

DOCUMENTS

concerning the accession of the Republic of Austria, the Kingdom of Sweden, the Republic of Finland and the Kingdom of Norway to the European Union

COMMISSION OPINION

of 19 April 1994

on the applications for accession to the European Union by the Republic of Austria, the Kingdom of Sweden, the Republic of Finland and the Kingdom of Norway

(94/C 241/01)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Union, and in particular Article O thereof,

Whereas the Republic of Austria, the Kingdom of Sweden, the Republic of Finland and the Kingdom of Norway have applied to become members of the European Union;

Whereas, in its opinions of 31 July 1991 (Austria), 31 July 1992 (Sweden), 4 November 1992 (Finland) and 24 March 1993 (Norway), the Commission has already had an opportunity of expressing its views on certain essential aspects of the problems arising in connection with these applications;

Whereas the terms for the admission of these States and the adjustments necessitated by their accession have been negotiated in Conference between the Member States and the applicant States;

Whereas, on the completion of those negotiations, it is apparent that the provisions so agreed are fair and proper; whereas, this being so, the European Union's enlargement, while preserving its internal cohesion and dynamism, will enable it to take a fuller part in the development of international relations;

Whereas, in so far as the Treaty of Accession transposes the principles governing the institutional balance of the Union of 12 to a Union of 16; these provisions are acceptable for the period up until the enforcement of the provisions which will follow the Intergovernmental Conference provided for in the Treaty on the European Union;

Whereas, in joining the European Union, the applicant States accept, without reserve, the Treaty on European Union and all its objectives, all decisions taken since the entry into force of the Treaties establishing the European

Communities and the Treaty on European Union and the options taken in respect of the development and strengthening of those Communities and of the Union;

Whereas it is an essential feature of the legal order introduced by the Treaties establishing the European Communities that certain of their provisions and certain acts adopted by the institutions are directly applicable, that Community law takes precedence over any national provisions which might conflict with it, and that procedures exist for ensuring the uniform interpretation of Community law; whereas accession to the European Union implies recognition of the binding nature of these rules, observance of which is indispensable to guarantee the effectiveness and unity of Community law;

Whereas the principles of liberty, democracy and respect for human rights and fundamental freedoms and of the rule of law form part of the common heritage of the peoples of the States brought together in the European Union and constitute therefore essential elements of membership of the said Union;

Whereas one of the objectives of the European Union is the desire of the Member States to deepen the solidarity between their peoples while respecting their history, their culture and their traditions;

Whereas enlargement of the European Union through the accession of the Republic of Austria, the Kingdom of Sweden, the Republic of Finland and the Kingdom of Norway will help to strengthen safeguards for peace and freedom in Europe,

HEREBY DELIVERS A FAVOURABLE OPINION:

on the accession to the European Union of the Republic of Austria, the Kingdom of Sweden, the Republic of Finland and the Kingdom of Norway.

This opinion is addressed to the Council of the European Union.

Done at Brussels, 19 April 1994.

'The office of President shall be held in turn by each Member State in the Council for a term of six months in the order decided by the Council acting unanimously.'

Article 13

The following is substituted for Article 28 of the ECSC Treaty:

Article 28

When the Council is consulted by the Commission, it shall consider the matter without necessarily taking a vote. The minutes of its proceedings shall be forwarded to the Commission.

Wherever this Treaty requires that the assent of the Council be given, that assent shall be considered to have been given if the proposal submitted by the Commission receives the approval:

- of an absolute majority of the representatives of the Member States, including the votes of the representatives of two Member States which each produce at least one tenth of the total value of the coal and steel output of the Community, or

However, for the purpose of applying Articles 45b, 78 and 78b of this Treaty which require a qualified majority, the votes of the members of the Council are weighted as follows:

Unless any provision of this Chapter stipulates otherwise, the arrangements for access to waters laid down in this Section shall apply during a transitional period the end of which shall be marked by the date of implementation of the Community fishing permit system and which will not in any event be later than the date of expiry of the period laid down in Article 14 (2) of Council Regulation (EEC) No 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture.

Subsection I

Article 38

For the purposes of their integration into the Community system for fisheries and aquaculture set up by Regulation (EEC) No 3760/92, access to the waters falling under the sovereignty or within the jurisdiction of the present Member States by vessels flying the flag of Norway and recorded and/or registered in a Norwegian port, hereinafter referred to as 'Norwegian vessels', shall be subject to the system defined in this Subsection.

From the date of Accession, that access regime will ensure that Norway will maintain the fishing possibilities as set out in Article 44.

Article 39

1. Until the date of integration of the specific arrangements laid down in Articles 156 to 165 and 347

to 352 of the Act of Accession of Spain and Portugal into the general rules of the Common Fisheries Policy as established by Regulation (EEC) No 3760/92, only 441 Norwegian vessels, given in Annex IV, hereinafter referred to as 'the basic list', may be authorized to fish in ICES Divisions V b, VI and VII. During the period from the date of accession to 31 December 1995, the zone situated to the south of latitude 56° 30'N, to the east of longitude 12°W and to the north of latitude 50° 30'N is closed for fisheries other than by longliners.

2. Only 165 standard vessels for fishing for demersal species, taken from the basic list, shall be authorized to fish at the same time, provided that they appear on a periodical list adopted by the Commission.

3. 'Standard vessel' means a vessel having a break horse-power equal to 511 kilowatts (kW). The conversion rates for vessels having a different engine power shall be as follows:

— less than 219 kW:0,57,

— equal to or more than 219 kW, but less than 292 kW:0,76,

— equal to or more than 292 kW, but less than 365 kW:0,85,

— equal to or more than 365 kW, but less than 438 kW:0,90,

5. Any adjustments to the basic list resulting from the laying-up, before accession, of a vessel for reasons of *force majeure* shall be adopted at the latest by 1 January 1995 according to the procedure of Article 18 of Regulation (EEC) No 3760/92. These adjustments may not affect the number of vessels and their allocation between each of the categories, nor bring about an increase in overall tonnage or total power for each category. Further, Norwegian vessels designated as replacements may be chosen only from among those listed in Annex V.

6. The number of standard vessels referred to in paragraph 2 may be increased on the basis of the development of fishing possibilities allocated to Norway for stocks subject to limitations on the rate of exploitation within the meaning of Article 8 of Regulation (EEC) No 3760/92 in accordance with the procedure laid down in Article 8 (4) of that Regulation.

7. As and when vessels referred to in the basic list are laid up or scrapped and deleted from the basic list after accession, they may be replaced by vessels of the same category having an engine power not exceeding that of the vessels thus deleted.

The conditions of replacement referred to in the preceding subparagraph shall apply only insofar as the capacity of the fleet of the present Member States is not increased in the Community waters of the Atlantic.

8. Provisions aimed at ensuring that operators comply with rules, including those aimed at the possibility of not authorizing the vessel concerned to fish for a certain period, shall be adopted before 1 January 1995 under the procedure provided for in Article 8 (4) of Regulation (EEC) No 3760/92.

Article 41

Upon the date of accession and until the date of application of the Community fishing permit system, Norwegian vessels shall be authorized to fish in waters falling under the sovereignty or within the jurisdiction of the Member States of the Union as at present constituted, in ICES Divisions II a, III a (Skagerrak) ⁽¹⁾ and IV, under conditions identical to those applicable immediately prior to the entry into force of the Accession Treaty and as laid down by the relevant provisions of Council Regulation (EC) No 3691/93.

TITLE VI
AGRICULTURE

Article 137

1. This Title concerns agricultural products with the exception of products falling within Regulation (EEC) No 3759/92 on the common organization of the market in fishery and aquaculture products.

2. Except where this Act provides otherwise:

— trade by the new Member States between themselves, with third countries or with the present Member States shall be subject to the regime applicable to the latter Member States. The regime applicable in the Community as at present constituted with regard to import duties and charges having equivalent effect, quantitative restrictions and measures having equivalent effect shall be applicable to the new Member States;

— the rights and obligations resulting from the common agricultural policy shall be applicable in full in the new Member States.

3. Subject to the special provisions of this title with regard to different dates or time limits, transitional measures for the agricultural products referred to in paragraph 1 shall cease to apply by the end of the fifth year following the accession of Austria, Finland and Norway. These measures shall nevertheless take full account, for each product, of the total production during the year 1999.

