned and controlled by the government that engage in procurement? Specify.*

As for the purpose of government procurement, Estonia does not operate any lists of such entities. Instead, the issue is regulated through the notion of government procurement in Estonia's law. In any concrete case, it will follow the rules set out in the Public Procurement Act.

The Public Procurement Act defines entities that are subject to the rules of government procurement as follows:

§5. Contracting authority

(1) /.../

- 3) a legal person in private law which is not a company and all the founders or members of which are, jointly or separately, the state, a local government and/or a legal person in public law;
- 4) a legal person in private law which is not a company and which, to the extent of more than 50 per cent, is financed or more than one-half of the members of the supervisory board or management board of which are appointed jointly or separately by the state, a local government and/or a legal person in public law;
- 5) an undertaking if it has received a construction work concession from the state, a local government or a person specified in clauses 2)–4) of this subsection and enters into procurement contracts for construction work on the basis of such concession, or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately finance the actual or all of the activities of the undertaking to the extent of more than 50 per cent, or if the state and a local government jointly or separately hold a majority of the votes or more than 50 per cent of the shares in the undertaking either directly or through other persons;
- 6) an undertaking if the state or a local government has granted a special or exclusive right to the undertaking pursuant to the Competition Act (RT I 1998, 30, 410; 1999, 89, 813; 2000, 53, 343; RT III 21, 232) and if the purchasing of goods or contracting for services or construction work is necessary for the exercise of the special or exclusive right, or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately hold a majority of votes or more than 50 per cent of the shares in the undertaking directly or through other persons and if the area of activity of the undertaking is either the construction or operation of permanent networks with the intention to provide services relating to the production, transportation, transmission or distribution of water, gas, electricity or thermal energy to the public, or the use of a geographic area in order to prospect for or extract fuels or enable air or water transport undertakings to use an airport, port or other terminal structure, or the operation of networks enabling the public to use services relating to railway, tramway, trolleybus or bus transport, automatic systems or cable distribution, or the construction or operation of public telecommunications networks for ensuring one or more telecommunications services.

8. *Do entities listed in response to questions 5, 6 and 7 apply in their procurement the main law (if one exists), other legislation provided by the federal or central level of government or are they autonomous from federal or central level of government in their procurement rules and practices? Where any of these entities are not subject to the main procurement law, please list the entities concerned and indicate which laws, regulations, etc., they are subject to. How will you government ensure the implementation of the Agreement by such entities below the central/federal government level?*

All entities at all levels follow the Public Procurement Act and regulations adopted on the basis of the Act.

Entities at the sub-central level of government are not autonomous from the Government of the Republic of Estonia in implementing any international agreements.

9. *Are there any general exceptions from the scope of application of the national procurement rules, for instance for essential national defense or security reasons? Please provide details.*

The Public Procurement Act sets the exceptions from application of procurement rules as follows:

§4. Exceptions

(1) A contracting authority is not required to apply the procedure provided for in this Act to the following:

- 1) public procurements in the case of which adherence to the procedure provided for in this Act results in the disclosure of a state secret;
- 2) contracting for water, electricity, gas, thermal energy, cable distribution and telecommunications services, if such services can be provided by only one person;
- 3) purchasing of weapons, ammunition, battle equipment and training equipment related thereto, and contracting for the related services;
- 4) contracting for arbitration or conciliation services;
- 5) contracting for financial services relating to the issue, sale, purchasing or assignment of securities or other financial instruments, or contracting for services provided by the Bank of Estonia; similarly, the Bank of Estonia is not required to apply the procedure provided for in this Act upon purchasing of goods or contracting for services the purpose of which is to ensure the security of the Bank or compliance with the confidentiality requirements established with regard to information not subject to disclosure;
- 6) contracting for scientific research unless the results of the research are used by the contracting authority in its own interests and for the purposes of its activities;
- 7) purchasing of immovables, existing structures or parts thereof as movables, or of rights relating thereto;
- 8) contracting for services by broadcasting organizations for the acquisition, development, production or co-production of a programme or a part thereof, and contracting for broadcasting time;
- 9) entry into an employment contract;
- 10) services which a contracting authority specified in clause 5 (1) 6) of this Act contracts from an affiliated undertaking;
- 11) purchasing of goods or contracting for construction work or services, if the procurement contract is entered into by the construction work concessionaire and the affiliated undertaking whom the concessionaire has entered in the list annexed to the tender submitted in order to obtain the construction work concession;

- 12) purchasing of museum objects, records, data media or licences for the use of data media, the estimated value of which is lower than the international value threshold provided for in §16 of this Act, if the purchaser is a museum, archives or library;
- 13) contracting for the performance of special audits for the purposes of exercising state supervision, if the right of the state supervision authority to order such special audits has been provided by law;
- 14) public procurements in the case of which the procurement contract is entered into according to a mandatory special procedure of an international organization;
- 15) contracting for telecommunications services provided by a person engaged in creation or operation of public telecommunications networks specified in clause 5 (1) 6) of this Act, if other persons are free to provide the same services in the same geographical area and under similar conditions;
- 16) purchasing of goods if the contracting authority specified in clause 5 (1) 6) of this Act purchases the goods in order to sell or lease them to third persons and the contracting authority enjoys no special or exclusive right for selling or leasing the goods and other persons have the right to sell or lease such goods under the same conditions as the contracting authority;
- 17) purchasing, by an energy undertaking, of electricity or fuel necessary for the production of electricity.

10. *Please provide available statistics on the procurement by government entities in your country in the last two years, including, to the extent available, a breakdown by entity and by categories of products and services.*

Available statistics on government procurement for 1998-2000 is attached as an annex to this document.

III. NATIONAL TREATMENT AND NON-DISCRIMINATION

11. *Identify the specific provisions in the legislation which reflect the national treatment and non-discrimination commitments of Article III of the Agreement.*

There are no specific provisions in the legislation, which directly reflect the national treatment and non-discrimination commitments of Article III of the Agreement. However, the Public Procurement Act does not contain any provisions that limit the rights of the foreign tenderers in comparison to the domestic tenderers.

The above statement is corroborated by the principle provided for in §6 of the Public Procurement Act.

§6. Equal treatment of persons

A contracting authority shall treat all persons participating in a public procurement tendering procedure (hereinafter tenderers) equally.

12. *Please provide details of any provisions in national legislation according domestic supplies and suppliers treatment more favourable than that accorded to foreign supplies or suppliers or according supplies or suppliers of any country more favourable treatment than those of any other country.*

There are no such provisions in the Public Procurement Act.

13. *Please provide details of any provisions in national legislation allowing a locally established supplier to be treated less favourably than another locally established supplier on the basis of its degree of foreign affiliation or ownership or discriminating against locally established suppliers on the basis of the country of production of the good or services being supplied.*

There are no such provisions in the Public Procurement Act.

14. *Please specify to what extent, if at all, more favourable treatment is granted to any sectors of the economy, regions or specific categories of suppliers or supplies.*

There are no provisions granting more favourable treatment to any sectors of economy, regions or specific categories of suppliers or supplies.

15. *Please specify any provisions requiring or allowing the use of offsets or measures with similar effect, such as domestic content, licensing of technology, investment, counter-trade or similar requirements in the qualification or selection of suppliers, products or services or in the evaluation of tenders and award of contracts.*

There are no provisions requiring or allowing the use of offsets or measures with similar effect.

IV. ELEMENTS SPECIFIC TO PROCUREMENT PROCEDURES

16. *Please provide a general description of your existing procurement methods and procedures, including the main procurement methods used and a brief description of each method, and the extent to which qualification of suppliers and open, selective and limited tendering for each level of government is used.*

The procurement methods and procedures set by the Public Procurement Act are the following:

§54. Open tendering procedure

(1) Contracting authorities shall use open tendering procedures. The use of other tendering procedures is permitted only in the cases provided for in this Act.

(2) A contracting authority shall invite all interested persons to participate in an open tendering procedure by publishing an invitation to tender.

(3) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of tender documents and the tenderer's need to contact the contracting authority in order to access the supporting documents or the construction site.

(4) A contracting authority shall issue tender documents to persons interested in participating in an open tendering procedure during the period between publication of the invitation to tender and the first due date for submission of tenders, within three working days after receipt of the corresponding application.

§55. Restricted tendering procedure

(1) A contracting authority may use a restricted tendering procedure if:

- 1) the contracting authority has approved objective selection criteria for the tenderers; and
- 2) it is economically expedient to verify the qualifications of applicants before submission of the tender documents.

(2) In a restricted tendering procedure, the contracting authority shall, on the basis of the financial status and technical capacity of the applicants, select the persons to whom tender documents shall be submitted concurrently.

(3) A contracting authority may predetermine the number of tenderers participating in a restricted tendering procedure on the condition that:

- 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than five and the maximum not more than 20;
- 2) the number of tenderers is determined on the basis of the nature of the goods to be purchased or construction work or services to be contracted for;
- 3) the number of tenderers participating in the tendering procedure is determined in the invitation to tender;
- 4) in the case of procurement contracts the value of which is lower than an international value threshold, the minimum number of tenderers is not less than three.

(4) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of tender documents and the tenderers' need to access the supporting documents or the construction site.

§56. Negotiated tendering procedure with prior publication of tender notice

(1) A contracting authority may use a negotiated tendering procedure with prior publication of a tender notice if:

- 1) all tenders were rejected in an open tendering procedure or restricted tendering procedure on the grounds provided for in subsection 43 (4) or 44 (1) of this Act or if such tendering procedure was terminated pursuant to clause 8 (2) 4) or 5) of this Act and the initial terms and conditions of the public procurement were not substantially altered;
- 2) due to the nature of the construction work or services or the possible risks involved in contracting for construction work or services, it is not possible to estimate the value of the public procurement in advance;

- 3) due to the nature of the services to be contracted, especially services concerning intellectual property and insurance or banking and investment services, it is not possible to determine the specific terms and conditions of the public procurement with sufficient accuracy in order to find a successful tender in an open tendering procedure or restricted tendering procedure;
- 4) the construction work or services contracted for are necessary only for the purposes of scientific research, development or testing and the expenses of the research and development work are not covered from the costs of the construction work or services;
- 5) the object of the public procurement is a construction work concession.

(2) In a negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall, on the basis of the financial status and technical capacity of the applicants, select the persons to whom tender documents shall be submitted concurrently.

(3) A contracting authority may predetermine the number of tenderers participating in a negotiated tendering procedure with prior publication of a tender notice on the condition that:

- 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than three;
- 2) the number of tenderers participating in the tendering procedure is sufficient for ensuring competition.

§57. Negotiated tendering procedure without prior publication of a tender notice

(1) Contracting authorities may use a negotiated tendering procedure without prior publication of a tender notice if:

- 1) rapid completion of the public procurement is necessary due to unforeseeable events in order to save the life or health of a person or property of substantial value or prevent damaging human life or health or property of substantial value or spread of environmental damage, or it is necessary due to national defence reasons, and the use of other tendering procedures is not possible due to time constraints;
- 2) additional goods are purchased from the initial tenderer in order to either partially replace or supplement the goods purchased previously and a change of tenderer would entail the purchasing of goods which are technically incompatible with the goods purchased previously or the use of which would cause disproportionate additional costs, whereas such additional goods may be purchased during three years after the end of the initial open tendering procedure or restricted tendering procedure;
- 3) the construction work or services to be additionally contracted for were not included in the initial public procurement but have, due to unforeseen circumstances, become necessary, on the condition that the additional procurement contract is entered into with the same tenderer and due to technical or financial reasons such additional construction work or services cannot be separated from the initial procurement without causing disproportionate costs to the parties to the procurement contract and the additional construction work or services are directly necessary for performing the procurement contract and the total value of the contracts for additional construction work or services equals or exceeds an international value threshold and does not exceed 50 per cent of the total value of the initial public procurement;

- 4) the construction work or services to be additionally contracted for were not included in the initial public procurement but have, due to unforeseen circumstances, become necessary, on the condition that the additional procurement contract is entered into with the same tenderer and due to technical or financial reasons such additional construction work or services cannot be separated from the initial procurement without causing disproportionate costs to the parties to the procurement contract and the additional construction work or services are directly necessary for performing the procurement contract and the total value of the contracts for additional construction work or services is lower than an international value threshold and does not exceed 20 per cent of the total value of the initial public procurement;
- 5) in the absence of a suitable alternative or substitute, goods can be purchased or services or construction work contracted for only from one particular tenderer due to artistic reasons or reasons connected with the protection of exclusive rights like patents or copyrights or, in the absence of competition, due to technical reasons;
- 6) new construction work is contracted for which repeats similar construction work performed on the basis of a procurement contract entered into by the same contracting parties as a result of an open tendering procedure conducted earlier, on the condition that such construction work complies with the initial building design on the basis of which the procurement contract was entered into and the total value of the construction work is equal to or exceeds an international value threshold;
- 7) new construction work is contracted for which repeats similar construction work performed on the basis of a procurement contract entered into by the same contracting parties as a result of an open tendering procedure conducted earlier, on the condition that such construction work complies with the initial building design on the basis of which the procurement contract was entered into and the total value of the construction work is lower than an international value threshold and not more than one year has passed from the expiry of the initial procurement contract;
- 8) goods are purchased under especially favourable conditions if such conditions are available only for a very limited period of time, e.g. in the case of a liquidation or bankruptcy proceeding, and such conditions allow for purchasing the goods for a price which is at least 50 per cent lower than the usual market price;
- 9) goods are purchased on the commodity exchange;
- 10) the procurement contract is entered into with the winner of a design contest conducted pursuant to the provisions concerning open tendering procedure or restricted tendering procedure provided for in this Act;
- 11) no tenders in compliance with the requirements were submitted in an opening tendering procedure, restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice and on the condition that the initial tendering conditions have not been substantially altered;
- 12) goods are purchased or services contracted for only for conducting investigations or experiments or for scientific or development purposes and not in order to receive benefits therefrom, or for covering the corresponding expenses, on the condition that such purchasing of goods or contracting for services does not prejudice competition in the conclusion of subsequent contracts for similar purposes;

- 13) the estimated value of the public procurement together with the value-added tax is up to EEK 200,000 per year in the case of purchasing of goods or contracting for services or up to one million kroons per year in the case of contracting for construction work.
- (2) In a negotiated tendering procedure without prior publication of a tender notice, the contracting authority may negotiate with as many tenderers as the contracting authority considers necessary.
- (3) In the case of a negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall select the persons to whom tender documents shall be submitted concurrently.
- (4) In the case of a negotiated tendering procedure without prior publication of a tender notice, contracting authorities are not required to comply with the requirements provided for in §§18, 19, 25 and 38, subsections 39 (2)-(5), §§40 and 42, subsections 43 (2)-(5) and §§44-46, 48-50, 52 and 53 of this Act.
- (5) In a negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall send a notice concerning the negotiated tendering procedure without prior publication of a tender notice to the register before the commencement of the negotiations and the notice shall set out at least the following information:
 - 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
 - 2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible;
 - 3) the name, position and details of the person responsible for the public procurement;
 - 4) the estimated value of the public procurement;
 - 5) the due date for the performance of the procurement contract;
 - 6) the names, addresses and other details of the tenderers selected by the contracting authority, and the registry codes of the tenderers if they have a registry code;
 - 7) the grounds for the selection of the tendering procedure on the basis of subsection (1) of this section.
- (6) The formal requirements for notices concerning negotiated tendering procedures without prior publication of a tender notice and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§58. Special rules

- (1) Contracting authorities specified in clause 5 (1) 6) of this Act may use a negotiated tendering procedure with prior publication of a tender notice instead of an open tendering procedure or restricted tendering procedure.

(2) In addition to the cases provided for in §57 of this Act, a contracting authority specified in clause 5 (1) 6) of this Act may use a negotiated tendering procedure without prior publication of a tender notice if the contracting authority:

- 1) selects the tenderers from among tenderers qualified pursuant to the qualification system provided for in §37 of this Act; and
- 2) has published an invitation to tender in an open tendering procedure, restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice but there are no tenderers or applicants or no qualified tenderers or applicants, and the initial tendering conditions have not been substantially altered.

The Public Procurement Act also includes provisions for design contest and electronic procurement (Sections 59 and 60).

17. *Identify the provision in your country's legislation requiring non-discrimination as regards the qualification of suppliers in terms of Article VIII and selection of suppliers in terms of Article X. Indicate any exception to this requirement. What are the provisions ensuring non-discriminatory access of new suppliers to existing qualification lists?*

The Public Procurement Act sets the non-discriminatory qualification and selection procedures through the following provisions:

§30. Qualification of tenderers or applicants

- (1) Contracting authorities are required to verify the qualifications of tenderers and applicants.
- (2) Upon verification of the qualifications of an applicant in the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the qualification requirements prescribed for tenderers shall be applied to the applicant.
- (3) In the case of an open tendering procedure, the contracting authority shall verify the qualifications of the tenderers before reviewing the contents of the tenders.
- (4) In the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall verify the qualifications of an applicant before submission of the tender documents. A tenderer may be subsequently disqualified only if the contracting authority becomes aware of new circumstances.
- (5) In the case of a negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall verify the qualifications of tenderers either before or after submission of tender documents upon purchasing of goods or contracting for services and before submission of tender documents upon contracting for construction work.
- (6) The qualifications of tenderers who submit a joint tender shall be verified separately, whereas:
 - 1) the indicators resulting from adding the corresponding indicators of the tenderers shall comply with the requirements set out in the tender documents;
 - 2) in the case of a joint tender submitted upon contracting for construction work with the estimated value of more than three million kroons, the corresponding indicators of one tenderer shall, in addition to the provisions of clause 1) of this subsection,

comply with at least 40 per cent of the requirements specified in the tender documents.

§31. Verification of qualifications of tenderers

(1) Upon verification of the qualifications of a tenderer, the contracting authority shall verify whether:

- 1) the financial status and technical competence of the tenderer comply with the specified requirements;
- 2) the tenderer is solvent, the tenderer's assets are not sequestered, and no liquidation proceeding has been initiated and no bankruptcy order has been issued with respect to the tenderer;
- 3) the tenderer has performed all the obligations thereof with respect to state and local taxes, has submitted information to the contracting authority concerning the amount of social tax paid by the tenderer on the remuneration paid to the employees thereof during the last three calendar years or concerning the amount of social security charge applicable in the home country of the tenderer and has granted written consent to submission of a corresponding inquiry to the Tax Board or other competent institution;
- 4) the tenderer has, during the last three years, performed all public procurement contracts as required.

(2) A contracting authority may require a tenderer to submit only the information necessary for verifying the qualifications of the tenderer, and shall take into consideration the legitimate interests of the tenderer relating to the protection of the business secrets thereof.

§32. Entry of tenderer in commercial or professional register

(1) A contracting authority may require a tenderer to prove that the tenderer is entered in a commercial or professional register according to the laws of the home country of the tenderer, or to submit confirmation that the tenderer has taken a corresponding oath of office.

(2) If a tenderer is required to hold an activity licence or be a member of a corresponding organization in order to perform a public procurement in the home country of the tenderer or in Estonia, the contracting authority may require the tenderer to submit proof concerning such activity licence or membership.

§33. Financial status of tenderer

(1) In order to verify whether the financial status of a tenderer meets the requirements set by the contracting authority, the contracting authority shall, taking into account the nature, amount and purpose of the goods to be purchased or construction work or services to be contracted for, require submission of one or several of the following documents:

- 1) the annual report or an extract from the annual report, if publication of the annual report is required under the law of the home country of the tenderer;
- 2) an extract indicating the net turnover of the tenderer during the last three financial years as concerns the object of the public procurement in question;

- 3) in the case of contracting for services, confirmation concerning the corresponding professional liability insurance.

(2) If submission of the documents specified in subsection (1) of this section is not possible, the contracting authority may require the tenderer to submit other data and documents necessary for assessing the financial status of the tenderer.

(3) If, for good reason, a tenderer is unable to submit the documents required by the contracting authority, the tenderer may prove its financial status by any other documents accepted by the contracting authority.

§34. Technical competence of tenderers

(1) In order to assess the technical competence of a tenderer, the contracting authority shall, depending on the nature, amount and purpose of the goods to be purchased or construction work or services to be contracted for, require submission of one or several of the documents listed in subsections (2)–(4) of this section.

(2) In the case of purchasing of goods, the contracting authority may require a tenderer to submit:

- 1) a list of similar transactions for the purchase and sale of goods in which the tenderer has participated during the last three years, together with the values, due dates and indication of contracting authorities;
- 2) a description of the technical capacity, measures for ensuring quality, and research and scientific capacity of the tenderer, accompanied, if necessary, by proof;
- 3) information concerning the technical staff or technical units whom the tenderer intends to use in the performance of the public procurement contract;
- 4) samples, descriptions or photographs of the goods being purchased, whereas the authenticity thereof shall be proved if the contracting authority so requires;
- 5) documents to prove that the goods comply with specific regulations or standards.

(3) In the case of contracting for construction work, the contracting authority may require a tenderer to submit:

- 1) proof of the professional qualifications of the tenderer's specialists and persons responsible for performing the construction work;
- 2) a list of similar construction work, if any, performed during the last three years and information concerning the value, time, site and the authorities contracting of the construction work and confirmation that the construction work was performed properly and according to good building practice;
- 3) a statement that the tenderer has the tools, equipment and machinery necessary to perform the construction work;
- 4) a statement of the average number of employees of the tenderer during the last three years;
- 5) information concerning the technical staff or technical units whom the tenderer intends to use in the performance of the construction work;

- 6) a statement of the measures for ensuring quality, used by the tenderer;
 - 7) data concerning the subcontractors which the tenderer intends to use in the performance of the procurement contract.
- (4) In the case of contracting for services, the contracting authority may require a tenderer to submit:
- 1) proof of the professional qualifications of the tenderer's specialists and persons responsible for providing the services;
 - 2) a list of similar services, if any, provided during the last three years, and documents indicating the value, time of provision and the authorities contracting for the services;
 - 3) information concerning the technical staff or technical units whom the tenderer intends to use in the provision of the services;
 - 4) a statement of the average number of employees of the tenderer during the last three years;
 - 5) a statement that the tenderer has the tools, equipment and machinery necessary to provide the services;
 - 6) a description of the technical capacity, measures for ensuring quality, and research and scientific capacity of the tenderer, accompanied, if necessary, by proof;
 - 7) data concerning the subcontractors which the tenderer intends to use in the performance of the procurement contract.

§35. Removal of tenderer from tender

- (1) A contracting authority is required to exclude a tenderer from a tender at any time if it becomes evident that the tenderer has submitted false information or falsified documents.
- (2) A tenderer is disqualified if:
 - 1) the tenderer is bankrupt or undergoing liquidation, the business activities thereof are suspended or it is in any other similar situation pursuant to the law of the home country of the tenderer;
 - 2) compulsory liquidation or other similar proceedings have been initiated with regard to the tenderer pursuant to the law of the home country of the tenderer;
 - 3) the tenderer has not performed the obligations thereof regarding payment of state or local taxes;
 - 4) a court judgment which has entered into force proves that the tenderer has, during the last three years, failed to perform as required a procurement contract entered into with the tenderer as a result of a tendering procedure;
 - 5) the tenderer has failed to submit the data or documents required by the contracting authority on the basis of this Act;

6) the tenderer does not meet the requirements prescribed by legislation for operating in the corresponding field of activity or the financial status or technical competence of the tenderer is not in compliance with the requirements set by the contracting authority.

(3) In the cases listed in clauses (2) 1)–4) of this section, documents issued by a competent authority are considered as acceptable proof.

(4) If the home country of a tenderer does not issue the relevant documents, they may be replaced by a declaration made by the person concerned before a notary or other such competent official of the home country of the tenderer.

§36. Registration of tenderers

(1) A tenderer whose seat is within a State Party to the European Economic Area Agreement, may, in order to prove the qualifications of the tenderer according to the requirements provided for in clauses 31 (1) 1) and 2) and §32 of this Act, provide the contracting authority with a registration certificate issued by a competent body of the home country of the tenderer concerning the entry of the tenderer in the official list of tenderers. A registration certificate shall contain references to the basis for registration and the classification of the tenderer.

(2) A contracting authority may require all tenderers registered in an official list to submit additional confirmation concerning payment of social tax in addition to the registration certificate specified in subsection (1) of this section.

§37. System for qualifying tenderers

(1) Contracting authorities specified in clause 5 (1) 6) of this Act may use a qualifying system for tenderers both in the case of public procurements the estimated value of which is lower than an international threshold and public procurements the value of which equals or exceeds an international value threshold. Contracting authorities specified in clauses 5 (1) 1)-5) of this Act may use a qualifying system for tenderers in the case of a negotiated tendering procedure without prior publication of a tender notice and in the case of a public procurement the estimated value of which is lower than an international value threshold.

(2) A contracting authority may establish a system for qualifying tenderers, based on objective criteria and the provisions of this Act.

(3) Contracting authorities who establish a system for qualifying tenderers based on qualification criteria and rules shall ensure that it is possible, at all times, for interested persons to:

- 1) access the criteria and rules for qualifying tenderers, whereas interested persons shall be notified of amendments to such criteria or rules;
- 2) apply for qualification.

(4) A contracting authority may use lists of qualified tenderers compiled by other persons on the condition that the qualification systems used are in accordance with the requirements of the contracting authority and the provisions of this Act. In such case, the contracting authority shall notify interested persons of the names of the persons who compiled the lists of qualified tenderers.

(5) A contracting authority shall inform applicants of the decision concerning qualification. If the decision concerning qualification cannot be made within two months, the contracting authority

shall inform applicants of the reasons for the delay and notify them of the date on which the decision is to be made within two weeks after submission of the applications.

(6) Applicants who were disqualified shall be informed of the corresponding decision and grounds for disqualification. The grounds for disqualification shall be based on the criteria for qualifying tenderers, specified in subsection (2) of this section.

(7) A contracting authority shall not require tenderers to submit documents which duplicate documents already submitted to such contracting authority by the corresponding tenderer.

(8) Written records shall be kept of qualified tenderers. The corresponding list may be subdivided into categories according to the object of public procurement to which the qualification applies.

(9) Contracting authorities may disqualify of a tenderer only on grounds arising from criteria for qualification specified in subsection (2) of this section. A tenderer shall be notified of disqualification and the reason therefore shall be indicated.

(10) A contracting authority shall submit a notice concerning the establishment of a system for qualifying tenderers to the register and the notice shall contain at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
- 2) the time of establishing the criteria and rules for qualifying tenderers;
- 3) the place and time for accessing the criteria and rules for qualifying tenderers.

(11) The formal requirements for the notice specified in subsection (10) of this section and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

18. *In situations where qualification procedures and selective tendering may be used, to what extent do entities allow suppliers to become qualified during the procurement process? To what extent do entities maintain permanent lists of suppliers?*

There are no provisions regulating the use of permanent lists of suppliers or the selection of suppliers on a contract-by-contract basis in the current Public Procurement Act.

19. *What are the conditions and circumstances foreseen in your legislation allowing the use of the limited tendering method under Article XV of the Agreement? What measures exist in order to ensure that this method is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discriminating among foreign suppliers/suppliers or in favour of domestic supplies/suppliers?*

The Public Procurement Act sets conditions of use and the procedure of restricted tendering as follows:

§55. Restricted tendering procedure

(1) A contracting authority may use a restricted tendering procedure if:

- 1) the contracting authority has approved objective selection criteria for the tenderers;
and

- 2) it is economically expedient to verify the qualifications of applicants before submission of the tender documents.
- (2) In a restricted tendering procedure, the contracting authority shall, on the basis of the financial status and technical capacity of the applicants, select the persons to whom tender documents shall be submitted concurrently.
 - (3) A contracting authority may predetermine the number of tenderers participating in a restricted tendering procedure on the condition that:
 - 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than five and the maximum not more than 20;
 - 2) the number of tenderers is determined on the basis of the nature of the goods to be purchased or construction work or services to be contracted for;
 - 3) the number of tenderers participating in the tendering procedure is determined in the invitation to tender;
 - 4) in the case of procurement contracts the value of which is lower than an international value threshold, the minimum number of tenderers is not less than three.
 - (4) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of tender documents and the tenderers' need to access the supporting documents or the construction site.

20. *Article XIV of the Agreement allows for negotiation under certain conditions. Are entities allowed to proceed to negotiations? If so, which categories and what are the conditions imposed?*

The relevant provisions concerning negotiations are the following:

§51. Negotiations

- (1) In negotiated tendering procedures with prior publication of a tender notice or negotiated tendering procedures without prior publication of a tender notice, the contracting authority has the right to decide whether and to which extent to negotiate with the tenderers.
- (2) Negotiations are prohibited in open tendering procedures and restricted tendering procedures.
- (3) If negotiations are held, the contracting authority shall notify tenderers of the procedure for the negotiations before the commencement of the negotiations.
- (4) Contracting authorities shall not forward information received during negotiations to other tenderers.

§9. Confidentiality

- (1) Unless otherwise provided by this Act, a contracting authority shall not disclose information received from tenderers or from persons applying for participation in a tendering procedure (hereinafter applicant) concerning their business activities, nor the content of the tenders or negotiations, and tenderers and applicants shall not disclose information received from a contracting authority concerning the business activities thereof, nor the content of the tenders or negotiations.

(2) Notices, decisions and other documents which are referred to in this Act shall be prepared in a format ensuring full preservation of their content and shall be preserved by the contracting authority pursuant to law.

21. *Article XI sets out the minimum time-periods for tendering and delivery. What are the rules and practices regarding time-periods in your legislation? Does the legislation reflect the various minimum time-periods as set out in the Agreement? If not, give information on any different time-periods which have been established in your national legislation.*

The Public Procurement Act provides for the rules and practices regarding time-periods as follows:

§40. Term for submission of tenders and applications for participation in tendering procedure

(1) In open tendering procedures, the period of time between the publication of an invitation to tender and the due date for submission of tenders shall be, in the case of procurement contracts the value of which:

- 1) is lower than an international value threshold, not less than 14 days upon purchasing of goods or contracting for services, and not less than 30 days upon contracting for construction work;
- 2) equals or exceeds an international value threshold, generally not less than 52 days or not less than 36 days, whereas due to time constraints or in simpler cases not less than 22 days, if the contracting authority has, in the prior notice, indicated all necessary information concerning the open tendering procedure which is known at the time, on the condition that the prior notice was published at least 52 days but not more than 12 months before publication of the invitation to tender.

(2) In restricted tendering procedures, the period of time between the publication of the invitation to tender and the due date for submission of applications for participation in the tendering procedure shall be, in the case of procurement contracts the value of which:

- 1) is lower than an international value threshold, not less than 14 days;
- 2) equals or exceeds an international value threshold, generally not less than 37 days or not less than 15 days in cases where time constraints render compliance with the requirement of 37 days impossible.

(3) In negotiated tendering procedures with prior publication of a tender notice, the period of time between the publication of the invitation to tender and the due date for submission of applications for participation in the tendering procedure shall be, in the case of procurement contracts the estimated value of which:

- 1) is lower than an international value threshold, not less than 14 days;
- 2) equals or exceeds an international value threshold, generally not less than 37 days or not less than 15 days in cases where time constraints render compliance with the requirement of 37 days impossible, or not less than 52 days if the procurement contract to be negotiated is a construction work concession contract.

(4) In restricted tendering procedures, the period of time between the issue of the tender documents and the due date for submission of tenders shall be, in the case of procurement contracts the estimated value of which:

- 1) is lower than an international value threshold, not less than 14 days upon purchasing of goods or contracting for services, and not less than 30 days upon contracting for construction work;
- 2) equals or exceeds an international value threshold, not less than 40 days, or not less than 26 days if the contracting authority has, in the prior notice, indicated all information necessary for the restricted tendering procedure which is known at the time, on the condition that the prior notice was published at least 52 days but not more than 12 months before the notice of the restricted tendering procedure, or not less than 10 days in cases where time constraints render compliance with the requirement of 40 or 26 days impossible, or not less than 24 days in the case of contracting authorities specified in clause 5 (1) 6) of this Act if the contracting authority does not reach an agreement with the selected tenderers concerning a shorter time-limit, on the condition that all tenderers are afforded the same amount of time for the preparation and submission of tenders.

(5) In negotiated tendering procedures with prior publication of a tender notice, the period of time between the issue of the tender documents and the due date for the submission of tenders shall be not less than 14 days upon purchasing of goods or contracting for services, and not less than 30 days upon contracting for construction work.

(6) A contracting authority may extend the time-limit for submission of tenders. Upon extension of the time-limit for submission of tenders in the case of an open tendering procedure, the contracting authority shall amend the invitation to tender and the tender documents. Upon extension of the time-limit for submission of tenders in the case of a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall amend the tender documents. Upon amendment of an invitation to tender, the contracting authority shall notify the register of extension of the time-limit. Upon amendment of tender documents, the contracting authority shall take into account the provisions of §25 of this Act.

(7) A contracting authority may extend the time-limit for submission of applications for participation in a tendering procedure. Upon extension of the time-limit for submission of applications for participation in a restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall amend the invitation to tender. Upon amendment of an invitation to tender, the contracting authority shall notify the register of extension of the time-limit.

22. Briefly describe the procedures for the submission, receipt and opening of tenders and awarding of contracts, in particular the procedures and conditions guaranteeing regularity of the openings and consistency with the non-discrimination provisions of the Agreement. How is the information on the proceedings related to the receipt, opening and evaluation of tenders maintained by entities?

The procedures set by the Public Procurement Act for submission, opening and acceptance of tenders are the following:

§39. Submission, amendment and withdrawal of tenders

- (1) A tender shall comply with the requirements set out in the tender documents and shall be in no way misleading.
- (2) A tender shall be submitted in writing and in a sealed envelope containing a separate sealed and marked envelope with the value of the tender.

- (3) The contracting authority shall provide a tenderer with a certificate concerning receipt of a tender and the date and time of receipt of the tender shall be indicated in the certificate.
- (4) Tenderers may submit a joint tender if such opportunity is prescribed in the tender documents.
- (5) A tenderer may amend a tender by submitting a new tender or withdraw a tender, whereas the corresponding written notice shall be submitted to the contracting authority before the due date for submission of tenders.

§42. Opening of tenders

- (1) Tenders shall be opened at the place and time specified in the tender documents or, in the case of extension of the tender validity period, at the time specified by the contracting authority.
- (2) All tenderers have the right to participate in the opening of tenders personally or through their authorized representatives.
- (3) At the opening of tenders, the names and registry codes of the tenderers shall be made known and the conformity of the submitted documents with the requirements set out in the tender documents shall be verified. Envelopes containing the values of the tenders shall not be opened and the contracting authority shall ensure that the envelopes remain sealed until opening of the values of tenders. A report on the opening of the tenders shall be prepared.
- (4) A copy of a report on the opening of tenders shall be sent to the tenderers within three working days after the date of opening the tenders.
- (5) In the case of rejection of a tender pursuant to subsection 43 (4) or 44 (1) of this Act, the envelope containing the value of the tender shall not be opened and shall be returned to the tenderer on the date following the expiry of the tender validity period.
- (6) The contracting authority shall notify tenderers of the place, date and time of opening the values of the tenders at the opening of the tenders or together with the notice announcing the declaration of conformity or rejection of the tenders.

§43. Declaration of conformity of tenders and rejection of tenders

- (1) Contracting authorities shall verify the compliance of submitted tenders with the requirements set out in the tender documents.
- (2) A tender shall be declared to be in conformity if it complies with all the requirements set out in the tender documents.
- (3) A tender may be declared to be in conformity if it contains no substantive deviations from the conditions set out in the tender documents.
- (4) A contracting authority shall reject a tender if:
 - 1) the tenderer is not qualified pursuant to the provisions of this Act;
 - 2) the tender does not comply with the requirements set out in the tender documents.

(5) A notice concerning declaration of tenders as being in conformity or rejection of tenders, and the reasons therefor shall be sent to the tenderer in writing within three working days after the making of the corresponding decision.

§44. Rejection of all tenders

(1) A contracting authority may reject all tenders before entry into a procurement contract if the tender documents prescribe such possibility and the grounds therefor.

(2) A contracting authority shall immediately send a notice concerning rejection of all tenders to all tenderers to whom tender documents were issued.

(3) At the request of a tenderer, the contracting authority shall notify the tenderer of the grounds for rejection of all tenders.

(4) Upon rejection of all tenders, the contracting authority shall refund the fee charged from tenderers for the tender documents.

§45. Comparison and evaluation of tenders

(1) A contracting authority shall compare and evaluate all tenders which have not been rejected. In the comparison and evaluation of tenders, only the criteria set out in the tender documents shall be considered.

(2) The successful tender is a tender which, in terms of the evaluation criteria set out in the tender documents, is the most advantageous among the tenders declared suitable, whereas the success of the tender shall be objectively justifiable.

(3) The economically most advantageous tender shall be determined on the basis of the value points or other evaluation results ascribed according to the evaluation criteria to tenders declared to be in conformity. Value points or other evaluation results shall be ascribed according to the evaluation criteria as follows:

- 1) before opening the values of the tenders, the tenders shall be ranked according to the evaluation criteria, except for the value, set out in the tender documents or on the basis of the value points or other evaluation results ascribed to the tenders;
- 2) immediately after opening the values of the tenders, the value points or other evaluation results ascribed according to the value of a tender shall be added to the value points or other evaluation results ascribed to the tender according to clause 1) of this subsection.

(4) All tenderers have the right to attend, either personally or through an authorized representative, the opening of the values of the tenders and performance of the act specified in clause(3) 2) of this section.

(5) Upon opening the values of tenders, the intactness of the seals of the envelopes with the values of the tenders shall be verified and thereafter the names and registry codes of the tenderers and the values of the tenders submitted by the tenderers shall be announced. A corresponding report on the opening of the values of the tenders shall be prepared.

(6) A report on the opening of the values of tenders shall be sent to the tenderers within three working days after the opening of the values of the tenders.

(7) A contracting authority which has divided a public procurement into parts shall evaluate tenders according to the parts and as a whole if at least one of the tenders declared suitable concerns the entire object of the public procurement. The contracting authority shall declare successful the most advantageous tender for each part as the successful tender if declaring one tender as successful for all of the parts is not in compliance with the conditions specified in subsection (1) of this section.

(8) Persons who are or have been in a relationship with a tenderer which may give rise to justified doubts as to the persons' objectivity shall not participate in evaluation of tenders.

§46. Acceptance of tenders

(1) A successful tender is deemed to be accepted after 14 days as of declaration of the tender as successful.

(2) A written notice concerning declaration of a tender as successful shall be sent to all tenderers within three working days after the corresponding decision is made. The notice sent to the tenderers shall set out the name of the tenderer who submitted the successful tender and an explanation concerning the advantages of the successful tender over the other tenders.

23. Please identify the provisions in your legislation setting the parameters for the prescription of technical specifications by entities as part of the evaluation criteria.

§26. Technical specification

(1) A technical specification is a list of characteristics or a description of the process affecting the characteristics of goods purchased or construction work or services contracted for by way of public procurement. In the case of contracting for construction work, the technical specification consists in building design documentation containing corresponding drawings, explanations, qualification requirements and other necessary documents to the extent permitting contracting for construction work.

(2) A technical specification shall not create advantages to certain tenderers over their competitors and give rise to barriers to international trade.

(3) In the preparation of a technical specification, the contracting authority shall not use the advice of persons who may have business interests with regard to the public procurement.

§27. Preparation of technical specification

(1) A technical specification may be prepared on the basis of a technical regulation or standard.

(2) Goods of a specific make or obtainable from a specific source or through a specific process, which would favour or eliminate the participation of certain tenderers may be listed in a technical specification only if such specification is unavoidable due to the special character of the object of the public procurement.

(3) Information concerning specific origins or methods of production, types, trademarks or patents shall be listed or referred to in a technical specification only if such list or reference is accompanied by the words "or equivalent" or if the characteristics of the object of the public procurement are otherwise not sufficiently precise and intelligible to all parties.

§28. Standards

(1) A technical specification may refer to international standards if these have not been introduced as Estonian standards.

(2) Contracting authorities may derogate from the requirements provided for in subsection 27 (1) of this Act and subsection (1) of this section if:

- 1) the object of the public procurement does not conform to the specified standards;
- 2) the use of such standards would oblige the contracting authority to purchase goods which are not compatible with the goods already in use or would entail disproportionate additional costs or technical difficulties;
- 3) such standards are not suitable for the application in question and do not take into consideration the technical innovations which have occurred after the introduction of the standards;
- 4) the object of the public procurement is of a genuinely innovative nature and therefore the application of existing standards is not possible;
- 5) the technical regulations or standards contradict each other.

(3) On the basis of a corresponding request, a contracting authority shall provide tenderers with the opportunity to access the technical regulations or standards which referred to in the tender documents or which the contracting authority intends to use for the public procurement referred to in the prior notice. If a technical specification is based on documents accessible by the tenderers, a reference to such documents is sufficient.

24. Identify the measures in national legislation ensuring that awards are made in accordance with the evaluation criteria and essential requirements specified in the tender documentation.

The relevant provisions in the Public Procurement Act concerning evaluation are the following:

§24. Invitation-to-tender documents

(1) Invitation-to-tender documents shall contain at least the following information:

/.../

- 3) the evaluation criteria which will be used for selecting successful tenders and which may be either the lowest price only or the economically most advantageous tender which, depending on the specific object of the public procurement, may be determined on the basis of different criteria allowing for objective evaluation, and of their relative proportion in per cents or value points;

§45. Comparison and evaluation of tenders

(1) A contracting authority shall compare and evaluate all tenders which have not been rejected. In the comparison and evaluation of tenders, only the criteria set out in the tender documents shall be considered.

(2) The successful tender is a tender which, in terms of the evaluation criteria set out in the tender documents, is the most advantageous among the tenders declared suitable, whereas the success of the tender shall be objectively justifiable.

(3) The economically most advantageous tender shall be determined on the basis of the value points or other evaluation results ascribed according to the evaluation criteria to tenders declared to be in conformity. Value points or other evaluation results shall be ascribed according to the evaluation criteria as follows:

- 1) before opening the values of the tenders, the tenders shall be ranked according to the evaluation criteria, except for the value, set out in the tender documents or on the basis of the value points or other evaluation results ascribed to the tenders;
- 2) immediately after opening the values of the tenders, the value points or other evaluation results ascribed according to the value of a tender shall be added to the value points or other evaluation results ascribed to the tender according to clause 1) of this subsection.

(4) All tenderers have the right to attend, either personally or through an authorized representative, the opening of the values of the tenders and performance of the act specified in clause (3) 2) of this section.

(5) Upon opening the values of tenders, the intactness of the seals of the envelopes with the values of the tenders shall be verified and thereafter the names and registry codes of the tenderers and the values of the tenders submitted by the tenderers shall be announced. A corresponding report on the opening of the values of the tenders shall be prepared.

(6) A report on the opening of the values of tenders shall be sent to the tenderers within three working days after the opening of the values of the tenders.

(7) A contracting authority which has divided a public procurement into parts shall evaluate tenders according to the parts and as a whole if at least one of the tenders declared suitable concerns the entire object of the public procurement. The contracting authority shall declare the most advantageous tender for each part as the successful tender if declaring one tender as successful for all of the parts is not in compliance with the conditions specified in subsection (1) of this section.

(8) Persons who are or have been in a relationship with a tenderer which may give rise to justified doubts as to the persons' objectivity shall not participate in the evaluation of tenders.

V. INFORMATION

25. Article XIX:1 of the Agreement foresees the publication of laws, regulations, judicial decisions, administrative rulings of general application and procedures regarding government procurement. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where the legislation referred to in questions 1 and 2 can be found.

The official bulletin containing the publication of all legislation of the Republic of Estonia is the *Riigi Teataja* (State Gazette), according to the *Riigi Teataja* Act.

§1. Scope of application of Act

This Act provides the procedure for publication in the *Riigi Teataja* of legislation and international agreements of the Republic of Estonia, reasoned decisions of the Supreme Court of the Republic of Estonia, notices and other documents, and for access thereto.

The legislation referred to in questions 1 and 2 can be found on the website of Estonian Legal Translation Centre, available at: www.legaltext.ee.

26. *Article IX:1 of the Agreement foresees the publication of invitations to participate for all cases of intended procurement by entities. Please give the name of the relevant publication(s) and indicate the media to be used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

The official source of information on government procurement is the electronic procurement register. The Public Procurement Office is the chief and authorized processor of the public register, available at www.rha.gov.ee.

27. *Please specify the types of information that your legislation requires to be included in notices of invitation to tender or in tender documentation, and identify the relevant provisions in your legislation.*

The Public Procurement Act sets the information requirements for notices of invitations to tender and tender documentation as follows:

§18. Prior notices

(1) If the estimated value of a public procurement in the case of purchasing of goods or contracting for services is 750,000 euros or more or, in the case of contracting for construction work, five million euros or more, and the contracting authority intends to organize the public procurement during the forthcoming 12 months, the contracting authority shall communicate the following by means of a prior notice submitted at the beginning of the financial year:

- 1) in the case of purchasing of goods, the estimated value of the public procurement, broken down by the types of the goods;
- 2) in the case of contracting for services, the estimated value of the public procurement, broken down by the types of the services;
- 3) in the case of contracting for construction work, the estimated value and essential characteristics of the public procurement.

(2) A contracting authority shall submit a prior notice to the register in Estonian and shall add a translation of the notice into English.

(3) A prior notice shall contain the information provided for in clauses (1) 1), 2) or 3) of this section and 19 (1) 1), 2) and 3) of this Act.

(4) The formal requirements for prior notices and the procedure for submission of prior notices shall be established by the Minister of Economic Affairs.

§19. Notice of invitation to tender

(1) In the case of a public procurement by open tendering procedure, restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall submit an invitation to tender to the register for publication and the notice shall contain at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
- 2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible;
- 3) the type of the tendering procedure;
- 4) the name, official title and details of the person responsible for the public procurement;
- 5) the due date for the performance of the public procurement;
- 6) in the case of an open tendering procedure, the place and conditions of issuing the tender documents;
- 7) in the case of an open tendering procedure, the minimum qualification requirements for the economic and technical conditions of the tenderers;
- 8) whether a tender security is required and the amount thereof;
- 9) the amount to be paid for the tender documents;
- 10) in the case of an open tendering procedure, the place, due date and time for the submission of tenders;
- 11) in the case of a restricted tendering procedure or a negotiated tendering procedure with prior publication of a tender notice, the place, due date and time for submission of written applications for participation in the tendering procedure;
- 12) in the case of a restricted tendering procedure or a negotiated tendering procedure with prior publication of a tender notice, the qualification requirements for the applicants and a notation indicating the information and documents to be annexed to a written application for participation in the tendering procedure for the purposes of evaluation of the qualifications of the tenderers;
- 13) in the case of a restricted tendering procedure, objective selection criteria for the tenderers.

(2) Invitations to tender shall be published in Estonian.

(3) In the case of a public procurement the value of which equals or exceeds an international value threshold, the contracting authority shall submit a translation of the invitation to tender into English, in other cases a summary of the invitation in English may be annexed. A summary of an invitation to tender in English shall contain at least the information provided for in clauses (1) 1), 2) and 6) and 10) or 11) and 12) of this section.

(4) In the case of an open tendering procedure, restricted tendering procedure or negotiated tendering procedure with prior publication of a tender notice, the contracting authority shall not make the invitation to tender public before the invitation has been entered in the register. If an invitation to tender is amended, the name of the object and characteristics of the public procurement and, in the case of an open tendering procedure, the minimum qualification requirements for the economic and technical conditions of the tenderers, and the requirement for a tender security and the amount thereof shall not be changed.

(5) If a code of the standard classification of objects of public procurements is allocated to an object of public procurement, such allocation shall be effected pursuant to the subdivision of the standard classification of objects of public procurements which corresponds to the object of public procurement as precisely as possible.

(6) The standard classification of objects of public procurements shall be approved by the Minister of Economic Affairs.

(7) The formal requirements for invitations to tender and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§24. Tender documents

(1) Tender documents shall contain at least the following information:

- 1) the due date for the performance of the procurement contract;
- 2) the technical specification;
- 3) the evaluation criteria which will be used for selecting successful tenders and which may be either the lowest price only or the economically most advantageous tender which, depending on the specific object of the public procurement, may be determined on the basis of different criteria allowing for objective evaluation, and of their relative proportion in per cents or value points;
- 4) the terms and conditions of the procurement contract to the extent that the contracting authority is able to submit at the moment;
- 5) the conditions of payment;
- 6) the amount of tender security if the contracting authority demands submission of tender security;
- 7) the language or languages in which the tender is to be submitted;
- 8) the currency unit or units in which the value of the tenders is to be submitted;
- 9) the address to which the tenders are to be sent or delivered;
- 10) instructions for the marking of the envelope in which the tenders are to be submitted;
- 11) the due date and time for the submission of tenders;
- 12) the address from which additional information concerning the public procurement and the content of the tender documents can be obtained, and other details;

- 13) the tender validity period;
- 14) the place, date and time of opening the tenders;
- 15) in the case of open tendering, the qualification requirements for tenderers and a notation indicating the information and documents to be annexed to the tender for the purposes of evaluating the qualifications of the tenderers;
- 16) if the contracting authority prescribes the possibility of rejecting all tenders, a notice concerning the conditions under which the contracting authority reserves the right to do so;
- 17) the possibility of and the procedure for submitting a joint tender if the contracting authority prescribes such possibility;
- 18) the structure of the tender.

(2) In tender documents, the contracting authority may require the tenderers to indicate in their tenders the share of the contract which they intend to perform themselves and the share of the contract which they intend to subcontract to third parties, whereas subcontracts shall not reduce the liability of the tenderer.

(3) A contracting authority may charge a fee for tender documents if the amount of the fee has been indicated in the invitation to tender. The amount of the fee shall not exceed the cost for the photocopying and delivery of the tender documents.

(4) If an invitation to tender prescribes a fee for the tender documents, the contracting authority shall issue the tender documents after payment of the fee indicated in the invitation.

(5) A contracting authority shall enable persons interested in participation in a tendering procedure to access tender documents at the contracting authority without charge.

(6) In the case of a negotiated tendering procedure with prior publication of a tender notice or negotiated tendering procedure without prior publication of a tender notice, the contracting authority shall submit the information specified in subsection (1) of this section in the tender documents to the extent it considers necessary.

§25. Amendments to tender documents

A contracting authority may make amendments to tender documents on the condition that such amendments be sent during one and the same day of the first half of the term for submission of tenders to all tenderers who received the tender documents. If a protest or appeal is filed, the contracting authority may extend the term for submission of tenders.

28. *Article IX:1 of the Agreement foresees publication of permanent lists of qualified suppliers by entities maintaining such lists. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

There are no provisions in the Public Procurement Act on the lists of qualified suppliers since the Public Procurement Act does not foresee maintaining of any such lists by the entities subject to the government procurement procedures.

29. *Article XVIII:1 of the Agreement foresees the publication of details of contract award notices by entities. Please give the name of the relevant publication(s) and indicate the means to be used for this purpose. Please also provide, where available, the address of an Internet website where such notices are published.*

The official source of information on government procurement is the electronic procurement register. The Public Procurement Office is the chief and authorized processor of the public register, available at www.rha.gov.ee.

30. *Please specify the types of information that notices of contract awards should contain in your country and identify the relevant provisions in your legislation.*

The Public Procurement Act sets the information requirements for notices of contract awards as follows:

§20. Declarations

(1) Within 10 days after the end of a tendering procedure, the contracting authority shall submit a public procurement declaration (hereinafter declaration) to the register.

(2) Within 10 days after deciding the winner of a design contest, the contracting authority shall submit a corresponding declaration to the register.

(3) Declarations submitted by contracting authorities specified in clause 5 (1) 6) of this Act shall not contain information the disclosure of which may be contrary to the public interest or damage the lawful business interests of other persons or free competition.

(4) A declaration shall set out:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
- 2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible;
- 3) the type of the tendering procedure;
- 4) the name, official title and details of the person responsible for the public procurement;
- 5) the names, addresses and other details of the tenderers who submitted tenders, and the registry codes thereof if they have a registry code;
- 6) the names, addresses and other details of the qualified tenderers, and the registry codes thereof if they have a registry code;
- 7) the due date for entry into the procurement contract, the value of the procurement contract and other essential conditions;
- 8) the values of all tenders declared to be in conformity or, in the case several evaluation criteria are applied, the values of all tenders declared to be in conformity and the value points attained according to the evaluation criteria or other evaluation results

and the names and registry codes (if they exist) of the tenderers who submitted the corresponding tenders;

- 9) information concerning appeals filed with a court in the course of the tendering procedure;
 - 10) in the case of cancellation of the tendering procedure or rejection of all tenders, the reasons why and the basis on which this was done;
 - 11) if open tendering is not used, the grounds for the selection of the tendering procedure.
- (5) A declaration of a design contest shall set out:
- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
 - 2) the subject and characteristics of the design contest;
 - 3) the names and addresses of the participants in the design contest;
 - 4) the name and address of the person who submitted the award-winning project;
 - 5) information concerning the qualifications required of the participants in the design contest or confirming the lack thereof;
 - 6) the total value of the design contest awards and other amounts payable to the participants in the contest;
 - 7) a summary of the evaluation and comparison of the projects.
- (6) The formal requirements for declarations and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§21. Public procurement report

- (1) Within 10 days after the date of expiry of a procurement contract, the contracting authority shall prepare a written public procurement report which shall set out:
- 1) the name, address and other details of the contracting authority, and the registry code thereof if it has a registry code;
 - 2) the name and characteristics of the object of the public procurement and the code or codes of the standard classification of objects of public procurements corresponding to the object of public procurement as precisely as possible, and the total value of the public procurement;
 - 3) amendments to the essential conditions of the procurement contract;
 - 4) complaints filed in the course of performance of the procurement contract.
- (2) A public procurement report shall be preserved until the end of the fourth year following expiry of the public procurement.

(3) A contracting authority shall submit a public procurement report to the register promptly after completion of the report.

(4) The formal requirements for public procurement reports and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§22. Register

(1) Information concerning prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and protests shall be entered in the register.

(2) The register shall be established and the statutes for the maintenance of the register shall be approved by the Government of the Republic.

(3) The Office is the chief and authorized processor of the register.

(4) The register shall be maintained in the form of a computer database.

(5) Prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and information concerning protests shall be submitted to the register in electronic form.

(6) The main functions of the register are:

- 1) entry of information concerning prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and protests in the register;
- 2) processing of information concerning prior notices, notices, invitations to tender, design contest notices, declarations, public procurement reports and protests entered in the register.

(7) Contracting authorities, except for those specified in clause 5 (1) 1) of this Act, shall pay a state fee for entry of information concerning a prior notice, invitation to tender or design contest notice in the register.

(8) Persons who submit information to the register shall be responsible for the correctness of such information.

§23. Disclosure of information entered in register

(1) The register shall be public.

(2) Information concerning the following items in the register shall be published on the web site of the register:

- 1) prior notices;
- 2) notices;
- 3) invitations to tender;
- 4) design contest notices
- 5) declarations;

- 6) public procurements reports;
- 7) tenderers.

(3) The register shall ensure access to information entered in the register for five years after expiry of the corresponding procurement contract or end of the corresponding design contest.

31. Please specify the relevant provisions in your legislation enabling, as foreseen in Article XVIII:2, the provision of information to other Parties and unsuccessful tenderers regarding the reasons why a tender was not selected.

The Public Procurement Act foresees the provision of the information to tenderers as follows:

§49. Notification of tenderers

(1) A contracting authority shall, within three working days after making the corresponding decision, inform each applicant who was disqualified from participation in a tendering procedure in writing of the grounds for disqualification.

(2) A contracting authority may decide that the advantages specified in subsection 46 (2) of this Act of a tender declared to be successful shall not be disclosed if this may:

- 1) be contrary to the public interests;
- 2) prejudice the legitimate business interests of the tenderers;
- 3) prejudice free competition between tenderers.

(3) If an invitation to tender or tender documents are revoked or a decision made by the contracting authority with regard to a tendering procedure is annulled or the tendering procedure is cancelled, the contracting authority shall, within three working days, notify tenderers who received tender documents or persons who were previously qualified by the contracting authority of the corresponding decision in writing.

§50. Explanations

(1) Applicants and tenderers have the right to obtain explanations concerning the contents of invitations to tender and tender documents. The contracting authority shall provide explanations within three working days after receipt of the corresponding request and shall send the explanations concurrently also to other applicants or tenderers.

(2) In open or restricted tendering procedures, contracting authorities may request tenderers to submit reasoned and relevant explanations concerning inaccuracies or ambiguities contained in tenders. Requests and explanations shall be prepared in writing.

(3) If a tenderer fails to submit within three working days the explanations requested from the tenderer by the contracting authority on justified grounds, the tender may be rejected.

§44. Rejection of all tenders

(1) A contracting authority may reject all tenders before entry into a procurement contract if the tender documents prescribe such possibility and the grounds therefor.

- (2) A contracting authority shall immediately send a notice concerning rejection of all tenders to all tenderers to whom tender documents were issued.
- (3) At the request of a tenderer, the contracting authority shall notify the tenderer of the grounds for rejection of all tenders.
- (4) Upon rejection of all tenders, the contracting authority shall refund the fee charged from tenderers for the tender documents.

VI. BID CHALLENGE PROCEDURES

32. *Please provide information on existing challenge procedures.*

The system of challenge procedure according to the Public Procurement Act is the following:

§61. Contestation of activities of contracting authority

A tenderer or a person interested in participating in a tendering procedure who finds that the contracting authority has violated the tenderer's rights or damaged the tenderer's interests by violating the provisions of this Act in the course of the tendering procedure may file a protest against the activities of the contracting authority.

§62. Submission of protests

- (1) Protests concerning invitations to tender, tender documents or decisions of contracting authorities concerning qualification of applicants, refusal to qualify applicants, qualification of tenderers or refusal to qualify tenderers, declaration of a tender to be in conformity, rejection of a tender, rejection of all tenders or declaration of a tender as successful shall be filed with the Office.
- (2) Protests shall be filed within seven working days after the date the person filing the protest becomes or should have become aware of the violation of the rights or damage to the interests of the person, but not after the contracting authority has accepted the successful tender. A protest concerning tender documents shall be filed before the contracting authority opens the tenders.
- (3) A protest shall be filed in writing and shall set out:
 - 1) the name, address and other details of the person filing the protest;
 - 2) the name, address and other details of the contracting authority;
 - 3) the content of the invitation to tender, tender documents or decision against which the protest is filed and the reasons why the person filing the protest considers this to be a violation of the rights or damage to the interests of the person;
 - 4) the clearly expressed request of the person filing the protest;
 - 5) a list of documents annexed to the protest.
- (4) The person filing a protest shall annex to the protest information at his or her disposal concerning the tendering procedure which is the subject of the protest, and a document certifying payment of the state fee.

§63. Organization of review of protests

- (1) The Office has the right to require a contracting authority to submit all documents necessary for the review of a protest.
- (2) The contracting authority shall submit the required documents to the Office within two working days after the receipt of the corresponding request from the Office.
- (3) Before the review of a protest, the Office has the right to require the contracting authority to submit a written statement concerning the content of the protested invitation to tender, tender documents or decision and the contracting authority shall submit the statement to the Office within two working days after the receipt of the corresponding request from the Office.
- (4) The Office shall refuse to hear a protest and shall make a corresponding decision if:
 - 1) the protest is not filed within the specified term;
 - 2) the protest fails to comply with the requirements provided for in subsection 62 (3) of this Act or a document certifying payment of the state fee has not been annexed to the protest;
 - 3) the protest is not filed against an invitation to tender, tender documents or a decision specified in subsection 62 (1) of this Act;
 - 4) a decision or precept specified in subsection 70 (1) of this Act has been made or issued.
- (5) If the Office finds that a protest filed does not comply with the requirements provided for in subsection 62 (3) of this Act or a document certifying payment of the state fee has not been annexed to the protest, it shall return the protest to the person who filed it and set a term of two working days for eliminating the deficiencies. If the person who filed the protest fails to eliminate the deficiencies within the specified term, the Office shall refuse to review the protest.
- (6) The Office has the right to involve experts in the review of a protest. An expert may submit his or her opinion in writing or at a public session. The expenses relating to the submission of a protest, consisting of the state fee and the certified expenses relating to the involvement of experts, including expert's fees, shall be borne by the person submitting the protest if the review of the protest terminates on the basis of clause 65 (6) 1) or 3) of this Act or by the contracting authority if the review of the protest terminates on the basis of clause 65 (6) 2), 4) or 5) of this Act. The amount of expenses relating to the submission of a protest shall be determined by a decision of the Office.
- (7) Expert's fees shall be determined on the basis of the amount equalling three times the hourly wage corresponding to the salary rate at the highest level of the salary scale for state public servants.
- (8) Information concerning protests shall be entered in the register.

§64. Suspension of tendering procedure

- (1) Upon receiving a protest concerning which there are no grounds provided for in subsection 63 (4) for refusing to review the protest, the Office is required to notify the contracting authority of submission of a protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest to the contracting authority.

(2) If the Office sets a term for elimination of deficiencies contained in a protest, the Office shall notify the contracting authority of submission of a protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest received by the Office after elimination of the deficiencies to the contracting authority. If the person filing the protest fails to eliminate the deficiencies within the specified term, the Office shall immediately notify the contracting authority of such failure.

(3) Upon receiving a notice from the Office concerning submission of a protest, the contracting authority is required to suspend the tendering procedure.

(4) If a contracting authority continues a tendering procedure after receiving a notice concerning submission of a protest from the Office, all subsequent acts performed in the course of the tendering procedure are void. Procurement contracts entered into after receiving a notice concerning submission of a protest from the Office are also void.

§65. Review of protests

(1) The Office shall review a protest within ten working days as of the date of submission of the protest to the Office. The contracting authority shall decide to review a protest either by a written proceeding on the basis of the documents submitted or shall organize the review of the protest at a public session (hereinafter public session) where at least the representative of the Office, the person who submitted the protest and the contracting authority shall participate.

(2) A public session shall be held if a protest is reviewed with the participation of the representative of the Office, the person who submitted the protest, the contracting authority or, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender. If necessary, the Office has the right to decide to hold an additional session. Notice of an additional session shall be given either at the previous session or pursuant to the procedure prescribed in subsection (3) of this section.

(3) The Office shall notify the person who submitted the protest, the contracting authority and, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender of the time of the public session. The contracting authority shall notify all other tenderers or applicants of the time of the public session. The failure of a contracting authority to inform tenderers or applicants of the opportunity to participate in the public session or the failure of the tenderers or applicants to appear at the session shall not hinder the review of the protest.

(4) Participants in a proceeding for the review of a protest are the person who submitted the protest, the contracting authority and, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender. Parties to a proceeding for the review of a protest are the person who submitted the protest and the contracting authority.

(5) If one or both of the parties to a proceeding for the review of a protest fail to appear at the public session, the Office shall review the protest in accordance with subsection (2) of this section by a written proceeding on the basis of the documents submitted.

(6) The review of a protest is terminated if:

- 1) the person who submitted the protest withdraws the protest;
- 2) the contracting authority declares the protest to be justified;

- 3) the Office decides to dismiss the protest;
- 4) the Office decides to satisfy the protest and annul the decision relating to a tendering procedure made by a contracting authority specified in subsection 5 (1) 1) of this Act which was in violation of this Act or issue a precept to a contracting authority specified in clauses 5 (1) 2)–6) of this Act to annul a decision relating to a tendering procedure made in violation of this Act or require the contracting authority to bring the invitation to tender or the tender documents into conformity with the requirements prescribed by legislation;
- 5) the Office makes a decision or issues a precept specified in subsection 70 (1) of this Act.

(7) Termination of the review of a protest pursuant to the provisions of clause (6) 1) or 2) of this section shall be documented in a written report signed by the representative of the Office, the person who submitted the protest and the contracting authority.

(8) Termination of the review of a protest pursuant to the provisions of clause (6) 3) or 4) of this section shall be documented in a reasoned decision of the Office.

§66. Filing of appeals with administrative court

In order to resolve a protest concerning which a decision specified in subsection 63 (4) or clause 65 (6) 3) of this Act has been made, an appeal may be filed with an administrative court against a decision made by a contracting authority in relation to a tendering procedure, against an invitation to tender or tender documents or against a decision or precept of the Office specified in clause 65 (6) 4).

§67. Resumption of tendering procedure

(1) A contracting authority may resume a suspended tendering procedure after:

- 1) receiving the notice provided for in subsection 64 (2) of this Act from the Office, or
- 2) the person who submitted the protest has withdrawn the protest;
- 3) receiving a written notice from the person who filed the protest that the person will not file an appeal pursuant to the procedure provided for in §66 of this Act against decisions made by the contracting authority in relation to the tendering procedure or against the invitation to tender or the tender documents, or
- 4) 10 days have passed from the making of a decision of the Office specified in clause 65 (6) 3) of this Act, or
- 5) expiry of the term for suspension of the tendering procedure specified by an administrative court.

(2) If a protest is declared to be justified pursuant to clause 65 (6) 2) of this Act or if the Office makes a decision pursuant to clause 65 (6) 4) of this Act, the tendering procedure shall be resumed after annulment of the protested decision relating to the tendering procedure or after the contracting authority has complied with the precept.

33. *Are there specific provisions enabling access of foreign suppliers to challenge procedures?*

There are no specific provisions enabling access of foreign suppliers to challenge procedures, the access is equally provided to all suppliers.

34. *To the extent that this information does not fully respond to the following points, please provide the supplementary information necessary to do so:*

(i) *The time-limit to launch a complaint contained in the Agreement is "not less than 10 days" from the time when the basis of the complaint is known or reasonably should have been known. What are the limits in domestic legislation?*

Protests shall be filed within seven days after the date the person filing the protest becomes or should have become aware of the violation of the rights or damage to the interests of the person, but not after the contracting authority has accepted the successful tender.

(ii) *What body is responsible for the challenge procedures? Is this a "court" or an "impartial and independent review body"? If the latter:*

- *How are its members selected?*

- *Are its decisions subject to judicial review?*

- *If not, how will the requirements of paragraph 6 of Article XX be taken into account?*

§62. Submission of protests

(1) Protests concerning invitations to tender, tender documents or decisions of contracting authorities concerning qualification of applicants, refusal to qualify applicants, qualification of tenderers or refusal to qualify tenderers, declaration of a tender to be in conformity, rejection of a tender, rejection of all tenders or declaration of a tender as successful shall be filed with the Office.

(2) Protests shall be filed within seven working days after the date the person filing the protest becomes or should have become aware of the violation of the rights or damage to the interests of the person, but not after the contracting authority has accepted the successful tender. A protest concerning tender documents shall be filed before the contracting authority opens the tenders.

(3) A protest shall be filed in writing and shall set out:

1) the name, address and other details of the person filing the protest;

2) the name, address and other details of the contracting authority;

3) the content of the invitation to tender, tender documents or decision against which the protest is filed and the reasons why the person filing the protest considers this to be a violation of the rights or damage to the interests of the person;

4) the clearly expressed request of the person filing the protest;

5) a list of the documents annexed to the protest.

(4) The person filing a protest shall annex to the protest information at his or her disposal concerning the tendering procedure which is the subject of the protest, and a document certifying payment of the state fee.

§66. Filing of appeals with administrative court

In order to resolve a protest concerning which a decision specified in subsection 63 (4) or clause 65 (6) 3) of this Act has been made, an appeal may be filed with an administrative court against a decision made by a contracting authority in relation to a tendering procedure, against an invitation to tender or tender documents or against a decision or precept of the Office specified in clause 65 (6) 4).

(iii) *What is the applicable law by reference to which the challenge body will examine complaints?*

The applicable law is the Public Procurement Act.

(iv) *Which rapid interim measures are provided to correct breaches of the Agreement and to preserve commercial opportunities?*

- *Do these measures include the possibility to suspend the procurement process? On what conditions?*

§64. Suspension of tendering procedure

(1) Upon receiving a protest concerning which there are no grounds provided for in subsection 63 (4) for refusing to review the protest, the Office is required to notify the contracting authority of submission of a protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest to the contracting authority.

(2) If the Office sets a term for elimination of deficiencies contained in a protest, the Office shall notify the contracting authority of submission of a protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest received by the Office after elimination of the deficiencies to the contracting authority. If the person filing a protest fails to eliminate deficiencies within the specified term, the Office shall immediately notify the contracting authority of such failure.

(3) Upon receiving a notice from the Office concerning submission of a protest, the contracting authority is required to suspend the tendering procedure.

(4) If a contracting authority continues a tendering procedure after receiving a notice concerning submission of a protest from the Office, all subsequent acts performed in the course of the tendering procedure are void. Procurement contracts entered into after receiving a notice concerning submission of a protest from the Office are also void.

§70. Decision of precept of Office

(1) At any time before entry into a procurement contract, the Office shall, by a decision, either cancel the tendering procedure of a contracting authority specified in clause 5 (1) 1) of this Act or issue a precept requiring a contracting authority specified in clauses 5 (1) 2)–6) of this Act to cancel a tendering procedure if the contracting authority:

1) fails to present the evaluation criteria to be used to decide on the success of the tenders or the relative importance of the criteria in the tender documents;

- 2) has not notified all tenderers of amendments of the tender documents, declaration of tenders to be in conformity, rejection of a tender or declaration of a tender as successful;
- 3) violates the procedure for opening tenders or the values of tenders;
- 4) in the comparison and evaluation of tenders, uses, as a representative or expert, a person whose relationship with a tenderer may give rise to justified doubts as to the person's objectivity;
- 5) conducts negotiations with one or several tenderers in an open or restricted tendering procedure.

(2) If a tendering procedure is cancelled, all decisions and acts relating to the tendering procedure are void regardless of whether they were performed before or after the decision concerning cancellation was made. Procurement contracts entered into after the making of a decision concerning cancellation of a tendering procedure or annulment of a decision made by the contracting authority in relation to the tendering procedure are also void.

(3) Before making a decision concerning cancellation of a tendering procedure or issue of a precept, the Office shall grant an opportunity to the contracting authority to submit objections within the term specified by the Office which shall not exceed three working days.

(4) A decision or precept of the Office shall contain at least the following information:

- 1) the date and place of making the decision or issuing the precept;
 - 2) the content of the decision or precept;
 - 3) the given name, surname and official title of the official who made the decision or issued the precept.
- (v) *How do challenge procedures provide for correction of the Agreement? What types of compensation for loss or damages suffered can the challenge body order?*

Any decision about compensation for loss or damages suffered can be made by the administrative court.

- (vi) *Give any available information on the time-periods for the stages of the challenge process, including to obtain interim measures and a final decision.*

§63. Organization of review of protests

(1) The Office has the right to require a contracting authority to submit all documents necessary for the review of a protest.

(2) The contracting authority shall submit the required documents to the Office within two working days after the receipt of the corresponding request from the Office.

(3) Before the review of a protest, the Office has the right to require the contracting authority to submit a written statement concerning the content of the protested invitation to tender, tender documents or decision and the contracting authority shall submit the statement to the Office within two working days after the receipt of the corresponding request from the Office.

- (4) The Office shall refuse to review a protest and shall make a corresponding decision if:
- 1) the protest is not filed within the specified term;
 - 2) the protest fails to comply with the requirements provided for in subsection 62 (3) of this Act or a document certifying payment of the estate fee has not been annexed to the protest;
 - 3) the protest is filed against an invitation to tender, tender documents or a decision specified in subsection 62 (1) of this Act;
 - 4) a decision or precept specified in subsection 70 (1) of this Act has been made or issued.

(5) If the Office finds that a protest filed does not comply with the requirements provided for in subsection 62 (3) of this Act or a document certifying payment of the state fee has not been annexed to the protest, it shall return the protest to the person who filed it and set a term of two working days for eliminating the deficiencies. If the person who filed the protest fails to eliminate the deficiencies within the specified term, the Office shall refuse to review the protest.

(6) The Office has the right to involve experts in the review of a protest. An expert may submit his or her opinion in writing or at a public session. The expenses relating to the submission of a protest, consisting of the state fee and the certified expenses relating to the involvement of experts, including expert's fees, shall be borne by the person submitting the protest if the review of the protest terminates on the basis of clause 65 (6) 1) or 3) of this Act or by the contracting authority if the review of the protest terminates on the basis of clause 65 (6) 2), 4) or 5) of this Act. The amount of expenses relating to the submission of a protest shall be determined by a decision of the Office.

(7) Expert's fees shall be determined on the basis of the amount equalling three times the hourly wage corresponding to the salary rate at the highest level of the salary scale for state public servants.

(8) Information concerning protests shall be entered in the register.

§65. Review of protest

(1) The Office shall review a protest within 10 working days as of the date of submission of the protest to the Office. The contracting authority shall decide to review a protest either by a written proceeding on the basis of the documents submitted or shall organize the review of the protest at a public session (hereinafter public session) where at least the representative of the Office, the person who submitted the protest and the contracting authority shall participate.

(2) A public session shall be held if a protest is reviewed with the participation of the representative of the Office, the person who submitted the protest, the contracting authority or, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender. If necessary, the Office has the right to decide to hold an additional session. Notice of an additional session shall be given either at the previous session or pursuant to the procedure prescribed in subsection (3) of this section.

(3) The Office shall notify the person who submitted the protest, the contracting authority and, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender of the time of the public session. The contracting authority shall notify all other tenderers or applicants of the time of the public session. The failure of a contracting authority to inform tenderers or applicants of the opportunity to

participate in the public session or the failure of the tenderers or applicants to appear at the session shall not hinder the review of the protest.

(4) Participants in a proceeding for the review of a protest are the person who submitted the protest, the contracting authority and, in the case the protest is filed against a decision of the contracting authority concerning declaration of a tender as successful, the person who submitted the successful tender. Parties to a proceeding for the review of a protest are the person who submitted the protest and the contracting authority.

(5) If one or both of the parties to a proceeding for the review of a protest fail to appear at the public session, the Office shall review the protest in accordance with subsection (2) of this section by a written proceeding on the basis of the documents submitted.

(6) The review of a protest is terminated if:

- 1) the person who submitted the protest withdraws the protest;
- 2) the contracting authority declares the protest to be justified;
- 3) the Office decides to dismiss the protest;
- 4) the Office decides to satisfy the protest and annul the decision relating to a tendering procedure made by a contracting authority specified in subsection 5 (1) 1) of this Act which was in violation of this Act or issue a precept to a contracting authority specified in clauses 5 (1) 2)–6) of this Act to annul a decision relating to a tendering procedure made in violation of this Act or require the contracting authority to bring the invitation to tender or the tender documents into conformity with the requirements prescribed by legislation;
- 5) the Office makes a decision or issues a precept specified in subsection 70 (1) of this Act.

(7) Termination of the review of a protest pursuant to the provisions of clause (6) 1) or 2) of this section shall be documented in a written report signed by the representative of the Office, the person who submitted the protest and the contracting authority.

(8) Termination of the review of a protest pursuant to the provisions of clause (6) 3) or 4) of this section shall be documented in a reasoned decision of the Office.

(vii) What are the usual costs to conduct a challenge procedure? Are there possibilities foreseen to do so free of charge?

Submission of protest to Office costs 100 kroons¹ (the state fee). In the case the protest filed after a declaration of a tender successful the cost is 3,000 kroons. There are no possibilities foreseen to do so free of charge.

The state fee for turning to the administrative court is 10 kroons.

¹ 1 USD = 17,482290000 EEK (calculated by the exchange rate of Bank of Estonia in 14.08.01).

VII. OTHER MATTERS

35. *To what extent is information technology being used in the process of government procurement? Are notices of invitations to tender and/or notices of contract awards published electronically? Please provide the address of such electronic publications.*

Estonian authorities consider bringing the modern means of information processing to the daily operations of national agencies as a key factor for facilitating the fluent exercise of any government functions. The notices of invitations to tender and/or notices of contract awards are published electronically. The internet address for such electronic publications is: <http://www.rha.gov.ee>.

The Public Procurement Act also provides for carrying out the whole procurement process via the Internet. The required technical specifications and legislative basis shall be prepared by the Ministry of Economic Affairs during the second half of 2001.

36. *Is there a contact point in your country for responding to enquiries from suppliers, other governments and the wider public relating to laws, regulations and procedures and practices regarding government procurement at the central and/or sub-central level? Please provide the address.*

There is no official contact point for responding to enquiries. However, should relevant issues get raised, the questions should be sent to the Ministry of Economic Affairs of the Republic of Estonia, Department of Trade:

Ministry of Economic Affairs
Department of Trade
Harju Street 11
15072 Tallinn
ESTONIA
Fax: (372) 6313660
Email: kantselei@mineco.ee

Information can also be obtained from the Public Procurement Office:

Public Procurement Office

COMMUNICATION FROM THE UNITED STATES

The following communication, dated 14 September 2001, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

Pursuant to Article XXIV:6(a), the United States hereby withdraws its objection set forth in GPA/W/133, dated 23 April 2001, to the notifications by Korea regarding modifications in its schedule contained in GPA/W/128, dated 6 March 2001, GPA/W/128/Corr.1, dated 13 March 2001 and GPA/W/128/Corr.2, dated 18 May 2001. The United States would like to thank the Government of Korea for its responses to questions in this regard contained in GPA/W/142, dated 12 July 2001.

COMMUNICATION FROM CANADA

The following communication, dated 5 September 2001, has been received from the delegation of Canada with the request that it be circulated to the Committee on Government Procurement.

Canada would like to thank Japan for its comprehensive and detailed replies to the questions posed by Canada. In view of Japan's assurance in GPA/W/137 that the rectification will not "...in any way alter the existing level of mutually agreed coverage...", Canada is withdrawing its objections to the rectification in GPA/W/129.

COMMUNICATION FROM HONG KONG, CHINA

The following communication, dated 6 August 2001, has been received from the Hong Kong Economic and Trade Office with the request that it be circulated to the Committee on Government Procurement.

Hong Kong, China is grateful for Japan's clarification in GPA/W/137 of the questions raised by us in GPA/W/135 as well as by other delegations. With the said clarification, Hong Kong, China has no problem with the modifications to Appendix I of the Agreement on Government Procurement that were proposed by Japan in GPA/W/129.

PROPOSED MODIFICATIONS TO APPENDIX I TO THE AGREEMENT

Communication from Korea

The following communication, dated 9 July 2001, has been received from the Permanent Mission of the Republic of Korea with the request that it be circulated to the Committee on Government Procurement.

Please find reproduced below Korea's replies to the questions put by the United States (GPA/W/133 of 23 April 2001) with regard to the proposed modifications to Appendix I of the Agreement on Government Procurement circulated in document GPA/W/128 and corrigenda.

1. *In introducing the proposed modifications, Korea states that the changes in the names of a number of covered Annex 1 and Annex 3 entities are "purely formal in nature". At the same time, Korea notes that those changes are "the outcome of efforts by Korea to re-organize its governmental structure and other bodies".*

For each currently listed entity, does the re-organization of Korea's governmental structure involve the transfer of procurement functions from that entity to any entity other than the directly corresponding re-named entity listed in GPA/W/128?

If there is any such transfer of procurement functions, please provide a concordance table listing the entity that currently performs such functions and the entity that would be responsible for such functions under the proposed modifications.

Most of the changes in the names of the entities contained in Annex 1 and Annex 3 are purely formal in nature. Some of the changes in names reflect the results of the re-organization of the Government's structure. For those entities, the procurement function was transferred to the newly established entities, which were notified through the Secretariat on 27 June 2001 (GPA/W/140). Therefore, the scope and level of Korea's commitments remain unchanged.

2. *With respect to the proposed deletion of the First Minister of Political Affairs from Annex 1, please indicate which entity would now conduct the procurement activities previously conducted by the First Minister of Political Affairs. If the procurement activities have not been transferred to another entity, please provide an explanation why.*

The Office for the First Minister of Political Affairs, which had the mandate of handling political affairs in communications with the National Assembly and political parties, was abolished as a result of the governmental re-organization. The duties of the Office for the First Minister of Political Affairs, including the procurement function, were not transferred to any other entity. Besides, the Office for the First Minister of Political Affairs did not have any substantial procurement activities.

MODIFICATIONS TO APPENDIX I OF KOREA

Notification from Korea under Article XXIV:6(a)¹

The following notification from the Permanent Mission of the Republic of Korea was received on 26 June 2001 with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Pursuant to Article XXIV paragraph 6(a) of the Agreement on Government Procurement, Korea hereby wishes to notify the Committee on Government Procurement of the additions of entities and a change in the name of an entity covered by the Agreement.

Please note that these additions are the outcome of reorganization of the Korean governmental structure and involve the transfer of some functions from existing entities to newly established ones. A change in the name of an entity, Office of the Prime Minister, is purely formal in nature.

In accordance with the procedures for future changes to the loose-leaf system for Appendices to the Agreement (GPA/W/110), pages 1/4 and 2/4 of Annex 1 to Appendix I of Korea in WT/Let/330 of 1 March 2000 should be rectified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² Both Attachments are in English only.

COMMUNICATION FROM THE UNITED STATES

The following communication, dated 15 June 2001, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

On the basis of information provided by Japan, the United States of America withdraws its objection, communicated in GPA/W/132, to the modifications to Appendix I of the Agreement on Government Procurement that had been proposed by Japan in GPA/W/129. The United States appreciates Japan's thorough responses to the questions that had been posed by the United States and other delegations, in relation to these modifications.

PROPOSED MODIFICATIONS TO APPENDIX I OF KOREA

Notification from Korea under Article XXIV:6(a)

Corrigendum

Due to a clerical error, the notification from Korea under Article XXIV:6(a) circulated as document GPA/W/128 on 6 March 2001 should be amended as follows: In Appendix I, Annex 1 of Korea page 1/4 (pages 2 and 5 of GPA/W/128), "Ministry of Government Administration and Home Affairs" should be deleted, i.e. the thirteenth indent as this entity is already listed in the seventh indent above.

In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.[†]

* In English and French only.

[†] Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000/2001

NETHERLANDS WITH RESPECT TO ARUBA

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000/2001.

The information notified by the Netherlands with respect to Aruba is reproduced below.

THRESHOLD CALCULATIONS

Annex 1

	SDRs	US\$	AWG ¹
Supplies	130,000	177,000	318,600
Services	130,000	177,000	318,600
Works	5,000,000	6,806,000	12,256,800

Annex 3

	SDRs	US\$	AWG ¹
Supplies	400,000	545,000	981,000
Services	400,000	545,000	981,000
Works	5,000,000	6,806,000	12,256,800

¹ AWG = Aruban Guilders.

**CHECKLIST OF ISSUES FOR PROVISION OF INFORMATION RELATING TO
ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT**

Replies by Bulgaria

The following communication, dated 28 April 2001, has been received from the Permanent Mission of Bulgaria with the request that it be circulated to Parties.

I. LEGAL FRAMEWORK

1. Is there a single central law on procurement? If so, please specify?

There is a single central law on procurement in Bulgaria – the Public Procurement Law, adopted by the Parliament on 9 June 1999, published in State Gazette (SG) No. 56 of 22 June 1999, in force as of 25 June 1999. This Law lays down the rules and procedures for awarding of public procurement contracts above the thresholds specified in it.

Rules for awarding of public procurement contracts in Bulgaria were introduced as early as in 1921 by the Law on Budget, Accountancy and Undertakings, which was amended in 1934 and abolished by the Law on Budget and Budget Accountancy in 1948. Later on, a new Law on Supplies and Carrying out Work at the Expense of the State was adopted and subsequently abolished in 1952.

During the totalitarian period in Bulgaria, under the central economy, public procurement contracts have been awarded directly to state enterprises due to the lack of private sector and market mechanism.

Certain competitive conditions in the awarding of public procurement construction contracts above specified thresholds were set in the beginning of 90's, with the adoption of a Regulation on Carrying out of Construction Tenders.

Major changes to the national public procurement system were introduced for the first time with the adoption in 1997 of the Law on Awarding State and Municipality Procurements, repealed by the current Public Procurement Law.

2. What are the other laws, regulations, decrees, administrative rulings, decisions, policy guidelines and other instruments governing government procurement? Please provide a summary of the subject areas dealt with by each of these instruments. Please also explain the main differences (if any) that exist between their application at the central and sub-central levels of government and at other types of entities.

The main laws and regulations governing as a whole or certain aspects of the process of awarding public procurement contracts and the performance of such contracts are as follows:

1. Public Procurement Law;
2. Regulation on Awarding of Public Procurement Contracts below the Thresholds set out in Article 7.1 of the Public Procurement Law;
3. Regulation on Keeping the Public Procurement Register;
4. Law on Obligations and Contracts;
5. Commercial Law;
6. Law on Administrative Procedures;
7. Law on Administrative Infringements and Penalties.

These legal instruments are applicable to the entities at central and sub-central levels of government in the Republic of Bulgaria, as well as to the other types of entities under the Public Procurement Law.

1) **Public Procurement Law**

The **subject areas** dealt with are as follows:

1. Construction works, including:
 - (a) engineering;
 - (b) performance of individual or complex construction or assembly work;
 - (c) horizontal or vertical extension, raising of superstructures; rehabilitation and reconstruction of buildings;
 - (d) delivery, assembly and disassembly of technological equipment carried out in the construction process.
2. Supplies in the form of:
 - (a) purchase of products;
 - (b) purchase, rental or hire or leasing of machines, facilities and complex equipment.
3. Provision of the following services:
 - (a) maintenance, running and extensive repairs of buildings, machines or equipment;
 - (b) activities related to getting constructions into exploitation;
 - (c) demolition of buildings and construction facilities;
 - (d) transport by land, by air and by water;
 - (e) telecommunications;
 - (f) insurance;
 - (g) design and installation of hardware or software;
 - (h) accounting and auditing;
 - (i) scientific and research activities;
 - (j) management consultant services and related services;

- (k) planning at all phases including urban and geodesic planning, preliminary surveys and construction plans;
- (l) market research, advertising and public opinion polling;
- (m) real estate management and maintenance;
- (n) publishing, distribution and printing services, including the printing of securities, standard documents and registered forms bearing serial numbers or such as may be used in the collection of state revenue or such as contain tax related information or have nominal value;
- (o) legal services;
- (p) household waste disposal, refuse disposal and similar services, planting, grassing and other development services in residential areas;
- (q) training and retraining;
- (r) security and security systems;
- (s) financial services, except those provided by the Bulgarian National Bank and those related to the national debt management.

Procuring entities are:

1. State authorities, mayors of municipalities, higher schools, as well as other authorities and organisations disposing of funds from the consolidated state budget, including:
 - (a) Health insurance and pension funds;
 - (b) Non-profit legal organizations;
2. Non-profit organizations established by one or several state authorities and/or local authorities;
3. Public undertakings exercising one or several of the activities as stated in the answer to question 7 below.

Contractors

Any Bulgarian or foreign natural person or legal entity, as well as their joint ventures, may apply for contractors under public procurement contracts. The provisions of the Law require that they be registered as commercial entities under the Commercial Law, or exercise a liberal profession.

Thresholds

The provisions of the Law apply to public contracts, the estimated value of which, without VAT, at the date of announcing the procedure is as follows:

1. for construction work contracts - exceeding 600,000 BGL¹;
2. for supply contracts - exceeding 50,000 BGL;
3. for services contracts - exceeding 30,000 BGL.

When the public contract is intended to cover both supplies of products and services, the provisions of the Law apply to the total estimated value of the products and the services in the amounts defined for supply contracts.

¹ Bulgarian Lev (BGL) = 1 German Mark (DM).

The rules and procedures for awarding public procurement contracts below the above thresholds are laid down in the Regulation on Awarding Public Procurement Contracts below the thresholds set out in Article 7.1 of the Public Procurement Law.

Principles and Procedures

Public procurement contracts are awarded by three types of procedures: open, restricted or negotiated procedure, in accordance with the following principles:

1. ensuring publicity of the procedures and transparency;
2. free and fair competition;
3. providing equal opportunities for participation of all interested suppliers;
4. ensuring the keeping of trade secrets of interested suppliers and their tenders.

Organs

The provisions of Article 54 of the Public Procurement Law delegates to the Minister of State Administration functions related to the issuing of a Regulation on keeping the public procurement register; provision of methodological guidance on the application of the Law; co-ordination among procuring entities with regard to the application of the Law, etc. The Minister may notify the authorities competent for the control on the application of the Law. He represents the Republic of Bulgaria in international organizations in the field of public procurement. In the performance of such functions the Minister of State Administration is assisted by a specialized unit within the administration of the Council of Ministers (the Public Procurement Directorate).

Tenderers participating in public procurement procedures under the Law may launch complaints against non-compliance with the requirements for carrying out of public procurement procedures, in accordance with the provisions of the Law on Administrative Procedures.

The control on the implementation of the Law is performed by the National Audit Office and the organs of the Agency for State Internal Financial Control.

Administrative Penal Provisions

The finding of breaches, as well as the issue, appeal and execution of penal injunctions is undertaken in accordance to the provisions of the Law on Administrative Infringements and Penalties.

2) The **Regulation on Awarding of Public Procurement Contracts below the Thresholds set out in Article 7.1 of the Public Procurement Law** (SG No, 36 of 2 May 2000, in force as of 5 May 2000) stipulates the rules and procedures for awarding of public procurement contracts below the thresholds set in the Public Procurement Law (the so called "small public procurement").

Small public procurement contracts are awarded through the following types of procedures: open tender; restricted tender; design contest; and negotiation procedure. These procedures are identical to the procedures set out in the Public Procurement Law. The Regulation provides for more favourable terms related to the time-limits for conducting the procedures; a special procedure for awarding design contract; additional cases in which negotiation procedure could be used. For small public procurement contracts with a value up to 10,000 BGL the provisions of the Regulation allow the procuring entity not to apply the public procurement procedure and not to conclude a contract in writing, as business transactions may be proved by primary payment documents.

The following suppliers are eligible for participation in small public procurement award procedures: (1) Bulgarian or foreign natural persons or legal entities, including their joint-ventures;

and (2) scientific organizations and institutions. In the decision for initiation of a procedure the procuring entity may stipulate a requirement for the successful tenderer to be a commercial entity within the meaning of the Commercial Law, except where the contractor exercises a liberal profession.

The award and performance of small public procurement contracts, as well as the launch of complaints against non-compliance with the requirements for conducting of public procurement procedures are carried out in accordance with the legal acts provided for in the Public Procurement Law. The provisions for control over the implementation of the Regulation, breaches and finding of breaches are identical.

3) The **Regulation on Keeping the Public Procurement Register** (SG No. 89 of 31 October 2000, in force as of 1 November 2000) lays down the rules and procedures for keeping, maintenance and use of the Public Procurement Register, defines the content and structure and the terms of gathering of information in the Register, as well as access to it.

4) The **Law on Obligations and Contracts** (SG No. 275 of 22 November 1950, as last amended SG No. 34 of 25 April 2000) is a common law setting out the main rules for conclusion of contracts, including public procurement contracts.

5) The **Commercial Law** (SG No. 48 of 18 June 1991, as last amended SG No. 84 of 13 October 2000) is a special law setting out the rules for conclusion of commercial contracts. The Law is a main legal act governing thoroughly commercial juridical relations. It defines commercial entities, contractual relations among them and procedures for declaring bankruptcy.

6) The **Law on Administrative Procedures** (SG No. 90 of 13 November 1979, as last amended SG No. 95 of 2 November 1999) lays down procedures for issue, appeal and execution of individual administrative acts, as far as no specific rules are envisaged in other law or decree.

Within the meaning of the Law, individual administrative acts are acts issued by heads of state institutions, mayors of municipalities, regional governors and other organs of the local executive authority, as well as other duly authorized bodies, by which acts rights and obligations arise, or rights and legal interests of citizens and organizations are impaired, as well as the refusal for issue of such acts.

According to Article 45 of the Public Procurement Law the decisions of procuring entities are individual administrative acts within the meaning of the Law on Administrative Procedures and are subject to appeal under the provisions of the latter.

7) The **Law on Administrative Infringements and Penalties** (SG No. 92 of 28 November 1969, as last amended SG No. 92 of 10 November 2000) stipulates general rules for administrative infringements and penalties, procedures for statement of administrative infringements, imposition and execution of administrative penalties and provides the necessary guarantees for protection of rights and legal interests of citizens and organizations.

Administrative infringement in the awarding of public procurement contracts is any act (action or non-action), infringing the established order of state management, has been done guiltily and has been declared as liable to punishment with administrative penalty imposed under administrative procedure. Administrative penalties are imposed with the purpose to alert the infringers to obey the set legal system.

Finding of breaches, as well as issue and appeal under the Public Procurement Law, and execution of penal injunctions is undertaken in accordance to the provisions of the Law on Administrative Infringements and Penalties.

3. *To what extent will the provisions of the Agreement be applied directly or need to be transposed into the relevant law? In the event of direct application of the Agreement over conflicting provisions of domestic law, please indicate the relevant legal basis.*

Pursuant to Article 5 of the Constitution of the Republic of Bulgaria international treaties or agreements, ratified by law under the constitutional procedure, published in State Gazette and entered into force, become part of the national legislation.

When the Agreement on Government Procurements is signed, ratified by law and published in State Gazette, its provisions will become part of the national legislation and will prevail over the conflicting provisions of the domestic legislation.

II. SCOPE AND COVERAGE

4. *Please summarize the organization of the government in your country at each level.*

According to the Constitution of the Republic of Bulgaria and the Law on Administration the executive authority is divided into central and territorial.

Central executive authorities are the Council of Ministers, ministries, state agencies, state commissions, executive agencies and other structures, established by law or regulation of the Council of Ministers.

The Council of Ministers performs the internal and foreign policy, ensures public order and national security and performs general management of state administration and military forces.

The ministries perform government's policy in the relevant field of public life.

State agencies are directly subordinated to the Council of Ministers and are established to fulfil activities that are not performed by a ministry. State commissions are established at the Council of Ministers or at a relevant minister to fulfil functions related to supervision (control), registration and licensing.

Executive agencies are established at a relevant minister to perform administrative services and related activities thereof.

Other bodies may also be established at the Council of Ministers or at a relevant minister by law or regulation of the Council of Ministers.

The Constitution provides for two levels of local public authority - within the districts and within the municipalities. In districts, a management at a regional level is performed and a compliance with the national and local interests in the conduct of regional policy is ensured. Each district consists of municipalities. In the municipalities activities related to the local government and competences of the central level of administration, delegated by a legislation, are carried out.

Please, see the organizational chart attached.

5. *Please list all central government entities (ministries, departments, agencies, etc.) procuring goods, services and construction services.*

Central government entities procuring goods, services and construction services are the Council of Ministers, ministries, state agencies, state commissions, executive agencies, commissions

and other bodies established at the Council of Ministers or at a relevant minister under the provisions of law or regulation of the Council of Ministers (see the organizational chart referred to in the answer to question 4 above).

6. *What entities at the sub-central level of government (states, provinces, municipalities, etc.) procure goods and services?*

Entities at the sub-central level of government that may procure goods and services, including construction works are the districts and the municipalities (see the organizational chart referred to in the answer to question 4 above).

7. *Which are the enterprises owned or controlled by the government that are subject to the rules on government procurement? Which are the other entities or categories of entities (Annex 3-type of entities) owned and controlled by the government that engage in procurement? Specify.*

The rules of the Public Procurement Law that apply to the central government procuring entities also apply to public undertakings (regardless of the ownership) exercising one or several of the following activities, including on the basis of concession or licence:

- (a) operation of fixed public service networks for production, transport or distribution of drinking water, electricity, gas or thermal energy, as well as their supply to such networks;
- (b) exploitation of oil and gas fields, coal or other solid fuels;
- (c) operation of airports, harbours or other terminal facilities for carriers;
- (d) operation of public transportation networks;
- (e) operation of telecommunication networks or provision of telecommunication and postal services, as well as automated systems for public services.

8. *Do entities listed in response to questions 5, 6 and 7 apply in their procurement the main law (if one exists), other legislation provided by the federal or central level of government or are they autonomous from federal or central level of government in their procurement rules and practices? Where any of these entities are not subject to the main procurement law, please list the entities concerned and indicate which laws, regulations, etc., they are subject to. How will you government ensure the implementation of the Agreement by such entities below the central/federal government level?*

The Republic of Bulgaria is an unitary state and therefore the Public Procurement Law applies to all procuring entities, referred to in the answers to questions 5, 6 and 7 above.

9. *Are there any general exceptions from the scope of application of the national procurement rules, for instance for essential national defense or security reasons? Please provide details.*

The Public Procurement Law does not apply to public procurement:

1. related to national defence and security, that are subject to state secret, or whose execution involves special security arrangements in accordance with national legislation in force;

2. governed by procedural rules and awarded in accordance with international agreements;
3. awarded pursuant to special procedure of an international organization;
4. if the supplier is a procuring entity within the meaning of the Public Procurement Law, when the procuring entity is a public undertaking (see the answer to question 7 above).

10. Please provide available statistics on the procurement by government entities in your country in the last two years, including, to the extent available, a breakdown by entity and by categories of products and services.

As of 6 November 2000 the Public Procurement Directorate at the Council of Ministers is keeping a public procurement register, the first of its kind in Bulgaria. The Regulation on Keeping the Public Procurement Register envisages that the information on public procurement from the date of entry into force of the Public Procurement Law (25 June 1999) until 31 December 2000 be brought into compliance with the requirements of the Regulation by 30 June 2001.

For the period from the entry into force of the Law until 1 January 2001, the following information on the number of initiated public procurement procedures is available:

<i>No.</i>	<i>Criteria</i>	<i>Number of initiated procedures</i>
1.	Type of procuring entity:	
1.1.	State authorities, higher education institutions and other organizations, disposing of funds from the consolidated state budget	1282
1.2.	Municipalities' mayors	1019
1.3.	Health insurance and pension funds	49
1.4.	Non-profit legal organisations, established by one or several state authorities and/or local government authorities	5
1.5.	Public undertakings operating networks for drinking water, electricity, gas or thermal energy	863
1.6.	Public undertakings exploiting oil and gas fields, coal or other solid fuels	232
1.7.	Public undertakings operating airports, harbours or other terminal facilities for carriers	14
1.8.	Public undertakings operating public transportation networks	181
1.9.	Public undertakings operating telecommunication networks or providing telecommunication and postal services, as well as automated systems for public services	238
2.	Type of public procurement:	
2.1.	services	1385
2.2.	supplies	2246
2.3.	construction works	252
3.	Type of procedure:	
3.1.	open procedure	3005
3.2.	restricted procedure	507
3.3.	negotiation procedure	371

III. NATIONAL TREATMENT AND NON-DISCRIMINATION

11. *Identify the specific provisions in the legislation which reflect the national treatment and non-discrimination commitments of Article III of the Agreement.*

According to the Public Procurement Law, any Bulgarian and foreign natural person or legal entity, as well as their joint-ventures, may apply for contractors in the public procurement procedures. The contractor has to be registered as commercial entity within the meaning of the Commercial Law, except when he exercises a liberal profession.

12. *Please provide details of any provisions in national legislation according domestic supplies and suppliers treatment more favourable than that accorded to foreign supplies or suppliers or according supplies or suppliers of any country more favourable treatment than those of any other country.*

There are no such provisions in the Bulgarian legislation.

13. *Please provide details of any provisions in national legislation allowing a locally established supplier to be treated less favourably than another locally established supplier on the basis of its degree of foreign affiliation or ownership or discriminating against locally established suppliers on the basis of the country of production of the good or services being supplied.*

There are no such provisions in the Bulgarian legislation.

14. *Please specify to what extent, if at all, more favourable treatment is granted to any sectors of the economy, regions or specific categories of suppliers or supplies.*

As a general rule the Public Procurement Law does not grant more favourable treatment to any sectors of economy, regions or specific categories of suppliers or supplies. The only exception relates to small and medium-sized enterprises and disabled people, its aim being to support social policy performance. The relevant provisions envisage the following:

- (1) In the evaluation of tenders in open or restricted procedure, under equal other conditions, a preference is given to suppliers that are small or medium-sized enterprises or that have hired such enterprises as sub-contractors;
- (2) In an open or restricted procedure, in the evaluation of a tender submitted by a supplier meeting the requirements laid down in Article 21.3 of the Law on Protection, Rehabilitation and Social Integration of Disabled People², his price offer is deemed to be the lowest offer, provided that it does not exceed the lowest price offered by another supplier by more than 10 per cent. According to the Public Procurement Law, the lowest price offered can be one of the main criteria for evaluation of tenders.

² Article 21.3 of the Law on Protection, Rehabilitation and Social Integration of Disabled People provides that in the specialized undertakings, cooperations and separate production units the relative share of the labour readjusted people in the total staff number is not less than 50 per cent for disabled people suffering any type of disease and not less than 30 per cent - for blind people or people with weak sight.

15. *Please specify any provisions requiring or allowing the use of offsets or measures with similar effect, such as domestic content, licensing of technology, investment, counter-trade or similar requirements in the qualification or selection of suppliers, products or services or in the evaluation of tenders and award of contracts.*

Pursuant to Article 22 paragraph 2 of the Public Procurement Law, the procuring entity has the right to include in its decision for initiation of a procedure additional requirements to contract performance, such as:

1. conditions relating to the solution of environmental issues, unemployment, job creation for disabled workers, use of local resources and raw materials in certain regions;
2. requirements relating to the protection of the national security, defence and public order;
3. conditions relating to stimulating the participation of small and medium-sized enterprises as sub-contractors.

Article 28.3 of the Public Procurement Law allows that the share of the contract to be entrusted to a sub-contractor may be up to 50 per cent of the total tender price if the tenderer is a foreign natural or legal person or consortium, provided that the sub-contractors are Bulgarian natural or legal persons.

IV. ELEMENTS SPECIFIC TO PROCUREMENT PROCEDURES

16. *Please provide a general description of your existing procurement methods and procedures, including the main procurement methods used and a brief description of each method, and the extent to which qualification of suppliers and open, selective and limited tendering for each level of government is used.*

Types of procedures under the Public Procurement Law:

Public procurement contracts above the thresholds specified in the Law are awarded by three types of procedures: open, restricted and negotiation procedure.

In open public procurement procedures, the procuring entity sends invitations to all interested suppliers to submit tenders.

In restricted procedures, tenders may be submitted only by those suppliers who on the basis of a pre-qualification procedure have been invited in writing by the procuring entity.

In the negotiation procedure, the procuring entity awards a public procurement contract following negotiations with one or more suppliers previously selected by him.

The passing over from one type of procedure to another is allowed only when the initially announced procedure has been terminated without the conclusion of a contract.

The procuring entity takes a decision to initiate an **open procedure** for awarding a public procurement contract in all cases, unless otherwise is provided for in the Law.

Restricted procedures may be carried out only when:

1. due to the specific character of the procurement, the contract can be performed only by limited number of suppliers;
2. due to the complex technical nature of the procurement, in the course of contract performance subsequent technical and technological clarifications need to be made;
3. the open procedure initially announced has been cancelled or terminated without the conclusion of a contract.

A **negotiation procedure** may be carried out only when:

1. the procurement is related to scientific research, experiment or studies. The results of such procurement may not be used for mass production or the establishment of the product's commercial viability;
2. there is a need for prevention of accidents or elimination of after-effects from accidents or natural calamities, or there is a risk of damage on a large scale, or when people's health and safety are at risk;
3. in case of additional deliveries by the same supplier, but not later than six months from awarding of the initial contract, provided that the following conditions are met simultaneously:
 - (a) the initial contract has been awarded by open or restricted procedure and the procuring entity had stated the possibility of additional deliveries in its invitation to tender;
 - (b) the change of supplier would entail the purchase of materials of different technical characteristics that might result in a lack of compatibility or in technical difficulties in operation or maintenance;
 - (c) for the purposes of such additional deliveries, the unit prices remain the same as under the main contract and adjustment in line with official rate of inflation is allowed;
 - (d) the total value of such additional procurement does not exceed 20 per cent of the value of the main contract;
4. the procurement is for a repetition of a service supplied, or for an additional services by the same contractor not later than 1 year from the award of the main contract, provided that the following requirements are met simultaneously:
 - (a) the main contract has been awarded by open or restricted procedure and the procuring entity had stated the possibility of additional procurement in its invitation to tender;
 - (b) for the purposes of such additional procurement, the unit prices remain the same as under the main contract and adjustment in line with official rate of inflation is allowed;
 - (c) the total value of such additional procurement does not exceed 20 per cent of the value of the main contract;

5. awarding the contract to another supplier would result in infringement of copyright or other intellectual property rights;
6. the public procurement contract for supply is to be concluded with public undertaking that is bankrupt, or is subject of proceedings for declarations of bankruptcy, or it is being wound up;
7. the products and services are included in a list approved by the Council of Ministers in accordance with Article 22 (1) of the Law on Protection, Rehabilitation and Social Integration of Disabled People³;
8. the open and restricted procedures have terminated without the conclusion of a contract.

Description of tendering procedures

The three types of procedures for awarding public procurement contracts begin with procuring entity's decision for initiation of a procedure.

(1) The invitation for participation in an **open procedure** for awarding public procurement contract is being sent simultaneously to State Gazette for publication in the Public Procurement Bulletin and to the Public Procurement Register not later than 45 calendar days before the date specified for tendering. The State Gazette publishes the invitation for participation not later than 5 calendar days after its receipt. The procuring entity also sends the invitation for publishing in one local or national daily newspaper.

The invitation is addressed to all interested suppliers. If no tender or less than three tenders have been submitted within the specified time-limit, the procuring entity may extend the time-limit for submission of tenders by no more than 30 days. The potential tenderers buy the tender documentation and if interested, they prepare and submit their tenders.

For the purpose of conducting the open procedure, the procuring entity appoints a special commission. The commission receives from the procuring entity the list of tenderers, examines and assesses the submitted tenders in accordance with the preliminary announced criteria. The three tenderers whose tenders meet to the greatest extent the conditions announced by the procuring entity are ranked. The commission records the examination, evaluation and ranking of the tenders in properly signed minutes and terminates its work by handling the minutes to the procuring entity.

The procuring entity announces by a decision the top three rankings and awards the contract to the tenderer ranked first not later than three working days after the completion of the commission's work.

(2) The **restricted procedure** has two stages: pre-qualification of suppliers and restricted procedure with the selected tenderers.

The invitation for participation in the pre-qualification stage is sent to State Gazette for publication in the Public Procurement Bulletin and to the Public Procurement Register not later than 15 calendar days before the specified pre-qualification date. The State Gazette publishes the invitation for participation in the pre-qualification not later than five calendar days after its receipt. The procuring entity sends the invitation for publishing in one local or national daily newspaper.

³ Pursuant to Article 22 of the Law on Protection, Rehabilitation and Social Integration of Disabled People, the Council of Ministers has to adopt a list of goods and services, the production of which is awarded to specialized undertakings and cooperations through public procurement.

The aim of the pre-qualification stage is to invite for participation in the restricted procedure only suppliers with the necessary economic and technical capabilities of performing the contract. All suppliers interested in the procurement have the right to submit applications to be invited to the pre-qualification stage. If no request or less than three applications have been submitted within the specified time-limit, the procuring entity may extend the deadline for submission of applications by not more than 30 days.

The selection of suppliers is carried out by a commission appointed by the procuring entity. The commission assesses the applications for participation submitted and recommends that the procuring entity invite only those suppliers who fulfill to the greatest extent the pre-announced requirements.

The procuring entity selects the suppliers that will be invited to participate in the restricted procedure and sends simultaneously to all selected suppliers invitations for participation. Within seven days from the receipt of the invitation each supplier confirms in writing its intention to participate in the restricted procedure. A lack of confirmation is deemed to be a refusal to participate in the procedure. The procuring entity proceeds to the restricted procedure provided that at least three suppliers confirm their intention to participate. Otherwise, the procuring entity terminates the procedure and informs the suppliers in writing. The evaluation of tenders is carried out by the commission according to the proceedings provided for evaluation under open procedures. The procuring entity announces by a decision the top three rankings and awards the contract to the tenderer ranked first.

(3) The invitation for participation in a **negotiation procedure** for awarding public procurement contract is addressed to one or more suppliers selected by the procuring entity. The invitation is sent for publication in the Public Procurement Register.

The suppliers submit tenders within the time-limit specified by the procuring entity that is not less than 15 calendar days before the date specified for carrying out the procedure. The procuring entity proceeds in its own best interest in the negotiations.

There are no limitations of legal nature for the application of the different types of procedures by procuring entities at each level of government.

17. Identify the provision in your country's legislation requiring non-discrimination as regards the qualification of suppliers in terms of Article VIII and selection of suppliers in terms of Article X. Indicate any exception to this requirement. What are the provisions ensuring non-discriminatory access of new suppliers to existing qualification lists?

There are no provisions in the Bulgarian legislation requiring the qualification of suppliers. Each procuring entity carries out market research and elaborates lists of the suppliers in the relevant industries on a case-by-case basis.

Though there are no explicit provisions in the Public Procurement Law, the principle of non-discrimination as provided in Article VIII and Article X of Agreement of Government Procurements, is applied to qualification and selection of suppliers.

18. In situations where qualification procedures and selective tendering may be used, to what extent do entities allow suppliers to become qualified during the procurement process? To what extent do entities maintain permanent lists of suppliers?

There are no explicit provisions in the Bulgarian legislation for the maintenance of permanent list of suppliers.

It is foreseen that after 30 June 2001 the Public Procurement Register will include annual rankings of the best traders in the relevant industries. Proposals for such rankings are to be made by professional associations and organizations in the relevant industries.

19. *What are the conditions and circumstances foreseen in your legislation allowing the use of the limited tendering method under Article XV of the Agreement? What measures exist in order to ensure that this method is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discriminating among foreign supplies/suppliers or in favour of domestic supplies/suppliers?*

According to the provisions of the Public Procurement Law, public procurement contracts may be awarded under limited procedure within the meaning of Article XV of the Agreement on Government Procurement (in the Bulgarian law it is referred to as "negotiation procedure"). This type of procedure may be applied only in specified cases (see the answer to question 16 above), and in a manner not allowing its use with a view to avoiding maximum possible competition or which would constitute a means of discriminating among foreign supplies/suppliers, or in favour of domestic supplies/suppliers.

20. *Article XIV of the Agreement allows for negotiation under certain conditions. Are entities allowed to proceed to negotiations? If so, which categories and what are the conditions imposed?*

According to the provisions of the Public Procurement Law, the procuring entity is not allowed to proceed to negotiations under the open and restricted procedures. Only under the negotiated procedure the procuring entity may negotiate the terms of the contract in its own best interest.

21. *Article XI sets out the minimum time-periods for tendering and delivery. What are the rules and practices regarding time-periods in your legislation? Does the legislation reflect the various minimum time-periods as set out in the Agreement? If not, give information on any different time-periods which have been established in your national legislation.*

The Public Procurement Law sets out the following minimum time-periods for submission of tenders for tendering and delivery:

In the **open procedure**: The time-period for submission of tenders is at least 45 calendar days after the invitation has been sent for publication in State Gazette. The State Gazette publishes the invitation in the Public Procurement Bulletin not later than five calendar days after its receipt. This time-period may be reduced to 30 calendar days if the procuring entity has included this public procurement in its information about intended annual public procurement at the beginning of the current year (i.e. by the end of January).

In the **restricted procedure**: The pre-qualification of the candidates is carried out at least 15 calendar days after the invitation for participation in the pre-qualification has been sent for publication in State Gazette. The time-period for submission of tenders is at least 20 calendar days after the receipt of the invitation for participation in the restricted procedure. This time-period may be reduced to 10 calendar days if the procuring entity has included the particular procurement in its information of planned procurement for the current year or in case of unforeseen circumstances which require urgent action on procurement.

In the **negotiation procedure**: The time-period for submission of tenders is at least 15 calendar days after the date the invitation has been sent to the candidate or candidates selected by the procuring entity.

Only the time-periods for the restricted procedure under the Public Procurement Law are shorter than those specified in the Agreement on Government Procurement.

22. *Briefly describe the procedures for the submission, receipt and opening of tenders and awarding of contracts, in particular the procedures and conditions guaranteeing regularity of the openings and consistency with the non-discrimination provisions of the Agreement. How is the information on the proceedings related to the receipt, opening and evaluation of tenders maintained by entities?*

The procedures for the submission, receipt and opening of tenders are identical for all types of public procurement envisaged in the Bulgarian legislation. The conditions for awarding of contracts are equal too.

The tender is put in a sealed non-transparent envelope and delivered by the tenderer or by his duly authorised representative by hand against acknowledgement of receipt or submitted by registered mail with proof of receipt. The sequence, date and hour of receipt are entered on the envelope and in a special register. Tenders received after the deadline are rejected and returned to the tenderer. Tenders received in unsealed envelopes are also rejected. Such tenders are immediately returned to the tenderer. By the deadline for submission of tenders every tenderer may modify, supplement or withdraw its tender. The procuring entity may request that the price proposal be submitted in a separate sealed envelope bearing the words "Price Offer".

A commission appointed by the procuring entity opens the envelopes in the sequence of their receipt and examines their compliance with the preliminary announced terms and conditions. The commission has the right at any time to verify the facts and data submitted by the tenderers as well as to request supplementary evidence of facts and data provided in the tender within a specified period. The commission may exclude from participation in the procedure any tenderer whose tender is incomplete or not in conformity with the pre-announced requirements. The decision of the commission to accept a written justification or to reject the tender is announced to the tenderer without delay.

The procuring entity **concludes a public procurement contract** with the successful tenderer. The contract includes all terms proposed by the tenderer to whom the contract is awarded. The procuring entity concludes the contract within one month of announcing the award decision.

The procuring entity **does not conclude a public procurement contract** when:

1. the time-limit specified for complaints against the procuring entity's award decision has not expired;
2. a complaint has been filed against the procuring entity's award decision – by the time when a decision on such a complaint has been taken;
3. the successful tenderer fails to present, before concluding the contract, an evidence of registration under the Commercial Law.

The procuring entity is responsible for preparing and conducting the procedure for awarding of public procurement contract, as well as for the acceptance and keeping the tenders. The procuring entity is obliged to keep the entire documentation related to each public procurement procedure for a period of three years after the completion of each contract.

The procedures for awarding public procurement contracts under the Public Procurement Law and the requirements described above are applied in conformity with the provisions for non-discrimination according to the Agreement on Government Procurements.

23. *Please identify the provisions in your legislation setting the parameters for the prescription of technical specifications by entities as part of the evaluation criteria.*

§ According to the provisions of Article 41 paragraphs 2 of the Public Procurement Law, main criteria for evaluation of tenders are the most economically advantageous tender or the lowest price proposed. Within the meaning of the Law "most economically advantageous tender" is the tender that meets to the greatest extent the preliminary announced conditions as regards quality; technical, aesthetic and functional characteristics; technical support or warranty service; term of performance; price and method of payment.

24. *Identify the measures in national legislation ensuring that awards are made in accordance with the evaluation criteria and essential requirements specified in the tender documentation.*

There are explicit provisions in the Public Procurement Law that ensure the awarding of public procurement contracts in conformity with the criteria for assessment and the main requirements in the tender documentation:

- ◆ Article 39 paragraph 3 stipulates that the commission carrying out open or restricted procedure opens the envelopes in the sequence of their receipt and assesses their compliance with the preliminary announced terms and conditions;
- ◆ Under Article 40 paragraph 1(3), the commission has the right to exclude from participation in the procedure any tenderer whose tender is incomplete or not in conformity with the requirements laid down in the tender documentation;
- ◆ According to Article 41 paragraph 1, after examination of the tenders the commission evaluates them according to the preliminary announced criteria;
- ◆ Under Article 43 the commission ranks the three tenderers whose tenders meet to the greatest extent the terms and conditions specified in the tender documentation.

Article 21 paragraph 1, point 1 provides for the right of the procuring entity to terminate a public procurement procedure in case when all the tenders do not meet the terms and conditions pre-announced in the tender documentation.

V. INFORMATION

25. *Article XIX:1 of the Agreement foresees the publication of laws, regulations, judicial decisions, administrative rulings of general application and procedures regarding government procurement. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where the legislation referred to in questions 1 and 2 can be found.*

All laws, regulations and administrative rulings regarding public procurements are published in the State Gazette.

The Public Procurement Law, the Regulation on Awarding Public Procurement Contracts below the thresholds set out in Article 7.1 of the Public Procurement Law and the Regulation on Keeping the Public Procurement Register are published in the Bulgarian language in the website of

the Public Procurement Register (<http://www1.government.bg/rop/>). Their publication in the English language is pending.

26. *Article IX:1 of the Agreement foresees the publication of invitations to participate for all cases of intended procurement by entities. Please give the name of the relevant publication(s) and indicate the media to be used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

The invitations for participation in public procurement procedures are published in the Public Procurement Bulletin, in the unofficial section of the State Gazette and in the Public Procurement Register. The procuring entity also publishes the invitation in one local or national daily newspaper.

The Public Procurement Register is accessible through the Internet website of the Government as mentioned in the answer to question 25 above. For the time being, the information in the Register is available only in Bulgarian.

27. *Please specify the types of information that your legislation requires to be included in notices of invitation to tender or in tender documentation, and identify the relevant provisions in your legislation.*

According to Article 34 paragraph 1 and Article 52 paragraph 2 of the Public Procurement Law the **invitations for participation in open and negotiated procedures** for awarding public procurement contracts contains the following information:

1. the name, address and telephone number of the procuring entity;
2. the procuring entity's decision for initiation of a procedure, which according to Article 22 paragraph 1 of the Public Procurement Law includes:
 - the subject of public procurement;
 - the legal and actual grounds for initiating the procedure;
 - the type of procedure;
 - the term and place of performance;
 - restrictions for contract performance, if any;
 - qualification requirements to tenderers;
 - quality requirements;
 - the terms concerning tender price formation and payment;
 - the period of tender validity;
 - the type and amount of tender guarantee;
 - the criteria for evaluation of tenders and the method of determining their weight in the complex tender evaluation;
 - the place, date and time for examination and evaluation of tenders;
3. the place where tender documentation can be obtained, the time-limit, the price and the method of payment for the tender documentation;
4. the place and time-limit for submission of tenders.

According to Article 47 paragraph 1 of the Public Procurement Law an **invitation for participation in the pre-qualification of tenderers in the restricted procedure** contains the

information described in (1) and (2) above, as well as information on the place and time-limit for submission of applications for participation and the pre-qualification criteria.

Under Article 49 paragraph 4 of the Public Procurement Law, an **invitation for participation in a restricted procedure** contains the following information:

- (1) the place for submission of tenders;
- (2) the time-limit for submission of tenders;
- (3) the price and the method of payment for tender documentation.

According to Article 36 of the Public Procurement Law, the **tender documentation** contains all data, instructions and requirements necessary for the preparation of tenders:

1. the decision for initiation of a procedure;
2. a full description of the subject of public procurement;
3. technical performance requirements; such requirements may not stipulate requirements or reference to undertakings, products, materials or services related to particular undertakings, patents, utility models, trademarks and designation of origin;
4. plans and other documentation necessary for the preparation of tenders in the case of construction works;
5. a standard tender form;
6. a draft public procurement contract.

28. *Article IX:1 of the Agreement foresees publication of permanent lists of qualified suppliers by entities maintaining such lists. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

Please, see the answers to questions 17 and 18 above.

29. *Article XVIII:1 of the Agreement foresees the publication of details of contract award notices by entities. Please give the name of the relevant publication(s) and indicate the means to be used for this purpose. Please also provide, where available, the address of an Internet website where such notices are published.*

Information on the awarded public procurement contracts is published in the Public Procurement Register. The Internet address of the Register's website is given in the answer to question 25 above.

30. *Please specify the types of information that notices of contract awards should contain in your country and identify the relevant provisions in your legislation.*

Under Article 15 of the Regulation on Keeping the Public Procurement Register, the information of the awarded public procurement contracts includes:

1. the number of contract and date of award;

2. the code under BULSTAT for commercial entities and the personal identification number for natural persons;
3. the subject matter of the contract;
4. the time-limit for delivery;
5. the total value of the contract without VAT;
6. the value of the part of a contract to be performed by sub-contractors, if any;
7. the terms of payment.

When the value of a contract is expressed in a foreign currency, the information referred to above shall contain the type of the currency and its equivalent in Bulgarian Leva on the exchange rate of the Bulgaria National Bank on the date of award.

When the value of recurring contracts can not be determined on the date of award, the procuring entity shall send information about the contract performance on a six-months basis.

In case of any amendments to the contract terms or of contract termination, the procuring entities shall send information on the relevant circumstances.

The procuring entity sends quarterly to the Register information for the small public procurement contracts awarded.

31. Please specify the relevant provisions in your legislation enabling, as foreseen in Article XVIII:2, the provision of information to other Parties and unsuccessful tenderers regarding the reasons why a tender was not selected.

Currently, there are no specific provisions in the national legislation enabling the provision of information to other Parties to the Agreement.

According to Article 45 paragraph 1 of the Public Procurement Law any tenderer in open or restricted procedure for awarding public procurement contract has the right to request and to obtain access to the minutes of the tender evaluation commission. The minutes contains all the circumstances related to the examination and evaluation of the tenders, as well as the reasons why a tenderer has not been selected as contractor.

The procuring entity may not refuse access to the minutes of the commission.

VI. BID CHALLENGE PROCEDURES

32. Please provide information on existing challenge procedures.

Tenderers participating in public procurement procedures may launch complaints against non-compliance with the requirements for carrying out of public procurement procedures under the provisions of the Law on Administrative Procedures with the following authorities:

- (a) the upper administrative body within 7 days time after the decision of the procuring entity on the awarding of the contract has been announced;
- (b) the court (in case the possibility to appeal under the administrative procedure has been exhausted or the time limit has expired) within 14 days after the decision on the appeal of the upper administrative body has been announced, respectively after the time limit for appeal under the administrative procedure has expired, or after the decision of the upper administrative body has been issued.

33. *Are there specific provisions enabling access of foreign suppliers to challenge procedures?*

According to the Public Procurement Law tenderers, whether or not Bulgarian or foreign persons, may launch complaints for non-compliance with the requirements for carrying out public procurement procedures.

34. *To the extent that this information does not fully respond to the following points, please provide the supplementary information necessary to do so:*

(i) *The time-limit to launch a complaint contained in the Agreement is "not less than 10 days" from the time when the basis of the complaint is known or reasonably should have been known. What are the limits in domestic legislation?*

The time-limit to launch of complaint is 7 days after the decision of the procuring entity on the awarding of the public procurement contract has been announced.

(ii) *What body is responsible for the challenge procedures? Is this a "court" or an "impartial and independent review body"? If the latter:*

- *How are its members selected?*
- *Are its decisions subject to judicial review?*
- *If not, how will the requirements of paragraph 6 of Article XX be taken into account?*

For appeal under the civil legal proceedings responsible body is the court and for appeal under the administrative procedure the responsible body is the upper administrative body.

(iii) *What is the applicable law by reference to which the challenge body will examine complaints?*

The court examines the complaints in accordance with the provisions of the Law on Administrative Procedures and for the matters not dealt with therein the provisions of the Civil Procedures Code are applied.

(iv) *Which rapid interim measures are provided to correct breaches of the Agreement and to preserve commercial opportunities?*

- *Do these measures include the possibility to suspend the procurement process? On what conditions?*

The Bulgarian legislation does not provide for rapid interim measures to correct breaches of the Agreement.

(v) *How do challenge procedures provide for correction of the Agreement? What types of compensation for loss or damages suffered can the challenge body order?*

Please, see the answer to (iv) above.

(vi) *Give any available information on the time-periods for the stages of the challenge process, including to obtain interim measures and a final decision.*

According to the Law on Administrative Procedures the upper administrative body takes its decision on the complaint within 14 days after the launch of the complaint, or within 30 days - if the administrative body is collective.

In case of appeal in the court the time limit for the taking of the decision is 30 days after the session in which the review of the matter has terminated.

(vii) *What are the usual costs to conduct a challenge procedure? Are there possibilities foreseen to do so free of charge?*

Under the administrative challenge procedure no fees are collected.

According to Tariff No.1 on State Fees collected by the courts for the conduction of challenge procedure a fee in the following amounts is paid by the claimant:

- (a) in case the claimant is a non-profit legal entity or natural person, excluding traders - 10 BGL;
- (b) for legal entities, excluding those under "a" and natural persons which are traders within the meaning of the Commercial Law – 50 BGL;
- (c) for claims of appeal the above fees are paid in half of the stated amount.

VII. OTHER MATTERS

35. *To what extent is information technology being used in the process of government procurement? Are notices of invitations to tender and/or notices of contract awards published electronically? Please provide the address of such electronic publications.*

The first stage of introducing the information technology in the process of public procurement in Bulgaria is the establishment of the Public Procurement Register that ensures access to the following information in Bulgarian:

- 1. decisions for initiation of procedures for awarding public procurement contracts;
- 2. invitations for participation in open or negotiated procedures for awarding public procurement contracts;
- 3. invitations for participation in the pre-qualification stage of restricted procedures;
- 4. decisions of the procuring entity referred to the lists of tenderers selected to be invited to participate in restricted procedures;
- 5. decisions on any amendments to the tender conditions, as well as decisions on cancellation of procedures for awarding public procurement contracts;
- 6. statistical data about the number of tenders submitted, eligible tenders and rejected tenders;
- 7. information for the awarded contracts;
- 8. lists of external experts that the procuring entity may use in the procedures;
- 9. any practice of the implementation of the Public Procurement Law.

The invitations for participation in open procedures and pre-qualification in restricted procedures are sent electronically by the State Gazette to the Public Procurement Register. This provides their publication on the same date both in the Public Procurement Bulletin and in the Register.

36. *Is there a contact point in your country for responding to enquiries from suppliers, other governments and the wider public relating to laws, regulations and procedures and practices regarding government procurement at the central and/or sub-central level? Please provide the address.*

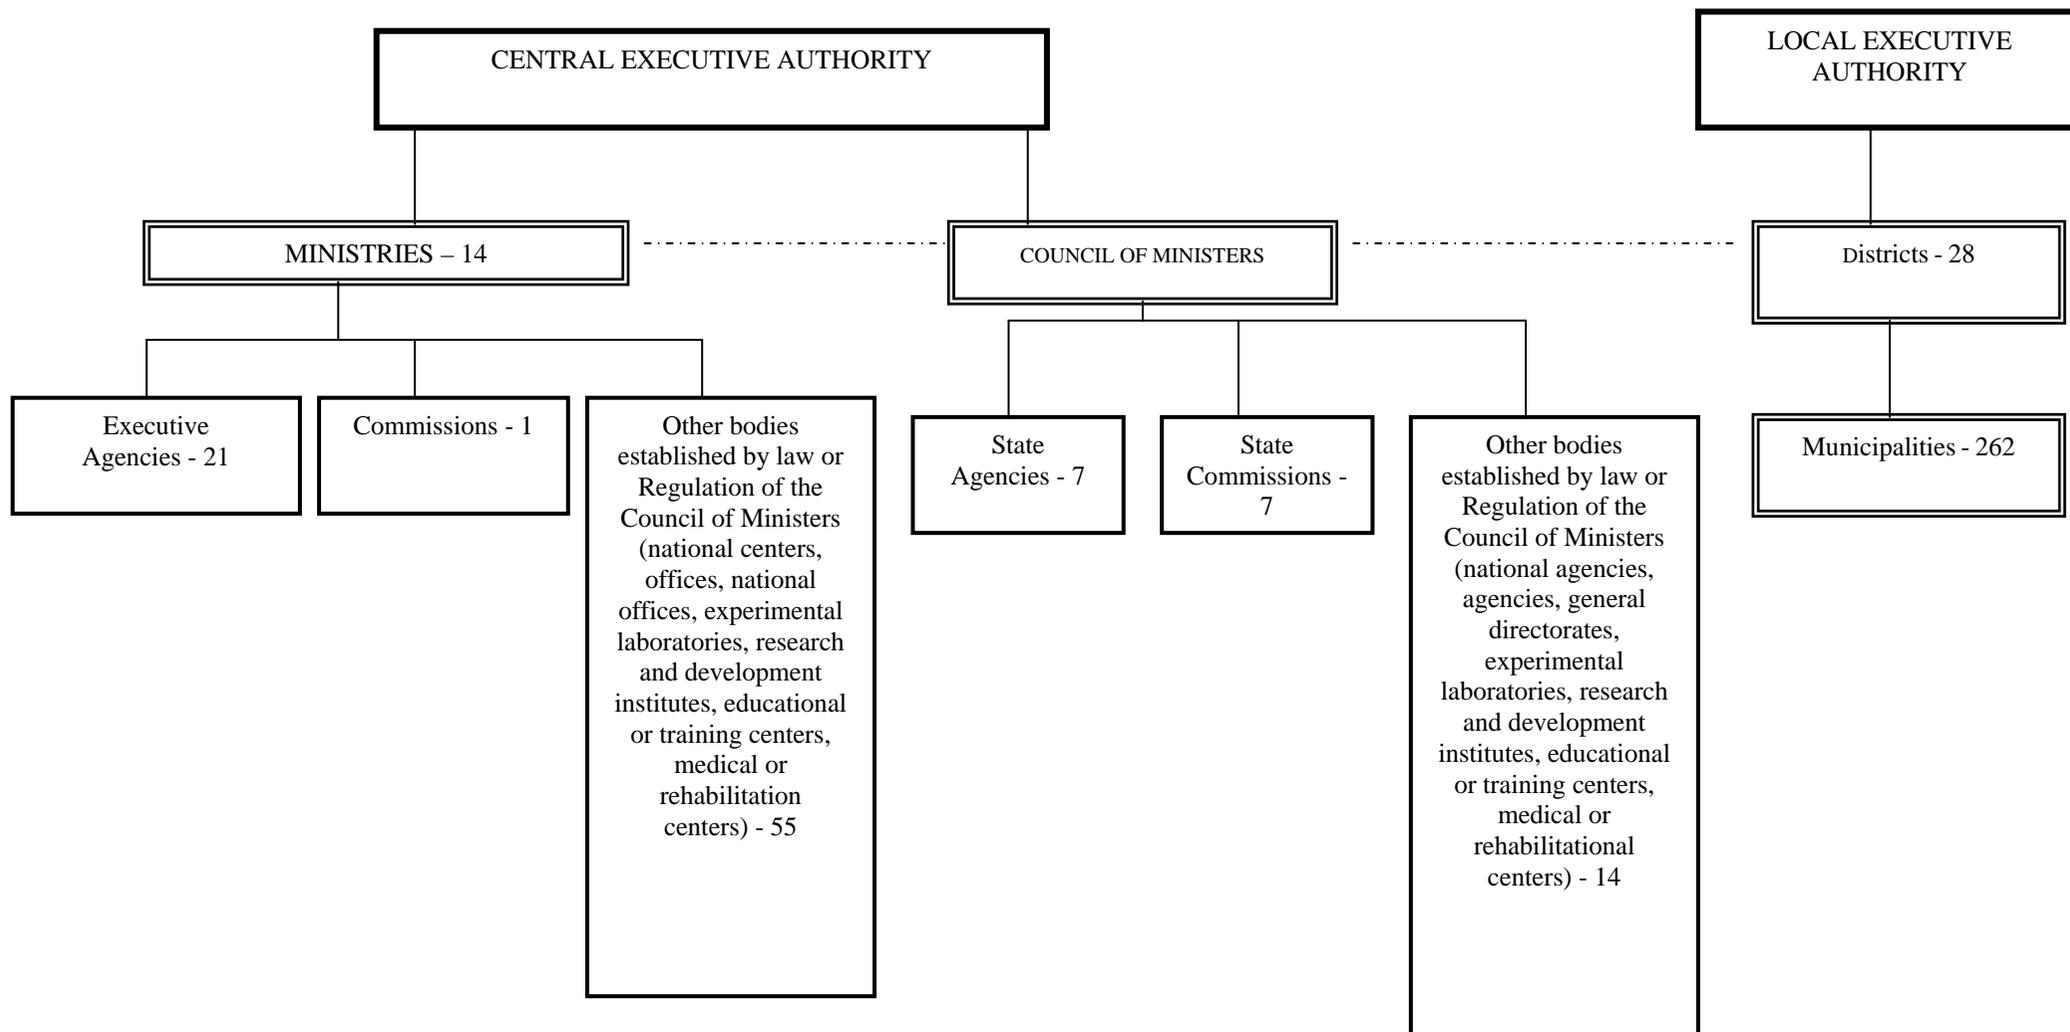

Such contact point has not been established in Bulgaria. Taking into account its functions related to the assistance of the Minister of State Administration in fulfilling his rights and obligations under the Public Procurement Law, the Public Procurement Directorate at the Council of Ministers is responsible for responding to such enquiries.

The address of the Public Procurement Directorate is as follows:

Republic of Bulgaria
1000 Sofia
1, Dondukov Blv.
Council of Ministers

Committee on Government Procurement

Original: English

JAPAN'S RESPONSES TO QUESTIONS FROM THE UNITED STATES (GPA/W/132), CANADA (GPA/W/134) AND HONG KONG, CHINA (GPA/W/135) REGARDING THE NOTIFICATION FROM JAPAN UNDER ARTICLE XXIV:6(a) (GPA/W/129)

I. QUESTIONS FROM THE UNITED STATES

1. *What is the reason for seeking to move the IAIs from Annex 1 to Annex 3? Please explain why the new IAIs cannot simply be added to Annex 1, rather than creating a complex two-tier list of entities in Annex 3.*

Until the end of last March, undertakings conducted by the 57 IAIs (Independent Administrative Institutions) which we propose to add to Annex 3, used to perform part of the responsibilities of certain central government entities in Annex 1. Starting from 1 April this year, those undertakings fall – in the context of the organizational reform of the central government - under the responsibilities of the 57 IAIs each of which forms an independent legal entity from the central government. The National Accounts Law and National Government Organization Law do not apply to those IAIs, which were established as entities to be governed by the general law on IAIs and respective laws establishing IAIs (i.e., 57 laws that stipulate the name, purpose, functions, executives and the Ministers in charge of the IAIs, etc.). Accordingly, the 57 IAIs, under domestic legislation, are not classified as central government entities mentioned in Annex 1; and we have therefore decided to add those IAIs to Annex 3.

2. *For each IAI that Japan proposes to add to Annex 3, what was the central government entity that was previously responsible for the procurement that the IAI will now conduct? Please provide a concordance table similar to the one provided by Switzerland in GPA/W/114.*

Please see Attachment 1 to this document.

3. *Do any of the IAIs have internal sub-divisions, independent organs, attached organizations, other organizations or local branch offices, as those terms are used in Note 1 to Japan's Annex 1? If so, how does Japan intend to maintain the coverage of such entities?*

All of the 57 IAIs have internal sub-divisions; and the National Youth Houses, National Children's Centres, National Agricultural Research Organization, and Fisheries Research Agency, etc., have local branch offices. Although Japan has not included in its Annex 3 such a note as Note 1 to Annex 1 since the Agreement on Government Procurement took effect, we have honestly implemented the Agreement with respect to Annex 3, by interpreting that the Agreement applies to all of the organizations related to the existing Annex 3 entities - i.e., headquarters as well as internal sub-divisions, local branch offices and others. Also, we undertake the fact that we will implement the Agreement in the same manner with respect to those IAIs to be listed in Annex 3. Thus, it is the official view of the Government of Japan that all of the relevant organizations of those IAIs are to be subject to the disciplines of the Agreement on Government Procurement, even if we would not use in Annex 3 a similar language to Note 1 to Annex 1.

4. *What specific authority does the central government have over the conduct of procurements by IAIs? Does the central government have the same degree of authority over Annex 3 entities as over Annex 1 entities?*

5. *Will a central government entity listed on Annex 1 be responsible for overseeing the procurement of each IAI? If so, please provide a list of the entities responsible for each IAI.*

Answer to Questions 4 and 5: As IAIs are legally independent from the central government, IAIs autonomously engage in internal decision-making and actual conduct of government procurement. The ministries responsible for each IAI, therefore, do not instruct nor oversee individual procurements of the IAI every time those are conducted. On the other hand, the ministries requests from the relevant IAIs the preparation of necessary accounting rules to implement the Agreement on Government Procurement, and receive, based on legislation, the report on the prepared rules (see attached the relevant provisions of the general law on IAIs). As for the list of the ministries responsible for each IAI, please refer to the attached table.

6. *What is the legal authority that would require the new IAIs to comply with the Agreement on Government Procurement?*

As IAIs are not subject to national legislation such as the Accounts Law, based on which central government entities implement the GPA, the consistency with the Agreement is ensured through each IAI setting accounting rules that provide for relevant thresholds and procedures as specified in the Agreement.

II. QUESTIONS FROM CANADA

1. *What is the reason for seeking to move the newly formed IAIs from Annex 1 to Annex 3? Please explain why the new IAIs would not be added to Annex 1 since they are successor entities for entities covered in Annex 1.*

Please refer to the answer given to the US Question 1 above.

2. *Does the Accounts Law referred to in Note 1 in the Notes to Japan's Annex 1 apply to any of the covered central government organizations that were previously performing the functions of the IAIs?*

The Accounts Law does apply to all of the central government entities listed in Annex 1. The IAIs performing - as from 1 April this year - the part of undertakings previously conducted by certain central government entities, however, are not subjected to the law.

3. *Would Japan please confirm that the revision to the General Note 3 would, if the IAIs were moved to Annex 3, result in the maintenance of the current concessions provided by Japan to Canada?*

We can confirm that this revision is to ensure the maintenance of the existing level of concessions provided by Japan to Canada, if the IAIs were listed in Annex 3.

III. QUESTIONS FROM HONG KONG, CHINA

1. *Hong Kong, China would like to request Japan to provide to the Committee more information relating to the organizational changes as well as further clarification from Japan on the obligations of those entities proposed to be added to Annex 3 vis-à-vis the obligations of the 90 undertakings originally operated by central government entities.*

Please refer to the answers given to the US questions, in particular those to Questions 1 and 2.

2. *In particular, we would welcome clarification of the obligations of those affected entities under various Articles of the Agreement on Government Procurement, including for example Articles IX, XI and XIX.*

As IAIs are not subject to national legislation such as the Accounts Law, based on which central government entities implement the Agreement on Government Procurement, the consistency with the Agreement is ensured through each IAI setting accounting rules that provide for relevant thresholds and procedures as specified in the Agreement. This arrangement applies to all of the obligations under the Agreement, including those related to Article IX, XI and XIX.

IV. CONCLUDING REMARKS

As explained above, the inclusion of the 57 IAIs in Annex 3 is based on the changes in relevant domestic legislation, which is made in the context of the organizational reform of the central government in Japan. Furthermore, we have made in our notification necessary modifications with regard to Annexes 3 and 5 and the General Notes, so that the thresholds and conditions set for central government entities in Annex 1 may be applied to the IAIs to be added to Annex 3. This rectification shall, thus, not in any way alter the existing level of mutually agreed coverage provided in the Agreement on Government Procurement. Also, all the 57 IAIs are supposed to put in place the necessary accounting rules to implement the modified thresholds and procedures that we propose under the Agreement; and needless to say, the challenge procedures as provided for in Article 20 applies to the procurement to be conducted by the IAIs.

Japan hopes that all the above clarifications will be of help for the United States, Canada and Hong Kong, China to deepen their understanding about the recent notification regarding the proposed rectification to Japan's Appendix I in relation to the treatment of the IAIs, leading to those countries' early withdrawal of their objections to the rectification.

ATTACHMENT 1

THE LIST OF THE INDEPENDENT ADMINISTRATIVE INSTITUTIONS (IAIs) AND THE CENTRAL GOVERNMENT ENTITIES IN CHARGE OF IAIs (AS OF 1 APRIL 2001)

Note:

(1) The underlined entities (1.-9. below) are the central government entities which previously performed the procurement that those IAIs as listed under their names are performing from 1 April 2001. These entities are in charge of those IAIs as listed under their names based on the respective laws establishing the respective IAIs.

(2) The information in parenthesis after the name of each IAI indicates: (a) the name(s) of the central government unit(s) which previously performed the functions of that IAI; and (b) the kind of the unit(s) under the National Government Organization Law.

(3) do.(ditto) means that the above-mentioned central government unit(s) had the same name as the corresponding IAI has now.

(4) (a), (b), (c) and (d) indicate the kind of the above-mentioned central government unit(s) according to the National Government Organization Law: (a) internal sub-divisions; (b) independent organs; (c) attached organizations and other organizations; and (d) local branch offices.

COMMUNICATION FROM HONG KONG, CHINA

The following communication, dated 24 April 2001, has been received from the Hong Kong Economic and Trade Office with the request that it be circulated to the Committee on Government Procurement.

On 19 March 2001, Japan notified a rectification of its Appendix I to the Agreement on Government Procurement (GPA). According to Japan, the rectification is necessary due to an organizational change of certain entities covered in Annexes 1 and 3, whereby 90 undertakings currently operated by central government entities will be operated by 60 Independent Administrative Institutions (IAIs). Japan proposed in the rectification to, amongst others, add 57 of the 60 IAIs to Annex 3 of Appendix I.

Hong Kong, China is concerned that the proposed rectification may go beyond rectifications, transfers or other modifications of a purely formal and minor nature as referred to in Article XXIV:6(a) of the GPA.

Hong Kong, China would like to request Japan to provide to the Committee more information relating to the organizational changes as well as further clarification from Japan on the obligations of those entities proposed to be added to Annex 3 vis-à-vis the obligations of the 90 undertakings originally operated by central government entities. In particular, we would welcome clarification of the obligations of those affected entities under various Articles of the GPA, including for example Articles IX, XI and XIX.

COMMUNICATION FROM CANADA

The following communication, dated 18 April 2001, has been received from the Permanent Mission of Canada, with the request that it be circulated to the Committee on Government Procurement.

—————

This is a response to the document GPA/W/129, dated 19 March 2001, which contains a notification from the Permanent Mission of Japan, received by the Secretariat on 9 March 2001, concerning proposed changes to Japan's Annex 3 of the Agreement on Government Procurement.

Article XXIV:6 of the Agreement on Government Procurement provides 30 days for other Parties to object to the notification. Canada considers that further information is required to assess the basis for and effect of the proposed changes.

Specifically:

1. What is the reason for seeking to move the newly formed Independent Administrative Agencies (IAIs) from Annex 1 to Annex 3? Please explain why the new IAIs would not be added to Annex 1 since they are successor entities for entities covered in Annex 1.
2. Does the Accounts Law referred to in Note 1 in the Notes to Japan's Annex 1 apply to any of the covered central government organizations that were previously performing the functions of the IAIs?
3. Would Japan please confirm that the revision to General Note 3 would, if the IAIs were moved to Annex 3, result in the maintenance of the current concessions provided by Japan to Canada?

Canada, therefore, objects to the proposed changes going into effect at the end of the 30-day period. We would appreciate Japan's response to these questions. We will review the responses and seek further clarification as required. Canada reserves the right to request consultations. We will continue to inform the Committee regarding the progress of the matter.

Committee on Government Procurement

Original: English

COMMUNICATION FROM THE UNITED STATES

The following communication, dated 9 April 2001, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

I am writing regarding the recent communication from the Permanent Mission of Japan regarding modifications to Appendix I of the Agreement on Government Procurement. This communication was circulated by the Secretariat on 19 March 2001 (GPA/W/129), providing 30 days for other parties to object prior to the modifications becoming effective.

The United States has no objection to the deletion of the National Education Center from the "List of Entities" for Annex 3 in Appendix I, on the basis of our understanding that the functions of this entity have been eliminated. The United States also has no objection to the addition of the "Government Pension Investment Fund" to the "List of Entities" for Annex 3. Further, the United States has no objection to the deletion of the "Pension Welfare Service Public Corporation" from the "List of Entities" for Annex 3, with the understanding that all of its functions have been transferred to the Government Pension Investment Fund.

However, with regard to the proposed addition of 57 Independent Administrative Institutions (IAIs) to the "List of Entities" for Annex 3 in Appendix I, the United States requires additional time to study and to seek clarification of this proposed modification.

The United States understands that these IAIs (together with three other IAIs that we understand will be created in 2002) have been assigned "90 undertakings of the government which are now operated by central government entities" that are listed in Annex 1 of Appendix I. To assist our assessment of the implications of the proposed modification, the United States requests that Japan provide responses to the following questions and requests for information:

1. What is the reason for seeking to move the IAIs from Annex 1 to Annex 3? Please explain why the new IAIs cannot simply be added to Annex 1, rather than creating a complex two-tier list of entities in Annex 3.
2. For each IAI that Japan proposes to add to Annex 3, what was the central government entity that was previously responsible for the procurement that the IAI will now conduct? Please provide a concordance table similar to the one provided by Switzerland in GPA/W/114.
3. Do any of the IAIs have internal sub-divisions, independent organs, attached organizations, other organizations or local branch offices, as those terms are used in Note 1 to Japan's Annex 1? If so, how does Japan intend to maintain the coverage of such entities?

./.

4. What specific authority does the central government have over the conduct of procurements by IAIs? Does the central government have the same degree of authority over Annex 3 entities as over Annex 1 entities?

5. Will a central government entity listed on Annex 1 be responsible for overseeing the procurement of each IAI? If so, please provide a list of the entities responsible for each IAI.

6. What is the legal authority that would require the new IAIs to comply with the GPA?

Until we have had an opportunity to review Japan's responses to these questions, the United States will be unable to agree to the proposed modification with respect to the treatment of the IAIs. Thus, the United States must object to the proposed modification taking effect upon expiration of the 30-day review period. This is, of course, without prejudice to any conclusions the United States may reach on the basis of Japan's explanations. The United States will endeavour to conduct the necessary study and consultations as expeditiously as possible, and will keep the Committee apprised as to the progress and outcome of this review.

COMMUNICATION FROM THE UNITED STATES

The following communication, dated 10 April 2001, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

I am writing in response to the recent communications from the Permanent Mission of Korea regarding proposed modifications to Appendix I of the Agreement on Government Procurement. These communications were circulated by the Secretariat on 6 March 2001 (GPA/W/128) and 13 March 2001 (GPA/W/128/Corr.1).

The United States requires additional time to study and seek clarification of these proposed modifications. To facilitate our assessment, we request that Korea provide responses to the following questions and requests for information.

1. In introducing the proposed modifications, Korea states that the changes in the names of a number of covered Annex 1 and Annex 3 entities are “purely formal in nature”. At the same time, Korea notes that those changes are “the outcome of efforts by Korea to re-organize its governmental structure and other bodies”.

For each currently listed entity, does the re-organization of Korea’s governmental structure involve the transfer of procurement functions from that entity to any entity other than the directly corresponding re-named entity listed in GPA/W/128?

If there is any such transfer of procurement functions, please provide a concordance table listing the entity that currently performs such functions and the entity that would be responsible for such functions under the proposed modifications.

2. With respect to the proposed deletion of the First Minister of Political Affairs from Annex 1, please indicate which entity would now conduct the procurement activities previously conducted by the First Minister of Political Affairs. If the procurement activities have not been transferred to another entity, please provide an explanation why.

THE LAW CONCERNING THE PROMOTION OF ECO-FRIENDLY GOODS AND SERVICES BY THE STATE AND OTHER ENTITIES (THE LAW ON PROMOTING GREEN PURCHASING)

Notification from Japan under Article XXIV:5(b) of the GPA

The following notification from the Permanent Mission of Japan was received on 30 March 2001, with the request that it be circulated to the Parties to the Agreement on Government Procurement. In accordance with Article XXIV:5(b), "each Party shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations".

Pursuant to Article XXIV, paragraph 5(b) of the WTO Agreement on Government Procurement, the Government of Japan wishes to inform the Committee on Government Procurement of the law concerning government procurement in Attachment 1.

ATTACHMENT

The Law Concerning the Promotion of Procurement of Eco-friendly Goods and Services by the State and Other Entities (The Law on Promoting Green Purchasing)

1. Agency responsible:

Ministry of the Environment

2. Description of the law:

Based on the Law Concerning the Promotion of Procurement of Eco-friendly Goods and Services by the State and Other Entities (hereinafter referred to as “the Law”), which entered into force on 6 January 2001, and the Basic Policy for the Promotion of Procurement of Eco-friendly Goods and Services (hereinafter referred to as “the Basic Policy”) adopted by the cabinet decision in February 2001, central government entities and other entities (cf. 3. below) shall draw up and publish a policy for the promotion of procurement of eco-friendly goods and services (hereinafter referred to as “procurement policy”) every fiscal year from 1 April 2001. These entities shall procure goods and services based on their procurement policy and publish the summary of the procurement track record after every fiscal year-end and submit it to the Minister of the Environment.

3. Entities which shall draw up a procurement policy

(1) State (all central government entities):

House of Representatives, House of Councillors, National Diet Library, Supreme Court, Board of Audit, Cabinet, National Personnel Authority, Cabinet Office, Imperial Household Agency, National Public Safety Commission (National Police Agency), Defense Agency, Financial Services Agency, Ministry of Public Management, Home Affairs, Posts and Telecommunications, Ministry of Justice, Ministry of Foreign Affairs, Ministry of Finance, Ministry of Education, Culture, Sports, Science and Technology, Ministry of Health, Labour and Welfare, Ministry of Agriculture, Forestry and Fisheries, Ministry of Economy, Trade and Industry, Ministry of Land, Infrastructure and Transport and Ministry of the Environment.

(2) Other entities (57 independent administrative institutions and 57 special legal entities):

The entities listed in the government ordinance determining the legal entities stipulated under Article 2, paragraph 2 of the Law as subsequently amended (cf. attached list of the entities as of 1 April 2001).

4. Contents of the said procurement policy drawn up by the entities under 3. above:

(1) Procurement targets for the designated procurement goods and services for each fiscal year

(note: “designated procurement goods and services” mean those which meet the kinds and evaluation criteria of eco-friendly goods and services for which the State and other entities under 3. above should put an emphasis on procuring. The Appendix of the Basic Policy provides 101 designated procurement items and evaluation criteria (cf. attached summary of the Basic Policy and its Appendix)

- (2) Other eco-friendly goods and services for which procurement is to be promoted in each fiscal year as well as procurement targets for those goods and services
 - (3) Other matters on the promotion of procurement of eco-friendly goods and services
5. Starting date of the procurement based on the procurement policy under 4. above:
1 April 2001

6. Treatment for local governments:

Prefectures, cities, towns and villages shall endeavour to draw up a procurement policy every fiscal year and procure goods and service based on it.

7. Compliance with the WTO Agreement on Government Procurement

The Basic Policy (mentioned in 2. above) includes the following paragraph:

“Additionally, when promoting the procurement of eco-friendly goods, etc., each entity shall give due consideration to the compliance with the WTO Agreement on Government Procurement (particularly with Article 6 (Technical Specifications)) and note that it will not create unnecessary obstacles to international trade.”

8. Legal texts

Japanese original texts of the Law, the Government Ordinance and the Basic Policy are available at the web site of the Ministry of the Environment (<http://www.env.go.jp/policy/green/index.html>)

Provisional English translations of the Law and the summary of the Basic Policy are attached hereto.

9. Inquiry point

(Provisional Translation)

Overview of the Basic Policy for the Promotion of Procurement
of Eco-Friendly Goods and Services

Basic Philosophy

1. Viewpoint of environmental conservation must be added to price and quality
2. Make selection based on diverse viewpoints, including formation of socio-economic system with environmentally sound material cycle and combating global warming
3. Give consideration to reducing environmental impact throughout the product lifecycle, from manufacture to disposal.
4. Commit to long-term use, correct utilization, and sorted disposal of procured goods, etc

Designated Procurement Items and Evaluation Criteria

1. As a rule, clear numerical criteria shall be used for selecting designated procurement items
2. Even in the case that clear numerical criteria cannot be established at the present time, however, factors that have importance with respect to reducing environmental impact shall be defined as “factors for consideration”
3. These standards shall be revised as appropriate, in response to improvements in the state of development or our scientific understanding of goods, etc.

Note – See attached summary of the Appendix for designated procurement items and evaluation criteria.

Other Important Matters

1. Central government entities and special legal entities shall establish systems for promoting procurement of eco-friendly goods, etc.
2. As a rule, the procurement policy for the promotion of procurement of eco-friendly goods and services drawn up by each entity shall be applied to all internal organizations of the entity in question
3. Each entity shall publish its procurement policy and a summary of its procurement track record (every fiscal year)
4. Establishment of a contact group for related government agencies, etc.
5. Staff training and other educational activities for promoting procurement of eco-friendly goods, etc.
6. Provision of pertinent information by the central government

APPENDIX

Designated Procurement Items and Evaluation Criteria
(Summary)

Category	Designated Procurement Items (Total 101 Items)	Evaluation Criteria
Paper	Computer paper, printing paper, hygienic paper (toilet paper)	Recycled paper content, bleaching, etc.
Purchased printed material	Purchased printed material	
Stationery	49 items, including mechanical pencils, ball-point pens, scissors, glue, files and binders	Use of recycled materials (e.g. recycled plastic, thinning wood), etc.
Office furniture	8 items, including chairs, desks, shelves, and blackboards	
Office automation machines	7 items, including copiers, computers, printers, and facsimiles	Energy consumption efficiency, etc.
Home electronic appliances	6 items, including refrigerators, air conditioners, televisions, and VTRs	
Lighting	Fluorescent lighting equipment and fluorescent light bulbs	
Vehicles	Low emission vehicles (natural gas vehicles, hybrid vehicles, etc.), and other vehicles	Exhaust emission, fuel efficiency, etc.
Uniforms and work clothes	Uniforms and work clothes	Use of polyester made from recycled materials from PET bottles, etc.
Interior fixtures and bedding	Carpets, curtains, blankets	
Work gloves	Work gloves	
Facilities	Solar power generation systems, fuel cells, solar heating systems	Use of solar energy, etc.
Public-works projects	Public-works projects: 1. Recycled materials (e.g. reconstituted wood boards, tiles, and blended cement), etc. 2. Construction machines (low emission machines, low-noise machines)	Recycled material content , emission, noise, etc.
Services	Energy conservation diagnosis	Qualification of service providers, content of diagnosis, etc

(Provisional Translation)

Law Concerning the Promotion of Procurement of Eco-friendly
Goods and Services by the State and Other Entities

(Objective)

Article 1

(1) The objective of this law shall be:

- to establish the necessary provisions (a) to encourage the State, independent administrative institutions, etc. and local governments to procure eco-friendly goods, etc.; (b) to provide information on eco-friendly goods, etc.; and (c) to encourage a shift in demand towards eco-friendly goods, etc.;
- to establish society which can enjoy sustainable development with a lower environmental impact; and
- to contribute to a sound and cultural lifestyle for citizens today and in the future.

(Definitions)

Article 2

(1) The “eco-friendly goods, etc.” mentioned in this law shall mean the goods or services which satisfy any one of the following criteria:

- (a) Recycled resources including materials or parts/components which contribute to the reduction of “environmental impact” (as provided in Article 2 (1) of the Basic Environmental Law (Law No. 91, 1993); the same shall apply hereinafter)
- (b) Products which contribute to the reduction of environmental impact on one of the following grounds:
 - materials or parts/components used in the aforementioned goods contribute to the reduction of environmental impact;
 - greenhouse gas, etc. emitted as a result of the use of the aforementioned goods do not cause a large environmental impact;
 - the whole or part of the aforementioned goods can be easily reused or recycled, so that generation of waste can be limited; and
 - others.
- (c) Services which contribute to the reduction of environmental impact, for example, services provided by utilizing products that contribute to the reduction of environmental impact.

(2) The “independent administrative institutions, etc.” mentioned in this law shall mean legal entities which meet the following criteria and determined by the government ordinance(s) for this law:

- independent administrative institutions (as provided in Article 2 (1) of [the Law for the General Rules on Independent Administrative Institutions](#) (Law No. 103, 1999) or special legal entities (legal entities that are established according to laws or with special purposes of establishment according to special laws and are subject to Article 4 (15) of the [Law for the Establishment of the Ministry of Public Management, Home Affairs, Posts and Telecommunications](#) (Law No. 91, 1999); the same shall apply hereinafter); and
- those capitals are entirely or mostly provided by the State or those expenses needed for the operation of business are derived mainly from grants or subsidies by the State.

(3) “The head of each ministry or agency” mentioned in this law shall mean the head of each ministry or agency as provided in Article 20(2) of the Public Finance Law (Law No. 34, 1947).

(Duties of the State and independent administrative institutions, etc.)

Article 3

(1) As for the procurement of goods and services (referred to as “goods, etc.” hereinafter), in order to encourage a shift in demand towards eco-friendly goods, etc., the State and independent administrative institutions, etc. shall endeavour to choose eco-friendly goods, etc. while giving consideration to the appropriate use of the budget.

(2) The State shall, through educational and public relations activities, etc., encourage businesses and citizens to deepen their understanding of the significance of a shift in demand towards eco-friendly goods, etc., and also take the necessary measures to expedite cooperation between the State, local governments, businesses and citizens to convert demand toward eco-friendly goods, etc.

(Duty of local governments)

Article 4

(1) Local governments shall endeavour to take the necessary measures to convert demand toward eco-friendly goods, etc. in accordance with the natural and social conditions of each area.

(Duties of businesses and citizens)

Article 5

(1) Businesses and citizens shall endeavour to choose eco-friendly goods, etc. as much as possible when buying or renting goods or receiving services.

(Basic policy for the procurement of eco-friendly goods, etc.)

Article 6

(1) In order to comprehensively and systematically promote the procurement of eco-friendly goods, etc. by the State and independent administrative institutions, etc., the State shall determine the

basic policy for the promotion of procurement of eco-friendly goods, etc. (referred to as “the basic policy” hereinafter).

- (2) The basic policy shall stipulate the following:
 - (a) a basic direction to be followed for the promotion of procurement of eco-friendly goods, etc. by the State and independent administrative institutions, etc;
 - (b) basic matters with regard to “ the kinds of eco-friendly goods, etc., for which the State and independent administrative institutions, etc. should put an emphasis on procuring” (referred to as “designated procurement items” hereinafter); the evaluation criteria for the designated procurement items; and the promotion of “procurement of goods, etc. that meet the said criteria”(referred to as “designated procurement goods, etc” hereinafter); and
 - (c) other important matters on the promotion of procurement of eco-friendly goods, etc.
- (3) The Minister of the Environment shall discuss with the head of each ministry or agency ,etc. (the head of each ministry or agency in the case of the State, the competent minister in the case of independent administrative institutions, etc.; the same shall apply hereinafter) in advance of drafting the basic policy, and obtain an approval of the cabinet decision.
- (4) With regard to the criteria for the designated procurement items, in light of the necessity of considering the trends, etc. of technology and demand relating to the manufacture of goods, etc. that correspond to the said designated procurement items, the Minister of the Environment shall discuss with the head of each ministry or agency, etc. as provided in the preceding paragraph, based on the draft which the Minister of the Environment has drawn up in cooperation with the minister(s) in charge of businesses, including manufacture, import and sale, etc., of the said designated procurement items.
- (5) When an approval of the cabinet decision was obtained as mentioned in paragraph (3) of this Article, the Minister of the Environment shall publish the basic policy without delay.
- (6) The provisions of the preceding three paragraphs shall be applied mutatis mutandis to revisions of the basic policy.

(Procurement policy for eco-friendly goods, etc.)

Article 7

- (1) The head of each ministry or agency and the head of each independent administrative institution, etc. (or the representative in the case of a special legal entity; the same shall apply hereinafter) shall draw up every fiscal year a policy for the promotion of procurement of eco-friendly goods, etc. in relation to the procurement of goods, etc., while taking into account the budget, activities and planned projects for the fiscal year concerned.
- (2) The policy mentioned in the preceding paragraph shall stipulate the following:
 - (a) procurement targets of the designated procurement goods, etc. for the said fiscal year
 - (b) eco-friendly goods, etc. (other than the designated procurement goods, etc.) for which procurement is to be promoted in the said fiscal year, as well as those procurement targets
 - (c) other matters on the promotion of procurement of eco-friendly goods, etc.

(3) When the policy mentioned in paragraph (1) of this Article is drawn up, the head of each ministry or agency and the head of each independent administrative institution, etc. shall publish it without delay.

(4) Based on the policy mentioned in paragraph (1) of this Article, the head of each ministry or agency and the head of each independent administrative institution, etc. shall procure goods, etc. during the fiscal year concerned.

(Publication, etc. of the summary of procurement track record)

Article 8

(1) The head of each ministry and agency and the head of each independent administrative institution, etc. shall prepare and publish, without delay after every fiscal or business year ends, a summary of its procurement track record of eco-friendly goods, etc. and submit it to the Minister of the Environment.

(2) The head of an independent administrative institution, etc. shall submit a summary of its procurement track record to the Minister of Environment as provided in the preceding paragraph, via the competent minister for the said independent administrative institution, etc.

(Request of the Minister of the Environment)

Article 9

(1) The Minister of the Environment may request the head of each ministry or agency, etc. to take measures which are deemed particularly necessary to promote the procurement of eco-friendly goods, etc.

(Promotion of the procurement of eco-friendly goods, etc. by local governments)

Article 10

(1) With regard to the procurement of goods, etc., prefectures, cities, towns and villages shall endeavour to draw up a policy every year for the promotion of procurement of eco-friendly goods, etc., while taking into account the budget, activities and planned projects, etc. for the fiscal year concerned of the said prefectures, cities, towns and villages.

(2) The policy mentioned in the preceding paragraph shall, in accordance with the natural and social conditions of the areas of the said prefectures, cities, towns and villages, provide for the eco-friendly goods, etc. for which procurement should be promoted in the fiscal year concerned, as well as those procurement targets. In this case, the necessary efforts shall be made to include the goods, etc. that are designated procurement items in the eco-friendly goods, etc. for which procurement should be promoted.

(3) When the policy mentioned in paragraph (1) of this Article is drawn up, prefectures, cities, towns and villages shall procure goods, etc. based on it during the fiscal year concerned.

(Considerations to be given when promoting the procurement of eco-friendly goods, etc.)

Article 11

(1) The State, independent administrative institutions, etc., prefectures, cities, towns and villages shall make efforts for the proper and reasonable use of even eco-friendly goods, etc., and also give due consideration so as not to increase the procurement amount of goods, etc. because of promotion of the procurement of eco-friendly goods, etc. based on this law.

(Provision of information on eco-friendly goods, etc.)

Article 12

Those who engage in the manufacture, import or sale of goods or provision of services shall endeavour to provide, in an appropriate manner, the necessary information to understand the environmental impact in relation to the said goods, etc., to those who purchase or otherwise acquire the said goods, etc.

Article 13

Those who provide the information on eco-friendly goods, etc., for example, by means of granting an authorization to the effect that the goods manufactured, imported or sold or services provided by other businesses could contribute to the reduction of environmental impact, or indicating the information of environmental impact in relation to the aforementioned goods or services, shall endeavour to provide effective and appropriate information which could contribute to convert the demand toward eco-friendly goods, etc., based on the scientific knowledge and also by paying attention to conformity with international agreements.

(Consolidation, etc. of information by the State)

Article 14

In order to contribute to the conversion of demand toward eco-friendly goods, etc., the State shall consolidate and analyse the conditions in relation to the information provided by the persons stipulated in the preceding two Articles, and subsequently provide the results.

(Provisional measures)

Article 15

In the case where an order is issued, amended or abolished in accordance with the provisions of this law, the necessary provisional measures may be determined to the extent that such measures are deemed reasonably necessary as a result of the issuance, revision or abolishment of the said order.

Supplementary Provisions

(Enforcement date)

1. This law shall take effect from 6 January 2001, provided, however, that the provisions of Articles 7, 8 and 10 shall be effective from 1 April of the same year.

(Consideration)

2. From the aspect of promoting the conversion of demand toward eco-friendly goods, etc., the government shall, while respecting the content and method of provision of the information on eco-friendly goods, etc., and also the autonomy of those who provide the information on eco-friendly goods, etc., give due consideration to the necessary measures to ensure the provision of appropriate information, as well as the ideal status of information provision system on eco-friendly goods, etc., and subsequently, take the necessary measures based on the results of these considerations.

MODIFICATIONS TO APPENDIX I OF JAPAN

Notification from Japan under Article XXIV:6(a)¹

The following notification from the Permanent Mission of Japan was received on 9 March 2001, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement of the following rectification of a purely formal nature relating to Japan's Appendix I of the Agreement.

The above-mentioned rectification is necessary as a result of the following organizational changes of central government entities in Annex 1 and two entities in Annex 3. It does not alter the level of mutually agreed coverage provided in the Agreement.

- (1) As a part of Japan's central government reform, 90 undertakings of the government which are now operated by central government entities in Annex 1 will be conducted by 60 Independent Administrative Institutions (IAIs). Under the new 60 laws establishing an individual IAI, they will be legally independent from the central government to perform their undertakings (e.g. operation of national museums, research institutes and inspection centers) more effectively, efficiently and transparently. (cf. [English website] http://www.mofa.go.jp/about/hq/central_gov/gist.html; [Japanese website] <http://www.kantei.go.jp/jp/chuo-syochu/>).

Since 57 out of 60 IAIs* are to be established and start operating on 1 April 2001, we decided to add these entities in Annex 3 regarding both supplies and services (cf. 57 underlined entities under Group B in the "List of Entities" and the "List of Entities which procure the services, specified in Annex 4" of Annex 3 of Attachment A to this document) so that the Agreement can be applied to them with the same thresholds and conditions as stipulated in Annex 1 for central government entities.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

* The remaining three IAIs will be established after 1 April 2002. In future, Japan will notify the Committee of similar rectifications of Annex 3 relating to these IAIs.

Accordingly, the necessary modifications shall be made with regard to the threshold for construction services and Note 3 in Annex 3 as well as to Annex 5 and General Notes as a result of inclusion of 57 IAIs in Annex 3 (cf. the underlined parts of the relevant pages in Attachment A).

- (2) "National Education Center" listed in Annex 3 is to be abolished on 1 April 2001 and no entity is to be established to replace it. Consequently, "National Education Center" shall be deleted from the "List of Entities" and the "List of Entities which procure the services, specified in Annex 4" of Annex 3.
- (3) "Pension Welfare Service Public Corporation" listed in Annex 3 is to be abolished on 1 April 2001 and its function is to be transferred to the "Government Pension Investment Fund". Consequently, "Pension Welfare Service Public Corporation" shall be replaced by "Government Pension Investment Fund" in the "List of Entities" and "List of Entities which procure the services, specified in Annex 4" of Annex 3.

Accordingly, pages 1/4 to 4/4 of Annex 3; page 1/1 of Annex 5; and page 1/1 of the General Notes to Appendix I of Japan in WT/Let/330 of 1 March 2000 should be rectified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the present modifications.²

² Both Attachments are in English only.

Notes to Annex 3

1. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.
2. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.
3. This Agreement shall not apply to contracts which the entities in Group A award for purposes of their daily profit-making activities which are exposed to competitive forces in markets. This note shall not be used in a manner which circumvents the provisions of this Agreement.

4. Notes to specific entities:

- (a) Procurement related to operational safety of transportation is not included.
- (b) Procurement which could lead to the disclosure of information incompatible with the purpose of the Treaty on the Non-Proliferation of Nuclear Weapons or with international agreements on intellectual property rights is not included. Procurement for safety-related activities aiming at utilization and management of radioactive materials and responding to emergencies of nuclear installation is not included.
- (c) Procurement related to geological and geophysical survey is not included.
- (d) Procurement of advertising services, construction services and real estate services is not included.
- (e) Procurement of ships to be jointly owned with private companies is not included.
- (f) Procurement of public electrical telecommunications equipment and of services related to operational safety of telecommunications is not included.
- (g) Procurement of the services specified in Annex 4, other than construction services, is not included.

ANNEX 5

Construction Services

Definition:

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All services listed in Division 51.

Threshold: 4,500 thousand SDR for entities set out in ANNEX 1;
15,000 thousand SDR for those in ANNEX 2; and
15,000 thousand SDR for those in Group A in ANNEX 3; and
4,500 thousand SDR for those in Group B in ANNEX 3.

GENERAL NOTES

1. For goods and services (including construction services) of Canada and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3 (except for those listed in Group B set out in Annex 3).
2. In case Parties do not apply Article XX to suppliers or service providers of Japan in contesting the award of contract by entities, Japan may not apply the Article to suppliers or service providers of the Parties in contesting the award of contracts by the same kind of entities.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2001-2002

KOREA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2001-2002.

The information notified by the Republic of Korea is reproduced below. Other submissions will be compiled in addenda to this document.

KOREA'S THRESHOLD CALCULATIONS IN ITS NATIONAL CURRENCY – FOR THE PERIOD 1 JANUARY 2001 TO 31 DECEMBER 2002

	Annex 1	Annex 2	Annex 3
Supplies	130,000 SDR 2000,000,000 WON	200,000 SDR 310,000,000 WON	450,000 SDR 700,000,000 WON
Services	130,000 SDR 2000,000,000 WON	200,000 SDR 310,000,000 WON	
Construction Services	5,000,000 SDR 7,800,000,000 WON	15,000,000 SDR 23,500,000,000 WON	15,000,000 SDR 23,500,000,000 WON

Method of calculation

It is the average of the monthly rate of the national currency in terms of the SDR over the two-year period from November 1998 to October 2000. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" were used for this calculation.

Notification from Korea under Article XXIV:6(a)

Corrigendum

Due to a clerical error, the notification from Korea under Article XXIV:6(a) circulated as document GPA/W/128 on 6 March 2001 should be amended as follows: In Appendix I, Annex 1 of Korea page 2/4 (pages 3 and 6 of GPA/W/128), "National Police Agency" should replace the words "National Policy Agency".

In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

* In English and French only

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

MODIFICATIONS TO APPENDIX I OF KOREA

Notification from Korea under Article XXIV:6(a)¹

The following notification from the Permanent Mission of the Republic of Korea was received on 2 March 2001 with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Pursuant to Article XXIV paragraph 6(a) of the Agreement on Government Procurement, I hereby wish to notify changes in the names of entities covered by the Agreement.

Please note that these changes in names affect in no way the balance of rights and obligations nor do they alter the level of mutually agreed coverage provided in the Agreement. Such changes are purely formal in nature, as they are the outcome of efforts by Korea to re-organize its governmental structure and other bodies.

In accordance with the procedures for future changes to the loose-leaf system for Appendices to the Agreement (GPA/W/110), pages 1/4 and 2/4 of Annex 1 and page 1/2 of Annex 3 to Appendix I of Korea in WT/Let/330 of 1 March 2000 should be rectified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² Both Attachments are in English only.

THE THRESHOLDS IN APPENDICES I AND II OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2001

SWITZERLAND

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the year 2001.

The information notified by Switzerland is reproduced below.

THRESHOLD¹ CALCULATIONS – FOR THE YEAR 2001

Annex 1

	SDRs	Converted to Sw F
Goods	130,000	248,950
Services	130,000	248,950
Construction	5,000,000	9,575,000

Annex 2

	SDRs	Converted to Sw F
Goods	200,000	383,000
Services	200,000	383,000
Construction	5,000,000	9,575,000

Annex 3

	SDRs	Converted to Sw F
Goods	400,000	766,000
Services	400,000	766,000
Construction	5,000,000	9,575,000

¹ SDR 1.0 = Sw F (Swiss francs) 2.097. The average monthly SDR to Sw F for 24 months from October 1998 through September 2000 was Sw F 2.097. This calculation is based on data published by the Swiss National Bank. The result is an increase of about 9.5 per cent (from Sw F 1.915 in 1993/94). Despite having the factual basis to do so, Switzerland considers not to increase its thresholds in Sw F for the time being. The value of the thresholds in Sw F has been expressed without value-added tax (VAT) because Switzerland excludes VAT when calculating the value of contracts.

**CHECKLIST OF ISSUES FOR PROVISION OF INFORMATION RELATING TO
ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT**

Replies by Estonia

The following communication, dated 9 January 2001, has been received from the Permanent Mission of Estonia with the request that it be circulated to Parties.

I. LEGAL FRAMEWORK

1. *Is there a single central law on procurement? If so, please specify?*

The present Public Procurement Act serves as a single central law on procurement.

2. *What are the other laws, regulations, decrees, administrative rulings, decisions, policy guidelines and other instruments governing government procurement? Please provide a summary of the subject areas dealt with by each of these instruments. Please also explain the main differences (if any) that exist between their application at the central and sub-central levels of government and at other types of entities.*

Current legal acts on government procurement in the Republic of Estonia are as follows:

1. Public Procurement Act (RT I 2000, 57, 374);
2. Regulation of the Government "Establishment of deadline for submitting bids for public procurements" (RT I 1998, 60, 958);
3. Regulation of the Government "Organization of bidding procedures for authorization of public procurements" (RT I 1998, 60, 957);
4. Government Order "Public procurement of information technology" (RT I 1997, 11, 131);
5. Regulation of the Minister of Economic Affairs "Approval of procedure and forms of invitations to tender for public procurement" (RT I 1998, 199-201, 804);
6. Regulation of Minister of Economic Affairs "Approval of the form and submission procedure of declaration for public procurement" (RT I 1998, 199-201, 805);
7. Decree of Minister of Economic Affairs "Approval of the statute of arbitration court" (RTL 1997, 40, 212);

8. Decree of Minister of Economic Affairs "Approval of the list of arbiters" (as of 6 August 1999);
9. Regulation of the Government "Public Procurement of Construction Design and Construction Works" (RT I 1997, 58, 982);
10. Competition Act (RT I 1998, 30, 410);
11. *Riigi Teataja* Act (RT I 1999, 10, 155; 1999, 57, 594);
12. Code of Administrative Court Procedure (RT I 1999, 31, 425; 1999, 96, 846).

3. *To what extent will the provisions of the Agreement be applied directly or need to be transposed into the relevant law? In the event of direct application of the Agreement over conflicting provisions of domestic law, please indicate the relevant legal basis.*

In the case of conflicting provisions of a domestic law and an international agreement ratified by Estonia's Parliament, according to Article 123 of the Constitution of the Republic of Estonia, the provisions of the international agreement have supremacy over the domestic law provisions.

II. SCOPE AND COVERAGE

4. *Please summarize the organization of the government in your country at each level.*

The Government of Estonia represents a type of a government of a unitary state and it has the administrative authority all over the territory of the state in the framework of the existing law. There are also local municipalities, which have authority to organize local life in local issues on their respective territories according to the existing law. The right to conclude international agreements as well as the responsibility for their fulfilment rests solely with the Government of the Republic of Estonia.

5. *Please list all central government entities (ministries, departments, agencies, etc.) procuring goods, services and construction services.*

§5. Contracting authority

(1) For the purposes of this Act, a contracting authority is:

- 1) a state agency, a profit-making state agency, a city or local government, or a local government agency;
- 2) a legal person in public law or a body of a legal person in public law;
- 3) a legal person in private law which is not a company and all the founders or members of which are jointly or separately the state, a local government and/or a legal person in public law;
- 4) a legal person in private law which is not a company and which, to the extent of more than 50 per cent, is financed or more than one-half of the members of the supervisory board or management board of which are appointed jointly or separately by the state, a local government and/or a legal person in public law;

- 5) an undertaking if it has received a construction work concession from a person specified in clauses 1)–4) of this subsection and enters into procurement contracts for construction work on the basis of such concession or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately finance the activities of the undertaking to the extent of more than 50 per cent, whereas holdings in the company are not deemed to be financing;
- 6) an undertaking if the state or a local government has granted a special or exclusive right to the undertaking pursuant to the Competition Act (RT I 1998, 30, 410; 1999, 89, 813; 2000, 53, 343; RT III 21, 232) and if the purchasing of things or contracting for services or construction work is necessary for the exercise of the special or exclusive right, or if the state, a local government or persons specified in clauses 2)–4) of this subsection jointly or separately hold a majority of votes or more than 50 per cent of the shares in the undertaking directly or through other persons and if the area of activity of the undertaking is either the creation or operation of permanent networks with the intention to provide services relating to the production, transportation, transmission or distribution of water, gas, electricity or thermal energy to the public, or the use of a geographic area in order to prospect for or extract fuels or enable air or water transport undertakings to use an airport, port or other terminal structure, or the operation of networks enabling the public to use services relating to railway, tramway, trolleybus or bus transport, automatic systems or cable distribution, or the creation or operation of public telecommunications networks for ensuring one or more telecommunication services.

(2) Production, transportation, transmission or distribution of water, gas, electricity or thermal energy by an undertaking to networks servicing the public is not deemed to be an activity specified in clause (1) 6) of this section if consumption of water or electricity is necessary for activities other than those specified in clause (1) 6) of this section, or if the supply of the public network depends solely on consumption by the undertaking and does not exceed 30 per cent of the average overall production of water or electricity by the undertaking during the last three years, or if production of gas or thermal energy by the undertaking results inevitably from activities other than those specified in clause (1) 6) of this section, or if the public network is supplied with a surplus of gas or thermal energy for the purposes of the economic use thereof and such surplus does not exceed 20 per cent of the average turnover of the undertaking during the last three years.

The organization of the Government of the Republic of Estonia is regulated by the Government of the Republic Act.

There are 12 ministries in Estonia, the State Chancellery and 15 county governments, as well as executive agencies and inspectorates, and their regional offices with the authority to exercise executive power.

The Republic of Estonia has the following ministries:

- (1) Ministry of Education;
- (2) Ministry of Justice;
- (3) Ministry of Defence;
- (4) Ministry of the Environment;
- (5) Ministry of Culture;
- (6) Ministry of Economic Affairs;
- (7) Ministry of Agriculture;
- (8) Ministry of Finance;
- (9) Ministry of Internal Affairs;
- (10) Ministry of Social Affairs;

- (11) Ministry of Transport and Communications;
- (12) Ministry of Foreign Affairs.

6. *What entities at the sub-central level of government (states, provinces, municipalities, etc.) procure goods and services?*

At the sub-central level, the local municipalities procure goods and services.

7. *Which are the enterprises owned or controlled by the government that are subject to the rules on government procurement? Which are the other entities or categories of entities (Annex 3-type of entities) owned and controlled by the government that engage in procurement? Specify.*

Any entities at the sub-central level of government would not be autonomous from the Government of the Republic of Estonia in implementation by them of any international agreements. The Agreement on Government Procurement has to be ratified by the *Riigikogu* before it becomes a part of Estonia's law.

8. *Do entities listed in response to questions 5, 6 and 7 apply in their procurement the main law (if one exists), other legislation provided by the federal or central level of government or are they autonomous from federal or central level of government in their procurement rules and practices? Where any of these entities are not subject to the main procurement law, please list the entities concerned and indicate which laws, regulations, etc., they are subject to. How will you government ensure the implementation of the Agreement by such entities below the central/federal government level?*

As for the purpose of government procurement, Estonia does not operate any lists of such entities. Instead, the issue is regulated through the notion of government procurement in Estonia's law. In any particular case, it will follow the rules set out in the Public Procurement Act.

9. *Are there any general exceptions from the scope of application of the national procurement rules, for instance for essential national defense or security reasons? Please provide details.*

§4. Exceptions

(1) A contracting authority is not required to apply the procedure provided for in this Act to the following:

- 1) public procurements in the case of which adherence to the procedure provided for in this Act results in the disclosure of a state secret;
- 2) contracting for water, electricity, gas, heat energy, cable distribution and telecommunications services, if such services can be provided by only one person;
- 3) purchasing of weapons, ammunition, battle equipment and training equipment related thereto, and contracting for the relating services;
- 4) contracting for arbitration or conciliation services;
- 5) contracting for financial services relating to the issue, sale, purchasing or assignment of securities or other financial documents, or contracting for services provided by the Bank of Estonia; similarly, the Bank of Estonia is not required to apply the procedure provided for in this Act to transactions the objective of which is the issue of currency, operations with the reserves of precious metals or monetary reserves administered by

the Bank of Estonia, carried out in the performance of the lawful functions of the Bank of Estonia, or procurement of things or services the main purpose of which is ensuring the security of the Bank or compliance with the confidentiality requirements established with regard to information not subject to disclosure;

- 6) contracting for scientific research unless the results of the research are used by the contracting authority in its own interests and for the purposes of its activities;
- 7) purchasing or commercial leasing of immovables, existing structures or parts thereof as movables, or rights relating thereto;
- 8) contracting for services by broadcasting organizations for the acquisition, development, production or co-production of a programme or a part thereof, and contracting for broadcasting time;
- 9) entry into an employment contract;
- 10) services which a contracting authority specified in clause 5 (1) 6) of this Act contracts from an affiliated undertaking;
- 11) purchasing of things or contracting for construction work or services, if the procurement contract is entered into by the concessionaire and the affiliated undertaking whom the concessionaire has entered in the list annexed to the tender submitted in order to obtain the concession;
- 12) purchasing of museum objects, records, data media, the rights of use thereof, services and things related thereto or information services the main purpose of which is preservation of cultural property or ensuring access to information, and the purchaser or seller of which is a library, museum or archives.

10. *Please provide available statistics on the procurement by government entities in your country in the last two years, including, to the extent available, a breakdown by entity and by categories of products and services.*

Statistics on government procurement will be available by 2002.

III. NATIONAL TREATMENT AND NON-DISCRIMINATION

11. *Identify the specific provisions in the legislation which reflect the national treatment and non-discrimination commitments of Article III of the Agreement.*

There are no specific provisions in the legislation, which directly reflect the national treatment and non-discrimination commitments of Article III of the Agreement. However, the Public Procurement Act does not contain any provisions that limit the rights of the foreign tenderers in comparison to the domestic tenderers.

The above statement is corroborated by the principle provided for in §6 of the Public Procurement Act.

§6. Equal treatment of persons

A contracting authority shall treat all persons participating in a public procurement tendering procedure (hereinafter tenderers) equally.

12. *Please provide details of any provisions in national legislation according domestic supplies and suppliers treatment more favourable than that accorded to foreign supplies or suppliers or according supplies or suppliers of any country more favourable treatment than those of any other country.*

There are no provisions in the legislation according the domestic supplies and suppliers treatment more favourable than that accorded to foreign supplies and suppliers or according supplies or suppliers of any country more favourable treatment than those of any other country.

13. *Please provide details of any provisions in national legislation allowing a locally established supplier to be treated less favourably than another locally established supplier on the basis of its degree of foreign affiliation or ownership or discriminating against locally established suppliers on the basis of the country of production of the good or services being supplied.*

There are no provisions in national legislation allowing a locally established supplier to be treated less favourably than another locally established supplier on the basis of its degree of foreign affiliation or ownership or discriminating against locally established suppliers on the basis of the country of production of the good or service being supplied.

14. *Please specify to what extent, if at all, more favourable treatment is granted to any sectors of the economy, regions or specific categories of suppliers or supplies.*

There are no provisions granting more favourable treatment to any sectors of economy, regions or specific categories of suppliers or supplies.

15. *Please specify any provisions requiring or allowing the use of offsets or measures with similar effect, such as domestic content, licensing of technology, investment, counter-trade or similar requirements in the qualification or selection of suppliers, products or services or in the evaluation of tenders and award of contracts.*

There are no provisions requiring or allowing the use of offsets, such as domestic content, licensing of technology, investment, counter trade or similar requirements in the qualification or selection of suppliers, products or services or in the evaluation of tenders and award of contracts.

IV. ELEMENTS SPECIFIC TO PROCUREMENT PROCEDURES

16. *Please provide a general description of your existing procurement methods and procedures, including the main procurement methods used and a brief description of each method, and the extent to which qualification of suppliers and open, selective and limited tendering for each level of government is used.*

§54. Open tendering procedure

(1) Contracting authorities shall use open tendering procedures. The use of other tendering procedures is permitted only in the cases provided for in this Act.

(2) A contracting authority shall invite all interested persons to participate in an open tendering procedure by publishing an invitation to tender.

(3) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of invitation-to-tender documents and the tenderer's need to contact the contracting authority in order to access the supporting documents or the construction site.

(4) A contracting authority shall issue invitation-to-tender documents to persons interested in participating in an open tendering procedure during the period between publication of the invitation to tender and the first due date for submission of tenders, within three working days after receipt of the corresponding application.

§55. Restricted tendering procedure

(1) Contracting authorities may use restricted tendering procedures instead of an open tendering procedure.

(2) In a restricted tendering procedure, the contracting authority shall select qualified tenderers on the basis of the financial status and technical capacity of the applicants, and submit invitation-to-tender documents simultaneously to all qualified tenderers.

(3) A contracting authority may predetermine the number of tenderers participating in a restricted tendering procedure on the condition that:

- 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than five and the maximum not more than 20;
- 2) the number of tenderers is determined on the basis of the nature of the things to be purchased or construction work or services to be contracted for;
- 3) the number of tenderers participating in the tendering procedure is determined in the invitation to tender;
- 4) the number of tenderers participating in the tendering procedure is sufficient for ensuring competition.

(4) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of invitation-to-tender documents and the tenderers' need to access the supporting documents or the construction site.

§56. Negotiated tendering procedure with public notice

(1) A contracting authority may use a negotiated tendering procedure with public notice if:

- 1) all tenders were rejected in an open tendering procedure or restricted tendering procedure on the grounds provided for in subsection 43 (4) or 44 (1) of this Act or if such tendering procedure was terminated pursuant to clause 8 4) or 5) of this Act and the initial terms and conditions of the public procurement were not substantially altered;
- 2) due to the nature of the public procurement or the possible risks involved, it is not possible to determine the estimated value of the public procurement in advance;
- 3) due to the nature of the services to be contracted, especially services concerning intellectual property and insurance or banking and investment services, it is not possible to determine the specific terms and conditions of the public procurement with sufficient accuracy in order to find a successful tender in an open tendering procedure or restricted tendering procedure;

- 4) the things to be purchased or services to be contracted shall be used purely for purposes of scientific research, experimental study or development;
- 5) the object of the public procurement is a construction work concession.

(2) In a negotiated tendering procedure with public notice, the contracting authority shall select qualified tenderers on the basis of the financial status and technical capacity of the applicants, and submit invitation-to-tender documents simultaneously to all qualified tenderers.

(3) A contracting authority may predetermine the number of tenderers participating in a negotiated tendering procedure with public notice on the condition that:

- 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than three;
- 2) the number of tenderers participating in the tendering procedure is sufficient for ensuring competition.

§57. Negotiated tendering procedure without public notice

(1) Contracting authorities may use restricted tendering procedures without public notice if:

- 1) rapid completion of the public procurement is necessary due to unforeseeable events in order to save the life or health of a person or property of substantial value or prevent damaging human life or health or property of substantial value or spread of environmental damage, or it is necessary due to national defence reasons, and the use of other tendering procedures is not possible due to time constraints;
- 2) additional things the value of which equals or exceeds an international value threshold are purchased from the initial tenderer in order to either partially replace or supplement the things purchased previously and a change of tenderer would entail the purchasing of things which are technically incompatible with the things purchased earlier or the use of which would cause disproportionate additional costs;
- 3) additional things the value of which is lower than an international value threshold are purchased from the initial tenderer in order to either partially replace or supplement the things purchased previously and a change of tenderer would entail the purchasing of things which are technically incompatible with the things purchased earlier or the use of which would cause disproportionate additional costs, whereas such additional things may be purchased during three years after the end of the initial tendering procedure;
- 4) the construction work or services to be additionally contracted were not included in the initial public procurement but have, due to unforeseen circumstances, become necessary, on the condition that the additional procurement contract is entered into with the same tenderer and due to technical or financial reasons such additional construction work or services cannot be separated from the initial procurement without causing disproportionate costs to the parties to the procurement contract and the additional construction work or services are directly necessary in the later stages of performing the procurement contract and the total value of the contracts for additional construction work or services equals or exceeds an international value threshold and does not exceed 50 per cent of the total value of the initial public procurement;

- 5) the construction work or services to be additionally contracted were not included in the initial public procurement but have, due to unforeseen circumstances, become necessary, on the condition that the additional procurement contract is entered into with the same tenderer and due to technical or financial reasons such additional construction work or services cannot be separated from the initial procurement without causing disproportionate costs to the parties to the procurement contract and the additional construction work or services are directly necessary in the later stages of performing the procurement contract and the total value of the contracts for additional construction work or services is lower than an international value threshold and does not exceed 20 per cent of the total value of the initial public procurement;
 - 6) in the absence of a suitable alternative or substitute, things can be purchased or services or construction work contracted for only from one particular tenderer due to artistic reasons or reasons connected with the protection of exclusive rights like patents or copyrights or, in the absence of competition, due to technical reasons;
 - 7) new construction work is contracted for which consists in repeating similar construction work performed on the basis of a procurement contract entered into by the same contracting parties as a result of an open tendering procedure conducted earlier, on the condition that such construction work complies with the initial project on the basis of which the procurement contract was entered into;
 - 8) things are purchased or services are contracted for under especially favourable conditions if such conditions are available only for a very limited period of time and if such conditions allow for purchasing of things or contracting for construction work for a price which is substantially lower than the usual market price;
 - 9) things are purchased on the commodity exchange;
 - 10) the procurement contract is entered into with the winner of a competition for ideas conducted pursuant to the provisions concerning open tendering procedures provided for in this Act;
 - 11) no suitable tenders were submitted in an opening tendering procedure, restricted tendering procedure or negotiated tendering procedure with public notice, on the condition that the initial tendering conditions have not been substantially altered;
 - 12) things are purchased or services contracted for only for conducting investigations or experiments or for scientific or development purposes and not in order to receive benefits therefrom, or for covering the corresponding expenses, on the condition that such purchasing of things or contracting for services does not prejudice competition in the conclusion of subsequent contracts for similar purposes;
 - 13) the estimated value of the public procurement is up to EEK 200,000 in the case of purchasing of things or contracting for services or up to one million kroons in the case of contracting for construction work.
- (2) In a negotiated tendering procedure without public notice, the contracting authority may negotiate with as many tenderers as the contracting authority considers necessary.
- (3) In a negotiated tendering procedure without public notice, the contracting authority shall send invitations to tender or invitation-to-tender documents simultaneously to all selected tenderers.

(4) In a negotiated tendering procedure without public notice, the contracting authority shall send a notice concerning the negotiated tendering procedure without public notice to the register and the notice shall set out at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if a registry code exists;
- 2) the subject of the public procurement according to the standard classification of public procurements, and the characteristics of the public procurement;
- 3) the name, position and details of the person responsible for the public procurement;
- 4) the estimated value of the public procurement;
- 5) the due date for the completion of the public procurement;
- 6) the names, addresses and other details of the tenderers participating in the negotiated tendering procedure without public notice, and the registry codes thereof if the registry codes exist.

(5) The formal requirements for notices concerning negotiated tendering procedures without public notice and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§58. Special rules

(1) Contracting authorities specified in clause 5 (1) 6) of this Act may use a negotiated tendering procedure with public notice instead of an open tendering procedure or restricted tendering procedure.

(2) In the case of procurement contracts the estimated value of which equals or exceeds an international value threshold, the contracting authorities specified in clause 5 (1) 6) of this Act may use a negotiated tendering procedure without public notice if:

- 1) the contracting authority selects the tenderers from among tenderers qualified pursuant to the qualification system provided for in §37 of this Act; and
- 2) the contracting authority has published a prior notice for purchasing of things or contracting for construction work or services and has indicated in the notice that in the case of a restricted tendering procedure or negotiated tendering procedure with public notice the procurement contract will be entered into without the publication of a further invitation to tender and persons are invited to submit written notices concerning their interest towards participation in the tendering procedure and no applications for participation in the tendering procedure have been submitted.

§59. Competition for ideas

(1) Contracting authorities shall organize competitions for ideas pursuant to the provisions concerning open tendering procedure or restricted tendering procedure provided for in this Act.

(2) Legal persons in private law, legal persons in public law and natural persons may participate in competitions for ideas.

- (3) A notice announcing a competition for ideas shall contain at least the following information:
- 1) the name, address and other details of the contracting authority, and the registry code thereof if a registry code exists;
 - 2) the names of the members of the committee;
 - 3) the subject and characteristics of the competition for ideas;
 - 4) the requirements for participants in the competition for ideas;
 - 5) the awards of the competition for ideas;
 - 6) the requirements for the projects;
 - 7) the evaluation criteria for the projects;
 - 8) the place, due date and time for the submission of projects.
- (4) A contracting authority may restrict the number of participants in a competition for ideas on the basis of explicit and non-discriminatory criteria. A contracting authority shall determine the number of participants in a competition for ideas pursuant to the requirement of sufficient competition.
- (5) The committee of a competition for ideas shall consist of persons independent of the participants in the competition. If certain professional qualifications are required from participants in a competition for ideas, at least one-third of the members of the committee of the competition must have the same or similar qualifications.
- (6) A contracting authority shall authorize the committee of a competition for ideas to organize the competition and ascertain the winners.
- (7) The committee of a competition for ideas shall be independent in its decisions and opinions. Decisions and opinions concerning anonymous projects shall be made only on the basis of the criteria set out in the notice announcing the competition for ideas.
- (8) The formal requirements for a notice announcing a competition for ideas and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§60. Electronic public procurement

- (1) Contracting authorities have the right to conduct public procurement through the corresponding websites.
- (2) Requirements for the websites specified in subsection (1) of this section and the list of the websites shall be established by the Minister of Economic Affairs.

17. *Identify the provision in your country's legislation requiring non-discrimination as regards the qualification of suppliers in terms of Article VIII and selection of suppliers in terms of Article X. Indicate any exception to this requirement. What are the provisions ensuring non-discriminatory access of new suppliers to existing qualification lists?*

§12. Removal of tenderer from tender

A contracting authority has the right to remove a tenderer from a tender at any time if it becomes evident that the information submitted about the qualifications of the tenderer is false or inaccurate.

§30. Qualification of tenderers

- (1) Contracting authorities are required to verify the qualifications of the tenderers.
- (2) In the case of an open tendering procedure, the contracting authority shall verify the qualifications of the tenderers before reviewing the contents of the tenders.
- (3) In the case of a restricted tendering procedure or negotiated tendering procedure with public notice, the contracting authority shall verify the qualifications of an applicant before issuing the invitation-to-tender documents to the tenderer. A tenderer who has submitted a tender may be subsequently disqualified only if the contracting authority becomes aware of new circumstances.
- (4) In the case of a negotiated tendering procedure without public notice, the contracting authority shall verify the qualifications of a tenderer before or after submitting the invitation to tender.
- (5) The qualifications of tenderers who submit a joint tender shall be verified separately, whereas:
 - 1) the indicators resulting from adding the corresponding indicators of the tenderers shall comply with the requirements set out in the invitation-to-tender documents;
 - 2) in the case of a joint tender submitted upon contracting for construction work with the estimated value of more than three million kroons, the corresponding indicators of one tenderer shall, in addition to the provisions of clause 1) of this subsection, comply with at least 40 per cent of the requirements specified in the invitation-to-tender documents.

§31. Verification of qualifications of tenderers

- (1) In order to verify the qualifications of a tenderer, the contracting authority is required to request submission of documents confirming that:
 - 1) the financial status and technical competence of the tenderer comply with the specified requirements;
 - 2) the tenderer is solvent, the tenderer's assets are not sequestered, and no liquidation or bankruptcy proceeding has been initiated with respect to the tenderer;
 - 3) the tenderer has performed all of the tenderer's obligations regarding state and local taxes and compensation for damage caused by pollution;
 - 4) the tenderer has, during the last three years, performed all public procurement contracts as required.