CHAPTER 1

Provisions concerning national aids

Article 138

1. During the transitional period, subject to authorization by the Commission, Norway, Austria and Finland may grant, in an appropriate form, transitional and degressive national aids to producers of basic agricultural products subject to the common agricultural policy.

These aids may be the subject of differentiation in particular by region.

2. The Commission shall authorize the aids provided for in paragraph 1:

— in all cases where the factors introduced by a new Member State show that significant differences exist between the level of support granted by product to its producers before accession and that which may be granted under the common agricultural policy;

— up to an initial amount equal, at most, to this difference.

Initial differences of less than 10 % shall not be deemed significant.

However, the Commission's authorizations:

— shall be granted in conformity with the international commitments of the enlarged Community;

— shall, as far as pigmeat, eggs and poultry are concerned, take account of the price alignment of feed;

— shall not be granted for tobacco.

3. The amount of support provided for in paragraph 2 shall be calculated by basic agricultural product. This calculation shall take into consideration in particular the support measures of prices by intervention mechanisms or by other mechanisms as well as the grant of aids linked to surface area, to prices, to the quantity produced or to the production unit, and the grant of aids to holdings for specific products.

4. Authorizations by the Commission shall:

— define the maximum initial level of the aids, the rate at which they decrease and, where appropriate, the conditions for the granting thereof, taking account also of other aids resulting from Community legislation which are not covered by this Article;

— be granted subject to any adjustments which may be rendered necessary:

— by developments in the common agricultural policy;

— by developments in the level of prices in the Community.

Should such adjustments prove necessary, the amount of the aids or the conditions for the granting thereof shall be amended at the Commission's request or on the basis of a decision by the Commission.

5. Without prejudice to the provisions of paragraphs 1 to 4, the Commission shall authorize, under paragraph 1, in particular, the national aids provided for in Annex XIII, up to the limits and under the conditions provided for in the said Annex.

Article 139

1. The Commission shall authorize Austria, Finland and Norway to maintain aids which are not linked to a particular production and which, for this reason, are not taken into consideration for the purpose of calculating the amount of support under Article 138 (3). In

particular, aids to holdings shall be authorized under this heading.

2. The aids provided for in paragraph 1 shall be subject to the provisions of Article 138 (4).

Aids of the same kind provided for by the common agricultural policy or compatible with Community legislation shall be deducted from the amounts thereof.

3. Aids authorized under this Article shall be abolished at the latest at the end of the transitional period.

4. Paragraph 1 shall not apply to aids to investment.

Article 140

The Commission shall authorize Austria, Finland and Norway to grant the transitional national aids provided for in Annex XIV up to the limits and under the conditions provided for therein. In its authorization, the Commission shall lay down the initial level of the aids, to the extent that it does not result from the conditions provided for by the Annex, and the rate at which they decrease.

Article 141

Where there are serious difficulties resulting from accession which remain after full utilization of the provisions of Articles 138, 139, 140 and 142, and of the other measures resulting from the rules existing in the Community, the Commission may authorize Finland and Norway to grant national aids to producers so as to facilitate their full integration into the common agricultural policy.

Article 142

1. The Commission shall authorize Norway, Finland and Sweden to grant long-term national aids with a view to ensuring that agricultural activity is maintained in specific regions. These regions should cover the agricultural areas situated to the north of the 62nd Parallel and some adjacent areas south of that parallel affected by comparable climatic conditions rendering agricultural activity particularly difficult.

2. The regions referred to in paragraph 1 shall be determined by the Commission, taking into consideration in particular:

- the low population density;
- the portion of agricultural land in the overall surface area;
- the portion of agricultural land devoted to arable crops intended for human consumption, in the agricultural surface area used.

3. The aids provided for in paragraph 1 may be related to physical factors of production, such as hectares of agricultural land or heads of animal taking account of the relevant limits laid down in the common organizations of the market, as well as the historical production patterns of each farm, but must not:

- be linked to future production;
- or lead to an increase in production or in the level of overall support recorded during a pre-accession reference period to be determined by the Commission.

The aids may be differentiated by region.

These aids must be granted in particular in order to:

- maintain traditional primary production and processing naturally suited to the climatic conditions of the regions concerned;
- improve the structures for the production, marketing and processing of agricultural products;
- facilitate the disposal of the said products;
- ensure that the environment is protected and the countryside preserved.

Article 143

1. The aids provided for in Articles 138 to 142 and any other national aid subject to Commission authorization under this Act shall be notified to the Commission. They may not be applied until such authorization has been given.

Communication of existing or envisaged aid measures by the new Member States prior to accession shall be deemed to constitute notification on the date of accession.

2. As regards the aids provided for in Article 142, the Commission shall submit to the Council one year after accession and subsequently every five years a report on:

- the authorizations granted;
- the results of the aid granted under such authorizations.

In preparation for drawing up such reports, Member States in receipt of such authorizations shall supply the Commission in good time with information on the effects of the aids granted, illustrating the development noted in the agricultural economy of the regions in question.

Article 144

In the field of the aids provided for in Articles 92 and 93 of the EC Treaty:

- (a) among the aids applied in the new Member States prior to accession only those communicated to the Commission by 30 April 1995 will be deemed to be 'existing' aids within the meaning of Article 93 (1) of the EC Treaty;
- (b) existing aids and plans intended to grant or alter aids, communicated to the Commission prior to accession, shall be deemed to have been notified on the date of accession.

CHAPTER 2

However, Article 85 of the EC Treaty shall be applicable only as from 1 January 1997 to agreements, decisions and concerted practices implemented by the Norwegian Grain Corporation insofar as:

Article 147

In the agricultural sector where trade between one or more new Member States and the Community as constituted on 31 December 1994, or trade between the new Member States themselves, causes serious disturbances on the market of Austria, Finland or Norway before 1 January 2000, the Commission acting at the request of the Member State concerned, shall decide, within 24 hours of receiving such a request, on such protective measures as it considers necessary. The measures thus decided on shall be applicable forthwith, shall take account of the interest of all parties concerned and shall not entail frontier controls.

If transitional measures are necessary to facilitate the transition from the existing regime in the new Member States to that resulting from application of the common organization of the markets under the conditions set out in this Title, such measures shall be adopted in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC or, as appropriate, in the corresponding Articles of the other Regulations on the common organization of agricultural markets. These measures may be taken during a period expiring on 31 December 1997 and their application shall be limited to that date.

2. The Council, acting unanimously on a proposal from the Commission and after consulting the European Parliament, may extend the period referred to in paragraph 1.

Article 150

1. The transitional measures relating to implementation of the instruments concerning the common agricultural policy not specified in this Act, including in the field of structures, which are required as a result of accession shall be adopted prior to accession in accordance with the procedure laid down in paragraph 3 and shall enter into force on the date of accession at the earliest.

2. The transitional measures referred to in paragraph 1 shall include in particular adaptations to instruments making provision for present Member States for co-financing of certain actions in the field of statistics and control of expenditure.

They may also stipulate that, under certain conditions, national aid corresponding at most to the difference between the price recorded in a new Member State prior to accession and that resulting from application of this Act may be granted to private operators, whether natural or legal persons, holding stocks of products referred to in Article 138 (1) or resulting from processing thereof on 1 January 1995.

3. The Council, acting by a qualified majority on a proposal from the Commission, shall adopt the transitional measures referred to in paragraphs 1 and 2. Article 152

1. If, before 1 January 1996, difficulties arise which are serious and liable to persist in any sector of the economy or which could bring about serious deterioration in the economic situation of a given area, a new

Member State may apply for authorization to take protective measures in order to rectify the situation and adjust the sector concerned to the economy of the common market.

In the same circumstances, any present Member State may apply for authorization to take protective measures with regard to one or more of the new Member States.

2. Upon request by the State concerned, the Commission shall, by emergency procedure, determine the protective measures which it considers necessary, specifying the conditions and modalities in which they are to be put into effect.

In the event of serious economic difficulties and at the express request of the Member State concerned, the Commission shall act within five working days of the receipt of the request accompanied by the relevant background information. The measures thus decided on shall be applicable forthwith, shall take account of the interest of all parties concerned and shall not entail frontier controls.

3. The measures authorized under paragraph 2 may involve derogations from the rules of the EC Treaty, the ECSC Treaty and this Act to such an extent and for such periods as are strictly necessary in order to attain the objectives referred to in paragraph 1. Priority shall be given to such measures as will least disturb the functioning of the common market.