(2) A contracting authority may only require a tenderer to submit information necessary for verifying the qualifications of the tenderer, and shall take into consideration the legitimate interests of the tenderer relating to the protection of the business secrets thereof.

§32. Enrolment of tenderer in commercial or professional register

(1) A contracting authority may require a tenderer to prove that the tenderer is entered in a commercial or professional register according to the laws of the home country of the tenderer, or to submit confirmation that the tenderer has taken a corresponding oath of office.

(2) If a tenderer is required to hold an activity licence or be a member of a corresponding organization in order to perform a public procurement in the home country of the tenderer or in Estonia, the contracting authority may require the tenderer to submit proof concerning such activity licence or membership.

§33. Financial status of tenderer

(1) In order to verify whether the financial status of a tenderer meets the requirements set by the contracting authority, the latter may require submission of one or several of the following documents:

- 1) the balance sheet or an extract from the balance sheet, if publication of the balance sheet is required under the law of the home country of the tenderer;
- 2) data concerning the total turnover of the tenderer during the last three financial years;
- 3) data concerning the turnover of the tenderer during the last three financial years as concerns the object of the public procurement in question;
- 4) data concerning the social tax paid by the tenderer during the last three financial years;
- 5) in the case of contracting for services, confirmation concerning the corresponding professional liability insurance.

(2) If submission of documents specified in subsection (1) of this section is not possible, the contracting authority may require the tenderer to submit other data and documents necessary for assessing the financial status of the tenderer.

(3) If, for good reason, a tenderer is unable to submit the documents required by the contracting authority, the tenderer may prove the financial status thereof by any other documents accepted by the contracting authority.

§34. Technical competence of tenderers

(1) In order to assess the technical competence of a tenderer, the contracting authority shall, depending on the nature, amount and purpose of the things to be purchased or construction work or services to be contracted, require submission of one or several of the documents listed in subsections (2)–(4) of this section.

(2) In the case of purchasing of things, the contracting authority may require a tenderer to submit:

- 1) a list of procurement contracts, if any, performed during the last three years, together with the values, due dates and indication of contracting authorities;

- 2) a description of the technical capacity, measures for ensuring quality, and research and scientific capacity of the tenderer, accompanied, if necessary, by proof;
- 3) information concerning the technicians or technical units whom the tenderer intends to use in the performance of the public procurement contract;
- 4) samples, descriptions or photographs of the things being purchased, whereas the authenticity thereof shall be proved if the contracting authority so requires;
- 5) documents to prove that the things comply with specific regulations or standards.

(3) In the case of contracting for construction work, the contracting authority may require a tenderer to submit:

- 1) proof of the professional qualifications of the tenderer's specialists and persons responsible for performing the construction work;
- 2) a list of construction work, if any, performed during the last three years and data concerning the value, time, site and contracting authorities of the construction work and confirmation that the construction work was performed properly and according to good building practice;
- 3) the tenderer's statement of the tools, equipment and machinery necessary for performing the construction work;
- 4) a statement of the average number of employees of the tenderer during the last three years;
- 5) information concerning the technicians or technical units whom the tenderer intends to use in the performance of the construction work;
- 6) a statement of the measures for ensuring quality, used by the tenderer;
- 7) data concerning the subcontractors which the tenderer intends to use in the performance of the procurement contract.

(4) In the case of contracting for services, the contracting authority may require a tenderer to submit:

- 1) proof of the professional qualifications of the tenderer's specialists and persons responsible for providing the services;
- 2) a list of the main services, if any, provided during the last three years, and documents indicating the value, time of provision and the contracting authorities of the services;
- 3) information concerning the technicians or technical units whom the tenderer intends to use in the provision of the services;
- 4) a statement of the average number of employees of the tenderer during the last three years;
- 5) a statement of the tools, equipment and machinery necessary for the provision of the services;

- 6) a description of the technical capacity, measures for ensuring quality, and research and scientific capacity of the tenderer, accompanied, if necessary, by proof;
- 7) data concerning the subcontractors which the tenderer intends to use in the performance of the procurement contract.

§35. Removal of tenderer from tender

(1) A contracting authority is required to exclude a tenderer from a tender at any time if it becomes evident that the tenderer has submitted false information or falsified documents.

(2) A tenderer is disqualified if:

- 1) the tenderer is bankrupt or undergoing liquidation, the business activities thereof are suspended or it is in any other similar situation arising from the law of the corresponding state;
- 2) bankruptcy proceedings, compulsory liquidation or other similar proceedings arising from the laws of the corresponding state have been initiated with regard to the tenderer;
- 3) the tenderer has not performed the obligations regarding state or local taxes or compensation for damage caused by pollution;
- 4) according to a court judgment which has entered into force, the tenderer has, during the last three years, failed to perform as required a procurement contract entered into with the tenderer as a result of a tendering procedure;
- 5) the tenderer has failed to submit the data or documents required by the contracting authority on the basis of this Act.

(3) In the cases listed in clauses (2) 1)–4) of this section, documents issued by a competent institution are considered as acceptable proof.

(4) If the home country of a tenderer does not issue the relevant documents, they may be replaced by a declaration made by the person concerned before a notary or other such competent official of the home country of the tenderer.

§36. Registration of tenderers

(1) A tenderer whose seat is within a State Party to the European Economic Area Agreement, may, in order to prove the qualifications of the tenderer according to the requirements provided for in clauses 31 (1) 1) and 2) and §32 of this Act, provide the contracting authority with a registration certificate issued by a competent body of the home country of the tenderer concerning the enrolment of the tenderer in the official list of tenderers. A registration certificate shall contain references to the basis for registration and the classification of the tenderer.

(2) A contracting authority may require all tenderers registered in an official list to submit additional confirmation concerning payment of social tax in addition to the registration certificate specified in subsection (1) of this section.

§37. System for qualifying tenderers

- (1) A contracting authority may establish a system for qualifying tenderers, based on objective criteria and the provisions of this Act.
- (2) Contracting authorities who establish a system for qualifying tenderers based on qualification criteria and rules shall ensure that it is possible, at all times, for interested persons to:
 - 1) access the criteria and rules for qualifying tenderers, whereas interested persons shall be notified of amendments to such criteria or rules;
 - 2) apply for qualification.
- (3) A contracting authority may use lists of qualified tenderers compiled by other persons, on the condition that the qualification systems used are in accordance with the requirements of the contracting authority and the provisions of this Act. In such case, the contracting authority shall notify interested persons of the names of the persons who compiled the lists of qualified tenderers.
- (4) A contracting authority shall inform applicants of the decision concerning qualification. If the decision concerning qualification cannot be made within two months, the contracting authority shall inform applicants within two weeks after submission of the applications of the reasons for delay and notify the applicants of the date on which the decision is to be made.
- (5) Tenderers or applicants who were disqualified shall be informed of the corresponding decision and grounds for disqualification. Grounds for disqualification shall be based on criteria for qualifying tenderers, specified in subsection (2) of this section.
- (6) A contracting authority shall not require tenderers to submit documents or certificates which duplicate documents already submitted to such contracting authority.
- (7) Written records shall be kept of qualified tenderers. The corresponding list may be subdivided into categories according to the object of public procurement to which the qualification applies.
- (8) Contracting authorities may disqualify of a tenderer only on grounds arising from criteria for qualification specified in subsection (2) of this section. A tenderer shall be notified of disqualification and the reason therefor shall be indicated.
- (9) A contracting authority shall submit a notice concerning establishment of a system for qualifying tenderers to the register and the notice shall contain at least the following information:
 - 1) the name, address and other details of the contracting authority, and the registry code thereof if a registry code exists;
 - 2) the time of establishing the criteria and rules for qualifying tenderers;
 - 3) the place and time for accessing the criteria and rules for qualifying tenderers.
- (10) The formal requirements for the notice specified in subsection (9) of this section and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

18. *In situations where qualification procedures and selective tendering may be used, to what extent do entities allow suppliers to become qualified during the procurement process? To what extent do entities maintain permanent lists of suppliers?*

There are no provisions regulating the use of permanent lists of suppliers or the selection of suppliers on a contract-by-contract basis in the current Public Procurement Act.

19. *What are the conditions and circumstances foreseen in your legislation allowing the use of the limited tendering method under Article XV of the Agreement? What measures exist in order to ensure that this method is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discriminating among foreign supplies/suppliers or in favour of domestic supplies/suppliers?*

§55. Restricted tendering procedure

(1) Contracting authorities may use restricted tendering procedures instead of an open tendering procedure.

(2) In a restricted tendering procedure, the contracting authority shall select qualified tenderers on the basis of the financial status and technical capacity of the applicants, and submit invitation-to-tender documents simultaneously to all qualified tenderers.

(3) A contracting authority may predetermine the number of tenderers participating in a restricted tendering procedure on the condition that:

- 1) in the case of procurement contracts the value of which equals or exceeds an international value threshold, the minimum number of tenderers is not less than five and the maximum not more than 20;
- 2) the number of tenderers is determined on the basis of the nature of the things to be purchased or construction work or services to be contracted for;
- 3) the number of tenderers participating in the tendering procedure is determined in the invitation to tender;
- 4) the number of tenderers participating in the tendering procedure is sufficient for ensuring competition.

(4) In determining the due date for submission of tenders, the contracting authority shall take into account the value and complexity of the public procurement, the volume of invitation-to-tender documents and the tenderers' need to access the supporting documents or the construction site.

20. *Article XIV of the Agreement allows for negotiation under certain conditions. Are entities allowed to proceed to negotiations? If so, which categories and what are the conditions imposed?*

§9. Confidentiality

(1) A contracting authority shall not disclose information received from tenderers or from persons applying for participation in a tendering procedure (hereinafter applicant) concerning their business activities, nor the contents of the tenders or negotiations unless otherwise provided by this Act.

§51. Negotiations

(1) In negotiated tendering procedures with public notice or negotiated tendering procedures without public notice, the contracting authority has the right to decide whether and to which extent to negotiate with the tenderers.

(2) Negotiations are prohibited in open tendering procedures and restricted tendering procedures. Contracting authorities shall not forward information received in negotiations to other tenderers.

21. Article XI sets out the minimum time-periods for tendering and delivery. What are the rules and practices regarding time-periods in your legislation? Does the legislation reflect the various minimum time-periods as set out in the Agreement? If not, give information on any different time-periods which have been established in your national legislation.

§40. Term for submission of tenders and applications for participation in tendering procedure

(1) In open tendering procedures, the period of time between the publication of an invitation to tender and the due date for submission of tenders shall be, in the case of procurement contracts the value of which:

- 1) is lower than an international value threshold, not less than 30 days;
- 2) equals or exceeds an international value threshold, generally not less than 52 days or not less than 36 days, whereas due to time constraints or in simpler cases not less than 22 days, if the contracting authority has, in the prior notice, indicated all necessary information concerning the open tendering procedure which is known at the time, on the condition that the prior notice was published at least 52 days but not more than 12 months before publication of the invitation to tender.

(2) In restricted tendering procedures, the period of time between the publication of the invitation to tender and the due date for submission of applications for participation in the tendering procedure shall be, in the case of procurement contracts the value of which:

- 1) is lower than an international value threshold, not less than 30 days;
- 2) equals or exceeds an international value threshold, generally not less than 37 days or not less than 15 days in cases where time constraints render compliance with the requirement of 37 days impossible.

(3) In negotiated tendering procedures with public notice, the period of time between the publication of the invitation to tender and the due date for submission of applications for participation in the tendering procedure shall be, in the case of procurement contracts the estimated value of which:

- 1) is lower than an international value threshold, not less than 30 days;
- 2) equals or exceeds an international value threshold, generally not less than 37 days or not less than 15 days in cases where time constraints render compliance with the requirement of 37 days impossible, or not less than 52 days if the procurement contract to be negotiated is a construction work concession contract.

(4) In restricted tendering procedures, the period of time between the issue of the invitation-to-tender documents and the due date for submission of tenders shall be, in the case of procurement contracts the estimated value of which:

- 1) is lower than an international value threshold, not less than 30 days;
- 2) equals or exceeds an international value threshold, not less than 40 days, or not less than 26 days if the contracting authority has, in the prior notice, indicated all information necessary for the restricted tendering procedure which is known at the time, on the condition that the prior notice was published at least 52 days but not more than 12 months before the notice of the restricted tendering procedure, or not less than 10 days in cases where time constraints render compliance with the requirement of 40 or 26 days impossible, or not less than 24 days in the case of contracting authorities specified in clause 5 (1) 6) of this Act if the contracting authority does not reach an agreement with the selected tenderers concerning a shorter time limit, on the condition that all tenderers are afforded the same amount of time for the preparation and submission of tenders.

(5) A contracting authority may extend the term for submission of tenders or applications for participation in a tendering procedure and change the date of opening the tenders. A contracting authority shall send a notice concerning extension of a term or a change in the date of opening of tenders to all persons who received an invitation to tender or invitation-to-tender documents.

22. *Briefly describe the procedures for the submission, receipt and opening of tenders and awarding of contracts, in particular the procedures and conditions guaranteeing regularity of the openings and consistency with the non-discrimination provisions of the Agreement. How is the information on the proceedings related to the receipt, opening and evaluation of tenders maintained by entities?*

§39. Submission, amendment and withdrawal of tenders

- (1) A tender shall comply with the requirements set out in the invitation-to-tender documents and shall be in no way misleading.
- (2) A tender shall be submitted in writing and in a sealed envelope.
- (3) The contracting authority shall provide a tenderer with a certificate concerning receipt of a tender and the date and time of receipt of the tender shall be indicated in the certificate.
- (4) Tenderers may submit a joint tender if such opportunity is prescribed in the invitation-to-tender documents.
- (5) A tenderer may amend a tender by submitting a new tender or withdraw a tender, whereas the corresponding written notice shall be submitted to the contracting authority before the due date for submission of tenders.

§42. Opening of tenders

- (1) Tenders shall be opened at the place and time specified in the invitation-to-tender documents or, in the case of extension of the tender validity period, at the time specified by the contracting authority.
- (2) All tenderers have the right to participate in the opening of tenders personally or through their authorized representatives.
- (3) The names and addresses of the tenderers and the tender prices shall be made known at the opening of the tenders. A corresponding report on the opening of the tenders shall be prepared.

(4) A report on the opening of tenders shall be sent to the tenderers within three working days after the opening of the tenders.

§43. Declaration of suitability of tenders and rejection of tenders

(1) Contracting authorities shall verify the compliance of submitted tenders with the requirements set out in the invitation-to-tender documents.

(2) A tender shall be declared suitable if it complies with all the requirements set out in the invitation-to-tender documents.

(3) A tender may be declared suitable if it contains no substantive deviations from the conditions set out in the invitation-to-tender documents.

(4) A contracting authority shall reject a tender if:

- 1) the tenderer is not qualified pursuant to the provisions of this Act;
- 2) the tender does not comply with the requirements set out in the invitation-to-tender documents.

(5) A notice concerning declaration of a tender as suitable or rejection of a tender, and the reasons therefor shall be sent to the tenderer in writing within three working days after the making of the corresponding decision.

§44. Rejection of all tenders

(1) A contracting authority may reject all tenders before entry into a procurement contract if the invitation-to-tender documents prescribe such possibility and the grounds therefor.

(2) A contracting authority shall immediately send a notice concerning rejection of all tenders to all tenderers to whom invitation-to-tender documents were issued.

(3) At the request of a tenderer, the contracting authority shall notify the tenderer of the grounds for rejection of all tenders.

(4) Upon rejection of all tenders, the contracting authority shall refund the fee charged from tenderers for the invitation-to-tender documents.

§45. Comparison and evaluation of tenders

(1) A contracting authority shall compare and evaluate all tenders which have not been rejected. In the comparison and evaluation of tenders, only the criteria set out in the invitation-to-tender documents shall be considered.

(2) The successful tender is a tender which, in terms of the evaluation criteria set out in the invitation-to-tender documents, is the most advantageous among the tenders declared suitable, whereas the success of the tender shall be objectively justifiable.

(3) A contracting authority which has divided a public procurement into parts shall evaluate tenders according to the parts and as a whole if at least one of the tenders declared suitable concerns the entire object of the public procurement. The contracting authority shall declare successful the most advantageous tender for each part if declaring one tender as successful for all of the parts is not in compliance with the conditions specified in subsection (1) of this section.

(4) Persons who are or have been in a relationship with a tenderer which may give rise to justified doubts as to the persons' objectivity shall not participate in evaluation of tenders.

§46. Acceptance of tenders

(1) A successful tender is deemed to be accepted after fourteen days as of declaration of the tender as successful.

(2) A written notice concerning declaration of a tender as successful shall be sent to all tenderers within three working days after the corresponding decision is made. The notice sent to the tenderers shall set out the name of the tenderer who submitted the successful tender and an explanation concerning the advantages of the successful tender over the other tenders.

23. *Please identify the provisions in your legislation setting the parameters for the prescription of technical specifications by entities as part of the evaluation criteria.*

§26. Technical specification

(1) A technical specification is a list of characteristics or a description of the process affecting the characteristics of things purchased or construction work or services contracted for by way of public procurement. In the case of contracting for construction work, the technical specification consists in building design documentation containing corresponding drawings, explanations, qualification requirements and other necessary documents to the extent permitting contracting for construction work.

(2) A technical specification shall not create advantages to certain tenderers over their competitors and give rise to barriers to international trade.

(3) In the preparation of a technical specification, the contracting authority shall not use the advice of persons who may have business interests with regard to the public procurement.

§27. Preparation of technical specification

(1) A technical specification may be prepared on the basis of a technical regulation or standard.

(2) Things of a specific make or obtainable from a specific source or through a specific process, which would favour or eliminate the participation of certain tenderers may be listed in a technical specification only if such specification is unavoidable due to the special character of the object of the public procurement.

(3) Information concerning specific origins or methods of production, types, trade marks or patents shall be listed or referred to in a technical specification only if such list or reference is accompanied by the words "or equivalent" or if the characteristics of the object of the public procurement are otherwise not sufficiently precise and intelligible to all parties.

§28. Standards

(1) A technical specification may refer to international standards if these have not been introduced as Estonian standards.

(2) Contracting authorities may derogate from the requirements provided for in subsection 27 (1) of this Act and subsection (1) of this section if:

- 1) the object of the public procurement does not conform to the specified standards;
- 2) the use of such standards would oblige the contracting authority to purchase things which are not compatible with the things already in use or would entail disproportionate additional costs or technical difficulties;
- 3) such standards are not suitable for the application in question and do not take into consideration the technical innovations which have occurred after the introduction of the standards;
- 4) the object of the public procurement is of a genuinely innovative nature and therefore the application of existing standards is not possible;
- 5) the technical regulations or standards contradict each other.

(3) On the basis of a corresponding request, a contracting authority shall provide tenderers with the opportunity to access the technical regulations or standards which referred to in the invitation-to-tender documents or which the contracting authority intends to use for the public procurement referred to in the prior notice. If a technical specification is based on documents accessible by the tenderers, a reference to such documents is sufficient.

24. Identify the measures in national legislation ensuring that awards are made in accordance with the evaluation criteria and essential requirements specified in the tender documentation.

§24. Invitation-to-tender documents

- (1) Invitation-to-tender documents shall contain at least the following information:
 - 3) the evaluation criteria which will be used for selecting successful tenders and which may be either the lowest price only or the economically most advantageous tender which, depending on the specific object of the public procurement, may be determined on the basis of different criteria allowing for objective evaluation, and of their relative proportion in per cents or value points;

§45. Comparison and evaluation of tenders

(1) A contracting authority shall compare and evaluate all tenders which have not been rejected. In the comparison and evaluation of tenders, only the criteria set out in the invitation-to-tender documents shall be considered.

(2) The successful tender is a tender which, in terms of the evaluation criteria set out in the invitation-to-tender documents, is the most advantageous among the tenders declared suitable, whereas the success of the tender shall be objectively justifiable.

V. INFORMATION

25. *Article XIX:1 of the Agreement foresees the publication of laws, regulations, judicial decisions, administrative rulings of general application and procedures regarding government procurement. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where the legislation referred to in questions 1 and 2 can be found.*

The official bulletin containing the publication of all legislation of the Republic of Estonia is the *Riigi Teataja*.

The Riigi Teataja Act

§1. Scope of application of Act

This Act provides the procedure for publication in the *Riigi Teataja* of legislation and international agreements of the Republic of Estonia, reasoned decisions of the Supreme Court of the Republic of Estonia, notices and other documents, and for access thereto.

The legislation referred to in questions 1 and 2 can be found on the website of Estonian Legal Translation Centre, available at: www.legaltext.ee. *Mis Sa arvad, kas võiks selle lause sisse panna??? Muidu ei vasta me ju üldse esitatud küsimusele?*

26. *Article IX:1 of the Agreement foresees the publication of invitations to participate for all cases of intended procurement by entities. Please give the name of the relevant publication(s) and indicate the media to be used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

The official source of information on government procurement is the *Riigihangete Bülletään*, issued by the Public Procurement Office, available at www.rha.gov.ee.

27. *Please specify the types of information that your legislation requires to be included in notices of invitation to tender or in tender documentation, and identify the relevant provisions in your legislation.*

§18. Prior notices

(1) Concerning a public procurement the estimated value of which in the case of purchasing of things or contracting for services equals or exceeds 750,000 euros or, in the case of contracting for construction work, five million euros and which the contracting authority intends to organize during the forthcoming 12 months, the following shall be communicated by the contracting authority by means of a prior notice submitted after the beginning of the financial year:

- 1) in the case of purchasing of things, the estimated value of each public procurement, broken down by the types of the things;
- 2) in the case of contracting for services, the estimated value of each public procurement, broken down by the types of the services;
- 3) in the case of contracting for construction work, the estimated value and essential characteristics of each public procurement.

(2) A contracting authority shall submit a prior notice to the register in Estonian and shall add a translation of the notice into English.

(3) A contracting authority shall not publish a prior notice or inform the tenderers of the content thereof before the notice is entered in the register, whereas the prior notice shall contain the information provided for in clauses 19 (1) 1)–11). In the case of amending a prior notice, the subject and characteristics of the public procurement according to the standard classification of public procurements shall not be changed.

(4) The formal requirements for prior notices and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§19. Notice of invitation to tender

(1) In the case of a public procurement by an open tendering procedure, restricted tendering procedure or negotiated tendering procedure with public notice, the contracting authority shall submit an invitation to tender to the register for publication and the notice shall contain at least the following information:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if a registry code exists;
- 2) the subject of the public procurement according to the standard classification of public procurements, and the characteristics of the public procurement;
- 3) the type of the tendering procedure;
- 4) the name, official title and details of the person responsible for the public procurement;
- 5) the due date for the completion of the public procurement;
- 6) the place and conditions of issue of invitation-to-tender documents;
- 7) the minimum qualification requirements for the economic and technical conditions of the tenderers;
- 8) whether a tender security is required and the amount thereof;
- 9) the amount to be paid for the invitation-to-tender documents;
- 10) in the case of an open tendering procedure, the place, due date and time for the submission of tenders;
- 11) in the case of a restricted tendering procedure or a negotiated tendering procedure with public notice, the place, due date and time for submission of written applications for participation in the tendering procedure.

(2) An invitation to tender shall be published in Estonian whereas in the case of a public procurement the value of which equals or exceeds an international value threshold, the contracting authority shall submit a translation of the invitation into English, in other cases a summary of the invitation in English may be annexed.

(3) A summary of an invitation to tender in English shall contain at least the information provided for in clauses (1) 1), 2) and 10) or 11) of this section.

(4) In the case of an open tendering procedure, restricted tendering procedure or negotiated tendering procedure with public notice, the contracting authority shall not publish the invitation to tender or inform the tenderers of the content thereof before the invitation has been entered in the register. If an invitation to tender is amended, the subject and characteristics of the public procurement according to the standard classification of public procurements, the minimum qualification requirements for the economic and technical conditions of the tenderers, and the requirement for tender security and the amount thereof shall not be changed.

(5) The standard classification of public procurements shall be approved by the Minister of Economic Affairs.

(6) The formal requirements for invitations to tender and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§24. Invitation-to-tender documents

(1) Invitation-to-tender documents shall contain at least the following information:

- 1) the due date for the completion of the public procurement;
- 2) the technical specification;
- 3) the evaluation criteria which will be used for selecting successful tenders and which may be either the lowest price only or the economically most advantageous tender which, depending on the specific object of the public procurement, may be determined on the basis of different criteria allowing for objective evaluation, and of their relative proportion in per cents or value points;
- 4) the terms and conditions of the procurement contract to the extent that the contracting authority is able to submit at the moment;
- 5) the conditions of payment;
- 6) the amount of tender security if the contracting authority demands submission of tender security;
- 7) the language or languages in which the tenders are to be prepared, whereas, if the tenders are to be prepared in another language besides Estonian, at least one of the languages in addition to the Estonian shall be an official working language of the World Trade Organization;
- 8) the currency unit or units in which the value of the tenders is to be submitted;
- 9) the address to which the tenders are to be sent;
- 10) instructions for the marking of the envelope in which the tenders are to be submitted;
- 11) the due date and time for the submission of tenders;

- 12) the address from which additional information concerning the public procurement and the content of the invitation-to-tender documents can be obtained, and other details;
- 13) the tender validity period;
- 14) the place, date and time of opening the tenders;
- 15) the conditions and requirements for the qualification of the tenderers, a notice concerning the information and documents which are to be annexed to a tender in order to allow evaluation of the qualifications of the tenderers, and the earliest possible date of issue of the required documents;
- 16) if the contracting authority prescribes the possibility of rejecting all tenders, a notice concerning the conditions under which the contracting authority reserves the right to do so;
- 17) the possibility of and the procedure for submitting a joint tender if the contracting authority prescribes such possibility.

(2) In invitation-to-tender documents, the contracting authority may require the tenderers to indicate in their tenders the share of the contract which they intend to perform themselves and the share of the contract which they intend to subcontract to third parties, whereas subcontracts shall not reduce the liability of the tenderer.

(3) A contracting authority may charge a fee for invitation-to-tender documents if the amount of the fee has been indicated in the invitation to tender. The amount of the fee shall not exceed the expenditure for the photocopying and delivery of the invitation-to-tender documents.

(4) If an invitation to tender prescribes a fee for the invitation-to-tender documents, the contracting authority shall issue the invitation-to-tender documents after payment of the fee indicated in the invitation.

(5) A contracting authority shall enable tenderers to access invitation-to-tender documents at the contracting authority without charge.

(6) In the case of a negotiated tendering procedure with public notice or negotiated tendering procedure without public notice, the contracting authority shall submit the information specified subsection (1) of this section in the invitation-to-tender documents to the extent it considers necessary.

§25. Amendments to invitation-to-tender documents

A contracting authority may make amendments to invitation-to-tender documents on the condition that such amendments be sent during one and the same day of the first half of the term for submission of tenders to all tenderers who received the invitation-to-tender documents. If a protest or appeal is filed, the contracting authority may extend the term for submission of tenders.

28. *Article IX:1 of the Agreement foresees publication of permanent lists of qualified suppliers by entities maintaining such lists. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

There are no provisions in the Public Procurement Act on the lists of qualified suppliers since the Public Procurement Act does not foresee maintaining of any such lists by the entities subject to the government procurement procedures.

29. *Article XVIII:1 of the Agreement foresees the publication of details of contract award notices by entities. Please give the name of the relevant publication(s) and indicate the means to be used for this purpose. Please also provide, where available, the address of an Internet website where such notices are published.*

The official source of information on government procurement is the *Riigihangete Bülletään*, issued by the Public Procurement Office, available at www.rha.gov.ee.

30. *Please specify the types of information that notices of contract awards should contain in your country and identify the relevant provisions in your legislation.*

The Public Procurement Act sets the information requirements for notices of contract awards as follows.

§20. Declarations

(1) Within 10 days after termination of a public procurement tendering procedure, the contracting authority shall submit a public procurement declaration (hereinafter declaration) to the register and a copy of the procurement contract to the Office unless the submission thereof is contrary to law.

(2) Within 10 days after deciding the winner of a competition for ideas, the contracting authority shall submit a corresponding declaration to the register.

(3) Declarations submitted by contracting authorities specified in clause 5 (1) 6) of this Act shall not contain information the disclosure of which may be contrary to the public interest, damage the lawful business interests of other persons or free competition.

(4) A declaration shall set out:

- 1) the name, address and other details of the contracting authority, and the registry code thereof if a registry code exists;
- 2) the subject of the public procurement according to the standard classification of public procurements, and the characteristics of the public procurement;
- 3) the type of the tendering procedure;
- 4) the name, official title and details of the person responsible for the public procurement;
- 5) the names, addresses and other details of the tenderers who submitted tenders, and the registry codes thereof if the registry codes exist;
- 6) the names, addresses and other details of the qualified tenderers, and the registry codes thereof if the registry codes exist;

- 7) the date of entry into, value and other essential conditions of the procurement contract, including the names, addresses and registry codes of subcontractors if these exist;
 - 8) the prices of the tenders submitted by qualified tenderers or, in the case of an economically most advantageous tender, the percentage or value points attained by all qualified tenderers according to the evaluation criteria;
 - 9) information concerning appeals filed with a court in the course of the tendering procedure;
 - 10) in the case of cancellation of the tendering procedure or rejection of all tenders, the reasons why and the basis on which this was done;
 - 11) if an open tendering procedure or restricted tendering procedure is not used, the grounds for the selection of the tendering procedure.
- (5) A declaration of a competition for ideas shall set out:
- 1) the name, address and other details of the contracting authority, and the registry code thereof if a registry code exists;
 - 2) the subject and characteristics of the competition for ideas;
 - 3) the names and addresses of the participants;
 - 4) the name and address of the person who submitted the award-winning project;
 - 5) information concerning the qualifications required of the participants or confirming the lack thereof;
 - 6) the total value of the awards of the competition for ideas;
 - 7) a summary of the evaluation and comparison of the projects.
- (6) The formal requirements for declarations and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§21. Public procurement report

- (1) Within 10 days after the date of completion of a public procurement, the contracting authority shall prepare a written public procurement report which shall set out:
- 1) the name, address and other details of the contracting authority, and the registry code thereof if a registry code exists;
 - 2) the subject of the public procurement according to the standard classification of public procurements, and the characteristics and total value of the public procurement;
 - 3) amendments to the essential conditions of the procurement contract;
 - 4) complaints filed in the course of performance of the procurement contract.

(2) A public procurement report shall be preserved until the end of the fourth year following the completion of the public procurement.

(3) A contracting authority shall submit a public procurement report to the register and copies of amendments to the procurement contract, including copies of the annexes to the contract, to the Office immediately after preparing the public procurement report.

(4) The formal requirements for public procurement reports and the procedure for submission thereof shall be established by the Minister of Economic Affairs.

§22. Register

(1) Information concerning prior notices, notices, invitations to tender, declarations, procurement contracts, public procurement reports and tenderers shall be entered in the register.

(2) The register shall be established and the statutes for the maintenance of the register shall be approved by the Government of the Republic.

(3) The Office is the chief and authorised processor of the register.

(4) The register shall be maintained in the form of a computer database.

(5) The main functions of the register are:

- 1) entry of information concerning prior notices, notices, invitations to tender, declarations, procurement contracts, public procurement reports and tenderers in the register;
- 2) processing of information concerning prior notices, notices, invitations to tender, declarations, procurement contracts, public procurement reports and tenderers entered in the register.

(6) Contracting authorities, except for those specified in clause 5 (1) 1) of this Act, shall pay a state fee for entry of information concerning a prior notice, notice or invitation to tender in the register.

(7) A contracting authority shall be responsible for the correctness of the information submitted by the authority to the register.

§23. Publication of data entered in register

(1) The register shall be public.

(2) Information concerning the following items in the register shall be published on the Internet homepage of the register:

- 1) prior notices;
- 2) notices;
- 3) invitations to tender;
- 4) declarations;

- 5) public procurements reports;
- 6) tenderers.

(3) Information concerning a public procurement shall be publicly available in the register for one year after completion of the public procurement.

31. *Please specify the relevant provisions in your legislation enabling, as foreseen in Article XVIII:2, the provision of information to other Parties and unsuccessful tenderers regarding the reasons why a tender was not selected.*

§44. Rejection of all tenders

(1) A contracting authority may reject all tenders before entry into a procurement contract if the invitation-to-tender documents prescribe such possibility and the grounds therefor.

(2) A contracting authority shall immediately send a notice concerning rejection of all tenders to all tenderers to whom invitation-to-tender documents were issued.

(3) At the request of a tenderer, the contracting authority shall notify the tenderer of the grounds for rejection of all tenders.

(4) Upon rejection of all tenders, the contracting authority shall refund the fee charged from tenderers for the invitation-to-tender documents.

VI. BID CHALLENGE PROCEDURES

32. *Please provide information on existing challenge procedures.*

§61. Contestation of acts or decisions of contracting authority

A tenderer or a person interested in participating in a tendering procedure who finds that the contracting authority has violated the tenderer's rights or damaged the tenderer's interests by violating the provisions of this Act in the course of the tendering procedure may file a protest against the activities of the contracting authority.

§62. Submission of protests

(1) Protests against the acts or decisions made by a contracting authority in a tendering procedure shall be filed with the Office.

(2) Protests shall be filed within five working days after the date the person filing the protest becomes or should have become aware of the violation of the rights or damage to the interests of the person, but not after the contracting authority has accepted the successful tender.

(3) A protest shall be filed in writing and shall set out:

- 1) the name, address and other details of the person filing the protest;
- 2) the name, address and other details of the contracting authority;

- 3) the content of the act or decision against which the protest is filed and the reasons why the person filing the protest considers this to be a violation of the rights or damage to the interests of the person;
- 4) the clearly expressed request of the person filing the protest;
- 5) a list of documents annexed to the protest.

(4) The person filing a protest shall annex to the protest information at his or her disposal concerning the tendering procedure which is the subject of the protest.

§63. Organization of hearings of protests

(1) The Office has the right to require a contracting authority to submit all documents necessary for hearing a protest.

(2) The contracting authority shall submit the required documents to the Office within two working days after the receipt of the corresponding request from the Office.

(3) Before hearing a protest, the Office has the right to require the contracting authority to submit a written statement concerning the content of the protested act or decision and the contracting authority shall submit the statement to the Office within two working days after the receipt of the corresponding request from the Office.

(4) The Office shall refuse to hear a protest and shall make a corresponding decision if:

- 1) the protest is not filed within the specified term;
- 2) the protest fails to comply with the requirements specified in subsection 62 (3) of this Act;
- 3) the protest is filed against an act or decision of a contracting authority concerning which it is not possible to restore the situation which existed before violation of the provisions of this Act in the tendering procedure;
- 4) a decision specified in subsection 70 (1) or (2) has been made.

(5) If the Office finds that a protest filed does not comply with the requirements provided for in subsection 62 (3) of this Act, it shall return the protest to the person who filed it and set a term of two working days for eliminating the deficiencies. If the person who filed the protest fails to eliminate the deficiencies within the specified term, the Office shall refuse to hear the protest.

§64. Suspension of tendering procedure

(1) Upon receiving a protest concerning which there are no grounds provided for in subsection 63 (4) for refusing to hear the protest, the Office is required to notify the contracting authority of the filing of the protest against the activities of the contracting authority in the tendering procedure and to send a copy of the protest to the contracting authority.

(2) If the Office sets a term for elimination of deficiencies contained in a protest, the Office shall notify the contracting authority of the filing of the protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest received by the Office after elimination of the deficiencies to the contracting authority. If the person filing a protest fails to

eliminate deficiencies within the specified term, the Office shall immediately notify the contracting authority of such failure.

(3) Upon receiving a notice from the Office concerning the filing of a protest, the contracting authority is required to suspend the tendering procedure.

(4) If a contracting authority continues a tendering procedure after receiving a notice concerning the filing of a protest from the Office, all subsequent acts performed in the course of the tendering procedure are void. Procurement contracts entered into after receiving a notice concerning the filing of a protest from the Office are also void.

§65. Hearing of protest

(1) The Office shall organize the hearing of a protest within seven working days after receiving the protest, whereas at least the representative of the Office, the person filing the protest and the contracting authority shall participate in the hearing of the protest.

(2) A contracting authority shall inform all tenderers or applicants of the hearing of a protest and they have the right to participate in the hearing. The failure of a contracting authority to inform tenderers or applicants of the opportunity to participate in the hearing of a protest or the failure of the tenderers or applicants to appear at the hearing shall not hinder the hearing of the protest.

(3) A protest shall be resolved on the basis of a mutual agreement between the person who filed the protest and the contracting authority and a corresponding report shall be prepared concerning the agreement.

(4) If the person who filed a protest or the contracting authority fails to appear at the hearing of the protest, or the protest cannot be resolved during the hearing on the basis of a mutual agreement, the Office shall make a decision concerning termination of the hearing of the protest.

§66. Filing of appeals with administrative court

In order to resolve a protest concerning which a decision specified in subsection 63 (4) or 65 (5) of this Act has been made, an appeal may be filed with an administrative court against an act or decision made by a contracting authority in a tendering procedure.

§67. Resumption of tendering procedure

A contracting authority may resume a suspended tendering procedure after:

- 1) receiving the notice provided for in subsection 64 (2) of this Act from the Office, or
- 2) receiving the document provided for in subsection 65 (3) of this Act, or
- 3) receiving a written notice from the person who filed the protest that the person will not file an appeal pursuant to the procedure provided for in §66 of this Act against an act or decision made by the contracting authority in the course of the tendering procedure, or
- 4) 10 days have passed from the end of the hearing of a protest, or
- 5) expiry of the term for suspension of the tendering procedure specified by an administrative court.

33. *Are there specific provisions enabling access of foreign suppliers to challenge procedures?*

There are no specific provisions enabling access of foreign suppliers to challenge procedures.

34. *To the extent that this information does not fully respond to the following points, please provide the supplementary information necessary to do so:*

(i) *The time-limit to launch a complaint contained in the Agreement is "not less than 10 days" from the time when the basis of the complaint is known or reasonably should have been known. What are the limits in domestic legislation?*

Protests shall be filed within five working days after the date the person filing the protest becomes or should have become aware of the violation of the rights or damage to the interests of the person, but not after the contracting authority has accepted the successful tender.

(ii) *What body is responsible for the challenge procedures? Is this a "court" or an "impartial and independent review body"? If the latter:*

- *How are its members selected?*

- *Are its decisions subject to judicial review?*

- *If not, how will the requirements of paragraph 6 of Article XX be taken into account?*

§62. Submission of protests

(1) Protests against the acts or decisions made by a contracting authority in a tendering procedure shall be filed with the Office.

(2) Protests shall be filed within five working days after the date the person filing the protest becomes or should have become aware of the violation of the rights or damage to the interests of the person, but not after the contracting authority has accepted the successful tender.

(3) A protest shall be filed in writing and shall set out:

1) the name, address and other details of the person filing the protest;

2) the name, address and other details of the contracting authority;

3) the content of the act or decision against which the protest is filed and the reasons why the person filing the protest considers this to be a violation of the rights or damage to the interests of the person;

4) the clearly expressed request of the person filing the protest;

5) a list of documents annexed to the protest.

(4) The person filing a protest shall annex to the protest information at his or her disposal concerning the tendering procedure which is the subject of the protest.

§63. Organization of hearings of protests

- (1) The Office has the right to require a contracting authority to submit all documents necessary for hearing a protest.
- (2) The contracting authority shall submit the required documents to the Office within two working days after the receipt of the corresponding request from the Office.
- (3) Before hearing a protest, the Office has the right to require the contracting authority to submit a written statement concerning the content of the protested act or decision and the contracting authority shall submit the statement to the Office within two working days after the receipt of the corresponding request from the Office.
- (4) The Office shall refuse to hear a protest and shall make a corresponding decision if:
 - 1) the protest is not filed within the specified term;
 - 2) the protest fails to comply with the requirements specified in subsection 62 (3) of this Act;
 - 3) the protest is filed against an act or decision of a contracting authority concerning which it is not possible to restore the situation which existed before violation of the provisions of this Act in the tendering procedure;
 - 4) a decision specified in subsection 70 (1) or (2) has been made.
- (5) If the Office finds that a protest filed does not comply with the requirements provided for in subsection 62 (3) of this Act, it shall return the protest to the person who filed it and set a term of two working days for eliminating the deficiencies. If the person who filed the protest fails to eliminate the deficiencies within the specified term, the Office shall refuse to hear the protest.

§64. Suspension of tendering procedure

- (1) Upon receiving a protest concerning which there are no grounds provided for in subsection 63 (4) for refusing to hear the protest, the Office is required to notify the contracting authority of the filing of the protest against the activities of the contracting authority in the tendering procedure and to send a copy of the protest to the contracting authority.
- (2) If the Office sets a term for elimination of deficiencies contained in a protest, the Office shall notify the contracting authority of the filing of the protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest received by the Office after elimination of the deficiencies to the contracting authority. If the person filing a protest fails to eliminate deficiencies within the specified term, the Office shall immediately notify the contracting authority of such failure.
- (3) Upon receiving a notice from the Office concerning the filing of a protest, the contracting authority is required to suspend the tendering procedure.
- (4) If a contracting authority continues a tendering procedure after receiving a notice concerning the filing of a protest from the Office, all subsequent acts performed in the course of the tendering procedure are void. Procurement contracts entered into after receiving a notice concerning the filing of a protest from the Office are also void.

§65. Hearing of protest

(1) The Office shall organize the hearing of a protest within seven working days after receiving the protest, whereas at least the representative of the Office, the person filing the protest and the contracting authority shall participate in the hearing of the protest.

(2) A contracting authority shall inform all tenderers or applicants of the hearing of a protest and they have the right to participate in the hearing. The failure of a contracting authority to inform tenderers or applicants of the opportunity to participate in the hearing of a protest or the failure of the tenderers or applicants to appear at the hearing shall not hinder the hearing of the protest.

(3) A protest shall be resolved on the basis of a mutual agreement between the person who filed the protest and the contracting authority and a corresponding report shall be prepared concerning the agreement.

(4) If the person who filed a protest or the contracting authority fails to appear at the hearing of the protest, or the protest cannot be resolved during the hearing on the basis of a mutual agreement, the Office shall make a decision concerning termination of the hearing of the protest.

§66. Filing of appeals with administrative court

In order to resolve a protest concerning which a decision specified in subsection 63 (4) or 65 (5) of this Act has been made, an appeal may be filed with an administrative court against an act or decision made by a contracting authority in a tendering procedure.

(iii) *What is the applicable law by reference to which the challenge body will examine complaints?*

The applicable law is the Public Procurement Act.

(iv) *Which rapid interim measures are provided to correct breaches of the Agreement and to preserve commercial opportunities?*

- *Do these measures include the possibility to suspend the procurement process? On what conditions?*

§64. Suspension of tendering procedure

(1) Upon receiving a protest concerning which there are no grounds provided for in subsection 63 (4) for refusing to hear the protest, the Office is required to notify the contracting authority of the filing of the protest against the activities of the contracting authority in the tendering procedure and to send a copy of the protest to the contracting authority.

(2) If the Office sets a term for elimination of deficiencies contained in a protest, the Office shall notify the contracting authority of the filing of the protest against the activities of the contracting authority in the tendering procedure and send a copy of the protest received by the Office after elimination of the deficiencies to the contracting authority. If the person filing a protest fails to eliminate deficiencies within the specified term, the Office shall immediately notify the contracting authority of such failure.

(3) Upon receiving a notice from the Office concerning the filing of a protest, the contracting authority is required to suspend the tendering procedure.

(4) If a contracting authority continues a tendering procedure after receiving a notice concerning the filing of a protest from the Office, all subsequent acts performed in the course of the tendering procedure are void. Procurement contracts entered into after receiving a notice concerning the filing of a protest from the Office are also void.

§70. Decision of Office on cancellation of tendering procedure or annulment of decision made by contracting authority in tendering procedure

(1) The Office is required to cancel a tendering procedure by a decision at any time before entry into the procurement contract if the contracting authority:

- 1) fails to present the evaluation criteria to be used to decide on the success of the tenders or the relative importance of the criteria in the invitation-to-tender documents;
- 2) fails to notify all tenderers of amendments to the invitation-to-tender documents;
- 3) violates the procedure for opening tenders;
- 4) in the comparison and evaluation of tenders, uses as a representative or expert a person whose relationship with a tenderer may give rise to justified doubts as to the person's objectivity;
- 5) conducts negotiations with one or several tenderers in an open or restricted tendering procedure.

(2) At any time before entry into a procurement contract, the Office has the right to annul, by a decision thereof, a decision made by the contracting authority in the course of the tendering procedure if the contracting authority has violated the provisions of this Act in the course of the tendering procedure and such violation is not listed in subsection (1) of this section.

(3) If a tendering procedure is cancelled, all acts performed in the course thereof are void regardless of whether they were performed before or after the decision concerning cancellation was made. Procurement contracts entered into after the making of a decision concerning cancellation of a tendering procedure or annulment of a decision made by the contracting authority in the course of the tendering procedure are also void.

(4) Before making a decision concerning cancellation of a tendering procedure or annulment of a decision made by the contracting authority in the course thereof, the Office shall grant an opportunity to the contracting authority to submit objections within a term specified by the Office which shall not exceed three working days.

(5) Legal disputes between a state agency or profit-making state agency and the Office shall be resolved pursuant to the provisions of subsections 101 (1)–(3) of the Government of the Republic Act (RT I 1995, 94, 1628; 1996, 49, 953; 88, 1560; 1997, 29, 447; 40, 622; 52, 833; 73, 1200; 81, 1361 and 1362; 87, 1468; 1998, 28, 356; 36/37, 552; 40, 614; 107, 1762; 111, 1833; 1999, 10, 155; 16, 271 and 274; 27, 391; 29, 398 and 401; 58, 608; 95, 843 and 845; 2000, 49, 302; 51, 319 and 320; 54, 352; 58, 378).

(6) A decision of the Office shall contain at least the following information:

- 1) the date and place of making the decision;
- 2) the name and address of the agency in whose name the decision is made;

- 3) the given name, surname and official title of the official making the decision;
- 4) the content of the decision.
- (v) *How do challenge procedures provide for correction of the Agreement? What types of compensation for loss or damages suffered can the challenge body order?*

Any decision about compensation for loss or damages suffered can be made by the administrative court.

- (vi) *Give any available information on the time-periods for the stages of the challenge process, including to obtain interim measures and a final decision.*

§63. Organization of hearings of protests

- (1) The Office has the right to require a contracting authority to submit all documents necessary for hearing a protest.
- (2) The contracting authority shall submit the required documents to the Office within two working days after the receipt of the corresponding request from the Office.
- (3) Before hearing a protest, the Office has the right to require the contracting authority to submit a written statement concerning the content of the protested act or decision and the contracting authority shall submit the statement to the Office within two working days after the receipt of the corresponding request from the Office.
- (4) The Office shall refuse to hear a protest and shall make a corresponding decision if:
 - 1) the protest is not filed within the specified term;
 - 2) the protest fails to comply with the requirements specified in subsection 62 (3) of this Act;
 - 3) the protest is filed against an act or decision of a contracting authority concerning which it is not possible to restore the situation which existed before violation of the provisions of this Act in the tendering procedure;
 - 4) a decision specified in subsection 70 (1) or (2) has been made.
- (5) If the Office finds that a protest filed does not comply with the requirements provided for in subsection 62 (3) of this Act, it shall return the protest to the person who filed it and set a term of two working days for eliminating the deficiencies. If the person who filed the protest fails to eliminate the deficiencies within the specified term, the Office shall refuse to hear the protest.

§65. Hearing of protest

- (1) The Office shall organize the hearing of a protest within seven working days after receiving the protest, whereas at least the representative of the Office, the person filing the protest and the contracting authority shall participate in the hearing of the protest.
- (2) A contracting authority shall inform all tenderers or applicants of the hearing of a protest and they have the right to participate in the hearing. The failure of a contracting authority to inform tenderers or applicants of the opportunity to participate in the hearing of a protest or the failure of the tenderers or applicants to appear at the hearing shall not hinder the hearing of the protest.

(3) A protest shall be resolved on the basis of a mutual agreement between the person who filed the protest and the contracting authority and a corresponding report shall be prepared concerning the agreement.

(4) If the person who filed a protest or the contracting authority fails to appear at the hearing of the protest, or the protest cannot be resolved during the hearing on the basis of a mutual agreement, the Office shall make a decision concerning termination of the hearing of the protest.

(vii) *What are the usual costs to conduct a challenge procedure? Are there possibilities foreseen to do so free of charge?*

The usual costs to conduct a challenge procedure are 1,000 ECU in arbitral tribunal. There are no possibilities foreseen to do so free of charge. *Kas selle lause võtame siis maha???*

The state fee for turning to the administrative court is 10 Estonian kroons. (EEK 10 = DM 1.25)

VII. OTHER MATTERS

35. *To what extent is information technology being used in the process of government procurement? Are notices of invitations to tender and/or notices of contract awards published electronically? Please provide the address of such electronic publications.*

Estonian authorities consider bringing the modern means of information processing to the daily operations of national agencies as a key factor for facilitating the fluent exercise of any government functions. The notices of invitations to tender and/or notices of contract awards are published electronically. The internet address for such electronic publications is: <http://www.rha.gov.ee>.

36. *Is there a contact point in your country for responding to enquiries from suppliers, other governments and the wider public relating to laws, regulations and procedures and practices regarding government procurement at the central and/or sub-central level? Please provide the address.*

There is no official contact point for responding to enquiries. However, should relevant issues get raised, the questions should be sent to the Ministry of Economic Affairs of the Republic of Estonia, Department of Trade:

Ministry of Economic Affairs
Department of Trade
Harju Street 11
15072 Tallinn
ESTONIA
Fax: (372) 6313660
Email: services@mineco.ee

Committee on Government Procurement

Original: English

REQUEST FOR OBSERVER STATUS

Communication from the Sultanate of Oman

The following communication, dated 3 January 2001, has been received from the Ministry of Commerce and Industry with the request that it be circulated to the Parties to the Agreement on Government Procurement.

The Sultanate of Oman has recently acceded to the WTO and consequent upon that would initiate negotiations for membership of the Agreement on Government Procurement. In order to acquaint itself with that Agreement, the Sultanate of Oman requests for grant of observer status in the Committee on Government Procurement.

Committee on Government Procurement

**INDICATIVE TIME-FRAME FOR ACCESSION NEGOTIATIONS
AND REPORTING ON THE PROGRESS OF WORK**

Note by the Secretariat

Revision

1. In the context of its discussion regarding the improvement of the procedures for accession under Article XXIV:2, the Committee has addressed the establishment of an indicative time-frame for accession negotiations together with a procedure for regular reporting to each Committee meeting on progress in bilateral consultations on the basis of an earlier version of this note. The present revision takes into account the comments made by Parties at the March and September 2000 meetings.

2. Certain basic procedures for accession negotiations have already been adopted by the Committee in its Decision of February 1996 on the Procedures for Accession under Article XXIV:2 of the Agreement (GPA/1, Annex 2). This Decision reads as follows:

"1. In accordance with paragraph 2 of Article XXIV of the Agreement on Government Procurement (1994), any government which is a Member of the WTO may accede to this Agreement on terms to be agreed between that government and the Parties.

"2. To this effect, a government interested in accession shall communicate its interest to the Director-General of the WTO and, through him, to the Committee on Government Procurement and shall submit relevant information including an offer by way of appropriate Appendices containing lists of entities and services which would be covered by the Agreement, as well as lists of relevant publications, having regard to the provisions of the Agreement, in particular Article I and, where appropriate, Article V.

"3. The government interested in accession shall hold consultations with the Parties to the Agreement on the terms for its accession to the Agreement.

"4. With a view to facilitating accession, the Committee on Government Procurement shall establish a working party if the applicant government, or any Party to the Agreement, so requests. The working party should examine: (i) the coverage offer made by the applicant government; and (ii) relevant information pertaining to export opportunities in the markets of the Parties, taking into account the existing and potential export capabilities of the applicant government and export opportunities for the Parties in the market of the applicant government.

"5. Upon a decision by the Committee on Government Procurement agreeing to the terms of accession including the lists of entities and services as well as of relevant publications of the applicant government, the applicant government shall deposit with the Director-General of the WTO an instrument of accession which

states the terms so agreed. The applicant government's lists of entities, services and publications in their authentic WTO language(s) shall be appended to the Agreement."

3. Attached is a suggested indicative timetable for accession negotiations. It will be noted that the table does not specifically include the option of establishing a working party, as provided for under paragraph 4 of the above Decision. The reason is that, in practice, this option has not been availed of so far. However, should an applicant government or any Party to the Agreement request the establishment of such a working party, consequential modifications would need to be made to the suggested indicative timetable.

4. The suggested indicative timetable seeks to take into account the fact that accession negotiations have two main aspects and involve basically two mechanisms. The first aspect is the negotiation of an agreed coverage to be reflected in Appendices containing lists of entities and services as well as lists of relevant publications. The second is ensuring the consistency of the applicable national legislation with the provisions of the Agreement. The two main mechanisms used for these purposes are bilateral consultations between an acceding country and interested Parties and plurilateral consultations. The negotiations on commitments to be included in the Appendices are more focused on bilateral consultations whereas the other aspect of the negotiations is largely conducted through the plurilateral mechanism. These two aspects and mechanisms overlap to some extent and should proceed in parallel. As the Committee has already indicated, it is important that there should be a regular plurilateral review of the bilateral parts of the accession process and, of course, the results of both aspects of the negotiations must come together at the plurilateral level in the preparation and adoption of a decision setting out the terms of accession.

5. It will be noted that although paragraph 2 of the Committee Decision of February 1996 would not seem to necessarily require acceding countries to submit their initial offer together with their application for accession, applicant countries have, on the whole, done so. While the suggested procedures are sufficiently flexible to allow for the possibility of an initial round of plurilateral and bilateral discussions before the submission of the initial offer, they should also allow an applicant country to submit its initial offer at the same time as its application if it is in a position to do so. The submission of initial offers might be envisaged at any time during the first six months after the application but should not be any later.

6. With regard to the largely plurilateral process of provision by the applicant country of information on its procurement regime, the Committee has already adopted a Checklist of Issues to act as a guide to applicant countries in submitting such information (GPA/35). It is suggested in the attached indicative timetable that, following the circulation of the responses to the Checklist and other relevant data, provision might be made for Parties to seek further clarification of the applicable legislation and procedures through informal plurilateral consultations including a written question and answer procedure. The questions put and answers provided would be circulated to all Parties. If necessary, provision could also be made for follow-up questions and answers and further informal consultations at a later stage in the process. It is suggested that the timetable for the review of a procurement regime runs from the date of application for accession and, for the negotiation of Appendices, from the date of the submission of the applicant's initial offer. Every effort would be made to align bilateral/plurilateral consultations that are envisaged in each of the timetables and the timetables would be applied with the necessary flexibility to facilitate this.

7. The suggested indicative timetable for general accession process envisages that the process, from the date of the application to the adoption of the decision containing the terms of accession, should normally be completed within 18 months. It would, of course, have to be understood that a certain degree of flexibility would be necessary to take account of such factors as the state of preparation of the acceding country, the complexity of its procurement regime and government structure and the timing of Committee meetings. On the other hand, not all the stages envisaged may

be necessary in some accession negotiations and some of the steps in the timetable, for instance exchange of follow-up written questions and replies, submission of a revised offer or further plurilateral consultations, could be omitted which would have the effect of reducing the overall time-frame by approximately six months.

8. In its request for the preparation of this note, the Secretariat was asked to consider the question of a procedure for regular reporting to each Committee meeting on progress in the bilateral consultations. Hitherto, the Committee's overview of accession negotiations has mainly consisted of the acceding country or interested Parties reporting orally to the Committee at its meetings on an ad hoc basis. To provide a more systematic basis for the Committee's overview of the accession process and to improve transparency, consideration might be given to providing to the Committee a brief note outlining the state of play in the accession process of each applicant. This might be done, for example, through the annotated provisional agenda, which is circulated by the Secretariat prior to each Committee meeting. The information contained therein could be updated at the meeting, where necessary, by the Chair, the applicant country and parties. Based on this, the Committee might take stock of the progress of each accession process and, where appropriate, the Chair might seek to draw conclusions about moving to the next stage of the indicative timetable.

9. The work involved in the provision of relevant information on national procurement regimes, any amendments to such regimes required and the preparation of offers by an acceding developing country may require technical cooperation, for example in the form of advice and assistance from Parties and the Secretariat, country visits and training. At the outset of the accession process, the Secretariat might enter into contact with the applicant country with a view to drawing up a technical cooperation programme for that country, taking into account its specific needs and circumstances. Parties should be ready to make resources available bilaterally and/or through the Secretariat for this purpose.

ATTACHMENT

SUGGESTED INDICATIVE TIMETABLE FOR THE ACCESSION PROCESS

The timetable that follows is intended to be purely indicative in nature and sets out what is considered to be the normal time-frame for the accession process. Not all the stages envisaged may be necessary in some accession negotiations and that it may be possible to complete the process more rapidly, while in some other cases additional time may be required due to special factors.

The suggested timetable for the accession process is in two parts, that relating to the negotiation of Appendices and that relating to other aspects, in particular the applicant country's procurement regime and its consistency with the Agreement. The timetable for the latter process runs from the date of application for accession and for the former process from the date of the submission of the applicant's initial offer, which should be within six months from the date of application. Every effort would be made to align bilateral/plurilateral consultations that are envisaged in each of the timetables and the timetables would be applied with the necessary flexibility to facilitate this. Both aspects of the timetable should normally be completed to permit the decision on accession to be taken within 18 months of the date of application.

Indicative Timetable for General Accession Process and Review of Procurement Regime (Timetable to run from application for accession)

0 months	Application for Accession
2 months	Receipt of replies to the Checklist in GPA/35
4 months	Receipt of written questions from Parties
6 months	First round of informal bilateral/plurilateral consultations, including responses to written questions
8 months	Receipt of any follow-up questions
10 months	Further informal bilateral/plurilateral consultations
12 months	Follow-up written questions and replies, if necessary
14 months	Report by the acceding country on status of any steps needed to align its procurement regime with the requirements of the GPA
16 months	Further informal bilateral/plurilateral consultations, if necessary
18 months	Circulation and review of the draft decision on terms of accession including the final offer and adoption of the Committee Decision

Indicative Timetable for Negotiation of Appendices

(Timetable to run from submission of initial offer – sometime within six months of application for accession)

	(Bilateral/plurilateral consultations on possible content of initial offer)
0 months	Submission of initial offer
2 months	Receipt of written questions from Parties
4 months	Informal bilateral/plurilateral consultations, including responses to written questions
7 months	Submission of revised offer, if necessary
9 months	Further informal bilateral/plurilateral consultations, if necessary
11 months	Submission of second revised offer, if necessary

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2001

LIECHTENSTEIN

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2001.

The information notified by Liechtenstein is reproduced below.

1. Threshold Calculations¹

ANNEX 1

	SDRs	Converted to Sw F
Supplies	130,000	248,950
Services	130,000	248,950
Construction	5,000,000	9,575,000

ANNEX 2

	SDRs	Converted to Sw F
Supplies	200,000	383,000
Services	200,000	383,000
Construction	5,000,000	9,575,000

ANNEX 3

	SDRs	Converted to Sw F
Supplies	400,000	766,000
Services	400,000	766,000
Construction	5,000,000	9,575,000

¹ SDR 1.0 = Sw F (Swiss francs) 1.992. This calculation is based on data published by the Swiss National Bank.

These thresholds have been published in the Liechtenstein Law Gazette, LGBl. 2000 No. 196 of 30 October 2000. The threshold values in Swiss francs are reviewed and published every two years.

CHANGES IN THE ADMINISTRATION OF QUALIFICATION PROCEDURES OF JAPAN

Notification from Japan under Article XXIV:5(b) of the GPA

The following notification from the Permanent Mission of Japan was received on 12 December 2000, with the request that it be circulated to the Parties to the Agreement on Government Procurement. In accordance with Article XXIV:5(b), "each Party shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations".

Pursuant to Article XXIV, paragraph 5(b) of the WTO Agreement on Government Procurement, the Government of Japan wishes to inform the Committee on Government Procurement of changes in the administration of qualification procedures.

This notification is based on the fact that Japan will introduce unified qualification procedures for registered suppliers and establish a unified list of registered suppliers regarding procurement of goods and services by central government entities, except for public works, to be effective on and after 1 April 2001.

Unified enforcement of the verification of qualifications for participation in competitive contracts and documentation of a list of parties who meet the qualifications.

Takahiro Shibata

Director of Financial Affairs Division of the Minister's Secretariat, Ministry of Home Affairs
Satoshi Yoshida

With regard to the verification of qualifications for participation in competitions currently executed by each ministry or agency, qualifications for participation in open tendering (selective tendering) for contracts that are not for public works (e.g. manufacture and sale of goods) and a list of parties who meet the qualifications shall be as follows for the qualifications which will be effective on 1 April 2001. Such is an attempt to lighten the burden to the parties wishing to participate in the competitions and to make the administrative affairs simple and effective.

1. Qualifications for participation in open tendering (selective tendering) as prescribed by the chief of each ministry or agency

The qualification requirements for participation in open tendering (selective tendering) are those which are commonly effective to each ministry or agency (hereinafter referred to as "unified qualifications") concerning the standard and ranking, etc. in the verification at each ministry or agency indicated in 6 below (hereinafter referred to as "each ministry or agency").

2. List of parties who meet the unified qualifications

A list of parties who meet the unified qualification shall be the unified list, which is common to each ministry or agency.

3. Applications of parties wishing to participate in competitions executed by each ministry or agency

Applications can be filed by hand, by mail or via the Internet, and applicants should submit the application forms to one of the places where applications are received by one of those methods.

4. Types of contracts on which the unified qualifications will be effective

Each qualification for each contract of "manufacture of product", "sale of product", "offer of services, etc." or "purchase of product".

5. Effective date of the unified qualifications

It applies to qualifications that will be effective on 1 April 2001.

6. Ministries and agencies in which the unified qualifications will be effective (names of ministries and agencies after the realignment of central ministries and agencies in January 2001)

The House of Representatives, the House of Councillors, the National Diet Library, the Supreme Court, the Board of Audit, the Cabinet, the National Personnel Authority, the Cabinet Office, the Imperial Household Agency, the National Public Safety Commission (National Police Agency), the Defense Agency, the Financial Services Agency, the Ministry of Public Management, Home Affairs, Posts and Telecommunications, the Ministry of Justice, the Ministry of Foreign Affairs, the Ministry of Finance, the Ministry of Education, Culture, Sports, Science and Technology,

the Ministry of Health, Labour and Welfare, the Ministry of Agriculture, Forestry and Fisheries, the Ministry of Economy, Trade and Industry, the Ministry of Land, Infrastructure and Transport and the Ministry of Environment. Also included are external bureaus and attached organizations and other organizations and local branches or bureaus.

7. Others

With regard to the method for filing applications for verification of qualifications, etc. based on this case, "a notice on the qualifications for participation in competitions" shall be published in the separate Kanpō.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2001

ISRAEL

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2001.

The information notified by Israel is reproduced below.

1. Calculation of threshold figures in US\$

ANNEX 1

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	130,000	177,000
Services	130,000	177,000
Construction	8,500,000	11,560,000

ANNEX 2

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	250,000	340,000
Services	250,000	340,000
Construction	8,500,000	11,560,000

ANNEX 3

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	355,000	483,000
Services	355,000	483,000
Construction	8,500,000	11,560,000

2. Method of calculation

The calculation of the thresholds of the WTO Agreement, expressed in US\$ has been based on the average monthly SDR to US\$ exchange rate over 24 months from September 1997 through August 1999 (1 SDR = 1.36 US\$).

PROPOSED MODIFICATIONS TO APPENDICES I-IV OF HONG KONG, CHINA

Notification from Hong Kong, China under Article XXIV:6(a)

Revision

Due to a clerical error, the notification from Hong Kong, China under Article XXIV:6(a) circulated as document GPA/W/122 on 13 November 2000 has to be revised as follows. In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

1. Pursuant to paragraph 6(a) of Article XXIV of the Agreement on Government Procurement (1994) (the "Agreement"), Hong Kong, China hereby notifies the Committee on Government Procurement of the following modifications to the Appendices of the Agreement:

- (a) In Annex 3 of Appendix I:
 - rename "Mass Transit Railway Corporation" as "MTR Corporation Limited".
- (b) In Annex 3 of Appendices II, III and IV:
 - rename "Mass Transit Railway Corporation" as "MTR Corporation Limited".
- (c) In Annex 3 of Appendix II, with regard to the publication listed opposite "MTR Corporation Limited", replace "Daily Press" by:
 - "Any of the following:
 - Daily Press
 - Home Page on the Internet (<http://www.mtr.com.hk>)".

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

2. The modifications in (a) and (b) above are necessary as a result of the privatization of the Mass Transit Railway Corporation (MTRC). Under the Mass Transit Railway Ordinance enacted in March 2000, all assets and liabilities of the MTRC were vested into a new limited company formed under the Companies Ordinance, the MTR Corporation Limited (MTRCL), on 30 June 2000. Such modifications do not alter the level of mutually agreed coverage provided in the Agreement. The modification in (c) above reflects the latest publication arrangements of an Annex 3 entity.

3. In accordance with the latest procedures for future changes to the loose-leaf system for appendices to the Agreement (GPA/W/110), the updated version of Annex 3 of Appendices I-IV with modifications highlighted are attached at Attachment A, a clean version is at Attachment B.

4. Accordingly, page 1/1 of Annex 3 to Appendix I of Hong Kong China; page 2/4 (English, French and Spanish) of Appendix II; page 1/3 (English, French and Spanish) of Appendix III; page 3/4 (English) and page 3/5 (French and Spanish) of Appendix IV should be modified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the modifications.²

² The Attachments are in the original language only.

ATTACHMENT A

HONG KONG, CHINA

Committee on Government Procurement

Original: English

CHECKLIST OF ISSUES FOR PROVISION OF INFORMATION RELATING TO ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

Replies by Jordan

The following communication, dated 23 November 2000, has been received from the Permanent Mission of the Hashemite Kingdom of Jordan with the request that it be circulated to Parties.

Introduction

1. The Government Procurement Regime in Jordan is governed primarily by two Main Legislation: The Government Works Regulation No. 71 of 1986, issued pursuant to Articles 114 and 120 of the Constitution and the Supplies Regulation No. 32 of 1993, issued pursuant to Article 114 of the Constitution, and the instructions issued pursuant thereto, hereinafter referred to as "National Procurement Legislation". The two central procuring entities implementing these regulations are the Government Tenders Directorate (GTD) of the Ministry of Public Works and Housing and the General Supplies Department (GSD) of the Ministry of Finance.

2. The two regulations are the default authority for all government procurement of construction and engineering (technical) services and supplies respectively. Article 3 of Supplies Regulation provides that "this Regulation shall apply to all government entities whose budget is part of the Central Government Budget, and to all government entities which do not have a special supplies regulation, as well as to all government entities the Cabinet deems to be subject to this legislation". Article 31 of the Government Works Regulation provides that: "the provisions of this Regulation shall apply to all entities except: the Armed Forces, Public Security Department, Amman Municipality, Municipalities and Rural Councils, and Jordanian universities".

3. At present, many government entities whose budgets are part of the General Budget, such as municipalities and government departments and directorates, have their own procurement regulations. Procurement by municipalities and rural councils is governed by Municipalities and Rural Council Supplies and Works Regulation No. 55 of 1989, issued pursuant to Article 59 of the Municipalities Law No. 29 of 1955, and the Administration of Rural Council's Law No. 5 of 1924. Amman Municipality, however, has its own procurement regulation.

4. Moreover, some government departments and directorates have their own special procurement legislation. Many of the government corporations (which enjoy financial and administrative autonomy) self refer in their laws to the Main procurement legislation, while a few such entities have special legislation governing their own procurement. As an exception to the general tendency for government entities to refer to the main regulations in the absence of special

legislation, some entities such as state universities refer to the procurement legislation of a similar key institution, i.e., the university of Jordan, rather than central government procurement regulation.

5. Although the government procurement regime in Jordan is not governed by a single general legislation, government procurement methods and principals contained in the various procurement legislation are to a large extent uniform. As this Checklist will point out, there are no major substantial inconsistencies between the provisions in the Main two government regulations and the procurement provisions in special procurement regulations. Although not mandated by law, in practice the Main procurement regulations have served as model legislation for special procurement legislation adopted by various departments and entities. This conclusion is based on an examination of the content of the special legislation in comparison with the Main procurement legislation.

6. For the purposes of this Checklist, the majority of the questions are answered in accordance with the two Main regulations for the reasons indicated above. Nonetheless, the differences, if any, are indicated when necessary and referred to other applicable legislation in accordance with each question. The scope of supplies covered by the Supplies Regulation No. 32 of 1993 covers both supplies of goods and services except engineering consultancy services (technical services) that are covered by the Government Works Regulation No. 71 of 1986 that also covers works (constructions).

7. With respect to the need for training or other capacity-building efforts relating to the items of the Checklist, Jordan will be submitting its needs for technical assistance at a later stage.

I. LEGAL FRAMEWORK

1. *Is there a single central law on procurement? If so, please specify?*

The government procurement regime in Jordan is not governed by a single central law.

2. *What are the other laws, regulations, decrees, administrative rulings, decisions, policy guidelines and other instruments governing government procurement? Please provide a summary of the subject areas dealt with by each of these instruments. Please also explain the main differences (if any) that exist between their application at the central and sub-central levels of government and at other types of entities.*

Schedule (1) Central and Sub-Central Level

Title	Number and Date	Description
Property Lease for Government Purposes Regulation	No. 70 for the year 1973	Regulates property leasing by ministries, governmental agencies and public establishments.
Government Works Regulation	No. 71 for the year 1986	<ol style="list-style-type: none"> 1. Regulates governmental works and engineering (technical) services. 2. Sets out the jurisdiction and competence of the Government Tenders Directorate. 3. This regulation entitles the Government Tenders Directorate to follow up on the classification and qualification of contractors and qualification of consultants in coordination with the competent entities and maintain information pertaining to such and to their activities. <p style="text-align: center;">This regulation applies to all governmental entities except the armed forces, public security department, Amman's municipality, local government councils, and public universities.</p>
Construction Contractors Law	No. 13 for the year 1987	<ol style="list-style-type: none"> 1. Sets out Contractor's registration requirements of the Contractors' Association. 2. Regulates the Construction Contractors' Association.
Standard Works Contract – Part (1) General Rules, Part (2) Special Rules		Standardized contract for all works projects.
Qualification Instructions for Engineering/ Architectural Firms and Consulting Firms	For the year 1996	<ol style="list-style-type: none"> 1. Sets out types of qualification and qualification procedures thereof. 2. Sets out the qualification basis which include: specialties of these firms, expertise, technical staff, and its equipment according to special appendices prepared for this purpose.

Title	Number and Date	Description
Classification Instructions for Construction Contractors	For the year 2000	<ol style="list-style-type: none"> 1. Sets out classification rules, requirements and procedures including the jurisdiction and competence of the Classification Committee. 2. Entitles the Minister of Public Works and Housing to specify the various rules that apply to each class of contractors such as limitations on the amount and or the number of projects that each class can participate in at the same time.
Amman's Municipality Supplies and Works Regulation	No. 12 for the year 1988	<ol style="list-style-type: none"> 1. Regulates supplies and works procurement procedures including rules of tendering, receiving, paying, and selling of supplies. 2. Regulates works procedures, e.g. direct execution and tendering procedures.
General Instructions for Amman's Municipality Works and Supplies Tendering		Regulates documentation of tenders including invitation notices, submission, receipt, opening, consideration and awarding of contracts.
Public Security Consumer's Cooperative Regulation	No. 84 for the year 1974	<ol style="list-style-type: none"> 1. Aims to enable the beneficiaries (Public Security Employees) to procure food and other supplies at a convenient rate. It creates a special Board empowered to decide the types and methods of procuring these supplies. 2. Procuring is governed by a Supplies Regulation and is executed through Tenders Committees or Procuring Committees. 3. The Cooperative may procure these supplies from domestic as well as foreign suppliers.
Public Security Supplies Instructions	No. 1 for the year 1996	<ol style="list-style-type: none"> 1. Sets out the general conditions for entering into a tender and contracting with Contractors, e.g., bid bonds, performance guarantees. 2. Sets out tender procedures, i.e., invitation, opening, receiving and awarding of tenders, in addition to penal conditions.
Municipalities and Rural Councils' Supplies and Works Regulation	No. 25 for the year 1989	<ol style="list-style-type: none"> 1. Regulates local government councils' procurement procedures, e.g., supplies' procurement, receiving, distributing, selling... 2. Regulates works procurement, e.g., formation of tenders committees.

Title	Number and Date	Description
Supplies Regulation	No. 32 for the year 1993	<ol style="list-style-type: none"> 1. Sets out the scope of application of its rules. It applies to all governmental entities covered under the General Budget and to all entities that do not have its own supplies regulations and to any other entity as stipulated by the Ministers' Council. 2. Defines the General Supplies Department jurisdiction and responsibilities and specifies the general rules for supplies' procurement including procuring from a foreign supplier. 3. Sets out the rules for creating the various tender committees under this regulation, e.g., Central Committee, Local Committee and Special Committee. 4. Sets out tender procedures and rules, e.g., receiving, warehousing...
Instructions of Tender Procedures and Conditions of Participation and its amendments	No. 1 for the year 1994	<ol style="list-style-type: none"> 1. Sets out tendering procedures, e.g., invitation notices as well as identifies the general conditions for participation in governmental tenders, i.e., bonds and guarantees, invitation notices, submission, opening, selecting and awarding of contracts. 2. Specifies the contractors' liabilities and <i>force majeure</i>. 3. Sets out sampling and testing procedures as well as supplies' receiving procedures.
Instructions for Preparation of the Departments Supplies Requirements Lists and Organization of the Purchasing Requests Related Thereto	No. 2 for the year 1994	Sets out the mechanism for preparing the annual supplies requirement lists and the preparation of the procurement orders thereof.
Instructions for Administration and Organization of Government Warehouses and Stock Control	No. 5 for the year 1994	<ol style="list-style-type: none"> 1. Regulates government warehouses management and warehousing procedures, e.g., inventory testing and receiving. 2. Regulates inventory control and inspection procedures.
Instructions for Ministries and Governmental Agencies Supplies Procurement through Ways other than Tendering	No. 1 for the year 1995	Regulates the entities' ability to procure supplies through ways other than tendering, provided that the value of these supplies does not exceed JD 5000.

Title	Number and Date	Description
Fiscal Regulation	No. 3 for the year 1994	Regulates the Government expenditures including payments due as a result of a tender awarding and sets out the prerequisites of making any such payments thereof.
Fiscal Affairs Implementation Instructions	No. 1 for the year 1995	Specifies in detail the process of implementing the rules included in the Fiscal Regulation.
Municipalities Fiscal Regulation	No. 4 for the year 1955	Regulates the municipalities expenditures rules including payments due as a result of a procurement.
Municipalities and Rural Councils' Supplies and Works Regulation	No. 55 for the year 1989	Sets out the rules for supplies and services and works procurement including procurement procedures.
Rural Councils' Fiscal Regulation	No. 34 for the year 1985	Asserts the implementation of the Municipalities Fiscal Regulation rules on townships as well.
Government Works Tendering Instructions	No. 71 for the year 1987	Sets out the tendering procedures and participation conditions, e.g., invitation notices, time-limits, tenders submission and opening, and awarding of contractors rules, as well as contractors qualifications conditions.
High Committee for Procurement Regulation	No. 50 for the year 1994	Provides for establishing a High Committee for procurement entitled to oversee procurement procedures of the various entities. This regulation is not implemented as such Committee is not yet established.

Schedule (2)
Public Corporations

Name of Corporation	Procurement Legislation	Notes
Public Transport Corporation	<ul style="list-style-type: none"> - Supplies Regulation No. 21 for the year 1980. - No Constructions Regulation. 	<ul style="list-style-type: none"> - The Supplies Regulation is issued in accordance with Article 16 of the Public Transport Corp Law No. 21 of 1975, which was repealed. - Article 16 of the Public Transport Corp. Law No. 16 for the year 1985 requires the issuance of a constructions reg. It has not been issued up to this date.

Name of Corporation	Procurement Legislation	Notes
Central Bank of Jordan	<ul style="list-style-type: none"> - Supplies Regulation for the Central Bank of Jordan No. 8 of 1970 issued pursuant to the Central Bank of Jordan Law No. 93 of 1966. - No regulations for construction services. 	<ul style="list-style-type: none"> - Procurement of supplies is conducted in accordance with the Supplies Reg. for the CBJ. - Construction services are conducted in accordance with the Government Constructions Regulation No. 71 of 1986.
The Ports Corporation	Regulation for the Ports Corp. Supplies and Works No. 77 of 1981	<ul style="list-style-type: none"> - Issued pursuant to Article 15 of The Ports Corp. Law No. 28 of 1978. This Law has been repealed. - Article 15 of the new Law No. 36 of 1985 provides that the MC may issue regulations to regulate procurement procedures. No such regulations have been issued up to this date. - Supplies Reg. and the Govt. Works Reg. apply pursuant to Articles 3 and 31 respectively (default provisions).
<ul style="list-style-type: none"> - Jordan Securities Commission - Depository Center - Amman Stock Exchange 	<ul style="list-style-type: none"> - No construction services regulation. - Supplies Regulation No. 93 of 1998. 	<ul style="list-style-type: none"> - Article 81 of the Securities Law No. 23 of 1997 provides that the MC may issue regulations to regulate procurement procedures. No such regulations have been issued up to this date. - Construction services procurement is conducted in accordance with the Government Works Regulation No. 71 of 1986.
Jordan University Supplies and Works Regulation	No. 21 for the year 1987 [each public university has its own regulations concerning supplies and works procurement]	Sets out the supplies and works rules and procedures.
Jordan University Supplies and Works Regulation Implementing Instructions		Specifies in detail the rules pertaining to supplies and works procurement set out in the Reg.

- **The main differences that exist between their application at the central and sub-central levels of government and at other types of entities.**

Procurement procedures for municipalities and rural councils are governed by special regulations, the Municipalities and Rural Councils Supplies and Works Regulation No. 55 for the year 1989. The main differences between these procedures and the procedures followed by the central government entities pursuant to the Supplies Regulation and the Government Works Regulation are:

- (a) One regulation governs the sub-central entities' procurement procedures in both supplies and works. Moreover, this regulation is issued pursuant to the Municipalities Law whereas the Supplies Regulation and the Government Works Regulation are issued pursuant to Articles 114, 120 of the Constitution respectively.
- (b) Municipalities and rural councils follow the same procurement methods as central government entities, i.e., open tendering, selective tendering, and limited tendering. Nonetheless, the Supplies Regulation provided four circumstances where selective tendering may be used and nine circumstances where limited tendering may be used. On the other hand, the Municipalities Regulation provided nine circumstances where selective tendering may be used and four circumstances where limited tendering may be used.
- (c) There are some variances in relation to the amounts and the jurisdiction of procurement committees thereof.

In conclusion, there are no substantial differences between procurement regulations at the central and sub-central levels of government.

3. *To what extent will the provisions of the Agreement be applied directly or need to be transposed into the relevant law? In the event of direct application of the Agreement over conflicting provisions of domestic law, please indicate the relevant legal basis.*

The most common practice is that after signing and acceding to an Agreement, the Government of Jordan would refer such Agreement to the Parliament for ratification. When ratified by the Parliament, an Agreement passes as a Law. Thereafter, the Parliament refers it to the King for endorsement. (Article 31 of the Constitution.)

In the event that the Agreement is passed as a Law, it shall be directly applicable and binding to all entities that are subject to the Agreement. Accordingly, the Government of Jordan will issue a legislation that reflects Jordan's obligations under the Agreement on Government Procurement.

II. SCOPE AND COVERAGE

4. *Please summarize the organization of the government in your country at each level.*

Under the Jordanian Constitution H.M. the King is the head of all authorities: the Executive Authority, the Legislative Authority and the Judicial Authority.

The Executive Authority consists of the Prime Minister, the Council of Ministers and the various Ministries and Government Departments (Central Government). At the sub-central level, it consists of the various municipalities and rural councils.

The Legislative Authority consists of the Senate and the House of Deputies. The Judicial Authority consists of Religious, Special and Civil Courts.

5. *Please list all central government entities (ministries, departments, agencies, etc.) procuring goods, services and construction services.*

1. Ministry of Defense
2. Ministry of Interior
 - Public Security Department
 - Civil Defense Department
 - Civil Status and Passports Department
3. Ministry of Justice
4. Ministry of Health
5. Ministry of Foreign Affairs
6. Ministry of Industry and Trade
7. Ministry of Planning
 - Statistics Department
8. Ministry of Municipal and Rural Affairs and the Environment
9. Ministry of Information
 - Jordan News Agency
 - Press and Publication Department
10. Ministry of Youth
11. Ministry of Tourism and Antiquities
 - Antiquities Department
12. Ministry of Finance
 - Customs Department
 - Income Tax Department
 - Budget Department
 - Lands and Surveys Department
 - General Supplies Department
13. Ministry of Awqaf Islamic Affairs and Holy Places
14. Energy and Mineral Resources Ministry
15. Ministry of Culture
 - National Library
16. Ministry of Agriculture
17. Ministry of Public Works and Housing
 - Government Tenders Directorate
18. Ministry of Education
19. Ministry of Labor
20. Ministry of Social Development
21. Ministry of Water and Irrigation
22. Ministry of Post and Telecommunication
23. Ministry of Transport
 - Meteorological Department

6. *What entities at the sub-central level of government (states, provinces, municipalities, etc.) procure goods and services?*

In Jordan the main sub-central entities are municipalities and rural councils. These entities procure goods and supplies in accordance with the Municipalities and Rural Councils' Supplies and Works Regulation No. 25 of 1989, except for Amman Municipality which has its own supplies and constructions regulations.

7. Which are the enterprises owned or controlled by the government that are subject to the rules on government procurement? Which are the other entities or categories of entities (Annex 3-type of entities) owned and controlled by the government that engage in procurement? Specify.

Public corporations that have a special law which accords them financial and administrative autonomy, such as:

- The Central Bank of Jordan
- Hedjaz Jordan Railway
- Social Security Corporation
- Telecommunications Regulatory Commission
- Jordan's Securities Commission
- Postal Saving Fund
- Institute of Public Administration.

8. Do entities listed in response to questions 5, 6 and 7 apply in their procurement the main law (if one exists), other legislation provided by the federal or central level of government or are they autonomous from federal or central level of government in their procurement rules and practices? Where any of these entities are not subject to the main procurement law, please list the entities concerned and indicate which laws, regulations, etc., they are subject to. How will you government ensure the implementation of the Agreement by such entities below the central/federal government level?

Please see *Schedules 1 and 2* in question 2 above. Entities that are listed in question 7 above and not listed in *Schedule 2* in question 2 apply the National Procurement Legislation.

Entities below the central level of government are not autonomous from central state level government in the implementation of the Agreement. Once the Agreement is passed as a Law, it shall be directly applicable and binding to all government entities that are subject to the Agreement.

9. Are there any general exceptions from the scope of application of the national procurement rules, for instance for essential national defense or security reasons? Please provide details.

Article 12(b) of the Military Supplies Regulation No. 3 for the year 1995 provides that the Prime Minister, pursuant to a recommendation from the Chief of Staff may, in exceptional or expeditious circumstances, form a special committee from at least three senior officers which may procure supplies without applying the rules of the said Regulation.

Article 2 of the General Intelligence Department Supplies Regulation No. 84 for the year 1966 provides that all supplies' procurements for the Department shall be executed by committees formed from the Intelligence Department and one representative from the Audit Bureau, except "covert procurements" which shall be executed through the Intelligence Department officers only. The General Intelligence Director decides whether procurements are covert or not and sets out the procedures thereof, provided such procedures are accepted by the Prime Minister.

10. Please provide available statistics on the procurement by government entities in your country in the last two years, including, to the extent available, a breakdown by entity and by categories of products and services.

Please see attached Schedules 1, 2 and 3.

III. NATIONAL TREATMENT AND NON-DISCRIMINATION

11. *Identify the specific provisions in the legislation which reflect the national treatment and non-discrimination commitments of Article III of the Agreement.*

There are no explicit provisions in the National Procurement Legislation that reflect the national treatment and non-discrimination commitments of Article III of the Government Procurement Agreement.

12. *Please provide details of any provisions in national legislation according domestic supplies and suppliers treatment more favourable than that accorded to foreign supplies or suppliers or according supplies or suppliers of any country more favourable treatment than those of any other country.*

Supplies:

Under the Supplies Regulation No. 32 for the year 1993:

Article 12 provides that if specifications, quality degree, criteria and other conditions in the supplies offered and required for purchasing, become equal, the concerned authority of purchasing should consider:

- (a) Giving priority to the supplies produced in Jordan, provided that their prices should be calculated according to the preferential differential prices decided by the Cabinet.
- (b) Giving priority to the supplies offered by the bidder residing in Jordan permanently.

Article 13 grants preference to suppliers from countries that have signed special protocols and/or agreements with Jordan.

Works and Engineering (Technical) Services:

Regarding government works and engineering services according to the Government Works Regulation No. 71 for the year 1986 and amendments thereof:

Article 6(d) of the Government Works Regulation No. 71 for the year 1986 stipulates that when tendering for works and/or engineering services, only Jordanian contractors and consultants may carry out any construction project and/or render engineering services thereto, provided they satisfy the conditions stipulated in the tender. However, if it was necessary to invite foreign contractors and/or consultants, or if the project is financed by a foreign development loan, then the rules of Construction Contractors Law and the rules of the Jordan Engineers Association shall apply.

Article 16(a)(1) of the Construction Contractors Law No. 13 for the year 1987 provides that only Jordanian contractors may carry out any construction project. In case of special-nature projects however, it is permitted for foreign contractors to participate in executing these projects in joint venture or consortia with their Jordanian counterparts.

Article 16(a)(2) permit the Diplomatic missions in Jordan to construct and/or maintain their official buildings through local or foreign contractors provided Jordanian missions are granted reciprocal treatment.

Article 16(b) regulates the creation of a technical committee entitled to decide whether or not a certain project is of "special-nature" and sets out the basis for foreign participation and the form of such participation, and make recommendations to the Ministers' Council for final decision.

Article 16(c) permits foreign contractors to participate in executing projects financed by foreign development loans in association with their local counterparts or individually if necessary.

Article 6(e) of the Government Works Regulation No. 71 for the year 1986 indicates that all tenders shall provide for the usage of domestic products in all works, and stipulates however, that such products shall meet the required standards, and that the Jordanian Standards Rules shall be used to compare between the various products.

13. *Please provide details of any provisions in national legislation allowing a locally established supplier to be treated less favourably than another locally established supplier on the basis of its degree of foreign affiliation or ownership or discriminating against locally established suppliers on the basis of the country of production of the good or services being supplied.*

Supplies:

There are no provisions in the Supplies Regulation No. 32 of the year 1993 that accord a locally established supplier less favourable treatment based on the degree of foreign affiliation or ownership in selecting or awarding contracts to such suppliers.

Works and Engineering (Technical) Services:

Article 17 of Contractors Classification Instructions of 1992 sets out the conditions for the classification of Jordanian constructions companies affiliated with foreign companies. It provides that a Jordanian construction company affiliated with a foreign partner may only be classified upon meeting the following requirements:

- (1) The Jordanian partner shall meet at least 60 per cent of the classification conditions.
- (2) The classification conditions for the foreign partner shall be three-times those of the Jordanian companies' requirements. The foreign partner shall meet these conditions as a prerequisite for classification.
- (3) The company shall meet the classification requirements regarding the availability of certain technical, administrative and financial capability in accordance with the Instructions. And that the foreign partner's tools and equipment shall be continuously and actually located in Jordan throughout the term of classification as well as the foreign partner's engineers shall be registered with the Jordan Engineering Association.
- (4) The foreign partner shall transfer its share of the company's capital in hard currency to Jordan.

14. *Please specify to what extent, if at all, more favourable treatment is granted to any sectors of the economy, regions or specific categories of suppliers or supplies.*

There are no provisions in the National Procurement Legislation that award any sectors of the economy or regions or specific categories of suppliers any favourable treatment in the selection of tenders.

15. *Please specify any provisions requiring or allowing the use of offsets or measures with similar effect, such as domestic content, licensing of technology, investment, counter-trade or similar requirements in the qualification or selection of suppliers, products or services or in the evaluation of tenders and award of contracts.*

Supplies:

Article 18 of the Tenders Instructions No. 1 of 1994 issued in accordance with the Supplies Regulation No. 32 of the year 1993 requires any tenderer to submit a vocational licence/professions practicing permit that entitles the supplier to practice or deal with manufacturing, selling or supplying the required supplies; and a commercial register that details all the conditions stipulated by the Ministry of Industry and Trade, as a pre-requisite to participate in any tender. Accordingly, foreign suppliers may only participate through local presence as a local agent, regional office or an established Jordanian juridical entity.

Under Article 12 of the Supplies Regulation No. 32 of the year 1993 priority is given to supplies produced in Jordan provided that their prices should be calculated according to the preferential differential prices decided by the Cabinet.

Article 13 of the Supplies Regulation No. 32 for the year 1993 provides that in accordance with the rules of this Regulation, the procuring entity may procure goods and/or services in accordance with the Commercial Protocols and Agreements signed between Jordan and other Arab or foreign countries or entities.

Works and Engineering (Technical) Services:

Under the Investment Promotion Regulation No. 1 of 1996 and the Jordanian Engineers Association Law No. 15 of 1972 there is a 50 per cent foreign equity limitation in the construction and engineering services sectors. Any non-Jordanian contractor or engineering consultant willing to establish a Jordanian entity may not own more than (50 per cent) in such entity.

However, Article 16(c) of the Construction Contractors Law No. 13 for the year 1987 and the Jordanian Engineers Association Law No. 15 of 1972 provide that foreign contractors/engineering firms may undertake projects in Jordan only through a joint venture or consortia with a Jordanian firm. Foreign engineering firms may participate only in projects which demand expertise and knowledge not found in a Jordanian firm. Foreign contractors may participate only in projects of a special nature or in projects financed by foreign development loans. Foreign contractors may undertake projects financed by foreign development loans individually if so dictated by public interest.

IV. ELEMENTS SPECIFIC TO PROCUREMENT PROCEDURES

16. *Please provide a general description of your existing procurement methods and procedures, including the main procurement methods used and a brief description of each method, and the extent to which qualification of suppliers and open, selective and limited tendering for each level of government is used.*

Supplies:

According to the Supplies Regulation No. 32 for the year 1993:

Article 15 provides that the main procurement method shall be open tendering. Yet it permitted the following methods as well:

- (A) Selective tendering in any of the following cases:
- (1) In case of urgent emergency need for supplies difficult to expect or predict where tender invitation is not possible.
 - (2) In case the number of sellers, producers or suppliers of such supplies did not exceed three.
 - (3) If the value of the supplies required does not exceed (5,000) five thousand dinar.
 - (4) If the number of offers is not sufficient or suitable, and the authority invited for the tender is satisfied that it is necessary to purchase the supplies through requesting of proposals.
- (B) Limited tendering (direct purchasing of supplies by negotiation with sellers, producers and suppliers) in any of the following cases:
- (1) If the required supplies prices were determined by the official authorities.
 - (2) If the required supplies are needed to meet an emergency case that it is not possible to conduct tender invitation or requesting of proposals according to the request of the concerned minister.
 - (3) If it is not possible to obtain the supplies except from one source only.
 - (4) If the supplies required to be purchased are spare parts, or complementary parts or tools that are not available in more than one source, with the same degree of efficiency according to a technical report from specialists and experts.
 - (5) Purchasing scientific materials such as films and manuscripts and as such.
 - (6) If the purpose of the supplies required is to unified the item in the department, or to reduce variation therein, or to save possessing spare parts according to the concerned Minister request.
 - (7) Purchasing services including maintenance, repair, replacement or testing provided that the work volume shall not be known at the time of purchasing.
 - (8) If adequate offers can not be obtained through tender, requesting of proposal, the prices are not reasonable, or the complete quantity of the supplies required can not be obtained.
 - (9) If there is a legal text or international agreement stating that the supplies should be purchased directly.

Article 14 permits purchasing supplies from abroad directly in the following two cases, provided that the concerned authority in purchasing should justify its decision:

- (1) If the required supplies are not available in Jordan, and it is not possible to purchase them through correspondence.
- (2) If the concerned authority in purchasing decided that purchasing such supplies directly from abroad is to the interest of the Government.

Article 13 permits procurement pursuant to commercial protocols and/or agreements between Jordan and other countries and/or entities.

Works and Engineering (Technical) Services:

According to the Government Works Regulation No. 71 for the year 1986:

Article 5 provides that the main procurement methods shall be: (1) Open tendering; (2) Selective tendering; (3) Limited tendering; and (4) Direct execution.

Article 6 seems to suggest that the main procurement method shall be tendering, provided however, that no invitations shall be made unless the funds for any project are already allocated. It also provides that the general policy shall be ensuring competition and providing a fair opportunity for all qualified contractors.

Article 19 provides that in the event a tender was announced and no reasonable number of suppliers applied, or the prices submitted were not reasonable, or the submitted tenders were conditional or incomplete, the Tender Committee shall furnish a report in that regard to the competent entity. The competent entity may decide to re-announce the tender or seek limited tendering.

Article 20 sets out the circumstances where limited tendering may be utilised. These circumstances include the following:

- (a) In case of exceptional and/or expeditious circumstances where tendering would not be feasible.
- (b) In case of unifying tools and equipment or reducing the variances of such, or in case of reducing the obtainment of spare parts, or in case of curtailing the need of expertise in utilising such tools and/or equipment.
- (c) In case of procuring spare parts or accessories or machines or tools or supplies that are not available at more than one supplier at the same quality standards.
- (d) In case of contracting on engineering services or providing scientific or specialized professional services.
- (e) In case of performing the works outside Jordan.
- (f) If the supplier is a governmental entity or a scientific entity, or the prices were fixed by the government, provided that a reasonable number of suppliers shall be invited if possible.

17. *Identify the provision in your country's legislation requiring non-discrimination as regards the qualification of suppliers in terms of Article VIII and selection of suppliers in terms of Article X. Indicate any exception to this requirement. What are the provisions ensuring non-discriminatory access of new suppliers to existing qualification lists?*

Supplies:

There are no pre-qualification requirements in the Supplies Regulation No. 32 of 1993. However, post-qualification is used in services tenders and some goods tenders such as computer and communication systems.

Works and Engineering (Technical) Services:

Qualification measures are governed by the Government Works Regulation No. 71 for the year 1986.

Article 4 requires the Government Tenders Directorate to oversee contractors and consultants qualification process in coordination with other relevant entities.

Article 23(e) requires the Minister to issue construction contractors classification schedules and publish them in the Official Gazette.

In addition, the Constructions Contractors Law No. 13 for the year 1987 regulates the registration requirements for contractors.

Article 3 requires all contractors to be licensed by the Ministry in order to be able to practice in Jordan. After fulfilling the licensure requirements, contractors must register their companies, firms or offices at the Ministry of Industry and Trade and the Contractors' Association. Article 4 provides that contractors may not be classified until after licensure and registration with the Ministry and the Association.

Construction Contractors Licensing Instructions for the year 1996 regulate the licensing procedures.

Article 3 provides that contractors shall not practice their profession pursuant to licensing until after fulfilling the classification procedures in accordance with the Constructions Contractors Association Law.

Article 6 requires the applicant to meet the following qualifications as a pre-requisite for licensure: The applicant shall be:

- (a) an Engineer registered in the Jordan Engineers Association; or
- (b) must have a community college degree in the works field and have practiced in this field for at least five years; or
- (c) a full-time partner who has previously worked in a classified constructions company and was a founding partner for over two years before quitting.

The Engineering Offices and Consulting Companies Qualification Instructions for the year 1996 regulate qualification procedures for consulting offices. Article 4 sets out these procedures as follows:

- (a) The Government Tenders Directorate shall announce in the newspapers for all interested consultants to apply for qualification.
- (b) Qualification shall be on a yearly basis.
- (c) When examining the qualification applications, previous performance and changes that have occurred on the situation of the consultants must be taken into account. Consultants must notify the Directorate with any changes that occurs in their situation within one month from the date of the change.
- (d) Qualification decisions shall be posted at the bulletin board located in the Directorate. Consultants may challenge these decisions within 30 days of the date of posting them.

- (e) The Directorate may at any time ensure that the consultants still meet the requirements. The Directorate may review its decision in the event that a consultant no longer fulfils these requirements.

There are different conditions and requirements for classification of Jordanian construction companies with foreign affiliation as explained in question 13 above.

18. *In situations where qualification procedures and selective tendering may be used, to what extent do entities allow suppliers to become qualified during the procurement process? To what extent do entities maintain permanent lists of suppliers?*

Supplies:

Although no qualification procedures are used, generally the central procuring entity (GSD) maintains a list of suppliers who meet the requirements set out in Articles 18 and 24 of the Tenders Instructions No. 1 of the year 1994 (i.e. vocational licence, required data and documents that show the bidder's experience and technical and financial capability, and a commercial register). Nevertheless, post qualification is used in services tenders and some goods tenders as mentioned in question 17 above.

Works and Engineering (Technical) Services:

According to the Government Works Regulation No. 71 for the year 1986:

Article 23 requires all entities to abide with the classification schedules in all government works. It further provided that:

- (a) All contractors in all types of works shall be classified into categories or classes according to their financial, technical, and managerial qualifications, as well as their equipment and expertise in executing works. The Ministers' Council shall pass Instructions to regulate the classification rules and conditions.
- (b) The Council of Ministers shall form a committee to study the classification applications of contractors for the various types of works.
- (c) The Minister shall publish the contractors classification schedules in the Official Gazette. He may amend such schedules by adding, omitting contractors or by amending their classification.
- (d) Contractors classification schedules shall be acknowledged in all government works in the Kingdom.

Article 4 of the Government Works Regulation entrusted the Government Tenders Directorate with the authority to follow up on the classification process of contractors.

Article 7(c) of the Government Works Tenders Instructions provides that any tender invitation shall include the categories and classes of contractors and/or consultants permitted to participate in this tender.

Article 17(c) of the same Instructions requires all Committees to abide with the contractors and consultants classification and qualification instructions whether they are Jordanian or non-Jordanian.

The Engineering Offices and Consulting Companies Qualification Instructions of 1996 issued pursuant to Article 4 of the Government Works Regulation defines "qualification" as the general qualification in each specialty according to the basis and instructions issued by the Government Tenders Directorate for the purposes of participating in engineering services tenders.

Accordingly, only classified local contractors and qualified local consultants may participate in government works and engineering (technical) services tenders that are funded by the General Budget. Classification is required only for local contractors, while qualification applies to both local and foreign contractors. Foreign contractors are required to be qualified for participation in a specific tender. Lists are only maintained for local qualified consultants and local classified contractors. Contractors and consultants are not permitted to be classified during the procurement process since only contractors and consultants who are classified are permitted to apply for tenders.

19. *What are the conditions and circumstances foreseen in your legislation allowing the use of the limited tendering method under Article XV of the Agreement? What measures exist in order to ensure that this method is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discriminating among foreign supplies/suppliers or in favour of domestic supplies/suppliers?*

Supplies:

Article 15(b) of the Supplies Regulation No. 32 for the year 1993 identifies the circumstances where an entity may utilise the limited tendering method as explained in question 16 above. All procuring entities are obliged to abide with the provisions set out in Article 15 of the Supplies Regulation No. 32 for the year 1993 as in question 16 above.

Works and Engineering (Technical) Services:

The Government Works Regulation No. 71 for the year 1986 specifies the circumstances where an entity may pursue limited tendering for works procurement as opposed to the main method which is open tendering, as explained in question 16 above.

20. *Article XIV of the Agreement allows for negotiation under certain conditions. Are entities allowed to proceed to negotiations? If so, which categories and what are the conditions imposed?*

Supplies:

Negotiations are not allowed in the course of any tender. However, in practice negotiations are carried out in very limited cases mainly where the most successful bid price is substantially above the market or budget levels.

Works and Engineering (Technical) Services:

Negotiations are not allowed in the course of any tender.

21. *Article XI sets out the minimum time-periods for tendering and delivery. What are the rules and practices regarding time-periods in your legislation? Does the legislation reflect the various minimum time-periods as set out in the Agreement? If not, give information on any different time-periods which have been established in your national legislation.*

Supplies:

Article 7 of the Tenders Instructions No. 1 for the year 1994 regulates tenders announcing as follows:

- (a) The director general or secretary general should announce tenders serially numbered on an annual basis, in not less than three local newspapers, for more than one day, in addition to the other media that he may find appropriate.
- (b) The announcement should include details about tender's number, kind of supplies, the closing date for purchasing tender's invitation, the deadline for submitting offers, the price of the tender's invitation, and, any other matters that the director general or secretary general may find indispensable for announcement.
- (c) Upon the request of more than one bidder, or upon a certain necessity, the director general or secretary general may extend the date of submitting offers for an appropriate period. Whereas he may announce that in the same media used for announcing for the tender previously.
- (d) The director general or secretary general should announce the tender that has been decided to be re-invited for.

Time-limits for tendering and delivery specified in Article XI of the Agreement on Government Procurement are generally similar to a certain extent to those practiced in Jordan. In practice, tendering time for tenders funded from the General Budget is a minimum of 30 days. Tendering time for international tenders is a minimum of 40 days. However, these time-limits may change according to the nature of the tender.

Works and Engineering (Technical) Services:

According to the Government Works Regulation No. 71 for the year 1986:

Article 7(a) provides that the procuring entities shall give a sufficient time-limit for contractors and consultants to consider the tender's documents and submit their tenders.

Furthermore, Article 8(b) of the Government Works Tenders Instructions No. 71 for the year 1987 provides that there shall be a sufficient time-limit between the date of announcing the tender invitation and the date of submitting the tenders to enable the tenderers to consider and prepare their tenders. Stipulated that the time for distributing the tender invitations shall not be less than seven days and there shall be at least seven days between the last date of selling the tender invitation and documents and the last date for submitting the tenders.

Article 8(d) permits the Head of the Committee to extend the last date of submitting the tenders provided that such extensions are announced in the newspapers or notified to the participants.

Article 17(a) provides that in the event where the tender invitation and documents do not specify a time-limit for the tenderer to abide by his offer, the time-limit shall be 90 days from the date of submitting the tender.

22. *Briefly describe the procedures for the submission, receipt and opening of tenders and awarding of contracts, in particular the procedures and conditions guaranteeing regularity of the openings and consistency with the non-discrimination provisions of the Agreement. How is the information on the proceedings related to the receipt, opening and evaluation of tenders maintained by entities?*

Supplies:

These procedures are governed by the Supplies Regulation No. 32 for the year 1993.

Article 23 of this Regulation decrees the issuance of Instructions to regulate these procedures. Accordingly, all these procedures are governed by the Tenders Instructions No. 1 for the year 1994 and amendments thereof.

Articles 18-39 of the Instructions regulate the purchase of tender invitation, preparation and submission of the offers by bidders.

Article 18:

- (a) The bidder who wishes to purchase the invitation, should submit a certified copy of a valid professions practicing permit, that entitles him to practice manufacturing, selling, or supplying the required supplies, or deal therewith, he also should submit the extract of the commercial register that details all the conditions stipulated by the Ministry of Industry and Trade, to be entered in the commercial register, whereas the concerned employee should request these documents at the time of selling any tender's invitation, or once or more a year.
- (b) The bidder, who participates for the first time in department's tenders, is obliged to enclose a certified copy of the professions practicing permit and the extract of commercial register, with his offer.

Article 19: The bidder should pay the specified (non-refundable) fees for purchasing the tender's invitation with all documents and enclosures, against a duly issued receipt.

Article 20: The bidder should prepare his offer according to the documents of invitation after thoroughly reading and understanding the contents thereof. In case that the documents package is incomplete, or the bidder found missing documents therein, he should apply for the missing documents from the department which invited for the tender; the bidder should be responsible for all consequences for not checking and completing documents properly.

Article 21: When the invitation contains an indication that the supplies to be purchased should conform to the sample(s) available in the department or in any place specified by the invitation, the bidder should have to view and thoroughly examine the sample before submitting his offer; provided that the bidder's claim of not viewing and performing the required matching or examination should not constitute and excuse to elude from responsibility; and sample viewing should be already implied.

Article 22: The bidder should prepare his offer and prices based upon the enclosed schedules and forms to the invitation, and should seal and sign all of the tender's documents, submitting them enclosed in full with his offer. The bidder is entitled to add any documents or information that might be in-dispensable to clarify his offer, he should also state his complete and precise address in his offer including the post office box number, telephone, facsimile and telex to be used for correspondence purposes with respect to the tender. The bidder should notify the department in writing about any change to update his address, whereas all correspondences that used the last available address and sent by mail should be considered as if they have been delivered actually on time.

Article 23: The offer should be submitted in duplicate (the original and the duplicate copy) handwritten or printed legibly without erasure, altering, dropping or addition. If such editing is necessary, the bidder should sign in red ink next to this erasure, altering, dropping or addition, taking into consideration writing the prices in figures and words. The bidder should, also, quote the unit price and total price for every item in addition to the offer's total value (for the total of applied items). The prices should be considered inclusive for packing and wrapping; otherwise the tenders committee should be entitled to disregard the offer.

Article 24: The bidder should submit the required data and documents that show his experience and technical and financial capability, and the level of his services, as well as any other necessary requirements, when required, to prove his ability to meet his obligations and requirements of the tender, as per a certain form prepared for this purpose, for tenders require that.

Article 25: The bidder should submit the offer on two separate identical copies with the bid bond in one sealed envelope, unless otherwise requested in the tender's invitation with the name of the department who has invited for the tender thereon, in addition to the department's address: P.O. Box, the name and permanent address of the bidder, in addition to tender's reference number in a legible script, and, the closing date. Otherwise, the tenders committee may disregard the offer.

Article 26: The offer should be deposited by the bidder in the tenders' box at the department that has invited for the tender, before the expiration of the specified period, preferably, well ahead of the closing date to avoid any emergency. Every offer that should not be deposited before the closing date should be denied returned closed to its source. In case of not writing the sender's address or adequate information concerning the tender, the department may open that envelope to examine the contents and address if any, to be returned.

Article 27: Offers that are sent directly to the department by means of cable, facsimile, telex or telephone are not acceptable, unless otherwise explicitly stated in the invitation.

Article 28: Offers that are not duly signed and sealed or submitted incomplete and ambiguous in a manner that impedes awarding, should be disregarded.

Article 29: The bidder should enclose original copies or any catalogues, bulletins, know-how or statistical information that introduce the supplies either in Arabic or English, to his offer. The committee should disregard the offer in case of not enclosing the said materials; and the bidder should not be entitled to submit objection thereon.

Article 30: The bidder should submit the required samples in his offer, in case samples were immovable, he should specify the place and time for viewing them; otherwise, tenders committee may disregard the offer.

Article 32: The bidder is obliged to keep his offer valid and irrevocable for a period of (...) days from the closing date, unless otherwise explicitly stated.

Article 33: Offers should be accepted to supply quantities in whole or in part of the required supplies, an item, or more, unless otherwise stipulated in the tenders invitation.

Article 34: When the supplies delivery date was not specified in the tenders invitation, the bidder should exactly specify the delivery date. In case that the delivery date was not specified in either cases, it should be considered an immediate delivery (immediate is understood to be within one week from the date of signing the purchase order "the agreement").

Article 35: The bidder should state in his offer the country of origin for the quoted supplies, name of the manufacturing company, brand, trade name model and catalogue number or the brochure concerning the quoted supplies.

Article 36:

- (a) Enclosed with his offer, the bidder should submit a separate table of the spare parts recommended by the manufacturing company to be used for (...) years in normal conditions, indicating the item number as it is stocked in the manufacturing company, the quantity, and unit price. The total pricing should be binding to the bidder for the

specified period, and the department should be completely free to purchase them within this period in the pricing stated in the aforesaid table, while these spare parts should be brand new and original 100 per cent.

- (b) The bidder should be obliged to provide workshops and spare parts for the supplies that require so, for a minimum of 8 eight years or for the average operating life, unless otherwise stated in the invitation, the bidder should, also be obliged to enclose with his offer the escalation clause for the spare parts pricing, after the expiration of the period set forth in subparagraph (a) hereof, as it is in the county of origin.

Article 38: The bidder's offer should be considered a confirmation that he has not submitted his offer according to his relation with another bidder who applied for an item quoted in his offer, in all cases one bidder is not entitled to submit two separate independent offers for the same supplies either in his name or in his partnership's name, in this case both offers should be disregarded, and the bidder should have to resubmit one specified offer; the bidder could also, enclose some alternative choices in separate documents with his offer, provided that the value of the bid bond should be proportional to the offer's value or the substitute choice whichever the highest.

Article 39:

- (a) The bidder's offer should constitute, with the approved tender's documents after getting notified with awarding, and after the purchase order has been issued by the department, a legally binding agreement unless otherwise stated in the awarding decision and purchase order.
- (b) The bidder's offer should guarantee that the supplied items are brand new (100 per cent) and free of manufacturing or material defects and of up-to-date model, and its production is still continuous, unless otherwise explicitly stated in the contract.

Articles 40-43 of the Instructions regulates *opening of tenders*.

Article 40: Offers should be opened publicly in the place, date and hour specified in the tenders' announcement and in the presence of all the committee's members as for the supplies of common usage, and in the presence of the majority of the committee's members or four of them including its head, for the supplies of special usage, whereas every offer must be signed thereby. The tender's committee is also entitled to recite the total prices for each offer, whereas every bidder or his representative may attend the process of offers opening.

Article 41: A schedule (offers opening minutes) should be prepared by the secretary in which he registers the name of all bidders who participated in the tender with serial numbers. The bid bond value and its kind should also, be registered for every offer with any information the head of tenders committee might consider suitable. Minutes should be signed immediately after opening all offers in addition to stating the number of bidders that have participated in the tender in words, whereas any modifications therein, should be justified in writing, and consolidated by the signature of the tenders committee.

Article 42: Offers or any modifications thereon should not be accepted after the specified date and time of the closing date.

Article 43:

- (a) If the tenders' committee found that the participating bidders are less than the expected number, the committee should decide to extend the period of offers submission (re-tendering), or to change the tender into purchase by requesting for

proposals, in this case offers should be returned closed to bidders who submitted them against their or their representatives signature.

- (b) Upon the conviction of tenders committee of the uselessness of extension it may open the so far submitted offers, and make the necessary study and awarding, in case of finding the offered prices and supplies suitable.

Articles 44-51 regulate the *studying and evaluating of offers* procedures.

Article 44: Submitted offers should be conveyed to special tables therefore.

Article 45: Tenders committee or director general should specify the persons or parties that constitute the technical committee, which should study offers with respect to necessary technical, financial and legal affairs; and then submit its proper recommendation for the tenders committee.

Article 46: Any offer that is not consolidated by the bid bond should be rejected.

Article 47: Offers (Bids) submitted for the invitation should be studied into ascending price order according to the following:

- (a) Offers should be studied with respect of technical aspects in such a way that technical standards, should be specified according to the required supplies specifications on a table prepared for this purpose, and all offers should be subjected to the same criteria, with respect to bidder's commitment (in his offer) with the specifications and conditions of tenders invitation.
- (b) Bidders financial and technical competency to fulfil the tender's obligations should be considered.
- (c) Study of the offers should start with the lowest price offer and graduate into ascending order until finishing up the study of all the submitted offers.
- (d) In case that the offer has fulfilled all conditions, specifications and quality, the technical committee should recommend to award the tender on the tenderer submitted lowest prices.
- (e) Prices of the required supplies stated in the invitation should be compared to specify the lowest congruent, provided that the value of any appendages or spare parts that are not required to be priced in the invitation should be disregarded. Whereas, tenders committee should be entitled to accept appendages and spare parts in the winner offer after awarding it.
- (f) In the case that the requirements were not available in the lowest price offer, the study should go to the offer follows it in price, till it reaches to the suitable offer for awarding, provided that reasons of disregarding (offers with low prices) should be stated explicitly.
- (g) When defects or non-conformity is found in all offers (bids), it should be possible to purchase the offered supplies that satisfy the requirements of the beneficiary department that enjoy quality and suitable prices (the optimal offer).
- (h) Continuation of spare parts and maintenance availability and any other matters required by Supplies Act and the applied instructions should be considered.

- (i) The privileged price granted to national products should be considered in the studying process.

Article 48: In the case that a mistake was found in the offer concerning the total price, the unit price should be considered, and if more than one price for the unit price was found, the problem should be submitted to tenders committee to be settled down according to the implying evidences. The committee could disregard the offer in case of the evidence absence, and in case that there was a difference between the total price stated in figures and total price stated in words, the lowest price should be considered, unless otherwise tenders committee found sufficient evidences to approve the highest option.

Article 49: In the case that specifications, prices, conditions, and quality were all the same, the preference should be given to the bidder whose offer includes additional advantages, then the offer provides national products, then the offer of the bidder permanently resides in the Hashemite Kingdom of Jordan, then the shortest delivery time in the case it serves the interests of the beneficiary department.

Article 50: The Tenders' Committee is entitled to disregard the offer of the bidder who breaches his obligations before concluding the agreement, or the contracts already concluded with him, or who should not abide by the contract's terms, elude or cheat, and provided that violations have been committed in more than one agreement, or more than two times in a single agreement; and the committee should be entitled to deprive him from participating in tenders for the period it specifies.

Article 51: Before awarding the tender, tenders committee should consider the competency and experience of the bidder in the field of providing the required supplies, his goodwill, facilities provided by him or the service that he provides, spare parts, workshops, and solvency; whereas the committee could disregard his offer upon the absence of these requirements either wholly or partially.

Articles 52-64 regulate the procedures pertaining to *awarding* the tender.

Article 52: Tenders should be awarded to winners, with stating reasons according to the following:

- (a) The lowest conformity: If the lowest conformity offer includes the quality in the required supplies and conforming to the specifications and terms in the invitation.
- (b) The lower conformity: If there were some inconsistent offers and some conforming offers, the awarding should be assigned to the lower conforming.
- (c) The optimal: In the case of finding inconsistency in all of the submitted offers, tenders committee might choose the optimal offers with respect to quality, pricing, kind, and conditions that satisfy the required purpose only if the committee finds that up to the beneficiary's departments interest.
- (d) Any other reason that cope with the provisions of Supplies Act, provided that they are sufficiently justified.

Article 53: The tenders committee should reserve the right to disregard any offer that is insufficiently clear to be awarded or implying more than one interpretation.

Article 54: With respect to any offer, the tenders committee is entitled to award from any offer an item or more or any part thereof, unless otherwise the bidder has stipulated, moreover the committee may reject all the offers submitted thereto.

Article 55: The tenders committee may decrease or increase the required quantities invited for before awarding, without referring to the bidder, or after awarding, by the approval of the contractor, provided that the total increase or decrease should not exceed (25 per cent) twenty-five per cent either before or after awarding.

Article 56: The tenders committee may disregard any offer submitted by a bidder who had previously proven to be incapable or failed to satisfy obligations or had impersonated the capacity of representing an establishment or corporation, or claimed that he is the agent in sales affairs, or had hidden his agency on its behalf; either the representation was in favour of a Jordanian or a foreign establishment or corporation.

Article 57: The tenders committee should disregard the offer that did not abide by the specifications, general conditions and instructions, special conditions as well as the applied provisions of Supplies Act; or if its applicant was not efficient, qualified, nor had been stated to be deprived from participating in tenders for the period specified by tenders committee.

Article 58: If a contradiction or conflict occurs between regulations and general conditions and between special conditions, special condition should be considered.

Article 59: Specifications stated in the invitation or the awarding decision should constitute the minimum acceptable limit, and the specifications of the submitted samples should not cancel the specifications stated in the invitation or the awarding decision, unless otherwise the specifications of samples were of superior specifications in comparison.

Article 60: In the case that the tenders committee find that the offered prices were high, it should re-invite for the tender or, purchase by requesting for proposals or by direct purchasing, in accordance with the provision of Supplies Act, the committee is also entitled to disregard the purchasing process wholly or partially; meanwhile on re-tendering, the bidder who purchased the tender's invitation previously could obtain it free of charge.

Article 61: The Secretariat of the tenders committee should have to announce the name of winning bidders by affixing them on a special announcing board, or following the method devised by the director general or secretary general to be accessible for a period of four working days for any objections submitted by any participant bidder. In some exceptional cases, the tenders committee may shorten the period of objection to a minimum period of not less than forty-eight hours.

Article 62: The tenders committee should consider the objections forwarded to it, and should issue decisions concerning them, then it should submit the awarding decision for approval by the concerned authority.

Article 63:

- (a) The director general or secretary general should formulate, through the employees of the department, the decisions of the tenders committee, as well as numbering them with an annually classified serial reference. Having approved these decisions, they should be further formulated into agreements (purchase orders) signed by both parties, whereas copies of these agreements (purchase orders) and decisions should be circulated on the concerned authorities to execute them.
- (b) A copy of the tenders committee's decisions should be circulated on General Supplies Department/Central Register Section.

Article 64: The tenders committee is entitled to cancel any invitation any time, or during any phase without mentioning reasons, it is also entitled to disregard all or some submitted offers, provided that no bidder should have the right to claim any consequent loss or harm, as a result of submitting his offer; furthermore, no financial or non-financial liabilities should be imposed on the committee thereunder.

In practice, offers are opened by the Central Tender Committee every Monday and Wednesday at a fixed time throughout the year. During the evaluation and study process, the Central Tender Committee may contact tenderers for further clarification on technical issues that are to be submitted in writing by the tenderer, provided that such clarifications do not affect the substance of the offer. All tender documents including tender's number, offers, technical committees' reports, minutes of meetings, correspondence with tenderers, bonds and performance guarantees, ..., etc., are maintained in the tender file.

Works and Engineering (Technical) Services:

Governmental works and engineering services are governed by the Government Works Regulation No. 71 for the year 1986. Article 16 of this Regulation decreed the issuance of Instructions to regulate the procedures thereof. Accordingly, these procedures are governed by the Government Works Tenders' Instructions No. 71 for the year 1987.

Purchase of tender documents and the preparation and submission of the tenders:

Article 6 of these Instructions requires the head of the Committee to ensure that all the requirements for announcing a tender as specified in these Instructions, and all the tender documents are available before announcing any tender invitation.

Article 7 requires any tender invitation to include the subject-matter and location of the project in addition to summary description of the project; the price of the tender documents; the category of contractors and/or consultants permitted to participate; the last date on which a contractor can purchase the tender documents and the date, time and location for submitting the tenders; and the amount and source of financing in case of [foreign] financed projects.

Article 8 provides that a tender invitation shall be announced in Arabic in two daily newspapers. However, it may be announced in English in addition to Arabic in case of inviting foreign contractors and consultants to participate.

In case of special invitation tenders, the invitation may be mailed by certified mail or by hand. Moreover, it requires that there shall be a sufficient time between the date of announcing the tender and the date of submission, provided that the time of distributing the copies of the tender documents shall not be less than seven days. In addition, there shall be at least seven days between the last date of selling the tender's documents and the date of submission. The head of the Committee may extend the date of submission, provided that such extension shall be announced in the newspapers or notified to the participants.

Article 10 provides that each supplier shall sign its tender and submit the required copies in a sealed and stamped envelope. All tenders shall be deposited within the time limit in the Tenders' Chest designated for this purpose. The supplier may submit any amendments to its tender or a new tender before the last date of submission as well. In case the envelopes were too big to be deposited in the chest, the supplier may submit it to the Secretary of the Committee. In case a tender was submitted by mail, it shall be by certified mail only.

Article 10 requires foreign suppliers to include in their tender the name of their Jordanian partner, or representative or the license certificate of its registered office in Jordan.

Article 11 provides that there shall be a special chest for tenders. Such chest must carry three different locks, the Head of the Committee keeps one key, the Secretary one key, and another member keeps the third key.

Article 12 regulates the procedures pertaining to *opening* the tenders.

It asserts that the Tender Chest shall be opened at the date and time specified in the invitation in a public session. All participant suppliers may attend this session if they opt to.

Article 13(a) provides that the Committee shall dismiss any tender in the following events:

- (a) If such tender did not include any required bond(s).
- (b) Any tender that has reservations or conditions that contradict with the underlying tender conditions.
- (c) In case there is any scraps or additions or omissions so as to render the tender ambiguous.

Article 13(b) specifies the instances where the Committee may dismiss a tender. This include:

- (a) In case a tenderer did not sign its tender.
- (b) In case a tenderer did not write the unit's prices in words in addition to numbers.

Article 14 regulates the tender's committee procedures in the studying and evaluation of offers as follows:

- (a) The Committee shall follow the following procedures when examining and evaluating offers.
 - (1) Organize minutes for each of its sessions. Such minutes shall be signed by the members of the Committee.
 - (2) Preliminary examine the offers to ensure compliance of the tenderer with the conditions of the tender invitation in terms of his classification, completion of his offer and the non-existence of any conditions that contradict with conditions of the tender invitation.
 - (3) Whenever necessary, refer the offers to a technical committee to study them and prepare a report within the specified time-period.
- (b) When evaluating offers, the Committee shall verify the tenderer's qualification, financial capability and compliance of his offer to the tender invitation conditions and his capability in fulfilling the obligations incurred by the new tender in addition to the volume of his previous obligations in terms of the grade of his classification.
- (c) The Committee may reject any offer if its prices were largely below cost price or the current prices or prices estimated by the relevant entity provided grounds for rejection shall be stated in detail.

- (d) The Committee may summon any tenderer to request any information or analysis for items prices stated in his offer without prejudice to rights of other tenderers. The Committee shall record the results of such discussions in the session's minutes.
- (e) Where the study proves that certain tenderers are not eligible to be awarded the tender, the Chairman of the Committee may decide to return guarantees for such tenderers.

Article 15 regulates the *awarding* procedures.

It asserts that the Committee shall award the tender to the tenderer with the best offer. The award decision, following certification, shall be notified to the entity and the entity notifies the supplier. An award decision shall not be amended unless by a subsequent decision from the same Committee.

23. *Please identify the provisions in your legislation setting the parameters for the prescription of technical specifications by entities as part of the evaluation criteria.*

Supplies:

Article 4 of the Tenders Instructions No. 1 for the year 1994 provides that the beneficiary department should verify the existence of actual need to purchase the required supplies. The said beneficiary department should also verify that the required supplies are not available in the Central Procuring Entity (GSD), excluding the cases of emergency that do not permit such procedures before sending the purchase order to GSD that is concerned with inviting for the tender. The said GSD should proceed as follows:

- (a) review the specifications of supplies requested to be purchased, to assure their generality, precision and unambiguity. For this purpose, GSD may consult experts, technicians or any other body to make sure of that.

Article 37 of the Tenders Instructions No. 1 for the year 1994 provide that in case tenders invitation included a trademark or certain specifications for any supplies, the bidder should not be bound to these specifications or trademarks which merely serve as a guideline to the specifications, characteristics and usage of the required supplies. The bidder could, also, submit the substitutes that have the same equivalent advantages, characteristics and applications that lead to making use of them in the same manner that the nominated materials may act. In this case the required specifications should be considered to be general specifications, to get the required results with respect to the procuring entity.

The following articles regulate the set out of technical committees:

Article 22 of the Supplies Regulation No. 32 for the year 1993:

- (a) Central Tenders Committee or the special tenders committee formed according to this act, may ask for assistance from experts and technicians from government employees or other personnel to make use of their expertise in considering the bids introduced to it, and all departments are required to cooperate completely with these committees in this respect.
- (b) The minister based on the director general's submission may grant the experts, technicians and the technical committee members financial bonuses suitable for the works assigned to them by the central tenders committee.

Tenders Instructions No. 1 for the year 1994 and its amendments:

Article 3 refers to definition of the technical committee as the committee constituted by tenders committee of experts and technicians either by personal names or by representatives of other departments and authorities.

Article 45 stipulates the following:

The tenders committee or the director general should specify the persons or parties that constitute the technical committee, which should study offers with respect to necessary technical, financial and legal affairs; and then submit its proper recommendation for the tenders committee.

Article 47 provides for the following:

Offers (Bids) submitted for the invitation should be studied into ascending price order according to the following:

- (a) Offers should be studied with respect of technical aspects in such a way that technical standards, should be specified according to the required supplies specifications on a table prepared for this purpose, and all offers should be subjected to the same criteria, with respect to bidder's commitment (in his offer) with the specifications and conditions of tenders invitation.
- (b) Bidders financial and technical competency to fulfil the tender's obligations should be considered.
- (c) Study of the offers should start with the lowest price offer and graduate into ascending order until finishing up the study of all the submitted offers.
- (d) In case that the offer has fulfilled all conditions, specifications and quality, the technical committee should recommend to award the tender on the tenderer submitted lowest prices.
- (e) Prices of the required supplies stated in the invitation should be compared to specify the lowest congruent, provided that the value of any appendages or spare parts that are not required to be priced in the invitation should be disregarded. Whereas, tenders committee should be entitled to accept appendages and spare parts in the winner offer after awarding it.
- (f) In case that the requirements were not available in the lowest price offer, the study should go to the offer follows it in price, till it reaches to the suitable offer for awarding, provided that reasons of disregarding (offers with low prices) should be stated explicitly.
- (g) When defects or non-conformity is found in all offers (bids), it should be possible to purchase the offered supplies that satisfy the requirements of the beneficiary department that enjoy quality and suitable prices (the optimal offer).
- (h) Continuation of spare parts and maintenance availability and any other matters required by Supplies Act and the applied instructions should be considered.
- (i) The privileged price granted to national products should be considered in the studying process.

Article 51 stipulates the following:

Before awarding the tender, tenders committee should consider the competency and experience of the bidder in the field of providing the required supplies, his goodwill, facilities provided by him or the service that he provides, spare parts, workshops, and solvency; whereas the committee could disregard his offer upon the absence of these requirements either wholly or partially.

Works and Engineering (Technical) Services:

According to the Government Works Regulation No. 71 for the year 1986:

Article 23 provides the following:

- (a) Construction contractors of all types of constructions shall be classified within graded classes in accordance with financial, technical and administrative qualifications, procurement and expertise in undertaking the constructions. The Minister's Council shall issue instructions for this purpose specifying in which requirements, conditions and classes of classification.
- (b) The Minister's Council shall, upon recommendation of the Minister, form one committee or more to examine applications of classifying construction contractors for all types of constructions, and the classes and grades thereof.
- (c) The Minister shall define, upon recommendation of the competent classification committees, classes and fields of competence in which contractors are classified. This classification shall be reviewed in light of actual practice of the contractor, and of change in the basis upon which such contractor was classified in accordance with the recommendation of the competent classification committees.
- (d) The Minister shall issue schedules of construction contractors' classification and competence and such schedules are to be published in the Official Gazette. The Minister may, however, amend such schedules every now and then by adding names of new contractors, abolishing names of existing ones, or amending the classes or the classes or the fields of work thereof.

According to Government Works' Tendering Instructions:

Article 7(a)(3) provides that the advertising of tendering should include the contractors classes allowed to subscribe in constructions tenders, or the classes and qualification of the consultants allowed to participate in engineering services' tenders as the case may be.

Article 14 provides that the committee should adopt the following procedures when examining and evaluating contracts:

- Transferring tenders offers to a technical committee to examine them whenever needed.
- When evaluating offers, the committee shall verify the legal capacity and the financial ability of the tenderer, and that his/her tender conforms with the terms of the invitation, and his capability to fulfil his obligation under the tender in addition to his previous obligations in light of his classification.

24. *Identify the measures in national legislation ensuring that awards are made in accordance with the evaluation criteria and essential requirements specified in the tender documentation.*

Supplies:

See Article 47 of the Tenders Instructions No. 1 for the year 1994 in question 23 above.

Works and Engineering (Technical) Services:

Article 14 of the Government Works Regulation No. 71 for the year 1986 requires the Committee when considering the tenders to ensure the tenderer's capacity and financial competence as well as the compliance of its tender with the requirements specified in the tender documents.

V. INFORMATION

25. *Article XIX:1 of the Agreement foresees the publication of laws, regulations, judicial decisions, administrative rulings of general application and procedures regarding government procurement. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where the legislation referred to in questions 1 and 2 can be found.*

All laws and regulations in the Kingdom are published in the Official Gazette upon the completion of all constitutional procedures and Royal Assent. Moreover, government procurement requires government budget allocations for each tender. The General Budget Law which regulates such allocations is published in the Official Gazette as well.

As for Instructions, they are issued pursuant to Regulations related to government procurement, they shall be published in the Official Gazette so as to allow public access, such as the Tendering Instructions No. 1 for the year 1994 and amendments thereof, and the Government Works Tendering Instructions No. 71 for the year 1987.

There are in general no legal instruments that regulate the publishing of Administrative or Ministerial Decisions. This is also related to government procurement. However, such Decisions are published in the Official Gazette if it so provided in these decisions. In cases where there is no such provision, the governmental entity may publish them in the manner they deem appropriate, like attaching them to a billboard or publishing them in daily local newspapers or through other media.

Judicial Decisions of the Court of Cassation and the High Court of Justice on the other hand are usually published in specialized journals such as the monthly journal of the Jordanian Bar Association and the specialized magazine issued by the Judicial Institution. Public daily newspapers often, but not regularly publish laws and regulations and instructions and decisions as well.

It is also noted that some governmental entities follow in disseminating legislation in the Kingdom a certain method, i.e. it collects all pieces of legislation related to their work and places them in books available for access of entities concerned with such legislation. For example, the General Supplies Department publishes manuals that contain relevant laws, regulations, instructions and decisions, as well as forms related to the mechanism of purchasing and administrating general supplies. This also applies to the Ministry of Public Works and Housing/General Tenders Directorate concerning works and engineering (technical) services.

Website addresses:

- General Supplies Department (GSD): <http://www.gsd.gov.jo>
- General Tenders Department (GTD): <http://www.gtd.gov.jo>

26. *Article IX:1 of the Agreement foresees the publication of invitations to participate for all cases of intended procurement by entities. Please give the name of the relevant publication(s) and indicate the media to be used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

Supplies:

According to the Supplies Regulation No. 32 for the year 1993:

Article 24 stipulates the following:

The director general or the secretary general invites for tenders, as the case requires, and determines the price of the tender's documents proportional to the printing and preparation expenses of the invitation and the documents attached thereto as well as the tender's value. However, he is allowed to distribute the invitation free of charge to the Arab and foreign commercial attaché and the companies not residing in Jordan and the bodies associated to the Government, and parties he deems that it is to the treasury interest to address the tender invitation thereto.

According to Tendering Instructions No. 1 for the year 1994:

Article 7 deals with the invitation for tenders as follows:

- (a) The director general or the secretary general should announce tenders serially numbered on an annual basis, in not less than three local newspapers, for more than one day, in addition to the other media that he may find appropriate. Currently, tender invitations are published in the daily newspapers: Al-Rai (<http://www.alrai.com>), Addustour (<http://www.addustour.com.jo>), and Al-aswaq, and in Alam Al-Ghad weekly newspaper.
- (b) The announcement should include details about tender's number, kind of supplies, the closing date for purchasing tender's invitation, the deadline for submitting offers, the price of the tender's invitation, and, any other matters that the director general or secretary general may find indispensable for announcement.
- (c) Upon the request of more than one bidder, or upon a certain necessity, the director general or secretary general may extend the date of submitting offers for an appropriate period. Whereas he may announce that in the same media used for announcing for the tender previously.
- (d) The director general or the secretary general should announce the tender that has been decided to be re-invited for.

Works and Engineering (Technical) Services:

According to the Government Works Tendering Instructions No. 71 for the year 1987:

Article 8(a): Tenderers are invited to submit their offers by publishing a tender invitation notice once or more in Arabic in at least two local newspapers. However, a notice in English may be published in addition to Arabic when inviting contractors or foreign councils to participate in a tender.

Currently, tender invitations are published in the daily news papers Al-Rai(<http://www.alrai.com>) and Addustour (<http://www.addustour.com.jo>), and in Alam Al-Ghad weekly newspaper. Tenders invitations and tenders documents for engineering (technical) services tenders are provided through the General Tenders Directorate website also.

Article 8(b): Special invitations' tenders may be transmitted through registered mail or delivered by hand to contractors or councils that the entrepreneur approves to invite to a tender upon recommendation of the Chairman of the Committee.

27. *Please specify the types of information that your legislation requires to be included in notices of invitation to tender or in tender documentation, and identify the relevant provisions in your legislation.*

Supplies:

The Instructions of the Tenders Procedures and Participation Conditions No. 1 for the year 1994 issued pursuant to Article 23 of the Supplies Regulation No. 32 for the year 1993 and amended by Instructions No. 3 for the year 1999 govern the tender invitations requirements.

Article 3 of these Instructions stipulates the following:

Any invitation for a tender shall include the following standard documentation:

- Invitation for tendering, including various standard forms.
- Technical specifications of the required supplies (including forms, charts, drawings and any other details).
- Tender's general conditions and instructions.
- Special conditions (if any).
- Bidders' pre-qualifications (upon request).

Article 7(b): The announcement should include details about tender's number, kind of supplies, the closing date for purchasing tender's invitation, the deadline for submitting offers, the price of the tender's invitation, and, any other matters that the director general or secretary general may find indispensable for announcement.

Works and Engineering (Technical) Services:

According to Government Works Tendering Instructions No. 71 for the year 1987:

Article 4/A. Documents of technical service tenders shall contain the following information and data in addition to any other requirements set by the entity in the tendering invitation.

- (1) General description of the project attached therewith a schedule of the requirements of the department and the purpose of the project's design as well as defining different stages of work in the project.
- (2) Blueprints of lands and of buildings' projects, and general blueprints for other projects as well as eminent domain decisions and any other relevant requirements.
- (3) Limits of the costs within which a contractor must work in terms of the costs for the project intended to be designed.
- (4) Terms of contract and the contract's draft and the method of submitting tenders.

- (5) Means of defining the time limits of execution of work, consideration and the amount of required bonds.

Article 4/B: Documents of tenders shall contain the following data and requirements in addition to any other requirements set by the entity in the tendering invitation.

- (1) Description of the project: provided it contains basic information of the nature, size and location of the project for any type of the following required works:
- Buildings Projects: defining the number and size of the buildings and floors or any other annexed complexes, and also the works and services of the site.
 - Roads Projects: defining the type, length, width, number of lines, starting and ending points of the road as well as sewerage works, bridges and intersections.
 - Other Projects: defining information related to the project according to its nature.
- (2) Instructions of the contract: including guidelines and conditions by which contractors and tenderers abide relating to submission of tenders, the amount of bid bonds, basic information about the contractor and qualification thereof, information and documents or other data to be attached to the offer.
- (3) General conditions of the contracting contract: those are the conditions specified in the construction contract's text issued by the Ministry and by which all departments and councils shall abide to.
- (4) Special conditions of the construction contract: the conditions complementary to the general conditions and any amendments thereof, and any other additional conditions required by the contract including conditions related to financing, the mechanism of execution and stages of the project as well as the right of the entity to divide it.
- (5) Blueprints: they are the detailed blueprints necessary to execute a project as well as the blueprints of the site and land and the regulatory blueprints.
- (6) Technical specification and schedules of quantities and prices: including the general and specific technical specifications related to a project, and schedules of quantities and prices titled in parts of infrastructure, site, skeleton and finishings.
- (7) Contract forms and bonds.
- (8) Any other annexes to the tenders' documents.

Article 7/A. A tender invitation shall contain the following:

- (1) Subject-matter of the tender, site map with a brief description of the project.
- (2) The price of tender documents.
- (3) The categories of contractors allowed to participate in construction tenders, or the categories and qualifications of the consultants permitted to participate in engineering services tenders as the case may be.

- (4) The time-limits at which the contractor is allowed to buy a copy of the tender, and the exact date and hour for submitting the offers and the place of submission.
- (5) The amount and sources of finance and its source for financed projects as well.

28. *Article IX:1 of the Agreement foresees publication of permanent lists of qualified suppliers by entities maintaining such lists. Please give the name of the publication(s) and indicate the means used for this purpose. Please also provide, where available, the address of an Internet website where such invitations are published.*

Supplies:

See answers to questions 17 and 18.

Works and Engineering (Technical) Services:

The Government Works Regulation No. 71 for the year 1986 regulates the publication of such lists.

Article 23 provides that the Minister of Public Works and Housing shall issue schedules pertaining to the classification of constructions contractors and their specialties and publish these schedules in the Official Gazette.

In addition to publishing these schedules in the Official Gazette the Constructions Contractors Association publishes special publications on contractor's classification. The Engineers' Association publishes special publications on consultants' classification as well. Lists of qualified local consultants and classified local contractors are also published on the Government Tenders Directorate website.

Website addresses:

- General Supplies Department (GSD): <http://www.gsd.gov.jo>
- General Tenders Department (GTD): <http://www.gtd.gov.jo>

29. *Article XVIII:1 of the Agreement foresees the publication of details of contract award notices by entities. Please give the name of the relevant publication(s) and indicate the means to be used for this purpose. Please also provide, where available, the address of an Internet website where such notices are published.*

Supplies:

Article 61 of the Tenders Instructions No. 1 of the year 1994 requires the secretariat of the tenders committee to announce the name of winning bidders by affixing them on a special announcing board, or following the method devised by the director general or secretary general to be accessible for a period of four working days for any objections submitted by any participant bidder. In some exceptional cases, tenders committee may shorten the period of objection to a minimum period of not less than forty-eight hours.

In practice, the only method used by the government is posting such notices on a board located in the entity's location. All participants are notified of the result by telephone and the winner bidder is provided by a copy of the award decision.

Works and Engineering (Technical) Services:

Article 15(b) of the Government Works Tenders Instructions No. 71 for the year 1987 provides that the Committee shall notify the entity with the award notices, which on its part shall notify it to the selected supplier.

There is no publication requirement under these Instructions. However, in practice the result of award is announced on the notice board at the premises of the Government Tenders Directorate and is also announced through GTD's internet website.

30. *Please specify the types of information that notices of contract awards should contain in your country and identify the relevant provisions in your legislation.*

Supplies:

Article 63 of the Tenders Instructions No. 1 for the year 1994 and Article 25 of the Supplies Regulation No. 32 for the year 1993 regulate this issue. The General Supplies Department issues certain forms, which became some sort of a de facto requirements followed by most entities. These forms include:

(a) Preliminary Contract Award Summary Notice

Includes the following information: the tender's number, supplier's name and address, a schedule of the required supplies which shows the item's number, name, model, unit, quantity, unit price, total price, delivery period, country of origin, manufacturer, and reason for awarding. It also includes the signature of the technical committee members and the Central Tender Committee members.

(b) Contract Award Decision

Includes, *inter alia*, the tender's number, the number of tenders submitted, the total amount, itemization of the procured supplies with the name of each selected supplier for each item, place of delivery, the selected supplier obligations, such as bonds, taxes, method of payment, and the Central Tender Committee members signatures.

(c) Notification of Award

Includes the following: selected supplier's name and address, award decision number and tender number, total amount, instructions to the supplier to be present at the entity's location to pay the fees and submit the performance guarantee within seven days of receipt of this notice, a schedule of fees and taxes due as a result of the award decision.

(d) Purchase Order

Includes the following: purchase order number and date, supplier's name and address, contract award decision to which a schedule of the required items and their prices is attached, a signed pledge by the supplier to perform its obligations under the purchase order, and the signature of the authorized person of the procuring entity.

Works and Engineering (Technical) Services:

The Government Tenders Directorate sends an award notice to the successful tenderer informing him that he was awarded the tender and requesting him to be present at the entity's location to pay the fees within 10 days as receipt of the notice, and submit the performance guarantee within 14 days of receipt of notice and sign the contract accordingly.

31. *Please specify the relevant provisions in your legislation enabling, as foreseen in Article XVIII:2, the provision of information to other Parties and unsuccessful tenderers regarding the reasons why a tender was not selected.*

Supplies:

There is nothing in the Tenders' Procedures and Participation Conditions Instructions No. 1 for the year 1994 that requires the technical committee to provide such information.

Nevertheless, Article 47 of the above Instructions requires the technical committee to start the selection process with the offer with the lowest price then move to the next lowest one until it makes its decision according to compliance with technical specifications and conditions. It also requires the technical committee to identify the reasons for dismissing the unsuccessful offers.

In practice, unsuccessful tenderers are granted access to the technical committee's report which include the reasons for dismissal.

Works and Engineering (Technical) Services:

The Government Works Regulation and the instructions issued pursuant to this Regulation do not regulate this matter. The instructions only specify the circumstances where the Committee shall dismiss a tender and the circumstances where it may dismiss a tender. Nothing in these instructions requires the Committee to identify the reasons for dismissing any tender or to enable unsuccessful tenderers to look at the reasons of dismissal.

VI. BID CHALLENGE PROCEDURES

32. *Please provide information on existing challenge procedures.*

33. *Are there specific provisions enabling access of foreign suppliers to challenge procedures?*

34. *To the extent that this information does not fully respond to the following points, please provide the supplementary information necessary to do so:*

(i) *The time-limit to launch a complaint contained in the Agreement is "not less than 10 days" from the time when the basis of the complaint is known or reasonably should have been known. What are the limits in domestic legislation?*

(ii) *What body is responsible for the challenge procedures? Is this a "court" or an "impartial and independent review body"? If the latter:*

- *How are its members selected?*

- *Are its decisions subject to judicial review?*

- *If not, how will the requirements of paragraph 6 of Article XX be taken into account?*

- (iii) *What is the applicable law by reference to which the challenge body will examine complaints?*
- (iv) *Which rapid interim measures are provided to correct breaches of the Agreement and to preserve commercial opportunities?*
 - *Do these measures include the possibility to suspend the procurement process? On what conditions?*
- (v) *How do challenge procedures provide for correction of the Agreement? What types of compensation for loss or damages suffered can the challenge body order?*
- (vi) *Give any available information on the time-periods for the stages of the challenge process, including to obtain interim measures and a final decision.*
- (vii) *What are the usual costs to conduct a challenge procedure? Are there possibilities foreseen to do so free of charge?*

As a general rule, contract award decisions are considered "administrative decisions", therefore, they are subject to the general rules applicable to administrative decisions, and they fall within the jurisdiction of the High Court of Justice.

The High Court of Justice Law No. 12 for the year 1992 regulates the challenge procedures for all administrative decisions. Article 9 specifies the Court's jurisdiction.

In the case of contract award decisions, a case may be filed against the entity that issued the award decision. Administrative decisions can only be challenged for one or more of the following basis:

- (a) The issuing entity's lack of jurisdiction.
- (b) Violation of the Constitution, Laws, Regulations or misapplication or misinterpretation of such.
- (c) If the decision was defective or the procedures of issuing the decisions were effective.
- (d) Arbitrary and Capricious decisions.

A case must be filed within 60 days of the date of notification. However, before challenging the decision in the Court, the plaintiff must exhaust all the administrative challenging methods available. Article 18 of the Government Works Regulation required the Committee to refer its decision to the entity authorized to endorse such decision within seven days of the date of issuing the decision. This entity shall endorse the decision within 30 days from the date of receipt. A tenderer who is willing to challenge an award decision must challenge that decision at the issuing entity prior to the endorsement of that decision.

Supplies:

The Tenders' Procedures and Participation Conditions Instructions No. 1 for the year 1994 sets out the challenge procedures available under these Instructions.

Article 61 requires the Secretariat of the Committee to post the award decision on a bulletin board prepared specially for this purpose for four working days so as to enable unsuccessful tenderers to challenge such decision. This period can be reduced to forty-eight hours in exceptional circumstances.

Article 62 states that the Committee shall examine the challenges and issue its final decision thereupon then refers the decision to the entity authorized to endorse it. This entity on its part must endorse the decision within 15 days from the date of receipt or it shall be considered certified by virtue of the law. (Article 21 of the Supplies' Regulation.)

Works and Engineering (Technical) Services:

The Government Works Tenders' Instructions No. 71 for the year 1987 does not provide any challenge procedures. Nonetheless, it does not prohibit such challenge.

We can conclude from Article 15 of these Instructions that an unsuccessful tenderer may challenge an award decision in the period between the issuance of the decision and the certification of this decision.

- Under Article 9(B) of the High Court of Justice Law The Court shall have jurisdiction in all compensation claims resulting from administrative decisions and procedures.
- The applicable law by which the Court examines complaints is the relevant applicable Jordanian Law. This can be the Supplies Regulation, the Government Works Regulation or any other legislation depending on the procuring entity.
- As for interim measures, under Article 20 of the High Court of Justice Law, the court, upon the request of the any party to the proceeding, may take any preliminary decisions it deems appropriate upon filing the case or during the proceedings including temporarily suspending the administrative decision. The Court may require the party requesting such measures to post a monetary guarantee as it deems appropriate as a surety against any damages in case the party requesting such measures was proven not rightful in his claim.
- Article 26(B) of the High Court of Justice Law provides that the Court's ruling shall be final and may not be challenged before any entity. If the Court revokes the administrative decision, all procedures, legal and administrative acts performed as a result of the revoked decision shall be deemed void as of the date of issuing the decision.
- As for the costs, Article 16 of the High Court of Justice Law provides that fees for filing any case with the High Court of Justice shall be charged in accordance with the fees stipulated in the Courts Fees Regulation. Article 25 of the Courts Fees Regulation provides that fees for cases filed with the High Court of Justice shall be determined by the Chief of the High Court of Justice provided that such fee is no less than fifty Jordanian Dinars and no more than two-hundred Jordanian Dinars. As for compensation claims, the fee shall be the same as in civil cases.
- There are no specific time-periods for judicial proceedings.

VII. OTHER MATTERS

35. *To what extent is information technology being used in the process of government procurement? Are notices of invitations to tender and/or notices of contract awards published electronically? Please provide the address of such electronic publications.*

Supplies:

The General Supplies Department's website is still under construction.

Works and Engineering (Technical) Services:

The Government Tenders Directorate's website provides information on some tenders. Tenders invitations and tender documents for engineering consultancy services are provided through the website.

36. *Is there a contact point in your country for responding to enquiries from suppliers, other governments and the wider public relating to laws, regulations and procedures and practices regarding government procurement at the central and/or sub-central level? Please provide the address.*

Committee on Government Procurement

Original: English

MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)¹

The following notification from the Permanent Mission of Japan was received on 11 November 2000, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Japan's Annex 1 of Appendix I of the Agreement.

This rectification is necessary as a result of re-organization of Japan's central government to be effective on 6 January 2001, which is shown below. This rectification does not alter the level of mutually agreed coverage provided in the Agreement.

Accordingly, pages 1/3 and 2/3 of Annex 1 to Appendix I of Japan in WT/Let/354 of 22 August 2000 should be rectified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

3. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.

4. This Agreement will generally apply to procurement by the Defence Agency of the following Federal Supply Classification (FSC) categories subject to the Japanese Government determinations under the provisions of Article XXIII, paragraph 1:

FSC Description

- 22 Railway Equipment
- 24 Tractors
- 32 Woodworking Machinery and Equipment
- 34 Metalworking Machinery
- 35 Service and Trade Equipment
- 36 Special Industry Machinery
- 37 Agricultural Machinery and Equipment
- 38 Construction, Mining, Excavating, and Highway Maintenance Equipment
- 39 Materials Handling Equipment
- 40 Rope, Cable, Chain, and Fittings
- 41 Refrigeration, Air Conditioning, and Air Circulating Equipment
- 43 Pumps and Compressors
- 45 Plumbing, Heating and Sanitation Equipment
- 46 Water Purification and Sewage Treatment Equipment
- 47 Pipe, Tubing, Hose, and Fittings
- 48 Valves
- 51 Hand Tools
- 52 Measuring Tools
- 55 Lumber, Millwork, Plywood and Veneer
- 61 Electric Wire, and Power and Distribution Equipment
- 62 Lighting Fixtures and Lamps
- 65 Medical, Dental, and Veterinary Equipment and Supplies
- 6630 Chemical Analysis Instruments
- 6635 Physical Properties Testing Equipment
- 6640 Laboratory Equipment and Supplies
- 6645 Time Measuring Instruments
- 6650 Optical Instruments
- 6655 Geophysical and Astronomical Instruments

Notes to Annex 1

1. Entities covered by the Accounts Law include all their internal sub-divisions, independent organs, attached organizations and other organizations and local branch offices provided for in the National Government Organization Law and the Law establishing the Cabinet Office.
2. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.

Notes to Annex I

1. Entities covered by the Accounts Law include all their internal sub-divisions, independent organs, attached organizations and other organizations and local branch offices provided for in the National Government Organization Law and the Law establishing the Cabinet Office.
2. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.
3. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.
4. This Agreement will generally apply to procurement by the Defence Agency of the following Federal Supply Classification (FSC) categories subject to the Japanese Government determinations under the provisions of Article XXIII, paragraph 1:

... 2000 (WT/Let/...)

WORLD TRADE ORGANIZATION

RESTRICTED

GPA/W/101/Add.5

15 November 2000

Committee on Government Procurement

Original: English

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2001

UNITED STATES

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2001.

The information notified by the United States is reproduced below.

THRESHOLD CALCULATIONS FOR THE PERIOD 2000-2001 OF THE UNITED STATES

ANNEX 1

	SDRs	US\$
1. Supplies and services	130,000	177,000
2. Construction	5,000,000	6,806,000

ANNEX 2

	SDRs	US\$
1. Supplies and services	355,000	483,000
2. Construction	5,000,000	6,806,000

ANNEX 3

	SDRs	US\$
1. Supplies and services (except entities identified in Annex 3 to which threshold of US\$250,000 applies)	400,000	545,000
2. Construction	5,000,000	6,806,000

PROPOSED MODIFICATIONS TO APPENDICES I-IV OF HONG KONG, CHINA

Notification from Hong Kong, China under Article XXIV:6(a)

The following notification from the Hong Kong Economic and Trade Office was received on 27 October 2000, with the request that it be circulated to the Parties to the Agreement on Government Procurement. In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

1. Pursuant to paragraph 6(a) of Article XXIV of the Agreement on Government Procurement (1994) (the "Agreement"), Hong Kong, China hereby notifies the Committee on Government Procurement of the following modifications to the Appendices of the Agreement:

- (a) In Annex 3 of Appendix I:
 - rename "Mass Transit Railway Corporation" as "Mass Transit Railway Corporation Limited".
- (b) In Annex 3 of Appendices II, III and IV:
 - rename "Mass Transit Railway Corporation" as "Mass Transit Railway Corporation Limited".
- (c) In Annex 3 of Appendix II, with regard to the publication listed opposite "Mass Transit Railway Corporation Limited", replace "Daily Press" by:
 - "Any of the following:
 - Daily Press
 - Home Page on the Internet (<http://www.mtr.com.hk>).

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

2. The modifications in (a) and (b) above are necessary as a result of the privatization of the Mass Transit Railway Corporation (MTRC). Under the Mass Transit Railway Ordinance enacted in March 2000, all assets and liabilities of the MTRC were vested into a new limited company formed under the Companies Ordinance, the Mass Transit Railway Corporation Limited (MTRCL), on 30 June 2000. Such modifications do not alter the level of mutually agreed coverage provided in the Agreement. The modification in (c) above reflects the latest publication arrangements of an Annex 3 entity.

3. In accordance with the latest procedures for future changes to the loose-leaf system for appendices to the Agreement (GPA/W/110), the updated version of Annex 3 of Appendices I-IV with modifications highlighted are attached at Attachment A, a clean version is at Attachment B.

4. Accordingly, page 1/1 of Annex 3 to Appendix I of Hong Kong China; page 2/4 (English, French and Spanish) of Appendix II; page 1/3 (English, French and Spanish) of Appendix III; page 3/4 (English) and page 3/5 (French and Spanish) of Appendix IV should be modified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the modifications.²

² The Attachments are in the original language only.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000

NORWAY

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the year 2000.

The information notified by Norway is reproduced below.

THRESHOLD CALCULATIONS – FOR THE YEAR 2000

The calculation of the threshold values of the WTO Agreement in Nkr has been based on the average daily exchange rates for SDR to Nkr and EURO to Nkr over 24 months from September 1998 through August 2000. The average exchange rates are:

1 SDR = Nkr 10,9067

1 ECU = Nkr 8,3335

These exchange rates give the following threshold values:

	Annex 1 Entities	Annex 2 Entities	Annex 3 Entities	Works all entities
Threshold in GPA in SDR	130,000	200,000	400,000	5,000,000
Threshold in GPA in Nkr	1,417,871	2,181,340	4,362,680	54,533,500
Threshold in EEA in EURO	200,000	200,000	400,000	5,000,000
Threshold in EEA in Nkr	1,666,700	1,666,700	3,333,400	41,667,500
Threshold in Norway in Nkr	1,400,000	1,600,000	3,300,000	41,000,000

./.

The value of SDR in Nkr has on average been higher than the value of EURO in Nkr in the 24 months on which the calculation is based. This gives a higher GPA threshold compared to the EEA/EU thresholds, except for Annex 1 entities. In order to comply with both the WTO Agreement on Government Procurement and the EEA Agreement with a single set of threshold values, Norway has determined to set a rounded threshold based on the lowest threshold values for Annex 2 and Annex 3 entities and for works contracts.

APPENDIX I

ANNEX 1

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 130,000

Services (specified in Annex 4)

Threshold: SDR 130,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

The following central government entities including:

Central purchasing entities not having an industrial or commercial character governed by Act no. 63/1970 on the arrangement of public works contracts, and Act no. 52/1987, on government procurement, as amended.

The entities in charge of government procurement are the following bodies:

Ríkiskaup (State Trading Center)

Framkvæmdasýslan (Government Construction Contracts)

Vegagerð ríkisins (Public Road Administration)

Siglingastofnun (Icelandic Maritime Administration)

ANNEX 2

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 200,000

Services (specified in Annex 4)

Threshold: SDR 200,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

1. Contracting local public authorities, including all municipalities.
2. Public bodies at the local level not having an industrial or commercial character.

ANNEX 3

*Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 400,000

Services (specified in Annex 4)*

Threshold: SDR 400,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Sectors:

1. *The electricity sector:*

Landvirkjun (The National Power Company), *lög nr. 42/1983.*

Rafmagnsveitur ríkisins (The State Electric Power Works), *orkulög nr. 58/1967*

Orkuveita Reykjavíkur (Reykjavík Energy).

Orkubú Vestfjarða (Vestfjord Power Company), *lög nr. 66/1976.*

Other entities producing, transporting or distributing electricity pursuant to *orkulög nr. 58/1967.*

Strætisvagnar Reykjavíkur (The Reykjavík Municipal Bus Service).

Almenningsvagnar bs.

Other Municipal bus services.

3. *Airports:*

Flugmálastjórn (Directorate of Civil Aviation)

4. *Ports:*

Siglingastofnun, (Icelandic Maritime Administration).

Other entities operating pursuant to *Hafnalög nr. 23/1994.*

5. *Water supply:***

Public entities producing or distributing drinking water pursuant to *lög nr 81/1991, um vatnsveitur sveitarfélaga.*

Notes to Annex 3

* This Agreement shall not apply to service contracts which:

- (a) a contracting entity awards to an affiliated undertaking;
- (b) are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out a relevant activity within the meaning of paragraphs 1-5 of this Annex to one of those contracting entities or to an undertaking which is affiliated with one of these contracting entities;

Provided that at least 80 per cent of the average turnover of that undertaking with respect to services arising within the EEA for the three preceding years derives from the provision of such services to undertakings with which it is affiliated. When more than one undertaking affiliated with the contracting entity provides the same service or similar services, the total turnover deriving from the provision of services by those undertakings shall be taken into account.

** The supply of drinking water and electricity to networks which provide a service to the public by a contracting entity other than a public authority shall not be considered as a relevant activity within the meaning of paragraphs 1 and 5 of Annex 3 where:

- the production of drinking water or electricity by the entity concerned takes place because its consumption is necessary for carrying out an activity other than that referred to in paragraphs 1 and 5 of this Annex; and
- supply to the public network depends only on the entity's own consumption and has not exceeded 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years, including the current year.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:*

<i>Subject</i>	<i>CPC Reference N</i>
Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 71235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752** (except 7524, 7525, 7526)
Financial services	ex 81
(a) Insurance services	812, 814

<i>Subject</i>	<i>CPC Reference N</i>
Publishing and printing services on a fee or contract basis	88442
Sewage and refuse disposal; sanitation and similar services	94

Notes to Annex 4

- * except for services which entities have to procure from another entity pursuant to an exclusive right established by a published law, regulation or administrative provision
- ** except voice telephony, telex, radiotelephony, paging and satellite services
- *** except contracts for financial services in connection with the issue, sale, purchase, or transfer of securities or other financial instruments, and central bank services
- **** except arbitrations and conciliation services

ANNEX 5

Construction Services

Definition:

A construction service contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All public works/construction services of Division 51.

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. Iceland will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (1) (electricity), to the suppliers and service providers of Canada, Singapore and Japan;
 - (2) (urban transport), to the suppliers and service providers of Canada, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Iceland has accepted that the Parties concerned give comparable and effective access for Icelandic undertakings to the relevant markets;

 - to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Japan, Korea and Switzerland in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Iceland accepts that they have completed coverage of sub-central entities;
 - Japan and Korea in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Iceland, until such time as Iceland accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
 - Israel, Japan and Korea in contesting the award of contracts by Icelandic entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.
3. Until such time as Iceland has accepted that the Parties concerned provide access for Icelandic suppliers and service providers to their own markets, Iceland will not extend the benefits of this Agreement to suppliers and service providers of:

- Canada as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the USA as regards air traffic control equipment;
 - Israel and Korea as regards procurement by entities listed in Annex 3, paragraph 1, as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;
 - Canada and the USA as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.
4. Contracts awarded by entities in Annexes 1 and 2 in connection with activities in the fields of drinking water, energy, transport or telecommunications, are not included.
5. With regard to Annex 3, this Agreement shall not apply to the following contracts:
- contracts which the contracting entities under paragraph 5 award for the purchase of water;
 - contracts which the contracting entities under paragraph 1 award for the supply of energy or of fuels for the production of energy;
 - contracts which the contracting entities award for purposes other than the pursuit of their activities as described in this Annex or for the pursuit of such activities in a non-EEA country;
 - contracts awarded for purposes of re-sale or hire to third parties provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and that other entities are free to sell or hire it under the same conditions as the contracting entity;
 - contracting entities exercising activities in the bus transportation sector where other entities are free to offer the same services in the same geographical area and under substantially the same conditions.
6. With regard to Annex 4, this Agreement shall not apply to the following:
- contracts for the acquisition or rental, by whatever financial means, of land, existing buildings, or other immovable property or concerning rights thereon;
 - contracts for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time;
 - contracts awarded to an entity which is itself a contracting authority within the meaning of the Public Procurement Act: "Lög um opinber innkaup (52/1997) and Regulation (302/1996) on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision;
 - contracts of employment.

7. The Agreement shall not apply to contracts awarded under:
- an international agreement and intended for the joint implementation or exploitation of a project by the signatory States;
 - an international agreement relating to the stationing of troops;
 - the particular procedure of an international organization.
8. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.
-

PROPOSED MODIFICATIONS TO APPENDIX I OF HONG KONG, CHINA

Notification from Hong Kong, China under Article XXIV:6(a)

The following notification from the Hong Kong Economic and Trade Office was received on 10 July 2000, with the request that it be circulated to the Parties to the Agreement on Government Procurement. In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

1. Pursuant to paragraph 6(a) of Article XXIV of the Agreement on Government Procurement (1994) (the "Agreement"), Hong Kong, China hereby notifies the Committee on Government Procurement of the following modifications to the Appendices of the Agreement:

- (a) In Annex 1 of Appendix I:
 - (i) delete "Industry Department";
 - (ii) rename "Trade Department" as "Trade and Industry Department"; and
 - (iii) add "Invest Hong Kong".
- (b) In Appendices II, III and IV:
 - (i) in Annex 2, delete the heading "Annex 2" and all publications listed under that heading; and
 - (ii) in Annex 3, with regard to the publication listed opposite to "Hospital Authority", replace "The Government of the Hong Kong Special Administrative Region Gazette" by "Home Page on the Internet (<http://www.ha.org.hk>)".

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

- (c) In Appendix II, Annex 3, with regard to the publication listed opposite "Airport Authority", replace "Daily Press" with:

"Any of the following:

- Daily Press
- Home Page on the Internet (<http://www.hkairport.com>)".

2. The modifications in (a) above are necessary as a result of a re-organization of certain government departments to be effective on 1 July 2000. Such modifications do not alter the level of mutually agreed coverage provided in the Agreement. The modifications in (b)(i) above are necessary consequent to the deletion of all Annex 2 entities from Appendix I, and those in (b)(ii) and (c) above reflect the latest publication arrangements of two Annex 3 entities.

3. Accordingly, pages 1/2 and 2/2 of Annex 1 to Appendix I of Hong Kong, China; page 2/4 (English, French and Spanish) of Appendix II; page 1/3 (English, French and Spanish) of Appendix III; pages 2/4 and 3/4 of Appendix IV (English); pages 3/5 of Appendix IV (French) and pages 2/5 and 3/5 of Appendix IV (Spanish) should be modified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the modifications.²

² The Attachments are in English only.

REPÚBLICA DE COREA

Kwanbo (Diario Oficial del Gobierno de Corea)

MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)¹

The following notification from the Permanent Mission of Japan was received on 12 July 2000, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 1 of Appendix I of the Agreement:

- Delete "Financial Supervisory Agency"; and
- add "Financial Services Agency".

This rectification is based on the fact that on 1 July 2000, the "Financial Supervisory Agency" was re-organized as the "Financial Services Agency". This rectification does not alter the level of mutually agreed coverage provided in this Agreement.

Accordingly, pages 1/3 and 2/3 of Annex 1 to Appendix I of Japan in the Loose-Leaf System of Appendices should be modified as in Attachment A to this document (red-lined version). Attachment B shows the relevant pages of the loose-leaf system as they would look after the acceptance of the modifications.²

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

² Both Attachments are in English only.

ATTACHMENT A

JAPAN

(Authentic in the English language only)

ANNEX 1

*Central Government Entities which Procure in Accordance
with the Provisions of this Agreement*

Supplies

Threshold:

130 thousand SDR

4. This Agreement will generally apply to procurement by the Defence Agency of the following Federal Supply Classification (FSC) categories subject to the Japanese Government determinations under the provisions of Article XXIII, paragraph 1:

FSC Description

- 22 Railway Equipment
- 24 Tractors
- 32 Woodworking Machinery and Equipment
- 34 Metalworking Machinery
- 35 Service and Trade Equipment
- 36 Special Industry Machinery
- 37 Agricultural Machinery and Equipment
- 38 Construction, Mining, Excavating, and Highway Maintenance Equipment
- 39 Materials Handling Equipment
- 40 Rope, Cable, Chain, and Fittings
- 41 Refrigeration, Air Conditioning, and Air Circulating Equipment
- 43 Pumps and Compressors
- 45 Plumbing, Heating and Sanitation Equipment
- 46 Water Purification and Sewage Treatment Equipment
- 47 Pipe, Tubing, Hose, and Fittings
- 48 Valves
- 51 Hand Tools
- 52 Measuring Tools
- 55 Lumber, Millwork, Plywood and Veneer
- 61 Electric Wire, and Power and Distribution Equipment
- 62 Lighting Fixtures and Lamps
- 65 Medical, Dental, and Veterinary Equipment and Supplies
- 6630 Chemical Analysis Instruments
- 6635 Physical Properties Testing Equipment
- 6640 Laboratory Equipment and Supplies
- 6645 Time Measuring Instruments
- 6650 Optical Instruments
- 6655 Geophysical and Astronomical Instruments

Notes to Annex 1

1. Entities covered by the Accounts Law include all their internal sub-divisions, independent organs, attached organizations and other organizations and local branch offices provided for in the National Government Organization Law.
2. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.
3. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.

Committee on Government Procurement

**INDICATIVE TIME-FRAME FOR ACCESSION NEGOTIATIONS
AND REPORTING ON THE PROGRESS OF WORK**

Note by the Secretariat

Revision

1. In the context of its discussion regarding the improvement of the procedures for accession under Article XXIV:2, the Committee agreed at its October 1999 meeting that the Secretariat would prepare a note on the establishment of an indicative time-frame for accession negotiations together with a procedure for regular reporting to each Committee meeting on progress in bilateral consultations (GPA/M/12, paragraph 21). A note was prepared in response to this request and discussed at the March 2000 Committee meeting (GPA/W/109). This revised version takes into account the comments made by Parties at that meeting.

2. Certain basic procedures for accession negotiations have already been adopted by the Committee in its Decision of February 1996 on the Procedures for Accession under Article XXIV:2 of the Agreement (GPA/1, Annex 2). This Decision reads as follows:

"1. In accordance with paragraph 2 of Article XXIV of the Agreement on Government Procurement (1994), any government which is a Member of the WTO may accede to this Agreement on terms to be agreed between that government and the Parties.

"2. To this effect, a government interested in accession shall communicate its interest to the Director-General of the WTO and, through him, to the Committee on Government Procurement and shall submit relevant information including an offer by way of appropriate Appendices containing lists of entities and services which would be covered by the Agreement, as well as lists of relevant publications, having regard to the provisions of the Agreement, in particular Article I and, where appropriate, Article V.

"3. The government interested in accession shall hold consultations with the Parties to the Agreement on the terms for its accession to the Agreement.

"4. With a view to facilitating accession, the Committee on Government Procurement shall establish a working party if the applicant government, or any Party to the Agreement, so requests. The working party should examine: (i) the coverage offer made by the applicant government; and (ii) relevant information pertaining to export opportunities in the markets of the Parties, taking into account the existing and potential export capabilities of the applicant government and export opportunities for the Parties in the market of the applicant government.

"5. Upon a decision by the Committee on Government Procurement agreeing to the terms of accession including the lists of entities and services as well as of relevant publications of the applicant government, the applicant government shall deposit with the Director-General of the WTO an instrument of accession which states the terms so agreed. The applicant government's lists of entities, services and publications in their authentic WTO language(s) shall be appended to the Agreement."

3. Attached is a table setting out a suggested indicative timetable for accession negotiations. It will be noted that the table does not specifically include the option of establishing a working party, as provided for under paragraph 4 of the above Decision. The reason is that, in practice, this option has not been availed of so far. However, should an applicant government or any Party to the Agreement request the establishment of such a working party, consequential modifications would need to be made to the suggested indicative timetable.

4. The suggested indicative timetable seeks to take into account the fact that accession negotiations have two main aspects and involve basically two mechanisms. The first aspect is the negotiation of an agreed coverage to be reflected in Appendices containing lists of entities and services as well as lists of relevant publications. The second is ensuring the consistency of the applicable national legislation with the provisions of the Agreement. The two main mechanisms used for these purposes are bilateral consultations between an acceding country and interested Parties and plurilateral consultations. The negotiations on commitments to be included in the Appendices are more focused on bilateral consultations whereas the other aspect of the negotiations is largely conducted through the plurilateral mechanism. These two aspects and mechanisms overlap to some extent and should proceed in parallel. As the Committee has already indicated, it is important that there should be a regular plurilateral review of the bilateral parts of the accession process and, of course, the results of both aspects of the negotiations must come together at the plurilateral level in the preparation and adoption of a decision setting out the terms of accession.

5. It will be noted that it is not suggested that an applicant country should necessarily be required to submit its initial offer on coverage at the same time as its application for accession. On the whole, in the accessions so far, applicant countries have submitted their initial offer together with their application for accession, but paragraph 2 of the Committee Decision of February 1996 would not seem to necessarily require this. There may be merit in providing for the possibility of an initial round of plurilateral and bilateral discussions before requiring the applicant to submit an initial offer, without of course preventing a country from submitting an initial offer at the same time as its application if it is in a position to do so.

6. With regard to the largely plurilateral process of provision by the applicant country of information on its procurement regime, the Committee has already adopted a Checklist of Issues to act as a guide to applicant countries in submitting such information (GPA/35). It is suggested in the attached indicative timetable that, following the circulation of the responses to the Checklist and other relevant data, provision might be made for Parties to seek further clarification of the applicable legislation and procedures through informal plurilateral consultations including a question and answer procedure. The questions put and answers provided would be circulated to all Parties. If necessary, provision could also be made for follow-up questions and answers.

7. In its request for the preparation of this note, the Secretariat was asked to consider the question of a procedure for regular reporting to each Committee meeting on progress in the bilateral consultations. Hitherto, the Committee's overview of accession negotiations has mainly consisted of the acceding country or interested Parties reporting orally to the Committee at its meetings on an ad hoc basis. To provide a more systematic basis for the Committee's overview of the accession process and to improve transparency, consideration might be given to providing to the Committee, prior to each of its meetings, a brief note outlining the state of play in the accession process of each applicant. This might be done, for example, through the annotated provisional agenda, which is circulated by the Secretariat prior to each Committee meeting. The information contained therein could be updated at the meeting, where necessary, by the Chair, the applicant country and parties. Based on this, the Committee might take stock of the progress of each accession process and, where appropriate, the Chair might seek to draw conclusions about moving to the next stage of the indicative timetable.

8. The suggested indicative timetable envisages that the accession process, from the date of the application to the adoption of the decision containing the terms of accession, should normally be completed within 24 months. It would, of course, have to be understood that a certain degree of flexibility would be necessary to take account of such matters as the state of preparation of the acceding country, the complexity of its procurement regime and government structure and the timing of Committee meetings.

9. The work involved in the provision of relevant information on national procurement regimes, any amendments to such regimes required and the preparation of offers by an acceding developing country may require technical cooperation, for example in the form of advice and assistance from Parties and the Secretariat, country visits and training. At the outset of the accession process, the Secretariat might enter into contact with the applicant country with a view to drawing up a technical cooperation programme for that country, taking into account its specific needs and circumstances. Parties should be ready to make resources available bilaterally and/or through the Secretariat for this purpose.

ATTACHMENT

SUGGESTED INDICATIVE TIMETABLE FOR THE ACCESSION PROCESS

Indicative timetable	Consultations on Procurement Regime	Consultations on Appendices
0	Application for accession	
4 months	Receipt of replies to the Checklist by the acceding country	
5 months	Informal plurilateral consultations including on possible scope of initial offer	
6 months	Receipt of written questions from Parties	Submission of initial offer
8 months	Receipt of written responses by the acceding country. Clarification of outstanding issues, including follow-up written questions and replies, if necessary	Bilateral consultations
15 months	Report by the acceding country on status of any steps needed to align its procurement regime with the requirements of the GPA	Submission of revised offer, if necessary. Further bilateral consultations, if necessary
18 months		Submission of second revised offer, if necessary
21 months	Circulation and review of the draft decision on terms of accession including the final offer	
24 months	Adoption of decision containing the terms of accession	

—————

**EXPLANATIONS TO THE PROPOSED MODIFICATIONS TO
APPENDIX I (GPA/W/106)**

Communication from Switzerland

The following communication, dated 23 May 2000, has been received from the Permanent Mission of Switzerland with the request that it be circulated to the Committee on Government Procurement.

A notification from Switzerland under Article XXIV:6(a) was circulated to the Parties to the Agreement on Government Procurement (1994) on 16 March 2000 (GPA/W/106). This notification covered a new layout for Annex 1 of the Agreement on Government Procurement (1994) as well as some modifications.

The aim of this communication is to provide an explanation of the differences between the new Annex 1 (GPA/W/106) and the existing Annex 1 (GPA/W/45). Switzerland takes the opportunity to answer the request for clarification from the United States of 18 April 2000 (GPA/W/111) and to inform, at the same time, the other Parties to the Agreement on Government Procurement (1994).

1. Switzerland's proposed modifications of Annex 1 to the Agreement on Government Procurement (1994) are based on reforms implemented recently by the Swiss federal government regarding the structure of the federal administration as well as new constitutional provisions, which have entered into force on 1 January 2000.

2. The proposed modifications of Annex 1 to the Agreement on Government Procurement (1994) fall under the following categories:

(a) Merger and incorporation of administration units into newly-established or existing units:

(1) The former "*Office fédéral de l'industrie, des arts et métiers et du travail*" and the former "*Office fédéral des affaires économiques extérieures*" were merged into the newly-established "*Secrétariat d'Etat à l'économie*".

(2) The former "*Office des constructions fédérales*" and the former "*Office fédéral des imprimés et du matériel*" were merged into the newly-established "*Office fédéral des constructions et de la logistique*".

(3) The former "*Ecole fédérale de sport de Macolin*" has been incorporated into the newly-established "*Office fédéral du Sport*".

- (4) The "*Office fédéral des questions conjoncturelles*" was dismantled and incorporated in other existing offices submitted to the GPA (*Secrétariat d'Etat à l'économie* and *Office fédéral de la formation professionnelle et de la technologie*).
- (5) The "*Office central de la défense*" was incorporated into the "*Secrétariat Général du Département fédéral de la défense, de la protection de la population et des sports*" which has been newly submitted to the Agreement on Government Procurement (1994).
- (b) Change of names: "La Poste" and several entities of the Federal Department of Defense, Protection of the Population and Sport have undergone a change of name (new terms added: in italics in the concordance table annexed to this communication).
- (c) Deletion from the list: According to Article 55 of the revised Constitution of the Swiss Confederation which entered into force on 1 January 2000 the Parliamentary Services are no longer part of the central government but of the Parliamentary Assembly; the "*Services du Parlement*", (submitted to the GPA with the modification of Annex 1 communicated in GPA/W/45, 1997) have therefore been deleted from Annex 1.
- (d) Expansion of the list: Inclusion of the "*Secrétariat Général*" of the seven Ministerial Departments of the central government and of the following entities covered by the Swiss Federal Law of 21 March 1997 on the Organization and Administration:
1. Chancellerie fédérale.
 2. Préposé fédéral à la protection des données.
 3. Secrétariat d'Etat du Département fédéral des affaires étrangères.
 4. Bureau de l'égalité entre femmes et hommes.
 5. Conseil des écoles polytechniques fédérales.
 6. Groupement de la science et de la recherche.
 7. Institut de droit comparé.
 8. Institut suisse de la propriété intellectuelle.
 9. Etat major général.
 10. Groupe de l'état-major général.
 11. Groupe de la promotion de la paix et de la coopération en matière de sécurité.
 12. Office fédéral de la formation professionnelle et de la technologie.
 13. Surveillance des prix.
 14. Commission fédérale de la communication.
3. The layout of Annex 1 - i.e. the order in which the central governmental procuring entities are listed - has also been modified; each entity is presented under its respective Ministerial Department thereby increasing clarity and transparency.
4. A concordance table establishing the link between GPA/W/45 and the new list of GPA/W/106 is annexed to this communication.

REVIEW OF THE AGREEMENT ON GOVERNMENT PROCUREMENT

**STREAMLINING THE PROVISIONS OF ARTICLES XIII AND XVIII RELATING
TO THE RECEIPT AND OPENING OF TENDERS, THE AWARDING OF CONTRACTS,
AND THE DISCLOSURE OF INFORMATION ON CONTRACT AWARDS**

Submission by the United States

The following communication, dated 19 May 2000, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

Introduction

As noted in the Chairman's report on the Committee's informal meeting on 7 March 2000 (Job No. 1454, dated 9 March 2000), the Committee has agreed that its ongoing work under Article XXIV:7(b) will focus in its next meeting on Articles VII-XV and paragraphs 1, 3 and 4 of Article XVIII. In order to facilitate progress, the United States is submitting the following drafting proposal relating to Articles XIII and XVIII of the Agreement's current text. The drafting proposals are followed by a point-by-point explanation of the changes being proposed.

The United States welcomes other delegations' comments on these proposals and hopes that delegations will consider them to be a useful basis for progress. We reserve the right to amend this submission or to propose additional text on these issues in the light of the Committee's discussions and ongoing domestic consultations.

Proposed Text

Receipt and Opening of Tenders

1. Procuring entities shall receive and open all tenders under procedures that guarantee the fairness and impartiality of the procurement process.
2. Procuring entities shall not penalize any supplier whose tender is received after the time specified for receiving tenders if the delay is caused solely by the entity.
3. When procuring entities provide suppliers with opportunities to correct unintentional errors of form between the opening of tenders and the awarding of the contract, they shall provide the same opportunities to all participating suppliers.

Awarding of Contracts

1. To be considered for award, a tender must, at the time of opening, conform to the essential requirements of the notices or tender documentation and be from a supplier which complies with the conditions for participation, including any specified time-periods. Parties shall ensure that entities base contract award decisions solely on the requirements and evaluation criteria that have been specified in the notices or tender documentation provided in advance to all participating suppliers.
2. Procuring entities shall award each contract to the tenderer who has been determined to be fully capable of undertaking the contract and whose tender is either the lowest tender or the tender which is determined to be the most advantageous in terms of the requirements and evaluation criteria set forth in the notices or tender documentation.
3. Procuring entities shall not cancel a procurement process, or terminate or modify awarded contracts in a manner which circumvents the objectives and requirements of this Agreement.

Announcement of Post-Award Information

1. Procuring entities shall promptly inform suppliers that have submitted tenders of the procurement award decisions and provide opportunities for losing bidders to obtain an explanation of the reasons for not being selected and the relative advantages of the successful supplier.
2. Not later than 90 calendar days after the award of a procurement covered by this Agreement, the responsible procuring entity shall publish a notice in the appropriate publication designated in Appendix II of this Agreement which includes at least the following information about that contract:
 - (a) the name of the procuring entity;
 - (b) a description of the goods or services procured;
 - (c) the name of the winning tenderer;
 - (d) the value of the winning award; and
 - (e) the type of procurement procedure used, and in cases where limited tendering procedures are used, a description of the circumstances justifying the use of such procedures.

Other Post-Award Information

1. Each Party shall provide detailed information regarding procurement by covered entities and their individual contract awards to any other Party upon request. This information may include such additional information on the award of a contract as may be necessary to determine whether the procurement was conducted fairly and impartially, including information on the characteristics and relative advantage of the winning tender.
2. Parties shall ensure that their procuring entities maintain and make available upon request by any other Party, records of tendering procedures relating to procurements subject to this Agreement. Procuring entities shall maintain such records for a period of at least three years.

Non-Disclosure of Information

1. Nothing in this Agreement shall prevent Parties from withholding the release of information where release would impede law enforcement, or prejudice fair competition between suppliers or the

legitimate commercial interests of particular suppliers, including the protection of their intellectual property.

Section 2: Discussion

Receipt and Opening of Tenders

In this draft, the United States seeks to streamline the existing text of Article XIII without reducing its operational effectiveness. We have excluded paragraph 1(a) of the existing Article because it appears to be overly prescriptive, somewhat outdated, and in some respects redundant.

1. Draft paragraph 1 is a streamlined version of the existing Article XIII:3. The second and third sentences of the existing paragraph either appear to be unnecessary or are addressed elsewhere in this proposal.
2. Draft paragraph 2 corresponds to the first sentence of existing Article XIII:2. In our view, the second sentence of the existing paragraph is unnecessary.
3. Draft paragraph 3 corresponds to subparagraph (b) of the existing Article XIII:1.

The United States believes that these general rules for the receipt and opening of tenders are flexible enough to apply to open, "qualified open", selective, and limited tendering situations.

Awarding of Contracts

1. Draft paragraph 1 corresponds to subparagraphs 4(a) and 4(c) of existing Article XIII. However, the second sentence of existing subparagraph 4(a) does not appear to be necessary, and has been dropped. We also propose making specific reference to time-periods as a condition for participation, in order to ensure that only those contracts conforming to the time-periods set out in notices or tender documentation are considered for participation.
2. Draft paragraph 2 corresponds to subparagraph 4(b) of existing Article XIII.
3. Based on recent experiences of US suppliers, we propose the addition of a new provision, in draft paragraph 3, to ensure that the cancellation of procurement procedures, or the termination or modification of awarded contracts, does not circumvent the objectives and requirements of this Agreement.

Due to possible similarities and overlapping issues, it may be appropriate to incorporate provisions on *decisions on qualification of suppliers* in this section as well.

Announcement of Post-Award Information

1. Draft paragraph 1 corresponds to paragraphs 2 and 3 of existing Article XVIII.
2. Draft paragraph 2 slightly streamlines existing Article XVIII:1, and provides additional flexibility by extending the time-period in which a post-award notice must be published from 72 days to 90 days.

Other Post-Award Information

1. Draft paragraph 1 streamlines existing Article XIX:2.
2. Draft paragraph 2 corresponds to existing Article XX:4.

Non-Disclosure of Information

1. This paragraph corresponds to existing Article XIX:4, but has been slightly re-worded for clarity.

REVIEW OF THE AGREEMENT ON GOVERNMENT PROCUREMENT
**STREAMLINING THE PROVISIONS OF ARTICLES VII, IX, X, XI, AND XV RELATING
TO THE DEFINITION AND USE OF TENDERING PROCEDURES, INVITATIONS TO
PARTICIPATE, AND TIME-PERIODS FOR TENDERING**

Submission by the United States

The following communication, dated 19 May 2000, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

Introduction

As noted in the Chairman's report on the Committee's informal meeting on 7 March 2000 (Job No. 1454, dated 9 March 2000), the Committee has agreed that its ongoing work under Article XXIV:7(b) will focus in its next meeting on Articles VII-XV and paragraphs 1, 3 and 4 of Article XVIII. In order to facilitate progress, the United States is submitting the following drafting proposals relating to Articles VII, XI, X, XI, XIV and XV of the Agreement's current text. The United States believes that the combined approach to these Articles is appropriate, given the close interrelationships between them. The drafting proposals are followed by a point-by-point explanation of the changes being proposed.

The United States welcomes other delegations' comments on these proposals and hopes that delegations will consider them to be a useful basis for progress. We reserve the right to amend this submission or to propose additional text on these issues in the light of the Committee's discussions and ongoing domestic consultations.

Proposed Text

Article A: General Provisions Relating to Tendering Procedures

1. The Parties shall ensure that their procuring entities, in conducting procurement subject to this Agreement, use tendering procedures that are in accordance with the provisions of Article B (open tendering and qualified open tendering), Article C (Selective Tendering) or Article E (Limited Tendering).
2. The Parties shall ensure that their procuring entities use open tendering or qualified open tendering procedures to conduct procurement subject to this Agreement, except:
 - (a) where selective tendering procedures are appropriate because most potential suppliers of the goods or services being procured may have difficulty meeting government requirements which are unusual or more demanding than the requirements of typical private sector buyers, and the efficient conduct of the procurement requires that

competition be limited to a closed list of suppliers whose qualifications have been established in advance; or

- (b) in the specific circumstances identified in Article E of this Agreement for the use of limited tendering.

General Provisions Relating to Time-Periods for Suppliers' Responses to Notifications

3. Except in the exceptional circumstances identified in Article D:1(d) and Article E:4(g) of this Agreement, any prescribed time-periods for the tendering process shall be adequate to allow participating suppliers of all Parties to this Agreement to prepare and submit responsive tenders.¹

4. Procuring entities shall apply the same time-periods for all suppliers.

5. If, as a result of a need to amend information provided to suppliers during the procurement process, a procuring entity must extend the time-period for the tendering procedures, such entity shall permit all participating suppliers to submit final tenders in accordance with a common deadline.

General Provisions For the Dissemination of Information Relating to Specific Tendering Procedures

6. Procuring entities shall not provide to any supplier information with regard to a specific procurement in a manner which would have the effect of precluding competition.

7. If it becomes necessary to amend information provided to suppliers during the procurement process, procuring entities shall provide the amended information:

- (a) to all of the suppliers that are participating at the time the information is amended; and
- (b) in adequate time to allow such suppliers to modify and re-submit their initial tenders, as appropriate.

Article B: Procedures for Open Tendering and Qualified Open Tendering

Definitions

1. For the purposes of this Agreement:

- (a) "open tendering" procedures are those procedures in which the procuring entity permits all interested suppliers to participate in a procurement competition; and
- (b) "qualified open tendering" procedures are those procedures in which the procuring entity:
 - (1) requires each supplier to be qualified before such supplier may participate in the tendering process; and
 - (2) permits interested suppliers to apply for qualification while the tendering process is under way.

¹ In determining the adequacy of such time-periods, entities should, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement, the extent of subcontracting anticipated and the normal time for transmitting tenders from foreign as well as domestic points.

2. Procuring entities using open tendering and qualified open tendering procedures shall publish a notice of intended procurement for each contract to be awarded. The notice shall be published in the appropriate publication listed in Appendix II. Such publications shall be in an electronic or paper media which is widely disseminated and readily accessible to the general public.

3. Procuring entities shall include the following information in each notice of intended procurement:

- (a) a description of the intended procurement, including the nature and quantity of the goods or services to be procured;
- (b) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the contract;
- (c) the procurement method that will be used and whether it will involve negotiation;
- (d) the time-limits set for the submission of tenders and, if qualified open tendering procedures are used, the time-limits for the submission of applications to qualify for participation in the intended procurement;
- (e) the amount and terms of payment of any sum payable for the tender documentation; and
- (f) an indication that the procurement is covered by the Agreement.

Time-Periods for Suppliers' Responses to Notifications Under Open Tendering and Qualified Open Tendering Procedures

4. Except as provided for in Article D of this Agreement:

- (a) A procuring entity using open tendering or qualified open tendering procedures shall provide no less than 40 calendar days between the date on which a notice of intended procurement is published and the date on which the tendering procedures relating to that notice are closed.
- (b) A procuring entity using qualified open tendering procedures shall provide no less than 25 calendar days, beginning on the date on which the notice of intended procurement is published, for interested suppliers to submit their applications for qualification.

Article C: Procedures for Selective Tendering

Definition

1. For the purposes of this Agreement, "selective tendering" procedures are those procedures in which a procuring entity:

- (a) requires each supplier to be included on a closed list of qualified suppliers before such supplier may participate in the tendering process; and
- (b) does not provide an opportunity for interested suppliers to apply for inclusion on the relevant closed list of qualified suppliers while the tendering process is under way.

Notification of Procurement Opportunities Under Selective Tendering Procedures

2. Procuring entities using selective tendering procedures shall distribute a notice of each intended procurement to each of the suppliers on the entity's closed list of qualified suppliers for that procurement. Such entities may choose, when they deem it appropriate, not to publish such notice in one of the publications listed in Appendix II.

3. At least 60 days before establishing a closed list of qualified suppliers for the purposes of conducting a selective tendering procedure, procuring entities shall publish, in one of the publications listed in Appendix II, a notice of the opportunity for interested suppliers to apply for inclusion in that list. Such notice shall contain the following information:

- (a) a description, in as much detail as is available, of the goods or services to be procured from suppliers included on that list;
- (b) the conditions to be fulfilled by suppliers in order to be included on that list;
- (c) the period of validity of the list; and
- (d) a statement that the notice constitutes a notice of the opportunity to apply for qualification to be included on the list.

4. For as long as a procuring entity maintains a closed list of qualified suppliers, such entity shall publish a notice of the opportunity for interested suppliers to apply for inclusion on that list, in accordance with the requirements of paragraph 3 above, at least once each year.

5. Procuring entities maintaining such closed lists shall, on request, provide additional information in a timely manner which allows all suppliers who have expressed an interest to have a meaningful opportunity to assess their interest and, if they choose, apply for inclusion on a closed list of qualified suppliers. This information shall include the information contained in the notices referred to in Article B:3 of this Agreement, to the extent available.

Time-Periods for Suppliers' Responses to Notifications Under Selective Tendering Procedures

6. Except as provided for in Article D of this Agreement, procuring entities using selective tendering procedures shall provide no less than 40 calendar days between the date on which a notice of intended procurement is distributed to participating suppliers and the date on which the tendering procedures relating to that notice is closed.

Article D: Provisions for Shorter Time-Periods in Open Tendering, Qualified Open Tendering, and Selective Tendering Procedures

1. Under the following circumstances, procuring entities may replace the time-periods referred to in Articles B:4 and C:6 with a period which is sufficiently long to enable suppliers to submit responsive tenders, but which in no case shall be less than 10 calendar days from the date on which the notice of intended procurement is published:

- (a) if a separate notice has been published at least 40 calendar days and not more than 12 months in advance, and the notice contains: a description of the subject-matter of the procurement; the time-limits for the submission of tenders or, when appropriate, applications for qualification; and the address from which documents relating to the procurement may be requested;

- (b) in the case of the second or subsequent publications dealing with contracts of a recurring nature;
- (c) in the case of procurement of commercial goods and services which are sold or offered for sale to and customarily purchased and used by non-governmental buyers for non-governmental purposes, except that a procuring entity shall not reduce time-periods for this reason if the entity uses qualified open tendering procedures or selective tendering procedures; and
- (d) when, for duly substantiated reasons of extreme urgency brought about by events unforeseeable by the entity, the adherence to the time-periods referred to in Articles B:4 and C:6 would result in serious injury to the entity or the relevant Party; however, concerns relating to the amount of funds available to an entity within a particular period of time shall not be considered to be a reason of extreme urgency for these purposes.

2. When a procuring entity publishes a notice of intended procurement in accordance with Articles B, C and D of this Agreement in an electronic media listed in Appendix II, the entity may reduce the time-periods provided for in this Agreement by up to five calendar days. The use of this provision, however, shall in no case result in the reduction of those time-periods to less than 10 calendar days from the date on which the notice of intended procurement is published.

Article E: Limited Tendering

Definition

1. For the purposes of this Agreement, "limited tendering procedures" are procedures in which a procuring entity invites tenders only from a supplier or suppliers that the entity identifies through an internal, non-competitive selection process.

Provisions on the Use of Limited Tendering Procedures

2. When a procuring entity uses a limited tendering procedure, it may choose not to publish or distribute a notice of intended procurement prior to the award of the procurement contract.

3. Procuring entities shall not use limited tendering procedures for the purpose of avoiding competition among suppliers or in a manner that constitutes a means of discrimination between suppliers of the other Parties or protection of domestic suppliers. Notwithstanding any of the provisions of Article E:4, below, entities shall not use limited tendering because of a lack of advance planning by the requiring activity or concerns relating to the amount of funds available to an entity within a particular period of time.

4. Procuring entities may use limited tendering procedures in the following circumstances and subject to the following conditions, as applicable:

- (a) in the absence of tenders that conform to the essential requirements in the tender documentation provided in a prior open, qualified open, or selective tendering procedure, on condition that the requirements of the initial procurement are not substantially modified in the contract as awarded;
- (b) in the absence of tenders from suppliers which meet qualification requirements established for a prior open qualified or selective tendering procedure;

- (c) where, for works of art, or for reasons connected with the protection of exclusive rights, such as patents, copyrights or proprietary information or where there is an absence of competition for technical reasons, the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists;
- (d) for additional deliveries by the original supplier that are intended either as replacement parts, extensions, or continuing services for existing equipment, software, services or installations, where a change of supplier would compel the entity to procure products or services not meeting requirements of interchangeability with existing equipment, software, services, or installations;
- (e) for goods purchased on a commodity market;
- (f) where an entity needs to procure consulting services regarding matters of a confidential nature, the disclosure of which could reasonably be expected to compromise government confidences, cause economic disruption or similarly be contrary to the public interest.
- (g) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the entity, the goods or services could not be obtained in time by means of open or selective tendering procedures and the use of such procedures would result in serious injury to the entity, the entity's programme responsibilities, or the responsible Party;

5. Procuring entities shall prepare a report in writing on each contract awarded under paragraph 4. Each such report shall include the name of the procuring entity, the value and kind of goods or services procured, and a statement indicating the circumstances and conditions described in paragraph 4 that justified the use of limited tendering. Entities shall retain each such report for a minimum of three years.

Section 2: Discussion

A:1. The current text of the GPA is neutral with respect to the choice of procurement methods. While the GPA must continue to provide the flexibility to use different methods, as appropriate to the circumstances, the United States believes it would be appropriate to establish a presumption in favour of open (i.e., fully transparent) tendering procedures. Therefore, this Article proposes specific rules for the use of different procurement procedures.

This proposal also defines a new type of procedure, "qualified open tendering", which corresponds to a subset of the procedures defined in the current GPA as "selective tendering", i.e., "selective tendering" procedures in which qualification is continuously open to interested suppliers. This also requires modification of the current definition of "selective tendering" (see below). The United States believes that re-defining tendering procedures in this way is desirable in order to emphasize that tendering procedures involving a qualification requirement need not be less transparent or competitive than "normal" open tendering procedures.

In the view of the United States, each of these categories of procurement procedures should be considered to be broad, with each one potentially encompassing a range of detailed tendering practices – some of which may be complex, and some very simple. The basic rules proposed for each category, then, should be flexible enough to be applied to the full range of procedures that may be used under each category. Draft Article A:1 would ensure that each procurement covered by the GPA would be subject to the provisions for one of the four categories of tendering procedures proposed in this draft.

A:2. This paragraph reflects the view, noted above, that use of open tendering procedures should be the preferred procurement method. Draft subparagraphs (a) and (b) specifically define the circumstances in which other than open tendering procedures could be used.

Draft subparagraph A:2(a) defines the circumstances in which the United States believes it may be appropriate to limit competition for a contract covered by the GPA to a closed list of potential suppliers that have been pre-qualified to participate in that procurement. This category of procurement methods is referred to as "selective tendering" in this proposal (see also the discussion of draft Article C, below). The United States believes that the use of such procedures is only appropriate in circumstances where the use of "open tendering" or "qualified open tendering" procedures may be inefficient and excessively burdensome to the procuring entity because most suppliers that have not been pre-qualified would not be capable of meeting government requirements that are unusual or more demanding than is typical in private sector markets.

Similarly, draft subparagraph A:2(b) would limit the use of "limited tendering procedures" to the specific circumstances identified in draft Article E. We call delegations' attention to the streamlining of the specific justifications for the use of "limited tendering proposed in this draft (see below).

A:3. Draft paragraphs A:3, 4 and 5 set out some general principles relating to time-periods used in tendering procedures subject to the GPA. Draft paragraph A:3 notes that there are certain exceptional circumstances in which entities should be able to reduce standard tendering time-periods. Draft Article D proposes other opportunities to reduce the normal time-periods, including when electronic communications are used and when entities are procuring commercial items (see below). However, except for emergency situations, the draft proposes that procuring entities' tendering procedures must in any case provide sufficient time for interested suppliers of all Parties to "prepare and submit responsive tenders".

A:4-5. Draft paragraph A:4 is intended to ensure non-discrimination in the application of tendering and qualification time-periods. This issue is most likely to arise in situations in which a procuring entity decides to extend a previously notified time-period. Frequently, such extensions may be announced in order to allow entities to negotiate with a small group of suppliers who have been determined, through competitive tendering, to have offered the most attractive tenders. Draft paragraph A:5, therefore, is based on the current text of Article XIV:4(d).