AQUATIC ANIMALS
COMBINED ACIDIFICATION AND HEAT TREATMENT

I. Description of the system

The raw material is reduced by crushing and mixed with formic acid to reduce the pH thereof. The mixture is stored for an intermediary period pending new treatment. The product is then introduced into a heat converter. The progression of the product through the heat converter is controlled by means of mechanical commands limiting its displacement in such a way that at the end of the heat treatment operation the product has undergone a cycle which is sufficient in both time and temperature. After heat treatment, the product is separated into liquid/fat/greaves phases by mechanical means. In order to obtain an animal protein concentrate, the liquid phase is pumped into two heat-exchangers which are steam-heated and equipped with vacuum chambers in order for its humidity to be removed therein in the form of water vapour. The greaves are reincorporated in the protein concentrate before storage.

ANNEX VI

List provided for in Articles 54, 73, 97 and 126 of the Act of Accession

CUSTOMS LEGISLATION

Council Regulation (EEC) No 2913/92 of 12 October 1992 (OJ No L 302 of 19.10.1992) and Commission Regulation (EEC) No 2454/93 of 2 July 1993 (OJ No L 253 of 11.10.1993), as amended by Commission Regulation (EEC) No 3665/93 of 21 December 1993 (OJ No L 335 of 31.12.1993), and protocols of origin included in preferential agreements concluded by the Community:

Without prejudice to the following provisions, this Community legislation shall be applicable to the new Member States as from the date of accession.

1. Articles 22 to 27 of Council Regulation and 35 to 140 of Commission Regulation regarding origin of goods, as amended by Commission Regulation (EEC) No 3665/93 of 21 December 1993 (OJ No L 335 of 31 December 1993), and protocols of origin included in preferential agreements concluded by the Community:

1. Without prejudice to the application of any measure deriving from the common commercial policy, evidences of origin properly issued by third countries in the framework of preferential agreements concluded by the Republic of Austria, the Republic of Finland, the Kingdom of Norway or the Kingdom of Sweden with those countries or in the framework of unilateral national legislation of the new Member States shall be accepted in the respective new Member States, provided that:

— the evidence of origin and the transport documents have been issued the day before accession at the latest;

— the evidence of origin is submitted to the customs authorities four months after accession at the latest.

2. The new Member States are authorized to retain the authorizations with which the status of 'approved exporters' had been granted in the framework of agreements concluded with third countries, provided that:

— such a provision is also provided for in the agreements concluded by those third countries with the Union as at present constituted;

— the approved exporters apply the Community rules of origin.

These authorizations shall be replaced, one year after accession at the latest, by new authorizations issued under the conditions of Community legislation.

3. Requests for subsequent verification of evidences of origin referred to in paragraphs 1, 2 and 4 shall be accepted by the competent customs authorities of the Union as at present constituted and those of the new Member States for a period of two years after issuing of the evidence of origin concerned.

4. Where the evidence of origin and/or the transport documents have been issued before accession and where customs formalities are necessary in respect of trade of goods between the new Member States and the Union as at present constituted or between the new Member States themselves, the provisions of Title V of Protocol 4 on rules of origin of the Agreement on the European Economic Area and of Title V of Protocol No 3 to the Free Trade Agreements between the EC, the Republic of Austria, the Republic of Finland, the Kingdom of Norway and the Kingdom of Sweden apply.

2. Article 76 of Council Regulation and Articles 253 to 289 of Commission Regulation regarding simplified procedures:

1. The new Member States are authorized to retain the authorizations for periodic declarations issued before accession under the conditions subject to which they were granted.

2. These authorizations shall be replaced, one year after accession at the latest, by new authorizations issued under the conditions of Community legislation.

3. Articles 98 to 113 of Council Regulation and 503 to 548 of Commission Regulation regarding customs warehousing:

1. Without prejudice to paragraph 2, the new Member States are authorized to retain the authorizations for customs warehousing issued before accession under the conditions subject to which they were granted.

2. The authorizations referred to in paragraph 1 shall be replaced, one year after accession at the latest, by new authorizations issued under the conditions of Community legislation.

3. The procedure shall be discharged under the conditions of Community legislation. Where the discharge gives incurrence to a customs debt, the amount paid shall be considered as own resources of the Community. Where the amount of a customs debt is determined on the basis of the tariff classification of the import goods, the value for customs purposes and the quantity of the import goods at the time of acceptance of the declaration of their placing under customs warehousing and where this declaration was accepted before accession, these elements are those resulting from the legislation applicable before accession in the new Member State concerned.
4. Articles 114 to 129 of Council Regulation and 549 to 649 of Commission Regulation regarding inward processing:
1. The new Member States are authorized to retain the authorizations for inward processing issued before accession under the conditions subject to which they were granted, until the expiry of their validity but not longer than one year after accession.
 2. Where the validity of the authorizations referred to in paragraph 1 expires later than one year after accession, these authorizations shall be replaced, one year after accession at the latest, by new authorizations issued under the conditions of Community legislation.
 3. The procedure shall be discharged under the conditions of Community legislation. Where the discharge gives incurrence to a customs debt, the amount paid shall be considered as own resources of the Community.
- In order to maintain, where the discharge gives incurrence to a customs debt, the equity between the holder of an authorization established in the Union as at present constituted and those in the new Member States, compensatory interest shall be paid on the import duties due under the conditions of Community legislation from the date of accession.
4. If the declaration for inward processing has been accepted under a drawback system, the drawback is done under the conditions of Community legislation, by and at the expense of the new Member State where the customs debt in respect of which drawback is requested was incurred before the date of accession.
5. Articles 130 to 136 of Council Regulation and 650 to 669 of Commission Regulation regarding processing under customs control:
1. The new Member States are authorized to retain the authorizations for processing under customs control issued before accession under the conditions subject to which they were granted, until the expiry of their validity but not longer than one year after accession.
 2. Where the validity of the authorizations referred to in paragraph 1 expires later than one year after accession, these authorizations shall be replaced, one year after accession at the latest, by new authorizations issued under the conditions of Community legislation.
 3. The procedure shall be discharged under the conditions of Community legislation. Where the discharge gives incurrence to a customs debt, the amount paid shall be considered as own resources of the Community.
6. Articles 137 to 144 of Council Regulation and 670 to 747 of Commission Regulation regarding temporary importation:
1. The new Member States are authorized to retain the authorizations for temporary importation issued before accession under the conditions subject to which they were granted, until the expiry of their validity but not longer than one year after accession.
 2. Where the validity of the authorizations referred to in paragraph 1 expires later than one year after accession, these authorizations shall be replaced, one year after accession at the latest, by new authorizations issued under the conditions of Community legislation.

candidate in elections to the European Parliament in the applicant State of residence by virtue of this Annex;

- (b) is not a national of the applicant State of residence but satisfies the same conditions in respect of the right to vote and to stand as a candidate as that State imposes by law on its own nationals,

shall have the right to vote and to stand as a candidate in elections to the European Parliament in the applicant State of residence unless deprived of those rights pursuant to Articles 5 and 6.

Where, in order to stand as a candidate, nationals of the applicant State of residence must have been nationals for a certain minimum period, citizens of the Union shall be deemed to have met this condition when they have been nationals of a Member State for the same period.

Article 3

1. No person may vote in the applicant State if that person voted in the 1994 elections in any of the Member States.
2. No person may stand as a candidate in the applicant State if he stood as a candidate in the 1994 elections in any of the Member States.

Article 4

If, in order to vote or to stand as candidates, nationals of the applicant State of residence must have spent a certain minimum period as a resident in the electoral territory of that State, a Community voter or a Community national entitled to stand as a candidate shall be deemed to have fulfilled that condition where he has resided for an equivalent period in another Member State. This provision shall not prejudice any specific conditions as to length of residence in a given constituency or locality.

Article 5

1. Any citizen of the Union who resides in the applicant State of which he is not a national and who, through an individual criminal law or civil law decision, has been deprived of his right to stand as a candidate under either the law of the applicant State of residence or the law of his home Member State, shall be precluded from exercising that right in the applicant State of residence in elections to the European Parliament.

Article 6

1. The applicant State of residence may check whether the citizens of the Union who have expressed a desire to exercise their right to vote there have not been deprived of that right in the home Member State through an individual criminal law or civil law decision.
2. For the purposes of paragraph 1, the applicant State of residence may notify the home Member State of the declaration referred to in Article 8 (2). To that end, the relevant and normally available information from the home Member State shall be provided in good time and in an appropriate manner; such information may only include details which are strictly necessary for the implementation of this Article and may be used only for that purpose. If the information provided invalidates the content of the declaration, the Member State of residence shall take the appropriate steps to prevent the person concerned from voting.
3. The home Member State may, in good time and in an appropriate manner, submit to the applicant State of residence any information necessary for the implementation of this Article.