A:6-7. These provisions, which are drawn from Article VII:2 and Article IX:10 of the existing GPA text, help to ensure non-discrimination in the exchange of information between procuring entities and potential suppliers. It is important to recognize that these provisions do not necessarily require procuring entities to provide all interested suppliers with exactly the same amount of information on a particular procurement. In some circumstances, some suppliers may not seek as much information as others, and the procuring entities' responses to more detailed requests from some suppliers would not necessarily preclude effective competition. In tendering procedures where entities choose to negotiate with a small group of suppliers who have been determined, through competitive tendering, to have offered the most attractive tenders, it may not be appropriate to provide the same amount of information to suppliers whose tenders have been eliminated as to those that continue to participate in the negotiated competition.

It is not uncommon for entities, after publishing an initial invitation to tender, to have to revise the information provided in that invitation. In order to ensure effective competition and non-discrimination among GPA Parties' suppliers, it is important to ensure that such information be provided in sufficient time for all interested suppliers to respond and, if necessary, to modify their tenders. In these circumstances, it may be appropriate for the entity to extend the time-period for tendering, as discussed above.

B:1. Article B of this proposal establishes basic requirements for the use of "open tendering" and "qualified open tendering" (newly defined in this paper). So that the Parties and their procuring entities can more clearly understand which requirements of this draft would apply in which circumstances, we have re-arranged the current text of the GPA so that each article begins by defining the categories of procurement procedures to which the provisions of that article apply.

The procedures that would fall within the newly-defined category of "qualified open tendering" are very similar to the existing procedures for "open tendering", in that an entity using such procedures publishes an advance notice of the procurement and invites all interested parties to participate in the tendering competition. The principal difference is that the category of "qualified open tendering" includes a qualification requirement. The United States believes that the existence of a qualification requirement does not, in itself, indicate that the procurement process should be less transparent or competitive than "normal" open tendering procedures.

The key difference in this proposal between "selective tendering" and "qualified open tendering" is that entities using "qualified open tendering" procedures are able to process applications for qualification while the tendering procedures are under way. By contrast, entities using selective tendering procedures, as defined in this proposal, will only allow suppliers who have been included in a pre-existing "closed list" of qualified suppliers to participate in tendering for those procurements. Under this proposal, "selective tendering" procedures would only be used in the circumstances identified in draft paragraph A:2(a). If those circumstances do not exist, an entity that uses qualification requirements would do so in accordance with the provisions for qualified open tendering in draft Article B.

B:2. This paragraph would require publication of a notice of intended procurement for each covered contract that is awarded through the use of "open tendering" or "qualified open tendering" procedures. The United States believes that entities should have the choice of publishing such notices in either paper or electronic media (or both), provided that such media are widely disseminated and readily accessible to the general public.

B:3. This paragraph would require that each notice of intended procurement subject to this chapter include certain basic information about the procurement. The information requirements included in this proposal are less detailed than those applying to Annex 1 entities in current Article IX, but would slightly increase the amount of information required of Annex 2 and Annex 3 entities using open tendering or qualified open tendering procedures (i.e., the information provided by Annex 2 and Annex 3 entities using such procedures would include information on the procurement procedure to be used and on the cost of the tendering). The United States believes that the information that would be required under this draft paragraph is the minimal amount of information that is needed for suppliers to make informed decisions as to whether they may have an interest in a notified procurement.

B:4. This paragraph would maintain the minimum time-period of 40 days for tendering and, where "qualified open tendering" procedures are used, would maintain the minimum time-period of 25 days for the submission of suppliers' applications for qualification. However, under circumstances outlined in draft Article D, such time-periods could be reduced to 10 days (see below). The United States believes that these provisions would, in normal circumstances, provide suppliers with adequate time to submit tenders and applications for qualification. At the same time, they would provide sufficient flexibility for entities to reduce the normal time-periods in a manner that improves efficiency without significantly affecting suppliers' ability to participate effectively in tendering procedures.

It is important to stress that these time-periods are minimum requirements. For procurements with extremely complicated and detailed requirements, it may be appropriate to allow more than 40 days for suppliers to prepare and submit their tenders.

C:1. We call delegations' attention to the fact that, in this proposal, the definition of "selective tendering" is narrower than the definition of that term in the current text. The United States suggests that any deviations from the normal notification requirements for open and qualified open tendering should be limited to situations in which entities restrict competition to closed lists of qualified suppliers (defined in this proposal as "selective tendering") or where they use "limited tendering".

C:2. This paragraph is intended to ensure that all suppliers included on a permanent list of qualified suppliers are treated equally in the distribution of invitations to participate in a procurement being conducted on the basis of that list. It also permits entities to choose not to publish such invitations, when appropriate.

C:3-4. These paragraphs are based closely on the existing Article IX:9.

C:5. In the periods between Parties' invitations for applications to be included in a closed list, draft paragraph 5 would allow interested suppliers to obtain information on how to establish their qualifications when the opportunity arises. The existing text does not include this provision.

C:6. This paragraph would maintain the minimum time-period for selective tendering procedures in the existing text, subject to the possibilities for flexibility in reducing those time-periods provided for in draft Article D (see below).

D:1. This paragraph sets out circumstances in which entities conducting procurements subject to the GPA could reduce the normal time-periods for tendering and, when appropriate, the submission of applications, to a minimum of 10 calendar days. Draft subparagraphs (a) and (b) correspond to the existing GPA Article XI:3(a) and (b).

Draft subparagraph (c) would provide new flexibility for entities to reduce time-periods when they purchase commercial items which are normally bought and sold in the private sector. The United States believes that, in such circumstances, the Parties can be assured that suppliers will enjoy non-discriminatory competitive opportunities in shorter time-periods than would normally apply under this Agreement. At the same time, we do not believe it would be appropriate to allow such shorter time-periods when entities use qualification requirements, since the use of such requirements indicates that the procurement need is sufficiently complex to warrant a longer time-period.

Draft subparagraph (d), which corresponds to the existing Article XI:3(c), provides the flexibility to reduce time-periods in urgent situations that are beyond the control of the procuring entity. However, the United States believes that a lack of planning or concerns about the availability of budgeted funds within a particular time-period should not be considered to be situations of "extreme urgency brought about by events unforeseeable by the entity".

D:2. The United States believes it is appropriate to provide the flexibility for entities to reduce all time-periods by five calendar days when they publish a notification of intended procurement in an appropriate electronic media. The use of such media typically allows interested suppliers to obtain the information more quickly than is the case when notifications must be transferred by the entity to a publisher, published in paper format, and distributed by mail. In situations where entities publish in an electronic media and one or more of the circumstances described in paragraph D:1 apply, however, the United States does not believe it is appropriate to allow the minimum time-periods to be reduced to less than 10 calendar days.

E:1. This paragraph offers a slightly more detailed definition than the existing Article VII:3(c).

E:2. This paragraph simply clarifies entities' right to award contracts under limited tendering procedures without publishing an advance notice or invitation for tenders.

E:3-4. As in the existing text, these paragraphs set out the conditions in which the use of limited tendering procedures is appropriate. However, this draft departs in two significant ways from the existing text. First, draft paragraph 3 would specify that a lack of planning and foreseeable fiscal constraints would not, in themselves, constitute an appropriate justification for the use of limited tendering. This, of course, would not prevent the use of limited tendering if one of the conditions listed in draft paragraph 4 also applied.

Second, the list of conditions for the use of limited tendering in draft paragraph 4 excludes a number of conditions currently provided for in Article XV of the existing text. The elements of Article XV:1 that are excluded are:

- in subparagraph (a), the reference to situations in which "the tenders submitted have been collusive";
- (e), relating to the procurement of "prototypes";
- (f), relating to the procurement of "additional construction services";
- (g), relating to the procurement of "new construction services consisting of the repetition of similar construction services which conform to a basic plan";
- (i), relating to procurement "under exceptionally advantageous conditions"; and
- (j), relating to design contests.

Because unnecessary use of limited tendering procedures may have serious implications for the achievement of the Parties objectives under this Agreement, the United States believes it is appropriate, in the context of the Article XXIV:7(b) mandate, for the Parties to review the appropriateness of the above provisions. From our perspective, it is not clear why more open and transparent procurement procedures would not be appropriate in the circumstances described in these provisions.

E:5. This draft paragraph streamlines the existing text of Article XV:2.

COMMUNICATION FROM THE UNITED STATES

The following communication, dated 14 April 2000, has been received from the Permanent Mission of the United States with the request that it be circulated to the Committee on Government Procurement.

A communication from the Permanent Mission of Switzerland regarding modifications to Annex 1 of the Agreement on Government Procurement was circulated on 16 March 2000 (GPA/W/106), providing 30 days for other parties to object prior to the modifications becoming effective. GPA/W/106/Corr.1, dated 30 March 2000, indicated that the time-period for comments has been extended to 30 April 2000.

Switzerland's proposed modifications have been presented in the form of a new Annex 1, without identifying the specific changes that Switzerland proposes to make to the existing Annex. The United States is experiencing difficulty in assessing the implications of this proposal in this format. In order to complete our assessment, the United States Government requests that Switzerland provide an explanation of this proposal which specifically identifies the differences between the proposed new Annex 1 and the existing Annex 1 and the reasons for each proposed modification.

Until we have had an opportunity to review such an explanation, the United States will be unable to agree to the proposed modifications. This is, of course, without prejudice to any conclusions the United States may reach on the basis of Switzerland's explanation.

PROPOSED MODIFICATIONS TO APPENDIX I OF SWITZERLAND

Notification from Switzerland under Article XXIV:6(a)

Corrigendum

Due to a technical problem in the processing of document GPA/W/106, a misprint occurred on page 2. In Annex 1, under the heading:

"Liste des entités couvrant tous les Départements fédéraux suisses:

1. Chancellerie fédérale (CF)",

the words "Services du Parlement" should be deleted.

In order to allow sufficient time for the consideration of the present correction, the deadline for notification of any objection to the proposed changes in document GPA/W/106, in accordance with Article XXIV:6(a), is extended until 30 April 2000.

PROPOSED MODIFICATIONS TO APPENDIX I OF SWITZERLAND

Notification from Switzerland under Article XXIV:6(a)*

The following notification from the Permanent Mission of Switzerland was received on 15 March 2000, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

Please find attached Appendix I of Annex 1 to the WTO Agreement on Government Procurement containing rectifications of a purely formal nature pursuant to the modifications of the Swiss Federal Law of 21 March 1997 on the Organization of the Government and Administration (LOGA). Accordingly, it does not modify the mutually agreed coverage in any respect.

* French only

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

conformément aux dispositions du présent accord*

Fournitures	<i>Valeur de seuil:</i>	130 000 DTS
Services (spécifiés à l'annexe 4)	<i>Valeur de seuil:</i>	130 000 DTS
Services de construction (spécifiés à l'annexe 5)	<i>Valeur de seuil:</i>	5 000 000 DTS

Liste des entités couvrant tous les Départements fédéraux suisses:

1. Chancellerie fédérale (CF):

Chancellerie fédérale

Bibliothèque centrale du Parlement et de l'Administration fédérale

Préposé fédéral à la protection des données

Services du Parlement

2. Département fédéral des affaires étrangères (DFAE):

Secrétariat général du Département fédéral des affaires étrangères

Direction du développement et de la coopération

Direction du droit international public

Direction politique

Secrétariat d'État du Département fédéral des affaires étrangères

3. Département fédéral de l'intérieur (DFI):

Secrétariat général du Département fédéral de l'intérieur

Archives fédérales

Bureau fédéral de l'égalité entre femmes et hommes

Conseil des écoles polytechniques fédérales
Écoles polytechniques fédérales et établissements annexes
Groupement de la science et de la recherche
Institut fédéral de recherches sur la forêt, la neige et le paysage
Institut fédéral pour l'aménagement, l'épuration et la protection des eaux
Institut Paul Scherrer
Institut suisse de météorologie
Laboratoire fédéral d'essai des matériaux et de recherches
Office fédéral de l'assurance militaire¹
Office fédéral de l'éducation et de la science
Office fédéral de la culture
Office fédéral de la santé publique
Office fédéral de la statistique
Office fédéral des assurances sociales

4. Département fédéral de la justice et police (DFJP):

Secrétariat général du Département fédéral de la justice et police
Institut suisse de droit comparé
Institut suisse de la propriété intellectuelle
Ministère public de la Confédération
Office fédéral de la justice
Office fédéral de la police
Office fédéral de l'aménagement du territoire
Office fédéral de métrologie
Office fédéral des assurances privées
Office fédéral des étrangers
Office fédéral des réfugiés

¹ Pour les marchés passés par les offices du Département militaire fédéral mentionnés, voir liste des matériels civils de la défense et de la protection civile en annexe. (Il en est de même de l'Administration fédérale des douanes en ce qui concerne l'équipement des gardes frontière et des douaniers.)

5. Département fédéral de la défense, de la protection de la population et des sports (DDPS):

Secrétariat général du Département fédéral de la défense, de la protection de la population et des sports¹

Administration centrale du groupement de l'armement¹

Commandement des écoles d'état-major et de commandants¹

Commandement du Corps des gardes fortification¹

État-Major de l'instruction opérative¹

État-Major général¹

Groupe de l'état-major général¹

Groupe de la logistique de l'état-major général¹

Groupe de la promotion de la paix et de la coopération en matière de sécurité¹

Groupe de la Direction de l'instruction des forces terrestres¹

Groupe de la planification de l'état-major général¹

Groupe de l'aide au commandement de l'état-major général¹

Groupe des affaires sanitaires de l'état-major général¹

Groupe des opérations de l'état-major général¹

Groupe des opérations des forces aériennes¹

Groupe du personnel de l'armée de l'état-major général¹

Groupe du personnel enseignant des forces terrestres¹

Groupe des renseignements de l'état-major général¹

Office de l'auditeur en chef¹

Office des exploitations des forces terrestres¹

Office fédéral de la protection civile¹

Office fédéral de la topographie

Office fédéral de l'instruction des forces aériennes¹

¹ Pour les marchés passés par les offices du Département militaire fédéral mentionnés, voir liste des matériels civils de la défense et de la protection civile en annexe. (Il en est de même de l'Administration fédérale des douanes en ce qui concerne l'équipement des gardes frontière et des douaniers.)

Office fédéral des armes de combat¹
Office fédéral des armes et des services d'appui¹
Office fédéral des armes et des services de la logistique¹
Office fédéral des exploitations des forces aériennes¹
Office fédéral des systèmes d'armes des forces aériennes et des systèmes de commandement¹
Office fédéral des systèmes d'armes et des munitions¹
Office fédéral du matériel d'armée et des constructions¹
Office fédéral du sport
Services centraux de l'état-major général¹
Services centraux des forces aériennes¹
Services centraux des forces terrestres¹

6. Département fédéral des finances (DFF):

Secrétariat général du Département fédéral des finances
Administration fédérale des contributions
Administration fédérale des douanes¹
Administration fédérale des finances
Caisse fédérale d'assurance
Commission fédérale des banques
Contrôle fédéral des finances
Monnaie officielle de la Confédération suisse
Office fédéral de l'informatique
Office fédéral des constructions et de la logistique
Office fédéral du personnel
Régie fédérale des alcools

¹ Pour les marchés passés par les offices du Département militaire fédéral mentionnés, voir liste des matériels civils de la défense et de la protection civile en annexe. (Il en est de même de l'Administration fédérale des douanes en ce qui concerne l'équipement des gardes frontière et des douaniers.)

7. Département fédéral de l'économie (DFE):

Secrétariat général du Département fédéral de l'économie

Commission de la concurrence

Office fédéral de l'agriculture

Office fédéral de la formation professionnelle et de la technologie

Office fédéral du logement

Office fédéral pour l'approvisionnement économique du pays

Office vétérinaire fédéral

Secrétariat d'État à l'économie

Surveillance des prix

8. Département fédéral de l'environnement, des transports, de l'énergie et de la communication (DETEC):

Secrétariat général du Département fédéral de l'environnement, des transports, de l'énergie et de la communication

Commission fédérale de la communication

La Poste²

Office fédéral de la communication

Office fédéral de l'aviation civile

Office fédéral de l'économie des eaux

Office fédéral de l'énergie

Office fédéral de l'environnement, des forêts et du paysage

Office fédéral des routes

Office fédéral des transports

² Pour autant que l'entité ne soit pas en concurrence avec des entreprises auxquelles le présent accord n'est pas applicable.

Note relative à l'annexe 1

Le présent accord ne s'applique pas aux marchés passés par des entités énumérées dans cette annexe et portant sur des activités dans les secteurs de l'eau potable, de l'énergie, des transports ou des télécommunications.

Liste des matériels civils de la défense et de la protection civile soumis à l'Accord

- Chapitre 25:* Sel; soufre; terres et pierres; plâtres; chaux et ciments
- Chapitre 26:* Minerais métallurgiques, scories et cendres
- Chapitre 27:* Combustibles minéraux, huiles minérales et produits de leur distillation; matières bitumineuses; cires minérales
- Chapitre 28:* Produits chimiques inorganiques; composés inorganiques ou organiques de métaux précieux, d'éléments radioactifs, de métaux des terres rares et d'isotopes

Committee on Government Procurement

Original: English

THE THRESHOLDS IN APPENDICES I AND II OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000

SWITZERLAND

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the year 2000.

The information notified by Switzerland is reproduced below.

THRESHOLD¹ CALCULATIONS – FOR THE YEAR 2000

Annex 1

	SDRs	Converted to Sw F
Goods	130,000	248,950
Services	130,000	248,950
Construction	5,000,000	9,575,000

Annex 2

	SDRs	Converted to Sw F
Goods	200,000	383,000
Services	200,000	383,000
Construction	5,000,000	9,575,000

Annex 3

	SDRs	Converted to Sw F
Goods	400,000	766,000
Services	400,000	766,000
Construction	5,000,000	9,575,000

¹ SDR 1.0 = Sw F (Swiss francs) 1.992. The average monthly SDR to Sw F for 24 months from November 1997 through October 1999 was Sw F 1.992. This calculation is based on data published by the Swiss National Bank. The result is an increase of about 4 per cent (from Sw F 1.915 in 1993/94). Despite having the factual basis to do so, Switzerland considers not to increase its thresholds in Sw F for the time being. The value of the thresholds in Sw F has been expressed without value-added tax (VAT) because Switzerland excludes VAT when calculating the value of contracts.

Committee on Government Procurement

**PROCEDURES FOR FUTURE CHANGES TO THE LOOSE-LEAF SYSTEM
FOR APPENDICES TO THE AGREEMENT**

Note by the Secretariat

The Appendices to the Agreement in the form of a loose-leaf system established pursuant to the Decision of the Committee, of 4 June 1996, were certified on 1 March 2000 (WT/Let/330). In accordance with the procedures agreed by the Committee at its meeting of 24 February 1997, Parties proposing to make future rectifications and modifications to their Appendices pursuant to the provisions of Article XXIV:6 should notify them to the Committee in the form of relevant replacement or additional pages to be inserted in the loose-leaf system, identifying the proposed changes (GPA/M/5).

It is suggested that Parties notify pages showing changes by using the conventional bold/red-line system to indicate additions/deletions. To avoid confusion, Parties might also notify clean pages as they would look after acceptance of the rectifications or modifications in question. In addition to the above, Parties are also free, if they so wish, to continue to describe the changes in accordance with past practice.

As hitherto, the proposed rectifications and modifications will be circulated to Members in the GPA/W/- series. Once they have become effective pursuant to the procedures under Article XXIV:6, the new or amended pages will be certified. Certified true copies of these replacement or additional pages will be circulated in the WT/Let/- series of documents with a cover note indicating where the insertions (and/or deletions) are to be made in the loose-leaf system. At the foot of each new or replacement page will be indicated its date, which will be that on which the changes recorded in it became effective and the symbol of the document with which the certifications was transmitted (WT/Let/...). In the initial version of the loose-leaf system, all pages bear the date that the loose-leaf system became effective (1 March 2000).

In addition to being made available in hard-copy form, the loose-leaf system is circulated to Parties and other WTO Members in electronic form through the WTO Document Dissemination Facility. A copy of the loose-leaf system for the Appendices is also being made available to the general public through the government procurement site on the WTO Home Page on the Internet.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2002

JAPAN

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2002.

The information notified by Japan is reproduced below.

The thresholds listed below will be effective for the period from 1 April 2000 (the beginning of FY 2000) until 31 March 2002 (the end of FY 2001).

Annex 1 (Central Government Entities)

	SDRs	YEN
1. Products	130,000	21,000,000
2. Services other than 3. and 4.	130,000	21,000,000
3. Architectural, Engineering & Other Technical Services related to 4.	450,000	75,000,000
4. Construction Services	4,500,000	750,000,000

Annex 2 (Sub-Central Government Entities)

	SDRs	YEN
1. Products	200,000	33,000,000
2. Services other than 3. and 4.	200,000	33,000,000
3. Architectural, Engineering & Other Technical Services related to 4.	1,500,000	250,000,000
4. Construction Services	15,000,000	2,500,000,000

Annex 3 (All Other Entities)

	SDRs	YEN
1. Products	130,000	21,000,000
2. Services other than 3. and 4.	130,000	21,000,000
3. Architectural, Engineering & Other Technical Services related to 4.	450,000	75,000,000
4. Construction Services	15,000,000	2,500,000,000

Committee on Government Procurement

**INDICATIVE TIME-FRAME FOR ACCESSION NEGOTIATIONS
AND REPORTING ON THE PROGRESS OF WORK**

Note by the Secretariat

1. In the context of its discussion regarding the improvement of the procedures for accession under Article XXIV:2, the Committee agreed at its October 1999 meeting that the Secretariat would prepare a note on the establishment of an indicative time-frame for accession negotiations together with a procedure for regular reporting to each Committee meeting on progress in bilateral consultations (GPA/M/12, paragraph 21). This note has been prepared in response to this request.

2. Certain basic procedures for accession negotiations have already been adopted by the Committee in its Decision of February 1996 on the Procedures for Accession under Article XXIV:2 of the Agreement (GPA/1, Annex 2). This Decision reads as follows:

"1. In accordance with paragraph 2 of Article XXIV of the Agreement on Government Procurement (1994), any government which is a Member of the WTO may accede to this Agreement on terms to be agreed between that government and the Parties.

"2. To this effect, a government interested in accession shall communicate its interest to the Director-General of the WTO and, through him, to the Committee on Government Procurement and shall submit relevant information including an offer by way of appropriate Appendices containing lists of entities and services which would be covered by the Agreement, as well as lists of relevant publications, having regard to the provisions of the Agreement, in particular Article I and, where appropriate, Article V.

"3. The government interested in accession shall hold consultations with the Parties to the Agreement on the terms for its accession to the Agreement.

"4. With a view to facilitating accession, the Committee on Government Procurement shall establish a working party if the applicant government, or any Party to the Agreement, so requests. The working party should examine: (i) the coverage offer made by the applicant government; and (ii) relevant information pertaining to export opportunities in the markets of the Parties, taking into account the existing and potential export capabilities of the applicant government and export opportunities for the Parties in the market of the applicant government.

"5. Upon a decision by the Committee on Government Procurement agreeing to the terms of accession including the lists of entities and services as well as of relevant publications of the applicant government, the applicant government shall deposit with the Director-General of the WTO an instrument of accession which states the terms so agreed. The applicant government's lists of entities, services and publications in their authentic WTO language(s) shall be appended to the Agreement."

3. Attached is a table setting out a suggested indicative timetable for accession negotiations. It will be noted that the table does not specifically include the option of establishing a working party, as provided for under paragraph 4 of the above Decision. The reason is that, in practice, this option has not been availed of so far. However, should an applicant government or any Party to the Agreement request the establishment of such a working party, consequential modifications would need to be made to the suggested indicative timetable.

4. The suggested indicative timetable seeks to take into account the fact that accession negotiations have two main aspects and involve basically two mechanisms. The first aspect is the negotiation of an agreed coverage to be reflected in Appendices containing lists of entities and services as well as lists of relevant publications. The second is ensuring the consistency of the applicable national legislation with the provisions of the Agreement. The two main mechanisms used for these purposes are bilateral consultations between an acceding country and interested Parties and plurilateral consultations. The negotiations on commitments to be included in the Appendices are more focused on bilateral consultations whereas the other aspect of the negotiations is largely conducted through the plurilateral mechanism. These two aspects and mechanisms overlap to some extent and should proceed in parallel. As the Committee has already indicated, it is important that there should be a regular plurilateral review of the bilateral parts of the accession process and, of course, the results of both aspects of the negotiations must come together at the plurilateral level in the preparation and adoption of a decision setting out the terms of accession.

5. It will be noted that it is not suggested that an applicant country should necessarily be required to submit its initial offer on coverage at the same time as its application for accession. On the whole, in the accessions so far, applicant countries have submitted their initial offer together with their application for accession, but paragraph 2 of the Committee Decision of February 1996 would not seem to necessarily require this. There may be merit in providing for the possibility of an initial round of plurilateral and bilateral discussions before requiring the applicant to submit an initial offer, without of course preventing a country from submitting an initial offer at the same time as its application if it is in a position to do so.

6. With regard to the largely plurilateral process of provision by the applicant country of information on its procurement regime, the Committee already has before it a Checklist of Issues that has been prepared by the Secretariat, at the request of the Committee, to act as a guide to applicant countries in submitting such information (Job No. 5761). This draft Checklist is awaiting action by the Committee. It is suggested in the attached indicative timetable that, following the circulation of the responses to the Checklist and other relevant data, provision might be made for Parties to seek further clarification of the applicable legislation and procedures through a question and answer procedure. The questions put and answers provided would be circulated to all Parties. If necessary, provision could also be made for follow-up questions and answers.

7. In its request for the preparation of this note, the Secretariat was asked to consider the question of a procedure for regular reporting to each Committee meeting on progress in the bilateral consultations. Hitherto, the Committee's overview of accession negotiations has mainly consisted of the acceding country or interested Parties reporting orally to the Committee at its meetings on an ad hoc basis. To provide a more systematic basis for the Committee's overview of the accession process and to improve transparency, consideration might be given to providing to the Committee, prior to each of its meetings, a brief note outlining the state of play in the accession process of each applicant. This might be done, for example, through the annotated provisional agenda, which is circulated by the Secretariat prior to each Committee meeting. The information contained therein could be updated at the meeting, where necessary, by the Chair, the applicant country and parties. Based on this, the Committee might take stock of the progress of each accession process and, where appropriate, the Chair might seek to draw conclusions about moving to the next stage of the indicative timetable.

8. The suggested indicative timetable envisages that the accession process, from the date of the application to the adoption of the decision containing the terms of accession, should normally be completed within 15 months. Parties are invited to consider whether this is an appropriate time-frame to set as a goal as well as the appropriateness of the time-frames envisaged for the various steps within it. It would, of course, have to be understood that a certain degree of flexibility would be necessary to take account of such matters as the state of preparation of the acceding country, the complexity of its procurement regime and government structure and the timing of Committee meetings.

9. The work involved in the provision of relevant information on national procurement regimes, any amendments to such regimes required and the preparation of offers by an acceding developing country may require technical cooperation, for example in the form of advice and assistance from Parties and the Secretariat, country visits and training. At the outset of the accession process, the Secretariat might enter into contact with the applicant country with a view to drawing up a technical cooperation programme for that country, taking into account its specific needs and circumstances. Parties should be ready to make resources available bilaterally and/or through the Secretariat for this purpose.

Suggested Indicative Timetable for the Accession Process

Indicative timetable	Consultations on Procurement Regime	Consultations on Appendices
0	Application for accession	
1½ months	Receipt of replies to the Checklist by the acceding country	Bilateral consultations including on possible scope of initial offer
3 months	Receipt of written questions from Parties	
4½ months	Receipt of written responses by the acceding country. Clarification of outstanding issues, including follow-up written questions and replies, if necessary	Submission of initial offer and bilateral consultations on it
12 months		Submission of revised offer, if necessary. Further bilateral consultations, if necessary
14 months	Circulation and review of the draft decision on terms of accession including the final offer	
15 months	Adoption of decision containing the terms of accession	

—————

**APPLICATION FOR ACCESSION TO THE AGREEMENT ON GOVERNMENT
PROCUREMENT OF ICELAND**

Revised Offer

The following communication, dated 18 February 2000, has been received from the Permanent Mission of Iceland with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Iceland discussed the offer in GPA/W/73 with Canada, Switzerland and the United States.

Please find attached the revised offer from Iceland.

It has been decided to delete the last three derogations from the general notes, which read:

"9. The thresholds in the Annexes will be applied so as to conform with the public procurement thresholds of the EEA Agreement.

10. This Agreement does not apply to procurement subject to secrecy or other particular restrictions with regard to the safety of the country.

11. When a specific procurement may impair important national policy objectives, the Icelandic Government may consider it necessary in singular procurement cases to deviate from the principle of national treatment in the Agreement. A decision to this effect will be taken at the Icelandic Cabinet level."

In Annex 3, the list of sectors was corrected. Under 1, electricity the entities Rafmagnsveita Reykjavíkur and Hitaveita Reykjavíkur were replaced by Orkuveita Reykjavíkur since these two entities have been merged into a new entity called Orkuveita Reykjavíkur or Reykjavik Energy. The Icelandic names of The National Power Company and The State Electric Works have also been included in the list. No other changes to the draft offer submitted on 22 June 1998 were made.

APPENDIX I

ANNEX 1

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 130,000

Services (specified in Annex 4)

Threshold: SDR 130,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

The following central government entities including:

Central purchasing entities not having an industrial or commercial character governed by Act no. 63/1970 on the arrangement of public works contracts, and Act no. 52/1987, on government procurement, as amended.

The entities in charge of government procurement are the following bodies:

Ríkiskaup (State Trading Center)

Framkvæmdasýslan (Government Construction Contracts)

Vegagerð ríkisins (Public Road Administration)

Siglingastofnun (Icelandic Maritime Administration)

ANNEX 2

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 200,000

Services (specified in Annex 4)

Threshold: SDR 200,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

1. Contracting local public authorities, including all municipalities.
2. Public bodies at the local level not having an industrial or commercial character.

ANNEX 3

*Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 400,000

Services (specified in Annex 4)*

Threshold: SDR 400,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Sectors:

1. *The electricity sector:*

Landvirkjun (The National Power Company), *lög nr. 42/1983.*

Rafmagnsveitur ríkisins (The State Electric Power Works), *orkulög nr. 58/1967*

Orkuveita Reykjavíkur (Reykjavík Energy).

Orkubú Vestfjarða (Vestfjord Power Company), *lög nr. 66/1976.*

Other entities producing, transporting or distributing electricity pursuant to *orkulög nr. 58/1967.*

2. *Urban transport:*

Strætisvagnar Reykjavíkur (The Reykjavík Municipal Bus Service).

Almenningsvagnar bs.

Other Municipal bus services.

3. *Airports:*

Flugmálastjórn (Directorate of Civil Aviation)

4. *Ports:*

Siglingastofnun, (Icelandic Maritime Administration).

Other entities operating pursuant to *Hafnalög nr. 23/1994.*

5. *Water supply:***

Public entities producing or distributing drinking water pursuant to *lög nr 81/1991, um vatnsveitur sveitarfélaga.*

Notes to Annex 3

* This Agreement shall not apply to service contracts which:

- (a) a contracting entity awards to an affiliated undertaking;
- (b) are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out a relevant activity within the meaning of paragraphs 1-5 of this Annex to one of those contracting entities or to an undertaking which is affiliated with one of these contracting entities;

Provided that at least 80 per cent of the average turnover of that undertaking with respect to services arising within the EEA for the three preceding years derives from the provision of such services to undertakings with which it is affiliated. When more than one undertaking affiliated with the contracting entity provides the same service or similar services, the total turnover deriving from the provision of services by those undertakings shall be taken into account.

** The supply of drinking water and electricity to networks which provide a service to the public by a contracting entity other than a public authority shall not be considered as a relevant activity within the meaning of paragraphs 1 and 5 of Annex 3 where:

- the production of drinking water or electricity by the entity concerned takes place because its consumption is necessary for carrying out an activity other than that referred to in paragraphs 1 and 5 of this Annex; and
- supply to the public network depends only on the entity's own consumption and has not exceeded 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years, including the current year.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:*

<i>Subject</i>	<i>CPC Reference N</i>
Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 71235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752** (except 7524, 7525, 7526)
Financial services	ex 81
(a) Insurance services	812, 814

Notes to Annex 4

- * except for services which entities have to procure from another entity pursuant to an exclusive right established by a published law, regulation or administrative provision
- ** except voice telephony, telex, radiotelephony, paging and satellite services
- *** except contracts for financial services in connection with the issue, sale, purchase, or transfer of securities or other financial instruments, and central bank services
- **** except arbitrations and conciliation services

ANNEX 5

Construction Services

Definition:

A construction service contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All public works/construction services of Division 51.

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. Iceland will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (1) (electricity), to the suppliers and service providers of Canada, Singapore and Japan;
 - (2) (urban transport), to the suppliers and service providers of Canada, Israel, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Iceland has accepted that the Parties concerned give comparable and effective access for Icelandic undertakings to the relevant markets;

 - to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan, Korea and Switzerland in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Iceland accepts that they have completed coverage of sub-central entities;
 - Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Iceland, until such time as Iceland accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
 - Israel, Japan and Korea in contesting the award of contracts by Icelandic entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.
3. Until such time as Iceland has accepted that the Parties concerned provide access for Icelandic suppliers and service providers to their own markets, Iceland will not extend the benefits of this Agreement to suppliers and service providers of:

- Canada as regards procurement of FSC 36, 70 and 74 (special industry machinery; general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations); office machines, visible record equipment and ADP equipment);
 - Canada as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the USA as regards air traffic control equipment.
 - Israel and Korea as regards procurement by entities listed in Annex 3, paragraph 1, as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;
 - Canada and the USA as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.
4. Contracts awarded by entities in Annexes 1 and 2 in connection with activities in the fields of drinking water, energy, transport or telecommunications, are not included.
5. With regard to Annex 3, this Agreement shall not apply to the following contracts:
- contracts which the contracting entities under paragraph 5 award for the purchase of water;
 - contracts which the contracting entities under paragraph 1 award for the supply of energy or of fuels for the production of energy;
 - contracts which the contracting entities award for purposes other than the pursuit of their activities as described in this Annex or for the pursuit of such activities in a non-EEA country;
 - contracts awarded for purposes of re-sale or hire to third parties provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and that other entities are free to sell or hire it under the same conditions as the contracting entity;
 - contracting entities exercising activities in the bus transportation sector where other entities are free to offer the same services in the same geographical area and under substantially the same conditions.
6. With regard to Annex 4, this Agreement shall not apply to the following:
- contracts for the acquisition or rental, by whatever financial means, of land, existing buildings, or other immovable property or concerning rights thereon;
 - contracts for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time;

- contracts awarded to an entity which is itself a contracting authority within the meaning of the Public Procurement Act: "Lög um opinber innkaup (52/1997) and Regulation (302/1996) on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision;
 - contracts of employment.
7. The Agreement shall not apply to contracts awarded under:
- an international agreement and intended for the joint implementation or exploitation of a project by the signatory States;
 - an international agreement relating to the stationing of troops;
 - the particular procedure of an international organization.
8. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2001

CANADA

Addendum

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2001.

The information notified by Canada is reproduced below.

Pursuant to the agreed procedures (GPA/1, Annex 3) Canada submits its notification of threshold figures in the national currency for the period 1 January 2000 to 31 December 2001. This information was also published on 23 December 1999 in Contracting Policy Notice 1999-9 on the Treasury Board Canada Secretariat website at <http://tbs-sct.gc.ca/>.

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Canadian Dollars
Goods	130,000	261,200
Services	130,000	261,200
Construction	5,000,000	10,000,000

PROPOSED MODIFICATIONS TO APPENDIX I OF HONG KONG, CHINA

Notification from Hong Kong, China under Article XXIV:6(a)

The following notification from the Hong Kong Economic and Trade Office was received on 17 January 2000, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

1. Pursuant to paragraph 6(a) of Article XXIV of the WTO Agreement on Government Procurement (1994) (the "Agreement"), Hong Kong, China hereby notifies the Committee on Government Procurement of the following modifications to Annex 1 of Appendix I of the Agreement:

- (a) delete "Agriculture and Fisheries Department"; and
- (b) add "Agriculture, Fisheries and Conservation Department".

2. The above modifications are necessary as "Agriculture and Fisheries Department" was renamed as "Agriculture, Fisheries and Conservation Department" on 1 January 2000. Such modifications do not alter the level of mutually agreed coverage provided in this Agreement.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 2000-2001

HONG KONG, CHINA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 2000-2001.

The information notified by Hong Kong, China is reproduced below. Other submissions will be compiled in addenda to this document.

1. Calculation of threshold figures in national currency

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in HK Dollar
1. Goods and services other than construction services	130,000	1,371,000
2. Construction services	5,000,000	52,741,000

Annex 2 Entities	Threshold Value (SDR)	Threshold Value in HK Dollar
1. Goods and services other than construction services	200,000	2,110,000
2. Construction services	5,000,000	52,741,000

Annex 3 Entities	Threshold Value (SDR)	Threshold Value in HK Dollar
1. Goods and services other than construction services	400,000	4,219,000
2. Construction services	5,000,000	52,741,000

2. Method of calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Hong Kong Dollar over 24 months from November 1997 to October 1999.

Period (Month/Year)	Average HKD Equivalent of SDR	No. of Days	HKD Equivalent
November 1997	10.62612	30	318.78360
December 1997	10.48685	31	325.09235
January 1998	10.39844	31	322.35164
February 1998	10.44993	28	292.59804
March 1998	10.41233	31	322.78223
April 1998	10.40799	30	312.23970
May 1998	10.41318	31	322.80858
June 1998	10.33101	30	309.93030
July 1998	10.30931	31	319.58861
August 1998	10.27787	31	318.61397
September 1998	10.57182	30	317.15460
October 1998	10.89110	31	337.62410
November 1998	10.77702	30	323.31060
December 1998	10.85957	31	336.64667
January 1999	10.88182	31	337.33642
February 1999	10.69828	28	299.55184
March 1999	10.55789	31	327.29459
April 1999	10.49738	30	314.92140
May 1999	10.45641	31	324.14871
June 1999	10.39209	30	311.76270
July 1999	10.39370	31	322.20470
August 1999	10.58861	31	328.24691
September 1999	10.68684	30	320.60520
October 1999	10.79178	31	334.54518
TOTAL		730	7700.14264

HKD equivalent of SDR for the 24-month period preceding November 1999:

$$7700.14264 \div 730 = 10.54814060$$

that is, 1 SDR = HKD 10.54814

PROPOSED MODIFICATIONS TO APPENDIX I OF HONG KONG, CHINA

Notification from Hong Kong, China under Article XXIV:6(a)

The following notification from the Hong Kong Economic and Trade Office was received on 20 December 1999, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

1. Pursuant to paragraph 6(a) of Article XXIV of the WTO Agreement on Government Procurement (1994) (the "Agreement"), Hong Kong, China hereby notifies the Committee on Government Procurement that due to the abolition of the sub-central entities in Annex 2 of Appendix I and reallocation of their functions to certain central government entities, the following modifications should be made to Annexes 1 and 2 of Appendix I of the Agreement:

- (a) in Annex 1, add "Food and Environmental Hygiene Department" and "Leisure and Cultural Services Department"; and
- (b) in Annex 2, delete "Provisional Urban Council and Urban Services Department" and "Provisional Regional Council and Regional Services Department".

2. The sub-central entities named in paragraph (b) above will be abolished with effect from 1 January 2000. All procurement functions currently carried out by these entities will be transferred to the two new central government entities named in paragraph (a) above and other central government entities already named in Annex 1 of Appendix I of the Agreement.

3. The threshold applicable to central government entities included in Annex 1 of Appendix I is lower than that applicable to sub-central entities included in Annex 2 in respect of the procurement of goods and services other than construction services. Therefore, the transfer of procurement functions from sub-central entities to central government entities, which is the subject-matter of this notification, will result in more government procurement being made subject to the discipline of the Agreement by Hong Kong, China.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

REQUEST FOR OBSERVER STATUS

Communication from Jordan

The following communication, dated 28 December 1999, has been received from the Permanent Representative of the Hashemite Kingdom of Jordan with the request that it be circulated to the Parties to the Agreement on Government Procurement.

The accession of the Hashemite Kingdom of Jordan to the WTO has been recently approved by the WTO Community. This fact reflects Jordan's belief in the effective role of the multilateral system in light of globalization.

As a result of Jordan's commitment to become a party to the WTO Agreement on Government Procurement, we request that Jordan be granted observer status to the Committee on Government Procurement.

PROPOSED MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)¹

The following notification from the Permanent Mission of Japan was received on 1 October 1999, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

1. Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 3 of Appendix I of the Agreement:

- (1) Delete "- Export-Import Bank of Japan" and "- The Overseas Economic Cooperation Fund" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

Add "- Japan Bank for International Cooperation" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

- (2) Delete "- People's Finance Corporation" and "- Environmental Sanitation Business Financing Corporation" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

Add "- National Life Finance Corporation" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

- (3) Delete "- Japan Development Bank" and "- Hokkaido-Tohoku Development Finance Public Corporation" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

Add "- Development Bank of Japan" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

- (4) Delete "- Housing and Urban Development Corporation (a)" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

Add "- Urban Development Corporation (a)" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

2. This rectification is based on the fact that on 1 October 1999, (1) the Export-Import Bank of Japan and the Overseas Economic Cooperation Fund will merge to form the Japan Bank for International Cooperation, (2) the People's Finance Corporation and the Environmental Sanitation Business Financing Corporation will merge to form the National Life Finance Corporation, (3) the Japan Development Bank and the Hokkaido-Tohoku Development Finance Public Corporation will reorganize as the Development Bank of Japan, (4) the Housing and Urban Development Corporation will reorganize as the Urban Development Corporation, respectively. This rectification does not alter the level of mutually agreed coverage provided in this Agreement.

PROPOSED MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)¹

The following notification from the Permanent Mission of Japan was received on 28 September 1999, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

1. Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 3 of Appendix I of the Agreement:

- (1) Delete "- Employment Promotion Corporation" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

Add "- Employment and Human Resources Development Organization of Japan" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

- (2) Delete "- Forest Development Corporation" and "- Japan Agricultural Land Development Agency" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

Add "- Japan Green Resources Corporation" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

2. This rectification is based on the fact that the "Employment Promotion Corporation" will reorganize as the "Employment and Human Resources Development Organization of Japan", and the "Forest Development Corporation" and the "Japan Agricultural Land Development Agency" will merge to form the "Japan Green Resources Corporation" on 1 October 1999, respectively. This rectification does not alter the level of mutually agreed coverage provided in this Agreement.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

PROPOSED MODIFICATIONS TO APPENDIX I OF JAPAN

Notification from Japan under Article XXIV:6(a)¹

The following notification from the Permanent Mission of Japan was received on 24 September 1999, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

The notification by Japan regarding proposed modifications to its Appendix I that was previously circulated in document GPA/W/88, dated 9 July 1999, and certified in WT/Let/308, dated 31 August 1999, should be amended as indicated below.

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 3 of Appendix I of the Agreement:

- Delete "- Japan Small Business Corporation" and "- ~~Japan Finance Corporation for Small Business~~ Small Business Credit Insurance Corporation" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".
- Add "- Japan Small and Medium Enterprise Corporation" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

This rectification is based on the fact that the "Japan Small Business Corporation" and the "~~Japan Finance Corporation for Small Business~~ Small Business Credit Insurance Corporation" were merged to form the "Japan Small and Medium Enterprise Corporation" on 1 July 1999. This rectification does not alter the level of mutually agreed coverage provided in this Agreement.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

**REVIEW PROCEDURES FOR COMPLAINTS CONCERNING
GOVERNMENT PROCUREMENT IN JAPAN**

Communication from Japan

The communication reproduced below regarding the revision of complaint review procedures was received from the delegation of Japan on 3 August 1999 with the request that it be circulated to the Committee on Government Procurement.

**REVISION OF THE "REVIEW PROCEDURES FOR COMPLAINTS CONCERNING
GOVERNMENT PROCUREMENT" AND INTRODUCTION OF "CODE OF
SCHEDULES FOR REVIEW PROCEDURES FOR COMPLAINTS"
CONCERNING GOVERNMENT PROCUREMENT**

As a treaty Party to the Government Procurement Agreement, Japan has applied the principles of national treatment and non-discriminatory treatment in the government procurement of goods and services. It has also operated the Government Procurement Challenge System (CHANS) to review complaints concerning government procurement.

Recently, the Office of Government Procurement Review revamped its complaint review procedures to make the CHANS system easier to use. It will contribute to improve the transparency, fairness, competitiveness and openness of government procurement in Japan.

The main points of revision are as follows:

- Before revision, when the procuring entity insists that the procurement at issue falls under an exception to the coverage of the Government Procurement Agreement, pursuant to Article 23, the Review Board will not accept the complaints. However, after revision, the Review Board itself will judge whether the case should be dismissed because of Article 23.
- Detailed rules for procedures are introduced, including the methods of counting days, the methods of withdrawal and mandates of agents and assistants.
- After revision, a complainant can choose the way that his/her name is treated as anonymous to the public.

REVIEW PROCEDURES FOR COMPLAINTS CONCERNING GOVERNMENT PROCUREMENT

(Provisional Translation)

14 December 1995

Amended: 11 January 1999

Decision by the Office of Government Procurement Review

According to the Cabinet decision of 1 December 1995 on the establishment of the Office of Government Procurement Review (OGPR), we adopt the Review Procedures for Complaints Concerning Government Procurement (hereafter referred to as "the Procedures") as follows.

1. The Government Procurement Review Board

- (1) The Government Procurement Review Board (hereafter referred to as "the Board") shall, upon the receipt of written complaints, conduct investigations of facts relating to any aspects of relevant procurement process, and make necessary recommendations for procuring entities.
- (2) No member of the Board may participate in the review of a complaint when he or she is deemed to have interests in it.
- (3) The Board, when necessary, may establish subcommittees for specific product or service areas.
- (4) The Chairperson of the Board appoints those persons who chair the subcommittees.

2. Filing of Complaints

- (1) The "suppliers" referred to in the Procedures are defined as follows:
 - i. In the case of government procurement other than public works: persons who supplied or who were capable of supplying the product or service when the procuring entity procured the same.
 - ii. In the case of government procurement of construction services pertaining to public works:
 - a. When a complaint concerns registration for qualified participants, persons who have applied for the registration.
 - b. When open tendering is used:
 - (i) If a complaint concerns confirmation of qualification to participate in the competition, persons who have applied for the confirmation.
 - (ii) If a complaint concerns tendering procedures other than a. and b.(i) above, persons who have received confirmation of qualification to participate in the competition.
 - (iii) If a complaint concerns the results of tendering, persons who have submitted tenders.

- c. When procurement procedures other than b. above are used, persons who are registered as qualified participants in relation to the procurement. (When single tendering is used, persons who have interests in relation to the procurement.)
 - iii. In the case of government procurement of design and consulting services pertaining to public works:
 - a. When a complaint concerns the registration for qualified participants, persons who have applied for the registration.
 - b. When the Public Invitation Proposal Procedures or the Public Invitation Competitive Bidding Procedures are used:
 - (i) If a complaint concerns the selection of applicants to be invited to submit proposals (in case of the Public Invitation Proposal Procedures) or the selection of applicants to participate in the competition (in case of the Invitation Competitive Bidding Procedures), persons who have expressed interests in the procurement.
 - (ii) If a complaint concerns procurement procedures other than iii.a. and iii.b.(i) above, persons who have been permitted to submit proposals (in case of the Public Invitation Proposal Procedures) or persons who have been permitted as participants in the competition (in case of the Public Invitation Competitive Bidding Procedures).
 - (iii) If a complaint concerns the selection of the best proposal (in case of the Public Invitation Proposal Procedures), persons who have submitted proposals; if a complaint concerns the results of tendering (in case of the Public Invitation Competitive Bidding Procedures), persons who have submitted tenders.
 - c. When procurement procedures other than iii.b. are used, persons who are registered as qualified participants in relation to the procurement. (When single tendering is used, persons who have interests in relation to the procurement.)
- (2) A supplier may file a complaint with the Board, when he or she suspects breaches of any provision of the Agreement on Government Procurement or other applicable Measures designated by the Head of the OGPR (hereafter referred to as "the Agreement or other Measures"). The supplier, however, is encouraged to initially seek resolution through consultation with the procuring entity.
- (3) When a supplier suspecting of breaches of the Agreement or other Measures requests consultation with the procuring entity, the entity shall promptly enter into consultations and make efforts to resolve the complaint.

3. Calculation of Time in the Procedures

- (1) A day shall be a calendar day unless otherwise specified.
- (2) A working day shall be any day which is not a Japanese government agency holiday.

- (3) The first day of a period shall not be counted.
- (4) If the final day of a period falls on a Japanese government agency holiday, the period shall be extended to the next day.

4. Participants

- (1) When a complaint is filed, all suppliers who have interests in the procurement at issue may participate in the complaint review process.
- (2) When a complaint is filed, the entity which carried out the procurement at issue (hereafter referred to as "the Procuring Entity") shall participate in the complaint review process.
- (3) When a complaint is filed, suppliers who have interests in the procurement at issue and who wish to participate in the complaint review process shall notify the Board of their intent to participate in the same within 5 days of receiving the public notice stipulated in 5.(5) below, whereupon suppliers who have provided such notification (hereafter referred to as "the Participants") shall be subject to the Procedures.
- (4) The Participants may withdraw their notification in (3) above at any time.

5. Complaint Review Process

- (1) When a supplier suspects breaches of any provision of the Agreement or other Measures, he or she may file a complaint in writing with the Board at any time during the procurement process, but no later than 10 days from when the basis of the complaint is known or should reasonably have been known to the supplier. Immediately upon the filing of the complaint, the Board shall send a copy of the complaint to the OGPR and the Procuring Entity.
- (2) In principle, the Board shall review a complaint within 7 working days of its filing, and may, in writing and providing reasons therefor, dismiss any complaint found to be:
 - i. not submitted in a timely manner;
 - ii. unrelated to the Agreement or other Measures;
 - iii. frivolous or trivial;
 - iv. not submitted by a supplier; or
 - v. inappropriate otherwise for review by the Board.
- (3) If the Procuring Entity believes that the complaint should be dismissed, it may, in writing and providing reasons therefor, express such opinion to the Board.
- (4) The Board may receive and consider a complaint that is not timely filed, if it finds that reasonable cause is shown.
- (5) If the Board determines that a complaint has been properly filed and receives the complaint for consideration, the Board shall immediately notify the supplier who filed the complaint (hereafter referred to as "the Complainant"), the OGPR, and the Procuring Entity of its decision in writing. Also it shall publicly announce its decision in a form to be determined by the Chairperson of the Board.

(6) Suspension of Contract Execution and Performance

- i. In the case of a complaint prior to contract execution, the Board shall, in principle, promptly issue a written request to the Procuring Entity within 10 days of the filing that contract execution should be suspended pending resolution of the complaint.
- ii. In the case of a post-execution complaint filed within 10 days of the contract execution, the Board shall, in principle, promptly issue a written request to the Procuring Entity that contract performance should be suspended pending resolution of the complaint.
- iii. When the Board determines that urgent and compelling circumstances do not allow it to issue such request to the Procuring Entity that the execution or performance of the contract should be suspended, the Board shall immediately provide written notification of its decision with reasons therefor to the Complainant and the OGPR.
- iv. The Procuring Entity shall suspend the execution or performance of the contract immediately upon receiving the Board's request. If, however, the head of the Procuring Entity determines that he or she cannot obey the request due to urgent and compelling circumstances, the Procuring Entity may fail to suspend the same but shall immediately provide written notification of its decision with reasons therefor to the Board.
- v. In the event that the proviso of paragraph iv. above applies, the Board shall immediately send a copy of the notification to the Complainant and the OGPR.

(7) Review

- i. The Board shall conduct review of a complaint based on briefs, pleas, or other documentation which it shall request the Complainant and the Procuring Entity to file.
- ii. The Procuring Entity shall not refuse to submit such briefs, pleas, or other documentation, unless the submission would harm public interest or threaten to significantly impede it from executing its official duties.
- iii. When the Board determines that it is necessary to evaluate whether the submission of briefs, pleas, or other documentation would harm public interest or threaten to significantly impede the Procuring Entity from executing its official duties, the Board may have the Procuring Entity submit the same. In this case, the Board shall not disclose the same to anyone.
- iv. The Board shall conduct review of a complaint based on the Procedures even in case where a lawsuit has been filed before a Court relating to the procurement that is the subject of the complaint.
- v. The Complainant, the Participants, and the Procuring Entity may attend and give their views at meetings of the Board before the Board makes its findings.
- vi. The Complainant, the Participants, and the Procuring Entity may be represented by lawyers, or by other agents approved by the Board.
- vii. The Board may avoid the approval in vi. above at any time.

- viii. The power and mandate of agents shall be manifested in writing.
 - ix. If there are two or more agents, each shall represent the principal.
 - x. The Complainant, the Participants, the Procuring Entity and their agents may be accompanied by assistants, if the Board so approves.
 - xi. The Board may avoid the approval in x. above at any time.
 - xii. The Complainant, the Participants, and the Procuring Entity may hear each other's statement at meetings of the Board held in connection with the complaint, unless the Board determines that such attendance is inappropriate.
 - xiii. The Board may, at the request of the Complainant, the Participants or the Procuring Entity, or on the Board's own initiative, have witnesses testify at meetings of the Board.
 - xiv. The Complainant, the Participants, and the Procuring Entity may demand to publicly disclose the statements of views or reports which they have made at meetings of the Board.
 - xv. The Board may, at the request of either the Complainant or the Procuring Entity, or on the Board's own initiative, hold public hearings concerning the merits of the complaint.
 - xvi. The Board may, if necessary, hear the views of technical experts and others with knowledge or experience relating to the procurement under review. In no case may the technical experts and others have any substantive interest in the procurement.
- (8) The Complainant may withdraw its complaint at any time.
- (9) Reports from the Procuring Entity
- i. When a duly filed complaint is received for consideration by the Board, the Procuring Entity shall submit to the Board within 14 days from the date when the copy of the complaint was sent to it by the Board, a written report concerning the procurement subject to the complaint, to include:
 - a. relevant documentation for tendering, including the specifications or portions thereof, relevant to the complaint;
 - b. a statement that sets out all relevant facts, findings, actions and recommendations of the Procuring Entity, and that responds fully to all allegations in the complaint;
 - c. any additional evidence or information that may be necessary in order to resolve the complaint.
 - ii. The Board shall, immediately after receiving the report referred to in i. above, send a copy of the report to the Complainant, the Participants, and the OGPR. The Board shall also give the Complainant and the Participants an opportunity to make comments to the Board or to request that the complaint be reviewed by the Board on the basis of the report within 7 days of receiving the copy of the report, respectively.

The Board shall, immediately upon receiving such comments or request, send copies of the same to the Procuring Entity.

- iii. The Board shall not disclose to third parties any trade secrets, manufacturing processes, or intellectual property of the supplier, or any other confidential commercial information, furnished by the supplier, except with the supplier's consent.

6. Findings of the Review and Recommendations

- (1) The Board shall make a written report of its findings of the review, within 90 days (or 50 days in the case of a complaint pertaining to public works) of the filing of a complaint. In its report, the Board shall set forth the basis for its findings of the review and shall indicate whether or not the complaint was found warranted either in full or in part. It shall also indicate whether or not the procurement breached specific provisions of the Agreement or other Measures.
- (2) Where the Board finds that any provision of the Agreement or other Measures were not followed, the Board shall accompany the report with written recommendations concerning appropriate remedies, which may include one or more of the following:
 - i. that new procurement procedures be conducted;
 - ii. that re-procurement be conducted without changing conditions for procurement;
 - iii. that the procurement be reevaluated;
 - iv. that the contract be executed with a different supplier;
 - v. that the contract be terminated.
- (3) In making its findings of the review and recommendations, the Board shall consider the circumstances surrounding the procurement process under review, including the seriousness of deficiency in the procurement process, the degree of prejudice to all or any suppliers, the extent of impediment to the integrity and effectiveness of the Agreement or other Measures, the good faith of the Complainant and the Procuring Entity, the extent of performance of the contract relating to the procurement, the cost of the recommendations to the Government of Japan, the urgency of the procurement, and the impact of the recommendations on the operations of the Procuring Entity.
- (4) The Board shall send its report and recommendations to the Complainant, the Participants, the Procuring Entity, and the OGPR immediately after the completion of the report and recommendations.
- (5) The Procuring Entity shall, in principle, and as its own decision, duly follow the recommendations of the Board on any complaints brought appropriately before the Board. If the Procuring Entity has decided not to comply with the recommendations, it shall report to the Board with the reasons therefor within 10 days (or within 60 days in the case of a complaint pertaining to public works) of receiving the Board's recommendations. The Board shall send a copy of the reasons to the OGPR immediately upon receiving such report.
- (6) The Board shall respond to external inquiries concerning its findings of the review and recommendations.

- (7) Whenever the Board, in conducting review of a complaint, finds evidence of misconduct or actions or behaviour contrary to the law relating to the procurement that is the subject of the complaint, it shall refer the matter to the appropriate enforcement authorities for action.

7. Expedited Review Option

- (1) When the Complainant or the Procuring Entity requests in writing an expeditious handling of a complaint, the Board shall consider the feasibility of applying the procedure set out in this section, referred to herein as the "expedited review option".
- (2) The Board shall determine whether to apply expedited review option immediately upon receiving a request for the same, and shall notify the Complainant, the Procuring Entity, the Participants, and the OGPR as to whether this option is to be applied.
- (3) When the expedited review option is applied, the time limits and procedures are set forth as follows:
- i. The Procuring Entity shall, within 6 working days of receiving notification from the Board that the expedited review option is to be applied, submit a written report on the complaint as specified in 5.(9) above to the Board. The Board shall send a copy of the report to the Complainant and the Participants immediately upon receiving the same. The Board shall give the Complainant and the Participants an opportunity to comment to the Board or to request that the case be decided on the basis of the report within 5 days of receiving this copy, respectively. The Board shall, immediately upon receiving the comments or requests, send a copy to the Procuring Entity.
 - ii. The Board shall make a report of its findings of the review and any recommendations within 45 days (or 25 days in the case of a complaint filed with respect to public works, telecommunications products and services, and medical technology products and services) from the date when the complaint was filed.

8. Public Release of Status of Receipt and Review of Complaints

The OGPR shall periodically release to the public summaries of the status of receipt and review of complaints with respect to government procurement.

9. Document Retention

In order to contribute to the complaint review process, each procuring entity shall maintain complete documentation on the procurement that falls under the Agreement or other Measures at least for 3 years (or 5 years in the case of public works, telecommunications products and services, and medical technology products and services) from the date of the contract execution.

10. Application

- (1) The Procedures above shall apply to complaints filed on or after 1 January 1996.
- (2) In the event that the Procedures should conflict with those provided for in "Revised Procedures to introduce Supercomputers (adopted by the Committee for Drawing Up and Promoting the Action Program, on 19 April 1990)", in "Procedures for the Procurement of Non-R&D Satellites (adopted by the Committee for Drawing Up and Promoting the Action Program, on 14 June 1990)", or in "Measures Related to Japanese Public Sector Procurement of Computer Products and Services (adopted by the Committee for Drawing Up and Promoting the Action Program, on 20 January 1992)", the procedures set forth in the quoted documents shall prevail.

**CODE OF SCHEDULES FOR REVIEW PROCEDURES FOR COMPLAINTS
CONCERNING GOVERNMENT PROCUREMENT**

(Provisional Translation)

11 January 1999

Decision by the Office of Government Procurement Review

We adopt the Code of Schedules for Review Procedures for Complaints Concerning Government Procurement as follows.

1. Filing of Complaints

(1) Definition of "persons who were capable of supplying the product or service"

"Persons who were capable of supplying the product or service" in the Procedures 2.(1)i. should be those who have or had an interest in the procurement, and include the following.

- i. Those who participated in tendering:
 - a. Those who participated in open tendering.
 - b. Those who participated in selective tendering.
 - c. Those who made any response to single tendering.
- ii. Those who did not participate in tendering despite had planned to:
 - a. Those who did not participate in tendering due to breaches in the procurement procedures.
 - b. Those who could not participate in tendering due to selective tendering or single tendering.
 - c. Those who were not allowed to participate in tendering.
- iii. Those who indirectly participate in tendering (including single tendering).

(2) Termination of Consultations

Either the supplier or the procuring entity may terminate the consultation under the Procedures 2.(2) at any time.

(3) Counting the days during consultation

If a complaint is not settled by the consultation under the Procedures 2.(2), the period for filing a complaint will toll for the period of consultation.

2. Calculation of Time in the Procedures

(1) Definition of "a Japanese government agency holiday"

"A Japanese government agency holiday" means days defined in "Government Holiday Law, article 1.1."

3. Participants

(1) Notification of participation

The intent to participate under the Procedures 4.(3) shall, in writing and providing reasons therefor, be notified to the Board.

(2) Withdrawal of participation

- i. Withdrawal of participation under the Procedures 4.(4) shall be notified in writing.
- ii. The Board shall promptly notify the withdrawal of participation under the Procedures 4.(4) to the parties in writing.

4. Complaint Review Process

(1) Period in the case of filing complaint by mail

If a complaint in the Procedures 5.(1) is sent by mail, the complaint is regarded as having been filed on the day the mail was postmarked. (When the mail is not postmarked or not postmarked clearly, the complaint shall be regarded as having been filed on the day determined in consideration of the period which the mail usually requires to be delivered.)

(2) Understanding of "7 working days"

It sometimes requires more than 7 working days to determine whether a complaint should be dismissed by the Procedures 5.(2). Thus, although a complaint shall be dismissed in principle within 7 working days after it was filed, some complaints may be dismissed exceptionally beyond 7 working days.

(3) Remedy for misleading guidance

If the Procuring Entity or the Secretariat of the Board indicates to a Complainant a longer period for filing a complaint than the proper period, and a complaint is filed during the indicated period, the complaint shall be regarded as being filed timely.

(4) Public announcement of filing Complainant

Public announcement under the Procedures 5.(5) shall be published in "The Method of Public Announcement when a Complaint is Filed" (the decision of the Chairperson of the Government Procurement Review Board, 26 December 1995).

(5) Definition of procuring entities

Procuring entities include central government agencies. They are all agencies which are subject to "The Accounts Law" (they include internal bureaus, external bureaus, attached

agencies, other agencies and local branches defined in "National Administration Organization Law") and the government related agencies (the entities in the Agreement on Government Procurement Appendix I, Annex 3, and the agencies which are subject to "Measures Related to Japanese Public Sector Procurement of Computer Products and Services (adopted by the Committee for Drawing Up and Promoting the Action Program, on 20 January 1992)").

(6) Definition of the head of procuring entities

The head of procuring entities is the head of the ministries and agencies defined by "The Finance Law, article 20.2" and the head of the government related agencies.

- i. As far as ministries and agencies are concerned, if the budget expenditure authority is delegated to the budget expenditure officer under "Accounting Law, article 13", the budget expenditure officer may be regarded as the head of the procuring entities.
- ii. As far as government related agencies are concerned, if the budget expenditure authority is delegated to an officer by regulations, the officer may be regarded as the head of the procuring entities.

(7) Request for approval of agents

- i. When the Complainant requests a lawyer as an agent, the name and address of the lawyer's office and the name of lawyer association which the lawyer belongs to shall be manifested in a writing which shall also manifest the power and mandate of the agent in the Procedures 5.(7)viii.
- ii. When the Complainant requests an agent other than a lawyer under the Procedures 5.(7)vi., the name, occupation, relations with the Complainant, and any other information enough to judge whether the agent is suitable as a representative shall be manifested in writing.
- iii. The writing which manifests the mandate of the agent under the Procedures 5.(7)viii. shall be attached to the writing in ii. above.

(8) Requests for approval of assistants

When the Complainant requests an assistant under the Procedures 5.(7)x., the name, occupation, relationship with the Complainant, and any other information enough to judge whether the designated person is suitable as an assistant, shall be manifested in writing.

(9) Definition of "any substantive interest"

Technical experts and others who have "any substantive interest" in the Procedures 5.(7)xiv. are defined as either persons who were concerned in the procurement process under review, including engineers, advisors, and architects, or persons who have an employment relationship with the Complainant, including, but not necessarily limited to, relatives of the Complainant.

(10) Withdrawal of complainants

- i. Withdrawal of the complaint under the Procedures 5.(8) shall be manifested in writing.

- ii. When the Board receives withdrawal of complaint in the Procedures 5.(8), the Board shall promptly notify it to the parties in writing.

(11) Non-disclosure of the "report from the Procuring Entity"

The Board requests the Complainant and the Participants not to disclose the "Report from the Procuring Entity" in the Procedures 5.(9)i. except to the parties.

(12) Definition of "commercial information"

The "commercial information" in the Procedures 5.(9)i. means the useful technical or trade information for the business activities which is not disclosed.

5. Findings of the Review and Recommendations

(1) Attachment of the report concerning minor opinions

When the Board makes report in the Procedures 6.(1), if one or more members of the Board request to write the minor opinions, the Board may attach the minor opinions to the report.

(2) Public release of "findings of the review and recommendations"

The Board will decide the form in which "findings of the review and recommendations" in the Procedures 6.(1) and 6.(2) will be publicly released.

6. Public Release of Status of Receipt and Review of Complaints

Public release under the Procedures 8. shall be published in "The Method of Public Release of Status of Receipt and Review of Complaints (the decision by the Head of the Office of Government Procurement Review, 30 July 1996)".

PROPOSAL FOR THE AMENDMENT OF THE GOVERNMENT PROCUREMENT AGREEMENT (1994)

Submission by the European Community

The following communication, dated 30 June 1999, has been received from the Permanent Delegation of the European Commission with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Proposal for the Amendment of the Government Procurement Agreement (1994) by the European Union

(At this stage no amendments to the structure of the Agreement are suggested)

Government Procurement Agreement (1994) Suggested amendments indicated	Amendments Draft new text (where different from old text)	Remarks
ARTICLE I	ARTICLE I	ARTICLE I
<i>Scope and Coverage</i>		
<p>1. This Agreement applies to any law, regulation, procedure or practice regarding any procurement <u>falling within the scope of Article III, paragraph 8 of the GATT and Article XIII, paragraph 1 of GATS</u> by entities covered by this Agreement, as specified in Appendix I.</p>	<p>1. This Agreement applies to any law, regulation, procedure or practice regarding any procurement falling within the scope of Article III, paragraph 8 of the GATT and Article XIII, paragraph 1 of GATS by entities covered by this Agreement, as specified in Appendix I.</p>	
<p>2. This Agreement applies to procurement by any contractual means, including through such methods as purchase or as lease, rental or hire purchase, with or without an option to buy, including any combination of products and services.</p>		
<p>3. Where entities, in the context of procurement covered under this Agreement, require enterprises not included in Appendix I to award contracts in accordance with particular requirements, Article III shall apply <i>mutatis mutandis</i> to such requirements.</p>		

<p>4. <u>Without prejudice to Article XXIII, this Agreement applies to any procurement contract:</u></p> <p>(a) <u>of central government entities of a value of not less than the relevant threshold specified in Appendix I.</u></p> <ul style="list-style-type: none"> - <u>130,000 SDR for contracts for supply of products and services</u> - <u>5,000,000 SDR for contracts for public works</u> <p>(b) <u>of sub-central government entities of a value of not less than</u></p> <ul style="list-style-type: none"> - <u>200,000 SDR for contracts for supply of products and services</u> - <u>5,000,000 SDR for contracts for public works</u> <p>(c) <u>of entities according to Appendix I, Annex 3 of a value of not less than</u></p> <ul style="list-style-type: none"> - <u>400,000 SDR for contracts for supply of products and services</u> - <u>5,000,000 SDR for contracts for public works</u> 	<p>4. Without prejudice to Article XXIII, this Agreement applies to any procurement contract:</p> <p>(a) of central government entities of a value of not less than</p> <ul style="list-style-type: none"> - 130,000 SDR for contracts for supply of products and services - 5,000,000 SDR for contracts for public works <p>(b) of sub-central government entities of a value of not less than</p> <ul style="list-style-type: none"> - 200,000 SDR for contracts for supply of products and services - 5,000,000 SDR for contracts for public works <p>(c) of entities according to Appendix I, Annex 3 of a value of not less than</p> <ul style="list-style-type: none"> - 400,000 SDR for contracts for supply of products and services - 5,000,000 SDR for contracts for public works 	<p>A definition of central government entities will be presented at a later stage.</p>
<p>ARTICLE II</p>	<p>ARTICLE II</p>	<p>ARTICLE II</p>
<p><i>Valuation of Contracts</i></p>		
<p>1. The following provisions shall apply in determining the value of contracts for purposes of implementing this Agreement.</p>		
<p>2. Valuation shall take into account all forms of remuneration, including any premiums, fees, commissions and interest receivable.</p>		
<p>3. The selection of the valuation method by the entity shall not be used, nor shall any procurement requirement be divided, with the intention of avoiding the application of this Agreement.</p>		

<p>4. If an individual requirement for a procurement results in the award of more than one contract, or in contracts being awarded in separate parts, the basis for valuation shall be either:</p> <ul style="list-style-type: none">(a) the actual value of similar recurring contracts concluded over the previous fiscal year or 12 months adjusted, where possible, for anticipated changes in quantity and value over the subsequent 12 months; or(b) the estimated value of recurring contracts in the fiscal year or 12 months subsequent to the initial contract.		
<p>5. In cases of contracts for the lease, rental or hire purchase of products or services, or in the case of contracts which do not specify a total price, the basis for valuation shall be:</p> <ul style="list-style-type: none">(a) in the case of fixed-term contracts, where their term is 12 months or less, the total contract value for their duration, or, where their term exceeds 12 months, their total value including the estimated residual value;(b) in the case of contracts for an indefinite period, the monthly instalment multiplied by 48. <p>If there is any doubt, the second basis for valuation, namely (b), is to be used.</p>		
<p>6. In cases where an intended procurement specifies the need for option clauses, the basis for valuation shall be the total value of the maximum permissible procurement, inclusive of optional purchases.</p>		

ARTICLE III	ARTICLE III	ARTICLE III
<i>National Treatment and Non-discrimination – Principal obligations</i>	<i>Principal obligations</i>	
<p>0. Each Party shall ensure that the procurement of its covered entities takes place in a transparent, reasonable and non-discriminatory manner, treating any supplier of any Party equally, and ensuring the principle of open and effective competition.</p>	<p>0. Each Party shall ensure that the procurement of its covered entities takes place in a transparent, reasonable and non-discriminatory manner, treating any supplier of any Party equally, and ensuring the principle of open and effective competition.</p>	<p>This paragraph sets out the general principles that govern government procurement. The European Union intends to specify at a later stage in the GPA the specific obligations resulting for Parties from these principles.</p>
<p>1. With respect to all laws, regulations, procedures and practices regarding government procurement covered by this Agreement, each Party shall provide immediately and unconditionally to the products, services and suppliers of other Parties offering products or services of the Parties, treatment no less favourable than:</p> <ul style="list-style-type: none"> (a) that accorded to domestic products, services and suppliers; and (b) that accorded to products, services and suppliers of any other Party. 		
<p>2. With respect to all laws, regulations, procedures and practices regarding government procurement covered by this Agreement, each Party shall ensure:</p> <ul style="list-style-type: none"> (a) that its entities shall not treat a locally-established supplier less favourably than another locally-established supplier on the basis of degree of foreign affiliation or ownership; and (b) that its entities shall not discriminate against locally-established suppliers on the basis of the country of production of the good or service being supplied, provided that the country of production is a Party to the Agreement in accordance with the provisions of Article IV. 		

<p>3. The provisions of paragraphs 1 and 2 <u>This Article</u> shall not apply to customs duties and charges of any kind imposed on or in connection with importation, the method of levying such duties and charges, other import regulations and formalities, and measures affecting trade in services other than laws, regulations, procedures and practices regarding government procurement covered by this Agreement.</p>	<p>3. This Article shall not apply to customs duties and charges of any kind imposed on or in connection with importation, the method of levying such duties and charges, other import regulations and formalities, and measures affecting trade in services other than laws, regulations, procedures and practices regarding government procurement covered by this Agreement.</p>	
<p>ARTICLE IV <i>Rules of Origin</i></p>	<p>ARTICLE IV</p>	<p>ARTICLE IV</p>
<p>1. A Party shall not apply rules of origin to products or services imported or supplied for purposes of government procurement covered by this Agreement from other Parties, which are different from the rules of origin applied in the normal course of trade and at the time of the transaction in question to imports or supplies of the same products or services from the same Parties.</p>		
<p>2. Following the conclusion of the work programme for the harmonization of rules of origin for goods to be undertaken under the Agreement on Rules of Origin in Annex 1A of the Agreement Establishing the World Trade Organization (hereinafter referred to as "WTO Agreement") and negotiations regarding trade in services, Parties shall take the results of that work programme and those negotiations into account in amending paragraph 1 as appropriate.</p>		

ARTICLE V	ARTICLE V	ARTICLE V
<p>Special and Differential Treatment for Developing Countries</p> <p><u>Upon accession to the GPA, a developing country shall enjoy all the benefits of the Agreement.</u> <u>It shall be obliged to comply with the obligations under this Agreement:</u></p> <ul style="list-style-type: none"> - <u>at central government level X years after accession</u> - <u>at sub-central government level Y years after accession</u> - <u>as far as entities under Appendix I, Annex 3 are concerned Z years after accession.</u> 	<p>Developing Countries</p> <p>Upon accession to the GPA, a developing country shall enjoy all the benefits of the Agreement. It shall be obliged to comply with the obligations under this Agreement:</p> <ul style="list-style-type: none"> - at central government level X years after accession - at sub-central government level Y years after accession - as far as entities under Appendix I, Annex 3 are concerned Z years after accession. 	<p>The remainder of Article V may be included in a separate protocol.</p>
<p><u>Objectives</u></p> <p>1. Parties shall, in the implementation and administration of this Agreement, through the provisions set out in this Article, duly take into account the development, financial and trade needs of developing countries, in particular least developed countries, in their need to:</p> <ul style="list-style-type: none"> (a) safeguard their balance of payments position and ensure a level of reserves adequate for the implementation of programmes of economic development; (b) promote the establishment or development of domestic industries including the development of small scale and cottage industries in rural or backward areas; and economic development of other sectors of the economy; 		

<p>(e) support industrial units so long as they are wholly or substantially dependent on government procurement; and</p> <p>(d) encourage their economic development through regional or global arrangements among developing countries presented to the Ministerial Conference of the World Trade Organization (hereinafter referred to as the "WTO") and not disapproved by it.</p>		
<p>2. Consistently with the provisions of this Agreement, each Party shall, in the preparation and application of laws, regulations and procedures affecting government procurement, facilitate increased imports from developing countries, bearing in mind the special problems of least developed countries and of those countries at low stages of economic development.</p>		
<p><u>Coverage</u></p>		
<p>3. With a view to ensuring that developing countries are able to adhere to this Agreement on terms consistent with their development, financial and trade needs, the objectives listed in paragraph 1 shall be duly taken into account in the course of negotiations with respect to the procurement of developing countries to be covered by the provisions of this Agreement. Developed countries, in the preparation of their coverage lists under the provisions of this Agreement, shall endeavour to include entities procuring products and services of export interest to developing countries.</p>		

<u>Agreed Exclusions</u>		
<p>4. A developing country may negotiate with other participants in negotiations under this Agreement mutually acceptable exclusions from the rules on national treatment with respect to certain entities, products or services that are included in its coverage lists, having regard to the particular circumstances of each case. In such negotiations, the considerations mentioned in subparagraphs 1(a) through 1(c) shall be duly taken into account. A developing country participating in regional or global arrangements among developing countries referred to in subparagraph 1(d) may also negotiate exclusions to its lists, having regard to the particular circumstances of each case, taking into account, <i>inter alia</i>, the provisions on government procurement provided for in the regional or global arrangements concerned and, in particular, products or services which may be subject to common industrial development programmes.</p>		

<p>5. After entry into force of this Agreement, a developing country Party may modify its coverage lists in accordance with the provisions for modification of such lists contained in paragraph 6 of Article XXIV, having regard to its development, financial and trade needs, or may request the Committee on Government Procurement (hereinafter referred to as "the Committee") to grant exclusions from the rules on national treatment for certain entities, products or services that are included in its coverage lists, having regard to the particular circumstances of each case and taking duly into account the provisions of subparagraphs 1(a) through 1(c). After entry into force of this Agreement, a developing country Party may also request the Committee to grant exclusions for certain entities, products or services that are included in its coverage lists in the light of its participation in regional or global arrangements among developing countries, having regard to the particular circumstances of each case and taking duly into account the provisions of subparagraph 1(d). Each request to the Committee by a developing country Party relating to modification of a list shall be accompanied by documentation relevant to the request or by such information as may be necessary for consideration of the matter.</p>		
<p>6. Paragraphs 4 and 5 shall apply <i>mutatis mutandis</i> to developing countries acceding to this Agreement after its entry into force.</p>		
<p>7. Such agreed exclusions as mentioned in paragraphs 4, 5 and 6 shall be subject to review in accordance with the provisions of paragraph 14 below.</p>		

<u>Technical Assistance for Developing Country Parties</u>		
<p>8. Each developed country Party shall, upon request, provide all technical assistance which it may deem appropriate to developing country Parties in resolving their problems in the field of government procurement.</p>		
<p>9. This assistance, which shall be provided on the basis of non discrimination among developing country Parties, shall relate, <i>inter alia</i>, to:</p> <ul style="list-style-type: none"> —— the solution of particular technical problems relating to the award of a specific contract; and —— any other problem which the Party making the request and another Party agree to deal with in the context of this assistance. 		
<p>10. Technical assistance referred to in paragraphs 8 and 9 would include translation of qualification documentation and tenders made by suppliers of developing country Parties into an official language of the WTO designated by the entity, unless developed country Parties deem translation to be burdensome, and in that case explanation shall be given to developing country Parties upon their request addressed either to the developed country Parties or to their entities.</p>		

<p><u>Information Centres</u></p>		
<p>11. Developed country Parties shall establish, individually or jointly, information centres to respond to reasonable requests from developing country Parties for information relating to, <i>inter alia</i>, laws, regulations, procedures and practices regarding government procurement, notices about intended procurements which have been published, addresses of the entities covered by this Agreement, and the nature and volume of products or services procured or to be procured, including available information about future tenders. The Committee may also set up an information centre.</p>		
<p><u>Special Treatment for Least Developed Countries</u></p>		
<p>12. Having regard to paragraph 6 of the Decision of the CONTRACTING PARTIES to GATT 1947 of 28 November 1979 on Differential and More Favourable Treatment, Reciprocity and Fuller Participation of Developing Countries (BISD 26S/203-205), special treatment shall be granted to least developed country Parties and to the suppliers in those Parties with respect to products or services originating in those Parties, in the context of any general or specific measures in favour of developing country Parties. A Party may also grant the benefits of this Agreement to suppliers in least developed countries which are not Parties, with respect to products or services originating in those countries.</p>		
<p>13. Each developed country Party shall, upon request, provide assistance which it may deem appropriate to potential tenderers in least developed countries in submitting their tenders and selecting the products or services which are likely to be of interest to its entities as well as to suppliers in least developed countries, and likewise assist them to comply with technical regulations and standards relating to products or services which are the subject of the intended procurement.</p>		

<u>Review</u>		
<p>14. The Committee shall review annually the operation and effectiveness of this Article and, after each three years of its operation on the basis of reports to be submitted by Parties, shall carry out a major review in order to evaluate its effects. As part of the three yearly reviews and with a view to achieving the maximum implementation of the provisions of this Agreement, including in particular Article III, and having regard to the development, financial and trade situation of the developing countries concerned, the Committee shall examine whether exclusions provided for in accordance with the provisions of paragraphs 4 through 6 of this Article shall be modified or extended.</p>		
<p>15. In the course of further rounds of negotiations in accordance with the provisions of paragraph 7 of Article XXIV, each developing country Party shall give consideration to the possibility of enlarging its coverage lists, having regard to its economic, financial and trade situation.</p>		
<p>ARTICLE VI</p>	<p>ARTICLE VI</p>	<p>ARTICLE VI</p>
<p><i>Technical Specifications</i></p>		
<p>1. Technical specifications laying down the characteristics of the products or services to be procured, such as quality, performance, safety and dimensions, symbols, terminology, packaging, marking and labelling, or the processes and methods for their production and requirements relating to conformity assessment procedures prescribed by procuring entities, <u>shall comply with the principles laid down in Article III, paragraph 0 and in particular ensure the principle of open and effective competition and shall not be prepared, adopted or applied with a view to, or with the effect of, creating unnecessary obstacles to international trade.</u></p>	<p>1. Technical specifications laying down the characteristics of the products or services to be procured, such as quality, performance, safety and dimensions, symbols, terminology, packaging, marking and labelling, or the processes and methods for their production and requirements relating to conformity assessment procedures prescribed by procuring entities, shall comply with the principles laid down in Article III, paragraph 0 and in particular ensure the principle of open and effective competition and shall not be prepared, adopted or applied with a view to, or with the effect of, creating unnecessary obstacles to international trade.</p>	<p>This text reverses the current situation. Indeed, currently contracting entities shall, where appropriate, base their technical specifications on international standards, where such exist.</p> <p>The new text allows contracting entities to lay down technical specifications in accordance with their needs, provided they comply with the principles lay down in Article III, paragraph 0 and in particular ensure the principle of open and effective competition. Thus, within the limits just referred to, contracting entities may take into account the fact that their project is of a genuinely innovative nature or the need to ensure compatibility with equipment already in use.</p>

<p><u>This means that at least the following will apply:</u></p> <p>(a) <u>technical specifications shall be formulated, where possible in terms of performance requirements rather than design or descriptive characteristics;</u></p> <p>(b) <u>in all cases procuring entities shall not be able to exclude bids which include products, services or works which comply with appropriate international standards for reasons relating to the non-compliance with technical requirements covered by those standards;</u></p> <p><u>procuring entities shall not reject bids which do not comply with the standard, regulation or code to which the technical specifications refer, but do meet the essential requirements thereof and are fit for the purpose intended.</u></p>	<p>This means that at least the following will apply:</p> <p>(a) technical specifications shall be formulated, where possible in terms of performance requirements rather than design or descriptive characteristics;</p> <p>(b) in all cases procuring entities shall not be able to exclude bids which include products, services or works which comply with appropriate international standards for reasons relating to the non-compliance with technical requirements covered by those standards;</p> <p>procuring entities shall not reject bids which do not comply with the standard, regulation or code to which the technical specifications refer, but do meet the essential requirements thereof and are fit for the purpose intended.</p>	<p>If a product (service or work) complies with an appropriate international standard the contracting entity cannot <i>exclude</i> this product (service or work) for reasons covered by that standard. It is obvious, however, that other aspects, not covered by the standard will still have to be assessed on the basis of other information on the product (service or work). In addition, the conformity with the international standard needs to be clear or made clear by the supplier, which also means that the technical means to verify such conformity must be available.</p>
<p>2. Technical specifications prescribed by procuring entities shall, where appropriate:</p> <p>(a) be in terms of performance rather than design or descriptive characteristics; and</p> <p>(b) be based on international standards, where such exist; otherwise, on national technical regulations, recognized national standards, or building codes.</p> <p><u>Where tender documents lay down technical specifications by way of a reference, the following provisions shall apply:</u></p>	<p>2. Where tender documents lay down technical specifications by way of reference, the following provisions shall apply:</p>	

<p>(a) <u>the procuring entity shall base the technical specifications or part of those on international standards, where they exist; otherwise on national technical regulations, recognized national standards or building codes and the tender documents must include information on where and how the regulations, standards or codes can be obtained without prejudice to legally binding national technical regulations in so far as these are compatible with WTO requirements;</u></p> <p>(b) <u>where the procuring entity has a choice between various non-international standards, the technical specifications shall be based on standards which ensure open and effective competition.</u></p>	<p>(a) the procuring entity shall base the technical specifications or part of those on international standards, where they exist; otherwise on national technical regulations, recognized national standards or building codes and the tender documents must include information on where and how the regulations, standards or codes can be obtained without prejudice to legally binding national technical regulations in so far as these are compatible with WTO requirements;</p> <p>(b) where the procuring entity has a choice between various non-international standards, the technical specifications shall be based on standards which ensure open and effective competition.</p>	
<p>3. There shall be no requirement or reference to a particular trademark or trade name, patent, design or type, specific origin, producer or supplier, unless there is no sufficiently precise or intelligible way of describing the procurement requirements and provided that words such as "or equivalent" are included in the tender documentation.</p>		
<p>4. Entities shall not seek or accept, in a manner which would have the effect of precluding competition, advice which may be used in the preparation of specifications for a specific procurement from a firm that may have a commercial interest in the procurement.</p>		

ARTICLE VII	ARTICLE VII	ARTICLE VII
<i>Tendering Procedures</i>		
<p>1. Each Party shall ensure that the tendering procedures of its entities are applied in a non-discriminatory manner and are consistent with the provisions contained in Articles VII through XVI.</p>		
<p>2. Entities shall not provide to any supplier information with regard to a specific procurement in a manner which would have the effect of precluding competition.</p>		
<p>3. For the purposes of this Agreement:</p> <ul style="list-style-type: none"> (a) Open tendering procedures are those procedures under which all interested suppliers may submit a tender. (b) Selective tendering procedures are those procedures under which, consistent with paragraph 3 of Article X and other relevant provisions of this Agreement, those suppliers invited to do so by the entity may submit a tender. (c) Limited tendering procedures are those procedures where the entity contacts suppliers individually, only under the conditions specified in Article XV. 		

ARTICLE VIII	ARTICLE VIII	ARTICLE VIII
<i>Qualification of Suppliers</i>		
<p>1. In the process of qualifying suppliers, entities shall not discriminate among suppliers of other Parties or between domestic suppliers and suppliers of other Parties. Qualification procedures shall be consistent with the following:</p> <ul style="list-style-type: none"> (a) any conditions for participation in tendering procedures shall be published in adequate time to enable interested suppliers to initiate and, to the extent that it is compatible with efficient operation of the procurement process, complete the qualification procedures; (b) any conditions for participation in tendering procedures shall be limited to those which are essential to ensure the firm's capability to fulfil the contract in question. Any conditions for participation required from suppliers, including financial guarantees, technical qualifications and information necessary for establishing the financial, commercial and technical capacity of suppliers, as well as the verification of qualifications, shall be no less favourable to suppliers of other Parties than to domestic suppliers and shall not discriminate among suppliers of other Parties. The financial, commercial and technical capacity of a supplier shall be judged on the basis both of that supplier's global business activity as well as of its activity in the territory of the procuring entity, taking due account of the legal relationship between the supply organizations; 		

- (c) the process of, and the time required for, qualifying suppliers shall not be used in order to keep suppliers of other Parties off a suppliers' list or from being considered for a particular intended procurement. Entities shall recognize as qualified suppliers such domestic suppliers or suppliers of other Parties who meet the conditions for participation in a particular intended procurement. Suppliers requesting to participate in a particular intended procurement who may not yet be qualified shall also be considered, provided there is sufficient time to complete the qualification procedure;
- (d) entities maintaining permanent lists of qualified suppliers shall ensure that suppliers may apply for qualification at any time; and that all qualified suppliers so requesting are included in the lists within a reasonably short time;
- (e) if, after publication of the notice under paragraph 1 of Article IX, a supplier not yet qualified requests to participate in an intended procurement, the entity shall promptly start procedures for qualification;
- (f) any supplier having requested to become a qualified supplier shall be advised by the entities concerned of the decision in this regard. Qualified suppliers included on permanent lists by entities shall also be notified of the termination of any such lists or of their removal from them;

- | | | |
|--|--|--|
| <p>(g) each Party shall ensure that:</p> <ul style="list-style-type: none">(i) each entity and its constituent parts follow a single qualification procedure, except in cases of duly substantiated need for a different procedure; and(ii) efforts be made to minimize differences in qualification procedures between entities. <p>(h) nothing in subparagraphs (a) through (g) shall preclude the exclusion of any supplier on grounds such as bankruptcy or false declarations, provided that such an action is consistent with the national treatment and non-discrimination provisions of this Agreement.</p> | | |
|--|--|--|

ARTICLE IX	ARTICLE IX	ARTICLE IX
<i>Invitation to Participate Regarding Intended Procurement</i>		
<p>1. In accordance with paragraphs 2 and 3, entities shall publish an invitation to participate for all cases of intended procurement, except as otherwise provided for in Article XV (limited tendering). The notice shall be published in the appropriate publication listed in Appendix II. <u>The notice shall be published through means which offer the widest possible and non-discriminatory access to interested suppliers and service providers from all Parties to this Agreement; these means shall be accessible free of charge through a single point of access.</u> <u>Each Party shall notify to the other Parties this single point of access.</u></p>	<p>1. In accordance with paragraphs 2 and 3, entities shall publish an invitation to participate for all cases of intended procurement, except as otherwise provided for in Article XV (limited tendering). The notice shall be published through means which offer the widest possible and non-discriminatory access to interested suppliers and service providers from all Parties to this Agreement; these means shall be accessible free of charge through a single point of access. Each Party shall notify to the other Parties this single point of access.</p>	
<p>2. The invitation to participate may take the form of a notice of proposed procurement, as provided for in paragraph 6.</p>		
<p>3. Entities in Annexes 2 and 3 may use a notice of planned procurement, as provided for in paragraph 7, or a notice regarding a qualification system, as provided for in paragraph 9, as an invitation to participate.</p>		
<p>4. Entities which use a notice of planned procurement as an invitation to participate shall subsequently invite all suppliers who have expressed an interest to confirm their interest on the basis of information which shall include at least the information referred to in paragraph 6.</p>		

<p>5. Entities which use a notice regarding a qualification system as an invitation to participate shall provide, subject to the considerations referred to in paragraph 4 of Article XVIII and in a timely manner, information which allows all those who have expressed an interest to have a meaningful opportunity to assess their interest in participating in the procurement. This information shall include the information contained in the notices referred to in paragraphs 6 and 8, to the extent such information is available. Information provided to one interested supplier shall be provided in a non-discriminatory manner to the other interested suppliers.</p>		
<p>6. Each notice of proposed procurement, referred to in paragraph 2, shall contain the following information:</p> <ul style="list-style-type: none"> (a) the nature and quantity, including any options for further procurement and, if possible, an estimate of the timing when such options may be exercised; in the case of recurring contracts the nature and quantity and, if possible, an estimate of the timing of the subsequent tender notices for the products or services to be procured; (b) whether the procedure is open or selective or will involve negotiation; (c) any date for starting delivery or completion of delivery of goods or services; (d) the address and final date for submitting an application to be invited to tender or for qualifying for the suppliers' lists, or for receiving tenders, as well as the language or languages in which they must be submitted; 		

<ul style="list-style-type: none"> (e) the address of the entity awarding the contract and providing any information necessary for obtaining specifications and other documents; (f) any economic and technical requirements, financial guarantees and information required from suppliers; (g) the amount and terms of payment of any sum payable for the tender documentation; and (h) whether the entity is inviting offers for purchase, lease, rental or hire purchase, or more than one of these methods. 		
<p>7. Each notice of planned procurement referred to in paragraph 3 shall contain as much of the information referred to in paragraph 6 as is available. It shall in any case include the information referred to in paragraph 8 and:</p> <ul style="list-style-type: none"> (a) a statement that interested suppliers should express their interest in the procurement to the entity; (b) a contact point with the entity from which further information may be obtained. 		
<p>8. For each case of intended procurement, the entity shall publish a summary notice in one of the official languages of the WTO. The notice shall contain at least the following information:</p> <ul style="list-style-type: none"> (a) the subject-matter of the contract, <u>including the relevant CPV code</u>; (b) the time-limits set for the submission of tenders or an application to be invited to tender; and (c) the addresses from which documents relating to the contracts may be requested. 	<p>8. For each case of intended procurement, the entity shall publish a summary notice in one of the official languages of the WTO. The notice shall contain at least the following information:</p> <ul style="list-style-type: none"> (a) the subject-matter of the contract, including the relevant CPV code; (b) the time-limits set for the submission of tenders or an application to be invited to tender; and (c) the addresses from which documents relating to the contracts may be requested. 	

9. In the case of selective tendering procedures, entities maintaining permanent lists of qualified suppliers shall publish annually in one of the publications listed in Appendix III a notice of the following:

- (a) the enumeration of the lists maintained, including their headings, in relation to the products or services or categories of products or services to be procured through the lists;
- (b) the conditions to be fulfilled by suppliers with a view to their inscription on those lists and the methods according to which each of those conditions will be verified by the entity concerned; and
- (c) the period of validity of the lists, and the formalities for their renewal.

When such a notice is used as an invitation to participate in accordance with paragraph 3, the notice shall, in addition, include the following information:

- (d) the nature of the products or services concerned;
- (e) a statement that the notice constitutes an invitation to participate.

However, when the duration of the qualification system is three years or less, and if the duration of the system is made clear in the notice and it is also made clear that further notices will not be published, it shall be sufficient to publish the notice once only, at the beginning of the system. Such a system shall not be used in a manner which circumvents the provisions of this Agreement.

<p>10. If, after publication of an invitation to participate in any case of intended procurement, but before the time set for opening or receipt of tenders as specified in the notices or the tender documentation, it becomes necessary to amend or re-issue the notice, the amendment or the re-issued notice shall be given the same circulation as the original documents upon which the amendment is based. Any significant information given to one supplier with respect to a particular intended procurement shall be given simultaneously to all other suppliers concerned in adequate time to permit the suppliers to consider such information and to respond to it.</p>		
<p>11. Entities shall make clear, in the notices referred to in this Article or in the publication in which the notices appear, that the procurement is covered by the Agreement.</p>		
<p>ARTICLE X</p>	<p>ARTICLE X</p>	<p>ARTICLE X</p>
<p><i>Selection Procedures</i></p>		
<p>1. To ensure optimum effective international competition under selective tendering procedures, entities shall, for each intended procurement, invite tenders from the maximum number of domestic suppliers and suppliers of other Parties, consistent with the efficient operation of the procurement system. They shall select the suppliers to participate in the procedure in a fair and non-discriminatory manner.</p>		
<p>2. Entities maintaining permanent lists of qualified suppliers may select suppliers to be invited to tender from among those listed. Any selection shall allow for equitable opportunities for suppliers on the lists.</p>		

<p>3. Suppliers requesting to participate in a particular intended procurement shall be permitted to submit a tender and be considered, provided, in the case of those not yet qualified, there is sufficient time to complete the qualification procedure under Articles VIII and IX. The number of additional suppliers permitted to participate shall be limited only by the efficient operation of the procurement system.</p>		
<p>4. Requests to participate in selective tendering procedures may be submitted in writing including electronic means telex, telegram or facsimile. <u>The term "writing" as used in this Agreement is to be understood to include any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information. "Electronic means" means using electronic equipment for the processing (including digital compression) and storage of data, and entirely using transmission, conveyance and reception by wire, by radio, by optical means or by other electromagnetic means.</u></p>	<p>4. Requests to participate in selective tendering procedures may be submitted in writing including electronic means. The term "writing" as used in this Agreement is to be understood to include any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information. "Electronic means" means using electronic equipment for the processing (including digital compression) and storage of data, and entirely using transmission, conveyance and reception by wire, by radio, by optical means or by other electromagnetic means.</p>	<p>The proposed amendment is required in order to allow for electronic procurement. The proposed wording of the definitions follows a proposal submitted to the WTO and the draft wording of the electronic commerce Directive.</p>
<p>ARTICLE XI</p>	<p>ARTICLE XI</p>	<p>ARTICLE XI</p>
<p><i>Time-limits for Tendering and Delivery</i></p>		
<p><u>General</u></p>		
<p>1. (a) Any prescribed time-limit shall be adequate to allow suppliers of other Parties as well as domestic suppliers to prepare and submit tenders before the closing of the tendering procedures. In determining any such time-limit, entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement, the extent of subcontracting anticipated and the normal time for transmitting tenders by mail in writing from foreign as well as domestic points.</p>	<p>1. (a) Any prescribed time-limit shall be adequate to allow suppliers of other Parties as well as domestic suppliers to prepare and submit tenders before the closing of the tendering procedures. In determining any such time-limit, entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated and the normal time for transmitting tenders in writing from foreign as well as domestic points.</p>	<p>The deletion of "by mail" will allow for transmission by other means, i.e. electronic means.</p>

<p>(b) Each Party shall ensure that its entities shall take due account of publication delays when setting the final date for receipt of tenders or of applications to be invited to tender.</p>	<p>(b) Each Party shall ensure that its entities shall take due account of publication delays when setting the final date for receipt of tenders or of applications to be invited to tender.</p>	
<p><u>Deadlines</u></p>		
<p>2. Except insofar as provided in paragraphs 3 and 4, (a) in open procedures, the period for the receipt of tenders shall not be less than <u>430</u> days from the date of publication referred to in paragraph 1 of Article IX; (b) in selective procedures not involving the use of a permanent list of qualified suppliers, the period for submitting an application to be invited to tender shall not be less than <u>215</u> days from the date of publication referred to in paragraph 1 of Article IX; the period for receipt of tenders shall in no case be less than <u>430</u> days from the date of issuance of the invitation to tender; (c) in selective procedures involving the use of a permanent list of qualified suppliers, the period for receipt of tenders shall not be less than <u>430</u> days from the date of the initial issuance of invitations to tender, whether or not the date of initial issuance of invitations to tender coincides with the date of the publication referred to in paragraph 1 of Article IX.</p>	<p>2. Except insofar as provided in paragraphs 3 and 4, (a) in open procedures, the period for the receipt of tenders shall not be less than 30 days from the date of publication; (b) in selective procedures not involving the use of a permanent list of qualified suppliers, the period for submitting an application to be invited to tender shall not be less than 15 days from the date of publication; the period for receipt of tenders shall in no case be less than 30 days from the date of issuance of the invitation to tender; (c) in selective procedures involving the use of a permanent list of qualified suppliers, the period for receipt of tenders shall not be less than 30 days from the date of the initial issuance of invitations to tender, whether or not the date of initial issuance of invitations to tender coincides with the date of the publication.</p>	<p>The reference to Article IX appears to be redundant. Deadlines can be reduced, in particular when electronic means of "publication" are used.</p>

<p>3. The periods referred to in paragraph 2 may be reduced in the circumstances set out below:</p> <p>(a) if a separate notice has been published 40 days and not more than 12 months in advance and the notice contains at least:</p> <p>(i) as much of the information referred to in paragraph 6 of Article IX as is available;</p> <p>(ii) the information referred to in paragraph 8 of Article IX;</p> <p>(iii) a statement that interested suppliers should express their interest in the procurement to the entity; and</p> <p>(iv) a contact point with the entity from which further information may be obtained, the 40 day limit for receipt of tenders may be replaced by a period sufficiently long to enable responsive tendering, which, as a general rule, shall not be less than 24 days, but in any case not less than 10 days;</p> <p>(b)(a) in the case of the second or subsequent publications dealing with contracts of a recurring nature within the meaning of paragraph 6 of Article IX, the 430-day limit for receipt of tenders may be reduced to not less than 24 days; or</p> <p>(e)(b) in the case where the procuring entity procures off-the-shelf products or services, the period referred to in paragraph 2(c) may be reduced to 15 days.</p>	<p>3. The periods referred to in paragraph 2 may be reduced in the circumstances set out below:</p> <p>(a) in the case of the second or subsequent publications dealing with contracts of a recurring nature within the meaning of paragraph 6 of Article IX, the 30-day limit for receipt of tenders may be reduced to 24 days; or</p> <p>(b) in the case where the procuring entity procures off-the-shelf products or services, the period referred to in paragraph 2(c) may be reduced to 15 days.</p>	<p>The duplication of minimum periods appears to be too complicated and not justified.</p> <p>Where electronic procurement is applied there could be room for further derogations from the general 40-day period. It may be considered necessary to determine more precisely what is considered to be electronic procurement.</p> <p>The term off-the-shelf will be defined at a later stage.</p>
--	--	---

<p>(e) where a state of urgency duly substantiated by the entity renders impracticable the periods in question, the periods specified in paragraph 2 may be reduced but shall in no case be less than 10 days from the date of the publication referred to in paragraph 1 of Article IX; or</p> <p>(d) the period referred to in paragraph 2(e) may, for procurements by entities listed in Annexes 2 and 3, be fixed by mutual agreement between the entity and the selected suppliers. In the absence of agreement, the entity may fix periods which shall be sufficiently long to enable responsive tendering and shall in any case not be less than 10 days.</p>		
<p><u>4. In cases where the procuring entity offers simultaneously free and direct access via the single point of access referred to in Article IX to the complete call for tenders including all annexes both the deadlines of 30 and 15 days may be further reduced by 5 days.</u></p>	<p>4. In cases where the procuring entity offers simultaneously free and direct access via the single point of access referred to in Article IX to the complete call for tenders including all annexes both the deadlines of 30 and 15 days may be further reduced by 5 days.</p>	
<p><u>4.5.</u> Consistent with the entity's own reasonable needs, any delivery date shall take into account such factors as the complexity of the intended procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the points of supply or for supply of services.</p>		
<p>ARTICLE XII <i>Tender Documentation</i></p>	<p>ARTICLE XII</p>	<p>ARTICLE XII</p>
<p>1. If, in tendering procedures, an entity allows tenders to be submitted in several languages, one of those languages shall be one of the official languages of the WTO.</p>		

2. Tender documentation provided to suppliers shall contain all information necessary to permit them to submit responsive tenders, including information required to be published in the notice of intended procurement, except for paragraph 6(g) of Article IX, and the following:

- (a) the address of the entity to which tenders should be sent;
- (b) the address where requests for supplementary information should be sent;
- (c) the language or languages in which tenders and tendering documents must be submitted;
- (d) the closing date and time for receipt of tenders and the length of time during which any tender should be open for acceptance;
- (e) the persons authorized to be present at the opening of tenders and the date, time and place of this opening;
- (f) any economic and technical requirement, financial guarantees and information or documents required from suppliers;
- (g) a complete description of the products or services required or of any requirements including technical specifications, conformity certification to be fulfilled, necessary plans, drawings and instructional materials;
- (h) the criteria for awarding the contract, including any factors other than price that are to be considered in the evaluation of tenders and the cost elements to be included in evaluating tender prices, such as transport, insurance and inspection costs, and in the case of products or services of other Parties, customs duties and other import charges, taxes and currency of payment;

<ul style="list-style-type: none"> (i) the terms of payment; (j) any other terms or conditions; (k) in accordance with Article XVII the terms and conditions, if any, under which tenders from countries not Parties to this Agreement, but which apply the procedures of that Article, will be entertained. 		
<u>Forwarding of Tender Documentation by the Entities</u>		
<p>3.</p> <ul style="list-style-type: none"> (a) In open procedures, entities shall forward the tender documentation at the request of any supplier participating in the procedure, and shall reply promptly to any reasonable request for explanations relating thereto. (b) In selective procedures, entities shall forward the tender documentation at the request of any supplier requesting to participate, and shall reply promptly to any reasonable request for explanations relating thereto. (c) Entities shall reply promptly to any reasonable request for relevant information submitted by a supplier participating in the tendering procedure, on condition that such information does not give that supplier an advantage over its competitors in the procedure for the award of the contract. 		
ARTICLE XIII	ARTICLE XIII	ARTICLE XIII
<i>Submission, Receipt and Opening of Tenders and Awarding of Contracts</i>		
<p>1. The submission, receipt and opening of tenders and awarding of contracts shall be consistent with the following:</p> <ul style="list-style-type: none"> (a) tenders shall normally be submitted in writing directly or by mail; 	<p>1. The submission, receipt and opening of tenders and awarding of contracts shall be consistent with the following:</p> <ul style="list-style-type: none"> (a) tenders shall be submitted in writing; 	<p>The reference to electronic means would facilitate electronic procurement.</p>

<p>(b) integrity of data and confidentiality of tenders must be preserved. Tenders shall not be opened until after the deadline set by the contracting entity for receipt of tenders; If tenders by telex, telegram or faesimile are permitted, the tender made thereby must include all the information necessary for the evaluation of the tender, in particulare definitive price proposed by the tenderer and a statement that the tenderer agrees to all the terms, conditions and provisions of the invitation to tender. The tender must be confirmed promptly by letter or by the despatch of a signed copy of the telex, telegram or faesimile. Tenders presented by telephone shall not be permitted. The content of the telex, telegram or faesimile shall prevail where there is a difference or conflict between that content and any documentation received after the time limitand</p> <p>(c) whatever means of communication or exchange of information chosen they shall not cause a discrimination and be consistent with the principles laid down in Article 3 hereof; and</p> <p>(b)(d) the opportunities that may be given to tenderers to correct unintentional errors of form between the opening of tenders and the awarding of the contract shall not be permitted to give rise to any discriminatory practice.</p>	<p>(b) integrity of data and confidentiality of tenders must be preserved. Tenders shall not be opened until after the deadline set by the contracting entity for receipt of tenders;</p> <p>(c) whatever means of communication or exchange of information chosen they shall not cause a discrimination and be consistent with the principles laid down in Article 3 hereof; and</p> <p>(d) the opportunities that may be given to tenderers to correct unintentional errors of form between the opening of tenders and the awarding of the contract shall not be permitted to give rise to any discriminatory practice.</p>	<p>The means of information does not affect the contents. Therefore, the content of a submission should not be regulated with reference to the means of communication.</p> <p>An obligation of confirmation appears to be redundant.</p>
---	---	--

<p><u>Receipt of Tenders</u></p>		
<p>2. A supplier shall not be penalized if a tender is received in the office designated in the tender documentation after the time specified because of delay due solely to mishandling on the part of the entity. Tenders may also be considered in other exceptional circumstances if the procedures of the entity concerned so provide.</p>		
<p><u>Opening of Tenders</u></p>		
<p>3. All tenders solicited under open or selective procedures by entities shall be received and opened under procedures and conditions guaranteeing the regularity of the openings. The receipt and opening of tenders shall also be consistent with the national treatment and non-discrimination provisions of this Agreement. Information on the opening of tenders shall remain with the entity concerned at the disposal of the government authorities responsible for the entity in order that it may be used if required under the procedures of Articles XVIII, XIX, XX and XXII.</p>		
<p><u>Award of Contracts</u></p>		
<p>4. (a) To be considered for award, a tender must, at the time of opening, conform to the essential requirements of the notices or tender documentation and be from a supplier which complies with the conditions for participation. If an entity has received a tender abnormally lower than other tenders submitted, it may enquire with the tenderer to ensure that it can comply with the conditions of participation and be capable of fulfilling the terms of the contract.</p>		

<p>(b) Unless in the public interest an entity decides not to issue the contract, the entity shall make the award to the tenderer who has been determined to be fully capable of undertaking the contract and whose tender, whether for domestic products or services, or products or services of other Parties, is either the lowest tender or the tender which in terms of the specific evaluation criteria set forth in the notices or tender documentation is determined to be the most advantageous.</p> <p>(c) Awards shall be made in accordance with the criteria and essential requirements specified in the tender documentation.</p>		
<p><u>Option Clauses</u></p>		
<p>5. Option clauses shall not be used in a manner which circumvents the provisions of the Agreement.</p>		
<p>ARTICLE XIV</p>	<p>ARTICLE XIV</p>	<p>ARTICLE XIV</p>
<p><i>Negotiation</i></p>		
<p>1. A Party may provide for entities to conduct negotiations:</p> <p>(a) in the context of procurements in which they have indicated such intent, namely in the notice referred to in paragraph 2 of Article IX (the invitation to suppliers to participate in the procedure for the proposed procurement); or</p> <p>(b) when it appears from evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notices or tender documentation.</p>		

<p>2. Negotiations shall primarily be used to identify the strengths and weaknesses in tenders.</p>		
<p>3. Entities shall treat tenders in confidence. In particular, they shall not provide information intended to assist particular participants to bring their tenders up to the level of other participants.</p>		
<p>4. Entities shall not, in the course of negotiations, discriminate between different suppliers. In particular, they shall ensure that:</p> <ul style="list-style-type: none"> (a) any elimination of participants is carried out in accordance with the criteria set forth in the notices and tender documentation; (b) all modifications to the criteria and to the technical requirements are transmitted in writing to all remaining participants in the negotiations; (c) all remaining participants are afforded an opportunity to submit new or amended submissions on the basis of the revised requirements; and (d) when negotiations are concluded, all participants remaining in the negotiations shall be permitted to submit final tenders in accordance with a common deadline. 		
<p>ARTICLE XV</p>	<p>ARTICLE XV</p>	<p>ARTICLE XV</p>
<p><i>Limited Tendering</i></p>		
<p>1. The provisions of Articles VII through XIV governing open and selective tendering procedures need not apply in the following conditions, provided that limited tendering is not used with a view to avoiding maximum possible competition or in a manner which would constitute a means of discrimination among suppliers of other Parties or protection to domestic producers or suppliers:</p>		

- | | | |
|--|--|--|
| <ul style="list-style-type: none"> (a) in the absence of tenders in response to an open or selective tender, or when the tenders submitted have been collusive, or not in conformity with the essential requirements in the tender, or from suppliers who do not comply with the conditions for participation provided for in accordance with this Agreement, on condition, however, that the requirements of the initial tender are not substantially modified in the contract as awarded; (b) when, for works of art or for reasons connected with protection of exclusive rights, such as patents or copyrights, or in the absence of competition for technical reasons, the products or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists; (c) insofar as is strictly necessary when, for reasons of extreme urgency brought about by events unforeseeable by the entity, the products or services could not be obtained in time by means of open or selective tendering procedures; (d) for additional deliveries by the original supplier which are intended either as parts replacement for existing supplies, or installations, or as the extension of existing supplies, services, or installations where a change of supplier would compel the entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment or services; | | |
|--|--|--|

- (e) when an entity procures prototypes or a first product or service which are developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. When such contracts have been fulfilled, subsequent procurements of products or services shall be subject to Articles VII through XIV;
- (f) when additional construction services which were not included in the initial contract but which were within the objectives of the original tender have, through unforeseeable circumstances, become necessary to complete the construction services described therein, and the entity needs to award contracts for the additional construction services to the contractor carrying out the construction services concerned since the separation of the additional construction services from the initial contract would be difficult for technical or economic reasons and cause significant inconvenience to the entity. However, the total value of contracts awarded for the additional construction services may not exceed 50 per cent of the amount of the main contract;
- (g) for new construction services consisting of the repetition of similar construction services which conform to a basic project for which an initial contract was awarded in accordance with Articles VII through XIV and for which the entity has indicated in the notice of intended procurement concerning the initial construction service, that limited tendering procedures might be used in awarding contracts for such new construction services;
- (h) for products purchased on a commodity market;

<p>(i) for purchases made under exceptionally advantageous conditions which only arise in the very short term. This provision is intended to cover unusual disposals by firms which are not normally suppliers, or disposal of assets of businesses in liquidation or receivership. It is not intended to cover routine purchases from regular suppliers;</p> <p>(j) in the case of contracts awarded to the winner of a design contest provided that the contest has been organized in a manner which is consistent with the principles of this Agreement, notably as regards the publication, in the sense of Article IX, of an invitation to suitably qualified suppliers, to participate in such a contest which shall be judged by an independent jury with a view to design contracts being awarded to the winners.</p>		
<p>2. Entities shall prepare a report in writing on each contract awarded under the provisions of paragraph 1. Each report shall contain the name of the procuring entity, value and kind of goods or services procured, country of origin, and a statement of the conditions in this Article which prevailed. This report shall remain with the entities concerned at the disposal of the government authorities responsible for the entity in order that it may be used if required under the procedures of Articles XVIII, XIX, XX and XXII.</p>		
<p>ARTICLE XVI</p>	<p>ARTICLE XVI</p>	<p>ARTICLE XVI</p>
<p><i>Offsets</i></p>		
<p>1. Entities shall not, in the qualification and selection of suppliers, products or services, or in the evaluation of tenders and award of contracts, impose, seek or consider offsets.</p>		

<p>2. Nevertheless, having regard to general policy considerations, including those relating to development, a developing country may at the time of accession negotiate conditions for the use of offsets, such as requirements for the incorporation of domestic content. Such requirements shall be used only for qualification to participate in the procurement process and not as criteria for awarding contracts. Conditions shall be objective, clearly defined and non-discriminatory. They shall be set forth in the country's Appendix I and may include precise limitations on the imposition of offsets in any contract subject to this Agreement. The existence of such conditions shall be notified to the Committee and included in the notice of intended procurement and other documentation.</p>		
<p>ARTICLE XVII</p>	<p>ARTICLE XVII</p>	<p>ARTICLE XVII</p>
<p><i>Transparency</i></p>		
<p>1. Each Party shall encourage entities to indicate the terms and conditions, including any deviations from competitive tendering procedures or access to challenge procedures, under which tenders will be entertained from suppliers situated in countries not Parties to this Agreement but which, with a view to creating transparency in their own contract awards, nevertheless:</p> <ul style="list-style-type: none"> (a) specify their contracts in accordance with Article VI (technical specifications); (b) publish the procurement notices referred to in Article IX, including, in the version of the notice referred to in paragraph 8 of Article IX (summary of the notice of intended procurement) which is published in an official language of the WTO, an indication of the terms and conditions under which tenders shall be entertained from suppliers situated in countries Parties to this Agreement; 	<p>1. Each Party shall encourage entities to indicate the terms and conditions, including any deviations from competitive tendering procedures or access to challenge procedures, under which tenders will be entertained from suppliers situated in countries not Parties to this Agreement but which, with a view to creating transparency in their own contract awards, nevertheless:</p> <ul style="list-style-type: none"> (a) specify their contracts in accordance with Article VI (technical specifications); (b) publish the procurement notices referred to in Article IX, including, in the version of the notice referred to in paragraph 8 of Article IX (summary of the notice of intended procurement) which is published in an official language of the WTO, an indication of the terms and conditions under which tenders shall be entertained from suppliers situated in countries Parties to this Agreement; 	<p>A single forum where notices can easily be accessed should be promoted.</p>

<p>(c) are willing to ensure that their procurement regulations shall not normally change during a procurement and, in the event that such change proves avoidable, to ensure the availability of a satisfactory means of redress.</p> <p><u>Each Party shall encourage entities to publish their technical specifications through a single point of access, accessible free of charge. Where such publication is provided, contracting entities shall be encouraged to mention the address of the single point of access in the tender notice.</u></p>	<p>(c) are willing to ensure that their procurement regulations shall not normally change during a procurement and, in the event that such change proves avoidable, to ensure the availability of a satisfactory means of redress.</p> <p>Each Party shall encourage entities to publish their technical specifications on the internet through a single point of access, accessible free of charge. Where such publication is provided, contracting entities shall be encouraged to mention the address of the single point of access in the tender notice.</p>	
<p>2. Governments not Parties to the Agreement which comply with the conditions specified in paragraphs 1(a) through 1(c), shall be entitled if they so inform the Parties to participate in the Committee as observers.</p>		
<p>ARTICLE XVIII</p>	<p>ARTICLE XVIII</p>	<p>ARTICLE XVIII</p>
<p><i>Information and Review as Regards Obligations of Entities</i></p>		
<p>1. Entities shall publish a notice in the appropriate publication listed in Appendix II not later than 72 days after the award of each contract under Articles XIII through XV. These notices shall contain <u>at least</u>:</p> <ul style="list-style-type: none"> (a) the nature and quantity of products or services in the contract award <u>by referring to the relevant CPV code</u>; (b) the name and address of the entity awarding the contract; (c) the date of award; (d) the name and address of winning tenderer; 	<p>1. Entities shall publish a notice in the appropriate publication listed in Appendix II not later than 72 days after the award of each contract under Articles XIII through XV. These notices shall contain at least:</p> <ul style="list-style-type: none"> (a) the nature and quantity of products or services in the contract award by referring to the relevant CPV code; (b) the name and address of the entity awarding the contract; (c) the date of award; (d) the name and address of winning tenderer; 	

<ul style="list-style-type: none"> (e) the value of the winning award or the highest and lowest offer taken into account in the award of the contract; (f) where appropriate, means of identifying the notice issued under paragraph 1 of Article IX or justification according to Article XV for the use of such procedure; and (g) the type of procedure used. 	<ul style="list-style-type: none"> (e) the value of the winning award or the highest and lowest offer taken into account in the award of the contract; (f) where appropriate, means of identifying the notice issued under paragraph 1 of Article IX or justification according to Article XV for the use of such procedure; and (g) the type of procedure used. 	
<p>2. Each entity shall, on request from a supplier of a Party, promptly provide:</p> <ul style="list-style-type: none"> (a) an explanation of its procurement practices and procedures; (b) pertinent information concerning the reasons why the supplier's application to qualify was rejected, why its existing qualification was brought to an end and why it was not selected; and (c) to an unsuccessful tenderer, pertinent information concerning the reasons why its tender was not selected and on the characteristics and relative advantages of the tender selected as well as the name of the winning tenderer. 		
<p>3. Entities shall promptly inform participating suppliers of decisions on contract awards and, upon request, in writing.</p>		
<p>4. However, entities may decide that certain information on the contract award, contained in paragraphs 1 and 2(c), be withheld where release of such information would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interest of particular enterprises, public or private, or might prejudice fair competition between suppliers.</p>		

ARTICLE XIX	ARTICLE XIX	ARTICLE XIX
<i>Information and Review as Regards Obligations of Parties</i>		
<p>1. Each Party shall promptly publish any law, regulation, judicial decision, administrative ruling of general application, and any procedure (including standard contract clauses) regarding government procurement covered by this Agreement, in the appropriate publications listed in Appendix IV and in such a manner as to enable other Parties and suppliers to become acquainted with them. Each Party shall be prepared, upon request, to explain to any other Party its government procurement procedures.</p>		
<p>2. The government of an unsuccessful tenderer which is a Party to this Agreement may seek, without prejudice to the provisions under Article XXII, such additional information on the contract award as may be necessary to ensure that the procurement was made fairly and impartially. To this end, the procuring government shall provide information on both the characteristics and relative advantages of the winning tender and the contract price. Normally this latter information may be disclosed by the government of the unsuccessful tenderer provided it exercises this right with discretion. In cases where release of this information would prejudice competition in future tenders, this information shall not be disclosed except after consultation with and agreement of the Party which gave the information to the government of the unsuccessful tenderer.</p>		
<p>3. Available information concerning procurement by covered entities and their individual contract awards shall be provided, upon request, to any other Party.</p>		

<p>4. Confidential information provided to any Party which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interest of particular enterprises, public or private, or might prejudice fair competition between suppliers shall not be revealed without formal authorization from the party providing the information.</p>		
<p><u>5.(new) Contracting Parties shall ensure that contract award notices (referred to in Article XVIII) are routinely published for the vast majority of published notices and made easily available on a permanent basis in an official GPA language through a single point of access, accessible free of charge.</u></p>	<p>5.(new) Contracting Parties shall ensure that contract award notices (referred to in Article XVIII) are routinely published for the vast majority of published notices and made easily available on a permanent basis in an official GPA language through a single point of access, accessible free of charge.</p>	
<p>5-6. <u>Each</u> Where a Party does not comply with paragraph 5, it shall collect and provide to the Committee on an annual basis statistics on its procurements covered by this Agreement. Such reports shall contain the following information with respect to contracts awarded, above the applicable threshold value, by all procurement entities covered under this Agreement:</p>	<p>6. Where a Party does not comply with paragraph 5, it shall collect and provide to the Committee on an annual basis statistics on its procurements covered by this Agreement. Such reports shall contain the following information with respect to contracts awarded, above the applicable threshold value, by all procurement entities covered under this Agreement:</p>	<p>The suggested amendments for paragraph 5 correspond with the paper on statistical reporting that the EC submitted to the WTO in June 1998 in order to reduce the reporting requirements.</p> <p>For the time being statistical reporting within the GPA framework does not function. Either we receive nothing at all or at best information about a small fraction of public procurement contracts. We have the choice between abandoning statistical reporting (at least for practical purposes) or taking a proactive approach cutting down on our requirements but insisting on as correct information as possible.</p> <p>We would like to have a better picture of public procurement opportunities among the GPA members. Asking for estimates of total public procurement in case the reported information is incomplete (which it always is) will give us a possibility to make a very public comparison between the figures reported by the Member States and the figures calculated by us. This might lead to a serious discussion of the quality of the reports and hopefully better quality information in the future.</p>

<p>(a) for entities in Annex 1, statistics on the estimated value of contracts awarded, both above and below the threshold value, on a global basis and broken down by entities; for entities in Annexes 2 and 3, statistics on the estimated value of contracts awarded above the threshold value on a global basis and broken down by categories of entities;</p> <p>(b) for entities in Annex 1, statistics on the number and total value of contracts awarded above the threshold value, broken down by entities and categories of products and services according to uniform classification systems; for entities in Annexes 2 and 3, statistics on the estimated value of contracts awarded above the threshold value broken down by categories of entities and categories of products and services;</p> <p>(c) for entities in Annex 1, statistics, broken down by entity and by categories of products and services, on the number and total value of contracts awarded under each of the cases of Article XV in all cases where limited tendering is used; for categories of entities in Annexes 2 and 3, statistics on the total value of contracts awarded above the threshold value under each of the cases of Article XV in all cases where limited tendering is used; and</p>	<p>(a) for entities in Annex 1, statistics on the estimated value of contracts awarded on a global basis and broken down by entities; for entities in Annexes 2 and 3, statistics on the estimated value of contracts on a global basis and broken down by categories of entities;</p> <p>(b) for entities in Annex 1, statistics on the number and total value of contracts awarded, broken down by entities and categories of products and services according to uniform classification systems; for entities in Annexes 2 and 3, statistics on the estimated value of contracts awarded broken down by categories of entities and categories of products and services;</p> <p>(c) for entities in Annex 1, statistics, broken down by entity and by categories of products and services, on the number and total value of contracts awarded in all cases where limited tendering is used; for categories of entities in Annexes 2 and 3, statistics on the total value of contracts awarded above the threshold value in all cases where limited tendering is used.</p>	
--	--	--

<p>(d) for entities in Annex 1, statistics, broken down by entities, on the number and total value of contracts awarded under derogations to the Agreement contained in the relevant Annexes; for categories of entities in Annexes 2 and 3, statistics on the total value of contracts awarded under derogations to the Agreement contained in the relevant Annexes.</p>		
<p>6. To the extent that such information is available, each Party shall provide statistics on the country of origin of products and services purchased by its entities. With a view to ensuring that such statistics are comparable, the Committee shall provide guidance on methods to be used. With a view to ensuring effective monitoring of procurement covered by this Agreement, the Committee may decide unanimously to modify the requirements of subparagraphs (a) through (d) as regards the nature and the extent of statistical information to be provided and the breakdowns and classifications to be used.</p>		
<p><u>7.(new) Where any party has reason to believe that any of the statistics it provides are incomplete it shall also provide its best estimate of the true total numbers or value of the information required in paragraph 5.</u></p>	<p>7.(new) Where any party has reason to believe that any of the statistics it provides are incomplete it shall also provide its best estimate of the true total numbers or value of the information required in paragraph 5.</p>	

ARTICLE XX	ARTICLE XX	ARTICLE XX
<i>Challenge Procedures</i>		
<u>Consultations</u>		
<p>1. In the event of a complaint by a supplier that there has been a breach of this Agreement in the context of a procurement, each Party shall encourage the supplier to seek solution of its complaint in consultation with the procuring entity. In such instances the procuring entity shall accord impartial and timely consideration to any such complaint, in a manner that is not prejudicial to obtaining corrective measures under the challenge system. <u>Such encouragement may take place in particular through the designation of one or more bodies which can offer their good advice in trying to solve the situation.</u></p>	<p>1. In the event of a complaint by a supplier that there has been a breach of this Agreement in the context of a procurement, each Party shall encourage the supplier to seek solution of its complaint in consultation with the procuring entity. In such instances the procuring entity shall accord impartial and timely consideration to any such complaint, in a manner that is not prejudicial to obtaining corrective measures under the challenge system. Such encouragement may take place in particular through the designation of one or more bodies which can offer their good advice in trying to solve the situation.</p>	
<u>Challenge</u>		
<p>2. Each Party shall provide non-discriminatory, timely, transparent and effective procedures enabling suppliers to challenge alleged breaches of the Agreement arising in the context of procurements in which they have, or have had, an interest.</p>		
<p>3. Each Party shall provide its challenge procedures in writing and make them generally available.</p>		
<p>4. Each Party shall ensure that documentation relating to all aspects of the process concerning procurements covered by this Agreement shall be retained for three years.</p>		
<p>5. The interested supplier may be required to initiate a challenge procedure and notify the procuring entity within specified time-limits from the time when the basis of the complaint is known or reasonably should have been known, but in no case within a period of less than ten days.</p>		

<p>6. Challenges shall be heard by a court or by an impartial and independent review body with no interest in the outcome of the procurement and the members of which are secure from external influence during the term of appointment. A review body which is not a court shall either be subject to judicial review or shall have procedures which provide that:</p> <ul style="list-style-type: none">(a) participants can be heard before an opinion is given or a decision is reached;(b) participants can be represented and accompanied;(c) participants shall have access to all proceedings;(d) proceedings can take place in public;(e) opinions or decisions are given in writing with a statement describing the basis for the opinions or decisions;(f) witnesses can be presented;(g) documents are disclosed to the review body.		
<p>7. Challenge procedures shall provide for:</p> <ul style="list-style-type: none">(a) rapid interim measures to correct breaches of the Agreement and to preserve commercial opportunities. Such action may result in suspension of the procurement process. However, procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account in deciding whether such measures should be applied. In such circumstances, just cause for not acting shall be provided in writing;(b) an assessment and a possibility for a decision on the justification of the challenge;		

<p>(c) correction of the breach of the Agreement or compensation for the loss or damages suffered, which may be limited to costs for tender preparation or protest.</p>		
<p>8. With a view to the preservation of the commercial and other interests involved, the challenge procedure shall normally be completed in a timely fashion.</p>		
<p><u>9. The Parties undertake to designate or establish an independent body with a view to solve informally problems encountered in gaining access to contracts.</u></p>	<p>9. The Parties undertake to designate or establish an independent body with a view to solve informally problems encountered in gaining access to contracts.</p>	<p>The Community will specify at a later stage the content of such proposal.</p>
<p>ARTICLE XXI</p>	<p>ARTICLE XXI</p>	<p>ARTICLE XXI</p>
<p><i>Institutions</i></p>		
<p>1. A Committee on Government Procurement composed of representatives from each of the Parties shall be established. This Committee shall elect its own Chairman and Vice-Chairman and shall meet as necessary but not less than once a year for the purpose of affording Parties the opportunity to consult on any matters relating to the operation of this Agreement or the furtherance of its objectives, and to carry out such other responsibilities as may be assigned to it by the Parties.</p>		
<p>2. The Committee may establish working parties or other subsidiary bodies which shall carry out such functions as may be given to them by the Committee.</p>		

ARTICLE XXII	ARTICLE XXII	ARTICLE XXII
<i>Consultations and Dispute Settlement</i>		
<p>1. The provisions of the Understanding on Rules and Procedures Governing the Settlement of Disputes under the WTO Agreement (hereinafter referred to as the "Dispute Settlement Understanding") shall be applicable except as otherwise specifically provided below.</p>		
<p>2. If any Party considers that any benefit accruing to it, directly or indirectly, under this Agreement is being nullified or impaired, or that the attainment of any objective of this Agreement is being impeded as the result of the failure of another Party or Parties to carry out its obligations under this Agreement, or the application by another Party or Parties of any measure, whether or not it conflicts with the provisions of this Agreement, it may with a view to reaching a mutually satisfactory resolution of the matter, make written representations or proposals to the other Party or Parties which it considers to be concerned. Such action shall be promptly notified to the Dispute Settlement Body established under the Dispute Settlement Understanding (hereinafter referred to as "DSB"), as specified below. Any Party thus approached shall give sympathetic consideration to the representations or proposals made to it.</p>		
<p>3. The DSB shall have the authority to establish panels, adopt panel and Appellate Body reports, make recommendations or give rulings on the matter, maintain surveillance of implementation of rulings and recommendations, and authorize suspension of concessions and other obligations under this Agreement or consultations regarding remedies when withdrawal of measures found to be in contravention of the Agreement is not possible, provided that only Members of the WTO Party to this Agreement shall participate in decisions or actions taken by the DSB with respect to disputes under this Agreement.</p>		

<p>4. Panels shall have the following terms of reference unless the parties to the dispute agree otherwise within 20 days of the establishment of the panel:</p> <p>"To examine, in the light of the relevant provisions of this Agreement and of (name of any other covered Agreement cited by the parties to the dispute), the matter referred to the DSB by (name of party) in document and to make such findings as will assist the DSB in making the recommendations or in giving the rulings provided for in this Agreement."</p> <p>In the case of a dispute in which provisions both of this Agreement and of one or more other Agreements listed in Appendix 1 of the Dispute Settlement Understanding are invoked by one of the parties to the dispute, paragraph 3 shall apply only to those parts of the panel report concerning the interpretation and application of this Agreement.</p>		
<p>5. Panels established by the DSB to examine disputes under this Agreement shall include persons qualified in the area of government procurement.</p>		

<p>6. Every effort shall be made to accelerate the proceedings to the greatest extent possible. Notwithstanding the provisions of paragraphs 8 and 9 of Article 12 of the Dispute Settlement Understanding, the panel shall attempt to provide its final report to the parties to the dispute not later than four months, and in case of delay not later than seven months, after the date on which the composition and terms of reference of the panel are agreed. Consequently, every effort shall be made to reduce also the periods foreseen in paragraph 1 of Article 20 and paragraph 4 of Article 21 of the Dispute Settlement Understanding by two months. Moreover, notwithstanding the provisions of paragraph 5 of Article 21 of the Dispute Settlement Understanding, the panel shall attempt to issue its decision, in case of a disagreement as to the existence or consistency with a covered Agreement of measures taken to comply with the recommendations and rulings, within 60 days.</p>		
<p>7. Notwithstanding paragraph 2 of Article 22 of the Dispute Settlement Understanding, any dispute arising under any Agreement listed in Appendix 1 to the Dispute Settlement Understanding other than this Agreement shall not result in the suspension of concessions or other obligations under this Agreement, and any dispute arising under this Agreement shall not result in the suspension of concessions or other obligations under any other Agreement listed in the said Appendix 1.</p>		
<p>ARTICLE XXIII <i>Exceptions to the Agreement</i></p>	<p>ARTICLE XXIII</p>	<p>ARTICLE XXIII</p>
<p>1. Nothing in this Agreement shall be construed to prevent any Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.</p>		

<p>2. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where the same conditions prevail or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent any Party from imposing or enforcing measures: necessary to protect public morals, order or safety, human, animal or plant life or health or intellectual property; or relating to the products or services of handicapped persons, of philanthropic institutions or of prison labour.</p>		
ARTICLE XXIV	ARTICLE XXIV	ARTICLE XXIV
<i>Final Provisions</i>		
1. <u>Acceptance and Entry into Force</u>		
<p>This Agreement shall enter into force on 1 January 1996 for those governments whose agreed coverage is contained in Annexes 1 through 5 of Appendix I of this Agreement and which have, by signature, accepted the Agreement on 15 April 1994 or have, by that date, signed the Agreement subject to ratification and subsequently ratified the Agreement before 1 January 1996.</p>		
2. <u>Accession</u>		
<p>Any government which is a Member of the WTO, or prior to the date of entry into force of the WTO Agreement which is a CONTRACTING PARTY to GATT 1947, and which is not a Party to this Agreement may accede to this Agreement on terms to be agreed between that government and the Parties. Accession shall take place by deposit with the Director-General of the WTO of an instrument of accession which states the terms so agreed. The Agreement shall enter into force for an acceding government on the 30th day following the date of its accession to the Agreement.</p>		

3. <u>Transitional Arrangements</u>		
<p>(a) Hong Kong and Korea may delay application of the provisions of this Agreement, except Articles XXI and XXII, to a date not later than 1 January 1997. The commencement date of their application of the provisions, if prior to 1 January 1997, shall be notified to the Director-General of the WTO 30 days in advance.</p> <p>(b) During the period between the date of entry into force of this Agreement and the date of its application by Hong Kong, the rights and obligations between Hong Kong and all other Parties to this Agreement which were on 15 April 1994 Parties to the Agreement on Government Procurement done at Geneva on 12 April 1979 as amended on 2 February 1987 (the "1988 Agreement") shall be governed by the substantive provisions of the 1988 Agreement, including its Annexes as modified or rectified, which provisions are incorporated herein by reference for that purpose and shall remain in force until 31 December 1996.</p> <p>(c) Between Parties to this Agreement which are also Parties to the 1988 Agreement, the rights and obligations of this Agreement shall supersede those under the 1988 Agreement.</p>		

<p>(d) Article XXII shall not enter into force until the date of entry into force of the WTO Agreement. Until such time, the provisions of Article VII of the 1988 Agreement shall apply to consultations and dispute settlement under this Agreement, which provisions are hereby incorporated in the Agreement by reference for that purpose. These provisions shall be applied under the auspices of the Committee under this Agreement.</p> <p>(e) Prior to the date of entry into force of the WTO Agreement, references to WTO bodies shall be construed as referring to the corresponding GATT body and references to the Director-General of the WTO and to the WTO Secretariat shall be construed as references to, respectively, the Director-General to the CONTRACTING PARTIES to GATT 1947 and to the GATT Secretariat.</p>		
<p>4. <u>Reservations</u></p>		
<p>Reservations may not be entered in respect of any of the provisions of this Agreement.</p>		
<p>5. <u>National Legislation</u></p>		
<p>(a) Each government accepting or acceding to this Agreement shall ensure, not later than the date of entry into force of this Agreement for it, the conformity of its laws, regulations and administrative procedures, and the rules, procedures and practices applied by the entities contained in its lists annexed hereto, with the provisions of this Agreement.</p>		

<p>(b) Each Party shall inform the Committee of any changes in its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.</p>		
<p>6. <u>Rectifications or Modifications</u></p>		
<p>(a) Rectifications, transfers of an entity from one Annex to another or, in exceptional cases, other modifications relating to Appendices I through IV shall be notified to the Committee, along with information as to the likely consequences of the change for the mutually agreed coverage provided in this Agreement. If the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII.</p>		

<p>(b) Where a Party wishes, in exercise of its rights, to withdraw an entity from Appendix I on the grounds that government control or influence over it has been effectively eliminated, that Party shall notify the Committee. Such modification shall become effective the day after the end of the following meeting of the Committee, provided that the meeting is no sooner than 30 days from the date of notification and no objection has been made. In the event of an objection, the matter may be pursued in accordance with the procedures on consultations and dispute settlement contained in Article XXII. In considering the proposed modification to Appendix I and any consequential compensatory adjustment, allowance shall be made for the market-opening effects of the removal of government control or influence.</p>		
<p>7. <u>Reviews, Negotiations and Future Work</u></p>		
<p>(a) The Committee shall review annually the implementation and operation of this Agreement taking into account the objectives thereof. The Committee shall annually inform the General Council of the WTO of developments during the periods covered by such reviews.</p>		

<p>(b) Not later than the end of the third year from the date of entry into force of this Agreement and periodically thereafter, the Parties thereto shall undertake further negotiations, with a view to improving this Agreement and achieving the greatest possible extension of its coverage among all Parties on the basis of mutual reciprocity, having regard to the provisions of Article V relating to developing countries.</p> <p>(c) Parties shall seek to avoid introducing or prolonging discriminatory measures and practices which distort open procurement and shall, in the context of negotiations under subparagraph (b), seek to eliminate those which remain on the date of entry into force of this Agreement.</p>		
<p>8. <u>Information Technology</u></p>		
<p>With a view to ensuring that the Agreement does not constitute an unnecessary obstacle to technical progress, Parties shall consult regularly in the Committee regarding developments in the use of information technology in government procurement and shall, if necessary, negotiate modifications to the Agreement. These consultations shall in particular aim to ensure that the use of information technology promotes the aims of open, non-discriminatory and efficient government procurement through transparent procedures, that contracts covered under the Agreement are clearly identified and that all available information relating to a particular contract can be identified. When a Party intends to innovate, it shall endeavour to take into account the views expressed by other Parties regarding any potential problems.</p>		

9. <u>Amendments</u>		
<p>Parties may amend this Agreement having regard, <i>inter alia</i>, to the experience gained in its implementation. Such an amendment, once the Parties have concurred in accordance with the procedures established by the Committee, shall not enter into force for any Party until it has been accepted by such Party.</p>		
10. <u>Withdrawal</u>		
<p>(a) Any Party may withdraw from this Agreement. The withdrawal shall take effect upon the expiration of 60 days from the date on which written notice of withdrawal is received by the Director-General of the WTO. Any Party may upon such notification request an immediate meeting of the Committee.</p> <p>(b) If a Party to this Agreement does not become a Member of the WTO within one year of the date of entry into force of the WTO Agreement or ceases to be a Member of the WTO, it shall cease to be a Party to this Agreement with effect from the same date.</p>		
11. <u>Non-application of this Agreement between Particular Parties</u>		
<p>This Agreement shall not apply as between any two Parties if either of the Parties, at the time either accepts or accedes to this Agreement, does not consent to such application.</p>		
12. <u>Notes, Appendices and Annexes</u>		
<p>The Notes, Appendices and Annexes to this Agreement constitute an integral part thereof.</p>		

13. <u>Secretariat</u>		
<p>This Agreement shall be serviced by the WTO Secretariat.</p>		
14. <u>Deposit</u>		
<p>This Agreement shall be deposited with the Director-General of the WTO, who shall promptly furnish to each Party a certified true copy of this Agreement, of each rectification or modification thereto pursuant to paragraph 6 and of each amendment thereto pursuant to paragraph 9, and a notification of each acceptance thereof or accession thereto pursuant to paragraphs 1 and 2 and of each withdrawal therefrom pursuant to paragraph 10 of this Article.</p>		
15. <u>Registration</u>		
<p>This Agreement shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.</p> <p>Done at Marrakesh this fifteenth day of April one thousand nine hundred and ninety-four in a single copy, in the English, French and Spanish languages, each text being authentic, except as otherwise specified with respect to the Appendices hereto.</p>

REQUEST FOR OBSERVER STATUS

Communication from Georgia

The following communication, dated 9 July 1999, has been received from the Permanent Mission of Georgia with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Taking into consideration the commitment undertaken by Georgia in the Working Party on the Accession of Georgia to the WTO to initiate negotiations for becoming a Party to the Agreement on Government Procurement, I have the honour to ask the Committee to grant Georgia observer status.

MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)¹

The following notification from the Permanent Mission of Japan was received on 6 July 1999, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994).

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 3 of Appendix I of the Agreement:

- Delete "- Japan Small Business Corporation" and "- Japan Finance Corporation for Small Business" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".
- Add "- Japan Small and Medium Enterprise Corporation" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

This rectification is based on the fact that the "Japan Small Business Corporation" and the "Japan Finance Corporation for Small Business" were merged to form the "Japan Small and Medium Enterprise Corporation" on 1 July 1999. This rectification does not alter the level of mutually agreed coverage provided in this Agreement.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

Committee on Government Procurement

GPA/W/35/Rev.1

Because of the size and ephemeral nature of this document, only two copies are being supplied to each Party.

Committee on Government Procurement

LOOSE-LEAF SYSTEM FOR THE APPENDICES TO THE AGREEMENT

Note by the Secretariat

Revision

1. At its meeting of 4 June 1996, the Committee agreed to establish a loose-leaf system with legal effect to maintain up to date the Appendices to the Agreement. With a view to providing a starting point for the loose-leaf system, the Secretariat circulated in document GPA/W/35 a draft set of Appendices that reflected the Appendices attached to the Agreement as signed at Marrakesh and the subsequent rectifications, modifications and new concessions made under the procedures adopted by the Interim Committee and under the Agreement itself. At its meeting of 29 September 1997, the Committee agreed to postpone the first issue of the loose-leaf system until after the entry into force of the extensive modifications that had been notified by the European Community in document GPA/W/51 and Add.2.
2. The draft loose-leaf set of Appendices attached to this note is an updated version of GPA/W/35 incorporating all changes effective on 1 July 1999. Delegations are invited to communicate to the Secretariat (Mrs. Vesile Kulacoglu, Tel. 739 5187, Fax. 739 5790) any points concerning the accuracy and completeness of the consolidation of the Appendices within 60 days from the date on this document. The Secretariat will bring such comments to the attention of all other Parties in corrigenda to this document. In the event that any member of the Committee considers that any such comments could raise points of difference that need to be resolved in the Committee, the certification of the loose-leaf schedules may be postponed until after the Committee has discussed the matter at its following meeting. To facilitate the review of the draft by delegations, the annex to this covering note contains a synoptic table which identifies, in its column 4, the source of the material incorporated in respect of each element of the draft loose-leaf schedules. Given that the loose-leaf system will be the authoritative record of the legal status of the Appendices to the Agreement, it will be certified by the Director-General in accordance with normal procedures in respect of rectifications under WTO instruments, after the expiry of the 60-day period (provided, of course, there is no unresolved point of difference).
3. The Appendix I of a Party is only authentic in the language or languages in which it was submitted. Accordingly, Appendix I of the loose-leaf system is only in that language or those languages. Appendices II, III and IV are authentic in all three official WTO languages and are therefore reproduced in the loose-leaf system in the three languages.
4. In accordance with the procedures agreed by the Committee at its meeting of 24 February 1997, Parties proposing to make future rectifications and modifications to their Appendices pursuant to the provisions of Article XXIV:6 should notify them to the Committee in the form of relevant replacement or additional pages to be inserted in the loose-leaf system, identifying the proposed changes. As hitherto, these proposed rectifications and modifications will be circulated to Members in the GPA/W/- series. Once they have become effective and been certified pursuant to the procedures under Article XXIV:6, the new or amended pages will be circulated with a cover note indicating where the insertions (and/or deletions) are to be made in the loose-leaf system. Certified true copies of these replacement or additional pages will also be circulated in the WTO/Let/- series of

documents. At the foot of each new or replacement page will be indicated its date, which will be that on which the changes recorded in it became effective. Initially, all pages will bear the date that the loose-leaf system becomes effective (e.g. 1 July 1999).

5. In addition to being made available in hard-copy form, the loose-leaf system and future new or replacement pages will be circulated to Parties and other WTO Members in electronic form through the WTO Document Dissemination Facility. An up to date copy of the loose-leaf system is also being made available to the general public through the government procurement site on the WTO Home Page on the Internet.

85. Toiletries
87. Agricultural supplies
88. Live animals
91. Fuels, lubricants, oils and waxes
93. Non-metallic fabricated materials
94. Non-metallic crude materials
96. Ores, minerals and their primary products
99. Miscellaneous

Note to Annex 1

The General Notes apply to this Annex.

ANNEX 2

Sub-Central Government Entities

<i>Thresholds:</i>	355,000 SDRs	-	Goods
	355,000 SDRs	-	Services to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.
	5,000,000 SDRs	-	Construction Services to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.

List of Entities:

The Canadian Government offers to cover entities in all ten provinces on the basis of commitments obtained from provincial governments. The initial provincial entities list will be specified on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.

Notes to Annex 2

1. Exceptions for all Provinces: steel, motor vehicles and coal

Province-specific exceptions: in addition, a limited number of individual provincial exceptions may be specified at a later date in accordance with commitments received from such provinces.

2. Nothing in this offer shall be construed to prevent any provincial entity from applying restrictions that promote the general environmental quality in that province, as long as such restrictions are not disguised barriers to international trade.

3. This offer shall not apply to any procurement made by a covered entity on behalf of a non-covered entity.

4. The General Notes apply to this Annex.

ANNEX 3

Government Enterprises

<i>Thresholds:</i>	355,000 SDRs	-	Goods
	355,000 SDRs	-	Services covered in Annex 4
	5,000,000 SDRs	-	Construction covered in Annex 5

Federal Enterprises

1. Canada Post Corporation
2. National Capital Commission
3. St. Lawrence Seaway Authority (For greater certainty, Article XIX:4 applies to procurements by St. Lawrence Seaway Authority respecting the protection of the commercial confidentiality of information provided.)
4. Royal Canadian Mint (not including procurement by or on behalf of the Royal Canadian Mint of direct inputs for use in minting anything other than Canadian legal tender. For greater certainty, Article XIX:4 applies to procurements by the Royal Canadian Mint respecting the protection of the commercial confidentiality of information provided.)
5. Canadian Museum of Civilization
6. Canadian Museum of Nature
7. National Gallery of Canada
8. National Museum of Science and Technology
9. Defence Construction (1951) Ltd.

Sub-central Enterprises

Coverage of Sub-central Enterprises for Goods, Services and Construction Services is to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement.

Note to Annex 3

The General Notes apply to this Annex.

ANNEX 4

Services

Canada offers to include in this "Services" Annex Federal entities listed under Annex 1 and Federal enterprises listed under Annex 3. The inclusion of "Services" for sub-central entities under Annex 2 and sub-central enterprises under Annex 3 are to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new Government Procurement Agreement. With respect to the terms of this Agreement, those services to be included are as identified within the document MTN.GNS/W/120. Domestically, Canada will be utilizing the "Common Classification System" for purposes of implementing this Agreement. This list of services may be revised following further technical work among the Parties and adjustments, as appropriate, to establish equitable coverage.

Canada offers to cover the following services with respect to the CPC services classification system:

- | | |
|------|--|
| 861 | Legal Services (advisory services on foreign and international law only) |
| 862 | Accounting, auditing and book-keeping services |
| 863 | Taxation Services (excluding legal services) |
| 8671 | Architectural services |
| 8672 | Engineering services |
| 8673 | Integrated engineering services (excluding 86731 Integrated engineering services for transportation infrastructure turnkey projects) |
| 8674 | Urban planning and landscape architectural services |
| 841 | Consultancy services related to the installation of computer hardware |
| 842 | Software implementation services, including systems and software consulting services, systems analysis, design, programming and maintenance services |
| 843 | Data processing services, including processing, tabulation and facilities management services |
| 844 | Data base services |
| 845 | Maintenance and repair services of office machinery and equipment including computers |
| 849 | Other computer services |
| 821 | Real estate services involving own or leased property |
| 822 | Real estate services on a fee or contract basis |

83106 to 83109 only	Leasing or rental services concerning machinery and equipment without operator
83203 to 83209 only	Leasing or rental services concerning personal and household goods
86501	General management consulting services
86503	Marketing management consulting services
86504	Human resources management consulting services
86505	Production management consulting services
8660	Services related to management consulting (except 86602 Arbitration and conciliation services)
8676	Technical testing and analysis services including quality control and inspection (except with reference to FSC 58 and transportation equipment)
8814	Services incidental to forestry and logging, including forest management
883	Services incidental to mining, including drilling and field services
633	Repair services of personal and household goods
8861 to 8864, and 8866	Repair services incidental to metal products, machinery and equipment
874	Building-cleaning services
876	Packaging services
7512	Commercial courier services (including multi-modal)
7523	Electronic mail
7523	Voice mail
7523	On-line information and data base retrieval
7523	Electronic data interchange (EDI)
7523	Enhanced/value-added facsimile services, including store and forward, store and retrieve

	Code and protocol conversion
843	On-line information and/or data processing (including transaction processing)
940	Sewage and refuse disposal, sanitation and similar services
641	Hotel and similar accommodation services
642/3	Food and beverage serving services
7471	Travel agency and tour operator services

Notes to Annex 4

1. The General Notes apply to this Annex.
2. This offer is subject to the terms and conditions set out in the Canadian offer on trade in services.
3. Canada's offer in telecommunications is limited to enhanced or value added services for the supply of which the underlying telecommunications facilities are leased from providers of public telecommunications transport networks.
4. The Canadian offer does **not** include the following:
 - * management and operation contracts of certain government or privately-owned facilities used for government purposes, including federally-funded research and development;
 - * coin minting;
 - * public utilities;
 - * architectural and engineering related to airfield, communications and missile facilities;
 - * shipbuilding and repair and related architectural and engineering services;
 - * all services, with reference to those goods purchased by the Department of National Defence, the Royal Canadian Mounted Police and the Canadian Coast Guard which are not identified as subject to coverage by this agreement;
 - * services procured in support of military forces located overseas;
 - * printing and publishing services; and,
 - * procurement of transportation services that form a part of, or are incidental to, a procurement contract.

ANNEX 5

Construction Services

Canada offers to include in this "Construction Services" Annex, Federal entities listed under Annex 1 and Federal enterprises listed under Annex 3. The inclusion of "Construction Services" for sub-central entities under Annex 2 and sub-central enterprises under Annex 3 are to be specified initially on or before 15 April 1994 with the final list to be provided within eighteen months after the conclusion of the new government procurement agreement.

Definition:

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

List of Division 51, CPC:

All services contained in Division 51 CPC.

Notes to Annex 5

1. Notwithstanding anything in this Agreement, this Agreement does not apply to procurements in respect of:
 - (a) Dredging; and
 - (b) Construction contracts tendered on behalf of the Departments of Transport.
2. The General Notes apply to this Annex.

GENERAL NOTES

1. Notwithstanding anything in these Annexes, the Agreement does not apply to procurements in respect of:
 - (a) shipbuilding and repair;
 - (b) urban rail and urban transportation equipment, systems, components and materials incorporated therein as well as all project related materials of iron or steel;
 - (c) contracts respecting FSC 58 (communications, detection and coherent radiation equipment);
 - (d) set-asides for small and minority businesses;
 - (e) agricultural products made in furtherance of agricultural support programs or human feeding programs;
 - (f) national security exemptions include oil purchases related to any strategic reserve requirements; and,
 - (g) national security exceptions including procurements made in support of safeguarding nuclear materials or technology.
2. Procurement in terms of Canadian coverage is defined as contractual transactions to acquire property or services for the direct benefit or use of the government. The procurement process is the process that begins after an entity has decided on its requirement and continues through to and including contract award. It does not include non-contractual agreements or any form of government assistance, including but not limited to, cooperative agreements, grants, loans, equity infusions, guarantees, fiscal incentives, and government provision of goods and services, given to individuals, firms, private institutions, and sub-central governments. It does not include procurements made with a view to commercial resale or made by one entity or enterprise from another entity or enterprise of Canada.
3. Any exclusion that is related either specifically or generally to Federal or sub-central entities or enterprises in Annex 1, Annex 2 or Annex 3 will also apply to any successor entity or entities, enterprise or enterprises, in such a manner as to maintain the value of this offer.
4. Until such time as there is a mutually agreed list of services to be covered by all Parties, a service listed in Annex 4 is covered with respect to a particular Party only to the extent that such Party has provided reciprocal access to that service.
5. Where a contract to be awarded by an entity is not covered by this Agreement, this Agreement shall not be construed to cover any good or service component of that contract.
6. The offer by Canada, with respect to goods and services (including construction) in Annexes 2 and 3, is subject to negotiation of mutually acceptable commitments (including

thresholds) with other Parties, with initial commitments to be specified on or before 15 April 1994 and specific commitments to be confirmed within eighteen months after the conclusion of the new Government Procurement Agreement.

7. The Agreement shall not apply to contracts under an international agreement and intended for the joint implementation or exploitation of a project.
8. For the European Union, Canada's offer excludes procurements of FSC 70, 74 and 36 until such time as reciprocal access is provided.
9. For the European Union, this Agreement shall not apply to contracts awarded by entities in Annexes 1 and 2 in connection with activities in the field of drinking water, energy, transport or telecommunications.

Note relative à l'Annexe I

Les Notes générales s'appliquent à la présente annexe.

ANNEXE 2

Entités des gouvernements sous-centraux

<i>Valeurs de seuil:</i>	355 000 DTS	-	Produits
	355 000 DTS	-	Services dont la liste initiale sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel accord sur les marchés publics.
	5 000 000 DTS	-	Services de construction dont la liste initiale sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel accord sur les marchés publics.

Liste des entités:

Le gouvernement canadien offre d'inclure des entités des dix provinces sur la base des engagements obtenus des gouvernements provinciaux. La liste initiale des entités provinciales sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.

Notes relatives à l'Annexe 2

1. Exceptions valables pour toutes les provinces: acier, véhicules automobiles et charbon.

Exceptions propres à certaines provinces: en outre, un nombre limité d'exceptions concernant les différentes provinces pourront être spécifiées à une date ultérieure, conformément aux engagements reçus des provinces.
2. Rien dans la présente offre ne sera interprété comme empêchant une entité d'une province d'appliquer des restrictions visant à promouvoir la qualité générale de l'environnement dans cette province, pour autant que ces restrictions ne constituent pas des obstacles déguisés au commerce international.
3. La présente offre ne s'applique pas aux marchés passés par une entité visée pour le compte d'une entité non visée.
4. Les Notes générales s'appliquent à la présente annexe.

ANNEXE 3

Entreprises publiques

<i>Valeurs de seuil:</i>	355 000 DTS	-	Produits
	355 000 DTS	-	Services visés à l'Annexe 4
	5 000 000 DTS	-	Travaux visés à l'Annexe 5

Entreprises fédérales

1. Société canadienne des postes
2. Commission de la capitale nationale
3. Administration de la voie maritime du Saint-Laurent. (Pour plus de précision, les dispositions du paragraphe 4 de l'article XIX s'appliquent aux marchés passés par l'Administration de la voie maritime du Saint-Laurent, aux fins de la protection des renseignements commerciaux communiqués à titre confidentiel.)
4. Monnaie royale canadienne (à l'exclusion des marchés passés par la Monnaie royale canadienne, ou en son nom, pour l'achat de matières premières destinées à être utilisées directement pour frapper de la monnaie n'ayant pas cours légal au Canada. Pour plus de précision, les dispositions du paragraphe 4 de l'article XIX s'appliquent aux marchés passés par la Monnaie royale canadienne aux fins de la protection des renseignements commerciaux communiqués à titre confidentiel).
5. Musée canadien des civilisations
6. Musée canadien de la nature
7. Musée des beaux-arts du Canada
8. Musée national des sciences et de la technologie
9. Construction de Défense (1951) Limitée.

Entreprises sous-centrales

La liste initiale des entreprises sous-centrales qui entrent dans le champ d'application de l'accord pour ce qui est des produits, des services et des services de construction sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.

Note relative à l'Annexe 3

Les Notes générales s'appliquent à la présente annexe.

ANNEXE 4

Services

Le Canada offre d'inclure dans la présente annexe relative aux "Services" les entités fédérales énumérées à l'Annexe 1 et les entreprises fédérales énumérées à l'Annexe 3. Pour ce qui est des entités sous-centrales visées à l'Annexe 2 et des entreprises sous-centrales visées à l'Annexe 3, la liste initiale des services entrant dans le champ d'application de l'accord sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics. S'agissant des termes du présent accord, les services qui seront inclus sont ceux qui sont indiqués dans le document MTN.GNS/W/120. Sur le plan intérieur, le Canada utilisera le "Système commun de classification" aux fins de la mise en oeuvre du présent accord. La présente liste de services pourra être révisée à la suite d'autres travaux techniques entre les Parties et des ajustements pourront y être apportés, selon qu'il sera approprié, afin que le contenu en soit équitable.

Le Canada offre d'inclure les services suivants classés selon le système de classification des services de la CPC:

- | | |
|------|---|
| 861 | Services juridiques (conseils juridiques en matière de droit international et de droit étranger uniquement) |
| 862 | Services comptables, d'audit et de tenue de livres |
| 863 | Services de conseil fiscal (à l'exclusion des services juridiques) |
| 8671 | Services d'architecture |
| 8672 | Services d'ingénierie |
| 8673 | Services intégrés d'ingénierie (sauf 86731: Services intégrés d'ingénierie pour les projets de construction clés en main d'infrastructures de transport) |
| 8674 | Services d'aménagement urbain et d'architecture paysagère |
| 841 | Services de consultations en matière d'installation des matériels informatiques |
| 842 | Services de réalisation de logiciels, y compris les services de consultations en matière de systèmes et de logiciels, ainsi que les services d'analyse de systèmes, de conception, de programmation et de maintenance |
| 843 | Services de traitement de données, y compris les services de traitement, de tabulation et de gestion des installations |
| 844 | Services de base de données |
| 845 | Services d'entretien et de réparation de machines et de matériel de bureau, y compris les ordinateurs |

APPENDIX I	CANADA	ANNEX 4	French	Page 2/4
849			Autres services informatiques	
821			Services immobiliers se rapportant à des biens propres ou loués	
822			Services immobiliers à forfait ou sous contrat	
83106 à 83109 uniquement			Services de location simple ou en crédit-bail de machines et de matériel, sans opérateurs	
83203 à 83209 uniquement			Services de location simple ou en crédit-bail d'articles personnels et domestiques	
86501			Services de consultations en matière de gestion générale	
86503			Services de consultations en matière de gestion de la commercialisation	
86504			Services de consultations en matière de gestion des ressources humaines

7523			Services directs de recherche d'informations permanente et de serveur de base de données	
7523			Services d'échange électronique de données	
7523			Services améliorés/à valeur ajoutée de télécopie, y compris enregistrements et retransmission et enregistrement et recherche	
			Services de conversion de codes et de protocoles	
843			Services de traitement en direct de l'information et/ou de données (y compris traitement de transactions)	
940			Services d'assainissement et d'enlèvement des ordures, services de voirie et services analogues	
641			Services d'hôtellerie et services d'hébergement analogues	
642-643			Services de restauration et de vente de boissons	
7471			Services d'agences de voyages et d'organismes touristiques	

Notes relatives à l'Annexe 4

1. Les Notes générales s'appliquent à la présente annexe.
2. La présente offre est faite sous réserve des conditions énoncées dans l'offre du Canada relative au commerce des services.
3. Dans le domaine des télécommunications, l'offre du Canada se limite aux services améliorés ou à valeur ajoutée qui sont fournis au moyen d'installations de télécommunications de base louées à des fournisseurs de réseaux publics de transport des télécommunications.
4. L'offre du Canada ne comprend **pas** ce qui suit:
 - * les contrats de gestion et d'exploitation de certaines installations publiques ou privées utilisées à des fins publiques, y compris la recherche-développement financée par le gouvernement fédéral;
 - * la frappe de la monnaie;
 - * les services d'utilité publique;
 - * les services d'architecture et d'ingénierie se rapportant à des aéroports ainsi qu'à des installations de communications ou de missiles;
 - * la construction navale et la réparation de navires ainsi que les services d'architecture et d'ingénierie s'y rapportant;

- * s'agissant des produits achetés par le Ministère de la défense nationale, la Gendarmerie royale du Canada et la Garde côtière canadienne, tous les services qui ne sont pas indiqués comme entrant dans le champ d'application du présent accord;
- * les services achetés pour appuyer les forces militaires se trouvant à l'étranger;
- * les services d'imprimerie et d'édition; et
- * les marchés de services de transport qui font partie d'un marché ou qui y sont accessoires.

ANNEXE 5

Services de construction

Le Canada offre d'inclure dans la présente annexe relative aux "Services de construction" les entités fédérales énumérées à l'Annexe 1 et les entreprises fédérales énumérées à l'Annexe 3. Pour ce qui est des entités sous-centrales visées à l'Annexe 2 et des entreprises sous-centrales visées à l'Annexe 3, la liste initiale des services de construction entrant dans le champ d'application de l'accord sera établie au plus tard pour le 15 avril 1994, la liste définitive devant être communiquée dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.

Définition:

Un contrat de services de construction est un contrat qui a pour objectif la réalisation, par quelque moyen que ce soit, de travaux de construction d'ouvrages de génie civil ou de bâtiments, au sens de la division 51 de la Classification centrale de produits (CPC).

Liste de services relevant de la division 51 de la CPC:

Tous les services énumérés dans la division 51 de la CPC.

Notes relatives à l'Annexe 5

1. Nonobstant les dispositions du présent accord, celui-ci ne s'applique pas:
 - a) aux marchés portant sur des travaux de dragage; ni
 - b) aux marchés de travaux passés pour le compte des ministères des transports.
2. Les Notes générales s'appliquent à la présente annexe.

NOTES GENERALES

1. Nonobstant les présentes annexes, l'accord n'est pas applicable dans les cas suivants:
 - a) construction navale et réparation de navires;
 - b) chemins de fer urbains et matériel de transport urbain, systèmes, composants et matériaux entrant dans leur fabrication, ainsi que tout le matériel en fer ou en acier destiné à des ouvrages;
 - c) marchés portant sur les produits relevant du n° 58 de la Classification fédérale des approvisionnements (matériel de communication, matériel de détection des radiations et d'émission de rayonnement cohérent);
 - d) marchés réservés aux petites entreprises et aux entreprises détenues par des minorités;
 - e) marchés de produits agricoles passés en application de programmes de soutien à l'agriculture ou de programmes d'aide alimentaire;
 - f) exemptions pour des raisons de sécurité nationale, visant notamment les achats de pétrole nécessaires au maintien de réserves stratégiques;
 - g) exceptions pour des raisons de sécurité nationale, visant notamment les marchés passés aux fins du contrôle des matières ou des technologies nucléaires.
2. Pour le Canada, les marchés entrant dans le champ d'application s'entendent de transactions contractuelles visant l'acquisition de biens ou de services devant bénéficier directement au gouvernement ou être utilisés directement par celui-ci. Le processus de passation d'un marché débute après qu'une entité a défini ses besoins et se poursuit jusqu'à et y compris l'adjudication. Ne sont pas compris les accords non contractuels et toute forme d'aide publique, y compris, mais pas uniquement, les accords de coopération, les subventions, les prêts, les apports en capital, les garanties, les incitations fiscales et la fourniture par le gouvernement fédéral de produits et de services à des particuliers, des entreprises, des institutions privées et des gouvernements sous-centraux. Ne sont pas compris non plus les achats réalisés à des fins de revente commerciale ou effectués par une entité ou une entreprise auprès d'une autre entité ou d'une autre entreprise du Canada.
3. Toute exclusion liée expressément ou d'une manière générale à des entités ou à des entreprises fédérales ou sous-centrales énumérées à l'Annexe 1, à l'Annexe 2 ou à l'Annexe 3 s'appliquera également à toute entité ou entreprise qui pourrait leur succéder, afin de maintenir la valeur de la présente offre.
4. Tant que toutes les Parties ne seront pas convenues d'un commun accord d'une liste des services entrant dans le champ d'application, un service énuméré à l'Annexe 4 ne sera visé pour ce qui concerne une Partie donnée que dans la mesure où cette Partie aura accordé un accès réciproque au service considéré.
5. Dans le cas où une entité adjudgera un marché qui n'est pas visé par le présent accord, celui-ci ne sera pas interprété comme s'appliquant à tout produit ou service entrant dans ce marché.

6. S'agissant des produits et des services (y compris les travaux) énumérés aux Annexes 2 et 3, l'offre du Canada est subordonnée à la négociation avec les autres Parties d'engagements mutuellement acceptables (y compris de seuils), les engagements initiaux devant être spécifiés au plus tard pour le 15 avril 1994 et les engagements spécifiques confirmés dans un délai de 18 mois après la conclusion du nouvel Accord sur les marchés publics.
7. L'accord ne s'applique pas aux marchés passés en vertu d'un accord international et portant sur la réalisation ou l'exploitation en commun d'un ouvrage.
8. En ce qui concerne l'Union européenne, le Canada exclut de son offre les marchés portant sur les produits relevant des n° 70, 74 et 36 de la FSC tant qu'un accès réciproque ne lui aura pas été accordé.
9. En ce qui concerne l'Union européenne, le présent accord ne s'applique pas aux marchés passés par les entités visées aux Annexes 1 et 2 et portant sur des activités dans les secteurs de l'eau potable, de l'énergie, des transports et des télécommunications.

3.	LIST OF SUPPLIES AND EQUIPMENT PURCHASED BY MINISTRIES OF DEFENCE IN AUSTRIA, BELGIUM, DENMARK, THE FEDERAL REPUBLIC OF GERMANY, SPAIN, FINLAND, FRANCE, GREECE, IRELAND, ITALY, LUXEMBOURG, THE NETHERLANDS, PORTUGAL, SWEDEN AND THE UNITED KINGDOM THAT ARE COVERED BY THE AGREEMENT
-----------	--

- Chapter 25: Salt, sulphur, earths and stone, plastering materials, lime and cement
- Chapter 26: Metallic ores, slag and ash
- Chapter 27: Mineral fuels, mineral oils and products of their distillation, bituminous substances, mineral waxes
- except:
ex 27.10: special engine fuels (except Austria)
heating and engine fuels (only Austria)
- Chapter 28: Inorganic chemicals, organic and inorganic compounds of precious metals, of rare-earth metals, of radio-active elements and isotopes
- except:
ex 28.09: explosives
ex 28.13: explosives
ex 28.14: tear gas
ex 28.28: explosives
ex 28.32: explosives
ex 28.39: explosives
ex 28.50: toxic products
ex 28.51: toxic products
ex 28.54: explosives
- Chapter 29: Organic chemicals
- except:
ex 29.03: explosives
ex 29.04: explosives
ex 29.07: explosives
ex 29.08: explosives
ex 29.11: explosives
ex 29.12: explosives
ex 29.13: toxic products
ex 29.14: toxic products
ex 29.15: toxic products
ex 29.21: toxic products
ex 29.22: toxic products
ex 29.23: toxic products
ex 29.26: explosives

	ex 29.27: toxic products ex 29.29: explosives
Chapter 30:	Pharmaceutical products
Chapter 31:	Fertilizers
Chapter 32:	Tanning and dyeing extracts, tannings and their derivatives, dyes, colours, paints and varnishes, putty, fillers and stoppings, inks
Chapter 33:	Essential oils and resinoids, perfumery, cosmetic or toilet preparations
Chapter 34:	Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes polishing and scouring preparations, candles and similar articles, modelling pastes and 'dental waxes'
Chapter 36	Explosives, pyrotechnic products, matches, pyrophoric alloys, certain combustible preparations (only Austria and Sweden) except (only Austria) ex 36.01: propellant powders ex 36.02: prepared explosives ex 36.04: detonators ex 36.08: explosives
Chapter 35:	Albuminoidal substances, glues, enzymes
Chapter 37:	Photographic and cinematographic goods
Chapter 38:	Miscellaneous chemical products except: ex 38.19: toxic products (Not for Sweden)
Chapter 39:	Artificial resins and plastic materials, cellulose esters and ethers, articles thereof except: ex 39.03: explosives (Not for Sweden)
Chapter 40:	Rubber, synthetic rubber, factice, and articles thereof except: ex 40.11: bullet-proof tyres (Not for Sweden)
Chapter 41:	Raw hides and skins (other than furskins) and leather: (Not for Austria)

- Chapter 42: Articles of leather, saddlery and harness, travel goods, handbags and similar containers, articles of animal gut (other than silk-worm gut): (Not for Austria)
- Chapter 43: Furskins and artificial fur, manufactures thereof
- Chapter 44: Wood and articles of wood, wood charcoal: (Not for Austria)
- Chapter 45: Cork and articles of cork
- Chapter 46: Manufactures of straw of esparto and of other plaiting materials, basketware and wickerwork
- Chapter 47: Paper-making material
- Chapter 48: Paper and paperboard, articles of paper pulp, of paper or of paperboard: (Not for Austria)
- Chapter 49: Printed books, newspapers, pictures and other products of the printing industry, manuscripts, typescripts and plans: (Not for Austria)
- Chapter 65: Headgear and parts thereof
except (only Austria):
ex 65.05: military headgear
- Chapter 66: Umbrellas, sunshades, walking-sticks, whips, riding-crops and parts thereof
- Chapter 67: Prepared feathers and down and articles made of feathers or of down, artificial flowers, articles of human hair
- Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica and of similar materials
- Chapter 69: Ceramic products
- Chapter 70: Glass and glassware
- Chapter 71: Pearls, precious and semi-precious stones, precious metals, rolled precious metals, and articles thereof; imitation jewellery
- Chapter 72: Coins (only Austria and Sweden)
- Chapter 73: Iron and steel and articles thereof
- Chapter 74: Copper and articles thereof
- Chapter 75: Nickel and articles thereof

- Chapter 76: Aluminium and articles thereof
- Chapter 77: Magnesium and beryllium and articles thereof
- Chapter 78: Lead and articles thereof
- Chapter 79: Zinc and articles thereof
- Chapter 80: Tin and articles thereof
- Chapter 81: Other base metals employed in metallurgy and articles thereof
- Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal, parts thereof
except:
ex 82.05: tools (Not for Austria)
ex 82.07: tools, parts
ex 82.08: hand tools (only Austria)
- Chapter 83: Miscellaneous articles of base metal
- Chapter 84: Boilers, machinery and mechanical appliances, parts thereof
except:
ex 84.06: engines
ex 84.08: other engines
ex 84.45: machinery
ex 84.53: automatic data-processing machines (Not for Austria)
ex 84.55: parts of machines under heading No 84.53 (Not for Austria and Sweden)
ex 84.59: nuclear reactors (Not for Austria and Sweden)
- Chapter 85: Electrical machinery and equipment, parts thereof
except:
ex 85.03: electric cells and batteries (only Austria)
ex 85.13: telecommunication equipment
ex 85.15: transmission apparatus
- Chapter 86: Railway and tramway locomotives, rolling-stock and parts thereof; railway and tramway tracks fixtures and fittings, traffic signalling equipment of all kinds (not electrically powered)
except:
ex 86.02: armoured locomotives, electric
ex 86.03: other armoured locomotives
ex 86.05: armoured wagons

- ex 86.06: repair wagons
ex 86.07: wagons
- Chapter 87: Vehicles, other than railway or tramway rolling-stock, and parts thereof
- except:
ex 87.08: tanks and other armoured vehicles
ex 87.01: tractors
ex 87.02: military vehicles
ex 87.03: breakdown lorries
ex 87.09: motorcycles
ex 87.14: trailers
- Chapter 88: Aircraft and parts thereof (only Austria)
- Chapter 89: Ships, boats and floating structures
- except:
ex 89.01: warships (only Austria)
ex 89.01 A: warships (except Austria)
ex 89.03: floating structures (only Austria)
- Chapter 90: Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus, parts thereof
- except:
ex 90.05: binoculars
ex 90.13: miscellaneous instruments, lasers
ex 90.14: telemeters
ex 90.28: electrical and electronic measuring instruments
ex 90.11: microscopes (Not for Sweden and Austria)
ex 90.17: medical instruments (Not for Sweden and Austria)
ex 90.18: mechano-therapy appliances (Not for Sweden and Austria)
ex 90.19: orthopaedic appliances (Not for Sweden and Austria)
ex 90.20: X-ray apparatus (Not for Sweden and Austria)
- Chapter 91: Clocks and watches and parts thereof
- Chapter 92: Musical instruments, sound recorders or reproducers, television image and sound recorders or reproducers, parts and accessories of such articles
- Chapter 94: Furniture and parts thereof, bedding, mattresses, mattress supports, cushions and similar stuffed furnishings
- except:
ex 94.01 A: aircraft seats (Not for Austria)
- Chapter 95: Articles and manufactures of carving or moulding material

- Chapter 96: Brooms, brushes, powder-puffs and sieves
- Chapter 97: Toys, games and sport requisites, parts thereof (only Austria and Sweden)
- Chapter 98: Miscellaneous manufactured articles

3.	LISTE DES MATÉRIELS ACHETÉS PAR LES MINISTÈRES DE LA DÉFENSE DE L'AUTRICHE, BELGIQUE, DANEMARK, LA RÉPUBLIQUE FÉDÉRALE D'ALLEMAGNE, ESPAGNE, FINLANDE, FRANCE, GRÈCE, IRLANDE, ITALIE, LUXEMBOURG, PAYS-BAS, PORTUGAL, SUÈDE ET ROYAUME-UNI, ET SOUMIS À L'ACCORD
-----------	--

Chapitre 25: Sel, soufre, terres et pierres, plâtres, chaux et ciments

Chapitre 26: Minerais métallurgiques, scories et cendres

Chapitre 27: Combustibles minéraux, huiles minérales et produits de leur distillation, matières bitumineuses, cires minérales

à l'exception de:

ex 27.10: carburant spéciaux (sauf pour l'Autriche)

fuel-oils de chauffage et carburants (seulement pour l'Autriche)

Chapitre 28: Produits chimiques inorganiques, composés inorganiques ou organiques de métaux précieux, d'éléments radio-actifs, de métaux des terres rares et d'isotopes

à l'exception de:

ex 28.09: explosifs

ex 28.13: explosifs

ex 28.14: gaz lacrymogènes

ex 28.28: explosifs

ex 28.32: explosifs

ex 28.39: explosifs

ex 28.50: produits toxicologiques

ex 29.21: produits toxicologiques

ex 29.22: produits toxicologiques

ex 29.23: produits toxicologiques

- ex 29.26: explosifs
ex 29.27: produits toxicologiques
ex 29.29: explosifs
- Chapitre 30: Produits pharmaceutiques
- Chapitre 31: Engrais
- Chapitre 32: Extraits tannants et tinctoriaux, tanins et leur dérivés, matières colorantes, couleurs, peintures, vernis et teintures, mastics, encres
- Chapitre 33: Huiles essentielles et sésinoïdes, produits de parfumerie ou de toilette et cosmétiques
- Chapitre 34: Savons, produits organiques tensio-actifs, préparations pour lessives, préparations lubrifiantes, cires artificielles, cires préparées, produits d'entretien, bougies et articles similaires, pâtes à modeler et "cires pour l'art dentaire"
- Chapitre 35: Matières albuminoïdes, colles, enzymes
- Chapitre 36 Poudres et explosifs, articles de pyrotechnie, allumettes, alliages pyrophoriques, matières inflammables (seulement pour l'Autriche and Suède)
- à l'exception de (seulement pour l'Autriche)
ex 36.01: poudres à tirer
ex 36.02: explosifs préparés
ex 36.04: détonateurs
ex 36.08: explosifs
- Chapitre 37: Produits photographiques et cinématographiques
- Chapitre 38: Produits divers des industries chimiques
- à l'exception de:
ex 38.19: produits toxicologiques (sauf pour la Suède)
- Chapitre 39: Matières plastiques artificielles, éthers et esters de la cellulose, résines artificielles et ouvrages en ces matières
- à l'exception de:
ex 39.03: explosifs (sauf pour la Suède)
- Chapitre 40: Caoutchouc naturel ou synthétique, factice pour caoutchouc et ouvrages en caoutchouc
- à l'exception de:
ex 40.11: pneus pour automobiles (sauf pour la Suède)

- Chapitre 41: Peaux and cuirs: (sauf pour l'Autriche)
- Chapitre 42: Ouvrages en cuir, articles de bourrellerie et de sellerie, articles de voyage, sacs à main et contenants similaires, ouvrages en boyaux: (sauf pour l'Autriche)
- Chapitre 43: Pelleteries et fourrures, pelleteries factices
- Chapitre 44: Bois, charbon de bois et ouvrages en bois: (sauf pour l'Autriche)
- Chapitre 45: Liège et ouvrages en liège
- Chapitre 46: Ouvrages de sparterie et de vannerie
- Chapitre 47: Matières servant à la fabrication du papier
- Chapitre 48: Papier et cartons, ouvrages en pâte de cellulose, en papier et en carton: (sauf pour l'Autriche)
- Chapitre 49: Articles de librairie et produits des arts graphiques: (sauf pour l'Autriche)
- Chapitre 65: Coiffures et parties de coiffures
à l'exception de (seulement pour l'Autriche):
ex 65.05: coiffures militaires
- Chapitre 66: Parapluies, parasols, cannes, fouets, cravaches et leurs parties
- Chapitre 67: Plumes et duvet apprêtés et articles en plumes ou en duvet, fleurs artificielles, ouvrages en cheveux
- Chapitre 68: Ouvrages en pierres, plâtre, ciment, amiante, mica et matières analogues
- Chapitre 69: Produits céramiques
- Chapitre 70: Verres et ouvrages en verre
- Chapitre 71: Perles fines, pierres gemmes et similaires, métaux précieux, plaqués ou doublés de métaux précieux et ouvrages en ces matières; bijouterie de fantaisie
- Chapitre 72: Monnaies (seulement pour l'Autriche et la Suède)
- Chapitre 73: Fonte, fer et acier
- Chapitre 74: Cuivre

- Chapitre 75: Nickel
- Chapitre 76: Aluminium
- Chapitre 77: Magnésium, béryllium
- Chapitre 78: Plomb
- Chapitre 79: Zinc
- Chapitre 80: Etain
- Chapitre 81: Autres métaux communs
- Chapitre 82: Outillage, articles de coutellerie et couverts de table, en métaux communs
- à l'exception de:
ex 82.05: outillage (sauf Autriche)
ex 82.07: pièces d'outillage
ex 82.08: outillage à main (seulement pour l'Autriche)
- Chapitre 83: Ouvrages divers en métaux communs
- Chapitre 84: Chaudières, machines, appareils et engins mécaniques
- à l'exception de:
ex 84.06: moteurs
ex 84.08: autres propulseurs
ex 84.45: machines
ex 84.53: machines automatiques de traitement de l'information (sauf pour l'Autriche)
ex 84.55: pièces No 84.53 (sauf pour l'Autriche et la Suède)
ex 84.59: réacteurs nucléaires (sauf pour l'Autriche et la Suède)
- Chapitre 85: Machines et appareils électriques et objets servant à des usages électrotechniques
- à l'exception de:
ex 85.03: piles électriques (seulement pour l'Autriche)
ex 85.13: télécommunication
ex 85.15: appareils de transmission
- Chapitre 86: Véhicules et matériel pour voies ferrées, appareils de signalisation non électriques pour voies de communication
- à l'exception de:
ex 86.02: locomotives blindées
ex 86.03: autres locoblindés
ex 86.05: wagons blindés

- ex 86.06: wagons ateliers
ex 86.07: wagons
- Chapitre 87: Voitures automobiles, tracteurs, cycles et autres véhicules terrestres
- à l'exception de:
ex 87.08: chars et automobiles blindés
ex 87.01: tracteurs
ex 87.02: véhicules militaires
ex 87.03: voitures de dépannage
ex 87.09: motocycles
ex 87.14: remorques
- Chapitre 88: Navigation aérienne (seulement pour l'Autriche)
- Chapitre 89: Navigation maritime et fluviale
- à l'exception de:
ex 89.01: bateaux de guerre (seulement pour l'Autriche)
ex 89.01A: bateaux de guerre (sauf pour l'Autriche)
ex 89.03: engins flottants (seulement pour l'Autriche)
- Chapitre 90: Instruments et appareils d'optique, de photographie et de cinématographie, de mesure, de vérification, de précision, instruments et appareils médico-chirurgicaux
- à l'exception de:
ex 90.05: jumelles
ex 90.13: instruments divers, lasers
ex 90.14: télémètres
ex 90.28: instruments de mesures électriques ou électroniques
ex 90.11: microscopes (sauf pour l'Autriche et la Suède)
ex 90.17: instruments médicaux (sauf pour l'Autriche et la Suède)
ex 90.18: appareils de mécanothérapie (sauf pour l'Autriche et la Suède)
ex 90.19: appareils d'orthopédie (sauf pour l'Autriche et la Suède)
ex 90.20: appareils rayon X (sauf pour l'Autriche et la Suède)
- Chapitre 91: Horlogerie
- Chapitre 92: Instruments de musique, appareils d'enregistrement ou de reproduction du son; appareils d'entregistrement ou de reproduction des images et du son en télévision, parties et accessoires de ces instruments et appareils
- Chapitre 94: Meubles, mobilier médico-chirurgical, articles de literie et similaires
- à l'exception de:
ex 94.01A: sièges d'aérodynes (sauf pour l'Autriche)

- Chapitre 95: Matières à tailler et à mouler, à l'état travaillé (y compris les ouvrages)
- Chapitre 96: Ouvrages de broserie et pinceaux, balais, houppes et articles de tamiserie
- Chapitre 97: Jouets, jeux, articles pour divertissements et pour sports (seulement pour l'Autriche and Suède)
- Chapitre 98: Ouvrages divers

3. LISTA DE MATERIALES COMPRADOS POR LOS MINISTERIOS DE DEFENSA DE AUSTRIA, BELGICA, DINAMARCA, ALEMANIA, ESPAÑA, FINLANDIA, FRANCIA, GRECIA, IRLANDA, ITALIA, LUXEMBURGO, PAÍSES BAJOS, PORTUGAL, SUECIA Y EL REINO UNIDO, Y SUJETOS AL ACUERDO

- Capítulo 25: Sal, azufre, tierras y piedras, yesos, cales y cementos
- Capítulo 26: Minerales metalúrgicos, escorias, cenizas
- Capítulo 27: Combustibles minerales, aceites minerales y productos de su destilación, materias bituminosas, ceras minerales
- excepto:
ex 27.10: carburantes especiales (salvo Austria)
combustibles para calefacción y carburantes (solamente Austria)
- Capítulo 28: Productos químicos inorgánicos, compuestos inorgánicos u orgánicos de metales preciosos, de elementos radioactivos, de metales de las tierras raras y de isótopos
- excepto:
ex 28.09: explosivos
ex 28.13: explosivos
ex 28.14: gases lacrimógenos
ex 28.28: explosivos
ex 28.32: explosivos
ex 28.39: explosivos
ex 28.50: productos tóxicos
ex 28.51: productos tóxicos
ex 28.54: explosivos
- Capítulo 29: Productos químicos orgánicos
- excepto:
ex 29.03: explosivos
ex 29.04: explosivos
ex 29.07: explosivos
ex 29.08: explosivos
ex 29.11: explosivos
ex 29.12: explosivos
ex 29.13: productos tóxicos
ex 29.14: productos tóxicos
ex 29.15: productos tóxicos
ex 29.21: productos tóxicos
ex 29.22: productos tóxicos
ex 29.23: productos tóxicos

- ex 29.26: explosivos
ex 29.27: productos tóxicos
ex 29.29: explosivos
- Capítulo 30: Productos farmacéuticos
- Capítulo 31: Abonos
- Capítulo 32: Extractos curtientes y tintóreos, taninos y sus derivados, materias colorantes, colores, pinturas, barnices y tintes, mástiques, tintas
- Capítulo 33: Aceites esenciales y resinoides, productos de perfumería o de tocador y cosméticos
- Capítulo 34: Jabones, productos orgánicos tensoactivos, preparaciones para lavar, preparaciones lubricantes, ceras artificiales, ceras preparadas, productos para lustrar y pulir, bujías y artículos análogos, pastas para modelar, y "ceras para el arte dental"
- Capítulo 35: Materias albuminoides y colas, enzimas
- Capítulo 36: Pólvoras y explosivos, artículos de pirotecnia, fósforos, aleaciones pirofóricas, materias inflamables (solamente Austria y Suecia)
- excepto (solamente Austria)
ex 36.01: pólvoras de proyección
ex 36.02: explosivos preparados
ex 36.04: detonadores
ex 36.08: explosivos
- Capítulo 37: Productos fotográficos y cinematográficos
- Capítulo 38: Productos diversos de las industrias químicas
- excepto:
ex 38.19: productos tóxicos (salvo Suecia)
- Capítulo 39: Materias plásticas artificiales, éteres y ésteres de la celulosa, resinas artificiales y manufacturas de estas materias
- excepto:
ex 39.03: explosivos (salvo Suecia)
- Capítulo 40: Caucho natural o sintético, caucho facticio y manufacturas de caucho
- excepto:
ex 40.11: neumáticos a prueba de bala (salvo Suecia)

- Capítulo 41: Pieles y cuero: (salvo Austria)
- Capítulo 42: Manufacturas de cuero, artículos de guarnicionería y talabartería, artículos de viaje, bolsos de mano y continentes similares, manufacturas de tripas: (salvo Austria)
- Capítulo 43: Peletería y confecciones de peletería, peletería facticia
- Capítulo 44: Madera, carbón vegetal y manufacturas de madera: (salvo Austria)
- Capítulo 45: Corcho y sus manufacturas
- Capítulo 46: Manufacturas de espartería y cestería
- Capítulo 47: Materias utilizadas en la fabricación de papel
- Capítulo 48: Papel y cartón, manufacturas de pasta de celulosa, de papel y de cartón: (salvo Austria)
- Capítulo 49: Artículos de librería y productos de las artes gráficas: (salvo Austria)
- Capítulo 65: Sombreros y demás tocados y sus partes componentes
excepto (solamente Austria):
ex 65.05: sombreros, gorras y demás tocados militares
- Capítulo 66: Paraguas, quitasoles, bastones, látigos, fustas y sus partes componentes
- Capítulo 67: Plumás y plumón preparados y artículos de pluma o de plumón, flores artificiales, manufacturas de cabellos
- Capítulo 68: Manufacturas de piedra, yeso, cemento, amianto, mica y materias análogas
- Capítulo 69: Productos cerámicos
- Capítulo 70: Vidrio y manufactura de vidrio
- Capítulo 71: Perlas finas, piedras preciosas y semipreciosas y similares, metales preciosos, chapados de metales preciosos y manufacturas de estas materias, bisutería de fantasía
- Capítulo 72: Monedas (solamente Austria y Suecia)
- Capítulo 73: Fundición, hierro y acero
- Capítulo 74: Cobre
- Capítulo 75: Níquel

- Capítulo 76: Aluminio
- Capítulo 77: Magnesio, berilio (glucinio)
- Capítulo 78: Plomo
- Capítulo 79: Zinc
- Capítulo 80: Estaño
- Capítulo 81: Otros metales comunes
- Capítulo 82: Herramientas, artículos de cuchillería y cubiertos de mesa, de metales comunes
- excepto:
- ex 82.05: herramientas (salvo Austria)
- ex 82.07: piezas de herramientas
- ex 82.08: herramientas de mano (solamente Austria)
- Capítulo 83: Manufacturas diversas de metales comunes
- Capítulo 84: Calderas, máquinas, aparatos y artefactos mecánicos
- excepto:
- ex 84.06: motores
- ex 84.08: otros propulsores
- ex 84.45: máquinas
- ex 84.53: máquinas automáticas para tratamiento de la información (salvo Austria)
- ex 84.55: piezas de las máquinas de la partida 84.53 (salvo Austria y Suecia)
- ex 84.59: reactores nucleares (salvo Austria y Suecia)
- Capítulo 85: Máquinas y aparatos eléctricos y objetos destinados a usos electrotécnicos
- excepto:
- ex 85.03: pilas eléctricas (solamente Austria)
- ex 85.13: telecomunicaciones
- ex 85.15: aparatos transmisores
- Capítulo 86: Vehículos y material para vías férreas, aparatos non eléctricos de señalización para vías de comunicación
- excepto:
- ex 86.02: locomotoras blindadas
- ex 86.03: las demás locomotoras de maniobra blindadas
- ex 86.05: vagones blindados
- ex 86.06: vagones talleres

- ex 86.07: vagones
- Capítulo 87: Vehículos automóviles, tractores, velocípedos y otros vehículos terrestres
- excepto:
 ex 87.08: carros y automóviles blindados
 ex 87.01: tractores
 ex 87.02: vehículos militares
 ex 87.03: coches para arreglo de averías
 ex 87.09: motocicletas
 ex 87.14: remolques
- Capítulo 88: Navegación aérea (solamente Austria)
- Capítulo 89: Navegación marítima y fluvial
- excepto:
 ex 89.01: buques de guerra (solamente Austria)
 ex 89.01 A: buques de guerra (salvo Austria)
 ex 89.03: artefactos flotantes (solamente Austria)
- Capítulo 90: Instrumentos y aparatos de óptica, de fotografía y de cinematografía, de medida, de comprobación y de precisión, instrumentos y aparatos médico-quirúrgicos,
- excepto:
 ex 90.05: gemelos
 ex 90.13: instrumentos diversos, lasers
 ex 90.14: telémetros
 ex 90.28: instrumentos de medida eléctricos o electrónicos
 ex 90.11: microscopios (salvo Austria y Suecia)
 ex 90.17: instrumentos de medicina (salvo Austria y Suecia)
 ex 90.18: aparatos de mecanoterapia (salvo Austria y Suecia)
 ex 90.19: aparatos de ortopedia (salvo Austria y Suecia)
 ex 90.20: aparatos de rayos X (salvo Austria y Suecia)
- Capítulo 91: Relojería
- Capítulo 92: Instrumentos de música, aparatos para el registro y la reproducción del sonido o para el registro y reproducción en televisión de imágenes y sonido, partes y accesorios de esos instrumentos y aparatos
- Capítulo 94: Muebles, mobiliario médico-quirúrgico, artículos de cama y similares
- excepto:
 ex 94.01 A: asientos para aeronaves (salvo Austria)
- Capítulo 95: Materias para talla y moldeo, labradas (incluidas las manufacturas)

- Capítulo 96: Manufacturas de cepillería, pinceles, escobas, plumeros, borlas y cedazos
- Capítulo 97: Juguetes, juegos, artículos para recreo y para deportes (salvo Austria y Suecia)
- Capítulo 98: Manufacturas diversas

LIST OF ENTITIES / LISTE DES ENTITÉS / LISTA DE LAS ENTIDADES:

**1. CONTRACTING AUTHORITIES OF THE REGIONAL OR LOCAL PUBLIC AUTHORITIES;
POUVOIRS ADJUDICATEURS DES COLLECTIVITÉES TERRITORIALES;
PODERES ADJUDICADORES DE LOS ENTES PÚBLICOS TERRITORIALES:**

**2. BODIES GOVERNED BY PUBLIC LAW AS DEFINED IN DIRECTIVE 93/37;
LES ORGANISMES DE DROIT PUBLIC TELS QUE DÉFINIS PAR LA DIRECTIVE 93/37;
LOS ORGANISMOS DE DERECHO PÚBLICO SEGÚN LA DEFINICIÓN DE LA DIRECTIVA
93/37:**

- A "body governed by public law" means any body

- established for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character, and
- having legal personality, and
- financed, for the most part, by the State, or regional or local authorities, or other bodies governed by public law, or subject to management supervision by those bodies, or having an administrative, managerial or supervisory board; more than half of whose members are appointed by the State, regional or local authorities or by other bodies governed by public law.

The lists of bodies and categories of bodies governed by public law which fulfill the criteria referred to are set out in Annex I to Directive 93/37. These lists are indicative only (see Official Journal of the European Communities n° L 199/56, 09.08.1993 and n° C 241/228, 29.08.1994).

- On entend par "**organisme de droit public**" tout organisme:
 - créé pour satisfaire spécifiquement des besoins d'intérêt général ayant un caractère autre qu'industriel ou commercial, et
 - doté de la personnalité juridique, et
 - dont l'activité et financée majoritairement par l'Etat, les collectivités territoriales ou d'autres organismes de droit public, soit la gestion est soumise à un contrôle par ces derniers, soit l'organe d'administration, de direction ou de surveillance est composé de membres dont plus de la moitié est désignée par l'Etat, les collectivités territoriales ou d'autres organismes de droit public.

Les listes des organismes et des catégories d'organismes de droit public qui remplissent les ces critères figurent à l'annexe I de la Directive 93/37. Ces listes sont uniquement indicatives (voir Journal officiel des Communautés Européennes n° L 199/54, 09.08.1993 et n° C 241/228, 29.08.1994).

- "**Organismo de derecho público**" cualquier organismo:
 - creado para satisfacer específicamente necesidades de interés general que no tengan carácter industrial o mercantil, y
 - dotado de personalidad jurídica, y
 - cuya actividad esté mayoritariamente financiada por el Estado, los entes territoriales u otros organismos de derecho público, o bien, cuya gestión se halle sometida a un control por parte de estos últimos, o bien, cuyo órgano de administración, de dirección o de vigilancia esté compuesto por miembros de los cuales más de la mitad sean nombrados por el Estado los entes territoriales u otros organismos de derecho público.

En el Anexo I a la Directiva 93/37 figuran las listas de los organismos y de las categorías de organismos de derecho público que reúnen estos criterios. Estas listas son únicamente indicativas (véase Diario Oficial de las Comunidades Europeas Official n° L 199/56, 09.08.1993 y n° C 241/228, 29.08.1994).

List of Entities / Liste des entités / Lista de las entidades:

The contracting entities within the meaning of Article 2 of Directive 93/38/EEC which are public authorities or public undertakings and which have as one of their activities any of those referred to below or any combination thereof:

- (a) the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of drinking water or the supply of drinking water to such networks;
- (b) the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of electricity or the supply of electricity to such networks;
- (c) the provision of airport or other terminal facilities to carriers by air;
- (d) the provision of maritime or inland port or other terminal facilities to carriers by sea or inland waterway;
- (e) the operation of networks providing a service to the public in the field of urban transport by railway¹, automated systems, tramway, trolley bus, bus or cable in accordance with Directive 93/38/EEC.

The public authorities or public undertakings listed in Annex I (production, transport or distribution of drinking water), Annex II (production, transport or distribution of electricity), Annex VII (contracting entities in the field of urban railway, tramway, trolley bus or bus services), Annex VIII (contracting entities in the field of airport facilities) and Annex IX (contracting entities in the field of maritime or inland port or other terminal facilities) of Directive 93/38/EEC fulfill the criteria set out above. Those lists are indicative only (see Official Journal of the European Communities n° L 199/84, 09.08.1993 and n° C 241/228, 29.08.1994).

List of Entities / Liste des entités / Lista de las entidades:

Les autorités adjudicatrices au sens de l'article 2 de la directive 93/38/CEE qui sont des pouvoirs publics ou des entreprises publiques et qui exercent une des activités visées ci-dessous ou plusieurs de ces activités:

- (a) la mise à disposition ou l'exploitation de réseaux fixes destinés à fournir un service au public dans le domaine de la production, du transport ou de la distribution d'eau potable ou l'alimentation de ces réseaux en eau potable;

¹ Not including the entities listed in Annex VI of Directive 93/38/EEC (copy attached)

- (b) la mise à disposition ou l'exploitation de réseaux fixes destinés à fournir un service au public dans le domaine de la production, du transport ou de la distribution d'électricité ou l'alimentation de ces réseaux en électricité;
- (c) la mise à disposition des transporteurs aériens des aéroports ou d'autres terminaux de transport;
- (d) la mise à disposition des transporteurs maritimes ou fluviaux des ports maritimes ou intérieurs ou d'autres terminaux de transport;
- (e) la exploitation de réseaux destinés à fournir un service au public dans le domaine du transport urbain par chemin de fer², systèmes automatiques, tramway, trolleybus ou autobus ou câble, en accord avec la directive 93/38/CEE.

Les pouvoirs publics ou autorités publiques énumérées aux annexes I (production, transport ou distribution d'eau potable), II (production, transport ou distribution d'électricité), VII (entités adjudicatrices dans le domaine des services de chemin de fer), VIII (entités adjudicatrices dans le domaine des installations aéroportuaires) et IX (entités adjudicatrices dans le domaine des installations portuaires maritimes ou intérieures ou autres terminaux) de la directive 93/38 répondent aux critères énoncés ci-dessus. Ces listes sont uniquement indicatives (voir Journal officiel des Communautés Européennes n° L 199/54, 09.08.1993 et n° C 241/228, 29.08.1994).