Article 7

1. A Community voter exercises his right to vote in the applicant State of residence if he has expressed the wish to do so.
2. If voting is compulsory in the applicant State of residence, Community voters who have expressed the wish to do so shall be obliged to vote.

CHAPTER II

Exercise of the right to vote and the right to stand as a candidate

Article 8

1. The applicant State shall take the necessary measures to enable a Community voter who has expressed the wish to be entered on the electoral roll sufficiently in advance of polling day.

2. In order to have his name entered on the electoral roll, a Community voter shall produce the same documents as a voter who is a national. He shall also produce a formal declaration stating:

- (a) his nationality and his address in the electoral territory of the applicant State of residence;
- (b) where applicable, the locality or constituency of any other Member State on the electoral roll of which his name was last entered, and
- (c) that he has not exercised his right to vote in any of the Member States in the 1994 elections.

3. The applicant State of residence may also require a Community voter to:

- (a) state in his declaration under paragraph 2 that he has not been deprived of the right to vote in his home Member State;
- (b) produce a valid identity document, and
- (c) indicate the date from which he has been resident in that State or in another Member State.

4. Community voters who have been entered on the electoral roll shall remain thereon, under the same conditions as voters who are nationals, until such time as they request to be removed or until such time as they are removed automatically because they no longer satisfy the requirements for exercising the right to vote.

Article 9

1. When he submits his application to stand as a candidate, a Community national shall produce the same supporting documents as a candidate who is a national. He shall also produce a formal declaration stating:

- (a) his nationality and his address in the electoral territory of the applicant State of residence;
- (b) that he was not standing as a candidate for election to the European Parliament in 1994 in any other Member State, and
- (c) where applicable, the locality or constituency of any other Member State on the electoral roll of which his name was last entered.

2. When he submits his application to stand as a candidate a Community national must also produce an attestation from the competent administrative authorities of his home Member State certifying that he has not been deprived of the right to stand as a candidate in that Member State or that no such disqualification is known to those authorities.

3. The applicant State of residence may also require a Community national entitled to stand as a candidate to produce a valid identity document. It may also require him to indicate the date from which he has been a national of a Member State.

Article 10

2. Should a person be refused entry on the electoral roll or his application to stand as a candidate be rejected, the person concerned shall be entitled to legal remedies on the same terms as the legislation of the applicant State of residence prescribes for voters and persons entitled to stand as candidates who are its nationals.

Article 11

The applicant State of residence shall inform Community voters and Community nationals entitled to stand as candidates in good time and in an appropriate manner of the conditions and detailed arrangements for the exercise of the right to vote and to stand as a candidate in elections in that State.

Article 12

The present Member States and the applicant State shall exchange the information required for the implementation of Article 3.

CHAPTER III

Derogations and transitional provisions

Article 13

1. If on 1 January 1993, in the applicant State, the proportion of citizens of the Union of voting age who reside in it but are not nationals of it exceeds 20 % of the total number of persons entitled to vote, the applicant State may, by way of derogation from Articles 2, 8, and 9:

- (a) restrict the right to vote to Community voters who have resided in the applicant State for a minimum period, which may not exceed five years;
- (b) restrict the right to stand as a candidate to Community nationals entitled to stand as candidates who have resided in the applicant State for a minimum period, which may not exceed 10 years.

These provisions are without prejudice to appropriate measures which the applicant State may take with regard to the composition of lists of candidates and which are intended in particular to encourage the integration of non-national citizens of the Union.

However, Community voters and Community nationals entitled to stand as candidates who, owing to the fact that they have taken up residence outside their home Member State or by reason of the duration of such residence, do not have the right to vote or to stand as candidates in that home State shall not be subject to the conditions as to length of residence set out above.

2. The applicant State which invokes derogations under paragraph 1 shall furnish the Commission with all the necessary background information.

Protocol No 9

on road, rail and combined transport in Austria

PART I

DEFINITIONS

Article 1

For the purposes of this Protocol, the following definitions shall apply:

- (a) 'vehicle' shall be as defined in Article 2 of Regulation (EEC) No 881/92, as applied at the date of the signature of the Accession Treaty;
- (b) 'international carriage' shall be as defined in Article 2 of Regulation (EEC) No 881/92, as applied at the date of signature of the Accession Treaty;
- (c) 'transit traffic through Austria' shall mean traffic through Austrian territory from a departure point to a destination, both of which lie outside Austria;
- (d) 'heavy goods vehicle' shall mean any motor vehicle with a maximum authorized weight of over 7,5 tonnes registered in a Member State designed to carry goods or haul trailers, including semi-trailer tractor units, and trailers with a maximum authorized weight of over 7,5 tonnes and hauled by a motor vehicle registered in a Member State with a maximum authorized weight of 7,5 tonnes or less;
- (e) 'transit of goods by road through Austria' shall mean transit through Austria by heavy goods vehicles, regardless of whether they are laden or not;
- (f) 'combined transport' shall mean the carriage of goods by heavy goods vehicles or loading units which complete part of their journey by rail and either begin or end the journey by road, whereby transit traffic may under no circumstances cross Austrian territory on its way to or from a rail terminal by road alone;
- (g) 'bilateral journeys' shall mean international carriage on journeys undertaken by a vehicle where the point of departure or arrival is in Austria and the point of arrival or departure, respectively, is in another Member State and unladen journeys undertaken in conjunction with such journeys.

PART II

RAIL AND COMBINED TRANSPORT

Article 2

This Part shall apply to measures relating to the provision of rail and combined transport crossing the territory of Austria.

Article 3

The Community and the Member States concerned shall, within the framework of their respective competences, adopt and closely coordinate measures for the development and promotion of rail and combined transport for the trans-Alpine carriage of goods.

Article 4

When establishing the guidelines provided for in Article 129c of the EC Treaty, the Community shall ensure that the axes defined in Annex 1 form part of the trans-European networks for rail and combined transport and are furthermore identified as projects of common interest.

Article 5

The Community and the Member States concerned shall, within the framework of their respective competences, implement the measures listed in Annex 2.

Article 6

The Community and the Member States concerned shall use their best endeavours to develop and utilise the additional railway capacity referred to in Annex 3.

Article 7

The Community and the Member States concerned shall take measures to enhance the provision of rail and combined transport; where appropriate, and subject to other EC Treaty provisions, such measures shall be established in close consultation with railway companies and other railway service providers. Priority should be given to those measures set out in the Community's provisions on railways and combined transport. In implementing any measures, particular attention shall be attached to the competitiveness, effectiveness and cost transparency of rail and combined transport. In

particular, the Member States concerned shall endeavour to take such measures so as to ensure that prices for combined transport are competitive with those for other modes of transport. Any aid granted to these ends shall comply with Community rules.

Article 8

The Community and the Member States concerned shall, in the event of a serious disturbance in rail transit, such as a natural disaster, take all possible concerted action to maintain the flow of traffic. Priority shall be given to sensitive loads, such as perishable foods.

Article 9

The Commission, acting in accordance with the procedure laid down in Article 16, shall review the operation of this Part.

PART III

ROAD TRANSPORT

Article 10

This Part shall apply to the carriage of goods by road on journeys carried out within the territory of the Community.

Article 11

1. For journeys which involve transit of goods by road through Austria, the regime established for journeys on own account and for journeys for hire or reward under the First Council Directive of 23 July 1962 and Council Regulation (EEC) No 881/92 shall apply subject to the provisions of this Article.

2. Until 1 January 1998, the following provisions shall apply:

- (a) The total of NO_x emissions from heavy goods vehicles crossing Austria in transit shall be reduced by 60 % in the period between 1 January 1992 and 31 December 2003, according to the table in Annex 4.
- (b) The reductions in total NO_x emissions from heavy goods vehicles shall be administered according to an ecopoints system. Under that system any heavy goods vehicle crossing Austria in transit shall require a number of ecopoints equivalent to its NO_x emissions (authorized under the Conformity of Production (COP) value or type-approval value). The method of calculation and administration of such points is described in Annex 5.
- (c) If the number of transit journeys in any year exceeds the reference figure established for 1991 by more than 8 %, the Commission, acting in accordance

with the procedure laid down in Article 16, shall adopt appropriate measures in accordance with paragraph 3 of Annex 5.

- (d) Austria shall issue and make available in good time the ecopoints cards required for the administration of the ecopoints system, pursuant to Annex 5, for heavy goods vehicles crossing Austria in transit.
- (e) The ecopoints shall be distributed by the Commission among Member States in accordance with provisions to be established in accordance with paragraph 6.

3. Before 1 January 1998, the Council, on the basis of a report by the Commission, shall review the operation of provisions concerning transit of goods by road through Austria. The review shall take place in conformity with basic principles of Community law, such as the proper functioning of the internal market, in particular the free movement of goods and freedom to provide services, protection of the environment in the interest of the Community as a whole, and traffic safety. Unless the Council, acting unanimously on a proposal from the Commission and after consulting the European Parliament, decides otherwise, the transitional period shall be extended to 1 January 2001, during which the provisions of paragraph 2 shall apply.

4. Before 1 January 2001, the Commission, in cooperation with the European Environment Agency, shall make a scientific study of the degree to which the objective concerning reduction of pollution set out in paragraph 2 (a) has been achieved. If the Commission concludes that this objective has been achieved on a sustainable basis, the provisions of paragraph 2 shall cease to apply on 1 January 2001. If the Commission concludes that this objective has not been achieved on a sustainable basis the Council, acting in accordance with Article 75 of the EC Treaty, may adopt measures, within a Community framework, which ensure equivalent protection of the environment, in particular a 60 % reduction of pollution. If the Council does not adopt such measures, the transitional period shall be automatically extended for a final period of three years, during which the provisions of paragraph 2 shall apply.

5. At the end of the transitional period, the 'acquis communautaire' in its entirety shall be applied.

6. The Commission, acting in accordance with the procedure laid down in Article 16, shall adopt detailed measures concerning the procedures relating to the ecopoints system, the distribution of ecopoints and technical questions concerning the application of this Article, which shall enter into force on the date of accession of Austria.

The measures referred to in the first subparagraph shall ensure that the factual situation for the present Member States resulting from the application of Council Regulation (EEC) No 3637/92 and of the Administrative

Arrangement, signed on 23 December 1992, setting the date of entry into force and the procedures for the introduction of the ecopoints system referred to in the Transit Agreement, is maintained. All necessary efforts shall be made to ensure that the share of ecopoints allocated to Greece takes sufficient account of Greek needs in this context.

Article 12

1. For international carriage of goods on journeys between Member States, the regime established under Council Regulation (EEC) No 881/92 shall apply subject to the provisions set out in this Article. These provisions shall be applicable until 31 December 1996.

2. For bilateral journeys, existing quotas shall be progressively liberalized and full freedom to provide transport services shall be effective as from 1 January 1997. A first stage of liberalization shall take effect on the date of accession of Austria, a second stage on 1 January 1996.

If necessary, the Council, acting by a qualified majority on a proposal from the Commission, may take appropriate measures to that effect.

3. The Council, acting in accordance with Article 75 of the Treaty, shall adopt appropriate and simple measures to prevent circumvention of the provisions of Article 11 by 1 January 1997 at the latest.

4. As long as the provisions of Article 11 (2) apply, the Member States, in the framework of their mutual cooperation, shall, if necessary, take measures compatible with the EC Treaty against misuse of the ecopoints system.

5. Hauliers with a Community authorization issued by the competent authorities in Austria shall not be entitled to carry out an international carriage of goods on journeys where neither loading nor unloading takes place in Austria. All such journeys involving transit through Austria shall, however, be subject to the provisions of Article 11 and also, with the exception of journeys between Germany and Italy, to existing quotas, which shall be subject to the provisions of paragraph 2 above.

Article 13

1. Until 31 December 1996, the provisions of Regulation (EEC) No 3118/93 shall not apply to hauliers with a Community authorization issued by the competent authorities in Austria for the operation of national road haulage services in other Member States.

2. During the same period, the provisions of Regulation (EEC) No 3118/93 shall not apply to hauliers with a Community authorization issued by the competent authorities in another Member State for the operation of national road haulage services in Austria.

Article 14

1. There shall be no controls at the borders between Austria and other Member States. However, in derogation from Regulations (EEC) No 4060/89 and (EEC) No 3912/92 and notwithstanding Article 153 of the Act of Accession, non-discriminatory physical controls requiring vehicles to halt in order solely to verify ecopoints issued under the provisions of Article 11, and transport authorizations referred to in Article 12, may be retained until 31 December 1996. Such controls shall not unduly slow down the normal flow of traffic.

2. To the extent necessary, any control methods including electronic systems applicable after 31 December 1996 and relating to the implementation of Article 11 shall be decided in accordance with the procedure laid down in Article 16.

Article 15

1. Austria may, in derogation from Article 7 (f) of Directive 93/89/EEC, apply, until 31 December 1995, user charges at a maximum level of ECU 3.750 per year including administrative costs and, until 31 December 1996, at a maximum level of ECU 2 500 per year including administrative costs.

2. If Austria makes use of the possibility mentioned in paragraph 1, it shall, in accordance with the first sentence of Article 7 (g) of Directive 93/89/EEC, apply until 31 December 1995 a user charge at a maximum level of ECU 18 per day, ECU 99 per week and ECU 375 per month including administrative costs and, until 31 December 1996, at a maximum level of ECU 12 per day, ECU 66 per week and ECU 250 per month including administrative costs.

3. Austria shall apply a reduction of 50 % to the rates of user charges mentioned in paragraphs 1 and 2 of this Article in favour of vehicles registered in Ireland and Portugal until 31 December 1996, and in Greece until 31 December 1997.

4. Until 31 December 1995 Italy may apply to vehicles registered in Austria a charge at a maximum level of ECU 6,5 per entrance including administrative costs and, until 31 December 1996, at a maximum level of ECU 3,5 per entrance including administrative costs. This charge shall be administered in a manner consistent with Article 7 (c) of Directive 93/89/EEC.

PART IV

GENERAL PROVISIONS

Article 16

1. The Commission shall be assisted by a Committee composed of the representatives of the Member States and chaired by the representative of the Commission.

2. When reference is made to the procedure laid down in this Article, the representative of the Commission shall submit to the Committee a draft of the measures to be taken. The Committee shall deliver its opinion on the draft within a time limit which the Chairman may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148 (2) of the EC Treaty in the case of decisions which the Council is required to adopt on a

proposal from the Commission. The votes of the representatives of the Member States within the Committee shall be weighted in the manner set out in that Article. The Chairman shall not vote.

3. The Commission shall adopt the measures envisaged if they are in accordance with the opinion of the Committee.

If the measures envisaged are not in accordance with the opinion of the Committee, or if no opinion is delivered, the Commission shall without delay submit to the Council a proposal relating to the measures to be taken. The Council shall act by a qualified majority.

4. If, on the expiry of a period of three months from the date of referral to the Council, the Council has not acted, the proposed measures shall be adopted by the Commission.

The figures in column 3 shall be adapted in accordance with the procedure laid down in Article 16 to take account of transit journeys by heavy goods vehicles registered in Finland, Norway and Sweden, based on indicative values for the respective countries calculated on the basis of the number of transit journeys in 1991 and a standard value of NO_x emission of 15,8 grammes NO_x/kWh.

ANNEX 5

CALCULATION AND ADMINISTRATION OF ECOPOINTS

referred to in Article 11 (2) (b) of the Protocol

1. The following documents shall be submitted for each heavy goods vehicle each time it travels through Austria (in either direction):

- (a) a document showing the COP value for NO_x emissions from the vehicle in question;
- (b) a valid ecopoints card issued by the competent authority.

Concerning (a):

in the case of heavy goods vehicles registered after 1 October 1990, the document showing the COP value shall be a certificate issued by the appropriate authority giving details of an official COP value for NO_x emissions or the type-approval certificate showing the date of registration and value established for type-approval purposes. In the latter case, the COP value shall be the type-approval increased by 10 %. Once such a value has been determined for a vehicle it cannot be changed during the vehicle's life.

In the case of vehicles registered before 1 October 1990 and vehicles for which no certificate has been submitted, a COP value of 15,8 g/kWh shall be set.

Concerning (b):

the ecopoints card shall contain a certain number of points and shall be endorsed as follows on the basis of the COP value for the vehicles in question:

- 1. each g/kWh NO_x emission corresponding to the value shown in the document referred to in 1 (a) shall count as one point:
 - 2. NO_x emission values shall be rounded up to the next full point when they are to a decimal place of 0,5 or more, otherwise they shall be rounded down.
2. The Commission, acting in accordance with the procedures laid down in Article 16, shall at threemonth intervals calculate the number of journeys and the average NO_x value of the heavy goods vehicles detailed for each nationality.
3. If Article 11 (2) (c) applies, the number of ecopoints for the following year shall be established as follows:

The quarterly average NO_x emission values for lorries in the current year, calculated in accordance with paragraph 2 above, will be extrapolated to produce the average NO_x emission value anticipated for the following year. The forecast value, multiplied by 0,0658 and by the number of ecopoints for 1991 set out in Annex 4, will be the number of ecopoints for the year in question.

II. DECLARATIONS ADOPTED BY THE PLENIPOTENTIARIES

1. Joint Declaration on Common Foreign and Security Policy

1. The Union notes the confirmation by Norway, Austria, Finland and Sweden of their full acceptance of the rights and obligations attaching to the Union and its institutional framework, known as the 'acquis communautaire', as it applies to present Member States. This includes in particular the content, principles and political objectives of the Treaties, including those of the Treaty on European Union.

The Union and the Kingdom of Norway, the Republic of Austria, the Republic of Finland and the Kingdom of Sweden agree that:

- accession to the Union should strengthen the internal coherence of the Union and its capacity to act effectively in foreign and security policy;
 - the new Member States will, from the time of their accession, be ready and able to participate fully and actively in the Common Foreign and Security Policy as defined in the Treaty on European Union;
 - the new Member States will, on accession, take on in their entirety and without reservation all the objectives of the Treaty, the provisions of Title V thereof, and the relevant declarations attached to it;
 - the new Member States will be ready and able to support the specific policies of the Union in force at the time of their accession.
2. With regard to Member States' obligations deriving from the Treaty on European Union concerning the implementation of the Union's Common Foreign and Security Policy it is understood that on the day of accession the legal framework of the acceding countries will be compatible with the 'acquis'.

2. Joint Declaration on Article 157 (4) of the Act of Accession

The new Member States will take part in a system involving the rotation of three Advocates-General in the alphabetical order applied at present, it being understood that Germany, France, Italy, Spain and the United Kingdom will not take part in that system, as they will have a permanent Advocate-General each. The alphabetical order is thus the following:

Belgique (1988-1994), Danmark (1991-1997), Ellas (1994-2000), Ireland, Luxembourg, Nederland, Norge, Österreich, Portugal, Suomi, Sverige.

It follows that as from accession one Advocate-General of Spanish nationality and one of Irish nationality will be appointed. The term of office of the Spanish Advocate-General will expire on 6 October 1997, and the term of office of the Irish Advocate-General will expire on 6 October 2000.

3. Joint Declaration on the Court of Justice of the European Communities

Such additional measures as may prove necessary following the accession of the new Member States should be taken by the Council which, at the request of the Court, may increase the number of Advocates-General to nine and make the necessary adjustments pursuant to the provisions of the third paragraph of Article 32a of the ECSC Treaty, the third paragraph of Article 166 of the EC Treaty and the third paragraph of Article 138 of the Euratom Treaty.

4. Joint Declaration on the application of the Euratom Treaty

The Contracting Parties, recalling that the Treaties on which the European Union is founded apply to all Member States on a non-discriminatory basis and without prejudice to the rules governing the internal market, acknowledge that, as Contracting Parties to the Treaty establishing the European Atomic Energy Community, Member States decide to produce or not to produce nuclear energy according to their specific policy orientations.

As regards the back end of the nuclear fuel cycle, it is the responsibility of each Member State to define its own policy.

5. Joint Declaration on secondary residences

Nothing in the 'acquis communautaire' prevents individual Member States from taking national, regional or local measures regarding secondary residences, provided that they are necessary for land-use planning and environmental protection and apply without direct or indirect discrimination between nationals of the Member States in conformity with the 'acquis'.

6. Joint Declaration on standards for the protection of the environment, health and product safety

The Contracting Parties emphasize the great importance of promoting a high level of health, safety and environmental protection as part of Community action, in conformity with the objectives and in accordance with the criteria laid down in the Treaty on European Union. In this context they also refer to the Resolution of 1 February 1993 on a Community programme of policy and action in relation to the environment and sustainable development.

Conscious of the attachment of the new Member States to the preservation of the standards they have implemented in certain fields, owing in particular to their special geographical and climatic conditions, the Contracting Parties have agreed, exceptionally and for specific cases, on a procedure for examining the existing 'acquis communautaire', with the full participation of the new Member States, under the terms and conditions laid down in the Accession Treaty.

Without prejudice to the outcome of the agreed examination procedure, the Contracting Parties undertake to make every endeavour to conclude that procedure before the expiry of the transitional period laid down. At the end of the transitional period, the entire 'acquis communautaire' will be applicable in the new Member States under the same conditions as in the present Member States of the Union.

7. Joint Declaration on Articles 32, 69, 84, and 112 of the Act of Accession

The Contracting Parties recall that in the Ministerial meeting of 21 December 1993 the Conferences noted that:

- the goal of the agreed solution is to take decisions before the end of the transitional period;
- the review of the *acquis communautaire* shall be without prejudice to the result;
- when undertaking the review the Union will also take into account the criteria laid down in Article 130r(3) of the EC Treaty.

8. Joint Declaration on the institutional procedures of the Accession Treaty

In adopting the institutional provisions of the Accession Treaty, the Member States and the applicant countries agree that, as well as examining the legislative role of the European Parliament and the other matters envisaged in the Treaty on European Union, the Intergovernmental Conference to be convened in 1996 will consider the questions relating to the number of members of the Commission and the weighting of the votes of the Member States in the Council. It will also consider any measures deemed necessary to facilitate the work of the Institutions and guarantee their effective operation.

9. Joint Declaration on Article 172 of the Act of Accession

The Contracting Parties note that any amendment to the EEA Agreement and the Agreement between the EFTA States on the establishment of a Surveillance Authority and a Court of Justice needs the consent of the contracting parties concerned.

The Plenipotentiaries have taken note of the exchange of letters on the arrangement regarding the procedure for adopting certain decisions and other measures to be taken during the period preceding accession which has been reached within the Conference between the European Union and the States which have applied for accession to that Union and which is annexed to this Final Act.

III. OTHER DECLARATIONS

*A. Joint Declarations: The present Member States / Kingdom of Norway***10. Joint Declaration on management of fisheries resources in waters north of 62° N**

The Contracting Parties note the vulnerable and sensitive eco-system of the Barents Sea and northern waters, and recognize the vital need to maintain sound management, based on sustainable conservation and optimal utilisation of all stocks in these waters.

They agree that upon the integration of these waters into the common fisheries policy (CFP), such integration shall be based on the existing management regime in order to continue and improve current technical, control and enforcement standards.

They agree that established regional marine research and scientific institutions close to the relevant waters should continue to make important contributions to the decision-making process in order to provide for rapid and necessary management decisions within the framework of the CFP.

They agree that the negotiations with Russia conducted within the framework of the CFP should be inspired by the principles and practices developed in the Joint Norwegian-Russian Fisheries Commission.

They agree that the present system, whereby consultation with interested fisheries organisations are carried out before negotiations with Russia take place, should be maintained.

They further agree that management objectives and measures include:

- that due account be taken of the interrelationship between stocks in a multi-species, management perspective,
- that the management of pelagic stocks should take into account that such species constitute an important source of food for other species,
- that optimal and stable outtake of the stocks should be ensured, in the long term,
- that when fixing the TAC for a stock, due account should be taken of the conservation of the spawning stock to ensure sufficient recruitment,
- that catches of demersal stocks considered to be within safe biological limits, should be kept within the reproductive ability of the stock and take due account of the special conditions relevant for each individual stock,
- that for demersal stocks outside safe biological limits, measures should be taken to rebuild the stock to sustainable level, also taking into account the minimum requirements of the fishing industry,
- that considerable significance will continue to be attached to the advice of the Advisory Committee on Fisheries Management (ACFM).

The Contracting Parties recognize that the special interests of Norway as the coastal state in waters North of 62° N and of all parties concerned must be taken into account in the future management of these waters according to the rules of the common fisheries policy.

In addition, and as a temporary derogation to the rules in order to encourage a gradual integration of Norway to the CFP, the Contracting Parties have agreed that from the date of accession:

1. Norway is authorized to establish TAC levels and to maintain its fisheries agreement with Russia for a transitional period until 1 July 1998 at the latest; during this transitional period, the establishment of TAC levels and the management of this agreement is ensured by Norway in close association with the Commission;

2. Norway can maintain in these waters on a non-discriminatory basis its current system of:

- technical regulations for a transitional period of 1 year,
- a discard ban for a transitional period of 3 years,
- control measures, and in particular the closing and opening of sensitive areas for a transitional period of 3 years.

During these transitional periods, the Union will examine how best these regulatory mechanisms can be integrated into the common fisheries policy.

11. Joint Declaration on the 12-mile limit

The Contracting Parties recognize the major importance to Norway of the maintenance of viable fishing communities in coastal regions. When reviewing the present arrangements on access to waters within the 12-mile limit in order to decide on future arrangements, the institutions of the Union will pay special attention to the interests of such communities in the Member States.

12. Joint Declaration on ownership of fishing vessels

The Contracting Parties take note of the rulings of the Court of Justice of the European Communities and recognize that, in the context of the common fisheries policy, one of the aims of the system of national quotas, which are allocated to Member States according to the principle of relative stability, is to safeguard the particular needs of regions where local populations are especially dependent on fisheries and related industries.

That aim may justify conditions designed to ensure that there is a real economic link between vessels fishing against the quotas of a Member State and that Member State, if the purpose of such conditions is that the populations dependent on fisheries and related industries should benefit from the quotas.

13. Joint Declaration on the supply of raw material for the fish processing industry in northern Norway

The Contracting Parties note the request of the Kingdom of Norway regarding the supply of raw material for the fish processing industry in northern Norway and recognize the need to ensure a satisfactory balance in supplies in the light of the special situation for that industry. This is to be duly taken into account when the Union establishes autonomous tariff quotas for fish for the processing industry following Norway's accession.

14. Declaration on Article 147 on the Norwegian food processing industry

The Contracting Parties took note of the following Declaration made by the Commission:

'When examining a possible request from Norway for measures to be taken in the event of serious market disruptions, the Commission shall take account of the particular restructuring problem of the Norwegian food processing industry and shall ensure that any necessary measure is taken sufficiently promptly to prevent long-term damage.

The measures taken by the Commission may include, during a period of 3 years, a monitoring system and indicative ceilings allowing that the opening of the market will not create such disturbances as could hamper the necessary restructuring of the food processing sector in Norway for the following products produced from indigenous primary agricultural commodities: meat products, flour, compound feeding stuffs, processed peas and carrots and dairy products with the exception of butter, skimmed milk powder and soft cheese.'

15. Joint Declaration on Svalbard

The Contracting Parties agree that the access of the fleets of the EU Member States to the fisheries resources in the waters up to 200 miles around Svalbard, to harvest the fishing quotas decided by the Union, will remain unchanged in accordance with the present fishery status quo.

The Parties furthermore agree that the living resources in the said waters must be managed in such a way as to provide for a permanent and sustainable yield to the benefit of the EU Member States reflecting their fishing rights in these waters. In particular, such management shall not impair the opportunity of the fleets of the EU Member States to catch their full quotas and shall fully respect the conduct of normal fishing operations.

B. Joint Declarations: The present Member States / Republic of Austria

16. Joint Declaration on the free movement of workers

Should the accession of Austria give rise to difficulties relating to the free movement of workers, the matter may be brought before the institutions of the Union in order to obtain a solution to this problem. This solution will be in strict accordance with the provisions of the Treaties (including those of the Treaty on European Union) and the provisions adopted in application thereof, in particular those relating to the free movement of workers.

17. Joint Declaration on safeguard measures under the agreements with countries of Central and Eastern Europe

1. The 'Europe' agreements between the Communities and their Member States and the countries of Central and Eastern Europe include provisions for the Communities to take appropriate safeguard measures, under certain conditions laid down in these Agreements.
2. In examining and adopting measures under such provisions, the Communities may invoke the situation of producers, or of regions, in one or more of its Member States.
3. The Community rules concerning the implementation of safeguard measures, including the management of Community quotas, ensure that the interests of the Member States are fully taken into account in accordance with the appropriate procedures.

18. Joint Declaration on the resolution of outstanding technical questions in the transport field

The Republic of Austria and the Community declare their willingness to resolve, in the context of the EC-Austria Transit Committee, before the accession of Austria, outstanding technical questions on a consensual basis, especially:

(a) *Issues related to the ecopoints system*

- engine change of motor vehicles registered before 1 October 1990;
- change of tractor unit;
- multinational coupled combinations of vehicles;
- discrimination in favour of Austrian vehicles transiting between two third countries.

(b) *Other issues*

- solution, in a Community framework, for the 'Lofer' Agreement of 29 June 1993 between Austria and Germany;
- list of terminals falling under Article 2 (5) of the Administrative Agreement ('Fürnitz' transport);
- heavy and voluminous transport ('exceptional loads').

19. Joint Declaration on weights and dimensions for road transport vehicles

The Contracting Parties note that the Republic of Austria will comply with the 'acquis communautaire' in the field of maximum authorized weights and dimensions of heavy goods vehicles by permitting, without penalty, 38 tonnes plus 5 % tolerance.

20. Joint Declaration on the Brenner base tunnel

Austria, Germany, Italy and the Community are working actively towards the completion of preparatory studies regarding the Brenner base tunnel, which are due to be handed over in June 1994. Austria, Germany and Italy undertake to reach a decision regarding the construction of the tunnel by 31 October 1994. The Community declares its readiness, in the case of a positive decision by the three States concerned, to support the construction on the basis of available Community financial instruments.

21. Joint Declaration on Articles 6 and 76 of the Act of Accession

The Republic of Austria and the Community confirm their intention to ensure, through appropriate negotiations, that, from the date of accession, hauliers from third countries, in particular from Slovenia and Switzerland, will not enjoy more favourable treatment than EU-hauliers in respect of the transit of heavy goods vehicles through Austrian territory.

C. Joint Declarations: The present Member States / Republic of Finland

22. Joint Declaration on safeguarding Finland's transport links

The Contracting Parties, recognising that for Finland sea routes are especially important, due to geographical location, and particularly difficult to secure, due to climatic conditions, agree that due attention will be given to the maintenance and development of the Finnish maritime links with the rest of the Union in relevant Union initiatives, inter alia in connection with the development of the trans-European networks in Northern Europe.

23. Joint Declaration on the shipment of radioactive waste

The Contracting Parties confirm that the EC legislation does not oblige a Member State to accept a specific shipment of radioactive waste from another Member State.

24. Joint Declaration on the Non-Proliferation Treaty

The Contracting Parties underline the importance of non-proliferation of weapons of mass destruction and their continued support for the Treaty on Non-Proliferation of Nuclear Weapons (NPT);

They confirm that the fulfilment of the obligations under the NPT remains a national responsibility, without prejudice to the responsibilities of the IAEA and those of the European Atomic Energy Community related to the implementation of Article III (1) and (4) of the NPT;

They recall that they are committed to implement the provisions set out within the Nuclear Suppliers' Group guidelines and to ensure as a condition of supply that full-scope IAEA safeguards are implemented in those non-nuclear weapon states to which exports are made of nuclear material and equipment especially designed or prepared for the processing, use or production of nuclear material;

Without prejudice to its obligations pursuant to the Euratom Treaty, the Republic of Finland affirms that in meeting its NPT obligations it will co-operate closely with the IAEA as an IAEA Member State as well as within the framework of INFCIRC/193.

D. Joint Declarations: The present Member States / Kingdom of Sweden

25. Joint Declaration on the Non-Proliferation Treaty

The Contracting Parties underline the importance of non-proliferation of weapons of mass destruction and their continued support for the Treaty on Non-Proliferation of Nuclear Weapons (NPT);

They confirm that the fulfilment of the obligations under the NPT remains a national responsibility, without prejudice to the responsibilities of the IAEA and those of the European Atomic Energy Community related to the implementation of Article III (1) and (4) of the NPT;

They recall that they are committed to implement the provisions set out within the Nuclear Suppliers' Group guidelines and to ensure as a condition of supply that full-scope IAEA safeguards are implemented in those non-nuclear weapon states to which exports are made of nuclear material and equipment especially designed or prepared for the processing, use or production of nuclear material;

Without prejudice to its obligations pursuant to the Euratom Treaty, the Kingdom of Sweden affirms that in meeting its NPT obligations it will cooperate closely with the IAEA as an IAEA Member State as well as within the framework of INFCIRC/193.

26. Joint Declaration on Article 127 of the Act of Accession

The negotiating directives accompanying the Council Decision authorizing the Commission to negotiate the protocols to the bilateral agreements and arrangements referred to in Article 127 will be in conformity with the conclusions reached with Sweden in the Conference.

E. Joint Declarations: The present Member States / Various new Member States

27. Joint Declaration: Norway, Austria, Sweden: on PCB/PCT

The Contracting Parties note that, within their territories, the production of PCB and PCT is banned and that the recycling of these products is no longer practised. Pending the adoption of EC legislation also banning the recycling of PCB and PCT, the Contracting Parties have no objection to the maintenance of such a ban in national legislation.

28. Joint Declaration on Nordic Cooperation

The Contracting Parties record that Sweden, Finland and Norway, as members of the European Union, intend to continue, in full compliance with Community law and the other provisions of the Treaty on European Union, Nordic Cooperation amongst themselves as well as with other countries and territories.

29. Joint Declaration on the number of animals eligible for the suckler-cow premium for Norway and Finland

Should there be, as a result of accession, a disproportionate decrease in the production volumes of other main commodities, then the number of animals eligible for the suckler-cow premium for Norway and Finland will be re-examined.

30. Joint Declaration: Finland, Sweden: on the fishing possibilities in the Baltic Sea

The Contracting Parties note that the allocation of fishery resources in Community waters of the Baltic Sea was calculated on the basis of the reallocation to the Parties of fishing possibilities transferred to the former USSR and to Poland in the reference period. Consequently, the Contracting Parties agree that the future allocation of fishing possibilities obtained in the framework of fishing agreements with Russia, the three Baltic States and Poland, shall not take account of exchanges of fishing possibilities which occurred before enlargement.

31. Declaration on the processing industry in Austria and Finland

The Contracting Parties agree on the following:

- (i) full utilization of Objective 5 (a) measures to cushion effects of Accession,
- (ii) flexibility on transitional national aid schemes designed to facilitate restructuring.

'I have the honour to refer to the question concerning an information and consultation procedure for the adoption of certain decisions and other measures to be taken during the period preceding the accession of your country to the European Union which was raised in the framework of the accession negotiations.

I hereby confirm that the European Union is able to agree to such a procedure, in the terms set out in the Annex to this letter, which could be applied as from the date on which our negotiating Conference declares that the enlargement negotiations have been finally concluded.

I should be obliged if you would confirm that your Government is in agreement with the contents of this letter.'

I have the honour to confirm that my Government is in agreement with the contents of this letter.

*Annex***Information and consultation procedure for the adoption of certain decisions and other measures to be taken during the period preceding accession**

I.

1. In order to ensure that the Kingdom of Norway, the Republic of Austria, the Republic of Finland and the Kingdom of Sweden, hereinafter referred to as the 'accessing States', are kept adequately informed, any proposal or communication from the Commission of the European Communities which might lead to decisions by the Council of the European Union shall be brought to the knowledge of the accessing States after being transmitted to the Council.

2. Consultations shall take place pursuant to a reasoned request by an accessing State, which shall set out expressly therein its interests as a future member of the Union and its observations.

3. Administrative decisions shall not, as a general rule, give rise to consultations.

4. Consultations shall take place within an Interim Committee composed of representatives of the Union and of the accessing States.

5. On the Union side, the members of the Interim Committee shall be the members of the Permanent Representatives Committee or persons designated by them for this purpose. The Commission shall be invited to be represented in this work.

6. The Interim Committee shall be assisted by a Secretariat, which shall be that of the Conference, continued for this purpose.

7. Consultations shall normally take place as soon as the preparatory work carried out at Union level with a view to the adoption of decisions by the Council has produced common guidelines enabling such consultations to be usefully arranged.

8. If serious difficulties remain after consultations, the matter may be raised at ministerial level at the request of an accessing State.

9. The above provisions shall apply *mutatis mutandis* to the decisions of the Board of Governors of the European Investment Bank.

10. The procedure laid down in the above paragraphs shall also apply to any decision to be taken by the accessing States which might affect the commitments resulting from their position as future members of the Union.

II.

1. The procedure provided for under I shall apply *mutatis mutandis* to draft Council Decisions defining common positions within the meaning of Article J.2 of the TEU or adopting joint actions within the meaning of Article J.3, subject to the following provisions.

2. It is for the Presidency to bring these drafts to the attention of the accessing States when the proposal or communication is issued by a Member State.

3. Save for a reasoned objection from an accessing State, consultations may take place in the form of the exchange of telefaxed messages.

4. Should consultations take place within the Interim Committee, the Members of that Committee belonging to the Union may, where appropriate, be the Members of the Political Committee.

III.

1. The procedure provided for under I shall apply *mutatis mutandis* to draft Council Decisions defining joint positions or adopting joint actions within the meaning of Article K.3 of the TEU and also to the drawing up of conventions as provided for under that Article, subject to the following provisions.

2. It is for the Presidency to bring these drafts to the attention of the accessing States when the proposal or communication is issued by a Member State.

3. Should consultations take place within the Interim Committee, the Members of that Committee belonging to the Union may, where appropriate, be the Members of the Committee referred to in Article K.4 of the TEU.

IV.

The Kingdom of Norway, the Republic of Austria, the Republic of Finland and the Kingdom of Sweden shall take the necessary measures to ensure that their accession to the agreements or conventions referred to in Articles 4 (2) and 5 (2) of the Act concerning the conditions of accession and the adjustments to the Treaties coincides so far as possible, and under the conditions laid down in that Act, with the entry into force of the Treaty of Accession.

Insofar as the agreements or conventions referred to in Article 3, the second sentence of Article 4 (1) and in Article 4 (2) exist only in draft, have not yet been signed and probably can no longer be signed in the period before accession, the acceding States will be invited to be associated, after the signature of the Treaty of Accession and in accordance with appropriate procedures, with the preparation of those drafts in a positive spirit and in such manner as to facilitate their conclusion.

V.

With regard to the negotiation of the Protocols of transition and of adjustment with the co-contracting countries referred to in Articles 59, 76, 102, and 128 of the Act concerning the conditions of accession, the representatives of the acceding States shall be associated with the work as observers, side by side with the representatives of the present Member States.

Certain non-preferential agreements concluded by the Community, which remain in force after 1 January 1995, may be the subject of adaptations or adjustments in order to take account of the enlargement of the Union. These adaptations or adjustments will be negotiated by the Community in association with the representatives of the acceding States in accordance with the procedure referred to in the preceding paragraph.

VI.

The institutions shall, in due course, draw up the texts referred to in Article 170 of the Act concerning the conditions of accession and the adjustments to the Treaties.

(94/C 241/10)

The Plenipotentiaries of the Kingdom of Belgium, the Kingdom of Denmark, the Federal Republic of Germany, the Hellenic Republic, the Kingdom of Spain, the French Republic, Ireland, the Italian Republic, the Grand-Duchy of Luxembourg, the Kingdom of the Netherlands, the Portuguese Republic and the United Kingdom of Great Britain and Northern Ireland, Member States of the European Union, and the Plenipotentiaries of the Kingdom of Norway, the Republic of Austria, the Republic of Finland and the Kingdom of Sweden signed the Treaty concerning the Accession of the Kingdom of Norway, the Republic of Austria, the Republic of Finland and the Kingdom of Sweden to the European Union in Corfu on 24 June 1994.

On that occasion the Kingdom of Belgium made the following declaration:

'By signing this Treaty on behalf of the Kingdom of Belgium, both the Belgian federal authorities and the French-speaking Community, Flemish Community and German-speaking Community of Belgium, the Wallonian Region, the Flemish Region and the Brussels Region have entered into an undertaking at international level.'

The other States signatory to the Treaty of Accession made the following declaration:

'The other States signatory to the Treaty of Accession understand that the unilateral declaration by Belgium is an explanation of Belgian constitutional law, which cannot prejudice the fact that the Kingdom of Belgium alone is a Contracting Party to this Treaty and therefore alone responsible vis-à-vis the other signatory States for fulfilling the obligations which it has assumed in this Treaty as a Member State of the European Union.'

The Kingdom of Belgium confirmed that this was indeed the case.

These minutes will be published in the *Official Journal of the European Communities*.