<i>List of Entities / Liste des entités / Lista de las entidades:</i>

Las entidades contractantes según el sentido del artículo 2 de la directiva 93/38/CEE que sean poderes públicos o empresas públicas y que realicen alguna de la actividades contempladas en los párrafos siguientes o varias de estas actividades:

- (a) la puesta a disposición o la explotación de redes fijas que presten un servicio al público en relación con la producción, transporte o distribución de agua potable o el suministro de agua potable a dichas redes;
- (b) la puesta a disposición o la explotación de redes fijas que presten un servicio al público en relación con la producción, transporte o distribución de electricidad o el suministro de electricidad a dichas redes;
- (c) la puesta a disposición de los transportistas aéreos de los aeropuertos o de otras terminales de transporte;
- (d) la puesta a disposición de los transportistas marítimos o fluviales de los puertos marítimos o interiores o de otras terminales de transporte;

² Ne sont pas inclus les entités énumérées dans l'annexe VI de la directive 93/38/CEE (copie annexée)

- (e) la explotación de redes que presten un servicio público en el campo del transporte urbano por ferrocarril³, sistemas automáticos, tranvía, trolebús, autobús o cable.

Las entidades contractantes enumeradas en los anexos I (producción, transporte o distribución de agua potable), II (producción, transporte o distribución de electricidad), VII (entidades contractantes del sector de los servicios de ferrocarriles urbanos, tranvías, trolebuses o autobuses), VIII (entidades contractantes del sector de los aeropuertos) y IX (entidades contractantes del sector de los puertos marítimos o fluviales u otras terminales) de la directiva 93/38/CEE reúnen los criterios enunciados anteriormente. Estas listas son únicamente indicativas (véase Diario Oficial de las Comunidades Europeas Official n° L 199/56, 09.08.1993 y n° C 241/228, 29.08.1994).

³ No se incluyen las entidades enumeradas en el anexo VI de la directiva 93/38/CEE (copia anexa)

ANNEX 4- ANNEXE 4 - ANEXO 4

Services / Services / Servicios

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:

<i>Subject</i>	<i>CPC Reference No.</i>
Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 71235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752* (except 7524, 7525, 7526)
Financial services	ex 81
(a) Insurance services	812, 814
(b) Banking and investments services**	
Computer and related services	84
Accounting, auditing and bookkeeping services	862
Market research and public opinion polling services	864
Management consulting services and related services	865, 866***
Architectural services; engineering services and integrated engineering services, urban planning and landscape architectural services; related scientific and technical consulting services; technical testing and analysis services	867
Advertising services	871
Building-cleaning services and property management services	874, 82201 - 82206
Publishing and printing services on a fee or contract basis	88442
Sewage and refuse disposal; sanitation and similar services	94

Notes to Annex 4

- * except voice telephony, telex, radiotelephony, paging and satellite services.
- ** except contracts for financial services in connection with the issue, sale, purchase or transfer of securities or other financial instruments, and central bank services. In Finland payments from governmental entities (expenses) shall be transacted through a certain credit institution (Postipankki Ltd) or through the Finnish Postal Giro System. In Sweden, payments to and from governmental agencies shall be transacted through the Swedish Postal Giro System (Postgiro).
- *** except arbitration and conciliation services.

De la Liste universelle des services contenue dans le document MTN.GNS/W/120, les services suivants sont inclus:

<i>Désignation des services</i>	<i>Numéro de référence CPC</i>
Services d'entretien et de réparation	6112, 6122, 633, 886
Services de transport terrestre, y compris les services de véhicules blindés et les services de courrier, à l'exclusion des transports de courrier	712 (except 71235), 7512, 87304
Services de transports aériens: transport de voyageurs et de marchandises, à l'exclusion des transports de courrier	73 (except 7321)
Transport de courrier par transport terrestre, à l'exclusion du transport ferroviaire, et par air	71235, 7321
Services de télécommunications	752* (except 7524, 7525, 7526)
Services financiers	ex 81
(a) Services d'assurance	812, 814
(b) Services bancaires et d'investissement**	
Services informatiques et services connexes	84
Services comptables, d'audit et de tenue de livres	862
Services d'études de marché et de sondages	864
Services de conseil en gestion et services connexes	865, 866***
Services d'architecture; services d'ingénierie et services intégrés d'ingénierie; services d'aménagement urbain et d'architecture paysagère; services connexes de consultations scientifiques et techniques; services d'essais et d'analyses techniques	867
Services de publicité	871
Services de nettoyage de bâtiments et services de gestion de propriétés	874, 82201 - 82206
Services de publication et d'impression sur la base d'une redevance ou sur une base contractuelle	88442
Services de voirie et d'enlèvement des ordures: services d'assainissement et services analogues	94

Notes de l'Annexe 4

- * à l'exclusion des services de téléphonie vocale, de télex, de radiotéléphonie, d'appel unilatéral sans transmission de parole, ainsi que des services de transmission par satellite.
- ** à l'exclusion des marchés des services financiers relatifs à l'émission, à l'achat, à la vente et au transfert de titres ou d'autres instruments financiers, ainsi que des services prestés par des banques centrales. In Finland payments from governmental entities (expenses) shall be transacted through a certain credit institution (Postipankki Ltd) or through the Finnish Postal Giro System. In Sweden, payments to and from governmental agencies shall be transacted through the Swedish Postal Giro System (Postgiro).
- *** à l'exclusion des services d'arbitrage et de conciliation.

De la Lista universal de servicios contenida en el documento MTN.GNS/W/120, se incluyen los servicios siguientes:

<i>Servicios</i>	<i>Número de referencia CCP</i>
Servicios de mantenimiento y de reparación	6112, 6122, 633, 886
Servicios de transporte por vía terrestre, incluidos servicios de furgones blindados y servicios de mensajería, excepto transporte de correo	712 (except 71235), 7512, 87304
Servicios de transporte aéreo de pasajeros y carga, excepto transporte de correo	73 (except 7321)
Transporte de correo por vía terrestre, excepto transporte por ferrocarril, y por vía aérea	71235, 7321
Servicios de telecomunicación	752* (except 7524, 7525, 7526)
Servicios financieros	ex 81
(a) Servicios de seguros	812, 814
(b) Servicios bancarios y de inversiones**	
Servicios informáticos y servicios conexos	84
Servicios de contabilidad, auditoría et teneduría de libros	862
Servicios de investigación de estudios y encuestas de opinión pública	864

'AUSTRIA

Austro Control GmbH

Entities as defined in *Articles 60 to 80 of the Luftfahrtgesetz 1957 (BGBl. Nr. 253/1957).*

FINLAND

Airports managed by "Ilmailulaitos/Luftfartsverket" pursuant to *Ilmailulaki (595/64)*.

SWEDEN

Publicly owned and operated airports in accordance with *lagen (1957:297) om luftfart*.

Privately owned and operated airports with an exploitation permit under the act, where this permit corresponds to the criteria of Article 2 (3) of the Directive.;

- (i) the following is added to Annex IX 'CONTRACTING ENTITIES IN THE FIELD OF MARITIME OR INLAND PORT OR OTHER TERMINAL FACILITIES':

'AUSTRIA

Inland ports owned totally or partially by Länder and/or Gemeinden.

FINLAND

Ports operating pursuant to *Laki kunnallisista satamajärjestyksistä ja liikennemaksuista (955/76)*.

Saimaa Canal (Saimaan kanavan hoitokunta).

SWEDEN

Ports and terminal facilities according to *lagen (1983:293) om inrättande, utvidgning och avlysning av allmän farled och allmän hamn, the förordningen (1983:744) om trafiken paa Göta kanal*.

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III OF
APPENDIX I OF THE EC

General Notes and Derogations from the Provisions of Article III

1. The EC will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (a) (water) to the suppliers and service providers of Canada and the USA,
 - (b) (electricity) to the suppliers and service providers of Canada, and Japan,
 - (c) (airports) to the suppliers and service providers of Canada, Korea and the USA,
 - (d) (ports) to the suppliers and service providers of Canada,
 - (e) (urban transport) to the suppliers and service providers of Canada, Japan, Korea and the USA; to the suppliers and service providers of Israel, as regards bus services,

until such time as the EC has accepted that the Parties concerned give comparable and effective access for EC undertakings to the relevant markets;
 - to service providers of Parties which do not include service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.

2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan, Korea and Switzerland in contesting the award of contracts by entities listed under Annex 2 paragraph 2, until such time as the EC accepts that they have completed coverage of sub-central entities;
 - Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium sized enterprises under the relevant provisions of EC law, until such time as the EC accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;

- Israel, Japan and Korea in contesting that award of contracts by EC entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

3. Until such time as the EC has accepted that the Parties concerned provide access for EC suppliers and service providers to their own markets, the EC will not extend the benefits of this Agreement to suppliers and service providers of:

- Canada, as regards procurement of FSC 36, 70 and 74 (special industry machinery, general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations), office machines, visible record equipment and ADP equipment);
- Canada, as regards procurement of FSG 58 (communications, protection and coherent radiation equipment) and the USA as regards air traffic control equipment;
- Korea and Israel as regards procurement by entities listed in Annex 3 paragraph (b), as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos. 8501, 8536 and 902830;
- the USA, as regards procurement by entities listed in Annex 3 paragraph (d), as regards procurement of dredging services and procurement related to shipbuilding;
- Canada and the USA as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.

4. The Agreement shall not apply to contracts awarded under:

- an international agreement and intended for the joint implementation or exploitation of a project by the signatory States;
- an international agreement relating to the stationing of troops;
- the particular procedure of an international organization.

5. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.

6. Contracts awarded by entities in Annexes 1 and 2 in connection with activities in the fields of drinking water, energy, transport or telecommunications, are not included.

7. This Agreement shall not apply to contracts awarded by entities in Annex 3:

- for the purchase of water and for the supply of energy or of fuels for the production of energy;

- for purposes other than the pursuit of their activities as described in this Annex or for the pursuit of such activities in a non-member country;
 - for purposes of re-sale or hire to third parties, provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and other entities are free to sell or hire it under the same conditions as the contracting entity.
8. This Agreement shall not be applicable to contracts:
- for the acquisition or rental of land, existing buildings, or other immovable property or concerning rights thereon;
 - for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time.
9. This Agreement shall not be applicable to the award of service contracts by Spanish entities listed in Annex 3 before 1 January 1997 or to the award of contracts by Greek or Portuguese entities listed in Annex 3 before 1 January 1998.
10. The provision of services, including construction services, in the context of procurement procedures according to this Agreement is subject to the conditions and qualifications for market access and national treatment as will be required by Austria in conformity with her commitments under the GATS.
11. This Agreement shall not apply to contracts awarded to an entity in Finland which itself is a contracting authority within the meaning of the Public Procurement Act: "Laki julkisista hankinnoista" (1505/92), or in Sweden within the meaning of the "Lag om offentlig upphandling" (1992:1528), on the basis of an exclusive right which it enjoys pursuant to a law, regulation or administrative provision or to contracts of employment in Finland and Sweden.
12. When a specific procurement may impair important national policy objectives, the Finnish or Swedish Governments may consider it necessary in singular procurement cases to deviate from the principle of national treatment in the Agreement. A decision to this effect will be taken at Cabinet level. Finland also reserves its position with regard to the application of this Agreement to the Åland Islands (Ahvenanmaa).

NOTES GENERALES ET DEROGATIONS AUX DISPOSITIONS DE L'ARTICLE III DE
L'APPENDICE I DE LA CE

Notes générales et dérogations aux dispositions de l'article III

1. La CE n'étendra pas le bénéfice des dispositions de cet accord:

- en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 2 aux fournisseurs et aux prestataires de services du Canada;
- en ce qui concerne les marchés passés, à l'exception des fournitures, énumérés à l'annexe 2 aux fournisseurs et aux prestataires de services des États-Unis;
- en ce qui concerne les marchés passés par les entités énumérées à l'annexe 3 paragraphes
 - (a) (eau), aux fournisseurs et aux prestataires de services du Canada et des États-Unis,
 - (b) (électricité), aux fournisseurs et aux prestataires de services du Canada, et du Japon,
 - (c) (aéroports), aux fournisseurs et aux prestataires de services du Canada, de la Corée et des États-Unis,
 - (d) (ports), aux fournisseurs et aux prestataires de services du Canada,
 - (e) (transport urbain), aux fournisseurs et aux prestataires de services du Canada, du Japon, de la Corée et des États-Unis d'Amérique; aux producteurs et fournisseurs de service d'Israël, pour ce qui est des services de transport de voyageurs par autobus,

tant qu'elle n'aura pas constaté que les Parties concernées assurent aux entreprises de la CE un accès comparable et effectif aux marchés considérés;

- aux prestataires de services des Parties qui n'incluent pas, dans leurs propres listes, les marchés de services passés par les entités mentionnées aux Annexes 1 à 3 et concernant les catégories de services visées aux Annexes 4 et 5.

2. Les dispositions de l'article XX ne sont pas applicables aux fournisseurs et aux prestataires de services des pays suivants:

- Israël, Japon, Corée et Suisse en ce qui concerne les recours intentés contre l'adjudication de marchés par les entités mentionnées à l'annexe 2 paragraphe 2, tant que la CE n'a pas constaté que ces pays ont complété la liste des entités sous-centrales;

- Japon, Corée et États-Unis en ce qui concerne les recours intentés contre l'adjudication de marchés à un fournisseur ou à un prestataire de services d'autres parties, lorsque ledit fournisseur est une entreprise petite ou moyenne au sens du droit communautaire, tant que la CE n'aura pas constaté que ces pays n'appliquent plus de mesures discriminatoires pour favoriser certaines petites entreprises nationales ou certaines entreprises nationales détenues par les minorités;
- Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication par des entités de la CE de marchés dont la valeur est inférieure au seuil appliqué à la même catégorie de marchés par lesdites Parties.

3. Tant que la CE n'aura pas constaté que les Parties concernées assurent l'accès de leurs marchés aux fournisseurs et aux prestataires de services de la CE, elle n'étendra pas le bénéfice des dispositions du présent accord aux fournisseurs et aux prestataires de services des pays suivants:

- Canada, en ce qui les marchés portant sur les produits relevant des n° 36, 70 et 74 de la FSC (machines industrielles spéciales, matériel d'informatique général, logiciel, fournitures et matériel auxiliaire (sauf 7010 configurations d'équipement de traitement automatique des données), machines de bureau, matériel de bureautique et d'informatique de bureau;
- Canada, en ce qui concerne les marchés portant sur les produits relevant du FSG 58 (matériel de communications, matériel de détection des radiations et d'émission de rayonnement cohérent) et États-Unis en ce qui concerne les équipements de contrôle du trafic aérien;
- Corée et Israël en ce qui concerne les marchés passés par les entités énumérées à l'annexe 3 paragraphe (b), pour les produits relevant des n° 8504, 8535, 8537 et 8544 du SH (transformateurs électriques, prises de courant, interrupteurs et câbles isolés); et Israël en ce qui concerne les produits relevant des n° 8501, 8536 et 902830 du SH;
- États-Unis, en ce qui concerne les marchés passés par les entités énumérées à l'annexe 3 paragraphe (d), en ce qui concerne l'acquisition des services de dragage et l'acquisition relative à la construction navale;
- Canada et États-Unis en ce qui concerne les marchés de fournitures et de services entrant dans le cadre de marchés qui, tout en étant passés par une entité relevant du champ d'application du présent accord, ne sont pas eux-mêmes soumis à ce dernier.

4. Le présent accord n'est pas applicable aux marchés passés en vertu:

- d'un accord international et portant sur la réalisation ou l'exploitation en commun d'un ouvrage par les Etats signataires;
- d'un accord international conclu en relation avec le stationnement des troupes;
- de la procédure spécifique d'une organisation internationale.

5. Le présent accord n'est pas applicable aux marchés des produits agricoles passés en application des programmes de soutien à l'agriculture ou de programmes d'aide alimentaire.

6. Les marchés passés par les entités mentionnées aux annexes 1 et 2 dans les secteurs de l'eau potable, de l'énergie, du transport ou des télécommunications, ne sont pas inclus.

7. Le présent accord n'est pas applicable aux marchés passés par les entités mentionnées à l'annexe 3:

- pour l'acquisition d'eau et la fourniture d'énergie ou de combustibles destinés à la production d'énergie;
- à des fins autres que la poursuite de leurs activités selon la description donnée dans cette annexe ou pour la poursuite de ces activités dans un pays tiers;
- à des fins de revente ou de location à des tiers, lorsque l'entité adjudicatrice ne bénéficie d'aucun droit spécial ou exclusif pour vendre ou louer l'objet de ces marchés et lorsque d'autres entités peuvent librement le vendre ou le louer dans les mêmes conditions que l'entité adjudicatrice.

8. Le présent accord n'est pas applicable aux marchés passés:

- pour l'acquisition ou la location de terrains, de bâtiments existants, ou d'autres biens immeubles ou qui concernent des droits sur ces biens;
- pour l'acquisition, le développement, la production ou la coproduction du matériel destiné à la radiodiffusion et la télédiffusion et des contrats de temps d'émission.

9. Le présent accord n'est pas applicable à la passation des marchés de service par les entités espagnoles énumérées à l'annexe 3 avant le 1er janvier 1997 ou à la passation des marchés par les entités grecques ou portugaises énumérées à l'annexe 3 avant le 1er janvier 1998.

10. La prestation des services, y compris les services de construction, dans le contexte des procédures de passation de marchés en vertu cet accord est soumise aux conditions et aux qualifications pour l'accès au marché et le traitement national exigées par l'Autriche conformément à ses engagements sous l'AGCS.

11. Cet accord n'est pas applicable aux marchés attribués à une entité en Finlande qui est elle-même un pouvoir adjudicateur au sens de la loi sur les marchés publics: "Laki julkisista hankinnoista" (1505/92), ou en Suède au sens de la "Lag om offentlig upphandling" (1992:1528), sur la base d'un droit exclusif dont elle bénéficie en vertu des dispositions législatives, réglementaires ou administratives ou en vertu des contrats de travail en Finlande ou Suède.

12. Lorsqu'une acquisition spécifique peut altérer des objectifs politiques nationaux importants, les gouvernements finlandais et suédois pourront considérer nécessaire de s'écarter du principe de traitement national de l'Accord dans des cas particuliers. Une telle décision sera prise au niveau du Cabinet. La Finlande réserve également sa position en ce qui concerne l'application de cet accord aux îles Åland (Ahvenanmaa).

NOTAS Y DEROGACIONES GENERALES DE LO PREVISTO EN EL ARTÍCULO III DEL
APÉNDICE I DE LA CENotas y derogaciones generales de lo previsto en el artículo III

1. La CE no concederá los beneficios de este Acuerdo:

- por lo que se refiere a la adjudicación de los contratos por las entidades enumeradas en el anexo 2 a los proveedores y a los prestadores de servicios de Canadá;
 - por lo que se refiere a la adjudicación de los contratos, con excepción de contratos de suministros, enumerados en el anexo 2 a los proveedores y a los prestadores de servicios de los EE.UU.;
 - por lo que se refiere a la adjudicación de los contratos por entidades enumeradas en el anexo 3 párrafos
 - (a) (agua), a los proveedores y a los prestadores de servicios de Canadá y de los EE.UU.,
 - (b) (electricidad), a los proveedores y a los prestadores de servicios de Canadá y Japón,
 - (c) (aeropuertos), a los proveedores y a los prestadores de servicios de Canadá, Corea y los EE.UU.,
 - (d) (puertos), a los proveedores y a los prestadores de servicios de Canadá,
 - (e) (transporte urbano), a los proveedores y a los prestadores de servicios de Canadá, Japón, Corea y los EE.UU.; a los proveedores en general y a los proveedores de servicios de Israel, respecto de los servicios de autobús,
- hasta que la CE haya aceptado que las partes afectadas garantizan un acceso comparable y efectivo de empresas de la Comunidad a los mercados pertinentes;
- a los prestadores de servicios de las Partes que no incluyen los contratos de servicio adjudicados por las entidades enumeradas en anexos 1 a 3 y la categoría pertinente de servicio conforme a los anexos 4 y 5 en su propia cobertura.

2. Lo previsto en el artículo XX no se aplicará a los proveedores y a los prestadores de servicios de los siguiente países:

- Israel, Japón, Corea y Suiza por lo que se refiere a la impugnación de la adjudicación de contratos por las entidades enumeradas en el anexo 2 párrafo 2º, hasta que la CE acepte que estos países han completado su cobertura de entidades subcentrales;
- Japón, Corea y los EE.UU. por lo que se refiere a la impugnación de la adjudicación de los contratos a un proveedor o a un prestador de servicios de las otras Partes, que sean empresas pequeñas o medianas conforme a las disposiciones pertinentes del

derecho comunitario, hasta que la CE acepte que ya no aplican medidas discriminatorias a favor de ciertas pequeñas empresas y ciertas empresas de minoría;

- Israel, Japón y Corea por lo que se refiere a la impugnación de la adjudicación de los contratos por las entidades de la CE cuyo valor es inferior al umbral aplicable en la misma categoría de contratos por estas partes.

3. Hasta que la CE haya aceptado que las partes afectadas proporcionan el acceso de los proveedores y los prestadores de servicios de la CE a sus propios mercados, la CE no concederá los beneficios de este Acuerdo a los proveedores y a los prestadores de servicios de los países siguientes:

- Canadá, por lo que se refiere a la adquisición de FSC 36, 70 y 74 (maquinaria industrial especial, material general de proceso de datos automáticos, soporte lógico, suministros y material auxiliar (excepto 7010 configuraciones ADPE), máquinas de oficina, material de ofimática y de informática de oficina);
- Canadá, por lo que se refiere a la adquisición de FSG 58 (material de comunicaciones, material de detección de radiaciones y de emisión de radiación coherente) y los EE.UU. por lo que se refiere al material de control de tráfico aéreo;
- Corea e Israel por lo que se refiere a la adquisición por entidades enumeradas en el anexo 3 párrafo (b), por lo que se refiere a la adquisición de nos. 8504, 8535, 8537 y 8544 HS (transformadores eléctricos, enchufes, interruptores y cables aislantes); y para Israel, nos. 8501, 8536 y 902830 HS;
- los EE.UU., por lo que se refiere a la adquisición por entidades enumeradas en el anexo 3 párrafo (d), por lo que se refiere a la adquisición de servicios de dragado y a la adquisición relacionada con la construcción naval;
- Canadá y los EE.UU. por lo que se refiere a los contratos de bienes o de servicios componentes de contratos que, aunque sean concedidos por una entidad cubierta por este Acuerdo, no están ellos mismos sujetos a este Acuerdo.

4. El presente Acuerdo no se aplicará a los contratos adjudicados en virtud de:

- un acuerdo internacional destinado a la ejecución o explotación conjunta de un proyecto por los Estados signatarios;
- un acuerdo internacional relativo al estacionamiento de tropas;
- un procedimiento específico de una organización internacional.

5. El presente Acuerdo no se aplicará a la adquisición de productos agrícolas hecha en aplicación de programas de ayuda a la agricultura y de programas de ayuda alimentaria.

6. Los contratos adjudicados por las entidades en los anexos 1 y 2 con respecto a actividades en los sectores del agua potable, la energía, el transporte o las telecomunicaciones, no están incluidos.

7. El presente Acuerdo no se aplicará a los contratos que las entidades enumeradas en el anexo 3 adjudiquen:

- para la compra de agua y para el suministro de energía o de combustibles destinados a la producción de energía;
- para fines distintos de la prosecución de sus actividades según lo descrito en este anexo o para la prosecución de tales actividades en un país tercero;
- a efectos de reventa o arrendamiento a terceros siempre y cuando la entidad contratante no goce de derechos especiales o exclusivos de venta o arrendamiento del objeto de dichos contratos, y existan otras entidades que puedan venderlos o arrendarlos libremente en las mismas condiciones que la entidad contratante.

8. El presente Acuerdo no será aplicable a contratos:

- para la adquisición o el arrendamiento de terrenos, edificios ya existentes, u otros bienes inmuebles o relativos a derechos sobre estos bienes;
- para la adquisición, el desarrollo, la producción o coproducción de material de programa por emisores de ondas y contratos de tiempo de emisión.

9. El presente Acuerdo no será aplicable a la adjudicación de contratos de servicio por entidades españolas enumeradas en el anexo 3 antes del 1 de enero de 1997 o a la adjudicación de los contratos por entidades griegas o portuguesas enumeradas en el anexo 3 antes del 1 de enero de 1998.

10. La prestación de servicios, incluidos los servicios de construcción, en el contexto de los procedimientos de contratación en virtud este Acuerdo está sujeta a las condiciones y calificaciones para el acceso al mercado y el trato nacional requeridas por Austria de conformidad con sus compromisos bajo el ACCS.

11. Este Acuerdo no se aplicará a los contratos adjudicados a una entidad en Finlandia que sea a su vez una entidad adjudicadora en el sentido de la Ley de Contratación Pública: "Hankinnoista de julkisista Laki" (1505/92), o en Suecia en el sentido del "Lag om offentlig upphandling" (1992:1528), basándose en un derecho exclusivo del que goce en virtud de disposiciones legales, reglamentarias o administrativas, o en virtud de un contrato laboral en Finlandia y Suecia.

12. Cuando una adquisición específica puede alterar objetivos importantes de política nacional, los gobiernos finés o sueco podrán considerar necesario desviarse en casos concretos del principio del trato nacional del Acuerdo. Decisiones de este tipo se tomarán a nivel de gabinete. Finlandia también se reserva su posición por lo que se refiere a la aplicación de este Acuerdo a las islas Aland (Ahvenanmaa).

HONG KONG, CHINA

ANNEX 1

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51 CPC

All services of Division 51 of the CPC

Threshold: 5,000,000 SDR

GENERAL CONDITIONS APPLICABLE TO ENTITIES AND SERVICES
SPECIFIED IN ANNEXES 1 TO 5

1. Notwithstanding anything in the Annexes 1-5, the Agreement shall not apply to:
 - All consultancy and franchise arrangements
 - Transportation of mail by air
 - Statutory insurances including third party liability in respect of vehicles and vessels and employer's liability insurance in respect of employees
 - Purchase of office or residential accommodation by the Government Property Agency.

2. Hong Kong's commitments on telecommunications services are subject to the terms of the licence held by Hong Kong Telecommunications International Ltd. (HKTI) until 30 September 2006 for the exclusive provision of external telecommunications circuits and certain external telecommunications services. The exclusive services covered by the licence are listed below.
 - (a) Circuits by radio for the provision of external public telecommunications services.
 - (b) The operation of circuits by submarine cable for the provision of external public telecommunications services.
 - (c) External and internal Public Telegram Service.
 - (d) External and internal Public Telex Service.
 - (e) External public telephone services to subscribers to the Public Switched Telephone Network by radio, submarine cable and such overland cables as are authorized.
 - (f) External dedicated and leased telephone circuit services by radio, submarine cable and such overland cables as are authorized.
 - (g) External dedicated and leased circuits for -
 - telegraph
 - data
 - facsimile.
 - (h) Hong Kong coast stations and coast earth stations of the Maritime Mobile service and Maritime Mobile - Satellite Service.
 - (i) Hong Kong Aeronautical Stations of the Aeronautical Mobile Service and Aeronautical Mobile - Satellite Service for radio communications services between aircraft operating agencies and their aircraft in flight.

- (j) International telecommunications services routed in transit via Hong Kong.
- (k) Except to the extent that the Governor-in-Council may from time to time otherwise in writing direct, external television and voice programme transmission services to and from Hong Kong.
3. Operators of telecommunications services may require licensing under the Telecommunication Ordinance. Operators applying for the licences are required to be established in Hong Kong under the Companies Ordinance.
4. Hong Kong Government shall not be obliged to permit the supply of such services cross-border, or through commercial presence or the presence of natural persons.
5. The following services are excluded from the Financial Services under Annex 4
1. *CPC 81402*
Insurance and pension consultancy services
 2. *CPC 81339*
Money broking
 3. *CPC 8119+81323*
Asset management, such as cash or portfolio management, all forms of collective investment management, pension fund management, custodial depository and trust services.
 4. *CPC 81339 or 81319*
Settlement and clearing services for financial assets, including securities, derivative products, and other negotiable instruments.
 5. *CPC 8131 or 8133*
Advisory and other auxiliary financial services on all the activities listed in subparagraphs 5(a)(v) to (xvi) in the Annex on Financial Services in the General Agreement on Trade in Services, including credit reference and analysis, investment and portfolio research and advice, advice on acquisitions and on corporate restructuring and strategy.
 6. *CPC 81339+81333+81321*
Trading for own account or for account of customers, whether on an exchange, in an over-the-counter market or otherwise, the following:

- money market instruments (cheques, bills, certificate of deposits, etc.)
- foreign exchange
- derivative products including, but not limited to futures and options
- exchange rate and interest rate instruments, including products such as swaps, forward rate agreement, etc.
- transferable securities
- other negotiable instruments and financial assets, including bullion.

 The State Controller's office

Note to Annex 1(1) *Ministry of Health - Excepted Products*

- Insulin and infusion pumps
- Audiometers
- Medical dressings (bandages, adhesive tapes excluding gauze bandages and gauze pads)
- Intravenous solution
- Administration sets for transfusions
- Scalp vein sets
- Hemi-dialysis and blood lines
- Blood packs
- Syringe needles

ANNEX 2

*Sub-Central Government Entities which Procure in Accordance
With the Provisions of this Agreement*

<i>Supplies</i>	<i>Threshold:</i>	250,000 SDR
<i>Services</i> (specified in Annex 4)	<i>Threshold:</i>	250,000 SDR
<i>Construction</i> (specified in Annex 5)	<i>Threshold:</i>	8,500,000 SDR

List of Entities:

Municipalities of Jerusalem, Tel-Aviv and Haifa

The company for economy and management of the Center of Local Government

ANNEX 3

*All Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies	<i>Threshold:</i>	355,000 SDR
Services (specified in Annex 4)	<i>Threshold:</i>	355,000 SDR
Construction (specified in Annex 5)	<i>Threshold:</i>	8,500,000 SDR

List of Entities:

Israel Airports Authority
 Israel Ports and Railways Authority (1)
 Israel Broadcasting Authority
 Israel Educational Television
 Postal Authority
 Bezek (Israel Communication Company) (1) (2)
 Israel Electricity Company (2a)
 Mekoroth Water Resources Ltd.
 Sports' Gambling Arrangement Board
 Israel Standards Institute
 National Insurance Institute
 All entities operating in the field of urban transport, except those operating in the field of bus services (2b)

Notes to Annex 3

- (1) Procurement of cables is excluded.
- (2) With regard to procurement by Bezek, this Agreement shall apply only to goods and services of the US.

Israel is willing to negotiate the opening of its telecommunication sector also to other Code members under the condition of reciprocity.

- (2a) Excluded products: cables (H.S. 8544), electro-mechanic meters (ex. H.S. 9028), transformers (H.S. 8504), disconnectors and switchers (H.S. 8535-8537), electric motors (H.S. 8501).
- (2b) With regard to procurement by entities operating in the field of urban transport, except those operating in the field of bus services, this Agreement shall apply only to goods and services, including construction services, of the European Community.

Israel is willing to negotiate the opening of procurement by entities operating in the field of urban transport, except those operating in the field of bus services, to other Parties to the Agreement under the condition of reciprocity.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:

<i>CPC</i>	<i>Description</i>
6112, 6122, 633, 886	Maintenance and repair services
8672-3	Architectural services
8671	Engineering services
8674	Urban planning
841-3	Computer and related services
871	Advertising services
864	Market research and public opinion
865-6	Management consulting
874, 82201-82206	Building-cleaning services and property management services
88442	Publishing and printing services on a fee or contract basis
9401-5	Environmental services

Note to Annex 4

The offer regarding services (including construction) is subject to the limitation and conditions specified in Israel's offer under the GATS negotiation.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

Threshold: 8,500,000 SDR

List of construction services offered

<i>CPC</i>	<i>Description</i>
511	Pre-erection work at construction sites
512	Construction work for buildings
513	Construction work for civil engineering
514	Assembly and erection of prefabricated construction
515	Special trade construction work
516	Installation work
517	Building completion and finishing work
518	Renting services related to equipment for construction

GENERAL NOTES

- (1) The Agreement shall not apply to contracts awarded for purposes of re-sale or hire to third parties, provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and other entities are free to sell or hire it under the same conditions as the contracting entity.
- (2) The Agreement shall not apply to contracts for the purchase of water and for the supply of energy and of fuels for the production of energy.
- (3) The Agreement shall not apply to the acquisition or rental of land, buildings or other immovable property, or concerning rights thereon.

NOTE

Offset

1. Having regard to Article XVI and to general policy considerations regarding development, Israel may operate provisions which require the limited incorporation of domestic content, offset procurement or transfer of technology, in the form of objective and clearly defined conditions for participation in procedures for the award of contracts, which do not discriminate between other Parties.

This shall be done under the following terms:

- (a) Israel shall ensure that its entities indicate the existence of such conditions in their tender notices and specify them clearly in the contract documents.
 - (b) Suppliers will not be required to purchase goods that are not offered on competitive terms, including price and quality, or to take any action which is not justified from a commercial standpoint.
 - (c) Offsets in any form may be required up to 35 per cent of the contract going down to 30 per cent after five years and 20 per cent after nine years, beginning from the date Israel implements the Agreement.
2.
 - (a) At the end of each period of five and four years Israel will submit a report concerning the implementation of this Note.
 - (b) When the level of the offset has reached 20 per cent, Israel will consult with the Parties to this Agreement on the level of the use of offset by Israel. The review shall take into consideration *inter alia* general and economic developments in Israel, its trade balance, the actual performance within the framework of this Agreement and the views of the other Parties.

JAPAN

(Authentic in the English language only)

ANNEX 1

*Central Government Entities which Procure in Accordance
with the Provisions of this Agreement*

Supplies*Threshold:*

130 thousand SDR

List of Entities:

All entities covered by the Accounts Law as follows:

- House of Representatives
- House of Councillors
- Supreme Court
- Board of Audit

- Ministry of Agriculture, Forestry and Fisheries
- Ministry of International Trade and Industry
- Ministry of Transport
- Ministry of Posts and Telecommunications
- Ministry of Labour
- Ministry of Construction
- Ministry of Home Affairs

Notes to Annex 1

1. Entities covered by the Accounts Law include all their internal sub-divisions, independent organs, attached organizations and other organizations and local branch offices provided for in the National Government Organization Law.
2. Products and services procured with a view to resale or with a view to use in the production of goods for sale are not included.
3. This Agreement shall not apply to contracts to be awarded to co-operatives or associations in accordance with laws and regulations existing at the time of the entry into force of this Agreement for Japan.

4. This Agreement will generally apply to procurement by the Defence Agency of the following Federal Supply Classification (FSC) categories subject to the Japanese Government determinations under the provisions of Article XXIII, paragraph 1:

FSC Description

22	Railway Equipment
24	Tractors
32	Woodworking Machinery and Equipment
34	Metalworking Machinery
35	Service and Trade Equipment
36	Special Industry Machinery
37	Agricultural Machinery and Equipment
38	Construction, Mining, Excavating, and Highway Maintenance Equipment
39	Materials Handling Equipment
40	Rope, Cable, Chain, and Fittings
41	Refrigeration, Air Conditioning, and Air Circulating Equipment
43	Pumps and Compressors
45	Plumbing, Heating and Sanitation Equipment
46	Water Purification and Sewage Treatment Equipment
47	Pipe, Tubing, Hose, and Fittings
48	Valves
51	Hand Tools
52	Measuring Tools
55	Lumber, Millwork, Plywood and Veneer
61	Electric Wire, and Power and Distribution Equipment
62	Lighting Fixtures and Lamps
65	Medical, Dental, and Veterinary Equipment and Supplies
6630	Chemical Analysis Instruments
6635	Physical Properties Testing Equipment
6640	Laboratory Equipment and Supplies
6645	Time Measuring Instruments
6650	Optical Instruments
6655	Geophysical and Astronomical Instruments

FSC Description (cont'd)

6660	Meteorological Instruments and Apparatus
6670	Scales and Balances
6675	Drafting, Surveying, and Mapping Instruments
6680	Liquid and Gas Flow, Liquid Level, and Mechanical Motion Measuring Instruments
6685	Pressure, Temperature, and Humidity Measuring and Controlling Instruments
6695	Combination and Miscellaneous Instruments
67	Photographic Equipment
68	Chemicals and Chemical Products
71	Furniture
72	Household and Commercial Furnishings and Appliances
73	Food Preparation and Serving Equipment
74	Office Machines and Visible Record Equipment
75	Office Supplies and Devices
76	Books, Maps, and Other Publications
77	Musical Instruments, Phonographs, and Home-type Radios
79	Cleaning Equipment and Supplies
80	Brushes, Paints, Sealers, and Adhesives
8110	Drums and Cans
8115	Boxes, Cartons, and Crates
8125	Bottles and Jars
8130	Reels and Spools
8135	Packaging and Packing Bulk Materials
85	Toiletries
87	Agricultural Supplies
93	Non-metallic Fabricated Materials
94	Non-metallic Crude Materials
99	Miscellaneous

ANNEX 2

*Sub-Central Government Entities which Procure in Accordance
with the Provisions of this Agreement*

Supplies*Threshold:*

200 thousand SDR

List of Entities:

All prefectural governments entitled "To", "Do", "Fu" and "Ken", and all designated cities entitled "Shitei-toshi", covered by the Local Autonomy Law as follows:

- Hokkaido
- Aomori-ken

- (g) Procurement of the services specified in Annex 4, other than construction services, is not included.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:

(Provisional Central
Product Classification
(CPC), 1991)

- 51 Construction work
- 6112 Maintenance and repair services of motor vehicles^{Note 1}
- 6122 Maintenance and repair services of motorcycles and snowmobiles^{Note 1}
- 712 Other land transport services (except 71235 Mail transportation by land)
- 7213 Rental services of sea-going vessels with operator
- 7223 Rental services of non-sea-going vessels with operator
- 73 Air transport services (except 73210 Mail transportation by air)
- 748 Freight transport agency services
- 7512 Courier services^{Note 2}
- Telecommunications services
- MTN.GNS/W/120
 - Corresponding CPC
 - 2.C.h. - 7523 Electronic mail;
 - 2.C.i. - 7521 Voice mail;
 - 2.C.j. - 7523 On-line information and data base retrieval;
 - 2.C.k. - 7523 Electronic data interchange (EDI);
 - 2.C.l. - 7529 Enhanced facsimile services;
 - 2.C.m. - 7523 Code and protocol conversion; and
 - 2.C.n. - 7523 On-line information and/or data processing (including transaction processing)
- 84 Computer and related services
- 864 Market research and public opinion polling services
- 867 Architectural, engineering and other technical services^{Note 3}
- 871 Advertising services
- 87304 Armoured car services
- 874 Building-cleaning services
- 88442 Publishing and printing services^{Note 4}
- 886 Repair services incidental to metal products, machinery and equipment
- 94 Sewage and refuse disposal, sanitation and other environmental protection services

Notes to Annex 4

1. Maintenance and repair services are not included with respect to those motor vehicles, motorcycles and snowmobiles which are specifically modified and inspected to meet regulations of the entities.
2. Courier services are not included with respect to letters.
3. Architectural, engineering and other technical services related to construction services, with the exception of the following services when procured independently, are included:
 - Final design services of CPC 86712 Architectural design services;
 - CPC 86713 Contract administration services;
 - Design services consisting of one or a combination of final plans, specifications and cost estimates of either CPC 86722 Engineering design services for the construction of foundations and building structures, or CPC 86723 Engineering design services for mechanical and electrical installations for buildings, or CPC 86724 Engineering design services for the construction of civil engineering works; and
 - CPC 86727 Other engineering services during the construction and installation phase.
4. Publishing and printing services are not included with respect to materials containing confidential information.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All services listed in Division 51.

Threshold: 4,500 thousand SDR for entities set out in ANNEX 1;
15,000 thousand SDR for those in ANNEX 2; and
15,000 thousand SDR for those in ANNEX 3.

GENERAL NOTES

1. For goods and services (including construction services) of Canada and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3.
2. In case Parties do not apply Article XX to suppliers or service providers of Japan in contesting the award of contract by entities, Japan may not apply the Article to suppliers or service providers of the Parties in contesting the award of contracts by the same kind of entities.

KOREA

(Authentic in the English language only)

ANNEX 1

*Central Government Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: 130,000 SDR

List of Entities:

- Board of Audit and Inspection
- Prime Minister's Secretariat
- Office of Administrative Coordination
- First Minister of Political Affairs
- Second Minister of Political Affairs
- Ministry of Finance and Economy
- National Unification Board
- Ministry of Government Administration
- Ministry of Science and Technology
- Ministry of Information
- Government Legislation Agency
- Patriots and Veterans Affairs Agency
- Ministry of Foreign Affairs
- Ministry of Home Affairs
- Ministry of Justice
- Ministry of National Defense
- Ministry of Education
- Ministry of Culture and Sports
- Ministry of Agriculture and Forestry
- Ministry of Trade, Industry and Energy
- Ministry of Health and Welfare
- Ministry of Labor
- Ministry of Construction and Transportation
- Ministry of Maritime Affairs and Fisheries
- Ministry of Information and Communications
- Ministry of Environment
- Office of Supply (limited to purchases for entities in this list only. Regarding procurement for entities in Annex 2 and Annex 3 in this list, the coverages and thresholds for such entities thereunder shall be applied.)
- National Tax Administration
- Customs Administration
- National Statistical Office

- National Police Administration (except purchases for the purpose of maintaining public order, as provided in Article XXIII of the Code)
- Supreme Public Prosecutors' Office
- Military Manpower Administration
- Rural Development Administration
- Forestry Administration
- Korea Industrial Property Office
- Small and Medium Business Administration
- Korea National Railroad Administration (The Korean Government plans to change the NRA into a public corporation in 1996, in which case the Korean Government has the right to transfer the NRA from Annex 1 to Annex 3 without any consultation and/or compensatory measures.)
- National Maritime Police Agency (except purchases for the purpose of maintaining public order, as provided in Article XXIII of the Agreement)

Services

Threshold: 130,000 SDR

List of Entities which Procure Services Specified in Annex 4:

Same as "Supplies" section

Construction Services

Threshold: 5,000,000 SDR

List of Entities which Procure Services Specified in Annex 5:

Same as "Supplies" section

Notes to Annex 1

1. The above central government entities include their subordinate linear organizations, special local administrative organs, and attached organs as prescribed in the Government Organization Act of the Republic of Korea.
2. This Agreement does not apply to the products and services procured with a view to resale or to use in the production of goods or provision of services for sale.
3. This Agreement does not apply to the single tendering procurement including set-asides for small- and medium-sized businesses according to the Act Relating to Contracts to which the State is a Party and its Presidential Decree, and the procurement of agricultural, fishery and livestock products according to the Foodgrain Management Law, the Law Concerning Marketing and Price Stabilization of Agricultural and Fishery Products, and the Livestock Law.

4. This Agreement does not apply to the procurement of satellites according to the Aviation and Space Industry Development Promotion Law for five years from its entry into force for Korea.
5. The Defense Logistics Agency shall be considered as part of the Ministry of National Defense. Subject to the decision of the Korean Government under the provisions of paragraph 1, Article XXIII, for MND purchases, this Agreement will generally apply to the following FSC categories only, and for services and construction services listed in Annex 4 and Annex 5, it will apply only to those areas which are not related to national security and defense.

<i>FSC</i>	<i>Description</i>
2510	Vehicular cab, body, and frame structural components
2520	Vehicular power transmission components
2540	Vehicular furniture and accessories
2590	Miscellaneous vehicular components
2610	Tires and tubes, pneumatic, nonaircraft
2910	Engine fuel system components, nonaircraft
2920	Engine electrical system components, nonaircraft
2930	Engine cooling system components, nonaircraft
2940	Engine air and oil filters, strainers and cleaners, nonaircraft
2990	Miscellaneous engine accessories, nonaircraft
3020	Gears, pulleys, sprockets and transmission chain
3416	Lathes
3417	Milling machines
3510	Laundry and dry cleaning equipment
4110	Refrigeration equipment
4230	Decontaminating and impregnating equipment
4520	Space heating equipment and domestic water heaters
4940	Miscellaneous maintenance and repair shop specialized equipment
5120	Hand tools, nonedged, nonpowered
5410	Prefabricated and portable buildings
5530	Plywood and veneer
5660	Fencing, fences and gates
5945	Relays and solenoids
5965	Headsets, handsets, microphones and speakers
5985	Antennae, waveguide, and related equipment
5995	Cable, cord, and wire assemblies: communication equipment
6505	Drugs and biologicals
6220	Electric vehicular lights and fixtures
6840	Pest control agents disinfectants
6850	Miscellaneous chemical, specialties
7310	Food cooking, baking, and serving equipment
7320	Kitchen equipment and appliances
7330	Kitchen hand tools and utensils
7350	Table ware
7360	Sets, kits, outfits, and modules food preparation and serving
7530	Stationery and record forms

7920	Brooms, brushes, mops, and sponges
7930	Cleaning and polishing compounds and preparations
8110	Drums and cans
9150	Oils and greases: cutting, lubricating, and hydraulic
9310	Paper and paperboard

ANNEX 2

*Sub-Central Government Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: 200,000 SDR

List of Entities:

- Seoul Metropolitan Government
- City of Pusan
- City of Taegu
- City of Incheon
- City of Kwangju
- City of Taejon
- Kyonggi-do
- Kang-won-do
- Chungchongbuk-do
- Chungchongnam-do
- Kyongsangbuk-do
- Kyongsangnam-do
- Chollabuk-do
- Chollanam-do
- Cheju-do

Services

Threshold: 200,000 SDR

List of Entities which Procure Services Specified in Annex 4:

Same as "Supplies" section

Construction Services

Threshold: SDR 15,000,000

List of Entities which Procure Services Specified in Annex 5:

Same as "Supplies" section

Note to Annex 4

Asterisks (*) designate "part of" as described in detail in the Revised Conditional Offer of the Republic of Korea Concerning Initial Commitments on Trade in Services.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

Threshold: 5,000,000 SDR for entities set out in Annex 1
 15,000,000 SDR for entities set out in Annex 2
 15,000,000 SDR for entities set out in Annex 3

List of construction services offered:

<i>CPC</i>	<i>Description</i>
511	Pre-erection work at construction sites
512	Construction work for buildings
513	Construction work for civil engineering
514	Assembly and erection of prefabricated construction
515	Special trade construction work
516	Installation work
517	Building completion and finishing work

GENERAL NOTES

1. Korea will not extend the benefits of this Agreement
 - (a) as regards the award of contracts by the National Railroad Administration,
 - (b) as regards procurement for airports by the entities listed in Annex 1,
 - (c) as regards procurement for urban transportation (including subways) by the entities listed in Annexes 1 and 2

to the suppliers and service providers of member States of the European Communities, Austria, Norway, Sweden, Finland and Switzerland, until such time as Korea has accepted that those countries give comparable and effective access for Korean undertakings to their relevant markets.
2. For goods and services (including construction services) of Canada and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3. Korea is prepared to amend this note at such time as coverage with respect to these Annexes can be resolved with Canada.
3. A service listed in Annex 4 is covered with respect to a particular party only to the extent that such party has included that service in its Annex 4.

LIECHTENSTEIN

(Authentic in the English language only)

ANNEX 1

*Central Government Entities which Procure in Accordance With
the Provisions of this Agreement*

<i>Supplies</i>	<i>Threshold:</i>	SDR 130,000
<i>Services</i> (specified in Annex 4)	<i>Threshold:</i>	SDR 130,000
<i>Construction services</i> (specified in Annex 5)	<i>Threshold:</i>	SDR 5,000,000

List of Entities:

Government of the Principality of Liechtenstein

Note to Annex 1

The Agreement shall not apply to contracts awarded by contracting authorities in the field of drinking water, energy, transport or telecommunications.

ANNEX 2

*Sub-Central Entities which Procure in Accordance With
the Provisions of this Agreement*

<i>Supplies</i>	<i>Threshold:</i>	SDR 200,000
<i>Services</i> (specified in Annex 4)	<i>Threshold:</i>	SDR 200,000
<i>Construction services</i> (specified in Annex 5)	<i>Threshold:</i>	SDR 5,000,000

List of Entities:

1. Public Authorities at local level
2. Bodies governed by public law and not having an industrial or commercial character at the local level.

Note to Annex 2

The Agreement shall not apply to contracts awarded by contracting authorities in connection with activities in the field of drinking water, energy, transport or telecommunications.

ANNEX 3

*All Other Entities which Procure in Accordance With
the Provisions of this Agreement*

Supplies	<i>Threshold:</i>	SDR 400,000
Services	<i>Threshold:</i>	SDR 400,000
Works (specified in Annex 5)	<i>Threshold:</i>	SDR 5,000,000

List of Entities:

The contracting entities which are public authorities¹ or public undertakings² and which have as at least one of their activities any of those referred to below:

1. the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of drinking water or the supply of drinking water to such networks (as specified under title I);
2. the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of electricity or the supply of electricity to such networks (as specified under title II);
3. the operation of fixed networks providing a service to the public in the field of transport by urban railway, automated systems, tramway, trolleybus, bus or cable (as specified under title III);

¹ Public authorities means the State, regional or local authorities, bodies governed by public law, or associations formed by one or more of such authorities or bodies governed by public law. A body is considered to be governed by public law where it:

- is established for the specific purpose of meeting needs in the general interest, not being of an industrial or commercial nature;
- has legal personality; and
- is financed for the most part by the State, or regional or local authorities, or other bodies governed by public law, or is subject to management supervision by those bodies, or has an administrative, managerial or supervisory board more than half of whose members are appointed by the State, regional or local authorities, or other bodies governed by public law.

² Public undertakings means any undertaking over which the public authorities may exercise directly or indirectly a dominant influence by virtue of their ownership of it, their financial participation therein, or the rules which govern it. A dominant influence on the part of the public authorities shall be presumed when these authorities, directly or indirectly, in relation to an undertaking:

- hold the majority of the undertaking's subscribed capital; or
- control the majority of the votes attaching to shares issued by the undertaking; or
- can appoint more than half of the members of the undertaking's administrative, managerial or supervisory body.

4. the exploitation of a geographical area for the purpose of the provision of airport or other terminal facilities to carriers by air (as specified under title IV);
5. the exploitation of a geographical area for the purpose of the provision of inland port or other terminal facilities to carriers by sea or inland waterway (as specified under title V).

I. Production, transport or distribution of drinking water

Public authorities and public undertakings producing, transporting and distributing drinking water. Such public authorities and public undertakings are operating under local legislation or under individual agreements based thereupon.

- Gruppenwasserversorgung Liechtensteiner Oberland
- Gruppenwasserversorgung Liechtensteiner Unterland

II. Production, transport or distribution of electricity

Public authorities and public undertakings for the production, transport and distribution of electricity operating on the basis of authorizations for expropriation pursuant to the "Gesetz vom 16. Juni 1947 betreffend die "Liechtensteinischen Kraftwerke" (LKWG)".

- Liechtensteinische Kraftwerke

III. Contracting entities in the field of urban railway, automated systems, tramway, trolley bus, bus or cable services

Liechtensteinische Post-, Telefon- und Telegrafienbetriebe (PTT)

according to "Vertrag vom 9. Januar 1978 zwischen dem Fürstentum Liechtenstein und der Schweizerischen Eidgenossenschaft über die Besorgung der Post- und Fernmeldedienste im Fürstentum Liechtenstein durch die Schweizerischen Post-, Telefon- und Telegrafienbetriebe (PTT).

IV. Contracting entities in the field of airport facilities

None

Notes to Annex 3

This Agreement shall not apply:

1. to contracts which the contracting entity awards for purposes other than the pursuit of their activities as described in this Annex.
2. to contracts awarded for purposes of re-sale or hire to third parties, provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and other entities are free to sell or hire it under the same conditions as the contracting entity.
3. to contracts for the purchase of water.
4. to contracts of contracting entities other than a public authority exercising the supply of drinking water or electricity to networks which provide a service to the public, if they produce these services by themselves and consume them for the purpose of carrying out other activities than those described under this Annex under I and II and provided that the supply to the public network depends only on the entity's own consumption and does not exceed 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years.
5. to contracts for the supply of energy or of fuels for the production of energy.
6. to contracts awarded by contracting entities providing a bus service if other entities are free to offer the same service either in general or in a specific geographical area and under the same conditions.

ANNEX 4

Services

The following services from the services sectoral classification list contained in document MTN.GNS/W/120 are included:

Subject

Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 71235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752 ¹
Financial services	ex 81
(a) Insurance services	812, 814
(b) Banking and investment services ²	
Computer and related services	84
Accounting, auditing and bookkeeping services	862
Market research and public opinion polling services	864
Management consulting services and related services	865, 866 ³
Architectural services; engineering services and integrated engineering services; urban planning and landscape architectural services; related scientific and technical consulting services; technical testing and analysis services	867

¹ Except voice telephony, telex, radiotelephony, paging and satellite services

² Except contracts for financial services in connection with the issue, sale, purchase, or transfer of securities or other financial instruments, and central bank services

³ Except arbitration and conciliation services

APPENDIX I	LIECHTENSTEIN	ANNEX 4	Page 2/2
------------	---------------	---------	----------

Advertising services	871
Building-cleaning services and property management services	874, 82201-82206
Publishing and printing services on a fee or contract basis	88442
Sewage and refuse disposal; sanitation and similar services	94

Notes to Annex 4

The Agreement shall not apply to:

1. service contracts awarded to an entity which is itself a procuring entity listed in Annex 1 or 2 on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision.
2. service contracts which a contracting entity awards to an affiliated undertaking or which are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out an activity within the meaning of Annex 3 or to an undertaking which is affiliated with one of these contracting entities. At least 80 per cent of the average turnover of that undertaking for the preceding three years has to derive from the provision of such services to undertakings with which it is affiliated. Where more than one undertaking affiliated with the contracting entity provides the same service, the total turnover deriving from the provision of services by those undertakings shall be taken into account.
3. contracts for the acquisition or rental, by whatever means, of land, existing buildings, or other immovable property or concerning rights thereon.
4. to contracts of employment.
5. for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

List of Division 51, CPC:

General construction work for buildings	512
General construction work for civil engineering	513
Installation and assembly work	514 + 516
Building completion and finishing work	517
Other	511 + 515 + 518

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. The Principality of Liechtenstein will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada and the United States of America,
 - as regards the award of contracts by entities listed in Annex 3 in the following sectors:
 - water: to the suppliers and service providers of Canada and the United States of America;
 - electricity: to the suppliers and service providers of Canada, Japan and the United States of America;
 - urban transport: to the suppliers and service providers of Canada, Israel, Japan, Korea and the United States of America

until such time as the Principality of Liechtenstein has accepted that the Parties concerned give comparable and effective access for undertakings of the Principality of Liechtenstein to the relevant markets;

 - to service providers of Parties which do not include service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan and Korea in contesting the award of contracts by bodies governed by public law and not having an industrial or commercial character listed in Annex 2, paragraph 2, until such time as the Principality of Liechtenstein accepts that they have completed coverage of sub-central entities;
 - Canada, Japan, Korea and the United States of America in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small- or medium-sized enterprises under the relevant provisions of the law of Liechtenstein until such time as the Principality of Liechtenstein accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
 - Israel, Japan and Korea in contesting the award of contracts by entities of the Principality of Liechtenstein, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

3. Until such time as the Principality of Liechtenstein has accepted that the Parties concerned provide access for suppliers and service providers to their own markets, the Principality of Liechtenstein will not extend the benefits of this Agreement to suppliers and service providers of:
 - Canada, as regards procurement of FSC 36, 70 and 74 (special industry machinery; general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations); office machines, visible record equipment and ADP equipment);
 - Canada, as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the United States of America as regards air traffic control equipment;
 - Korea and Israel as regards procurement by entities listed in Annex 3, paragraph (B) as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;
 - Canada and the United States of America as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.
4. The Agreement shall not apply to contracts awarded under:
 - an international agreement and intended for the joint implementation or exploitation of a project by signatory States;
 - the particular procedure of an international organization.
5. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.
6. The provision of services, including construction services, in the context of procurement procedures according to this Agreement is subject to the conditions and qualifications for market access and national treatment as will be required by the Principality of Liechtenstein in conformity with its commitments under the GATS.

Note to Annex 1

Procurement by defence entities (marked with an "**") covers products falling under the CCCN chapters specified in the General Notes.

ANNEX 2

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 200,000

Services (specified in Annex 4)

Threshold: SDR 200,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

1. Contracting authorities of the regional or local public authorities (all counties (19) and municipalities (435)).
2. Bodies governed by public law, or associations formed by one or more such authorities or bodies governed by public law¹, including:

Norsk Rikskringkastning
Norges Bank
Statistisk Sentralbyrå
Norges Forskningsråd
Statens Pensjonskasse

The Norwegian Broadcasting Corporation
Norges Bank
Statistics Norway
Research Council of Norway
Norwegian Public Service Pension Fund

¹ A body is considered to be governed by public law when it:

- is established for the specific purpose of meeting needs in the general interest, not being of a commercial or industrial nature, and
- has legal personality, and
- is financed for the most part by the State, or regional or local authorities, or other bodies governed by public law, or is subject to management supervision by those bodies, or has an administrative, managerial or supervisory board more than half of whose members are appointed by the State, regional or local authorities, or other bodies governed by public law.

Export Credit

Categories:

- *Statsbanker (State Banks)*
- *Universiteter og Høyskoler etter lov av 16. juni 1989 nr. 77 (Universities and Colleges)*
- *Publicly owned and operated museums*

ANNEX 3

*Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 400,000

Services

(specified in Annex 4)*

Threshold: SDR 400,000

Works

(specified in Annex 5)

Threshold: SDR 5,000,000

*List of Sectors:*1. *The electricity sector:***

Public entities producing, transporting or distributing electricity pursuant to Lov om bygging og drift av elektriske anlegg (LOV 1969-06-19), Lov om erverv av vannfall, bergverk og annen fast eiendom m.v., Kap. I, jf. kap. V (LOV 19-17-24 16, kap. I), or Vassdragsreguleringsloven (LOV 1917-12-14 17) or Energiloven (LOV 1990-06-29 50).

2. *Urban transport:*

Public entities which have as one of their activities the operation of networks providing a service to the public in the field of transport by automated systems, urban railway, tramway, trolley bus, bus or cable according to Lov om anlegg og drift av jernbane, herunder sporvei, tunellbane og forstadsbane m.m. (LOV 1993-06-11 100), or Lov om samferdsel (LOV 1976-06-04 63) or Lov om anlegg av taugbaner og løipestrenger (LOV 1912-06-14 1).

3. *Airports:*

Public entities providing airport facilities pursuant to Lov om luftfart (LOV 1960-12-16 1).

Luftfartsverket

National Civil Aviation Administration

4. *Ports:*

Public entities operating pursuant to Havneloven (LOV 1984-06-08 51).

5. *Water supply:***

Public entities producing or distributing water pursuant to Forskrift om Drikkevann og Vannforsyning (FOR 1951 - 09-28).

Notes to Annex 3

* This Agreement shall not apply to service contracts which:

- (a) a contracting entity awards to an affiliated undertaking;
- (b) are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out a relevant activity within the meaning of paragraphs 1-5 of this Annex to one of those contracting entities or to an undertaking which is affiliated with one of these contracting entities;

provided that at least 80 per cent of the average turnover of that undertaking with respect to services arising within the EEA for the three preceding years derives from the provision of such services to undertakings with which it is affiliated. When more than one undertaking affiliated with the contracting entity provides the same service or similar services, the total turnover deriving from the provision of services by those undertakings shall be taken into account.

** The supply of drinking water and electricity to networks which provide a service to the public by a contracting entity other than a public authority shall not be considered as a relevant activity within the meaning of paragraphs 1 and 5 of Annex 3 where:

- the production of drinking water or electricity by the entity concerned takes place because its consumption is necessary for carrying out an activity other than that referred to in paragraphs 1 and 5 of this Annex, and
- supply to the public network depends only on the entity's own consumption and has not exceeded 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years, including the current year.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:*

<i>Subject</i>	<i>CPC Reference N</i>
Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 712235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752** (except 7524, 7525, 7526)
Financial services	ex 81
(a) Insurance services	812, 814
(b) Banking and investment services***	
Computer and related services	84
Accounting, auditing and bookkeeping services	862
Market research and public opinion polling services	864
Management consulting services and related services	865, 866****
Architectural services; engineering services and integrated engineering services, urban planning and landscape architectural services; related scientific and technical consulting services; technical consulting services; technical testing and analysis services	867
Advertising services	871
Building-cleaning services and property management services	874, 82201-82206

<i>Subject</i>	<i>CPC Reference N</i>
Publishing and printing services on a fee or contract basis	88442
Sewage and refuse disposal; sanitation and similar services	94

Notes to Annex 4

- * except for services which entities have to procure from another entity pursuant to an exclusive right established by a published law, regulation or administrative provision
- ** except voice telephony, telex, radiotelephony, paging and satellite services
- *** except contracts for financial services in connection with the issue, sale, purchase, or transfer of securities or other financial instruments, and central bank services
- **** except arbitrations and conciliation services

ANNEX 5

*Construction Services**Definition:*

A construction service contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All public works/construction services of Division 51.

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. Norway will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (1) (electricity), to the suppliers and service providers of Canada, Singapore and Japan;
 - (2) (urban transport), to the suppliers and service providers of Canada, Israel, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Norway has accepted that the Parties concerned give comparable and effective access for Norwegian undertakings to the relevant markets;

 - to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan, Korea and Switzerland in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Norway accepts that they have completed coverage of sub-central entities;
 - Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Norway, until such time as Norway accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
 - Israel, Japan and Korea in contesting the award of contracts by Norwegian entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.

3. Until such time as Norway has accepted that the Parties concerned provide access for Norwegian suppliers and service providers to their own markets, Norway will not extend the benefits of this Agreement to suppliers and service providers of:
 - Canada as regards procurement of FSC 36, 70 and 74 (special industry machinery; general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations); office machines, visible record equipment and ADP equipment);
 - Canada as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the USA as regards air traffic control equipment.
 - Israel and Korea as regards procurement by entities listed in Annex 3, paragraph 1, as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;
 - Canada and the USA as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.
4. Contracts awarded by entities in Annexes 1 and 2 in connection with activities in the fields of drinking water, energy, transport or telecommunications, are not included.
5. With regard to Annex 3, this Agreement shall not apply to the following contracts:
 - contracts which the contracting entities under paragraph 5 award for the purchase of water;
 - contracts which the contracting entities under paragraph 1 award for the supply of energy or of fuels for the production of energy;
 - contracts which the contracting entities award for purposes other than the pursuit of their activities as described in this Annex or for the pursuit of such activities in a non-EEA country;
 - contracts awarded for purposes of re-sale or hire to third parties provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and that other entities are free to sell or hire it under the same conditions as the contracting entity;
 - contracting entities exercising activities in the bus transportation sector where other entities are free to offer the same services in the same geographical area and under substantially the same conditions.

6. With regard to Annex 4, this Agreement shall not apply to the following:
- contracts for the acquisition or rental, by whatever financial means, of land, existing buildings, or other immovable property or concerning rights thereon;
 - contracts for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time;
 - contracts awarded to an entity which is itself a contracting authority within the meaning of the Public Procurement Act: "Lov om offentlige anskaffelser m.v." (LOV 1992-11-27 116) on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision;
 - contracts of employment.
7. The Agreement shall not apply to contracts awarded under:
- an international agreement and intended for the joint implementation or exploitation of a project by the signatory States;
 - an international agreement relating to the stationing of troops;
 - the particular procedure of an international organization.
8. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.
9. The thresholds in the Annexes will be applied so as to conform with the public procurement thresholds of the EEA agreement.
10. This Agreement does not apply to procurement subject to secrecy or other particular restrictions with regard to the safety of the realm.
11. When a specific procurement may impair important national policy objectives, the Norwegian Government may consider it necessary in singular procurement cases to deviate from the principle of national treatment in the Agreement. A decision to this effect will be taken at the Norwegian Cabinet level.
12. Norway reserves its position with regard to the application of this Agreement to Svalbard, Jan Mayen Island and Norway's Antarctic possessions.

Defence Entities:

Procurement by defence entities (marked with an "*" in Annex 1) covers the following:

- Chapter 25: Salt; sulphur; earths and stone; plastering materials, lime and cement
Chapter 26: Metallic ores, slag and ash

APPENDIX I	NORWAY	GENERAL NOTES	Page 4/6
Chapter 27:	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes		
	except:		
	ex 27.10 special engine fuels		
Chapter 28:	Inorganic chemicals; organic and inorganic compounds of precious metals, of rare earth metals, of radio-active elements and of isotopes		
	except:		
	ex 28.09 explosives		
	ex 28.13 explosives		
	ex 28.14 tear gas		
	ex 28.28 explosives		
	ex 28.32 explosives		
	ex 28.39 explosives		
	ex 28.50 toxic products		
	ex 28.51 toxic products		
	ex 28.54 explosives		
Chapter 29:	Organic chemicals		
	except:		
	ex 29.03 explosives		
	ex 29.04 explosives		
	ex 29.07 explosives		
	ex 29.08 explosives		
	ex 29.11 explosives		
	ex 29.12 explosives		
	ex 29.13 toxic products		
	ex 29.14 toxic products		
	ex 29.15 toxic products		
	ex 29.21 toxic products		
	ex 29.22 toxic products		
	ex 29.23 toxic products		
	ex 29.26 explosives		
	ex 29.27 toxic products		
	ex 29.29 explosives		
Chapter 30:	Pharmaceutical products		
Chapter 31:	Fertilizers		
Chapter 32:	Tanning and dyeing extracts; tannins and their derivatives; dyes, colours, paints and varnishes, putty, fillers and stoppings, inks		
Chapter 33:	Essential oils and resinoids; perfumery, cosmetics and toilet preparations		
Chapter 34:	Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scouring preparations, candles and similar articles, modelling pastes and "dental waxes"		
Chapter 35:	Albuminoidal substances; glues; enzymes		
Chapter 37:	Photographic and cinematographic goods		
Chapter 38:	Miscellaneous chemical products		
	except:		
	ex 38.19 toxic products		

- Chapter 39: Artificial resins and plastic materials, cellulose esters and ethers, articles thereof
except:
ex 39.03 explosives
- Chapter 40: Rubber, synthetic rubber, factice, and articles thereof
except:
ex 40.11 bullet-proof tyres
- Chapter 41: Raw hides and skins (other than furskins) and leather
- Chapter 42: Articles of leather; saddlery and harness; travel goods, handbags and similar containers;
articles of animal gut (other than silk-worm gut)
- Chapter 43: Furskins and artificial fur; manufactures thereof
- Chapter 44: Wood and articles of wood; wood charcoal
- Chapter 45: Cork and articles of cork
- Chapter 46: Manufactures of straw of esparto and of other plaiting materials; basketware and
wickerwork
- Chapter 47: Paper-making material
- Chapter 48: Paper and paperboard; articles of paper pulp, of paper or of paperboard
- Chapter 49: Printed books, newspapers, pictures and other products of the printing industry;
manuscripts, typescripts and plans
- Chapter 65: Headgear and parts thereof
- Chapter 66: Umbrellas, sunshades, walking-sticks, whips, riding-crops and parts thereof
- Chapter 67: Prepared feathers and down and articles made of feathers or of down; artificial flowers;
articles of human hair
- Chapter 68: Articles of stone, of plaster, of cement, of asbestos, of mica and of similar materials
- Chapter 69: Ceramic products
- Chapter 70: Glass and glassware
- Chapter 71: Pearls, precious and semi-precious stones, precious metals, rolled precious metals, and
articles thereof; imitation jewellery
- Chapter 73: Iron and steel and articles thereof
- Chapter 74: Copper and articles thereof
- Chapter 75: Nickel and articles thereof
- Chapter 76: Aluminium and articles thereof
- Chapter 77: Magnesium and beryllium and articles thereof
- Chapter 78: Lead and articles thereof
- Chapter 79: Zinc and articles thereof
- Chapter 80: Tin and articles thereof
- Chapter 81: Other base metals employed in metallurgy and articles thereof
- Chapter 82: Tools, implements, cutlery, spoons and forks, of base metal; parts thereof
except:
ex 82.05 tools
ex 82.07 tools, parts
- Chapter 83: Miscellaneous articles of base metal
- Chapter 84: Boilers, machinery and mechanical appliances; parts thereof
except:
ex 84.06 engines
ex 84.08 other engines
ex 84.45 machinery

APPENDIX I	NORWAY	GENERAL NOTES	Page 6/6
	ex 84.53	automatic data-processing machines	
	ex 84.55	parts of machines under heading 84.53	
	ex 84.59	nuclear reactors	
Chapter 85:		Electrical machinery and equipment; parts thereof except:	
	ex 85.13	telecommunication equipment	
	ex 85.15	transmission apparatus	
Chapter 86:		Railway and tramway locomotives, rolling-stock and parts thereof except:	
	ex 86.02	armoured locomotives, electric	
	ex 86.03	other armoured locomotives	
	ex 86.05	armoured wagons	
	ex 86.06	repair wagons	
	ex 86.07	wagons	
Chapter 87:		Vehicles, other than railway or tramway rolling-stock, and parts thereof except:	
	ex 87.01	tractors	
	ex 87.02	military vehicles	
	ex 87.03	breakdown lorries	
	ex 87.08	tanks and other armoured vehicles	
	ex 87.09	motorcycles	
	ex 87.14	trailers	
Chapter 89:		Ships, boats and floating structures except:	
	ex 89.01A	warships	
Chapter 90:		Optical, photographic, cinematographic, measuring, checking, precision, medical and surgical instruments and apparatus; parts thereof except:	
	ex 90.05	binoculars	
	ex 90.13	miscellaneous instruments, lasers	
	ex 90.14	telemeters	
	ex 90.28	electrical and electronic measuring instruments	
	ex 90.11	microscopes	
	ex 90.17	medical instruments	
	ex 90.18	mechano-therapy appliances	
	ex 90.19	orthopaedic appliances	
	ex 90.20	X-ray apparatus	
Chapter 91:		Clocks and watches and parts thereof	
Chapter 92:		Musical instruments; sound recorders or reproducers; television image and sound recorders or reproducers; parts and accessories of such articles	
Chapter 94:		Furniture and parts thereof; bedding, mattresses, mattress supports, cushions and similar stuffed furnishings except:	
	ex 94.01A	aircraft seats	
Chapter 95:		Articles and manufactures of carving or moulding material	
Chapter 96:		Brooms, brushes, powder-puffs and sieves	
Chapter 98:		Miscellaneous manufactured articles	

SINGAPORE

 Ministry of Home Affairs
 Ministry of Information and the Arts
 Ministry of Manpower
 Ministry of Law
 Ministry of National Development
 Ministry of Trade and Industry
 Parliament
 Presidential Councils
 Prime Minister's Office
 Public Service Commission
 Ministry of Defence

This Agreement will generally apply to purchases by the Singapore Ministry of Defence of the following FSC categories (others being excluded) subject to the Government of Singapore's determinations under the provision of Article XXIII, paragraph 1.

<i>FSC</i>	<i>Description</i>
22	Railway Equipment
23	Ground Effect Vehicles, Motor Vehicles, Trailers and Cycles
24	Tractors
25	Vehicular Equipment Components
26	Tires and Tubes
29	Engine Accessories
30	Mechanical Power Transmission Equipment
31	Bearings
32	Woodworking Machinery and Equipment
34	Metalworking Machinery
35	Service and Trade Equipment
36	Special Industry Machinery
37	Agricultural Machinery and Equipment
38	Construction, Mining, Excavating and Highway Maintenance Equipment
39	Materials Handling Equipment
40	Rope, Cable, Chain and Fittings
41	Refrigeration, Air Conditioning and Air Circulating Equipment
42	Fire Fighting, Rescue and Safety Equipment
43	Pumps and Compressors
44	Furnace, Steam Plant and Drying Equipment
45	Plumbing, Heating and Sanitation Equipment
46	Water Purification and Sewage Treatment Equipment
47	Pipe, Tubing, Hose and Fittings
48	Valves
51	Handtools
52	Measuring Tools
53	Hardware and Abrasives
54	Prefabricated Structures and Scaffolding
55	Lumber, Millwork, Plywood and Veneer
56	Construction and Building Materials
61	Electric Wire, and Power and Distribution Equipment
62	Lighting, Fixtures and Lamps
63	Alarm, Signal and Security Detection Systems
65	Medical, Dental and Veterinary Equipment and Supplies
67	Photographic Equipment
68	Chemicals and Chemical Products
69	Training Aids and Devices
70	General Purpose Automatic Data Processing Equipment, Software, Supplies and Support Equipment
71	Furniture
72	Household and Commercial Furnishings and Appliances
73	Food Preparation and Serving Equipment
74	Office Machines, Text Processing Systems and Visible Record Equipment
75	Office Supplies and Devices
76	Books, Maps and other Publications
77	Musical Instruments, Phonographs and Home-Type Radios

78	Recreational and Athletic Equipment
79	Cleaning Equipment and Supplies
80	Brushes, Paints, Sealers and Adhesives
81	Containers, Packaging and Packing Supplies
83	Textiles, Leather, Furs, Apparel and Shoe Findings, Tents and Flags
84	Clothing, Individual Equipment, and Insignia
85	Toiletries
87	Agricultural Supplies
88	Live Animals
89	Subsistence
91	Fuels, Lubricants, Oils and Waxes
93	Non-metallic Fabricated Materials
94	Non-metallic Crude Materials
95	Metal Bars, Sheets and Shapes
96	Ores, Minerals, and their Primary Products
99	Miscellaneous

Notes to Annex 1:

1. The Agreement shall not apply to any procurement in respect of:
 - (a) construction contracts for chanceries abroad and headquarters buildings made by the Ministry of Foreign Affairs; and
 - (b) contracts made by the Internal Security Department, Criminal Investigation Department, Security Branch and Central Narcotics Bureau of the Ministry of Home Affairs as well as procurement that have security considerations made by the Ministry.
2. The Agreement shall not apply to any procurement made by a covered entity on behalf of a non-covered entity.

ANNEX 2

*Sub-Central Entities which Procure in Accordance
with the Provisions of the Agreement*

Non-applicable for Singapore (Singapore does not have any Sub-central Governments).

ANNEX 3

*All other Entities which Procure in Accordance
with the Provisions of this Agreement*

Goods	<i>Threshold:</i>	SDR 400,000
Services (specified in Annex 4)	<i>Threshold:</i>	SDR 400,000
Construction (specified in Annex 5)	<i>Threshold:</i>	SDR 5,000,000

List of Entities:

Board of Architects
Civil Aviation Authority of Singapore
Building and Construction Authority
Economic Development Board
Housing and Development Board
Inland Revenue Authority of Singapore
Land Transport Authority of Singapore
Jurong Town Corporation
Maritime and Port Authority of Singapore
Monetary Authority of Singapore
National Computer Board
National Science & Technology Board
Nanyang Technological University
National Parks Board
National University of Singapore
Preservation of Monuments Board
Professional Engineers Board
Public Transport Council
Sentosa Development Corporation
Singapore Broadcasting Authority
Singapore Productivity and Standards Board
Singapore Tourism Board
Telecommunication Authority of Singapore
Trade Development Board
Urban Redevelopment Authority

Note to Annex 3:

1. The Agreement shall not apply to any procurement made by a covered entity on behalf of a non-covered entity.

ANNEX 4

Services

The following services as contained in document MTN.GNS/W/120 are offered (others being excluded):

Threshold: SDR 130,000 for entities as set out in Annex 1
SDR 400,000 for entities as set out in Annex 3

<i>CPC</i>	<i>Description</i>
862	Accounting, Auditing and Book-keeping Services
8671	Architectural Services
865	Management Consulting Services
874	Building-Cleaning Services
641-643	Hotels and Restaurants (incl. catering)
74710	Travel Agencies and Tour Operators
7472	Tourist Guide Services
843	Data Processing Services
844	Database Services
932	Veterinary Services
84100	Consultancy Services Related to the Installation of Computer Hardware
84210	Systems and Software Consulting Services
87905	Translation and Interpretation Services
7523	Electronic Mail
7523	Voice Mail
7523	On-Line Information and Database Retrieval
7523	Electronic Data Interchange
96112	Motion Picture or Video Tape Production Services
96113	Motion Picture or Video Tape Distribution Services
96121	Motion Picture Projection Services
96122	Video Tape Projection Services
96311	Library Services
8672	Engineering Services
7512	Courier Services
-	Biotechnology Services
-	Exhibition Services
-	Commercial Market Research
-	Interior Design Services, Excluding Architecture
-	Professional, Advisory and Consulting Services Relating to Agriculture, Forestry, Fishing and Mining, Including Oilfield Services

Notes to Annex 4:

1. The offer regarding services is subject to the limitations and conditions specified in the Government of Singapore's offer under the GATS negotiations.
2. The Agreement shall not apply to any procurement made by a covered entity on behalf of a non-covered entity.

ANNEX 5

Construction Services

The following construction services in the sense of Division 51 of the Central Product Classification as contained in document MTN.GNS/W/120 are offered (others being excluded):

Threshold: SDR 5,000,000 for entities as set out in Annex 1
 SDR 5,000,000 for entities as set out in Annex 3

List of construction services offered:

<i>CPC</i>	<i>Description</i>
512	General construction work for buildings
513	General construction work for civil engineering
514, 516	Installation and assembly work
517	Building completion and finishing work
511, 515, 518	Others

Notes to Annex 5:

1. The offer regarding construction services is subject to the limitations and conditions specified in the Government of Singapore's offer under the GATS negotiations.
2. The Agreement shall not apply to any procurement made by a covered entity on behalf of a non-covered entity.

GENERAL NOTE:

1. Taking into account the concerns expressed by GPA Members, Singapore will review its current compulsory registration system with the view to removing any unintended effects of discrimination and of limited tendering in its open tender system that the existing registration system may have on GPA Members within a period of three years after its accession.

Services du Parlement

Note relative à l'annexe 1

Le présent accord ne s'applique pas aux marchés passés par des entités énumérées dans cette annexe et portant sur des activités dans les secteurs de l'eau potable, de l'énergie, des transports ou des télécommunications.

Liste des matériels civils de la défense et de la protection civile soumis à l'accord

- Chapitre 25:* Sel; soufre; terres et pierres; plâtres; chaux et ciments
- Chapitre 26:* Minerais métallurgiques, scories et cendres
- Chapitre 27:* Combustibles minéraux, huiles minérales et produits de leur distillation; matières bitumineuses; cires minérales
- Chapitre 28:* Produits chimiques inorganiques; composés inorganiques ou organiques de métaux précieux, d'éléments radioactifs, de métaux des terres rares et d'isotopes
- à l'exception de:*
- ex 28.09 : explosifs
 - ex 28.13 : explosifs
 - ex 28.14 : gaz lacrymogènes
 - ex 28.28 : explosifs
 - ex 28.32 : explosifs
 - ex 28.39 : explosifs
 - ex 28.50 : produits toxicologiques
 - ex 28.51 : produits toxicologiques
 - ex 28.54 : explosifs
- Chapitre 29:* Produits chimiques organiques
- à l'exception de:*
- ex 29.03 : explosifs
 - ex 29.04 : explosifs
 - ex 29.07 : explosifs
 - ex 29.08 : explosifs
 - ex 29.11 : explosifs
 - ex 29.12 : explosifs
 - ex 29.13 : produits toxicologiques
 - ex 29.14 : produits toxicologiques
 - ex 29.15 : produits toxicologiques
 - ex 29.21 : produits toxicologiques
 - ex 29.22 : produits toxicologiques
 - ex 29.23 : produits toxicologiques
 - ex 29.26 : explosifs
 - ex 29.27 : produits toxicologiques
 - ex 29.29 : explosifs

<i>Chapitre 30:</i>	Produits pharmaceutiques
<i>Chapitre 31:</i>	Engrais
<i>Chapitre 32:</i>	Extraits tannants ou tinctoriaux; tanins et leurs dérivés; matières colorantes, couleurs, peintures, vernis et teintures, mastics, encres
<i>Chapitre 33:</i>	Huiles essentielles et résinoïdes; produits de parfumerie ou de toilette et cosmétiques
<i>Chapitre 34:</i>	Savons, produits organiques tensio-actifs, préparations pour lessives, préparations lubrifiantes, cires artificielles, cires préparées, produits d'entretien, bougies et articles similaires, pâtes à modeler et "cires pour l'art dentaire"
<i>Chapitre 35:</i>	Matières albuminoïdes; colles, enzymes
<i>Chapitre 36:</i>	Poudres et explosifs; articles de pyrotechnie; allumettes; alliages pyrophoriques; matières inflammables <i>à l'exception de:</i> ex 36.01 : poudres ex 36.02 : explosifs préparés ex 36.04 : détonateurs ex 36.08 : explosifs
<i>Chapitre 37:</i>	Produits photographiques et cinématographiques
<i>Chapitre 38:</i>	Produits divers des industries chimiques <i>à l'exception de:</i> ex 38.19 : produits toxicologiques
<i>Chapitre 39:</i>	Matières plastiques artificielles, éthers et esters de la cellulose, résines artificielles et ouvrages en ces matières <i>à l'exception de:</i> ex 39.03 : explosifs
<i>Chapitre 40:</i>	Caoutchouc naturel ou synthétique, factice pour caoutchouc et ouvrages en caoutchouc <i>à l'exception de:</i> ex 40.11 : pneus
<i>Chapitre 43:</i>	Pelleteries et fourrures, pelleteries factices

<i>Chapitre 44:</i>	Bois, charbon de bois et ouvrages en bois
<i>Chapitre 45:</i>	Liège et ouvrages en liège
<i>Chapitre 46:</i>	Ouvrages de sparterie et de vannerie
<i>Chapitre 47:</i>	Matières servant à la fabrication du papier
<i>Chapitre 48:</i>	Papiers et cartons; ouvrages en pâte de cellulose, en papier et en carton
<i>Chapitre 49:</i>	Articles de librairie et produits des arts graphiques
<i>Chapitre 65:</i>	Coiffures et parties de coiffures
<i>Chapitre 66:</i>	Parapluies, parasols, cannes, fouets, cravaches et leurs parties
<i>Chapitre 67:</i>	Plumes et duvet apprêtés et articles en plumes ou en duvet; fleurs artificielles; ouvrages en cheveux
<i>Chapitre 68:</i>	Ouvrages en pierres, plâtre, ciment, amiante, mica et matières analogues
<i>Chapitre 69:</i>	Produits céramiques
<i>Chapitre 70:</i>	Verre et ouvrages en verre
<i>Chapitre 71:</i>	Perles fines, pierres gemmes et similaires, métaux précieux, plaqués ou doublés de métaux précieux et ouvrages en ces matières; bijouterie de fantaisie
<i>Chapitre 73:</i>	Fonte, fer et acier

<i>Chapitre 75:</i>	Nickel
<i>Chapitre 76:</i>	Aluminium
<i>Chapitre 77:</i>	Magnésium, beryllium (glucinium)
<i>Chapitre 78:</i>	Plomb
<i>Chapitre 79:</i>	Zinc
<i>Chapitre 80:</i>	Etain
<i>Chapitre 81:</i>	Autres métaux communs
<i>Chapitre 82:</i>	Outillage; articles de coutellerie et couverts de table, en métaux communs
<i>Chapitre 83:</i>	Ouvrages divers en métaux communs

- Chapitre 84:* Chaudières, machines, appareils et engins mécaniques
- Chapitre 85:* Machines et appareils électriques et objets servant à des usages électrotechniques
- à l'exception de:*
- ex 85.03 : Piles électriques
 - ex 85.13 : Télécommunications
 - ex 85.15 : Appareils de transmission
- Chapitre 86:* Véhicules et matériaux pour voies ferrées; appareils de signalisation non électriques pour voies de communication
- à l'exception de:*
- ex 86.02 : Locomotives blindées
 - ex 86.03 : autres locoblindées

 - ex 86.05 : Wagons blindés
 - ex 86.06 : Wagons ateliers
 - ex 86.07 : Wagons
- Chapitre 87:* Voitures automobiles, tracteurs, cycles et autres véhicules terrestres
- à l'exception de:*
- 87.08 : Cars et automobiles blindés
 - ex 87.02 : Camions lourds
 - ex 87.09 : Motocycles
 - ex 87.14 : Remorques
- Chapitre 88:* Navigation aérienne
- à l'exception de:*
- ex 88.02 : Avions
- Chapitre 89:* Navigation maritime et fluviale
- Chapitre 90:* Instruments et appareils d'optique, de photographie et de cinématographie, de mesure, de vérification, de précision; instruments et appareils médico-chirurgicaux
- à l'exception de:*
- ex 90.05 : Jumelles
 - ex 90.13 : Instruments divers, lasers
 - ex 90.14 : Télémètres
 - ex 90.28 : Instruments de mesure électriques ou électroniques
- Chapitre 91:* Horlogerie

- Chapitre 92:* Instruments de musique; appareils d'enregistrement ou de reproduction du son; appareils d'enregistrement ou de reproduction des images et du son en télévision; parties et accessoires de ces instruments et appareils
- Chapitre 93:* Armes et munitions
- à l'exception de:*
- ex 93.01 : Armes blanches
 - ex 93.02 : Pistolets
 - ex 93.03 : Armes de guerre
 - ex 93.04 : Armes à feu
 - ex 93.05 : Autres armes
 - ex 93.07 : Projectiles et munitions
- Chapitre 94:* Meubles; mobilier médico-chirurgical; articles de literie et similaires
- Chapitre 95:* Matières à tailler et à mouler, à l'état travaillé (y compris les ouvrages)
- Chapitre 96:* Ouvrages de broserie et pinceaux, balais, houppes et articles de tamiserie
- Chapitre 98:* Ouvrages divers

ANNEXE 2

Entités des gouvernements sous-centraux¹ qui passent des marchés conformément aux dispositions du présent accord

Fournitures	<i>Valeur de seuil:</i>	200 000 DTS
Services (spécifiés à l'Annexe 4)	<i>Valeur de seuil:</i>	200 000 DTS
Services de construction (spécifiés à l'Annexe 5)	<i>Valeur de seuil:</i>	5 000 000 DTS

Liste des entités²

1. Les autorités publiques cantonales
2. Les organismes de droit public établis au niveau cantonal n'ayant pas un caractère commercial ou industriel

Liste des cantons suisses:

Appenzell (Rhodes Intérieures/Extérieures)

Argovie

Bâle (Ville/Campagne)

Berne

Fribourg

Glaris

Genève

Grisons

Jura

Neuchâtel

Lucerne

Schaffhouse

¹ C'est-à-dire les gouvernements cantonaux selon la terminologie suisse

² Pour autant que les cantons passent des marchés de produits de défense dans le cadre d'une délégation de compétence du Département militaire fédéral: voir liste des matériels civils de la défense et de la protection civile en annexe

Schwyz

Soleure

St Gall

Tessin

Thurgovie

Vaud

Valais

Unterwald (Nidwald/Obwald)

Uri

Zoug

Zurich

Note relative à l'Annexe 2

Le présent accord ne s'applique pas aux marchés passés par des entités mentionnées dans cette annexe et portant sur des activités dans les secteurs de l'eau potable, de l'énergie, des transports ou des télécommunications.

ANNEXE 3

Toutes les autres entités qui passent des marchés conformément aux dispositions du présent accord

Fournitures	<i>Valeur de seuil:</i>	400 000 DTS
Services (spécifiés à l'Annexe 4)	<i>Valeur de seuil:</i>	400 000 DTS
Services de construction (spécifiés à l'Annexe 5)	<i>Valeur de seuil:</i>	5 000 000 DTS

Liste des entités:

Les entités adjudicatrices qui sont des pouvoirs publics¹ ou des entreprises publiques² et qui exercent au moins une des activités suivantes:

1. la mise à disposition ou l'exploitation de réseaux fixes destinés à fournir un service au public dans le domaine de la production, du transport ou de la distribution d'eau potable ou l'alimentation de ces réseaux en eau potable (spécifiés sous titre I);
2. la mise à disposition ou l'exploitation de réseaux fixes destinés à fournir un service au public dans le domaine de la production, du transport ou de la distribution d'électricité ou l'alimentation de ces réseaux en électricité (spécifiés sous titre II);
3. l'exploitation de réseaux destinés à fournir un service au public dans le domaine du transport par chemin de fer urbain, systèmes automatiques, tramway, trolleybus, autobus ou câble (spécifiés sous titre III);

¹ Pouvoir public: L'Etat, les collectivités territoriales, les organismes de droit public, les associations formées par une ou plusieurs de ces collectivités ou de ces organismes de droit public. Est considéré comme un organisme de droit public tout organisme:

- créé pour satisfaire spécifiquement des besoins d'intérêt général ayant un caractère autre qu'industriel ou commercial,
- doté d'une personnalité juridique et
- dont soit l'activité est financée majoritairement par l'Etat, les collectivités territoriales ou d'autres organismes de droit public, soit la gestion est soumise à un contrôle par ces derniers, soit l'organe d'administration, de direction ou de surveillance est composé de membres dont plus de la moitié est désignée par l'Etat, les collectivités territoriales ou d'autres organismes de droit public.

² Entreprise publique: toute entreprise sur laquelle les pouvoirs publics peuvent exercer directement ou indirectement une influence dominante du fait de la propriété, de la participation financière ou des règles qui la régissent. L'influence dominante est présumée lorsque les pouvoirs publics, directement ou indirectement, à l'égard de l'entreprise:

- détiennent la majorité du capital souscrit de l'entreprise ou
- disposent de la majorité des voix attachées aux parts émises par l'entreprise ou
- peuvent désigner plus de la moitié des membres de l'organe d'administration, de direction ou de surveillance de l'entreprise.

4. l'exploitation d'une aire géographique dans le but de mettre à la disposition des transporteurs aériens des aéroports ou d'autres terminaux de transport (spécifiés sous titre IV);
5. l'exploitation d'une aire géographique dans le but de mettre à la disposition des transporteurs fluviaux des ports intérieurs ou d'autres terminaux de transport (spécifiés sous titre V).

I. Production, transport ou distribution d'eau potable

Pouvoirs publics ou entreprises publiques de production, de transport et de distribution d'eau potable. Ces pouvoirs publics et entreprises publiques opèrent conformément à la législation cantonale ou locale, ou encore par le biais d'accords individuels respectant ladite législation.

Par exemple:

- Wasserverbund Regio Bern AG
- Hardwasser AG
- Gruppenwasserversorgung Liechtensteiner Oberland
- Gruppenwasserversorgung Liechtensteiner Unterland

II. Production, transport ou distribution d'électricité

Pouvoirs publics ou entreprises publiques de transport et de distribution d'électricité auxquels le droit d'expropriation peut être accordé conformément à la "loi fédérale du 24 juin 1902 concernant les installations électriques à faible et à fort courant".

Pouvoirs publics ou entreprises publiques de production d'électricité conformément à la "loi fédérale du 22 décembre 1916 sur l'utilisation des forces hydrauliques" et à la "loi fédérale du 23 décembre 1959 sur l'utilisation pacifique de l'énergie atomique et la protection contre les radiations".

Par exemple:

- Bernische Kraftwerke AG
- Nordostschweizerische Kraftwerke AG
- Liechtensteinische Kraftwerke

III. Transport par chemin de fer urbain, tramway, systèmes automatiques, trolleybus, autobus ou câble

Pouvoirs publics ou entreprises publiques exploitant des tramways au sens de l'article 2, 1er alinéa, de la "loi fédérale du 20 décembre 1957 sur les chemins de fer".

Pouvoirs publics ou entreprises publiques offrant des services de transport public au sens de l'article 4, 1er alinéa, de la "loi fédérale du 29 mars 1950 sur les entreprises de trolleybus".

Entreprise suisse des postes, téléphones et télégraphes (PTT) au sens de l'article 2 de la "loi fédérale du 18 juin 1993 sur le transport de voyageurs et les entreprises de transport par route".

Pouvoirs publics ou entreprises publiques qui, à titre professionnel, effectuent des courses régulières de transport de personnes selon un horaire, au sens de l'article 4 de la "loi fédérale du 18 juin 1993 sur le transport de voyageurs et les entreprises de transport par route".

Par exemple:

- Transports publics genevois
- Verkehrsbetriebe Zürich

IV. Aéroports

Pouvoirs publics ou entreprises publiques exploitant des aéroports en vertu d'une concession au sens de l'article 37 de la "loi fédérale du 21 décembre 1948 sur la navigation aérienne".

Par exemple:

- Flughafen Zürich-Kloten
- Aéroport de Genève-Cointrin
- Aérodrome civil de Sion

V. Ports intérieurs

Ports fluviaux des deux Bâle: pour le canton de Bâle-Ville, est déterminante la "loi du 13 novembre 1919 concernant l'administration des installations portuaires rhénanes de la ville de Bâle"; pour le canton de Bâle-Campagne est déterminante la "loi du 26 octobre 1936 sur la mise en place d'installations portuaires, de voies ferroviaires et de routes sur le "Sternenfeld" à Birsfelden, et dans l'"Au" à "Muttenz".

Notes relatives à l'Annexe 3

Le présent accord ne s'applique pas:

1. Aux marchés que les entités adjudicatrices passent à des fins autres que la poursuite de leurs activités décrites dans cette Annexe ou pour la poursuite de ces activités en dehors de Suisse.
2. Aux marchés passés à des fins de revente ou de location à des tiers, lorsque l'entité adjudicatrice ne bénéficie d'aucun droit spécial ou exclusif pour vendre ou louer l'objet de ces marchés et

lorsque d'autres entités peuvent librement le vendre ou le louer dans les mêmes conditions que l'entité adjudicatrice.

3. Aux marchés passés pour l'achat d'eau.
4. Aux marchés passés par une entité adjudicatrice autre que les pouvoirs publics, qui assure l'alimentation en eau potable ou en électricité des réseaux destinés à fournir un service au public, lorsque la production d'eau potable ou d'électricité par l'entité concernée a lieu parce que sa consommation est nécessaire à l'exercice d'une activité autre que celle visée dans cette Annexe sous chiffre I et II et lorsque l'alimentation du réseau public ne dépend que de la consommation propre de l'entité et n'a pas dépassé 30% de la production totale d'eau potable ou d'énergie de l'entité prenant en considération la moyenne des trois dernières années, y compris l'année en cours.
5. Aux marchés passés pour la fourniture d'énergie ou de combustibles destinés à la production d'énergie.
6. Aux marchés passés par les entités adjudicatrices assurant au public un service de transport par autobus, lorsque d'autres entités peuvent librement fournir ce service, soit d'une manière générale, soit dans une aire géographique spécifique, dans les mêmes conditions que les entités adjudicatrices.

ANNEXE 4

Services

Les services suivants qui figurent dans la Classification sectorielle des services reproduite dans le document MTN.GNS/W/120 sont inclus:

<i>Objet</i>	<i>Numéros de référence CPC (Classification centrale des produits)</i>
Services d'entretien et de réparation	6112, 6122, 633, 886
Services de transport terrestre, y compris les services de véhicules blindés et les services de courrier, à l'exclusion des transports de courrier	712 (sauf 71235) 7512, 87304
Services de transport aérien: transport de voyageurs et de marchandises, à l'exclusion des transports de courrier	73 (sauf 7321)
Transport de courrier par transport terrestre (à l'exclusion des services de transport ferroviaire) et par air	71235, 7321
Services de télécommunications	752 ¹ (sauf 7524, 7525, 7526)
Services financiers:	ex 81
a) services d'assurances	812, 814
b) services bancaires et d'investissement ²	
Services informatiques et services connexes	84
Services comptables, d'audit et de tenue de livres	862
Services d'études de marché et de sondages	864
Services de conseil en gestion et services connexes	865, 866 ³

¹ A l'exclusion des services de téléphonie vocale, de télex, de radiotéléphonie, de radiomessagerie et de télécommunication par satellite

² A l'exclusion des marchés des services financiers relatifs à l'émission, à l'achat, à la vente et au transfert de titres ou d'autres instruments financiers, ainsi que des services fournis par des banques centrales

³ A l'exclusion des services d'arbitrage et de conciliation

APPENDIX I	SWITZERLAND	ANNEX 4	French	Page 2/2
------------	-------------	---------	--------	----------

Services d'architecture; services d'ingénierie et services intégrés d'ingénierie; services d'aménagement urbain et d'architecture paysagère; services connexes de consultations scientifiques et techniques; services d'essais et d'analyses techniques	867
Services de publicité	871
Services de nettoyage de bâtiments et services de gestion de propriétés	874, 82201-82206
Services de publication et d'impression sur la base d'une redevance ou sur une base contractuelle	88442
Services de voirie et d'enlèvement des ordures: services d'assainissement et services analogues	94

Notes relatives à l'Annexe 4

Le présent accord ne s'applique pas:

1. Aux marchés de services attribués à une entité qui est elle-même un pouvoir adjudicateur au sens de l'Annexe 1, 2 ou 3 sur la base d'un droit exclusif dont elle bénéficie en vertu de dispositions législatives, réglementaires ou administratives publiées.
2. Aux marchés de services qu'une entité adjudicatrice passe auprès d'une entreprise liée ou passés par une coentreprise, constituée de plusieurs entités adjudicatrices aux fins de la poursuite des activités au sens de l'Annexe 3, auprès d'une de ces entités adjudicatrices ou d'une entreprise liée à une de ces entités adjudicatrices, pour autant que 80% au moins du chiffre d'affaires moyen que cette entreprise a réalisé au cours des trois dernières années en matière de services provienne de la fourniture de ces services aux entreprises auxquelles elle est liée. Lorsque le même service ou des services similaires sont fournis par plus d'une entreprise liée à l'entité adjudicatrice, il doit être tenu compte du chiffre d'affaires total résultant de la fourniture de services par ces entreprises.
3. Aux marchés de services qui ont pour objet l'acquisition ou la location, quelles qu'en soient les modalités financières, de terrains, de bâtiments existants ou d'autres biens immeubles ou qui concernent des droits sur ces biens.
4. Aux marchés de l'emploi.
5. Aux marchés visant l'achat, le développement, la production ou la coproduction d'éléments de programmes par des organismes de radiodiffusion et aux marchés concernant les temps de diffusion.

ANNEXE 5

*Services de Construction**Définition:*

Un contrat de services de construction est un contrat qui a pour objectif la réalisation, par quelque moyen que ce soit, de travaux de construction d'ouvrages de génie civil ou de bâtiments, au sens de la division 51 de la Classification centrale de produits (CPC).

Liste de services relevant de la division 51 de la CPC

Travaux de préparation des sites et chantiers de construction	511
Travaux de construction de bâtiments	512
Travaux de construction d'ouvrages de génie civil	513
Assemblage et construction d'ouvrages préfabriqués	514
Travaux d'entreprises de construction spécialisées	515
Travaux de pose d'installations	516
Travaux d'achèvement et de finition des bâtiments	517
Autres services	518

Valeur de seuil: 5 000 000 DTS

NOTES GENERALES ET DEROGATIONS AUX DISPOSITIONS
DE L'ARTICLE III

1. La Suisse n'étendra pas le bénéfice des dispositions du présent accord:
 - en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 2 aux fournisseurs de produits et de services du Canada;
 - en ce qui concerne les marchés passés par les entités mentionnées à l'Annexe 3 dans les secteurs suivants:
 - eau: aux fournisseurs de produits et de services du Canada, des Etats-Unis d'Amérique et du Singapour;
 - électricité: aux fournisseurs de produits et de services du Canada, du Japon et du Singapour;
 - aéroports: aux fournisseurs de produits et de services du Canada, de la Corée et des Etats-Unis d'Amérique;
 - ports: aux fournisseurs de produits et de services du Canada;
 - transports urbains: aux fournisseurs de produits et de services du Canada, d'Israël, du Japon, de la Corée et des Etats-Unis d'Amérique;

tant qu'elle n'aura pas constaté que les Parties concernées assurent aux entreprises suisses un accès comparable et effectif aux marchés considérés;

 - aux fournisseurs de services des Parties qui n'incluent pas, dans leurs propres listes, les marchés de services passés par les entités mentionnées aux Annexes 1 à 3 et concernant les catégories de services visées aux Annexes 4 et 5.
2. Les dispositions de l'Article XX ne sont pas applicables aux fournisseurs de produits et de services des pays suivants:
 - Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication de marchés par les organismes mentionnés à l'Annexe 2, chiffre 2, tant que la Suisse n'a pas constaté que ces pays ont complété la liste des entités des gouvernements sous-centraux;
 - Japon, Corée et Etats-Unis d'Amérique en ce qui concerne les recours intentés contre l'adjudication de marchés à un fournisseur de produits ou de services d'autres Parties au présent accord, lorsque ledit fournisseur est une entreprise petite ou moyenne au sens du droit suisse, tant que la Suisse n'aura pas constaté que ces pays n'appliquent plus de mesures discriminatoires pour favoriser certaines petites entreprises nationales ou certaines entreprises nationales détenues par les minorités;

- Israël, Japon et Corée en ce qui concerne les recours intentés contre l'adjudication par des entités suisses de marchés dont la valeur est inférieure au seuil appliqué à la même catégorie de marchés par lesdites Parties.
3. Tant que la Suisse n'aura pas constaté que les Parties concernées assurent l'accès de leurs marchés aux fournisseurs suisses de produits et de services suisses, elle n'étendra pas le bénéfice des dispositions du présent accord aux fournisseurs de produits et de services des pays suivants:
- Canada, en ce qui concerne les marchés portant sur les produits relevant des n° 36, 70 et 74 de la FSC (machines industrielles spéciales; matériel d'informatique général, logiciel, fournitures et matériel auxiliaire (sauf 7010: Configurations d'équipement de traitement automatique des données); machines de bureau, matériel de bureautique et d'informatique de bureau;
 - Canada, en ce qui concerne les marchés portant sur les produits relevant du n° 58 de la FSC (matériel de communications, matériel de détection des radiations et d'émission de rayonnement cohérent) et Etats-Unis d'Amérique en ce qui concerne les équipements de contrôle du trafic aérien;
 - Corée et Israël en ce qui concerne les marchés passés par les entités énumérées à l'Annexe 3, chiffre 2 pour les produits relevant des n° 8504, 8535, 8537 et 8544 du SH (transformateurs électriques, prises de courant, interrupteurs et câbles isolés); Israël, en ce qui concerne les produits relevant des n° 8501, 8536 et 902830 du SH;
 - Canada et Etats-Unis d'Amérique en ce qui concerne les marchés de fournitures et de services entrant dans le cadre de marchés qui, tout en étant passés par une entité relevant du champ d'application du présent accord, ne sont pas eux-mêmes soumis à ce dernier.
4. Le présent accord n'est pas applicable aux marchés passés en vertu:
- d'un accord international et portant sur la réalisation ou l'exploitation en commun d'un ouvrage par les Etats signataires;
 - de la procédure spécifique d'une organisation internationale.
5. Le présent accord n'est pas applicable aux marchés de produits agricoles passés en application de programmes de soutien à l'agriculture ou de programmes d'aide alimentaire.
6. Les engagements pris par la Suisse dans le domaine des services au titre du présent accord sont limités aux engagements initiaux spécifiés dans l'offre finale suisse présentée dans le cadre de l'Accord général sur le commerce des services.

UNITED STATES

(Authentic in the English language only)

ANNEX 1

*Central Government Entities which Procure in Accordance
With the Provisions of this Agreement*

Threshold: 130,000 SDRs for supplies and services
5 million SDRs for construction

List of Entities:

1. Department of Agriculture (not including procurement of agricultural products made in furtherance of agricultural support programmes or human feeding programmes)
2. Department of Commerce (not including shipbuilding activities of NOAA, as excluded in Annex 4)
3. Department of Education
4. Department of Health and Human Services
5. Department of Housing and Urban Development
6. Department of the Interior (including the Bureau of Reclamation)
7. Department of Justice
8. Department of Labor
9. Department of State
10. United States Agency for International Development (not including procurement for the direct purpose of providing foreign assistance)
11. Department of the Treasury
12. Department of Transportation (not including procurement by the Federal Aviation Administration, and pursuant to Article XXIII, the national security considerations applicable to the Department of Defense are equally applicable to the Coast Guard, a military unit of the United States)
13. Department of Energy (pursuant to Article XXIII, national security exceptions include procurements made in support of safeguarding nuclear materials or technology and entered into under the authority of the Atomic Energy Act, and oil purchases related to the Strategic Petroleum Reserve)

Insurance Department
Department of Aging
Department of Correction
Department of Labor and Industry
Department of Military Affairs
Office of Attorney General
Department of General Services
Department of Education
Public Utility Commission
Department of Revenue
Department of State
Pennsylvania State Police
Department of Public Welfare
Fish Commission
Game Commission
Department of Commerce
Board of Probation and Parole
Liquor Control Board
Milk Marketing Board
Lieutenant Governor's Office
Department of Community Affairs
Pennsylvania Historical and Museum Commission
Pennsylvania Emergency Management Agency
State Civil Service Commission

Pennsylvania Public Television Network
 Department of Environmental Resources
 State Tax Equalization Board
 Department of Public Welfare
 State Employees' Retirement System
 Pennsylvania Municipal Retirement Board
 Public School Employees' Retirement System
 Pennsylvania Crime Commission
 Executive Offices

Rhode Island

Executive branch agencies, excluding boats, automobiles, buses and related equipment

South Dakota

Central Procuring Agency (including universities and penal institutions)

In addition to the exceptions noted at the end of this annex, procurements of beef are not covered.

Tennessee

Executive branch agencies (excluding services and construction)

Texas

General Services Commission

Utah

Executive branch agencies

Vermont

Executive branch agencies

Washington

Washington State executive branch agencies, including:

General Administration
 Department of Transportation
 State Universities

In addition to the exceptions noted at the end of this annex, procurements of fuel, paper products, boats, ships and vessels are not covered.

Wisconsin

Department of Natural Resources
Administration for Public Instruction
Racing Board
Department of Revenue
State Fair Park Board
Department of Transportation
State University System

Wyoming*

Procurement Services Division
Wyoming Department of Transportation
University of Wyoming

Notes to Annex 2

In addition to the conditions specified in the General Notes, the following conditions apply:

1. For those states marked by an asterisk with pre-existing restrictions, the Agreement does not apply to procurement of construction-grade steel (including requirements on subcontracts), motor vehicles and coal.
2. The Agreement shall not apply to preferences or restrictions associated with programs promoting the development of distressed areas and businesses owned by minorities, disabled veterans and women.
3. Nothing in this annex shall be construed to prevent any state entity from applying restrictions that promote the general environmental quality in that state, as long as such restrictions are not disguised barriers to international trade.
4. The Agreement shall not apply to any procurement made by a covered entity on behalf of non-covered entities at a different level of government.
5. The Agreement shall not apply to restrictions attached to Federal funds for mass transit and highway projects.

ANNEX 3

*All Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Threshold: 400,000 SDRs for supplies and services (except as specified below)
5 million SDRs for construction

List of Entities:

The following entities at the SDR equivalent of \$250,000 for supplies and services:

Tennessee Valley Authority

Power Marketing Administrations of the Department of Energy

- Bonneville Power Administration
- Western Area Power Administration
- Southeastern Power Administration
- Southwestern Power Administration
- Alaska Power Administration
- St. Lawrence Seaway Development Corporation

The following entities are 400,000 SDRs for supplies and services:

The Port Authority of New York and New Jersey with the following exceptions:

- Maintenance, repair and operating materials and supplies (e.g., hardware, tools, lamps/lighting, plumbing);
- In exceptional cases, individual procurements may require certain regional production of goods if authorized by the Board of Directors;
- Procurements pursuant to multi-jurisdictional agreement (i.e., for contracts which have initially been awarded by other jurisdictions).

The Port of Baltimore (subject to the conditions specified for the state of New York in Annex 2)

The New York Power Authority (subject to the conditions specified for the state of New York in Annex 2)

Rural Electrification Administration Financing:

- (1) waiver of Buy American restriction on financing for all power generation projects (restrictions on financing for telecommunication projects are excluded from the Agreement);
- (2) application of Code-equivalent procurement procedures and national treatment to funded projects exceeding the thresholds specified above.

Notes to Annex 3

1. With respect to these entities, the Agreement shall not apply to restrictions attached to Federal funds for airport projects.
2. The conditions specified in the General Notes apply to this Annex.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are excluded:

1. All transportation services, including Launching Services (CPC Categories 71, 72, 73, 74, 8859, 8868).

Note: Transportation services, where incidental to a contract for the procurement of supplies, are not subject to this Agreement.

2. Dredging.
3. All services purchased in support of military forces located overseas.
4. Management and operation contracts of certain government or privately-owned facilities used for government purposes, including federally-funded research and development centers (FFRDCs).
5. Public utilities services, including telecommunications and ADP-related telecommunications services except enhanced (i.e., value-added) telecommunications services.
6. Research and Development.
7. Printing Services (for Annex 2 entities only).

Note to Annex 4

The conditions specified in the General Notes also apply to this Annex.

ANNEX 5

*Construction Services**Definition:*

A construction services contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification.

List of Division 51, CPC:

All services listed in Division 51.

Note to Annex 5

The conditions specified in the General Notes apply to this Annex.

GENERAL NOTES

1. Notwithstanding the above, this Agreement will not apply to set asides on behalf of small and minority businesses.
2. Except as specified otherwise in this Appendix, procurement in terms of U.S. coverage does not include non-contractual agreements or any form of government assistance, including cooperative agreements, grants, loans, equity infusions, guarantees, fiscal incentives, and governmental provision of goods and services to persons or governmental authorities not specifically covered under U.S. annexes to this agreement.
3. Procurement does not include the acquisition of fiscal agency or depository services, liquidation and management services for regulated financial institutions, and sale and distribution services for government debt.
4. Where a contract to be awarded by an entity is not covered by this Agreement, this Agreement shall not be construed to cover any good or service component of that contract.
5. For goods and services (including construction) of the following countries and suppliers of such goods and services, this Agreement does not apply to procurement by the entities listed in Annexes 2 and 3 or the waiver described in Annex 3:

Canada

The United States is prepared to amend this note at such time as coverage with respect to these annexes can be resolved with a Party listed above.

6. For construction services of the Republic of Korea and suppliers of such services, this Agreement applies only to procurement of the entities listed in Annexes 2 and 3 above a threshold of 15 million SDRs.
7. For goods and services (including construction) of Japan and suppliers of such goods and services, this Agreement does not apply to procurement by the National Aeronautics and Space Administration.
8. A service listed in Annex 4 is covered with respect to a particular Party only to the extent that such Party has included that service in its Annex 4.
9. The United States will not extend the benefits of this Agreement to Japan as regards the award of contracts by entities listed in Annex 3 that are responsible for the generation or distribution of electricity.

REVIEW OF THE AGREEMENT ON GOVERNMENT PROCUREMENT

Revision of Article IX

Submission by the United States

Introduction

1. As we have noted in previous informal consultations, the United States believes that Article IX of the GPA is excessively complicated and difficult to understand. We believe that revision of this Article would contribute significantly to the Committee's work to simplify and improve the Agreement.

2. In our view, problems with Article IX as currently drafted include the following:

- The Article uses many closely related but undefined terms to describe various types of procurement notifications. In particular, it does not define the terms "intended procurement", "proposed procurement", and "planned procurement".
- The lists of information to be included in some of these types of procurement notifications are redundant and, in some cases, unnecessarily burdensome.
- There are an excessive number of confusing cross-references to other paragraphs and Articles.

Discussion

3. Attachment A provides suggestions for simplifying Article IX, for the Committee's consideration in the GPA review process. To facilitate comparison, a reprint of the current text of Article IX is also attached.

4. It is important to note that the changes suggested in Attachment A will likely have an effect on other Articles in the Agreement which the Committee will need to consider. For example, modifications to Article IX may have an impact on Article XI:3(a), which provides for the reduction in the deadlines for the receipt of tenders if a separate advance notice has been published. Article XI:3(a) refers to information contained in paragraph 8 of Article IX, which has been deleted from the proposed modifications.

5. The suggested modifications are to streamline the Article in the following ways:

- By streamlining the requirements that must be included in a notice of intended procurement, thus eliminating the need for different notice requirements among Annex 1, and Annexes 2-3 entities, except with respect to the notice requirements

relating to the use of permanent lists of qualified suppliers in selective tendering procedures.

- By eliminating the terms "notice of proposed procurement" and "notice of planned procurement" from the Agreement, instead referring to all procurement opportunity notices as "notices of intended procurement".
- By moving the paragraph relating to annual publication requirements for permanent lists of qualified suppliers from Article IX:9 to Article VIII, where it is better suited.

6. The United States welcomes the views and comments of other delegations, and hopes that this paper will contribute to the Committee's discussion of the improvement and simplification of the Agreement.

Attachment A

PROPOSED MODIFICATIONS TO THE WTO GPA

Article IX

Invitation to Participate Regarding Intended Procurement

1. Except as provided for in Article XV (provisions for the use of limited tendering procedures) and paragraph 3 of this Article (provisions for the use of selective tendering procedures by Annexes 2 and 3 entities), entities shall publish a notice of intended procurement for each contract to be awarded. The notice shall be published in the appropriate publication listed in Appendix II.
2. Each notice of intended procurement shall contain the following information:
 - (a) a description of the intended procurement, including the nature and quantity of the goods or services to be procured;
 - (b) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the contract;
 - (c) the procurement method that will used;
 - (d) the time-limits set for the submission of tenders and, if applicable, the time-limits for the submission of applications to qualify for participation in the intended procurement or for inclusion on a permanent list of qualified suppliers from which the tenders will be accepted;
 - (e) the amount and terms of payment of any sum payable for the tender documentation;
 - (f) an indication that the procurement is covered by the Agreement; and
 - (g) s summary of the notice in one of the official languages of the WTO, containing at least the following information:
 - (i) the subject-matter of the contract;
 - (ii) the time-limits set for the submission of tenders or an application to be invited to tender; and
 - (iii) the addresses from which documents relating to the contracts may be requested.
3. Except as provided for in Article XV, Annexes 2 and 3 entities that maintain permanent lists of qualified suppliers for selective tendering procedures will be considered to have met the notice requirements of paragraphs 1 and 2 of this Article, if they:
 - (a) publish annually in one of the publications listed in Appendix III a notice which contains the following information:

- (i) an enumeration of all permanent lists of qualified suppliers from which such procurements are made, including a description in as much detail as is available, of the good or service to be procured;
 - (ii) the conditions to be fulfilled by suppliers in order to be included on those lists;
 - (iii) the period of validity of those lists; and
 - (iv) a statement that the notice constitutes a notice of intended procurement; and
- (b) provide additional information in a timely manner which allows all those who have expressed an interest to have a meaningful opportunity to assess their interest in participating in the procurement. This information shall include the information contained in the notices referred to in paragraph 2, to the extent available.

4. If it becomes necessary to amend or re-issue the notice during the procurement process, the amendment or the re-issued notice shall be given the same circulation as the original notice upon which the amendment is based. Any significant information given to one supplier with respect to a particular intended procurement shall be given simultaneously to all other suppliers that have expressed interest in that procurement in adequate time to permit those suppliers to consider such information and to respond to it.

Add the following to the list of requirements for qualification procedures under Article VIII:

Entities maintaining permanent lists of qualified suppliers with a duration of more than three years shall publish annually in one of the publications listed in Appendix III a notice containing the information referred to in sections (i) through (iii) of Article IX:3.

Attachment B

AGREEMENT ON GOVERNMENT PROCUREMENT (1994)
(CURRENT TEXT)

Article IX

Invitation to Participate Regarding Intended Procurement

1. In accordance with paragraphs 2 and 3, entities shall publish an invitation to participate for all cases of intended procurement, except as otherwise provided for in Article XV (limited tendering). The notice shall be published in the appropriate publication listed in Appendix II.
2. The invitation to participate may take the form of a notice of proposed procurement, as provided for in paragraph 6.
3. Entities in Annexes 2 and 3 may use a notice of planned procurement, as provided for in paragraph 7, or a notice regarding a qualification system, as provided for in paragraph 9, as an invitation to participate.
4. Entities which use a notice of planned procurement as an invitation to participate shall subsequently invite all suppliers who have expressed an interest to confirm their interest on the basis of information which shall include at least the information referred to in paragraph 6.
5. Entities which use a notice regarding a qualification system as an invitation to participate shall provide, subject to the considerations referred to in paragraph 4 of Article XVIII and in a timely manner, information which allows all those who have expressed an interest to have a meaningful opportunity to assess their interest in participating in the procurement. This information shall include the information contained in the notices referred to in paragraphs 6 and 8, to the extent such information is available. Information provided to one interested supplier shall be provided in a non-discriminatory manner to the other interested suppliers.
6. Each notice of proposed procurement, referred to in paragraph 2, shall contain the following information:
 - (a) the nature and quantity, including any options for further procurement and, if possible, an estimate of the timing when such options may be exercised; in the case of recurring contracts the nature and quantity and, if possible, an estimate of the timing of the subsequent tender notices for the products or services to be procured;
 - (b) whether the procedure is open or selective or will involve negotiation;
 - (c) any date for starting delivery or completion of delivery of goods or services;
 - (d) the address and final date for submitting an application to be invited to tender or for qualifying for the suppliers' lists, or for receiving tenders, as well as the language or languages in which they must be submitted;
 - (e) the address of the entity awarding the contract and providing any information necessary for obtaining specifications and other documents;

- (f) any economic and technical requirements, financial guarantees and information required from suppliers;
- (g) the amount and terms of payment of any sum payable for the tender documentation; and
- (h) whether the entity is inviting offers for purchase, lease, rental or hire purchase, or more than one of these methods.

7. Each notice of planned procurement referred to in paragraph 3 shall contain as much of the information referred to in paragraph 6 as is available. It shall in any case include the information referred to in paragraph 8 and:

- (a) a statement that interested suppliers should express their interest in the procurement to the entity;
- (b) a contact point with the entity from which further information may be obtained.

8. For each case of intended procurement, the entity shall publish a summary notice in one of the official languages of the WTO. The notice shall contain at least the following information:

- (a) the subject-matter of the contract;
- (b) the time-limits set for the submission of tenders or an application to be invited to tender; and
- (c) the addresses from which documents relating to the contracts may be requested.

9. In the case of selective tendering procedures, entities maintaining permanent lists of qualified suppliers shall publish annually in one of the publications listed in Appendix III a notice of the following:

- (a) the enumeration of the lists maintained, including their headings, in relation to the products or services or categories of products or services to be procured through the lists;
- (b) the conditions to be fulfilled by suppliers with a view to their inscription on those lists and the methods according to which each of those conditions will be verified by the entity concerned; and
- (c) the period of validity of the lists, and the formalities for their renewal.

When such a notice is used as an invitation to participate in accordance with paragraph 3, the notice shall, in addition, include the following information:

- (d) the nature of the products or services concerned;
- (e) a statement that the notice constitutes an invitation to participate.

However, when the duration of the qualification system is three years or less, and if the duration of the system is made clear in the notice and it is also made clear that further notices will not be

published, it shall be sufficient to publish the notice once only, at the beginning of the system. Such a system shall not be used in a manner which circumvents the provisions of this Agreement.

10. If, after publication of an invitation to participate in any case of intended procurement, but before the time set for opening or receipt of tenders as specified in the notices or the tender documentation, it becomes necessary to amend or re-issue the notice, the amendment or the re-issued notice shall be given the same circulation as the original documents upon which the amendment is based. Any significant information given to one supplier with respect to a particular intended procurement shall be given simultaneously to all other suppliers concerned in adequate time to permit the suppliers to consider such information and to respond to it.

11. Entities shall make clear, in the notices referred to in this Article or in the publication in which the notices appear, that the procurement is covered by the Agreement.

REVIEW OF THE AGREEMENT ON GOVERNMENT PROCUREMENT

Statistical Reporting Requirements under Article XIX:5

Submission by the United States

Introduction

1. Discussions in the Committee on potential revision to the statistical reporting requirements under Article XIX:5 are well advanced. There appears to be general agreement among GPA Members that the current statistical reporting requirements are overly burdensome and in need of revision. The work of the Chair and the Secretariat in collecting Members' views and presenting them in the form of draft revisions of the text of Article XIX:5 has helped advance the Committee's work in this area.

2. The purpose of this informal submission is to contribute to the Committee's discussion of revising the statistical reporting requirements of Article XIX:5 by seeking to better clarify how the revised statistical reporting requirements would be actually implemented. This submission presents "sample tables" of how we perceive the modifications to the statistical reporting requirements proposed to date might look in terms of a statistical report. Discussion of these samples may be of assistance in considering whether any further modifications of the draft text may be appropriate.

3. This submission also suggests another potential modification to the Chairman's revised text (discussed below), for consideration by the Committee.

Potential modification to the Chairman's revised text of Article XIX:5

Reporting the value of above-threshold contracts awarded to foreign suppliers

4. The GPA currently requires Parties to report on the country of origin of products and services purchased by its entities "[t]o the extent that such information is available". Due to the difficulty in accurately obtaining country of origin information, the United States supports proposals by other Members to eliminate this requirement. However, in order to assess the market access benefits of the GPA, it may be useful to Members to have information on the value of contracts that each Party awards to domestic suppliers and to the suppliers of other Parties, at least on an aggregate basis. While it would still be possible without such information to determine the level of opportunities offered by GPA membership, it would be more difficult to assess the level of market access Parties actually achieve.

5. To address this issue, the Parties might consider adding the following statement to the revised text of Article XIX:5(a), provided in the Chair's Note of 13 April 1999 (Job 2108):

"To the extent that such information is available, the above statistics should be broken down by the estimated value of contracts awarded to suppliers of GPA participants."

If such information were provided, together with the value of all contracts awarded, the Parties would have a tool for assessing the extent to which GPA participants' suppliers participate in a reporting Party's procurement markets.

6. If this suggestion were included in the Chairman's revised text, the new Article XIX:5 would read (with the modification indicated in italicized text):

"5. Each Party shall collect and provide to the Committee statistics on its procurements covered by this Agreement. Their reports shall contain the following information with respect to contracts awarded, above the applicable threshold values, by all procurement entities covered under the Agreement:

(a) statistics on the estimated value of contracts awarded:

- (i) for entities in Annexes 1, 2 and 3, on a global basis; and
- (ii) for entities in Annex 1, broken down by entity;

To the extent that such information is available, the above statistics should be broken down by the estimated value of contracts awarded to suppliers of GPA participants.

(b) (i) for entities in Annex 1, statistics on the number and total value of contracts awarded, broken down by entities and by categories of products and services according to uniform classification systems;

(ii) for entities in Annexes 2 and 3, statistics on the estimated value of contracts awarded broken down by categories of entities and by categories of products and services;

(c) statistics on the use of Article XV:

- (i) for entities in Annex 1, on the number and total value of contracts awarded, broken down by entity and categories of products and services;
- (ii) for categories of entities in Annexes 2 and 3, the total value of contracts awarded."

Model statistical tables

7. Attached are model statistical tables which reflect our understanding of the current proposed modifications to Article XIX:5, and include the additional suggested modifications outlined above. We welcome the views of other delegations to help reach a common understanding of the implications of the proposed modifications to the GPA's statistical reporting requirements.

REQUEST FOR OBSERVER STATUS

Communication from the Republic of Croatia

The following communication, dated 14 June 1999, has been received from the Permanent Mission of the Republic of Croatia with the request that it be circulated to the Parties to the Agreement on Government Procurement.

The Government of the Republic of Croatia hereby expresses the intention of Croatia to become an observer in the Committee on Government Procurement.

I would be grateful if this application for observership could be dealt with during the next meeting of the Committee on Government Procurement.

MODIFICATIONS TO APPENDIX I OF SINGAPORE

Notification from Singapore under Article XXIV:6(a)

The following notification from the Permanent Mission of the Republic of Singapore was received on 15 February 1999, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement (1994), the Government of Singapore wishes to notify the Committee on Government Procurement of the following rectifications of a purely minor nature to the Lists in Annexes 1 and 3 of Appendix I for Singapore of the Agreement on Government Procurement (1994).

List in Annex 1

Delete "Includes Public Works Department" under footnote 1 of Annex 1

List in Annex 3

Delete "Construction Industry Development Board" under Annex 3

Replace with "Building and Construction Authority" under Annex 3

The rectifications are minor in nature and do not alter the coverage of the GPA with respect to Singapore.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED
IN NATIONAL CURRENCIES FOR 1997/1998**

REPUBLIC OF KOREA

Revision

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective thresholds expressed in national currencies and fixed for two years.

The information notified in response by the Republic of Korea is reproduced below.

1. Calculation of threshold figures in national currency

Annex 1 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies and services	130,000	151,000,000
2. Construction services	5,000,000	5,830,000,000

Annex 2 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies and services	200,000	233,000,000
2. Construction services	15,000,000	17,490,000,000

Annex 3 Entities	Threshold value (SDR)	Threshold value in national currency (won)
1. Supplies	450,000	524,000,000
2. Construction services	15,000,000	17,490,000,000

2. Method of calculation

It is the average of monthly rate of the national currency in terms of the SDR over the two-year period from November 1994 to October 1996. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" was used for this calculation. The example of this calculation is attached.

3. Example of calculation

Period	Exchange rate (Unit: won/SDR)	Period	Exchange rate (Unit: won/SDR)
November 1994	1,157.1	November 1995	1,143.1
December 1994	1,151.4	December 1995	1,151.6
January 1995	1,161.7	January 1996	1,138.6
February 1995	1,174.6	February 1996	1,146.6
March 1995	1,203.9	March 1996	1,143.7
April 1995	1,198.3	April 1996	1,129.2
May 1995	1,197.8	May 1996	1,136.3
June 1995	1,189.3	June 1996	1,170.0
July 1995	1,179.8	July 1996	1,191.9
August 1995	1,150.9	August 1996	1,194.4
September 1995	1,157.5	September 1996	1,182.0
October 1995	1,144.1	October 1996	1,200.4

- The exchange rates are quoted from the IFS. It is the rate at the end of each month.
 - Example of calculation:
 - The average exchange rate of won in terms of SDR

$$27,994.2 \text{ won}/24 \text{ months} = 1,166.425 \text{ won}$$

$$130,000 \text{ (SDR)} * 1,166.425 \text{ won} = 151,635,250 \text{ won}$$
 - The final conversion rate: 151,000,000 won
- (*The figures under million won are deleted for simplicity of implementation.)

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1999/2000

KOREA

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1999-2000.

The information notified by Korea is reproduced below. Other submissions will be compiled in addenda to this document.

THRESHOLD FIGURE IN NATIONAL CURRENCY (WON)

1. Result of classification

Classification		Threshold Value (SDR)	Threshold Value in National Currency (WON)
Entities in Annex 1	Supplies and services	130,000	200,000,000
	Construction services	5,000,000	7,800,000,000
Entities in Annex 2	Supplies and services	200,000	310,000,000
	Construction services	15,000,000	23,400,000,000
Entities in Annex 3	Supplies	450,000	700,000,000
	Construction services	15,000,000	23,400,000,000

2. Method of calculation

It is the average of the monthly rate of the national currency in terms of the SDR over the two-year period from November 1996 to October 1998. The conversion rates published by the IMF in its monthly "International Fiscal Statistics" were used for this calculation. An example of this calculation is to be found below.

3. Example of calculation

Time	Exchange rate (Unit: WON/SDR)	Time	Exchange rate (Unit: WON/SDR)
November 1996	1,197.16	November 1997	1,584.91
December 1996	1,213.93	December 1997	2,286.98
January 1997	1,201.22	January 1998	2,051.67
February 1997	1,196.45	February 1998	2,204.93
March 1997	1,244.18	March 1998	1,847.54
April 1997	1,218.19	April 1998	1,799.14
May 1997	1,241.20	May 1998	1,878.85
June 1997	1,232.81	June 1998	1,828.20
July 1997	1,211.89	July 1998	1,635.27
August 1997	1,229.95	August 1998	1,812.00
September 1997	1,248.89	September 1998	1,883.65
October 1997	1,335.33	October 1998	1,857.61

- The exchange rates are quoted from the IFS. It is the rate at the end of each month.
 - Example of calculation:
 - The average exchange rate of won in terms of SDR
$$37,441.95 \text{ won}/24 \text{ months} = 1,560.08 \text{ won}$$
$$130,000 \text{ (SDR)} * 1,560.08 \text{ won} = 202,810,400 \text{ won}$$
 - The final conversion rate: 200,000,000 won
- (*The figures under one million won are deleted for simplicity of implementation.)

**THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED

REQUEST FOR OBSERVER STATUS

Communication from Mongolia

The following communication, dated 26 November 1998, has been received from the Permanent Mission of Mongolia with the request that it be circulated to the Parties to the Agreement on Government Procurement.

The Permanent Mission of Mongolia to the United Nations' Office at Geneva and other International Organizations presents its compliments to the Committee on Government Procurement of the World Trade Organization and has the honour to inform the latter that the Government of Mongolia wishes to seek observer status in the Committee.

With a view to initiating negotiations for membership thereafter Mongolia needs technical assistance in drafting a national legislation on government procurement, training of Mongolian nationals, particularly a negotiating team, and in preparation of market access commitments.

The Permanent Mission would highly appreciate the cooperation of the Committee on the matter.

The Permanent Mission of Mongolia avails itself of this opportunity to renew to the Committee on Government Procurement of the WTO the assurances of its highest consideration.

MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)

The following notification from the Permanent Mission of Japan was received on 27 October 1998, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 3 of Appendix I of the Agreement on Government Procurement:

- Delete "- JNR Settlement Corporation (d)" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".
- Add a "(d)" to "Japan Railway Construction Public Corporation (a)" of "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

This rectification is based on the fact that, as of 22 October 1998, "JNR Settlement Corporation" was merged with "Japan Railway Construction Public Corporation", which is already listed in Annex 3 of Appendix I of this Agreement. Therefore, this rectification does not alter the level of mutually agreed coverage provided in this Agreement.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

MODIFICATIONS TO APPENDICES I-IV OF THE EUROPEAN COMMUNITY

Addendum

The following communication, dated 7 October 1998, has been received from the Permanent Delegation of the European Community with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Concerning the updating of Appendices I to IV of the Government Procurement Agreement for the European Communities, as presented in document GPA/W/51, the EC is pleased to present herewith an explanatory note to this document.

Comité des marchés publics

**MODIFICATIONS DES APPENDICES I A IV CONCERNANT
LA COMMUNAUTE EUROPEENNE**

Addendum

La Délégation permanente de la Commission européenne a fait parvenir au Secrétariat la communication suivante, datée du 7 octobre 1998, en lui demandant de la distribuer aux Parties à l'Accord sur les marchés publics.

La Communauté européenne a l'honneur de vous communiquer ci-joint une note explicative relative à la mise à jour des Appendices I à IV de l'Accord sur les marchés publics concernant les Communautés européennes, présentée dans le document GPA/W/51.

Comité de Contratación Pública

**ENMIENDAS A LOS APÉNDICES I A IV DE
LA COMUNIDAD EUROPEA**

Addendum

Se ha recibido de la Delegación Permanente de la Comunidad Europea la siguiente comunicación, de fecha 7 de octubre de 1998, con la petición de que se distribuya a las Partes en el Acuerdo sobre Contratación Pública.

En relación con la actualización de los Apéndices I a IV de las Comunidades Europeas al Acuerdo sobre Contratación Pública, como figura en el documento GPA/W/51, complace a la CE presentar adjunta una nota explicativa a este documento.

APPENDIX I

ANNEX 1

2. Contracting Authorities of the State

- Denmark (p. 10)

The "Ministry of Transport" should be included in the list.

The "Ministry of Housing" should be replaced by "Ministry of Housing and Urban Affairs".

- Sweden (p. 51)

"National Fund for Administrative Development and Training for Government Employees" (p. 44) should be replaced by: "National Fund for Administrative Development" ("Statens Förnyelsefond").

"Central Services Office for the Ministries" (p. 45) should be replaced by "Governmental Central Services Office" ("Regeringskansliets förvaltningsavdelning").

3. List of Supplies and equipment purchased by Ministries of Defence (...) that are covered by the Agreement (p. 55)

- The words "Not for Sweden" should be inserted after the products (p. 55):

- ex 38.19
- ex 39.03
- ex 40.11

- L'expression "sauf pour la Suède" doit figurer après la mention des produits suivants (p. 61):

- ex 38.19
- ex 39.03
- ex 40.11

- La expresión "salvo Suecia" debe figurar después de la mención de los productos siguientes (p. 67):

- ex 38.19
- ex 39.03
- ex 40.11

APPENDIX I

ANNEX 2

In addition to the entities listed in Annex I of Directive 93/37/EEC (pages 92-101 of document GPA/W/51), the following entities shall be regarded as bodies governed by public law within the sense of such Directive:

Austria: "Austrian State Printing Office"

Denmark: "Copenhagen Hospital Corporation" ("Hovedstandens Sygehusfaellesskab")

Ireland: "Forbas"; "Forbairt"

Luxembourg: "L'entreprise des Postes et Télécommunications (Postal business only)"

Portugal:

"INGA (National Agricultural Intervention and Guarantee Institute/Instituto Nacional de Intervenção e Garantia Agrícola)"

"Institute for the Consumer / Instituto do Consumidor"

"Institute for Meteorology / Instituto de Meteorologia"

"Institute for Natural Conservation / Instituto da Conservação da Natureza"

"Water Institute / Instituto da Agua"

"ICEP / Instituto de Comércio Externo de Portugal"

"Portuguese Blood Institute / Instituto do Sangue"

United Kingdom: "Ordnance Survey"

MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)

The following notification from the Permanent Mission of Japan was received on 6 October 1998, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 3 of Appendix I of the Agreement on Government Procurement:

- Delete "- Power Reactor and Nuclear Fuel Development Corporation (b)" from "List of Entities" and "List of Entities which procure the services, specified in Annex 4".
- Add "- Japan Nuclear Cycle Development Institute (b)" to "List of Entities" and "List of Entities which procure the services, specified in Annex 4".

This rectification is based on the fact that, as of 1 October 1998, "Power Reactor and Nuclear Fuel Development Corporation" was reorganized as "Japan Nuclear Cycle Development Institute". This rectification does not alter the level of mutually agreed coverage provided in this Agreement.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

QUESTIONNAIRE ON INFORMATION TECHNOLOGY IN GOVERNMENT PROCUREMENT

Response by Singapore

Addendum

The attached communication contains the replies from Singapore to the questionnaire on Information Technology in Government Procurement contained in document GPA/W/24, dated 22 August 1996.

QUESTIONNAIRE ON INFORMATION TECHNOLOGY

1. *Could delegations give a brief description of any steps taken or planned to introduce information technology into public procurement? If so, does this cover contracts which are covered under the 1994 Agreement? At all levels of government? In the event that delegations are not considering introducing information technology into public procurement, could they explain the reasons?*

The Government Internet Tendering Information System (GITIS) was introduced in May 1997 to enable all government agencies to post tender information on the Internet. The system provides information on procurement tender opportunities and notices of tenders received and tenders awarded. GITIS covers both GPA and non-GPA contracts. GITIS can be accessed at <http://wwwdb1.gov.sg/gitis/index.html>.

In April 1998, the Mindef Internet Procurement System (MIPS) was launched. MIPS is an Internet e-commerce system that supports secured electronic transactions between the Singapore Ministry of Defence and suppliers. The system allows suppliers to submit bids electronically using smart-card technology. Suppliers who are not smart-card enabled can view the procurement opportunities available and submit bids through traditional means. MIPS can be accessed at <http://mips.mindef.gov.sg>.

There are hot-links between GITIS and MIPS. Hence any interested suppliers would only need to access a single web site to access all procurement opportunities, both GPA and non-GPA, with any government agency in Singapore.

2. *What function(s) would information technology serve in such systems and who will be the users?*

Information technology is a very powerful tool to make procurement information available to anyone anywhere anytime. The users are the Government Procurement Entities, suppliers and the public at large.

3. *Could delegations describe the technical aspects of the systems in use or planned? In particular as regards infrastructure/hardware-software and its options/standards?*

GITIS is built on a Windows NT hardware environment using Oracle 7.3 as the database management system. The development tool is Oracle PL/SQL and Active Server Pages (ASP).

MIPS is built on a Unix hardware environment using Oracle as the database management system. The development tool is Java.

4. *Could delegations describe any limitations affecting access to information available and use of systems? How wide is potential access to interested suppliers? What are the access possibilities for suppliers of other signatory countries? What possible obstacles to access might arise for suppliers in other signatory countries?*

GITIS and MIPS are accessible globally. Feedback indicates that foreign suppliers enthusiastically welcome the system, as it is a more convenient mode of access compared to newspaper or other media. IT has helped to reduce the information gap between local and foreign suppliers tremendously. Foreign suppliers now obtain the same information as local suppliers and at the same time.

5. *For those Parties who use databases which list government procurement opportunities:*

(i) *What are the names of their databases?*

The names of the databases are Government Internet Tendering Information System (GITIS) and Mindef Internet Procurement System (MIPS).

(ii) *How long have the databases been operational and how many suppliers use the databases?*

GITIS was first introduced in May 1997. As the system is accessible to anyone, it is not possible to determine the supplier population.

MIPS was introduced in April 1998. Since the system is accessible to anyone, it is not possible to determine the number of suppliers who use the system.

(iii) *Is a fee charged to suppliers using the systems? If so, how much, and what is included in the fee?*

There is no charge for access to GITIS and MIPS. The charges for suppliers who wish to transact electronically are for the cost of the smart-card and related administrative charges, which amount to less than S\$100.00.

(iv) *Can suppliers obtain tender documentation electronically? If so, how?*

GITIS and MIPS provide for downloading of tender documents. Standard terms and conditions of tender and contract information can also be downloaded from the web page. Most downloadable documents are in Word format.

(v) *How is information on the databases organized?*

Information in the databases is stored in defined fields and text format. Both GITIS and MIPS provide pre-defined as well as user-definable search criteria for displaying the information.

(vi) *Do the databases offer any other features?*

GITIS provides links to other governments and international procurement web sites, such as the WTO and APEC home pages.

(vii) *What is the approximate number of procurement opportunities listed on the databases annually?*

The number of tenders and procurement opportunities is roughly 4,000, which covers all government tenders, both GPA and non-GPA covered.

(viii) *Are the systems managed by the government or a private company?*

The systems are managed by the overnment.

(ix) *Can Parties' databases be interrogated using international standards, such as SQL Standard Query Language?*

The database can be queried using SQL Standard Query Language.

- (x) *Are all notices which are required to be published under Articles IX and XVIII:1 of the Agreement - for entities in Annexes 1, 2 and 3 - also available on databases? If so, do such notices contain at least the minimum information required to be published under Articles IX and XVIII:1?*

GITIS and MIPS are designed to capture as much procurement information as possible, including all the minimum information required to be published under Articles IX and XVIII:1; as well as non-GPA covered procurement information.

- (xi) *How are Agreement-covered notices identified?*

Every procurement notice includes a line indicating the applicability of the GPA.

- (xii) *To what extent does each type of notice contained in databases conform to a standard structure?*

The input forms used to post tender information are centrally maintained. Hence, all tender notices follow the stipulated format and structure.

- (xiii) *Is any particular classification used in such notices to describe purchases and, if so, which classification?*

Product and services classification follow international classifications such as ISO standards, where possible and practical.

- (xiv) *Where databases exist in a non-WTO language, to what extent are notices and information summarized in a WTO language?*

All notices and information are provided in English.

6. *For those Parties who are involved in action in the area of electronic commerce:*

- (i) *Please provide full information on projects and plans with regard to electronic commerce.*

See point 1 above.

- (ii) *Could those parties who have experience with electronic commerce provide information on such experiences.*

REQUEST FOR OBSERVER STATUS

Communication from Estonia

The following communication, dated 1 October 1998, has been received from the Permanent Mission of Estonia with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Acting upon instructions from my authorities, I hereby express the intention of Estonia to become an observer in the Committee on Government Procurement in order to be better prepared for the ultimate accession to the Agreement on Government Procurement as described in Article XXIV:2 thereof.

I would be grateful if this application for observership could be dealt with during the next meeting of the Committee on Government Procurement.

DERESTRICTION OF DOCUMENTS

1. In accordance with the Decision on the procedures for the circulation and derestriction of documents adopted by the Committee on Government Procurement on 24 February 1997 (GPA/1/Add.2), the following documents circulated as restricted are proposed for derestriction on 1 December 1998.

(a) GPA/M/- series

GPA/M/7-8

(b) GPA/W/- series

GPA/W/24/Add.4-6

GPA/W/64-65

GPA/W/66 and Addenda 1-7

GPA/W/67-72

2. The list of documents which have been previously derestricted is contained in document GPA/24.

**REQUEST FOR INFORMATION PURSUANT TO PARAGRAPHS 1 AND 2
OF ARTICLE XIX OF THE AGREEMENT ON
GOVERNMENT PROCUREMENT**

Communication from the United States

The following communication, dated 11 September 1998, has been received from the delegation of the United States with the request that it be distributed to the Members of the Committee on Government Procurement.

During the last two years, the United States has repeatedly raised its concerns with the procurement practices of the Korea Airport Construction Authority (KOACA). As we indicated in the 25 June 1998 meeting of the WTO Government Procurement Committee, the United States remains disturbed by Korea's repeated assertion that its commitments under the Agreement on Government Procurement (GPA) do not apply to KOACA. This assertion has serious implications for United States commercial interests and for the bilateral balance of rights and obligations established under the GPA. The United States urges Korea to reflect on this issue and to affirm, on that basis, that procurement conducted by KOACA is subject to and will be implemented in accordance with the provisions of the GPA.

Pursuant to paragraphs 1 and 2 of Article XIX of the GPA and in order to expedite the resolution of this important issue, the United States requests that Korea respond in writing to the attached list of questions relating to KOACA and its procurement practices. This information is requested without prejudice to the United States' rights under Articles XXII and XXIV of the GPA and any other relevant provisions of the WTO.

ATTACHMENT

1.
 - (a) Please explain the legal and operational relationship between the Korea Airport Construction Authority (KOACA) and the Ministry of Construction and Transportation.
 - (b) Please describe the extent to which the Ministry of Construction and Transportation has legal responsibility for managerial oversight of KOACA.
 - (c) In what way does the Ministry of Construction and Transportation exercise that responsibility?
 - (d) How are KOACA's president and other senior officials chosen? What approvals are required for each appointment?
 - (e) Please describe the extent to which the Ministry of Construction and Transportation or any other entity of the Korean government has legal authority to approve KOACA's budget and management plans.
 - (f) Please cite and provide copies of the legal or administrative authorities governing these issues.
2.
 - (a) What percentage of KOACA's annual budget is accounted for by appropriations from the Ministry of Construction and Transportation or other Korean government entities?
 - (b) What percentage of KOACA's annual budget is provided by sales of Korean public assets?
 - (c) What percentage of KOACA bonds or other debt, if any, is directly held or underwritten by the Korean government?
 - (d) What percentage of KOACA's budget is funded from private sector investments or other contributions?
 - (e) To what extent do any other Korean government entities have legal or budgetary authority over KOACA?
3. Please explain the relationship between KOACA and the "New Airport Development Group under the Ministry of Transportation", referred to in Korea's July 1991 written response to United States questions regarding government procurement for airport construction.
4. Please explain the relationship between KOACA and the "airport construction division of the Korea Airport Authority", referred to on KOACA's Internet web site at <http://www.airport.or.kr>.
5. Please explain the relationship between the "New Airport Development Group under the Ministry of Transportation", referred to in Korea's July 1991 response to United States questions regarding government procurement for airport construction, and the former airport construction division of the Korea Airport Authority, referred to on KOACA's Internet web site.

6.
 - (a) At the time bilateral negotiations between the United States and Korea relating to Korea's participation in the GPA were concluded (1993), to what extent was the "New Airport Development Group under the Ministry of Transportation" responsible for airport construction projects in Korea?
 - (b) Please identify all government entities that were responsible for airport construction projects at that time and the relationship of those entities to KOACA, which was established subsequently.
7.
 - (a) Is KOACA responsible for all airport construction projects currently being planned or implemented by government entities in Korea?
 - (b) If not, what other Korean government entities are responsible for planning and implementing airport construction projects?
 - (c) Please provide information on the estimated budgets of these entities.
8. Recent KOACA tender announcements include the requirement that "foreign firms should participate in the bid with local Firms (leading or prime company) as consortium members or subcontractors".
 - (a) What is the intent of this provision?
 - (b) Are there any circumstances in which United States or other non-Korean firms may qualify independently (i.e., as a "leading or prime company") to participate in this and similar KOACA procurement opportunities, or is partnership with a Korean firm a mandatory condition for qualification?
 - (c) Under what legal authority does KOACA have the authority to impose this requirement?
9. In recent KOACA tender announcements, all suppliers have been required to hold licenses and registration for manufacturing operations in Korea in order to qualify to participate.
 - (a) What is the purpose of this requirement?
 - (b) Does this preclude suppliers that have not established manufacturing facilities in Korea from qualifying as a prime contractor?
 - (c) For suppliers that do not have manufacturing facilities in Korea, can possession of appropriate manufacturing licenses issued by United States or other non-Korean authorities satisfy this requirement? If so, under what circumstances?
 - (d) Under what domestic law does KOACA have the authority to impose this requirement?
 - (e) Does KOACA require that equipment supplied under these contracts be produced in Korea?

10. The United States requests that Korea provide complete copies of the following documents (in English, if available):
 1. The Korean Airport Authority Act, and any related implementing or enforcement decrees.
 2. The IIA Construction Promotion Law, promulgated or announced on or around 31 May 1991, and any other related laws and implementing or enforcement decrees affecting what has become known as the Incheon International Airport.
 3. The Seoul Metropolitan Area New International Airport Construction Corporation Act, and any related implementing or enforcement decrees.
 4. The General Construction Basic Law, and any related implementing or enforcement decrees.
 5. The Electrical Construction Law, and any related implementing or enforcement decrees.
 6. Regulations of the Ministry of Construction and Transportation or other entities pertaining to the creation, purpose and functions of the "Corps of the New International Airport Construction Project".
 7. The Government Organization Act of the Republic of Korea.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1998/1999

Addendum

ISRAEL

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Israel is reproduced below.

1. Calculation of threshold figures in US\$

ANNEX 1

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	130,000	186,000
Services	130,000	186,000
Construction	8,500,000	12,189,000

ANNEX 2

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	250,000	358,000
Services	250,000	358,000
Construction	8,500,000	12,189,000

ANNEX 3

	Threshold Value (SDR)	Threshold Value in US\$
Supplies	355,000	509,000
Services	355,000	509,000
Construction	8,500,000	12,189,000

2. Method of calculation

The calculation of the thresholds of the WTO Agreement, expressed in US\$ has been based on the average monthly SDR to US\$ exchange rate over 24 months from September 1995 through August 1997 (1 SDR = 1.434 US\$).

QUESTIONNAIRE ON INFORMATION TECHNOLOGY IN GOVERNMENT PROCUREMENT

Response by the European Community

Addendum

The attached communication contains the replies from the European Community to the questionnaire on Information Technology in Government Procurement contained in document GPA/W/24, dated 22 August 1996.

QUESTIONNAIRE ON INFORMATION TECHNOLOGY

1. *Could delegations give a brief description of any steps taken or planned to introduce information technology into public procurement? If so, does this cover contracts which are covered under the 1994 Agreement? At all levels of government? In the event that delegations are not considering introducing information technology into public procurement, could they explain the reasons?*

Currently, at EU level, the TED (Tenders Electronic Daily) database, which is the electronic version of the OJ/S, contains all procurement opportunities and notices on contracts awarded covered by the EU directives on public procurement, and therefore the EC's Appendix I of the GPA. All levels of government are covered.

Under the EU SIMAP (Système d'Informations Marchés Publics) project, the following developments are under way or have been accomplished:

- (a) an Internet-based as well as PC-based software with graphical user interface and contextual on-line help for the controlled data entry of information contained on standard public procurement notices - so-called "electronic forms";
- (b) development of EDIFACT messages, according to which the data contained on the "electronic forms" are structured, ready to be transmitted to the designated receiving system - the SIMAP Central Unit;
- (c) development of email and SMTP service for transmission of the EDIFACT electronic forms to the SIMAP Central Unit;
- (d) a software running on the SIMAP Central Unit, for the central processing of the data contained on the electronic forms and automatic publication;
- (e) a search and retrieval mechanism (SRM) to be used as user-friendly "link through" software for accessing public procurement notices published in the OJ/S and the database TED, as well as in other databases available on the Internet without cost and containing procurement notices by contracting entities in the Community and elsewhere. This SRM will also be able to search and retrieve information from "purchasers profiles" published on the Web;
- (f) a tool to enable contracting entities in the Community to design and create "purchaser profiles" and to maintain links to such profiles as they are created;
- (g) a Web-based tool to permit the searching, indexing and translating terms of notices in all the EU official languages with the help of the Common Procurement Vocabulary (CPV);
- (h) a facility to identify and maintain links with URL or electronic mail addresses in order to allow interested suppliers to obtain further information and/or full tender documentation from contracting entities;
- (i) the generalized use of the system outlined above by all concerned entities at EU level.

2. *What function(s) would information technology serve in such systems and who will be the users?*

The main function of the existing TED database is to allow suppliers to become aware of procurement opportunities in a format other than paper-based. The system is also used for market analysis although it is not principally geared for these purposes and therefore does not at present lend itself easily to such use.

SIMAP's objectives/functions are to promote the use of ICT in public procurement. Through the SIMAP notification project, contracting entities are able to use electronic forms software to publish their contract notices and contract award notices. The dissemination project facilitates the access of procurement-related information. In the future, it will also be used for market monitoring and analysis. Additionally, subproject 4 of SIMAP intends to promote the exchange of information between purchasers and suppliers, i.e. exchange of tender documents.

Users include contracting entities, information brokers, suppliers and supervisory authorities.

3. *Could delegations describe the technical aspects of the systems in use or planned? In particular as regards infrastructure/hardware-software and its options/standards?*

SIMAP is built on a DEC and a SUN hardware using Oracle version 7 as its database management system.

TED is built on Siemens hardware using DIMDI.

4. *Could delegations describe any limitations affecting access to information available and use of systems? How wide is potential access to interested suppliers? What are the access possibilities for suppliers of other signatory countries? What possible obstacles to access might arise for suppliers in other signatory countries?*

Potential access to the TED system is worldwide. There are no real limitations to access but efficient use of the system is clearly dependent upon familiarity with query commands and search strategies. (A user manual is available to subscribers.)

The Web interface, with its query forms and on-line help, greatly simplifies the use of the system.

Suppliers (or information brokers), both domestic and foreign, can access the TED database via the public switched network (X25) connecting to a Network User Address. SIMAP can be reached at the Internet address <http://simap.eu.int>.

5. *For those Parties who use databases which list government procurement opportunities:*

(i) *What are the names of their databases?*

The name of the database is Tenders Electronic Daily (TED).

(ii) *How long have the databases been operational and how many suppliers use the databases?*

TED has been operational since 1988 and has approximately 11,000 subscribers. These include suppliers, information brokers and our network of European Information Centres (EICs). The final information-user population is therefore difficult to quantify.

The SIMAP Web site has been running since October 1996 and has more than 400,000 hits.

(iii) Is a fee charged to suppliers using the systems? If so, how much, and what is included in the fee?

Currently, there is a charge for using the TED database. The subscription to the TED database, including unlimited usage, is done at a fee of 1,080 ECU/year (approximately SDR 1,050). Customers interested in searching TED on a pay-per-view basis may still display, print or download data at a price of 1,20 ECU per full document (or 0,60 ECU per "extra"-format). From 1 January 1999, TED will be available free of charge. A CD-ROM edition up-dated five times a week at the subscription price of 1,080 ECU/year will be available from 1 July 1998. The current, twice-weekly CD-ROM edition will be maintained at the price of 600 ECU/year (approximately SDR 580). Access to the SIMAP Web site is free of charge.

(iv) Can suppliers obtain tender documentation electronically? If so, how?

No, suppliers cannot obtain tender documentation electronically from TED. In the near future, the TED database will offer hyperlinks to so-called "purchaser profiles" run by or on behalf of contracting entities. These purchasers profiles should provide online access to the full tender documents.

(v) How is information on the databases organized?

The information on each notice is held on the database in text format. However, a large amount of key information for each notice is held in separately searchable fields. This allows, among others, definition of search strategies broken down by type of contract (supplies/construction/services), by "product", by type of purchasing entity (central, utilities, etc.), according to whether it is GPA/non-GPA covered, by geographical location, by name of contracting entity, by submission deadlines; by publication date. Having narrowed a search using some of the above strategies, the entire text of the notices selected can also be submitted to a keyword search, full or truncated.

(vi) Do the databases offer any other features?

See point (iv) above. In addition, the SIMAP Web site contains information on standards, best practices and guidelines, terminology, national legislation, resources on electronic procurement and electronic commerce, training initiatives, etc. A discussion forum on public procurement issues is also available. In addition, the SIMAP Web site also offers links to other countries' and international organizations' web sites that contain information on procurement, including in some cases, procurement opportunities.

(vii) What is the approximate number of procurement opportunities listed on the databases annually?

There were approximately 150,000 procurement opportunities listed in 1997 in TED and this figure is growing annually.

(viii) Are the systems managed by the government or a private company?

TED is managed by the Publications Office of the European Communities.

SIMAP project is managed by the European Commission (DG XV).

- (ix) *Can Parties' databases be interrogated using international standards, such as SQL Standard Query Language?*

TED database can be interrogated using CCL. Data contained in SIMAP can be interrogated by SQL.

- (x) *Are all notices which are required to be published under Articles IX and XVIII: 1 of the Agreement - for entities in Annexes 1, 2 and 3 - also available on databases? If so, do such notices contain at least the minimum information required to be published under Articles IX and XVIII:1?*

Yes. The TED system covers all contracts coming under the terms of the EU's Directives on public procurement, therefore covers all levels of government. Information contained complies with the requirements set out by the EU Directives and the WTO Agreement on Government Procurement.

- (xi) *How are Agreement-covered notices identified?*

Replied above in point (v).

- (xii) *To what extent does each type of notice contained in databases conform to a standard structure?*

All notices are structured in accordance with the EU's Directives on Public Procurement.

- (xiii) *Is any particular classification used in such notices to describe purchases and, if so, which classification?*

The classification used is Common Procurement Vocabulary (CPV).

- (xiv) *Where databases exist in a non-WTO language, to what extent are notices and information summarized in a WTO language?*

The full text of the notices is provided in the original language. Summarized information is provided in all EU official languages (including English, French and Spanish).

6. *For those Parties who are involved in action in the area of electronic commerce:*

- (i) *Please provide full information on projects and plans with regard to electronic commerce.*

See response to question 1 above.

- (ii) *Could those parties who have experience with electronic commerce provide information on such experiences?*

QUESTIONNAIRE ON INFORMATION TECHNOLOGY IN GOVERNMENT PROCUREMENT

Response by the United States

Addendum

The attached communication contains the replies from the United States to the questionnaire on Information Technology in Government Procurement contained in document GPA/W/24, dated 22 August 1996.

QUESTIONNAIRE ON INFORMATION TECHNOLOGY

1. *Could delegations give a brief description of any steps taken or planned to introduce information technology into public procurement? If so, does this cover contracts which are covered under the 1994 Agreement? At all levels of government? In the event that delegations are not considering introducing information technology into public procurement, could they explain the reasons?*

The United States is undertaking an ambitious and far-reaching initiative to utilize Electronic commerce (EC) to enhance the public procurement process. There have been several executive-level memoranda and legislative initiatives that have reinforced the high priority of EC. To help foster government EC partnerships, the President's Management Council (PMC) - comprised of cabinet agency chief operating officers - provides a forum for coordinating EC development activity across the federal acquisition, finance, and information technology communities. The PMC has created the Electronic Processes Initiatives Committee (EPIC), a functionally integrated, inter-agency body, to coordinate EC development activity across the federal acquisition, finance, and information technology communities. In March 1998, EPIC submitted to Congress a strategic plan for integrating procurement and payment functions with the latest developments in EC technology and business practice.

It is anticipated that all departments and agencies will eventually utilize electronic commerce for purchases as appropriate. Initially, the specific focus will be on high-volume, low-dollar purchasing.

2. *What function(s) would information technology serve in such systems and who will be the users?*

Our vision is that all federal agencies will support their programs by making available customer-friendly electronic purchasing tools integrated with end-to-end commercial electronic processing of payment, accounting, and performance reporting information as appropriate. An EC toolkit is being developed in such a manner as to permit the exchange of procurement information electronically for various phases of the procurement process. This includes: improving market research, providing notice of contract opportunities through a single point of entry for opportunities valued at or above US\$25,000, providing notice of contract award, and making payment.

Buyers, sellers, financial and information technology providers, and reviewing authorities are all interested stakeholders. The needs of each stakeholder must be identified and addressed in order to successfully make the transition from paper to electronics. For example, sellers - small and large, selling domestically and from abroad - need easy, effective, and inexpensive ways to find customers and market their products. Sellers competing from abroad need to be able to learn as quickly as possible about contracting opportunities and communicate as efficiently as possible using internationally-recognized standards that ease the electronic interchange of information. The strategic plan provides policy principles that reflect the varying needs of buyers and sellers to guide the government's EC investment decisions.

3. *Could delegations describe the technical aspects of the systems in use or planned? In particular as regards infrastructure/hardware-software and its options/standards?*

Agencies are using commercial off-the-shelf software. Electronic Data Interchange (EDI) is being utilized, especially with major vendors on a one-to-one basis. Agencies are starting to focus on the Internet for low-cost, reliable delivery of procurement information to a broad audience. Purchase card use has grown dramatically; purchase cards were used for more than ten million transactions worth in excess of US\$5 billion in 1997. The purchase card reduces the administrative time and cost

associated with micro-purchases (purchases below US\$2,500). Agency buyers are increasingly using electronic catalogues. Electronic catalogues can help to shorten order-cycle times. In addition, agency personnel can use electronic catalogues to gain greater awareness of the products and services available under contract and more easily make informed comparisons.

An Electronic Posting System pilot using Internet is presently being conducted to provide sellers with: full text search of all solicitation documents government-wide; indexed search of solicitations government-wide; download of solicitation documents for local printing and editing; and automated query of contract opportunity databases by federal supply code, date, or location, and the ability to sign up for mailing lists that automatically send notices of new solicitations. In addition, the pilot is intended to provide important increased functionality to buyers, including: direct upload of solicitation documents to the Internet including requests for information, draft requests for proposals, questions and answers, engineering drawings, bidder lists, and award notices and the ability to use a bidders list to provide directed notification to vendors of solicitation actions for buys between US\$2,500 and US\$25,000 where they wish to find new sources or alternative sources.

4. *Could delegations describe any limitations affecting access to information available and use of systems? How wide is potential access to interested suppliers? What are the access possibilities for suppliers of other signatory countries? What possible obstacles to access might arise for suppliers in other signatory countries?*

As there is more movement to Internet, there are concerns about security and authentication of users. At present, there are major efforts under way to research and resolve these issues.

EC will help promote greater access for the foreign and domestic suppliers to the United States procurement system. Rather than restricting access by foreign suppliers, EC will reduce many of the disadvantages experienced by foreign suppliers due to their distance from the procuring entity, by providing faster notification. Using the Internet, for example, sellers worldwide can access CBDnet to learn about contracting opportunities.

5. *For those Parties who use databases which list government procurement opportunities:*

(i) *What are the names of their databases?*

The Commerce Business Daily (CBD), the publication which provides information on contracting opportunities, is available online. CBDNet provides advertizers and users with better access and support.

(ii) *How long have the databases been operational and how many suppliers use the databases?*

CBDNet has been operational since 1 November 1996. CBDNet has, on the average, 79,000 hits a day.

(iii) *Is a fee charged to suppliers using the systems? If so, how much, and what is included in the fee?*

No fee is charged to the vendor.

(iv) *Can suppliers obtain tender documentation electronically? If so, how?*

CBDNet allows federal government agencies who are advertizing contract opportunities to instantaneously submit procurement notices by Internet email and permits users to find, select, and

display synopsis information using text or classification code searches. It also provides for agencies to establish hot links between the CBD notice and the actual solicitation.

(v) *How is information on the databases organized?*

Information can be accessed by date, location, key word or phrase, contracting officer name and address, agency, standard industrial classification code, URL, award notice, and email address.

(vi) *Do the databases offer any other features?*

Other features include: email link, three search engines, a help section, a live help desk, and a URL link.

(vii) *What is the approximate number of procurement opportunities listed on the databases annually?*

137,000 procurement opportunities were listed last year.

(viii) *Are the systems managed by the government or a private company?*

The United States Government manages CBDNet.

(ix) *Can Parties' databases be interrogated using international standards, such as SQL Standard Query Language?*

Currently, CBDNet can not accept SQL. In an effort to provide acquisition-related information to industry more quickly and cheaply, CBDNet will be enhanced. The enhancement of CBDNet will use SQL.

(x) *Are all notices which are required to be published under Articles IX and XVIII: 1 of the Agreement - for entities in Annexes 1, 2 and 3 - also available on databases? If so, do such notices contain at least the minimum information required to be published under Articles IX and XVIII:1?*

Currently, all open market contract opportunities above US\$25,000 are published electronically and available through a convenient, universally accessible, Government-wide, single point of entry, called CBDNet. Synopses of contract awards that are currently published in the CBD (e.g., because the award is subject to the Trade Agreements Act or is over US\$25,000 and is likely to result in the award of any subcontracts) may also be found on CBDNet.

(xi) *How are Agreement-covered notices identified?*

On CBDNet, they are identified by a numbered note, number 12.

(xii) *To what extent does each type of notice contained in databases conform to a standard structure?*

The notice conforms to the standard specified in Part 5 of the Federal Acquisition Regulation (FAR).

- (xiii) *Is any particular classification used in such notices to describe purchases and, if so, which classification?*

There is no special classification code. The CBDNet classification code covers types of supplies and services.

- (xiv) *Where databases exist in a non-WTO language, to what extent are notices and information summarized in a WTO language?*

The CBDNet information and notices are presented in the English language.

6. *For those Parties who are involved in action in the area of electronic commerce:*

- (i) *Please provide full information on projects and plans with regard to electronic commerce.*
- (ii) *Could those parties who have experience with electronic commerce provide information on such experiences.*

A strategic plan for procurement was transmitted to Congress on 1 March 1998. The plan, *Electronic Commerce for Buyers and Sellers*, presents our vision of how EC-related technology can improve government acquisition and related processes. The plan provides a strategy - not a "one size fits all" solution - for expanding use of EC. The plan presumes that agencies will rely on commercial products, services, and practices whenever possible. Moreover, the plan recognizes that technology and the market-place are dynamic and accordingly anticipates change. A brief discussion of some of the current initiatives follows:

A. PROMOTING EASY, USER-FRIENDLY INTERACTIONS BETWEEN BUYERS AND SELLERS

Easy interaction in an electronic environment begins with information. To this end, the National Partnership for Reinventing Government, the Office of Federal Procurement Policy, and the General Services Administration (GSA) created the Acquisition Reform Network (ARNet) to serve as a central location on the Internet for both government and industry for quick access to a wide variety of information relating to government contracting. ARNet includes a reference library of government laws, regulations, policies, best practices and training packages. Most government agencies have developed their own Internet websites (or homepages) and linked them to ARNet to provide sellers with additional agency-specific information on contracting, including, in some cases, long-range forecasts of agency needs, draft requests for proposals (RFPs), and solicitations.

Improving access to open market contracting opportunities through the use of EC has long been, and remains, a key government initiative. As discussed above, CBDNet serves as the single, government-wide point of entry through which sellers may obtain, free-of-charge, notices of all open market purchases above US\$25,000. Sellers looking for contract opportunities may search CBDNet by text, fields, or classification codes. Future enhancements will permit buyers to post solicitations and other pertinent information, in addition to notices, directly to the Internet, thus giving sellers access to this information through a single, government-wide point of entry.

The Small Business Administration (SBA) recently implemented PRONet, a free-of-charge, Internet-based online search engine providing access to the profiles of more than 170,000 small businesses, including disadvantaged, 8(a) certified women-owned firms. PRONet contains company profiles with products and services, history, references, and other information. It also provides contractors with assistance in locating small business contractors and subcontractors as well as teaming opportunities with small businesses.

B. USING EC TO FACILITATE SMALLER DOLLAR PURCHASES

Purchase cards (i.e., credit cards for business) are revolutionizing the way the government buys and pays for small dollar purchases. In 1997, purchase cards were used for more than ten million transactions worth in excess of US\$5 billion. According to a study, the purchase card helps agencies reduce administrative transaction costs producing cost savings of greater than 50 per cent, or US\$54 per transaction on average, when compared to purchase order processing. In February 1998, the GSA awarded a government-wide multiple award task order contract for the next generation of purchase cards. This contract (which takes effect in November 1998) will allow agencies to select a service provider to help re-engineer and integrate business practices related to purchase, travel-related payment services and fleet services.

Agencies are creating electronic catalogues. These are web-based electronic systems involving contracts with pre-established business arrangements that government buyers can browse and place orders under electronically. Agencies report that electronic catalogues help them to: (1) shorten order-cycle times; (2) reduce the resources required to fulfill needs; and (3) gain greater awareness of the products and services available under contract.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1998/1999

Addendum

NORWAY

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Norway is reproduced below.

The calculation of the threshold values of the WTO Agreement in NOK has been based on the average daily exchange rates for SDR to ECU and ECU to NOK over 24 months from September 1995 through August 1997. The average exchange rates are:

1 SDR = 1.03011 ECU
1 ECU = 8.14790 NOK
thus, 1 SDR = 8.39322 NOK

These exchange rates give the following threshold values:

	Supplies and Services Annex 1 entities	Supplies and services Annex 2 entities	Supplies and services Annex 3 entities	Works All entities
Threshold in GPA in SDR	130,000	200,000	400,000	5,000,000
Threshold in GPA in NOK	1,091,118	1,678,643	3,357,286	41,966,072
Threshold in EEA in ECU	200,000	200,000	400,000	5,000,000
Threshold in EEA in NOK	1,629,580	1,629,580	3,259,160	40,739,500
Threshold in Norway in NOK	1,000,000	1,600,000	3,200,000	40,000,000

The value of SDR in NOK has on average been higher than the value of ECU in NOK in the 24 months on which the calculation is based, making the GPA threshold higher than the thresholds for the EEA/EU; except for Annex 1 entities, which have a comparably lower threshold by the GPA than by EEA. In order to comply with both the WTO-GPA and the EEA Agreement with a single set of threshold values, Norway has determined to set rounded thresholds based on the lowest threshold values for Annex 2 and Annex 3 entities and for works contracts.

APPLICATION FOR ACCESSION TO THE AGREEMENT ON GOVERNMENT PROCUREMENT OF ICELAND

The following communication, dated 22 June 1998, has been received from the Permanent Mission of Iceland with the request that it be circulated to the Parties to the Agreement on Government Procurement.

The Permanent Mission of Iceland has the honour to inform that the Government of Iceland has decided to apply for accession to the Agreement on Government Procurement.

Iceland is prepared to enter into negotiations with the Signatories to the GPA on the basis of the enclosed draft offer, containing a list of all the relevant procurement entities in the areas of construction, goods and services (five Annexes plus General Notes and Derogations from Article III of the GPA). Annex 1 contains public entities at the state level, Annex 2 municipalities and public bodies at the local level not having commercial or industrial character and Annex 3 entities in the fields of electricity, urban transport, airports, ports and water supply. Annexes 4 and 5 stipulate services coverage.

As a member of the EEA Agreement, Iceland maintains a government procurement regime with which Signatories to the GPA should be familiar. Iceland has amended its legislation in accordance with the Public Procurement Directives of the EEA.

The Government of Iceland reserves the right to make technical changes to its draft offer and to correct any errors, omissions or inaccuracies.

DRAFT OFFER

ICELAND

APPENDIX I

ANNEX 1

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 130,000

Services (specified in Annex 4)

Threshold: SDR 130,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

The following central government entities including:

Central purchasing entities not having an industrial or commercial character governed by (Act no. 63/1970 on the arrangement of public works contracts, and Act no. 52/1987, on government procurement, as amended.)

The entities in charge of government procurement are the following bodies:

Ríkiskaup (State Trading Center)

Framkvæmdasýslan (Government Construction Contracts)

Vegagerð ríkisins (Public Road Administration)

Siglingastofnun (Icelandic Maritime Administration)

ANNEX 2

*Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 200,000

Services (specified in Annex 4)

Threshold: SDR 200,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Entities:

1. Contracting local public authorities, including all municipalities.
2. Public bodies at the local level not having an industrial or commercial character.

ANNEX 3

*Other Entities which Procure in Accordance
With the Provisions of this Agreement*

Supplies

Threshold: SDR 400,000

Services (specified in Annex 4)*

Threshold: SDR 400,000

Works (specified in Annex 5)

Threshold: SDR 5,000,000

List of Sectors:

1. *The electricity sector:*

The National Power Company, *lög nr. 42/1983*.

The State Electric Power Works, *orkulög nr. 58/1967*

Rafmagnsveita Reykjavíkur (Reykjavík Municipal Electric Works).

Hitaveita Reykjavíkur (Reykjavík Municipal District Heating), *lög nr. 100/1974*.

Orkubú Vestfjarða (Vestfjord Power Company), *lög nr. 66/1976*.

Other entities producing, transporting or distributing electricity pursuant to *orkulög nr. 58/1967*.

2. *Urban transport:*

Strætisvagnar Reykjavíkur (The Reykjavík Municipal Bus Service).

Almenningsvagnar bs.

Other Municipal bus services.

3. *Airports:*

Flugmálastjórn (Directorate of Civil Aviation)

4. *Ports:*

Siglingastofnun, (Icelandic Maritime Administration).

Other entities operating pursuant to *Hafnalög nr. 23/1994*.

5. *Water supply:***

Public entities producing or distributing drinking water pursuant to *lög nr 81/1991, um vatnsveitur sveitarfélaga*.

Notes to Annex 3

* This Agreement shall not apply to service contracts which:

- (a) a contracting entity awards to an affiliated undertaking;
- (b) are awarded by a joint venture formed by a number of contracting entities for the purpose of carrying out a relevant activity within the meaning of paragraphs 1-5 of this Annex to one of those contracting entities or to an undertaking which is affiliated with one of these contracting entities;

Provided that at least 80 per cent of the average turnover of that undertaking with respect to services arising within the EEA for the three preceding years derives from the provision of such services to undertakings with which it is affiliated. When more than one undertaking affiliated with the contracting entity provides the same service or similar services, the total turnover deriving from the provision of services by those undertakings shall be taken into account.

** The supply of drinking water and electricity to networks which provide a service to the public by a contracting entity other than a public authority shall not be considered as a relevant activity within the meaning of paragraphs 1 and 5 of Annex 3 where:

- the production of drinking water or electricity by the entity concerned takes place because its consumption is necessary for carrying out an activity other than that referred to in paragraphs 1 and 5 of this Annex; and
- supply to the public network depends only on the entity's own consumption and has not exceeded 30 per cent of the entity's total production of drinking water or energy, having regard to the average for the preceding three years, including the current year.

ANNEX 4

Services

Of the Universal List of Services, as contained in document MTN.GNS/W/120, the following services are included:*

<i>Subject</i>	<i>CPC Reference N</i>
Maintenance and repair services	6112, 6122, 633, 886
Land transport services, including armoured car services, and courier services, except transport of mail	712 (except 71235), 7512, 87304
Air transport services of passengers and freight, except transport of mail	73 (except 7321)
Transport of mail by land, except rail, and by air	71235, 7321
Telecommunications services	752** (except 7524, 7525, 7526)
Financial services	ex 81
(a) Insurance services	812, 814
(b) Banking and investment services***	
Computer and related services	84
Accounting, auditing and bookkeeping services	862
Market research and public opinion polling services	864
Management consulting services and related services	865, 866****
Architectural services; engineering services and integrated engineering services, urban planning and landscape architectural services; related scientific and technical consulting services; technical consulting services; technical testing and analysis services	867
Advertising services	871
Building-cleaning services and property management services	874, 82201-82206

<i>Subject</i>	<i>CPC Reference N</i>
Publishing and printing services on a fee or contract basis	88442
Sewage and refuse disposal; sanitation and similar services	94

Notes to Annex 4

- * except for services which entities have to procure from another entity pursuant to an exclusive right established by a published law, regulation or administrative provision
- ** except voice telephony, telex, radiotelephony, paging and satellite services
- *** except contracts for financial services in connection with the issue, sale, purchase, or transfer of securities or other financial instruments, and central bank services
- **** except arbitrations and conciliation services

ANNEX 5

Construction Services

Definition:

A construction service contract is a contract which has as its objective the realization by whatever means of civil or building works, in the sense of Division 51 of the Central Product Classification (CPC).

List of Division 51, CPC:

All public works/construction services of Division 51.

GENERAL NOTES AND DEROGATIONS FROM THE PROVISIONS OF ARTICLE III

1. Iceland will not extend the benefits of this Agreement:
 - as regards the award of contracts by entities listed in Annex 2 to the suppliers and service providers of Canada;
 - as regards the award of contracts, other than for supplies, listed in Annex 2 to the suppliers and service providers of the USA;
 - as regards the award of contracts by entities listed in Annex 3 paragraph
 - (1) (electricity), to the suppliers and service providers of Canada, Singapore and Japan;
 - (2) (urban transport), to the suppliers and service providers of Canada, Israel, Japan, Korea and the USA;
 - (3) (airports), to the suppliers and service providers of Canada, Korea and the USA;
 - (4) (ports), to the suppliers and service providers of Canada;
 - (5) (water), to the suppliers and service providers of Canada and the USA;

until such time as Iceland has accepted that the Parties concerned give comparable and effective access for Icelandic undertakings to the relevant markets;

 - to service providers of Parties which do not include the relevant service contracts for the relevant entities in Annexes 1 to 3 and the relevant service category under Annexes 4 and 5 in their own coverage.
2. The provisions of Article XX shall not apply to suppliers and service providers of:
 - Israel, Japan, Korea and Switzerland in contesting the award of contracts by entities listed under Annex 2, paragraph 2, until such time as Iceland accepts that they have completed coverage of sub-central entities;
 - Japan, Korea and the USA in contesting the award of contracts to a supplier or service provider of Parties other than those mentioned, which are small or medium-sized enterprises under the relevant provisions in Iceland, until such time as Iceland accepts that they no longer operate discriminatory measures in favour of certain domestic small and minority businesses;
 - Israel, Japan and Korea in contesting the award of contracts by Icelandic entities, whose value is less than the threshold applied for the same category of contracts awarded by these Parties.
3. Until such time as Iceland has accepted that the Parties concerned provide access for Icelandic suppliers and service providers to their own markets, Iceland will not extend the benefits of this Agreement to suppliers and service providers of:

- Canada as regards procurement of FSC 36, 70 and 74 (special industry machinery; general purpose automatic data processing equipment, software, supplies and support equipment (except 7010 ADPE configurations); office machines, visible record equipment and ADP equipment);
 - Canada as regards procurement of FSC 58 (communications, protection and coherent radiation equipment) and the USA as regards air traffic control equipment.
 - Israel and Korea as regards procurement by entities listed in Annex 3, paragraph 1, as regards procurement of HS Nos 8504, 8535, 8537 and 8544 (electrical transformers, plugs, switches and insulated cables); and for Israel, HS Nos 8501, 8536 and 902830;
 - Canada and the USA as regards contracts for good or service components of contracts which, although awarded by an entity covered by this Agreement, are not themselves subject to this Agreement.
4. Contracts awarded by entities in Annexes 1 and 2 in connection with activities in the fields of drinking water, energy, transport or telecommunications, are not included.
5. With regard to Annex 3, this Agreement shall not apply to the following contracts:
- contracts which the contracting entities under paragraph 5 award for the purchase of water;
 - contracts which the contracting entities under paragraph 1 award for the supply of energy or of fuels for the production of energy;
 - contracts which the contracting entities award for purposes other than the pursuit of their activities as described in this Annex or for the pursuit of such activities in a non-EEA country;
 - contracts awarded for purposes of re-sale or hire to third parties provided that the contracting entity enjoys no special or exclusive right to sell or hire the subject of such contracts and that other entities are free to sell or hire it under the same conditions as the contracting entity;
 - contracting entities exercising activities in the bus transportation sector where other entities are free to offer the same services in the same geographical area and under substantially the same conditions.
6. With regard to Annex 4, this Agreement shall not apply to the following:
- contracts for the acquisition or rental, by whatever financial means, of land, existing buildings, or other immovable property or concerning rights thereon;
 - contracts for the acquisition, development, production or co-production of programme material by broadcasters and contracts for broadcasting time;

- contracts awarded to an entity which is itself a contracting authority within the meaning of the Public Procurement Act: "Lög um opinber innkaup (52/1997) and Regulation (302/1996) on the basis of an exclusive right which it enjoys pursuant to a published law, regulation or administrative provision;
 - contracts of employment.
7. The Agreement shall not apply to contracts awarded under:
- an international agreement and intended for the joint implementation or exploitation of a project by the signatory States;
 - an international agreement relating to the stationing of troops;
 - the particular procedure of an international organization.
8. The Agreement shall not apply to procurement of agricultural products made in furtherance of agricultural support programmes and human feeding programmes.
9. The thresholds in the Annexes will be applied so as to conform with the public procurement thresholds of the EEA agreement.
10. This Agreement does not apply to procurement subject to secrecy or other particular restrictions with regard to the safety of the country.
11. When a specific procurement may impair important national policy objectives, the Icelandic Government may consider it necessary in singular procurement cases to deviate from the principle of national treatment in the Agreement. A decision to this effect will be taken at the Icelandic Cabinet level.

APPENDIX II

Publications utilised by Parties for the publication of notices of intended procurements, paragraph 1 of Article IX and of post-award notices (paragraph 1 of Article XVIII).

Icelandic newspapers:

Morgunbladid

Dagbladid

Dagur

Other:

Official Journal of the European Communities.

APPENDIX III

Publications utilised by Parties for the publication annually of information on permanent lists of qualified suppliers in the case of selective tendering procedures (paragraph 9 of Article IX).

Official Journal of the European Communities:
(Currently no such list exists)

APPENDIX IV

Publications utilised by Parties for the publication of laws, regulations, judicial decisions, administrative rulings of general application and any procedure regarding government procurement governed by this Agreement (paragraph 1 of Article XIX).

Laws, regulations and rules:
Stjórnartíðindi (The Government Gazette)

Judicial decisions and administrative rulings:
Hæstaréttardómar (Supreme Court Report)

(District courts do not issue a Court Report, but any interested party can obtain a transcript of a particular case. Administrative rulings are not reported but can be obtained from the relevant authority)

MODIFICATIONS TO APPENDIX I OF JAPAN

Notifications from Japan under Article XXIV:6(a)

The following notifications from the Permanent Mission of Japan were received on 29 June and 7 July respectively, with the request that they be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government procurement the rectifications of a purely formal or minor nature mentioned below to the Lists in Annexes 1 and 3 of Appendix I for Japan of the Agreement on Government Procurement.

Lists in Annex 1:

Add "- Financial Supervisory Agency".

This rectification is based on the fact that "Financial Supervisory Agency" was founded on 22 June 1998 by separating certain functions of the Ministry of Finance, thereby in effect not altering the coverage provided in this Agreement.

Lists in Annex 3:

Delete "- Small Enterprise Retirement Allowance Mutual Aid Corporation" and "- Construction, the Sake Brewing Industry and Forestry Retirement Allowance Mutual Aid Association".

Add "- Organization for Workers' Retirement Allowance Mutual Aid".

This rectification is based on the fact that "Small Enterprise Retirement Allowance Mutual Aid Corporation" and "Construction, the Sake Brewing Industry and Forestry Retirement Allowance Mutual Aid Association" were merged to form "Organization for Workers' Retirement Allowance Mutual Aid" on 4 June 1998. This does not in effect alter the coverage provided in this Agreement.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII".

Pursuant to Article XXIV, paragraph 6(a) of the WTO Agreement on Government Procurement, the Government of Japan wishes to notify the Committee on Government Procurement the following rectification of a purely formal nature relating to Annex 3 in Appendix I of the WTO Agreement on Government Procurement.

Lists in Annex 3:

Delete "- Institute of Developing Economics" from "List of Entities" regarding supplies and "List of Entities which procure the services, specified in Annex 4".

This rectification is based on the fact that, as of 1 July 1998, "Institute of Developing Economics" was merged to "Japan External Trade Organization", which is already listed in Annex 3 in Appendix I of this Agreement. Therefore, this rectification does not alter the level of mutually agreed coverage provided in this Agreement.

THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS EXPRESSED IN NATIONAL CURRENCIES FOR 1998/1999

Addendum

Singapore

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Singapore is reproduced below.

1. Calculation of Threshold Figures in National Currency

Annex 1 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded up)
1. Goods and services other than construction services	130,000	264,900
2. Construction services	5,000,000	10,188,500

Annex 3 Entities	Threshold Value (SDR)	Threshold Value in Singapore Dollars (rounded up)
1. Goods and services other than construction services	400,000	815,100
2. Construction services	5,000,000	10,188,500

2. Method of Calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Singapore Dollars over 24 months from October 1995 to September 1997.

Month	Exchange Rate of Singapore Dollars to 1 SDR	Month	Exchange Rate of Singapore Dollars to 1 SDR
October 1995	2.1163	October 1996	2.0382
November 1995	2.0990	November 1996	2.0261
December 1995	2.1023	December 1996	2.0129
January 1996	2.0610	January 1997	1.9644
February 1996	2.0738	February 1997	1.9733
March 1996	2.0574	March 1997	2.0042
April 1996	2.0395	April 1997	1.9725
May 1996	2.0331	May 1997	1.9903
June 1996	2.0350	June 1997	1.9850
July 1996	2.0717	July 1997	1.9989
August 1996	2.0514	August 1997	2.0842
September 1996	2.0266	September 1997	2.0881

Source: International Financial Statistics, December 1996, IMF
International Financial Statistics, November 1997, IMF

The average exchange rate of SDR to Singapore Dollars is:

Singapore Dollars 48.9052/24 months = Singapore Dollars 2.0377

MODIFICATIONS TO APPENDIX I OF SINGAPORE

Notification from Singapore under Article XXIV:6(a)

The following notification from the Permanent Mission of the Republic of Singapore was received on 25 May 1998, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement (1994), Singapore would like to amend the names of two entities listed in its Annexes 1 and 3 schedules respectively. The amendments are as follows:

Annex 1

"Ministry of Labour" amended to "Ministry of Manpower"

Annex 3

"Singapore Tourist
Promotion Board" amended to "Singapore Tourism Board"

The amendments are minor in nature and do not alter the coverage of the GPA with respect to Singapore.

¹ Article XXIV:6(a) provides that "if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. MODIFICATIONS TO APPENDICES II AND III OF HONG KONG,
CHINA

Notification from Hong Kong, China under Article XXIV:6(a)

The attached notification from the Hong Kong Economic and Trade Office was received on 20 March 1998, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹*

Pursuant to Article XXIV, paragraph 6(a) of the Agreement on Government Procurement (1994), I have the honour to submit to the Committee on Government Procurement updated versions of Appendices II and III of Hong Kong, China, reflecting changes regarding the Kowloon-Canton Railway Corporation.

*English only

¹Article XXIV:6(a) provides that if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII.

Committee on Government Procurement

*THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS
EXPRESSED*

IN NATIONAL CURRENCIES FOR 1998/1999

Addendum

European Community

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified in response by the European Community is attached.

Threshold¹ calculations - for period 1998-1999

SDR	130,000	200,000	400,000	5,000,000
ECU	133,914	206,022	412,044	5,150,548
Franc belge/ Franc luxembourgeois	5,299,053	8,152,389	16,304,778	203,809,721
Dansk krone	988,777	1,521,195	3,042,389	38,029,866
Deutsche Mark	257,285	395,823	791,646	9,895,573
Drachmi	41,121,407	63,263,704	126,527,407	1,581,592,592
Peseta	21,752,164	33,464,867	66,929,735	836,621,683
Franc français	874,914	1,346,021	2,692,042	33,650,525
Irish pound	104,545	160,839	321,678	4,020,974
Lira italiana	264,123,457	406,343,780	812,687,561	10,158,594,510
Nederlandse gulden	288,643	444,067	888,133	11,101,666
Oester. schilling	1,810,303	2,785,082	5,570,164	69,627,055
Escudo	26,310,387	40,477,518	80,955,036	1,011,937,953
Markka	777,622	1,196,342	2,392,684	29,908,547
Svensk krona	1,157,410	1,780,631	3,561,262	44,515,771
Pound sterling	104,435	160,670	321,340	4.016.744

¹The calculation of the thresholds of the WTO Agreement, expressed in ECU and in national currencies, has been based on the average monthly SDR to ECU exchange rate over 24 months from September 1995 through August 1997 (1 ECU • 0.859089 SDR).

The value of the thresholds in ECU and in national currencies has been expressed without the value-added tax (VAT) because the Community excludes VAT when calculating the value of contracts.

As regards the impact of the changeover to the Euro on Community policies, it shall be specified that:

- as from 1 January 1999, thresholds expressed in ECU will be expressed in Euros;
- the value of thresholds in national currencies will not change during the reference period.

MODIFICATIONS TO APPENDICES II, III AND IV OF ISRAEL

Notification from Israel under Article XXIV:6(a)

The notification reproduced below was received from the Permanent Mission of Israel on 5 February 1998, with the request that it be circulated to the Parties to the Agreement on Government Procurement (1994). In accordance with Article XXIV:6(a), any Party with an objection to the proposed changes is invited to notify the Secretariat within 30 days from the date of issue of this document.¹

In conformity with paragraph 6(a) of Article XXIV, I hereby inform you of the following modifications to Israel's schedule:

1) *Appendices II and III: Amend Israel's schedule to include an additional publication as follows:*

*The Jerusalem Post
International Herald Tribune-Haaretz.*

2) *Appendix IV: Replace The Jerusalem Post with The Official Gazette.*

¹Article XXIV:6(a) provides that if the rectifications, transfers or other modifications are of a purely formal or minor nature, they shall become effective provided there is no objection within 30 days. In other cases, the Chairman of the Committee shall promptly convene a meeting of the Committee. The Committee shall consider the proposal and any claim for compensatory adjustments, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement prior to such notification. In the event of agreement not being reached, the matter may be pursued in accordance with the provisions contained in Article XXII.

REQUEST FOR OBSERVER STATUS

Communication from Slovenia

The following communication, dated 28 January 1998, has been received from the Permanent Mission of the Republic of Slovenia with the request that it be circulated to the Parties to the Agreement on Government Procurement.

Referring to your communication in document WT/L/206 and the Decision (GPA/1) inviting Members of the World Trade Organization (WTO), not Parties to the Agreement on Government Procurement (GPA 1994), to participate as observers in the discussions on the review of the Government Procurement Agreement (GPA 1994), in accordance with Article XXIV:7 of that Agreement, the Government of Slovenia wishes to request to be allowed to participate as an observer in the work of the Committee on Government Procurement.

Committee on Government Procurement

RELATIONSHIP OF THE TOKYO ROUND AGREEMENT ON
GOVERNMENT PROCUREMENT TO THE 1994 AGREEMENT ON
GOVERNMENT PROCUREMENT

Note by the Secretariat

1) The present note has been prepared in response to the Committee's request at its meeting on 29 September 1997 (GPA/M/7, paragraph 28). It aims to clarify the legal and procedural aspects of the supersession of the Agreement on Government Procurement done on 12 April 1979, as revised by a Protocol of Amendments done on 2 February 1987 which entered into force on 14 February 1988, (hereinafter referred to as •the Tokyo Round Agreement•) by the Agreement on Government Procurement done in Marrakesh on 15 April 1994 (hereafter referred to as •the 1994 Agreement•). It describes the status of acceptances under the two Agreements and discusses the modalities of the supersession of the Tokyo Round Agreement by the 1994 Agreement for the consideration of the Committee established under the 1994 Agreement.

2) The following GATT Contracting Parties were Parties to the Tokyo Round Agreement on Government Procurement: Austria, Canada, Finland, Hong Kong, Israel, Japan, Norway, Singapore, Sweden, Switzerland, the United Kingdom, the United States and the European Community. The United States withdrew from the Tokyo Round Agreement on 10 November 1995, with effect from 9 January 1996 (Let/1981), and Austria on 15 September 1997, with effect from 14 November 1997 (WT/Let/170).

3) The 1994 Agreement on Government Procurement has been accepted by Belgium, the European Community, Canada, Finland, France, Greece, Israel, Japan, Korea, Luxembourg, Norway, Spain, Sweden, Switzerland and the United States (WT/Let/51). Since its entry into force on 1 January 1996, the Kingdom of the Netherlands with respect to Aruba acceded to the 1994 Agreement on 25 October 1996 (WT/Let/111), Hong Kong on 19 June 1997 (WT/Let/141), Liechtenstein on 18 September 1997 (WT/Let/166) and Singapore on 20 October 1997 (WT/Let/179).

4) *With the accession of Singapore to the 1994 Agreement on 20 October 1997, all Parties to the Tokyo Round Agreement have now accepted the 1994 Agreement.*

5) *Article XXIV:3(c) of the 1994 Agreement on Government Procurement provides that:*

•3.(c)Between Parties to this Agreement which are also Parties to the 1988 Agreement, the rights and obligations of this Agreement shall supersede those under the 1988 Agreement. •

It seems clear from this provision of the 1994 Agreement, which relates to the same subject-matter as the Tokyo Round Agreement (plus some additional subject-matter), that all the Parties to the Tokyo Round Agreement intend that the matters covered should be governed by the 1994 Agreement. Therefore, in the light of the provisions of Article 59.1(a) of the Vienna Convention on the Law of Treaties, 1969,² it would appear that the Tokyo Round Agreement has been considered as terminated with effect from the time that all its Parties became Parties to 1994 Agreement, that is to say 20 October 1997. In the light of the above, it would not appear necessary for any specific further action to be taken, whether in the form of individual countries withdrawing from the Tokyo Round Agreement or in the form of a decision of the Committee of the Tokyo Round Agreement formally terminating its existence.³ However, the Committee of the 1994 Agreement may wish to take note of the legal opinion expressed in this note at a future meeting.

¹Article 59.1(a) of the Vienna Convention on the Law of Treaties (1969) deals with the termination or suspension of the operation of a treaty implied by conclusion of a later treaty. It states that:

•1.A treaty shall be considered as terminated if all the parties to it conclude a later treaty relating to the same subject-matter and:

(a)it appears from the later treaty or is otherwise established that the parties intended that the matter should be governed by that treaty;•

²In the light of Article 3.2 of the DSU which recognizes that the DSU serves to preserve the rights and obligations of Members under the covered agreements and to clarify the existing provisions of those agreements in accordance with customary rules of interpretation of public international law and given that such rules have been considered by WTO panels and the Appellate Body to include, in particular, those provided in the Vienna Convention, it is relevant to examine the relevant provisions of the Vienna Convention in this connection.

³Decisions of this nature were taken by Committees of the Tokyo Round Agreements on Customs Valuation (VAL/M/36 and VAL/57), Import Licensing (LIC/M/37, LIC/25) and Technical Barriers to Trade (TBT/M/50, TBT/40) in the light of the Decision of 8 December 1994 adopted by the Preparatory Committee to terminate GATT 1947 (PC/12, L/7583). However, the WTO agreements replacing these agreements did not contain provisions concerning the supersession of the former agreement by the latter agreements.

*THE THRESHOLDS IN APPENDIX I OF THE AGREEMENT AS
EXPRESSED*

IN NATIONAL CURRENCIES FOR 1998/1999

Hong Kong, China

In pursuance of the agreed procedures (GPA/1, Annex 3), delegations have been invited to notify their respective national thresholds for the period 1998-1999.

The information notified by Hong Kong, China is reproduced below. Other submissions will be compiled in addenda to this document.

1) Calculation of Threshold Figures in National Currency

<i>Annex 1 Entities</i>	<i>Threshold value (SDR)</i>	<i>Threshold value in HK Dollar</i>
<i>1. Goods and services other than construction services</i>	<i>130,000</i>	<i>1,433,000</i>
<i>2. Construction services</i>	<i>5,000,000</i>	<i>55,109,000</i>

<i>Annex 2 Entities</i>	<i>Threshold value (SDR)</i>	<i>Threshold value in HK Dollar</i>
--------------------------------	---	--

<i>1. Goods and services other than construction services</i>	<i>200,000</i>	<i>2,204,000</i>
<i>2. Construction services</i>	<i>5,000,000</i>	<i>55,109,000</i>

<i>Annex 3 Entities</i>	<i>Threshold value (SDR)</i>	<i>Threshold value in HK Dollar</i>
1. <i>Goods and services other than construction services</i>	400,000	4,409,000
2. <i>Construction services</i>	5,000,000	55,109,000

2) Method of Calculation

The calculation of national threshold is based on the monthly average exchange rate of SDR to Hong Kong Dollar over 24 months from November 1995 to October 1997.

<i>Period (Month/Year)</i>	<i>Average HKD Equivalent of SDR</i>	<i>No. of Days</i>	<i>HKD Equivalent</i>
November 1995	11.55831	30	346.7493
December 1995	11.48895	31	356.15745
January 1996	11.33689	31	351.44359
February 1996	11.33411	29	328.68919
March 1996	11.30279	31	350.38649
April 1996	11.22103	30	336.6309
May 1996	11.17581	31	346.45011
June 1996	11.16668	30	335.0004
July 1996	11.22289	31	347.90959
August 1996	11.27849	31	349.63319
September 1996	11.19506	30	335.8518
October 1996	11.13161	31	345.07991
November 1996	11.24094	30	337.2282
December 1996	11.12592	31	344.90352
January 1997	10.95726	31	339.67506
February 1997	10.72673	28	300.34844
March 1997	10.67492	31	330.92252
April 1997	10.62654	30	318.7962
May 1997	10.72189	31	332.37859

<i>Period (Month/Year)</i>	<i>Average HKD Equivalent of SDR</i>	<i>No. of Days</i>	<i>HKD Equivalent</i>
<i>June 1997</i>	<i>10.76533</i>	<i>30</i>	<i>322.9599</i>
<i>July 1997</i>	<i>10.66086</i>	<i>31</i>	<i>330.48666</i>
<i>August 1997</i>	<i>10.48379</i>	<i>31</i>	<i>324.99749</i>
<i>September 1997</i>	<i>10.52769</i>	<i>30</i>	<i>315.8307</i>
<i>October 1997</i>	<i>10.59618</i>	<i>31</i>	<i>328.48158</i>
<i>TOTAL</i>		<i>731</i>	<i>8056.99078</i>

HKD Equivalent of SDR for the 24 months period preceding November 1997:
